TO SEND MONEY SAFELY AND ECONOMICALLY ... USE BANK MONEY ORDERS

Money is important. Don't take chances with it! Send it in the safest way possible . . in the form of bank

Yes, bank money orders are safe . . convenient and economical, too. The cost is even less than you would ordinarily pay for a Post Office money order. That's something to remember. And of course bank money orders can be cashed anywhere. They're as "good as gold."

The next time you send money—to pay out-of-town bills, income tax installments, insurance premiums, or to make any regular, everyday payment — do it in the form of bank money orders. No long, difficult forms to fill out. Just a few strokes of the pen and the job's done. Better still, you're given a large retainable receipt for your files. That means that when income tax time comes around you'll have positive proof of your expenditures . . actual records. And these days, records are really important!

So hereafter, when you send money-for any purpose send a bank money order. Safe -- economical -- convenient. Buy one today.
