## WHITTLIN'

BY DOLPH MOTEN

Nicest aspect of current dry spell is that its continuation would go a long way toward eliminating weeds. This will be especially true in places which have received no irrigation.

It was bound to happen! A high school senior we've heard about has sent a graduation announcement to Billie Sol Estes.

After years and years of being in newspaper business, we've finally been honored, if that's what you want to call it, by a visit from a Republican candidate.

During the years, we've talked to our share of Democrats who were seeking their party's nomination. This week was first time a Republican candidate had appeared in our place of business.

Frank Ford of Hereford, who was elected, without opposition, in Saturday's primary as Republican nominee for state representative from 91st District, was in town Monday afternoon.

We enjoyed his visit. Not so much because of political differences but because we were in same class at Texas A&M and were acquainted there.

Frank was then and is now a sharp, top-notch individual. He's the kind of man we'd be proud to support and vote for... if we were a Republican.

He realizes the tremendous disadvantage he places himself in by running on the minority party ticket. He thinks, however, that this disadvantage can be overcome by a dedicated, hard-hitting campaign between now and November.

Ford's Democratic opponent will be winner of runoff between B. M. Nelson of Dimmitt and Bill Clayton of Springlake.

That winner will be known, incidentally, following second Demo primary Saturday, June 2. Needless to say, Ford believes in a two-party system in our state. We do, too, but not to the extent that he does.

By that we mean that we would like to see Texas Republicans be strong enough to have primary elections in every county and every precinct. We think it would be good if we even had Republicans running on local level.

As the situation is now, it just isn't practical for a potential candidate, be he liberal or conservative, to devote his time, effort and money to a campaign on anything but Democratic ticket. We don't like that situation, understand. And we did say that anything else isn't practical. We didn't say it couldn't be done or was impossibility.

Ford estimates that he will automatically lose 30 per cent of the votes because he is a Republican. That many people won't vote for him because he is a Republican and for no other reason. That means that in the general election in November he will have to receive 51 of 70 votes to emerge from the campaign a winner. And that 30 per cent loss of votes is only an estimate. It could be more. And at same time it could be less.

Frank didn't ask us to say this as such, but he is interested in coming here, and to all other towns in district, "to discuss central issues which will decide the future of our children."

We happen to know that members of Bovina Woman's Study Club are politically interested and throw in that information for their benefit as well as others who might be interested.

Certainly we're not trying to drum up a vote, not one single one, for a Republican candidate, but if there are a few people interested in that sort of thing...

Surely devotion of the above space to a Republican will let us escape the 1962 election year without gaining a reputation of being a narrow-minded Democrat.

We probably are one. We just don't want the reputation.

Needless to say, we were more than pleased that Democrat Don Yarbrough was suc-

IN DEMOCRATIC PRIMARY SATURDAY--

# Record-Breaking Vote Cast

DEMO CONVENTION SATURDAY--

## Delegates Named To County Meet

Bovina Democrats will have 13 delegates at Parmer County Democratic Convention which is slated for courthouse in Farwell Saturday afternoon at 3.

Delegates were selected at precinct convention last Saturday afternoon.

Named as delegates were Bob Wilson, Alethea Wilson, Dolph Moten, Jack McCracken, Wanda McCracken, Dean McCallum, Arlene McCallum, Durwood Bell, Fern Bell, J. W. Bell, G. D. Anderson, Jr., Anita Anderson and O. W. Rhinehart. Alternates include Sue Moten, Bob McMeans, June McMeans and Warren Embree.

IN CITY HALL AT 7:30 P.M.--

## Street Improvement Hearing Saturday

Public hearing concerning proposed paving and curbing and guttering for various streets in Bovina will be conducted Saturday night at 7:30 in city hall.

Announcing of the hearing to which all property owners who will be affected by the proposed improvements and to the hearing appears in this issue of The Blade.

A legal notice in regard to the improvements and to the hearing appears in this issue of The Blade.

Property to be affected in the program may be determined in the legal notice.

Following the hearing Saturday night, sign-up of property owners is slated to begin Monday morning. Property owners will sign liens on their property in amount of the improvements. This may be paid over a three-year period--25 per cent of the cost will be due when the project

is completed with 25 per cent due each year for three years. Pioneer Pavers, Inc. of Lubbock was awarded contract for the project earlier in the spring. Gilreath says construction is

scheduled to begin by June 1. "We had hoped to have the program underway by May 1," Gilreath says, "and we certainly want to have it started by June 1."

IN SCHOOL AUDITORIUM AT 8:15 P.M.--

## Baccalaureate Sunday

Baccalaureate services for members of 1962 Bovina High School graduating class will be Sunday night at 8:15 in school auditorium.

Don Stone, minister of Bovina Church of Christ, will deliver the address. High School choir will be on program. It is directed by Earl Hise.

Other pastors on program include Rev. John Ferguson of First Baptist Church, Rev. Harold Morris of Bovina Methodist Church and Rev. Paul Miller of Pentecostal Holiness Church.

Class members include Marilyn Sue Brandon, Patricia Ann Crawford, Mary Malinda Dean, Linda Frances Gilreath, Janet Wain Gooch, Karen Marie Lehenbauer, Sharon Kay Looney, Judy Irene Meacham, Ben Rejino, Jr., Jerry Francis Rigdon, John Sikes, Jr. Floe, June Smithy, Evelyn Aileen Stanberry, Bettie Mae Stevens, Margaret Lynn Taylor, Monty Irvin Turner, and Christine Faye Wassom.

Class sponsors are Mrs. Janie Sudderth and Malcolm Kennedy.

CANCER FUND BENEFIT--Mrs. Lady Armstrong, right, raised \$110 for Cancer Fund as she served cake & coffee at Gaines Hardware Co. Saturday. Contributions were accepted as cake and coffee were served. Assisting Mrs. Armstrong with the project were Mrs. Vernone Ward, left, and Miss Rita Caldwell, center.

## \$110 Boosts Cancer Fund

Mrs. Lady Armstrong's annual cake and coffee benefit Saturday at Gaines Hardware Co. netted \$110 for Cancer Fund.

Prior to this year the fund has been donated to March of Dimes.

Mrs. Armstrong expressed thanks to contributors and especially those who helped with serving and baking cakes.

Assisting Saturday with serving were Mrs. Vernone Ward and Miss Rita Caldwell.

Contributing cakes were Mrs. Mel Gunn, Mrs. J. R. Caldwell and Mrs. Odis White.

## Incumbents Win In Local Races

A record-breaking 439 voters cast ballots in Democratic Primary Election in Bovina Saturday.

Two local races were given most of credit for attracting more voters than usual to the polls.

## Legion Hall City Council Meet Subject

City of Bovina equalization board meeting will be Friday, May 25.

That decision was made at a regular session of city aldermen last night (Tuesday) in city hall. Henry Minter, W. L. Venable and Hodge Rigdon were named as members of equalization board.

In other business, Bill Denney and James Taylor, representing Bovina Volunteer Fire Department, met with the council.

On behalf of Fire Department, they offered to take over maintenance of American Legion Hall, which is presently in city's care, for the right to convert south wing of the building into a fire station. It was understood that north portion of the building (main part) would be left intact and would be available to groups as a community center.

Mayor Boyd Gilreath appointed Aldermen J. E. Sherrill and A. R. McCutchan to investigate possibilities of such an arrangement.

City council also agreed with fire department representatives that the department will be paid \$2 for each fireman who participates in fighting a fire. This money will go into fire department general fund. In addition, each fireman will continue to be allowed to pay the minimum water rate of \$3.65 each month without regard to gallons used.

The minimum water rate is in effect as long as member is in good standing. To be a member in good standing, an individual must not miss more than three meetings, without an excused absence in a six months period. Meetings are conducted twice monthly.

Denney also asked the council to consider sending three members of fire department to state firemen's school at Texas A&M which will be July 23-28 this year. He explained that city would be entitled to three per cent fire insurance key rate

(Continued on page 6)

In these races--for county commissioner and Justice of the Peace--the incumbents each won over one opponent by substantial margins.

For commissioner, Charlie Jefferson, who has held the office since 1950, defeated Jack Patterson, a farmer, by a count of 280 to 149 in Bovina's box. At Rhea, which is also a part of the commissioner precinct, the count was 36-12 in favor of Patterson. This made the overall total favor Jefferson, 292 to 185.

For Justice of the Peace, W. J. (Bill) Parker was elected to his second four-year term with a 285 to 148 decision over Mrs. Lloyd Killough.

Also coming in for its share of attention here was governor's race in which Marshall Formby, who ran fifth state-wide, and Don Yarbrough, who was second in state-wide race, ran off and hide from rest of field.

Formby netted 171 votes in Bovina while Yarbrough had 144.

Other four candidates in the race had only token support. Price Daniel and John Connally, state leader, picked up 25 each while Edwin A. Walker had 27 and Will Wilson was low man with 24.

Daniel finished third across the state, Wilson was fourth and Walker was sixth and last.

Bovina voters gave Preston Smith of Lubbock a big margin in his bid for lieutenant governor. Smith made the unoff.

In attorney general race, Bovina voters gave heavy endorsement to Waggoner Carr, who is also from Lubbock. Carr picked up 234 votes.

Closest race in Bovina was one for 91st district state representative. The three candidates ran a tight race here with neither making much headway on the other.

Bill Clayton of Springlake was the leader with 132. B. M. Nelson of Dimmitt polled 126 while Bill Millen of Muleshoe had 112.

Millen was eventual Parmer County leader, but Clayton was high across the five-county district and he and Nelson will battle it out for the nomination in second Democratic Primary Saturday, June 2.

In race for chairman of Democratic Executive Committee, Bovina voters favored W. H. (Wes) Long over incumbent Nelson Welch by a count of 167-126. Nelson was the county winner, however. Both men are from Friona.

People in the area were decidedly against legalizing pari-mutuel wagering on horse races. They expressed themselves as such on two propositions which were attached to the ballot. A third proposition--for or against abolishing the poll tax--almost finished in a dead heat as 160 were against abolition while 158 wanted the tax to be done away with.

Complete returns from voting precincts in Parmer County are given in High Plains Farm and Home section of this week's Blade.

The total of 439 citizens who marked ballots Saturday was approximately twice the number which voted in primary two years ago. The total then was 223.

In '58, last year for local races, 375 went to the polls.

Election officials were Dolph Moten, precinct chairman, who was elected to that office without opposition, T. E. Rhodes, Hodge Rigdon, Mrs. Pearl Moore, Mrs. Earl Richards, Mrs. Pat Kunselman and Mrs. Bob McMeans.

VISITORS--These two groups of Bovina grade school students were visitors, as groups, in downtown Bovina recently. Classes of Mrs. Dorothy Ware, top, and Mrs. Myrna Hammonds are shown during their visit to Blade offices.

## Burglar Attacks Again

Burglars made another of their periodic attacks on Bovina Friday night.

Marie's Used Values, on Main Street, was only business reported broken into. Two flashlights were stolen in the break-in there.

An attempt was also made to break into Superior Electric Co. through the roof of the building. However, the would-be burglar was either unsuccessful in his attempt or scared off before entrance could be made to the building.

DEMO OFFICERS -- Bob Wilson, left, and Arlene McCallum were president and secretary respectively of Bovina Democratic Precinct Convention which was conducted Saturday afternoon. Bovina has 13 delegates to county convention which will be at courthouse in Farwell Saturday afternoon.

**Bovina Men's Nephew Dies**  
 Frank J. Richards, 43, of Abilene, a nephew of Earl and Cash Richards of Bovina, died recently at Veterans Hospital in Kerrville following an illness of two months.  
 Mr. Richards, who had been a visitor to Bovina, was a much-decorated war hero.  
 During and after World War II, he suffered from a rare malady known as Rieter's disease, a form of tropical rheumatism. He contracted the disease in 1943 while in combat in Pacific theater. He was one of six persons in U. S. ever stricken by the disease.  
 His uncles from here attended funeral services which were in Abilene.

**Blade Sawdust by SUE MOTEN**  
 That old adage, "My, how times have changed" is certainly true. Can remember not so long ago that in order to be the most-sought-after boy in fourth grade the prerequisite was to be the fastest runner in the girl-boy chase at recess. Now mothers tell me that the thing that is popular is to be the best cussier. Now don't go getting the soap after your boys' mouth because I imagine the connotation of cussing is somewhat different to a fourth grader than to an adult.

**Bowling Association Installs Officers**  
 New officers were elected and installed at the third annual meeting of the Friona Women's Bowling Assoc. in the Golden Spread Restaurant last Monday.  
 Trophies were also awarded to members who placed in the city tournament which was completed in March.  
 Prior to the meeting the Executive Board met at the bowling alley to check books kept by the Secretary and approve the bills. Those present at this meeting included, Chris Ivy, president of the association; Myrtle Marot, vice-president; Faye Keeth, secretary-treasurer, Thelma Watkins, sergeant-at-arms.  
 Also present was a representative of each League of the Association they were; Late Owl, Ellen Estes; Happy Fizzles, Shirley Steinbock; Nine O'Clock Scholars, Betty Renner; and Friday night couples league was represented by Betty Louise Rector.  
 The general meeting was called to order and a report from each of the officers and each league was given. It was announced that the Late Owl League would award their trophies next Tuesday night (the 24th) at the Bovina Restaurant. The chairman of the Banquet Committee, Betty Rector, announced plans for an opening banquet (this fall) rather than to have a closing banquet (this spring).  
 Reports were given by Betty Rector on the National Tournament which she attended in Phoenix and Shirley Steinbock gave a report on the State Tournament held in Tyler.  
 Next year's State Tournament would be held in Waco and National Tournament in Memphis, Tennessee. The president states the State Tournament '64 would be in Midland and she hopes many teams from Friona will attend this Tournament since it will be nearer Friona.  
 Mona Jette gave a report on the Summer Leagues now being formed and announced that there were still quite a few openings. Tentative plans are to have a Trio team league on Monday night beginning at 7 p. m., a Thursday night Pro-Am Mixed League (man and woman) that would distribute part of the money taken in each Thursday to those winning on that night and then to put part of the fees toward the purchase of trophies at the end of the season. The Bowling Alley will have a league on Friday night for high school students and a junior league on Saturday morning. Anyone interested in bowling in a league this summer may sign at the bowling alley.  
 Officers elected and installed at the meeting were Ellen Estes, president; Dorothy Looney, vice president, Mona Jette, secretary - treasurer and Betty Louise Rector, sergeant-at-arms.  
 Myrtle Marot, presented the City Tournament Trophies to the following: 1st place team, Happy Fizzles; team members, Dimple Hand, Mary Stowers, Darla Ivy, Pat Burnett and Madge Crow (2472 Series including handicap) 2nd place team, Sherley Grain Tournament Team, team members, Chris Ivy, Levina Brown, Shirley Steinbock, Betty Smith and Earlene Bullock (2411 Series) 3rd place team, Texaco Textettes, team members, Chris Ivy, Faye Keeth, Darla Ivy, Tommie

**B. B. to B. B.**  
 CLEVELAND (UPI) — Cleveland Indians manager Mel McGaha averaged 3.5 points a game while playing for the New York Knickerbockers of the National Basketball Association in 1948-49.  
 Percentage of involvement of driving while drinking was 42% in 1958, 45% in 1959 and 39% in 1960 in Texas' fatal rural highway crashes. This, this cause was reduced in 1960 for the first time in three years.

Don't take a chance with little children.

Since spring is supposedly here we have noticed that several people are busy getting their yards ready for the regular grind of water, grow and mow. Also have noticed several pretty beds of tulips. Of course, Mrs. Lee Sudderth has an abundant supply of all colors, in fact it looks like an outdoor green house at her home. Ola Lee Jones also has some pretty tulips, they are so unusual, white and colored mixed, that they look artificial.

Noticed the other day in a fashion article that designers are coming out with clothes designed with a more feminine flair. Thought it ironic that in the same paragraph it mentioned slacks and shorts with ruffles. Now in the days of the wild west am sure it wouldn't have been termed feminine to wear slacks even if they were adorned with ruffles. Also read about women and slacks that now days it isn't the man who wears the pants in the family, exclusively.

Speaking of fashion, the millinery school which was conducted by Mrs. Lucille Walling was a success as far as we can tell. Have seen several of the finished chapeaus and they are quite nice. Mrs. Barbara Thompson made a real nice creation in pink that matched a suit and Pat Hawkins covered a cloche in black and white that is real fashionable. Now days if one is intelligent enough as well as energetic he can have a suit complete with matching hat and shoes.

**LEGAL NOTICE  
NOTICE OF HEARING ON STREET IMPROVEMENTS**

To all owning or claiming any property abutting on the hereinbefore mentioned portions or streets and avenues in the City of Bovina, Texas, and to all holding any liens on any of said abutting property and to all owning or claiming any interest in any of said abutting property:

The City Council of the City of Bovina, Texas, has, by ordinance duly passed and adopted, ordered that the hereinbelow mentioned portions of the streets and avenues of the City of Bovina, Texas, be improved by raising, grading, excavating and filling, and providing with caliche base and triple asphalt surface, and by constructing curbs and gutters where necessary, all as provided in the plans and specifications for said improvements prepared by the engineer for said city and now on file in the office of the City Clerk and heretofore approved by this City Council, and a contract with the firm of PIONEER PAVERS, INC., of Lubbock, Texas, has been entered into for the making and construction of such improvements, which contract has been executed by the City and is on file in the office of the City Clerk, which said plans and specifications and said contract are referred to for all pertinent purposes.

It is proposed, and provision will be made, that a portion of the cost of all of said improvements will be assessed against abutting property and owners thereof, as follows: Not more than all of the cost of constructing, reconstructing, repairing, and re-aligning curbs and gutters and sidewalks, and not more than 9/10 of the remaining cost of such improvements as shown by such estimate. By this is intended 100% of the cost of constructing, reconstructing, repairing and re-aligning curbs, gutters and sidewalks in front of the property and along the sides of the property, and 90% of the cost of the remaining improvements in front of the property and along the sides of the property.

By the term "front" as used herein is meant; where a parcel of property is unimproved, the front thereof is the street or avenue on which same faces according to the official recorded maps or plans of the original town of Bovina, Texas, and any additions where improvements are ordered made; and where parcels of property are improved, the front thereof is the street or avenue on which the improvements face. Estimates of the cost of such improvements of the portions of the streets and avenues in the various districts or units of construction as hereinafter designated and set out have been prepared and filed by the Engineer and approved by the City. The portions of such streets and avenues ordered to be improved are divided into and designated as separate and independent districts or units as hereinafter set out. The estimates prepared and filed as aforesaid show the costs of improvements and the amounts to be assessed against abutting property and owners thereon in such separate districts or units, and the improvements will be in such separate districts or units, numbered and designated as UNIT NUMBERS ONE TO TWENTY-FOUR, Inclusive. The portions of the streets or avenues to be improved in each district, together with the estimated costs of the improvements in each district, the amounts per front foot to be assessed against the abutting property and owners thereof on the portions of the streets and avenues to be improved in each district, and

# Of Interest To THE WOMEN

## Mrs. Dixon Has Program For Dorcas Circle

Mrs. John Dixon presented a devotional, "Federation of W.S.C.S.," to members of Dorcas Circle of Methodist Church Wednesday at their luncheon meeting at church. Mrs. H. J. Charles hosted the meeting.

Mrs. I. W. Quickel presented program introducing book of Acts.

Luncheon guests were I. W. Quickel, Pat Kunselman, H. J. Charles and Rev. Harold Morris.

Members present were Mrs. Pat Kunselman, Mrs. L. C. Moore, Mrs. Mable Newberry, Mrs. T. J. Hopingardner, Mrs. Frank Wilson, Mrs. C. O. Edens, Mrs. John Dixon and her mother, Mrs. B. L. Perry of Ryan, Okla.

## Coffee Honors Former Pastor

Approximately 30 people called at a coffee honoring Rev. and Mrs. W. R. Beard of Falls, former pastor of Bovina Methodist Church, and their daughter, Mrs. Roger Dewey and daughter, Linda, of Western Springs, Ill., Friday evening at the home of Mr. and Mrs. Bedford Caldwell.

Refreshments of punch and party rolls were served to guests.

While in Bovina the Beards also visited in the home of Mr. and Mrs. C. F. Hastings and Mr. and Mrs. R. E. Wilson.

## Party Fetes H.J. Charles

H. J. Charles was feted with a birthday dinner Monday evening at Bovina Restaurant by employees of Charles Oil Co. Co. and Mr. and Mrs. Jim Ranck.

Tables were laid with pink linen cloths and the head table featured a birthday cake decorated with a golf scene.

Attending the occasion were the honoree and wife, Mr. and Mrs. H. J. Charles, Mr. and Mrs. Neil Smith, Mr. and Mrs. A. D. Cumpston, Mr. and Mrs. F. S. Pounds, Mr. and Mrs. Jim Ranck, Mr. and Mrs. Salvador Del Toro, Mr. and Mrs. Herbert Del Toro, Mr. and Mrs. Javar Robledo and Robert Lee Hopingardner.

## Mrs. H. R. Looney Hosts Club Meet

Members of Good Neighbor Sewing Club spent the afternoon Friday Quilting for Girls Town at the home of Mrs. Howard Looney.

At noon the women had a covered dish luncheon.

Attending the meeting were Mrs. Bob McMeans, Mrs. Jesse Sisco, Mrs. T. J. Hopingardner, Mrs. Alfred Mills and her sister, Mrs. Anna Lee James.

## Party Hosted By A.M. Wilson

Mr. and Mrs. A. M. Wilson entertained several couples with a combination bridge and birthday party Friday evening at Clovis Country Club.

The honorees were Mrs. Carl Rea, Mr. and Mrs. Jim Hemke, Mrs. Dolph Moten, Mrs. J. E. Sherrill, Mrs. Leroy Berggren, Mrs. Vernon Estes and A. M. Wilson.

Refreshments of chips, dips, relishes, tea and coffee were served during entertainment. Following bridge individual cakes decorated as spring hats were presented to honorees and guests.

Winning prizes for the evening were Mrs. Tom Caldwell, Mrs. Mack Ragsdale, Mrs. Vernon Estes, Jimmie Charles and Carl Rea.

Attending were Mr. and Mrs. Carl Rea, Mr. and Mrs. Reagan Looney, Mr. and Mrs. Charles Ross, Mr. and Mrs. Leroy Berggren, Mr. and Mrs. Leon Grissom, Mr. and Mrs. Jim Hemke, Mr. and Mrs. Tom Caldwell, Mr. and Mrs. J. E. Sherrill, Mr. and Mrs. Jimmie Charles, Mr. and Mrs. Dolph Moten, Mr. and Mrs. Mack Ragsdale, Mr. and Mrs. R. E. Wilson, Mr. and Mrs. Durward Bell, Mr. and Mrs. Vernon Estes, Mr. and Mrs. Dean McCallum and the hosts.

## Ezells Host Bridge Party

Several couples were entertained with an evening of bridge in the home of Mr. and Mrs. Gene Ezell Tuesday night.

Following the entertainment refreshments of strawberry shortcake, tea and coffee were served to Mr. and Mrs. Tom Caldwell, Mr. and Mrs. Bedford Caldwell, Mr. and Mrs. Dean McCallum, Mr. and Mrs. Johnnie Horn, Mr. and Mrs. Vernon Estes.

## Club Slates Installation

Mrs. Glenn Dunn of Muleshoe will install officers of Bovina Woman's Study Club Thursday May 10 at 3 o'clock at club house.

Mrs. Reagan Looney is in charge of installation ceremonies and Mrs. Warren Morton will host the meeting.

"NOTHING KNOCKS ON BOVINA BUT OPPORTUNITY"

We've got **GAS** air conditioning at our house!

Boy, it's the MOST! It does more than just COOL, too. It circulates, ventilates, dehumidifies and cleans the air. Oh, and it HEATS in winter... I almost forgot! Mom says it's a lot easier to keep house, now, because there ain't... I mean "isn't"... as much dust around. And you should hear Dad go on about how his hay fever's let up since we bought the Arkla-Servel. An' you know what? It runs so much cheaper than our old job that the folks increased my allowance from the savings! All I know is that when I get a house, I'm gonna have an Arkla-Servel Sun Valley, too. Say, ain't I mean "isn't," that a funny name for an air conditioner!

For sales, service or information, just call ...

the total estimated amount to be assessed against property and the owners thereof in each district are as follows:

Table with 3 columns: St. or Ave., Unit No., Portions of Street or Avenue in each respective unit. Lists various streets and their corresponding unit numbers and estimated improvement costs.

Table with 3 columns: St. or Ave., Unit No., Portions of Street or Avenue in each respective unit. Continues the list of streets and unit numbers from the previous table.

AND NOTICE IS HEREBY GIVEN that hearings will be given and held by and before the City Council of the City of Bovina, Texas, on Saturday, the 12th day of May, A. D. 1962, at 7:30 o'clock P. M., in the regular meeting place in the City Hall of Bovina, Texas, to all owning or claiming any property abutting upon said portion of said streets and avenues in said districts or units, and all holding liens on any of said abutting property, and all owning or claiming any interest in any of said separate district or unit as above designated, separate from and independent of the hearing on any other district or unit.

Bob Wills Speaks At Jr-Sr Banquet

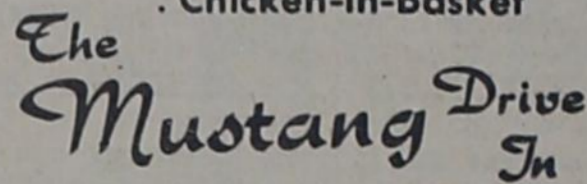

Highlighting annual Bovina High Junior-Senior Banquet recently in band hall, was a talk presented by former coach Bob Wills of New Deal. Opening the program with a welcome to seniors was Dickie Clayton, Jerry Rigdon presented the response after which Gary Stevenson gave the invocation. Musical entertainment was presented by the "Malihinis", a group consisting of Ronnie Sudderth, Milton Crisp, Tally Kelson, Barry McCutchan and Phillip Lloyd. Janet Gooch read the class will and Floye Smith gave the class prophesy. James McLeroy closed the program with prayer after which the Malihinis sang "Aloha-Oe."

Linda Gilreath, Janet Gooch, Karen Lehenbauer, Kay Looney, Judy Meachum, Floye Smith, Evelyn Stanberry, Bettie Mae Stevens, Margaret Taylor, Christine Wassom and Olan Johnston, Juniors attending were Lowell Boozer, Dickie Clayton, Don Cumpton, Rocky Hance, Ken Horn, Joe Jones, Laurence Krieger, Dilbert Morris, Pat O'Brien, Earl Riley, Gary Stevenson, Butch Woltmon, Jimmy Wright, Nellie B. Crook, Dixi Hartzog, Carole Jean Hastings, Letecia Lehenbauer, Viviliah Steelman, Vicki Strawn and Virginia Rea. Faculty members and/or husbands and wives present were Mr. and Mrs. Richard Roberts, Mr. and Mrs. James McLeroy, Mr. and Mrs. Hallie Gee, Mr. and Mrs. Charles Thompson, Mrs. Glendon Sudderth, Mrs. Harold Morris, Mr. and Mrs. Malcolm Kennedy and Roy Crawford.

The band hall was decorated with a Hawaiian theme which was carried out in individual table decorations, with napkins, program and centerpieces being Hawaiian. Streamers of blue crepe paper and sand dune scenic paper adorned the walls and ceilings. Artificial Palm trees were arranged throughout the room and the centerpiece at the head table was made of palm leaves and multi-colored carnations. Seniors present were Ben Rejino, Jerry Rigdon, John Sikes, Buddy Turner, Marilyn Brandon, Patricia Crawford, Lindy Dean,

EXCEL Hybrid Grain SORGHUM

OFFERS EVERY ADVANTAGE AT LESS COST!

---J.D. Kirkpatrick---

Bovina Farmer J. D. Kirkpatrick was pleased with the yield, threshability, and cleanliness of the Excel hybrid milo he produced in '61. It averaged approximately 8500 pounds per acre. Kirkpatrick plans to plant a majority of his grain sorghum acreage to Excel this year. "It's clean as you can get," Kirkpatrick says, "and I've had good luck with it." Make arrangements for your Excel seed now.

EXCEL Hybrid Sorghum Grain \$12.00 cwt. Still Only Compare It With Much More Expensive Seeds.

### Firemen To Annual Convention

Several members of Bovina Volunteer Fire-Department will attend annual Panhandle Firemen's Convention Saturday at Boys Ranch.

Bovina teams will participate in pumper truck race and in water polo competition.

Members of pumper race crew include Chief Bill Denney, Jim Russell, Pat Kunselman, Dave Winers, Alfred Mills, and Charles Haney.

Jim Russell and James Taylor will compose Bovina's team in water polo event.

Fond parents who seek to live their children's lives usually manage to mess up everything.

### Legion Hall--

credit if one man attends, four per cent if two men attend and five per cent credit for three men. Denney estimated that expense plus salary during the week spent at the school would be from \$180 to \$200 per man. Bills totaling \$2388.18 were approved for payment.

A representative of Plains Machinery Co. of Amarillo, Jack McManigal, met with the council in regard to the city's trading for a new streetsweeper.

He offered to trade for a new machine for \$9600. During discussion, it was pointed out that present sweeper needs repair. Estimated cost for getting it back in top condition is \$1800. McManigal pointed out that a good street sweeper would offer protection against paved streets being destroyed by dirt.

### Billy Richards Camp Director

Billy Richards, son of Cash Richards of Bovina, who is a coach at Rusk School in El Paso, has been employed as program director at Sky-Line Ranch in New Mexico from June 17 to July 29.

A graduate of West Texas State College, Richards has a degree in physical education and secondary education. He gained his camping experience at Thorpe Springs, Tex. Richards is a '56 graduate of Bovina High School.

### Whittlin'--

cessful in his bid to get a spot in the runoff election for governor of Texas. He'll get our vote come June 2, too.

Noticed big papers quoting John Connally, Yarborough's runoff opponent, as saying that the first primary was political miracle in that he was the leader. The miracle part, as we see it, was that Yarborough also made the runoff instead of Price Daniel, present governor who was seeking election to his fourth term.

Too, we were pleased that Yarborough ran a good strong second to Marshall Formby in Bovina's box. Formby had the inside track because he's from this area and had a host of supporters here.

Yarborough had good support though, considering, and we think that support will increase here between now and next 25 days.

It is interesting to note that Yarborough received roughly as many votes in Bovina as he did in rest of Parmer County combined.

Bovina was only place in county Yarborough visited during the campaign.

One Yarborough supporter, disappointed because Yarborough didn't run ahead of Formby here, made the smart-aleck statement that he probably could have led here if he hadn't received endorsement of The Blade...

It's true that you can't win 'em all, but there have been dang few rained out this spring!

## Highway 60 Contract Let

Seal coating of Highway 60 in Parmer County is scheduled to begin in the near future. A contract for 39.5 miles of construction on U. S. 60 in Parmer and Castro County has been awarded to an Amarillo firm, it was announced in Austin this week by the State Highway Commission.

Gilvin-Terrill, Inc., submitted the low bid of \$207,240, on the project. Application hot mix asphalt concrete pavement from New Mexico State Line to Deaf Smith County Line is expected to take 100 working days, according to Oscar L. Crain, district highway engineer at Lubbock.

Rhea Bradley, resident engineer at Littlefield will be in active charge of the project while it is under construction.

## Tech Professor Studies Egypt's Grain Condition

Climatic conditions and farming methods causing a food and grain shortage in Egypt were studied by Dr. J. Wayland Bennett of Texas Tech during his 23-day mission to Egypt.

Dr. Bennett, an agricultural economist, has just returned from Cairo and vicinity where he conducted a survey of the market potential for grain sorghum.

The survey-study trip was sponsored by the U. S. Feed Grain Council, a private agency; Grain Sorghum Producers

Assn., a member of the Council with headquarters in Amarillo; and the USDA's Foreign Agriculture Service.

Bennett left the United States on April 6 and returned April 30. He spent last June and July on a similar mission to Nigeria, Liberia and Sierra Leone in West Africa.

Dr. Bennett said that the survey was made in accordance with Public Law 480, which provides that agricultural products may be made available to underdeveloped nations,

whereby they pay for the products in their own money.

Up to 75 percent of the country's money (in this case, Egypt's) can be returned to her at a low rate of interest to be used by that nation in development projects related to the utilization of food grain.

"In visiting with the government officials in the Ministry of Agriculture and Supply, they each stressed an interest in developing their agriculture to raise their population above the subsistence level of consumption," Dr. Bennett said.

"More people are engaged in agriculture and small trades than in any other fields," he said.

The Egyptian government has requested the privilege to purchase up to 500,000 tons of feed grain from the U. S. during the current fiscal year.

In addition to Egypt's request for feed grains for their livestock industry, they have been granted under the famine-relief clause of Title II of Public Law 480 an additional 200,

000 tons of yellow corn for human consumption.

"Egypt has a livestock industry that is undernourished and particularly nutrition-deficient in feed grains," Dr. Bennett said.

"It would be an understatement to say that Egypt does not need the amount of grain they have requested from our country," he said.

"They have adequate feed in the winter months, from December through May, from heavy plantings of berseem clover."

During summer months the livestock is fed on an improperly balanced ration of cottonseed cake, wheat bran, rice bran and molasses.

During the summer when they plant corn for winter use, the farmers strip the lower leaves of the corn stalks to feed the livestock. In addition, they scrounge for weeds along the canals and graze their goats along the roads.

"It's a real struggle for them to keep their livestock alive 12 months a year--when they barely have an adequate supply for six months," Dr. Bennett said.

"We hope to see them move into the dollar market for surplus agricultural productions rather than accept their own money under Public Law 480. The ultimate goal of this aid program is to develop a cash market for our surplus products," Dr. Bennett said.

The cow and the buffalo are the major work animals, which consume the most feed. In 1960 there were 1,588,000 cows and 1,525,000 water buffaloes in Egypt. Other animals requiring feed include sheep, goats, camels, horses, donkeys, mules, swine and poultry.

He said his conclusions on the market potential for U. S. feed grains in Egypt will be reported to the U. S. Feed Grains Council, a report he is completing.

### A & M Hosts 4-H Roundup

Four-H Club members from every section of the state will assemble at Texas A&M College on June 5 for their annual statewide 4-H Roundup. The big day will be June 6 when an estimated 1,800 will be participating in 27 judging and demonstration contests.

The boys and girls who will be trying for state honors have already been named county winners and placed either first or second in their respective district elimination contests. They will be accompanied to the Roundup by their county extension agents, adult leaders and/or coaches. Also in attendance will be members of the Texas 4-H Club Recognition Committee and Friends of 4-H.

The annual barbecue, sponsored by the Recognition Committee, will be the program feature for the first evening of the Roundup. Special entertainment on the second evening is also made possible by the Committee.

The contests on June 6 will get underway -- some by 7 a.m. -- and all will be concluded by mid-afternoon. Winners will be announced later in the afternoon, and several will be eligible to participate in national contests to be held later in the year.

After breakfast on June 7, the annual statewide 4-H meeting will be officially over but as has been the case for more than half a century, it be an unforgettable experience to the 4-H members who participate in its activities and contests.

"So your wife was awfully mad when you got in at three," commented a friend. "What did she say?"

"Well, nothing much," said Jones, just returned from the hospital. "And I was going to have those teeth out anyway."

Charter members of the Home Demonstration Clubs in Parmer County are Mrs. A. H. Boatman of Friona H D Club and Mrs. Thomas Presley of the Black club. Also pictured are delegates sent to the District THDA meeting in Pampa April 12. They are (L to R) Mrs. Joel White, Oklahoma Lane, Mrs. J.D. Sanders, Friona, and Mrs. Ralph Price, Black.

### County Clubs Celebrate National H.D. Week

Parmer County Home Demonstration Clubs celebrated National Home Demonstration Club Week, with a Coffee in the Hub Community Center, Tuesday, May 1 at 10:00 a.m.

Mrs. J. D. Sanders, Home Demonstration Council chairman, presided as emcee during the program. After the members were served District Texas Home Demonstration Association reports were summarized by Mrs. Ralph Price, Mrs. J. D. Sanders, and Mrs. Joel White, delegates to the meeting in Pampa, April 12.

Club histories of each of the eight home demonstration clubs were presented by club presidents, vice presidents, or historian. Most clubs were organized in 1954, however; others started as early as 1916, 1931, and 1932.

Names and office tenures of each of the county home demonstration agents was reported by Miss Etta Musil, present agent. First agent was Ruby Fincher in 1915, followed by Rozelle McKenney, Margaret St. Clair, Ruth Boyd, Elsie Cunningham, Corinne Stinson, and Jimmie Lou Wainscott.

A colorful maypole and spring flowers decorated the Hub Community Center for the theme of Spring. Hub HD Club cleaned the building, decorated the building with maypole and arranged tables decorated with white pastel center streamers.

Northside HD Club decorated the tables with bouquets of flowers and May baskets. Rhea HD Club made small spring hats for name tags and registered the guests.

Friona HD Club was in charge of the program. Coffee, doughnuts, and sweet rolls was served by Lazbuddie and Oklahoma Lane HD Clubs. On the clean-up committee were Black and Midway HD Clubs.

Plastic orchid corsages were presented to each of the club presidents and Mrs. A. H. Boatman and Mrs. T. J. Presley, charter members of the first clubs. Miss Musil also received an orchid corsage.

### Screwworms Spreading

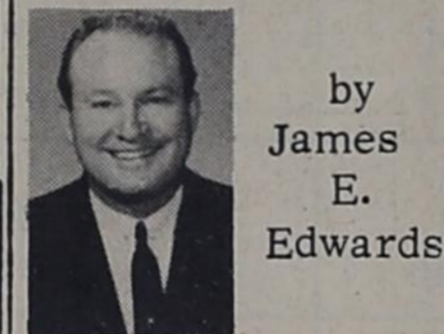

County Agricultural Agent Deryl Coker reports that because of extremely favorable weather conditions for screwworm activity, screwworms have spread into Central and West Texas, most of the counties in the Edwards Plateau and about half the counties in the Trans-Pecos area.

### Screwworms Spreading

Coker says that plans are being made to expand the sterile screwworm fly release area to include most of the infested area. The majority of the sterile flies being produced will be released in a barrier zone which will encompass the northern edge of the screwworm infested area.

He encourages all livestock producers to inspect all livestock regularly, to treat all wounds promptly, and to collect ten or more worms from deep in the wound and bring them to his office.

### FOOTSAVING EDUCATION

Why is it that neighbors' children get along very well with ill-fitting shoes?

In a survey of shoes conducted in the public elementary schools of Lorain, Ohio, it was found that 3,000 of the 4,000 children were wearing shoes that were one half to three and a half sizes too short.

Each child was asked "How do your shoes feel?" Every child but one said, "Swell -- Fine -- Good" etc.

Medical textbooks confirm the conclusion that children's feet do not hurt internally. The same "high" pain threshold that allows a baby to sleep blissfully in cold wet diapers also allows his feet to be deformed by ill-fitting shoes without pain at the time. Chinese babies whose toes were turned under and bound until deformed must not have screamed as they ought.

At the age of sixteen when the bunions and hammer-toes begin to hurt, it is too late for anything except surgery to straighten the deformed feet. Your neighbors' children will probably become footsore parents who will take good care of their children's feet.

### NEWS FROM THE FARM BUREAU

BY RAYMOND EULER

By now, you know who won, or who is ahead in political elections. We hope you voted, but if you missed the primary and are eligible, we hope you'll vote in the general election. Membership progress in Parmer County Farm Bureau is good. There have been fifty new members paid up and three hundred fifty one renewals. This leaves only one hundred thirty nine renewals and new members for us to reach our quota by October 31. Last year, we lacked 188 at this same time. New members, of course, account for this difference. President Hamilton and Vice President Calvin Meissner and all officers and directors appreciate the fine cooperation that is evident in this kind of report. They welcome you as a member if you do not already belong.

Do you believe in agrarian land reform? This means dividing the land equally between those who want land. Most Americans don't believe in this system which is counter to the American idea.

But here is the word for word U. S. State Department statement found on page six of American Republics Establish an Alliance for Progress: "To encourage, in accordance with the characteristics of each country, programs of comprehensive agrarian land reform leading to effective transformation, where required, of unjust structures and systems of land tenure and use, with a view to replacing latifundia and dwarf-holdings by an equitable system of land tenure so that, with the help of timely and adequate credit, technical assistance and facilities for the marketing and distributing of products, the land will become for the man who works it the basis of his economic stability, the foundation of his increasing welfare, and the guarantee of his freedom and dignity."

We hope you read the above paragraph at least twice and don't forget it.

For an old fashioned glaze combine 1 cup brown sugar, 1 teaspoon dry mustard, and 2-4 tablespoons vinegar and spread over the ham. For a cherry glaze cook 1 cup cherry juice and 1 cup honey for seven minutes, then brush over the ham and finish baking.

# HD Agent's Notes

BY MISS ETTIE MUSIL

Busy, busy, busy! Everyone is busy! Cotton and grain sorghum is being planted. Gardens are coming up for tasty fresh vegetables. And final exams and school graduations complete the full schedule for everyone.

This all adds an extra load on the family car and the farm pickup. Transportation costs are always at an all time high at this time of the year.

Let's see how these costs can be cut down. Plan ahead of time so that the number of trips can be held to a minimum. Write a list of the places to go for shopping or information so that none would be forgotten.

Do keep the car in good repair and start off gradually. Car manufacturers recommend maintaining a steady, moderate speed for best economy of gas mileage. They also advise drivers coming to a stop by releasing the gas feed rather than

by excessive use of brakes. Then do not start the engine until every family member is ready to go.

Proper handling and storage of foods is extremely important in keeping down food costs. Potatoes, for instance, need careful storage and keep best in a dark, dry, well-ventilated place. In a warm room, potatoes shrivel and sprout, and in a cold place the starch in potatoes changes to sugar.

Did you know that citrus fruits, melons and pineapples actually have better keeping qualities when stored out of the refrigerator. Room temperatures of 60 to 70 degrees Fahrenheit are ideal for these fruits.

However, it is advisable to refrigerate eggs in the original container or some other covered container. Uncovered eggs lose moisture through their

# Tests Show Skip-Row Cotton Planting Most Profitable

Researchers at the Big Spring Field Station have made an economic analysis of profits from dryland cotton skip row systems. They have found that where all cropland is planted to cotton and grain sorghum, the plant two, skip two system for cotton is most economically profitable.

Until the recent change in the cotton allotment program, farmers had to skip four or more consecutive rows between cotton rows in order that the unplanted acreages would not be charged against their cotton allotment program for 1962, however, does not require that four rows be skipped in order for the unplanted area not to be charged against the allotment.

Cotton yields from two skip row combinations and a system where no row was skipped were compared at the Big Spring Field Station during 1958 to 1961. In all cases, cotton was grown on an Amarillo fine sandy loam soil and 40-inch rows were used. These data were used to compute a four year average yield per acre of cropland for each of the row systems.

The row systems tested were: (a) the standard 40-inch row, (b) plant two rows and skip one row (2 x 1), and (c) plant two rows and skip two rows (2 x 2). A 40-inch system, planted in solid rows, requires a full acre of cropland. The two skip row systems require less than an acre of cropland since some rows are left unplanted. The 2 x 1 skip row system requires two-thirds of an acre of cotton allotment for each acre of cropland, and the 2 x 2 skip row system requires one-

half acre of cotton allotment for each acre of cropland.

The cotton allotment requirement of each skip row or non-skip row system is important in determining the total farm profit because it dictates the total acres of cropland that can be occupied by cotton.

Assume a farm situation with 300 acres of cropland and 105 acres of cotton allotment. How many acres of cropland can be occupied by cotton under each of the three row systems? First, the 40-inch row system would obviously occupy 105 acres of cropland as the cotton is planted in solid rows, 40 inches wide. Thus, the remaining 195 acres would be available for grain sorghum production. Second, the 2 x 1 row system would occupy 157 acres of cropland as only two-thirds acre of cotton allotment is required per acre occupied. Hence, 143 acres would be available for grain sorghum production. Third, the 2 x 2 row system would occupy 210 acres of cropland as they only require one-half acre of

cotton allotment for each acre occupied by cotton. With this system, only 90 acres would be available for grain sorghum production.

In this study, returns over cash expenses was used instead of net farm income. If a period greater than one year had been considered, fixed costs associated with each system would have been included. The cash returns from cotton were approximately the same (\$65 per acre) for the 40-inch rows and the 2 x 1 row system.

The returns per acre for the 2 x 2 row system was \$57.82. Grain sorghum planted in 40-inch rows returned \$17.95 per acre. These returns are based on prices of \$0.30 per pound for lint cotton, \$45 per ton for cottonseed, and \$1.60 per hundredweight for grain sorghum. It was assumed in this study that all land not occupied by cotton would be planted to grain sorghum. This, of course, does not include the rows skipped between cotton rows since this land is left fallow.

# Profits Depend On Resource Use

Many Texas farmers and ranchers are asking how they can make more profit. Cecil Parker, extension farm management specialist, points out that before a profit can be made, something must be produced. This production requires land, labor, capital and management.

Since any one producer has a fixed supply of one or more of these resources, the amount he can produce over a short period of time is limited. Over a longer period, however, the supply of resources may be increased, thus increasing potential crop and livestock production.

Profits now and in the future depend on how well the producer uses his available resources, says Parker. Maximum utilization of resources requires careful study and analysis, and thus a complete inventory of each resource.

An inventory of all the land you control is a good place to start, says Parker. A knowledge of the various types, capabilities and acreages of each is necessary in planning cropping systems. Make and keep a yearly plan for each field, showing rotations, crops grown, fertilizer used, cultural practices and yields. This will prove to be very valuable.

It is also important to study your labor requirements for the

year's operation. Know the capabilities of both family and hired labor. Once labor is committed to the farming operation for a year the cost will remain the same whether it is used to the best advantage or not.

Make an inventory of available money to carry out the year's operation and consider

the need for capital investments, suggests Parker. It is important to study carefully your capital needs and plan how to use available capital to the best advantage.

What is the condition of your machinery and equipment? Are your building facilities adequate? Inventory all these items and evaluate them for optimum use, advises the specialist.

Contact your local county agent for ideas on how to use your resources for maximum profits from your farming operations. The trouble taken to complete this analysis will pay dividends, concludes Parker.

# News Special!

It is with deepest gratitude that I use this opportunity to personally thank each and every one of you who supported me in Saturday's election. The confidence you have placed in me will always be held in sacred trust. Probably you already realize that the runoff primary June 2nd, is just a short time away. We have a lot more work to do and with your continued support we can again come out on top. Again let me say in all sincerity and humility thank you for your support.

**Bill Clayton**

porous shells, That's why it is most important to get the eggs from the grocery store to the refrigerator at home as soon as possible. High temperatures in the car or on the kitchen cabinet begin spoilage quickly.

Mayonnaise and salad dressings should be kept in the refrigerator unless they are used within a few days. Even jellies, jams and peanut butter, once opened, keep best in the refrigerator.

There is little or no danger of food becoming unsafe to eat when it is kept in a refrigerator with a temperature of 42 degrees Fahrenheit or below. Food poisoning bacteria cannot thrive at these temperatures.

With this warm weather here to stay it is time to store your winter garments for the summer months. Garments of wool or fur should be well protected against moths. Soiled fabrics are ideal for moth eggs to hatch and feed in a dark place.

Have woollens dry cleaned to destroy the eggs and larvae in the garments. The garments then should be placed in moth-proof bags or folded carefully. If the garments are folded, place tissue paper in each fold. Arrange the garments in boxes and seal the boxes tightly. Label the boxes with a description of the contents so that they can be easily found next fall and winter.

Garments that are washable should be washed and stored in boxes with moth crystals or balls according to directions on containers. Do not starch blouses or dresses for summer storage. Silver fish and crickets feed on starched garments.

For good information for seasonal storage of garments ask for the free bulletin, "Facts About Clothing Care" in the office in the Courthouse.

# The HAPPY HOMEMAKER

BY JUNE FLOYD

It has been said that wherever or whenever two homemakers get together the conversation soon gets around to recipes. To homemakers this is a perfectly normal situation, but sometimes their husbands take a different attitude.

A very interesting recipe was brought to me recently by one of the faithful readers of this column, Mrs. Gilbert Schueler of the Rhea community. Of course, the incident didn't really happen, but it makes interesting reading.

### Mixed Up Recipe

A brand new bride was so interested in making a collection of recipes that she didn't want to miss a single one that was read during her favorite radio program in the morning.

One morning it was impossible for her to be at home at the appointed time, so she asked her husband to listen to the program and copy the recipe given.

This he attempted to do, but he had two programs going at the same time. As one announcer read the recipe another directed his program of morning exercises for the homemakers.

Following is a transcript of the husband's effort to add to his wife's collection. Needless to say, she probably was very proud of this particular recipe.

"Hands on hips, place one cup of flour on shoulders. Raise knees and depress toes. Then wash in one half cup milk in four counts. Raise both legs and mash two hard boiled eggs through a sieve. Repeat six times.

Inhale one cup of flour. Breathe through the nose and sift. Attention! Jump to a strike. Stand and blend the white of an egg backward and forward over the head in four counts making a stiff dough that will stretch or hop backwards and run forwards in boiling water. Let stand ten minutes then remove from fire and dry with turkish towel. Breathe deeply, put on a bath robe and serve with fish soup."

Summer time is definitely salad time and tossed salads rate high for any noon or evening meal. For perfect green salads that are crisp, fresh and lovely, observe the following rules:

1. Select vegetable greens

of good quality - firm green heads of lettuce, lacy-leaved green escarole or endive, young green spinach. Discard wilted or discolored leaves.

2. Wash before storing. Drain on paper or cloth towel to dry; or shake in a wire basket. Store in refrigerator vegetable crisper, covered glass jar or plastic bag.

3. Tear greens into bite-size pieces - do not cut with knife.

4. Toss ingredients lightly to avoid bruising lettuce.

5. Add salad dressing at last minute.

Slaw is one of the oldest and most popular salads. Try this recipe for

- Old-Fashioned Cabbage Slaw
- 1 teaspoon salt
  - 1/4 teaspoon pepper
  - 1/2 teaspoon dry mustard
  - 1 teaspoon celery seeds
  - 2 tablespoons sugar
  - 1/4 chopped green pepper
  - 1 tablespoon chopped red pepper or pimiento
  - 1/2 teaspoon grated onion
  - 3 tablespoons salad oil
  - 1/3 cup white vinegar
  - 3 cups finely chopped or shredded cabbage

Place ingredients in large bowl. Mix well. Cover and chill thoroughly. Garnish with tiny Italian tomatoes and green pepper slices for color appeal. Other garnishes may be water chestnuts and sliced stuffed olives, if desired.

For a one minute salad that is very easy to make, try this one. The dressing is made right in a wooden bowl and then the greens are added to it.

- Minute Salad Bowl
- 1/2 clove garlic
  - 1/4 teaspoon prepared mustard
  - 1 teaspoon salt
  - few grains pepper
  - 1/4 teaspoon Worcestershire sauce
  - 1 1/2 tablespoons vinegar
  - 1/4 cup salad oil
  - 1 quart assorted salad greens

Drop garlic clove in wooden bowl. Add mustard, salt, pepper. Blend thoroughly with fork. Add Worcestershire sauce, vinegar and salad oil.

Beat with fork until thoroughly mixed. Remove garlic. Add crisp, well-drained salad greens, broken into bite-sized pieces. Toss lightly until all greens glisten. Serve at once.

# Cattle Market Strong

Higher prices was the primary feature in the fat cattle market during April, with the higher grading kinds in strongest demand.

Fed slaughter calves which were in liberal supply last month have moved to market rapidly during the month and the supply of this type cattle is not adequate to meet the demand at present prices, according to the latest Monthly Summary published by the Cattle Feeders Division of the Texas and Southwestern Cattle Raisers Association.

Lloyd Bergsma, director of the Cattle Feeders Division, said fed cattle prices continued strong during the month and at the month's end looked steady to 75 cents per hundred higher. The increased demand for choice cattle resulted in a wider margin between the price of choice and lower grading cattle.

For the week ending April 21, 1962, choice 900-1100 pound steers in Chicago averaged \$2.33 above the level for the same week last year. In Denver, choice 700-900 pound heifers were \$2.00 above last year.

Feeder operators, faced with paying higher prices for feeder cattle, are moving cautiously.

# News Special!

I wish to take this opportunity to thank you folks who voted and worked for me last Saturday. I will always be indebted to you for your support. Many have asked what my intentions are now as I did not make the runoff. I am always concerned about good Government and will work and support BILL CLAYTON in the runoff because I believe he is the best qualified to represent us in Austin. Again I thank you for your support.

### Management Training Interests Farmers

A series of farm management meetings held recently in several Gulf Coast counties by the Texas Agricultural Extension Service emphasizes the interest of Texas farmers in this subject. Alfred Byrd, extension farm management specialist for the Gulf Coast area, says attendance was excellent and most of those attending were highly interested in improving their knowledge of the subject.

A questionnaire was given to the farmers attending the meetings and approximately two-thirds returned it. Of those

answering, 96 percent indicated a desire for more meetings on the subject of management. The same number indicated an interest in attending a basic farm management course. Byrd reports that one county is already making plans for a series of management meetings to meet the local needs.

The reaction of those who attended the meetings is in line with what more and more farmers are beginning to realize. Technical know-how is essential but today's farmer must also have a sound knowledge of management principles and practices if he is to successfully compete with other agricultural producers in his area.

B. O. Elder of Hub reloads his planter box with Gregg cotton during the middle of the cotton planting rush. By the middle of this week, 85 per cent of the planted, according to Deryl Coker, county agent. Further, at up by the end of the week. "The dry weather has helped even every other row to get the cotton up. If we don't have any seedling diseases and early insect damage," Coker said.

## WITH THE COUNTY AGENT

DERYL COKER

Johnsongrass control is easier, when heights of 12 inches or less exist so during the first part of May would be a good time to take control measure.

Chemicals for controlling small patches of established Johnsongrass are sodium chlorate, sodium dalapon and toxic oil.

A toxic oil applied to the crowns of 6-inch Johnsongrass sprouts is the most selective practice for controlling it in row crops. A mixture of half naphtha and half diesel fuel oil and kerosene, or diesel fortified with 1 quart of 90 percent C-56 is satisfactory for this purpose. Ordinarily three or more treatments at about 10-day intervals are needed to eradicate the grass.

If you plan to use a jet-gun type sprayer, a very good one can be obtained from the Gibson Machine Shop, 804 East 27th Street, Bryan, Texas. This sprayer has a tank that straps on your back and a fuel pump diaphragm that will give the required pressure each time the trigger is squeezed. This rig sells approximately for \$15.00.

Sodium dalapon at 1 to 2 pounds in 10 gallons of water is effective when applied to new growth of Johnsongrass 6 to 10 inches tall. Usually two or three sprayings at about 2-week intervals eradicate the grass. The use of sodium dalapon is recommended for nonselective spraying of Johnsongrass on sites where

sterilization of the soil is objectionable.

Sodium chlorate at 5 pounds per square rod will eradicate Johnsongrass any time during the season. Rainfall or irrigation is required to leach the chemical into the soil where plant roots can take it up. The use of sodium chlorate is best on sites where sterilization of the soil for several months is not objectionable.

Fields badly infested with Johnsongrass should be rotated to a fallow-wheat-fallow rotation until only small patches remain. Sweep tillage should be performed during the fallow years at 3-week intervals, or sooner if the weed threatens to become 10 inches tall. In irrigated areas where Johnsongrass tends to become a problem in row crops, regular rotation of fields to wheat or other small grains is a good practice.

Tillage kills Johnsongrass best under dry conditions, consequently, heavy rainfall or irrigation water on land being fallowed for Johnsongrass control will make the task more difficult.

### Texas Agriculturist Important Citizen

When you see someone plowing a field or tending a herd you are looking at one of the more than 226,000 Texas farm and/or ranch operators, says Tom Prater, extension farm management specialist. If this man is the average Texas operator, his annual net income is \$3,630, which is \$307 above the national average.

There is also a good chance that this man has some non-

farm income, says Prater. In 1961, over 109,000 Texas farmers and/or ranchmen reported that they had off-farm employment, and over 96,000 reported that their non-farm income was greater than the income derived from their farming operation.

When this man puts his tractor away for the night he must make the switch from farm laborer to farm manager, and this is no easy feat. He has a sizable investment in his operation and if he is to realize a profit he must manipulate the factors of production carefully. One miscalculation can mean the difference between profit and loss, points out the specialist.

He must also keep up with the latest technological developments. New methods of controlling insects and plant diseases, new fertilization practices and new management techniques are constantly coming from researchers. The farmer must decide which of these are best applicable to his operation.

All of this describes the average Texas farmer. There are some above average and some below. "Where do you fit in this picture?" asks Prater.
