THE NEWSPAPER THAT WORKS FOR A BIGGER, BETTER BOVINA

WEDNESDAY, FEBRUARY 7, 1962

BOVINA, TEXAS

VOL. VII, NO. 32

## WHITTLIN'

BY DOLPH MOTEN

This comes under above and Beyond Call of Duty Department.

According to reports which drift this way from east of town--out Hub way--Bill Woolley, Hub businessman, deserves some honor or at least a little dab of publicity for some fine community work he OVERdid.

Just prior to Hub's annual community sale, as the story goes, Woolley was in charge of getting the multitude of cars and pickups parked.

He was doing a tremendous job of it too. With various signs and motions, he was getting vehicles just where they needed to be from a good parking situation standpoint.

One particular car took a few extra motions to get located just right in line. But with a lot of effort, Woolley got the man parked just where he should be.

Down came the man's window and the question boomed forth, "What's going on here?"

"Why, we're about to have annual Hub community auction sale," Bill pointed out with pride.

"That's fine with me," the man replied, "but why do you park me here when I'm trying to go to Muleshoe?"

And probably the people who put Bill on parking committee didn't tell him to park only cars of those people who wanted to attend the sale. They most likely told him that he was in charge of parking period.

We like to see a man do a job well. And if we don't see it, we like to hear about it.

R. L. "Hop" Hoppingardner is another fellow who takes his civic work seriously.

He is range master of Bovina Gun Club. To see that safety is practiced on the gun range is one of his responsibilities.

To demonstrate, no doubt, how easily accidents can happen, Hop accidentally fired his shotgun while on the range recently just as he bringing it up to his shoulder.

That's why shingles on trap house now resemble fur on a mad cat's back.

That was as serious as the accident was, of course, and it was a really good way to point out constant need for extreme caution while engaged in sport of trap shooting.

Shotgun enthusiasts here are displaying a much greater amount of caution now than they did at first turkey shoot here a couple of months ago. They're wise in doing so.

For instance, according to rules, no gun may have a shell in it unless its user is on firing line and preparing to shoot. That's just one of many rules and they're all backed by common sense.

George Douglas is going to be ruination of us yet on this shotgun business. A few days ago we were out at the range on semi-business. George insisted that we take his gun and his shells and "try it".

We did and liked it. Hit two birds out of four, too. That was enough to show us how easy it would be to get trap shooting fever. And once you get it, we suspect, it would be harder to get rid of than a dozen kittens.

We don't even like to think about it, but that loquacious sore-headed ex-general Walker, who recently became a candidate for governor on Democratic ticket is as out of place as a duck on a desert.

After making speech after speech after speech in favor of Republican-type government during the past few weeks, he announces as a Democrat!

We feel that this move is almost enough to destroy all the good work which has been done to build Texas into a two-party state during past year.

Senator John Tower has proven that a Republican can run a winning race in Texas.

SHOW TIME A'COMING--Vocational Agriculture Instructor Roy Crawford applies clippers to head of crossbred steer of Dennis Johnston who is at the halter. Several steers which will be exhibited in FFA show here next month were brought to school Friday of last week so their heads and tails could be clipped and to familiarize them with a crowd.

## ON PROPERTY HERE--

### Highway Dept. Accepting Bids

State Highway Department is again accepting sealed bids for department-owned property at intersection of Third Street and Highway 86 in Bovina.

Four bids which were submitted last month were rejected by the state.

New bids will be opened in office of O. L. Crain, district engineer, in Lubbock, March 14. Lloyd Killough, maintenance foreman here, says.

State appraised value of the land is \$7650.

High bid submitted last month was \$5050.00. That bid was made by Lynn Isham of Bovina. B. V. Hughes of Farwell submitted second high bid of \$5025.25. A. L. Glasscock and Warren Embree of Bovina bid \$3600.00. Low bid of \$2151.76 was by Doyle B. Sewell.

Killough says that bids sheets will be distributed to individuals interested in near future. The property was formerly

## STATE'S TOP CORN YIELD--

### Ferguson Wins DeKalb Award

For fourth consecutive year, a Bovina farmer has been named state champion corn produced by DeKalb Agricultural Association.

This year's winner is Martin Ferguson who had an average yield of 174 bushels per acre. J. T. Hammonds, DeKalb representative here, announces.

Tom Beauchamp had top milo yield in Parmer County during '61 with an average of over 12,000 pounds per acre. Second in county was Art Mast with over 11,000.

Bovina people attending DeKalb awards banquet in Amarillo last week with Hammonds were Mr. and Mrs. Ferguson, Mr. and Mrs. Beauchamp, Mr. and Mrs. Mast and Mr. and Mrs. J. B. Barrett.

DeKalb presented the Fergusons with a set of stainless steel tableware for the state championship honor.

Previous winners of the state

## WEATHER

by WILLIE

Still cold and dry, nothing in sight so far for moisture of any kind this week.

---Willie

### Mrs. Dickenson Funeral Held Here Saturday

Funeral services were conducted in First Baptist Church of Bovina Saturday for Mrs. Elizabeth Dickenson, 68, of El Monte, Calif.

Mrs. Dickenson died in El Monte Thursday following a lengthy illness.

Rev. John Ferguson, pastor, officiated.

Mrs. Dickenson was born January 21, 1894, in Breckenridge. She moved to California from Amarillo in 1938.

Survivors include three sons, Jess Staples of San Diego, Calif., Melvin Staples of Spokane, Wash., and R. B. Staples of El Monte, Calif.; three daughters, Mrs. Elizabeth Neavill of El Monte, Calif., and Mrs. Violet Gremstead of Fort Ord, Calif., and Mrs. Donna Tracey of West Covina, Calif.; four sisters, Mrs. Dollie Williams of Hereford, Mrs. Nettie Bell and Miss Francis West of Memphis, Tenn., and Mrs. Janie Folks of Amarillo; one brother, James West of Washington, D. C. and 16 grandchildren.

Serving as pallbearers were Joe Wilson, Jesse Walling, Ted Walling, Tiny Walling, Maurice Means and Doug Nix.

Burial was in Bovina Cemetery under direction of Claborn Funeral Home, Friona.

### John Zahn Joins Race For Senate

John Zahn, Farwell real estate dealer, has announced that he will seek election as State Senator from the 30th Senatorial district which includes Parmer County.

Zahn, 36, is a Republican who has resided in Farwell for the past five years.

"I feel like it is time Texas had a two-party system and feel it would make for a better government to have such a system," he said in making his announcement.

"It is my aim to represent the people of the 30th Senatorial district fairly and honestly and to uphold our state's rights and maintain free enterprise, and I will never make a decision for political expediency," he added.

Zahn is a graduate of Baylor University and served in the Army from 1943 to 1945. Part of his service was with the 106th Infantry in Europe.

He is married and has two sons, Craig, 6, and Mark, 4. His wife, Jo Ann, is county

(Continued on page 8.)

## IN GUN CLUB--

### Hoppingardner Top Marksman

R. L. "Hop" Hoppingardner is top shotgunman in Bovina. He earned the title in a trophy shoot for members of Bovina Gun Club at newly-constructed trap shooting range here Sunday afternoon.

Hoppingardner hit 35 of 50 "birds" to earn the title.

George Douglas was second with 30 of 50. Third place ended in a three-way tie with Art Mast winning the honor in a shoot-off with Jim Russell. Also tying for third but not participating in shoot-off was Lloyd Gober. Each of the three hit 29 of 50. Mast hit seven of nine in contest to determine third place winner.

Members voted to have the club shoot at a called meeting Thursday night at Three-Way Chemical Co.

A set of rules and regulations was adopted to govern members' activities at the range.

Also, members present at the meeting voted to not have club-sponsored shoots at the range until after 1 p.m. on Sundays.

Charlie Owen, secretary of the club, presided in absence of President Russell and Vice President Ed Hutto.

Mast discussed rules which were adopted by club.

Bovina shotgun enthusiasts are invited to participate in a Valentine Candy shoot at Friona, Saturday and Sunday afternoons. The shoot will be at Friona Gun Club range which is east on highway 60 and is sponsored by Friona Volunteer Fire Department.

NEW CHURCH BUILDING--Bovina Church of Christ Minister Don Stone is shown with a painting of new church building which is slated to be constructed soon. Stone is pointing to figures \$16,023.19 which is amount which has been raised toward building fund goal of \$20,000. Building construction is expected to take about 90 days.

FEBRUARY 12-18--

### Church Of Christ Slates Meeting

A week-long series of gospel meetings has been scheduled by Bovina Church of Christ.

Dates of the Services are Monday, February 12 through Sunday, February 18, Don Stone, minister announces.

Evangelist will be Stanley Lockhart of San Angelo. Lockhart is a former minister of

Friona Church of Christ and has done outstanding work in evangelistic field, Minister Stone says.

Services are scheduled twice daily--at 10 a.m. and 8 p.m. Congregational singing will be a feature of the meeting, Stone says.

Announcement of the meet-

STANLEY LOCKHART

### Suffers Mild Heart Attack

Lee Thompson, county tax assessor-collector, suffered a mild heart attack Wednesday night and was admitted to the

Parmer County Community Hospital early Thursday morning.

ing is made in an advertisement in this issue.

"Everyone in community is cordially invited to attend one or all of the services," Stone says.

## FIRST DISTRICT DEFEAT--

# Cold Mustangs Lose To Happy

Bovina Mustangs dropped their first District 4-B tilt of the year in Williford Gym here Friday night. Happy was the winner, 48-37. Happy Cowgirls downed Bovina Fillies, 48-29.

Mustangs were favored to win their game, but Fillies were given only a slight chance in their contest with talented Cowgirls.

Ponies held on for a half against the determined Cowboy quintet but Happy pulled into lead to stay in third period and built up the 11-point winning margin.

Score at end of first quarter was 5-11 in Happy's favor. Bovina had sliced the difference to 17-18 at halftime rest period. By three-quarter mark, Cowboys had boosted the point spread to five, 26-31.

Bovina boys were unable to shake a cold streak that was

with them as game began. They were never able to regain the form which left them undefeated in district play prior to this game.

Jerry Frazier was high point for Bovina with 11. Don Cump-

ton and Donnie Young, who left the game via foul route in third quarter, had nine each. Buddy Turner contributed four, Mac Glasscock made 2. David Law-

(Continued on page 8.)

### Contract Will Be Let Soon

Members of Bovina Church of Christ are on brink of launching an \$85,000 church building program.

Construction is scheduled to begin around March 1. Minister Don Stone announces, with completion date slated for about June 1. Contract will be let in near future.

The new building will be built in an L-shape around present church building. When new building is ready for use, present building will be moved with space it occupies being paved and used for parking.

Estimated cost of new structure is \$85,000. It will contain 14 classrooms, a large fellowship room with a complete kitchen and an auditorium which will seat 400. The auditorium will have an overhead-type nursery facility.

The auditorium will be furnished with upholstered opera-type chair. Interior decorating will feature pine paneling with exposed beams.

Total space in building will be 9800 square feet.

Exterior will be in an autumn blend of brick set off by a double panel of colored glass in front.

Plans are to have \$20,000 of the total cost on hand when the building is started. Balance of cost will be financed, Minister Stone says. Approximately \$16,000 is in building fund at present.

Plans for the new structure have been on drawing board for several months.

### Dry Goods Store Open

Bovina Dry Goods has reopened under management of Edward Isaac, who has moved here with his family from Lubbock.

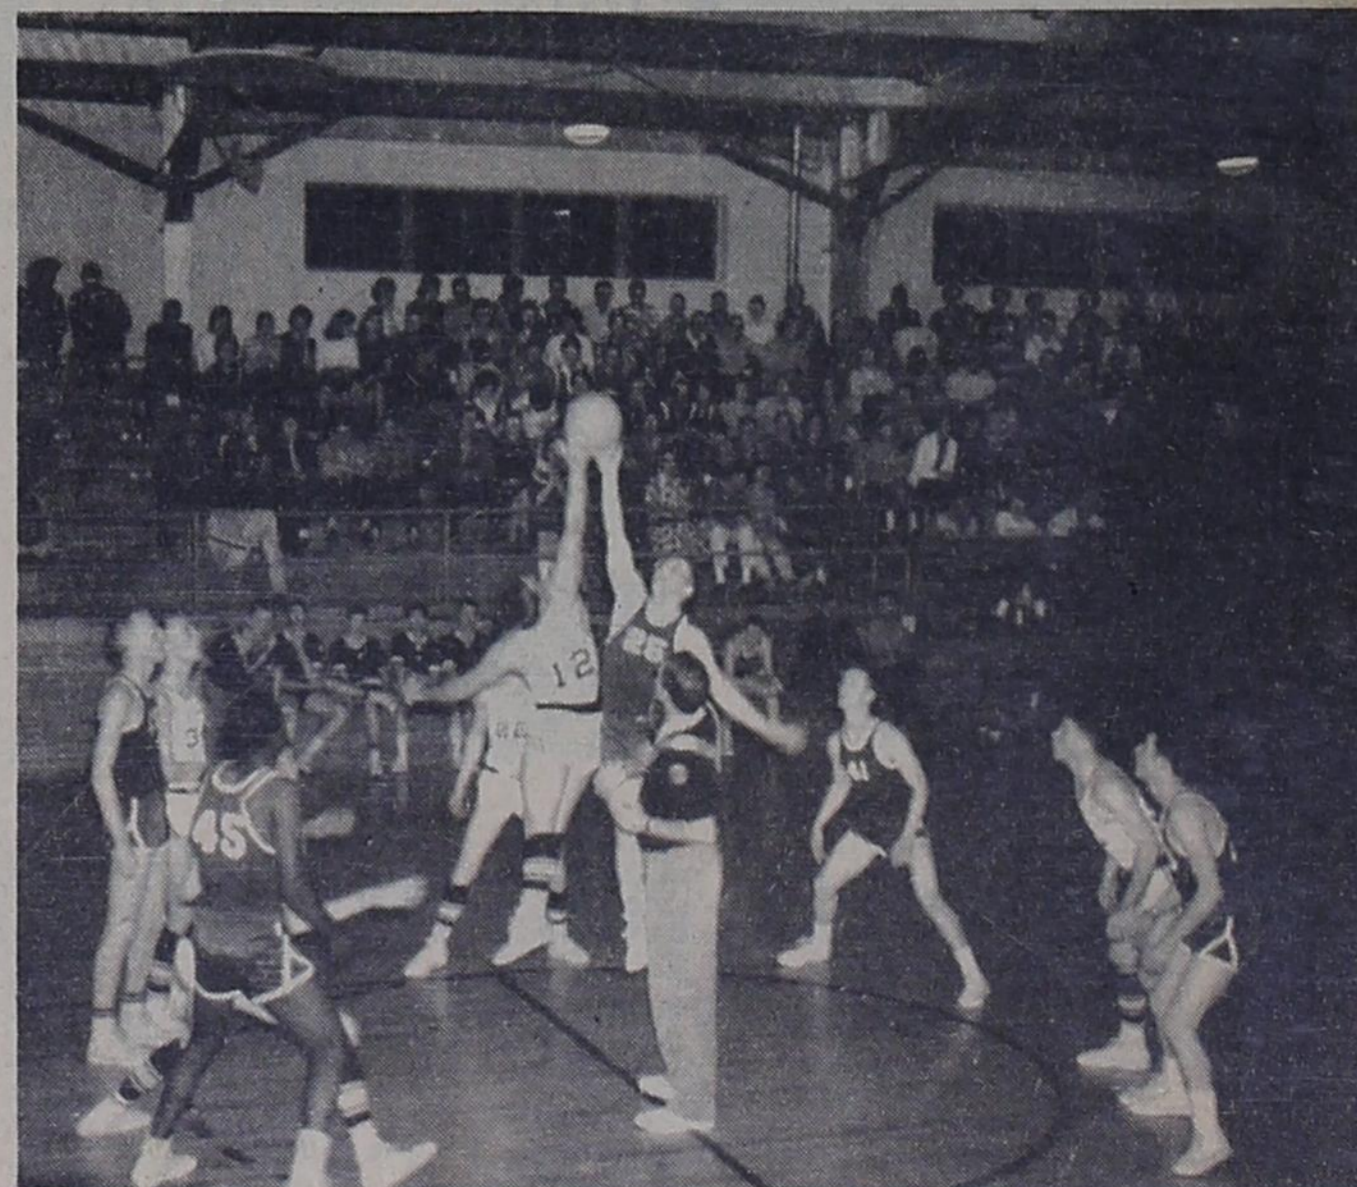

He plans remodel building which store occupies on Main Street. That work is scheduled to begin soon.

Originally from Pennsylvania, Isaac is married and has three pre-school age children.

An advertisement in this issue of The Blade announces that the store is open.

"Have you seen the grocer's bill, dear?" she asked the bank teller.

"I sent it back to him, darling, marked 'insufficient funds.'"

JUMPI -- Camera catches Mustang Don Cumpston (No. 25) and a Happy player at peak of their jumps during first quarter of game here Friday night. Other Mustangs, who are in dark suits, are left to right, Donnie Young, Jerry Frazier, Mac Glasscock and Buddy Turner. Happy won the game, 48-37.

### Letter To The Editor

February 5, 1962

Mr. Dolph Moten Editor, The Bovina Blade Bovina, Texas

Dear Dolph:

Occasionally something occurs that causes us to feel that it might be well to put in print the philosophy behind athletics as played by Texas high schools. We believe our local fans are the best and we have no ill feeling toward any one of them. They are the ones who make our athletic program go and we have the best in our district. I would like to give the following code which must be agreed upon by each school that participates each year. We call it the basketball code and it follows:

The basketball code means to play the game in the spirit of fairness and clean sportsmanship; to observe all rules and not attempt to hold, "beat the ball," or coach from the side lines because it can be done without the knowledge of the referee, or to resort to trickery in equipment of preparing players, it means to accept decisions of officials without protest and to see that proper precautions are taken for their protection and safety; to treat your opponents as your guests, and to put clean play and real sportsmanship above victories. It means the ability

to win without boasting and to lose without grudge. "Victory is no great matter. The important thing in sport is the manly striving to excel and the good feeling it fosters between those who play fair and have no excuse when they lose."

Basketball rules further require officials to penalize fans for making undue remarks by assessing a technical foul against the team concerned. We have the following schools in Texas who are presently out of the league because of this penalty: Burkburnett High School, Godley High School, Anna High School and Bridgeport High School.

We print this information because it is for our own good as much as for our fans. We make mistakes, too, and it is good for us to be reminded. We like to win and we will continue to try to win, but we do like the good spirit that exists between our schools and we will try to keep it that way. In doing this we have to admit that sometimes our officiating is as bad as the local telephone service, but we are still required to treat them as our guests.

I will appreciate it if you see fit to print this. Very truly yours, Warren Morton Superintendent, Bovina Schools

P. S. I did not intend to hide the comment about local telephone service. I feel that it is most unfortunate that we cannot do better on this.

### HORSE SHOW PLANS MADE--

## Calaway Prexy Of Roping Club

Bovina Roping and Rodeo Association's second annual Quarterhorse show will be between July 15 and August 15. That decision was made at a special meeting of association

members Thursday night in Bovina Restaurant.

Robert Calaway was elected president of the group for coming year. He succeeds Wendol Garner, who presided over the club during its first year of operation.

Elected vice president was Rouel Barron. Hugh Moseley was named secretary-treasurer, replacing Al Kerby.

The group agreed to add calf roping as a part of this year's horse show. Exact date of the show will be set by American Quarterhorse Association during the 30-day period decided on by the club.

In other business, committees for this year's show were named.

Ring director will be Barron. Kerby and Garner will

serve on trophy committee. Members of concession committee are Burl Spears, Jim Charles, A. M. Wilson, and C. E. Trimble.

Vernon Estes and T. O. Lesly are on trophy presentation committee. Dolph Moten will be in charge of advertising. R. T. Harbour and Tommy Williams are on show parking committee.

Members interested in calf roping this year agreed to buy two calves each to be used for that purpose. Calaway will be in charge of buying the calves. Association will feed the calves and will make profit, if any, from them. Individuals will get their original cost back at end of season.

Dues in amount of \$10 were assessed to all members who plan to be active members during the year.

### Blade Sawdust by SUE MOTEN

That old adage "There's no place like home" certainly is true. After living out of a suitcase for a week it is nice to be able once again to go to the closet for a change of clothes instead of dragging a bed-ragged looking garment out of a bag. The aspect of traveling we have never learned to contend with is what to do with the dirty clothes. One surely hates to put them in the bag with what is supposedly clean and yet they can't be left out. Looks like some of the manufacturers of luggage would come out with a suitcase that would have one side for clean clothes and one side for dirty things.

Haven't decided whether I was born too late or just missed out on a good thing. What I am referring to is "sopping."

Now this is an art that most people are familiar with. At least Pat Sherrill, C. R. Brandon and a few others think everyone should be acquainted

with sopping. It seems the thing is to have hot biscuits, or light bread with substitute, and syrup. Not being entirely familiar with this particular habit am not quite sure whether one breaks the break into the plate then pours syrup over it or whether the syrup is poured into the plate and the bread then put on the syrup. Anyway it must be quite a delicacy since Pat and C. R. are astounded at the fact that one could live so long and not have tasted sop and syrup. Guess we will have to try this dish.

Speaking of eating, while in Central Texas for holidays we certainly got spoiled. They have homemade butter, thick cream and peach preserves that can't be equalled. One could certainly get in a bad position if he got used to all that cream and butter. At our household margarine is the only thing we are acquainted with and canned milk is the cream. The only thing good about it is the fact that there are fewer calories in our dishes than that of our relatives.

### PARMER Hospital Notes COUNTY

Admissions to Parmer County Community Hospital after January 30, 1962.

Mrs. Lee Cranfill, Friona, O. B.; Charles Lee Thompson, Farwell, Med.; Earl L. Jameson, Friona, Med.; Virginia G. Jennings, Friona, Med.; Saragosa Alonzo, Bovina, Med.; Margaret J. B.; Howard Keith Bradford, Hereford, surg.

DISMISSALS FROM P.C.C.H. SINCE JANUARY 9, 1962

Virginia Drager, Verna Isabelle Lewellen and baby boy, Mrs. Paul Warren, Allen Ray Day, Charles Barber, Jobey Claborn, Richard Cardenas, John Lide, Mrs. Harold Norrod and baby girl, Mrs. Lawrence Jamerson and baby boy, Mrs. S. W. Grubbs, Mrs. Jewel Barry.

Mrs. Ernest Mingus, Mrs. A. L. Reznick, Joe Paul, Edward White, Bobbie Traylor, Lena Menefee, Mrs. Eldon Sparkman, Becky Schueler, Douglas Gaines, Roy Weidner, Joe McLellan, Scott Watkins, Donald Rule, and Mrs. J. R. Houston.

### SPORTS AFIELD

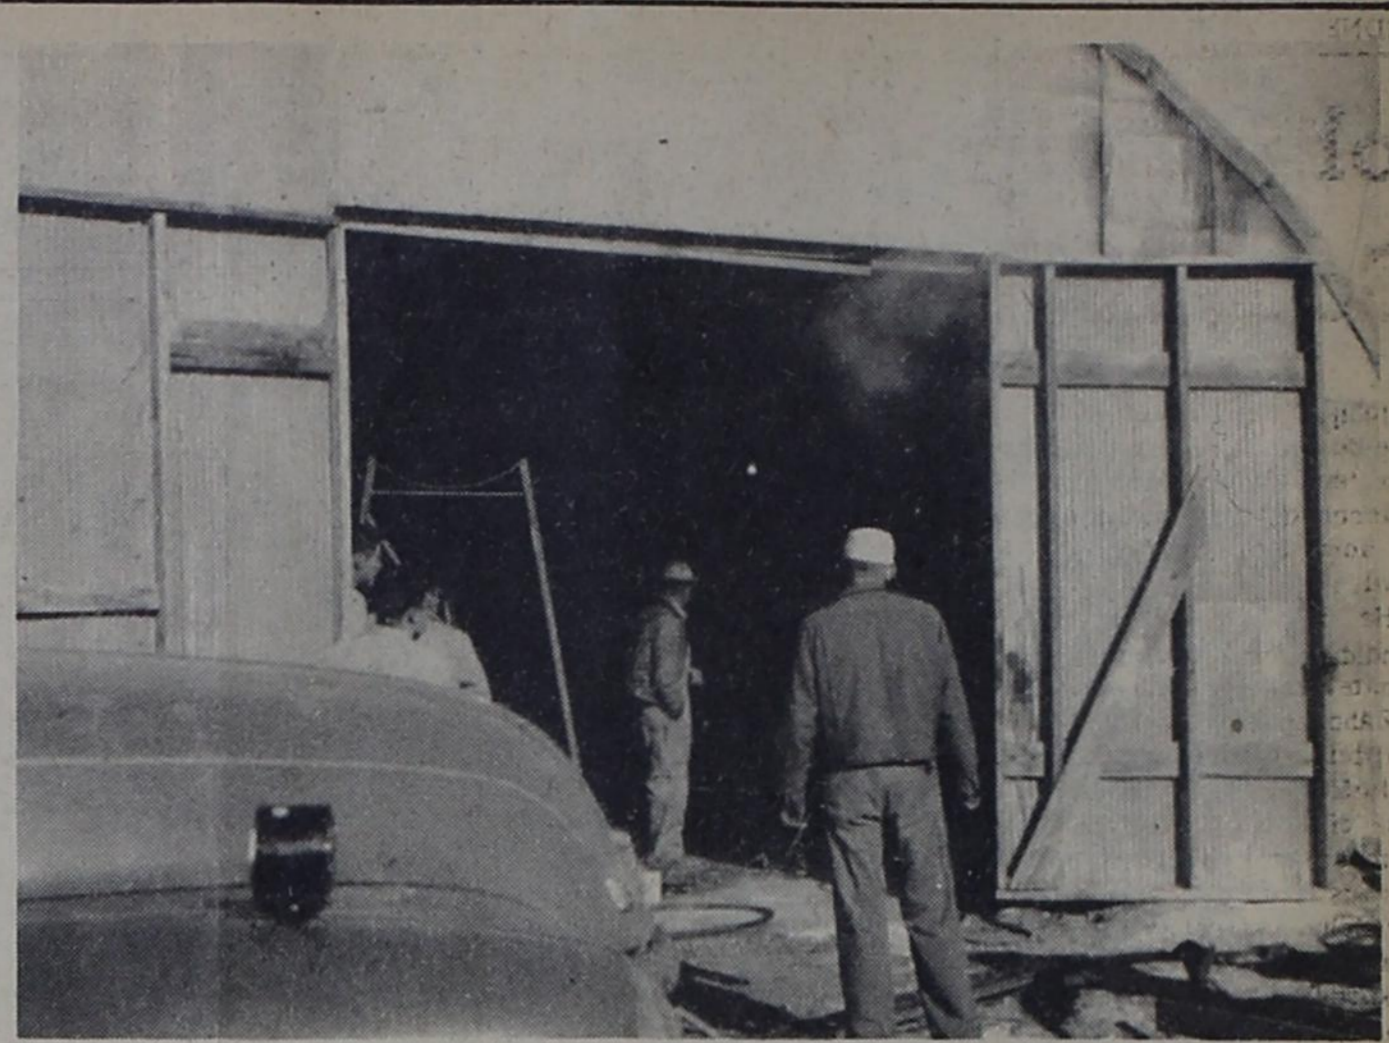

By Ted Kesting

The American coot is the most un-raillike of all our rails, states Tom Dolan, contributor to Sports Afield Magazine. It is sometimes called Blue Peter, shuffler, splatter, white-bill, marsh hen, meadow hen, or just coot. It is more at home in the water than in the marshes, except perhaps during the breeding season. Most rails will swim if they must; the American coot swims because it wants to.

This is one of those game birds that is viewed with mixed emotions by the sportsmen of America. Some know it for the highly desirable game bird which it can be; others despise it as a pest, which it also can be. No matter what your opinion of the coot, you will have to admit that it can be an amusing and interesting bird to watch. Many hunters swear up and down that the darned things are half chicken, half duck—and all clown!

The American coot has become so acclimated to water that its feet have developed scalloped lobes, which are as efficient as the webs on the feet of ducks. They certainly act more like the ducks than do other rails; in fact, they are quite often seen mixed with flocks of ducks. However, their white bills, which are chicken-like and fairly small, along with frontal shields, make them easy to identify.

Fishermen see coots more often than any other game bird. Coots are rather stupid, and many times they work themselves well into the area of a fisherman's boat. At these

BOOM! BOOM! -- A pair of loud, explosion-like sounds in Bovina Monday morning were result of an acetylene generator blowing up at James Taylor's blacksmith shop. Taylor, who was working in the shop at the time, was uninjured. A small fire which resulted was quickly put out by volunteer firemen. Hood of fire truck is in foreground.

### AT PENTECOSTAL CHURCH--

## Youth Week Program Set

National Pentecostal Holiness Youth Week is being observed this week, February 5 through 11, by youth of Bovina Pentecostal church, according to Rev. Paul Miller, pastor.

Highlighting the week will be a program presented Sunday morning by teen-age groups of church and the youth choir.

Directing the program are Mrs. Max Crim and Mrs. Buck Crim, youth leaders. Taking part on the program are Alfred Stanberry, Barry McCutchan, Harold Stanberry, Evelyn Stanberry, Keith McCutchan, Doyle Crim, Dean Stanberry, Danny Stanberry, Pauletta Miller, Kent Stanberry, Mike Miller, Linda Stanberry, and Brenda Stanberry.

Public is invited to attend the service Sunday morning, which will be titled "Witnessing for Christ."

American coots are easy to rear in captivity and become quite tame, except during the breeding season, when they get meaner than sin! The nests of these birds are usually cup-shaped, woven out of leaves and stems of marsh plants. They rest on a platform of the same material, which floats in the water and is anchored to some growing plant. Clutches have from seven to sixteen creamy-pink or buff eggs that are evenly spotted over the entire surface with fine black or brown spots.

No other duck has so wide a distribution as the gadwall. Of the larger regions of the world, it is missing from only South America and Australia.—Sports Afield.

In the population 18 years old and over in 1960, one woman in every ten fished, one in every 69 hunted; one man in every five hunted and one in every four fished.—Sports Afield.

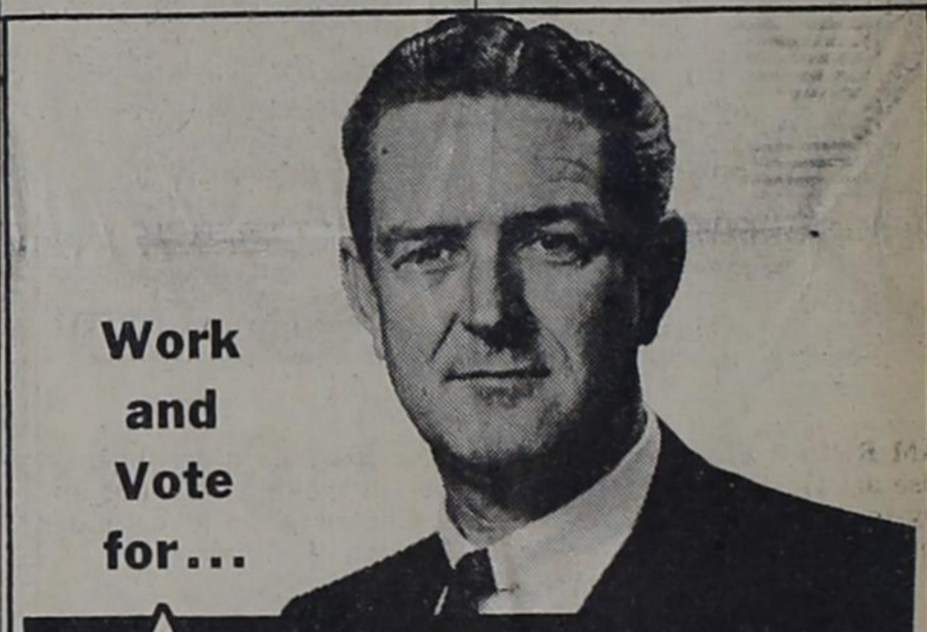

### Long, Welch In Race For Demo Chairman

Wes Long, Hub farmer, has announced as a candidate for Parmer County Democratic chairman.

Long joined Nelson Welch, who has served as head of county Demo party for past two years after being elected to the post in '60, in the race. Both men are Friona residents.

Welch succeeded Gabe Anderson of Farwell who served for several years prior to 1960. Candidacies of Long and Welch are subject to May 5 Democratic primary.

The blue jay is a mimic and aside from its characteristic raucous call can emit a variety of notes, including a beautiful, high-pitched, organlike piping.

# John Zahn Opposes 'Socialistic Trend'

John Zahn, Farwell real estate dealer, is fed up with present 'socialistic trends' in the government and has decided to do something besides sit and howl.

He filed as a Republican candidate for 30th district state senate seat Monday.

Zahn is not an experienced politician but he does not seem intimidated by the monumental task of defeating the incumbent Democratic Senator Andy Rogers in the coming campaign. Zahn was raised in Democratic surroundings but became a political independent while attending Baylor University. He points to 1951 as the time when the Republican viewpoint began appealing most strongly. Although he may not entirely agree with the Republican platform, he looks upon it as the only logical means of stopping the "socialistic movement."

"The Republican party is the only conservative element left to fight the socialistic trend in our present government," Zahn said. "We've GOT to buckle down and stop the drifting away from the principles on which our government was founded before it is too late" he added.

"I do not want to see the government in any business

which can be operated by people on a free enterprise basis," he stated.

The 36-year-old ex-postmaster of Farwell looks upon the 'New Frontier' as the 'final ruination' of this country.

The tall, dark haired Zahn explained his decision to enter the senatorial race very simply:

"I am interested in preserving the principles upon which our government was founded and I think the state senate will be a good place to start working in this direction," he stated.

Even though he is serious in his wish to wedge the wheels of the Democratic bandwagon, he will have his work cut out for him in the coming campaign. Senator Rogers has also announced his intentions to seek re-election and after his recent efforts in support of the irrigation gas legislation, he will be hard to defeat in this area.

Zahn has lived in Farwell for the past five years. His wife, Jo Ann, is the county visiting teacher. They have two sons, Craig, 6, and Mark, 4.

He served with the 106th Infantry in Europe during WW II. "I am interested in leaving for our children, the high standards and principles of government which our founding fathers gave to us," Zahn stated.

## A Dish to Delight

**HAM ROLLS FILLED** with quick-frozen whole green beans—those aristocrats of frozen vegetables... make a delicious and easy-to-fix luncheon or dinner dish. Cheese sauce gives added protein and slivered almonds a crisp touch of elegance.

### HAM AND GREEN BEAN ROLL-UPS

- 1 package (9 ounces) quick-frozen whole green beans, cooked and drained
- 2 tablespoons butter
- 2 tablespoons flour
- 1/2 teaspoon salt
- 1/4 teaspoon pepper
- 6 thin slices pre-cooked ham
- 1 1/2 cups milk
- 2 tablespoons (about) prepared mustard
- 1/2 cup grated Cheddar cheese
- Slivered almonds (optional)

Divide whole green beans into 6 portions. Spread each slice of ham lightly with mustard; roll up a portion of the beans in each ham slice. Arrange rolls in a shallow 6x10-inch baking dish. Meanwhile, melt butter in a saucepan. Add flour and seasonings and blend. Add milk; cook over low heat until thickened and smooth, stirring constantly. Add grated cheese, stirring until blended. Pour over ham rolls and sprinkle with almonds, if desired. Bake in a moderate oven (375° F.) until hot and bubbly. If desired, brown lightly under broiler. Makes 3 servings.

**Electric Cabinet Dries Wash Without Wrinkles**  
Where space is a problem, a practical investment is a folding clothes dryer equipped with aluminum racks which hold all types of washables to dry in circulating warm air.

It operates on standard household current, needs no installation, shuts off automatically, and folds up to only 6 inches deep for storage. Hanging clothes up is said to leave fewer creases than tumble-drying.

## "Pioneers In Bovina"

Shoes

FIVE GENERATIONS--Great-Grandfather O. W. Rhinehart is shown with members of his family who represent five generations. At left is his mother, Mrs. J. C. Rhinehart of Haynesville, La. Next to Rhinehart is his daughter Mrs. Jack (Gwen) Williams of Clovis. Next to her is Mrs. Sonny (Teri) Wiginton of Portales. She is holding her son, Kenneth Paul Wiginton.

### Woman's Club To Have Special Guests For Cancer Program, Thurs.

Women of Community and surrounding areas are invited to be special guests of Bovina Woman's Study Club Thursday

afternoon at 3 p.m. at clubhouse for a study of Cancer Education. Dr. T. J. Glenn of Farwell will be present to conduct a discussion group following the two films to be shown to women. Mrs. Earl Stevenson is in charge of the program and social committee will host the meeting.

Women are urged to attend by members of club and president, Mrs. Ovid Lawlis.

### Coffee Fetes Mrs. Ehersman

Mrs. Allen Ehersman was honored with a lullaby coffee Saturday morning at home of Mrs. Dolph Moten. The serving table was laid with an ecru damask cloth and featured a pink umbrella adorned with ribbons and flowers. Refreshments of Swedish tea ring, coffee, tea and nuts were served to guests. Those calling during the morning were Mrs. Art Mast, Mrs. Burl Spears, Mrs. Don Owens, Mrs. D. R. Bushnell and Mrs. A. J. Ellison of Plainview. Several unable to attend sent gifts. Hosting the affair were Mrs. Jimmy Ware and Mrs. Moten.

### Mrs. Bill Read Hospitalized

Hospitalized Friday at Memorial Hospital at Clovis was Mrs. Billy Don Read. She is reported to be improving.

### Hospitalized

Mrs. H. J. Charles is hospitalized at Parmer County Community Hospital in Friona for medical reasons. She is reported to be improving.

### Bridal Shower Will Honor Mrs. Carpenter

Mrs. Terry Carpenter, formerly Miss Janice Leake, will be feted with a post nuptial shower Friday, February 9 at Methodist Church at 3:00 p.m. Friends are cordially invited. Hosting the occasion are Mrs. Tom Bonds, Mrs. John Wilson, Mrs. Pat Kunselman, Mrs. J. W. Wright, Mrs. C. R. Brandon, Mrs. H. J. Charles, Mrs. Billie Sudderth, Mrs. Roy Crawford, Mrs. E. M. Ware and Mrs. O. H. Jones.

### Return From Fishing Trip

Four Bovina couples returned Sunday evening following a vacation and fishing trip to Falcon Lake. Those making the trip were Mr. and Mrs. Oakley Stevenson, Mr. and Mrs. Leon Ware, Mr. and Mrs. Jimmy Clements, and Mr. and Mrs. Vernon Willard.

### Farewell Party Fetes Mrs. Spicer

Mrs. Henry Spicer was honored with a farewell party Tuesday evening at City Drug by members of Friendly Circle Sunday School class of First Baptist church.

Following a dinner party which was hosted by Mrs. Harold Hawkins and Mrs. Billy Ray Horton, the 4 played games. The group presented the honoree with a skirt and sweater as a farewell gift.

Attending were Mrs. Bob McMeans, Mrs. James McLeroy, Mrs. Travis Dyer, Mrs. Martha Straw, Mrs. Charles Embry, Mrs. Wendol Garner, Mrs. Grady Sorley, Mrs. Bobby Englant, Mrs. J. B. Barrett, Mrs. Jim Russell, Mrs. John Ferguson and the hostesses. The Spicers have moved to Nazareth.

### Mrs. Caldwell Has Luncheon

Mrs. J. R. Caldwell hosted a covered dish luncheon for members of Quilting Club Thursday in her home. Following the luncheon guests did hand work and played games. Those present were Mrs. Mel (Continued on page 8)

### Mrs. Boyd Sewing Club President

Mrs. Earl Dean Boyd was elected president of Good Neighbor Sewing Club Thursday afternoon at their meeting in the home of Mrs. T. J. Hopingardner.

Mrs. Boyd will replace Mrs. Henry Spicer who resigned her office. Taking vice-president office in place of Mrs. Boyd will be Mrs. Lester Williams.

Following a covered dish luncheon the women spent the afternoon quilting for the hostesses.

Those present included Mrs. Howard Looney, Mrs. Jesse Sisco, Mrs. Bob McMeans, Mrs. Earl Dean Boyd, Mrs. Bill Lane, Mrs. Mable Newberry, Mrs. Lester Williams and four guests, Mrs. Arthur Kent, Mrs. J. L. Sherrill, Mrs. Finley Rogers and Mrs. Glenn Ritchie.

### Bridge Club Has Luncheon

Bovina Restaurant was the scene of a luncheon for members of Thursday Afternoon Bridge Club recently, hosting the occasion was Mrs. Don Sides.

The luncheon menu consisted of baked ham, baked potatoes, green beans, salad, pie and coffee.

Winning prizes for the afternoon high, Mrs. A. M. Wilson, second high, Mrs. Vernon Estes, low, Mrs. Jimmy Charles and traveling prize, Mrs. Dolph Moten.

Others were Mrs. Johnnie Horn, Mrs. Mack Ragsdale, Mrs. Dean McCallum, Mrs. R. E. Wilson, Mrs. Bedford Caldwell, Mrs. Durward Bell and Mrs. Jim Hemke.

### Zesty Meat Loaf

MEAT LOAF is an easy-to-prepare, hearty main dish for winter evenings. And it can be deliciously different, if you mix a little A. I. Steak Sauce with the ingredients. Try it and see if your family doesn't ask, "Mom, how can meat loaf

taste so good?"

**HAMBURGER LOAF**  
2 beaten eggs  
1 cup rolled bread crumbs  
1 lb. ground beef  
2 Tbsps. A. I. Steak Sauce  
1 tsp. salt  
1/4 cup milk  
Mix ingredients in order given and pack in 5" x 9" loaf pan or 8" ring mold. Bake 45 minutes at 350°. Turn out on platter. Surround loaf or fill center of ring with cooked rice, peas or sauteed mushrooms. Serves 6.

American designers seem to consider this the "year of the fringe"—even including aprons. One gay printed style, for example, has a fringed border and pocket. The machine-washability of its cotton fabric provides another fringe benefit.

Wife -- I went to cooking school before I got married. Hubby -- What did you do there, play bridge?

### Congratulations

Congratulations to Mr. and Mrs. Alfred Mills on the birth of a baby girl born Monday morning at Parmer County Community Hospital in Friona. Kara Denise is the name chosen for the new arrival. She weighed 8 pounds 11 ounces at birth.

They also have three other daughters, Patti, Debbie and Carla.

Grandmother of the children is Mrs. Bessie Webb.

## NK Hybrid Sorghums are GREEN-TREATED

GREEN-TREATED is a new insecticide-fungicide seed treatment developed by NK sorghum researchers. The seed you buy is green and represents the best available protection against insects and disease. GREEN-TREATED seed is yours at no extra cost. Remember, only NK hybrid sorghum seed is GREEN-TREATED. See us for more details.

# Back-Tag Testing Keeps County Records Current

A new method for screening market cattle for brucellosis will make the job of keeping Farmer County on the modified-certified list much easier, said County Agent Coker today. The county agent explained the new program under six basic points.

Cattle being sold for beef are identified with a special backtag at the ranch or assembly points on the way to market. Blood

samples are collected from the tagged animals at the packing plant or other designated points. The samples are then forwarded to a testing laboratory and the results to disease control officials.

Negative animals are credited to herds and areas of origin and veterinarians work directly with herd owners until the disease problem is cleared up. In areas where winter feeding is practiced, at least 80% of all eligible heifer calves retained in a herd each year must be vaccinated, Coker said.

Under the new method, counties can be recertified if at least five per cent of all breeding cattle in the county are tested each year or a total of 15 per cent for each three-year period, the county agent explained. Only female cattle three years of age or older are back-tagged and tested.

If we fail to qualify under this method, the animal disease eradication division must come into the county at the end of three years and check 20 per cent of the herds and 20 per cent of the cattle in these herds not participating in the backtag program until a 15 per cent total has been reached. All pure-breed breeders or registered breeders also will be required to test 20 per cent of their cows over a three year period if they cannot qualify by testing at least 15 per cent of their cattle.

It will definitely be to your advantage to participate in this program, for you will never have to retest your herd unless you come up with some reactors at the testing station. Then the state or federal veterinarian would work with you to clear up your herd.

Cattle owners desiring more information on the new plan were invited by Coker to come by his office for additional information on the program.

The county agents office will keep a supply of backtags available for anyone in Farmer County.

James Norton (L) and his brother, Darrell, discuss the yield of their Sudan which is being thrashed in the background. The Nortons raised about 100 acres of the grain and have managed a yield of between 2,000 and 2,500 lbs, according to

Darrell. The huge mound of straw in the background will be fed to cattle for a supplement. The operation was located about five and one-half miles north of Farwell last week.

## THE HIGH PLAINS FARM AND HOME

### Signup Opens For '62 Feed Grain Program

Growers of corn and grain sorghum may sign up to take part in the 1962 Feed Grain Program starting on this coming Monday, February 12, 1962. The signup period will extend from February 12 through March 30, 1962.

Operation of the program will be similar to the 1961 Feed Grain Program. Likewise, its objectives are the same -- (1) To increase farm income; (2) to further reduce the excess feed stocks; (3) to reduce Government costs of farm programs; (4) to reduce the risk of serious overproduction of meat, poultry, and dairy products; and (5) to assure consumers of fair and stable prices for these products.

All producers of corn and grain sorghum are eligible to take part in the feed grain program, which calls for the diversion of acreage formerly

planted to one or more of these crops into an approved soil-conserving use. The program is voluntary, but program participation by farmers who produce these feed grain crops is required if they want to be eligible for price support on their feed grain crops, including oats and rye.

For corn and grain sorghum, there must be a minimum reduction of 20 per cent from the farm's 1959-60 average acreage of these crops and the producer must not exceed the farm's barley base. For barley, there must be a minimum reduction of 20 per cent in the farm's average 1959-60 barley acreage, and the producer must not exceed the farm's corn and grain sorghum base.

Producers of oats and rye will be eligible for 1962-crop price support if they comply with either the corn-grain sorghum

program or the barley program. Farmer County led the nation in participation under the 1961 Feed Grain Program and it appears that this will be repeated in 1962.

Farmer County Totals for 1961 were as follows:	
Feed Grain Base	251,798
Planted Acres	169,598
Total Underplanted	82,200
Acres Earning Payment	71,072
Total Payments Earned	\$3,234,534.32
Average Payment per Acre	\$45.50

It is to be noted that plantings were reduced by approximately one third and it is estimated that a reduction of 20 per cent in production was made.

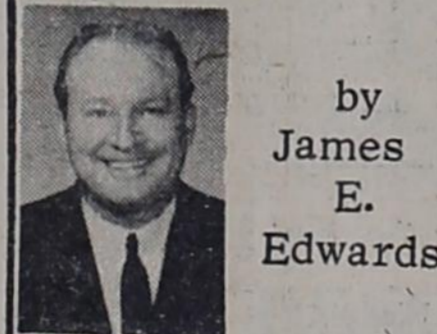

#### Survey Aimed At Purchases Of Rural Family

A scientifically selected group of Texas rural families will be asked soon to report on the things they bought in 1961, it was announced today by Mr. Cary D. Palmer, State Agricultural Statistician.

Questions about their purchases will be asked as part of a nation-wide Survey of Consumer Expenditures, first of its kind in 20 years. Information about families on farms and in towns under 2,500 population will be gathered by the U. S. Department of Agriculture and similar information from families in metropolitan areas will be gathered by the U. S. Department of Labor.

Results of the survey are expected to be used by Government in guiding legislation and policies, and by people in industry and business to determine consumer needs.

#### FOOTSAVING EDUCATION

by James E. Edwards

Take a look at some facts which a Shoeman lives with . . .

but facts which many have failed to see in full perspective. A child's foot is different in shape and size when at rest and when bearing weight. It's different in shape and size when at the heel, ball, waist, instep, arch, toes. The foot is different in size and shape when running than when standing. It takes on new shapes and sizes in jumping, climbing, sliding, kicking, etc. We repeat: an active foot has many shapes and sizes. Yet the shoe, with only one shape and size, must adapt to that many shaped foot. (Cont.)

#### Edwards' SHOE STORE

512 Main Clovis, N. Mex.

#### SOIL CONSERVATION DISTRICT NEWS

OUR SOIL ★ OUR STRENGTH

Kenneth Holm of the Department of Interior reported to a committee: "Water is becoming a more precious asset every day we live. In every area of the nation the demand for clean, fresh water threatens to outrun the available supply.

Today Americans are consuming 60 per cent of our fresh water supply. By 1975, with our tremendous growth in popu-

lation, we will be consuming 90 per cent of the supply presently available. The U. S. Geological Survey predicts that by 1980 we will be using 600 billion gallons per day. This is double the present rate."

On July 28 the Texas Board of Water Engineers presented to Governor Price Daniel a plan for development of Texas Water resources to meet the anticipated water needs of the State to 1980. The board warned that "despite the water development projects completed in the past, Texas' water problems continue to grow in magnitude and complexity," and that "additional development of our water resources will be essential to provide for a rapidly expanding

population and an accompanying expansion of industrial capacity."

The board's reports reveal that "through proper development, Texas has adequate water to meet its municipal and industrial needs in 1980 and sustain agriculture and other uses," but that its studies "indicate that continuous planning and increasingly comprehensive studies will be essential to bring about development of the state's water resources

necessary to meet its needs beyond the year 1980."

All studies, federal and private, point to the next 10 to 15 years as being crucial in the development of the state's water resources to meet our needs. This will require intelligent and informed leadership in every community in Texas. The future of Texas and every Texan rests on what is done about water in the next decade. TEXAS WATER, December 1961.

# Bovina Farmer Has Bumper Corn Crop

B. L. (Billy) Marshall, who farm east of Bovina, has demonstrated how corn can be profitable on the High Plains. From 500 acres, a total of 54,

158 bushels of 14 percent moisture corn was harvested last year, for an average of slightly more than 108 bushels per acre. The yield ranged from 98 to 148 bushels.

The High Plains is noted for high yields of grain sorghum, cotton, and wheat. Corn has not been a major crop on the Plains, but Marshall's experience clearly demonstrates that corn

need not take a back seat. Marshall also has the distinction of having been the largest producer of sesame in the U. S. In 1958 he had 450 acres that produced 1150 pounds per acre.

It is a direct result of having grown sesame that enabled Marshall to this year become the number one corn producer on the High Plains. Having planted sesame successfully for several years, he felt he should rotate his acreage to another crop. The emergency feed grain legislation in 1961 established grain sorghum acreage quotas based on production records for the previous two years. That means that Marshall had a very small production record for an acreage basis.

Marshall investigated corn and negotiated a contract with Texas Sesame Growers at Muleshoe to produce 500 acres of "Food grade" corn. That is corn used in food products such as tortillas and corn chips. These corn meal products have made tremendous gains in popularity throughout the country. Under terms of the contract, Marshall was to be paid \$2.25 per hundred based on a moisture content of 14 percent. Seed Growers agreed to be responsible for drying the corn.

A major part of the corn used for food purposes is white corn and Marshall agreed to plant 305 acres to white varieties. He said this caused some anxiety on his part because he felt he could get higher production from yellow varieties. However, it turned out that Marshall's best yield was 148 bushels, which was planted to a white hybrid, Asgrow 105-W.

Marshall planted 195 acres of Texas 30 yellow corn, 85 acres to Texas 17-W and 220 acres in Asgrow 105-W. He planted almost 16 pounds of seed per acre, and he planted the entire 500 acres between April 20 and May 5.

Early planting of corn on the High Plains has been recommended by experiment stations. Marshall is convinced that early planting was one important reason for his success in corn. Marshall irrigated his corn crop with one preplant application and three applications of

water during the growing season. The amount of water used was about the same as he would have used for grain sorghums.

This bumper crop of corn was harvested with a Big C Gleaner combine with a four row corn head attachment. Marshall started harvesting October 21 and finished the harvest on November 11. His neighbors in the Bovina area verify Marshall didn't slow down for "water or coal". The maximum amount harvested in one day, beginning at 10 o'clock in the morning and stopping at 10 o'clock at night, amounted to 230,000 pounds. Four trucks were required to haul the corn from the farm

to Muleshoe. The moisture content during the harvest varied between 15% and 30% with the average at about 17%. Marshall feels his harvest method was the most efficient and allowed the earliest possible delivery of his corn crop.

Marshall has been farming in the Bovina area since 1952. He owns 560 acres in Farmer County and in 1961 rented an additional 560 acres. Marshall is a member of the Farmers Union. Billy and his wife, Ernestine, are active in the Church of Christ at Bovina where Billy also serves as an elder in the congregation. They have three children, Joyce age 15, Billy age 13, and Meloney age 9.

## WITH THE COUNTY AGENT

DERYL COKER

Greenbugs develop to large numbers under certain conditions and may cause serious losses. These plant lice suck sap from plants of all small grains. Infested fields may have small "deadened" areas during the winter. Later, greenbugs in these spots may continue to increase and soon migrate throughout the field. In some cases, entire fields of grain are killed. Greenbugs cause more damage when wheat or small grains are suffering from deficient moisture in mild winters and cool springs. The

might be expected irrigated wheat can withstand larger populations of greenbugs without a marked loss in yields.

Results of experimental tests during the past 5 years indicate the most benefit from applications of insecticides on wheat resulted when they were applied in March and April. It is impossible to outline specifically the condition under which insecticides should be applied for greenbug control. However, the information presented in the accompanying table may serve as a guide for treatment.

Time of year	plant height	No. greenbugs per linear foot
Feb.	3" - 6"	100 - 300
March	4" - 8"	200 - 400
April	6" - 16"	300 - 800

greenbug reproduces rapidly at temperatures between 55 and 75 degrees F. Its natural enemies, however, reproduce very slowly when the temperatures are below 65 degrees F. Thus, in cool weather the greenbug may increase to enormous numbers while the number of its natural enemies increase slowly.

Make a minimum of five counts, each consisting of 1 linear foot of row, at random while walking diagonally across the field. More counts may be necessary where large acreages are involved. Greenbugs should be shaken from the plants onto a piece of paper or cloth and counted.

The necessity for applying insecticides for greenbug control depends on such factors as the number of greenbugs present, size and vigor of plants, variety, temperature, time of year, moisture conditions, state of growth and presence or absence of parasites and predators. As

Texas ranks fourth among the 50 states with 1,175 credit unions.

Tropical storms at sea generate winds up to 210 miles per hour.

### OLFS Slates Anniversary Celebration

Oklahoma Lane Farm Supply will celebrate its fourth anniversary Saturday with all-day activities.

Highlight of the occasion will be a supper which is open to public at Oklahoma Lane Community Center beginning at 7 Saturday evening.

Free coffee and donuts will be served throughout the day at the store with visitors welcome to participate in nationwide Case "Showcase." A total of \$30,000 in Case farm equipment and other prizes will be awarded in the national contest. Several door prizes will be awarded at the supper and program which will follow Saturday night, Wendol Christian, manager of the business says. Program will feature entertainment and films. Harold Carpenter will serve as master of ceremonies.

Further details about the program are offered in this issue of High Plains Farm and Home.

According to The Machinist, "Cal Callipers says he keeps reading in the papers where Brigitte Bardot is retiring, but he never thought so."

Proudly exhibiting their ribbons won in the Fort Worth Fat Stock Show last week are Lazbuddie students Paul Wilbanks (top, left), Calvin Mason, Jimmie Dale Seaton, Tony Haber, Gary Eubanks (bottom, left), Charlotte Seaton, Linda Gleason and Gary Brown.

### Lazbuddie Students Win In Fort Worth

Lazbuddie students walked off with a sizable number of ribbons in the Fort Worth Fat Stock Show last week. Area students placing in the show are as follows:

Lightweight Duroc -- 1st, Tony Haber; 3rd, Calvin Mason  
 Middleweight Duroc -- 1st Jimmie Dale Seaton; 8th, Tony Haber.  
 Champion Duroc -- Jimmie Dale Seaton.  
 Lightweight Hampshire -- 2nd, Calvin Mason; 4th, Jimmie

Dale Seaton; 11th, Charlotte Seaton; 16th, Gary Eubanks.  
 Middleweight Hampshire -- 2nd, Jimmie Dale Seaton.  
 Lightweight Poland -- 3rd, Linda Gleason; 15th, Paul Wilbanks.  
 Middleweight Yorkshire -- 8th, Charlotte Seaton.  
 Heavyweight Yorkshire -- 2nd, Thressa Seaton.  
 Reserve Champion of Junior Show; Jimmie Dale Seaton, Scotty Windham  
 Vo. Ag. Teacher

### NEWS FROM THE FARM BUREAU

BY RAYMOND EULER

Maybe we shouldn't ever think of it, but we can remember the time when, if an employee got too sorry for his job and there was a fellow anxious to make a good hand, the sorry one was fired and the new one hired. Now, however, if a fellow gets a suggestion for improving his efficiency or increasing his output, he runs to his union boss and insists on a raise, or improved working conditions, both of which he usually gets, thus teaching his employer that he should not be meddling in the area of his employee's business.

On January 19, 1962, the President of the United States issued an executive order okaying unionization of federal employees. Since nearly all of them already have immunity to being fired under Civil Service, they will probably be quite brave in their demands they make to

their employer for more pay and less work.

If the U.S. Labor Department has its way, farmers will soon be required to ask when he may hire a new man, put him to work, and at what pay for how many hours. The regulations already in effect in some truck farming activities require the farmer to be prepared to pay a minimum of two hours wages if he so much as asks his employee to get up in time to report to work and then finds the weather has changed enough to prevent beginning of the work. Of course, if they get to work a few minutes before conditions develop to stop them, they get three hours' pay.

As you all know, the Irrigation Gas User's Association bill failed to become law. We believe it should have succeeded. We hear there may be some new legislators in some of the districts because of some of the happenings. This is one instance, but every voter should watch the vote of his legislator in Austin and Washington so he will know whether he is the right man to keep, come next election time.

It's no secret, Farm Bureau opposes the new administration

### Record Crowds Attend Record Book Workshop

Fifty families were represented during the series of farm record book workshops conducted last week in Farwell, Bovina and Friona on January 29-31.

Teaching these workshops were James Murphrey of Amarillo who is Area Farm Management Specialist with the Texas Extension Service. Mr. Murphrey stated, "You cannot measure your real success of your farming operation by the cash you have at the end of the year. You have to check on your net worth unless you keep good records."

Records that are needed for good management practices include permanent records, ex-

pense and income records, and enterprise or activity records. For permanent records a journal listing of all permanent documents should be made. Write a brief description of the context of the documents and where they are to be found. A safety deposit box can be used to file all documents of long-range benefit.

Such legal matters to be included in the journal would include deeds, taxes and when paid, mineral and or water rights, easements and right-of-ways, and proof or verification of transactions of accounts payable or received.

For family protection a listing of life, fire, casualty, and hospitalization insurance should be made. A list of the companies, when premiums are due and for whom these policies are made should be filed in the permanent journal.

Agreements, partnerships, leases, rentals, contracts, and other working relations should be legally recorded.

### Windbreak Tree Deadline Nears

Saturday is the last day that orders can be made to the Indian Mound Nursery in Alto, Texas for the Texas Forest Service for windbreak trees. Orders must be received by the nursery before this deadline.

Some 17 species of trees or shrubs are available to the Texas landowners at a cost of \$1.50 per hundred. These trees and shrubs may be used for windbreaks and soil stabilization.

Order blanks for these trees are available upon request from the County Extension Service Agents in Farwell. Orders must be for 100 or more trees or in multiples of 50. Payment must be sent with the order. Send check or money order payable to the Texas Forest Service. Don't forget to include \$0.3 tax with each order of 100 trees for \$1.50.

After sending in your order start saving one gallon tin cans to plant the seedlings immediately upon arrival. For more information contact Miss Ettie Musil or Deryl L. Coker in Farwell at the courthouse.

# Congressman Views Population Trends

Much has been said and written about the problems and difficulties of the urban population. It has been repeatedly pointed out in economic reports that the decrease in our farm population means that there is a corresponding increase in the city areas. I believe it is now estimated that 70 per cent of our population resides in the urban or metropolitan areas of the country. This trend has been obvious for years to statisticians, but its physical impact on the economy of the country and on the political makeup of the country is just now beginning to be felt. It is an assumed fact of human nature that a great many of

Man's problems are caused by over-congestion.

The social ills of the past were primarily the result of overcrowding in Eastern cities. It provided a fertile field for the exploitation of Man by Man on an economic basis. It was the breeding place for crime that subsequently developed into national and international syndicates of crime. It created innumerable other problems associated with the greed of man. As the population continues to increase at the rate of some three-plus million per year (an increase which will in itself increase), the problems become accordingly greater. The migration from the rural areas into the metropolitan areas has not ceased but, in fact, appears to be increasing.

Only recently it was estimated that by 1980 our population will have increased by 65 million people. This will mean that we will have some 240 million people in the United States. Yet, in 1950 the experts estimated that by 1975 we would have 175 million people. They also estimated that it would be almost impossible to feed that many people. It shows how wrong experts can be. The fact is that the migration from the farms to the cities is caused by the increasing difficulties encountered by farmers in making a living, especially small farmers trying to operate family-sized farms.

It is presently estimated that although the population will increase to some 240 million by 1980, 50 million less acres will be required to feed the population. Some argue that the farmer has advanced technologically so fast and so well that he has virtually put himself out of business. Be that as it may, the more rural people who move into the cities, together with the natural increases in the populations of the cities, the more social problems we are going to be faced with in this country, and the more and greater the demands for legislation to solve them. It will necessarily follow that the demands for such legis-

lation will be to the Federal Congress in most instances, rather than the State Legislatures.

The reason being that most States undertaking to meet the problems posed by this great influx of the population to the metropolitan areas are now bankrupt or on the verge of it. They do not have tax sources from which to acquire the funds to meet the demands.

Most of their taxing powers have already been stretched to the breaking point. Hence, these cities are turning more and more to the Federal government, as a number of them have done in the past, and as others will do in the future. The end result will be complete centralization of the government of this country. It will mean the ultimate destruction of the dual sovereignty form of government and could well do much damage to the basic separation of powers theory.

Several years ago a group of us in the Congress undertook to place a "dispersal amendment" on authorization and appropriation bills for defense expenditures. This would have set up machinery for expenditures by the Federal government to be spread out through the country and contribute to the dispersing of the population. This amendment was repeatedly defeated because of the greater number of Representatives from the areas designated as industrial areas of the nation. Had the amendment passed I feel that the people of those areas, or perhaps their children, would have been much better served.

Although it may have been necessary for them to have removed from one geographical location to another geographical location within the United States, it could be assumed that this would have been to their benefit rather than their detriment. Certainly it would have avoided the declaration of many of these areas as distressed areas, to be the recipients of negotiated contracts to keep employment up, and Federal welfare grants.

In short, it is my feeling that emphasis should be placed on de-urbanizing our population if we are to solve the problems of health, of social justice, of freedom from exploitation, of crime, and create an opportunity for the freedom which many of the people have never tasted. They might like it.

Walter Rogers  
Member of Congress  
18th District of Texas

Officials of Seattle's 21 Exposition, scheduled to open next April, predict a 10-million attendance during its six-month run. . . The Ocean City (Md.) ## Mustangs --

His and Tally Kelso, who replaced Young, had a point each. The game left both Happy and Bovina with a loss each in district play. If they end season tied for title, it will be determined by a best of three playoff. First two games will be played on a home and home basis with third, if necessary, to be played at a neutral site. Mustang Coach Hallie Gee says. Cowgirls, who are heavily favored to take district banner, had little trouble in picking up their second district win over Fillies.

Their strong defense held Bovina to three points in first period and to only eight in first half. At end of third period, with the game tucked away, 48-15, Happy's coach substituted freely. Fillies picked up an additional 14 points in final eight minutes while holding the visitors scoreless. Both Bovina teams end their regular season schedule Friday night. They meet Lazbuddie here with girls game beginning at 6:30.

**John Zahn --**  
visiting teacher. Zahn has no formulated campaign plans yet but he is determined to make a sincere effort to gain the support of the voters in the coming election.
