

WHITTLIN'

BY DOLPH MOTEN

Charlie Gray has jumped us out about comments here last week concerning cold weather early in fall.

Observation made here was that two snows during first week in November was rushing winter season and was unusual.

Not so, says Mr. Gray, and he went on to point out that whoever gave us such information or impression wasn't telling us the truth. Nothing unusual about it at all, he told us, and got such nice men as Cash Richards and Emmett Tabor to back him up.

They counteracted our story with one of their own. According to them, and we have our fingers crossed if anyone wants to drink coffee on us for quoting these gentlemen, a REAL early cold spell--and it was a bad one--came in September of '45.

September 29 and 30 were dates of the early blizzard, they said. While there was no snow as such in that storm, there was plenty of rain, sleet, ice and it was just terribly cold in general. Cattle, they told us, froze to death... during last week in September.

Not just poor cattle, either. Some of those which froze were half fat and in reasonably good condition, they said.

Cash added a sidelight to the story. He said that a short time prior to the blizzard a truck had run over some cattle belonging to his brother, Earl. Cash got quite a kick out of kidding Earl about the truck and his cattle.

On first day of the bad cold spell, Earl stopped by Cash's house and reported, "I guess there's been a truck out in your pasture, your cattle are dying."

They went to check on the cattle and such was the case. Cash says he couldn't imagine the weather being so cold. He thought, at first, that lightning had struck those which were dead.

But it was just cold weather... and on September 29.

Before they finished telling us how wrong we were, we were wishing that'd we'd said something about how late in year it was this fall before snow fell twice.

Mr. Gray says that if an old timer told us what he wrote last week he was a misinformed old-timer.

.....

A couple of months ago, at beginning of this year's Cotton Bowl Football Contest, an effort was made in this department to tell readers, especially those who were contest participants that they could win the contest with a percentage of .750 or .760.

After the contest got off to a booming start and several had percentages around .900 after first two or three weeks, such remarks were ridiculed. There was so much criticism and argument, in fact, that we were almost convinced that we'd underestimated this year's contestants.

There was an attempt made here to hedge on original prediction and to say that a percentage of .800 would probably be more accurate.

This week, however, contest leaders, Erith Hawkins and Glenn Hromas have percentages of .754, 83 winners named of 110 chances. And contest has two more weeks to run which might cause leader to drop still further.

Winner of last year's contest, Neil Smith, named 81 of 110 for a percentage of .736. That contest ran only 11 weeks while this one is scheduled for 13.

Neil says, however, that there were more ties last year than there has been during this season. In judging contests, all tie games are counted as misses.

This, of course, hurts from a percentage standpoint.

If we're not mistaken, sports-writers who predict outcome of games do not count those games which end in ties on their won-lost record.

But even with that advantage, they're considered real good if they are 80 per cent right. So that puts winner of Bovina Business Cotton Bowl Football Contest on a par with pros. And maybe the winner could be considered a pro after he wins

(Continued on last page.)

Bovina Vs. Groom In Bi-District

OFFENSIVE MUSTANGS--This group will handle starting assignments when Mustangs meet Groom Saturday night in Canyon in bi-district game. Linemen are, left to right, End Tally Kelso, Tackle John Sikes, Tackle Dickie Clayton, Guard Joe Jones, Center Gary Stevenson, Guard Lowell Boozer and End Mac Glasscock. Backs are, left to right, Rocky Hance, Wingback, Jerry Frazier, fullback, Don Cumpston, quarterback, and Buddy Turner, left halfback.

Canyon Site Of Saturday Night Game

Hoping to extend their five-game winning streak, Bovina's surprising Mustangs meet Groom Tigers Saturday night at 7:30 in West Texas College's Buffalo Bowl in Canyon in bi-district contest.

Mustangs are winners of District 2-B and Groom is champion of 1-B. The game will probably be rated a toss-up.

This is first year in seven--since 1954--that Bovina has taken a district title. On other hand, this is sixth consecutive year for Tigers to be champions of their district. This will give them an experience advantage in participating in playoff games.

Groom soundly trounced Lazbuddie, winner of 2-B last year, in their opening playoff game.

Both teams own identical 7-3 records and both are undefeated and unextended in district action.

A big feather in Groom's hat is its narrow, 14-8, lost to Gruver, eventual champion of District 1-A. Tigers were also defeated by McLean, champion of District 2-A, 49-0.

Bovina and Groom have had no mutual foes. Their nearest common competitors have been two links away: Groom beat Claude, 39-14. Happy beat Claude, 14-0, and Bovina beat Happy, 39-6. Also, Vega beat Texline 14-0, Groom downed Texline, 28-8, and Bovina bumped Vega, 72-12.

Mustang squad which was idle, along with Coach Hallie Gee and Assistants Malcolm Kennedy and Doug Deaty, were in Groom last Friday night to do a wholesale scouting job on the Tigers as they played Texline.

Coach Gee says Groom operates from several offenses including T-formation, double wing and winged-T. Their most outstanding player is Welsey Cornett, 164-pound quarterback and tailback, depending on their formation, who plays middle linebacker on defense. "He likes to throw and is a good passer," Gee says.

Weight is not expected to be a factor in the game. The teams will be about equal in this department. Both defenses will outweigh both offenses, Gee points out.

Groom is expected to have a slight edge in backfield speed.

Bovina's offensive starters are ends Mac Glasscock, 138, and Tally Kelso, 165; tackles Dickie Clayton, 155, and John Sikes, 180; guards Lowell Boozer, 160, and Joe Jones, 140; center Gary Stevenson, 145; quarterback Don Cumpston, 160; fullback Jerry Frazier, 170, and halfbacks, Buddy Turner, 140, and Rocky Hance, 140.

Mustangs have three line-up changes for defense. Jimmy Wright, 160, goes to a line position; Pat O'Brien, 140, plays an end; and Delbert Morris, 140, goes in at a linebacker (Continued on last page.)

DEFENSIVE MUSTANGS--Groom Tigers will have this group to contend with when they try to move ball Saturday night in bi-district game in Canyon. Defensive starters for Bovina are, left to right, End Tally Kelso, Halfback Buddy Turner, Tackle Dickie Clayton, Linebacker Delbert Morris, Guard John Sikes, Safety Rocky Hance, Guard Jimmy Wright, Linebacker Don Cumpston, Tackle Lowell Boozer, Halfback Joe Jones and End Pat O'Brien.

EARLY NEXT MONTH--

Civil Defense Course Slated

Plans for this community to have one or more civil defense courses are being completed.

First community educational program on civil defense has been slated for first two weeks in December. To be sponsored by Bovina Chamber of Commerce and Agriculture, it will be taught by Roy Crawford, vocational agriculture instructor in Bovina High.

Meeting time for opening ses-

ion will be Monday, December 4, at 4 p. m. The meeting will be in av-ag department of school building.

Invited to be in the class are representatives from city, school, fire department, Lions Club, Bovina Women's Study Club, chamber of commerce and agriculture, ministers, and Oklahoma Lane and Rhea communities.

A total of 25 may be members of one class. If there is

sufficient interest, another class will be organized, Jack McCracken, chamber manager, says.

Course will cover all phases of civil defense, including natural and man-made disasters with two sessions devoted to Communism.

There's a possibility a separate course will be held for residents of Rhea community about same time, McCracken says. Crawford is scheduled to meet with a group there this week to discuss possibility of that course.

Crawford recently completed a course for civil defense instructors which was held in Muleshoe.

Chamber directors who are members of a committee to coordinate civil defense courses here are Bud Crump, Tom Bonds, and Bedford Caldwell.

Further information about the course may be obtained from one of the committeemen, Crawford, or McCracken.

There is no charge to take the course. Crawford is paid by state for his services.

FOR BOVINA--

Chamber Considers Christmas Light

New Christmas lights may decorate Bovina this season. Possibility of purchasing new Christmas lighting decorations was discussed at a called meeting of Bovina Chamber of Commerce and Agriculture last week.

A committee, composed of Bedford Caldwell, Bud Crump, and Harry J. Charles, was appointed to investigate such decorations.

Nine directors present decided to name a Woman of Year as well as Man of Year for 1961. Those to be honored will be

selected by a committee of three. They will be named at annual chamber banquet, which will be in March, Chamber Manager Jack McCracken says.

Plans for civil defense courses in community were discussed. (See story elsewhere)

J.E. Bingham Funeral Held Here Sunday

Funeral services for John E. Bingham, 85, retired farmer, were conducted Sunday afternoon at Bovine Methodist Church.

Mr. Bingham, who had lived in this area for 56 years and in Bovina community for some 16 years, died of a heart attack at his home Friday morning about 7. He had been retired for past few years.

Rev. Harold Morris, pastor of church, officiated. He was assisted by Rev. Herschel Thurston of Hereford.

Mr. Bingham had been in reasonably good health until time of his unexpected death.

Pallbearers were grandsons, J. W. Eshleman, Jack Eshleman, Dick Norris, Jim Norris, and Sherman Horton.

Survivors include his wife, Helen, of the home; one daughter, Mrs. Orris Eshleman of Clovis; one son A. B. Bingham of Clovis; seven grandchildren and four great-grandchildren. Burial was in Mission Garden of Memories in Clovis.

in this issue.)

The group decided to leave chamber dues same for next year as they were this year--\$25 for businesses and \$12 for individuals. Bills for 1962 dues will be mailed December 1, McCracken says.

IN DEMO PRIMARY--

County Politics Has Early Start

The blizzard wasn't the only thing that blew in early this fall. County politics is already a-poppin'.

Two county-wide elected officials and two county commissioners announced for reelection the first of this week. They are Loyde Brewer, county judge; Mabel Reynolds, county treasurer; and Charlie Jefferson of Bovina and E. V. Crain of Lazbuddie. All seek four-year terms.

Announcements from Brewer, Mrs. Reynolds, and Jefferson appear in this issue. Receipt of Crain's was delayed because of the weather.

The political scene in Parmer County opens a new chapter with the announcement by Mrs. Wilfred Quickel of Farwell of her candidacy for the office of district clerk.

Until now the office of district and county clerk has been a combination job held by a single elected official. The law provides that after a county reaches 8000 population the offices must be divided.

Parmer County's 1960 census was over 9000, and so Mrs. Quickel is the first to seek the office that has been created by the county's growth. Hugh Moseley is now holding the combination office.

After next year's election, the county commissioners must still provide a salary for the new office.

Charlie Jefferson Seeks Re-Election As Commissioner

Charlie Jefferson, Parmer County commissioner of Precinct 2, Bovina and Rhea, announced this week that he will

(Continued on last page.)

MRS. SIDES, SMITH, ROGERS WIN--

Hromas Ties Hawkins In Football Contest

Glenn Hromas moved into a tie for first place with Erith Hawkins in race for grand prize in Bovina Business Cotton Bowl Football Contest last week which saw upsets occur in five of 10 games.

Both Hromas and Hawkins have named 83 winners of a possible 110 during 11 weeks the contest has been running. It will end after two more weeks--this one and one more.

Hawkins was overtaken after being upfront in the race for eight consecutive weeks. Hromas has never been in first place for grand prize, but he has won weekly money three times during 11-week period.

Their 83 of 110 gives each a percentage of .754.

Mrs. Don Sides was winner of \$5 weekly first prize, Neil Smith, last year's grand prize winner took second place and \$3, and Jerry Rodgers copped third and \$1. They were only three of 103 contestants to name nine of 10 winners.

Four finished just out of the money with eight right. They were Harold Hawkins, Mrs. Buck Ellison, M. H. Carson and Carl Rea.

With nine right, Smith moved into a threatening position for the grand prize. He now has a total of 80 and trails leaders by three points.

Johnnie Horn and Ed Hutto continued to push the leaders. They have 81 each--just two off pace.

A step further back with 79 are Mrs. Keith Garner, H. N. Turner, and John Wilson. Still in running with 78 are Bobby Cumpston, Burl Spears, and Mary Jane Wilson.

In addition to the three winners who had nine correct winners and four who name eight, 13 picked seven, 38 had six winners selected, 31 picked five, nine had four and five named three.

This week's contest is on an inside page. The 13-week contest ends with Nov. 22 issue.

FARM-CITY OBSERVANCE TUESDAY--

Lions Schedule Shoot, Banquet

Bovina Lions slated two projects at a regular meeting Thursday night in City Drug.

A turkey shoot is first project coming up on calendar. It's set for Friday and will be at Carl Rea's place two miles north of town.

Shooting will begin at 10 a. m. with turkeys being given as prizes to best men at firing line. Participants will shoot in groups of five with a turkey being awarded to best shot in each group.

Committeemen in charge of the turkey shoots are Jim Russell, Jay Sherrill, and Leon Crissom.

Entrance fee for shoot will be \$2 per man.

Tuesday night of next week, members will stage their annual Ladies Night in connection with farm-city week. Each non-farming Lion will invite a farmer and his wife as special guests. Each Lion who is a farmer will invite a non-farmer.

FFA Team Places 4th In Contest

A Bovina FFA quiz team earned a fourth place in Littlefield District Leadership Contests conducted at Muleshoe Saturday.

Nine teams were entered in quiz contest which has to do with FFA organization and parliamentary procedure.

Teams members were Denny Iker, Fred McLean, E. L. McCutchan, Jr. and Dennis Johnson.

They were accompanied by Advisor Roy Crawford. Crawford served as a judge in another division of the contest.

Banquet time will be 7 p. m. and it will be in school cafeteria.

Program details are yet to be completed, Tom Bonds, Lions president, says. "We hope to have 80 or more people present for the banquet," he says.

Also Thursday night, the club voted to again sponsor Home Christmas Decoration Contest. Prizes of \$15, \$10, and \$5 will be awarded to homes judged best decorated.

Judging date will be announced later. Also an official

entry blank to enter the contest will be published in The Blade after Thanksgiving. This blank will be filled out and mailed in by those who wish to compete in the contest.

Six new members have joined the club in recent weeks. They are Alfred Moody, Dean McCallum, Connie O'Brien, Emmett Tabor, George Long, and A. L. Glasscock.

Ladies Night - Farm - City Week banquet will replace next regularly scheduled meeting which would have been November 23.

LIBRARY MADE PUBLIC--

Board Sells Building

Bovina High School library was approved as a public library by school board action during a regular meeting Monday night.

Details on public use will be announced later, Superintendent Warren Morton says. The library is being made public through cooperation of Bovina Woman's Study Club and Bovina High Student Council.

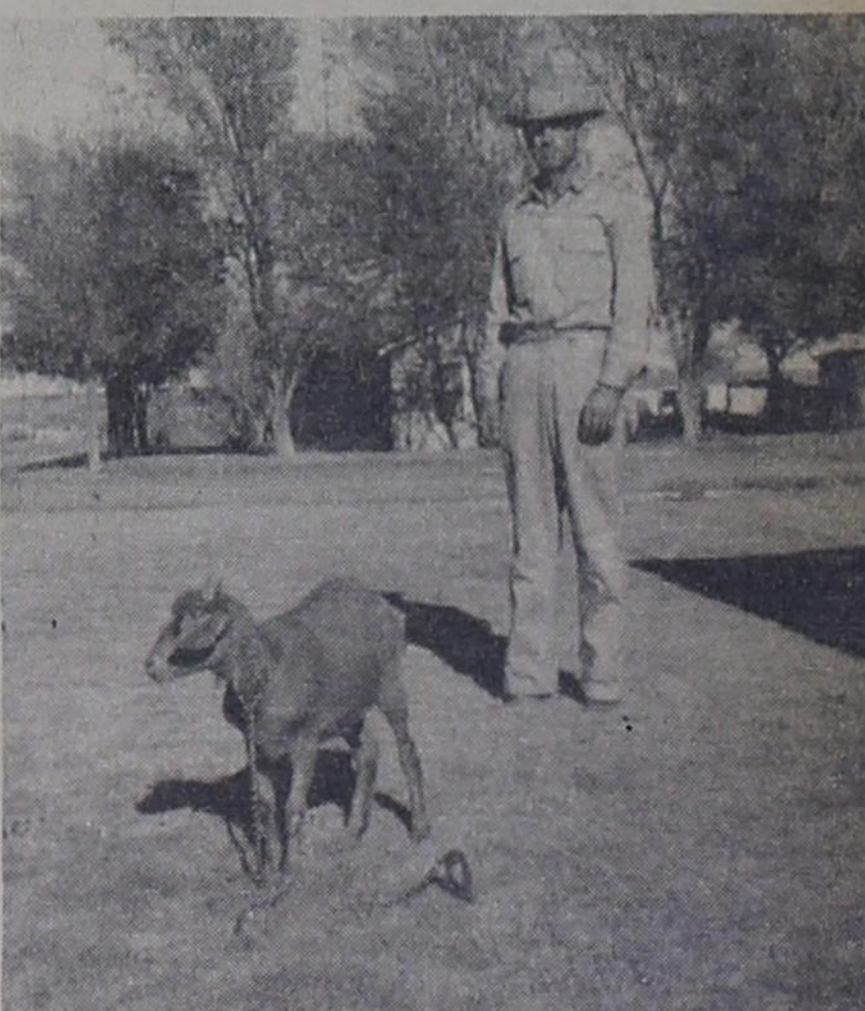

In other school board action, Roy Hawkins was high bidder for a small teacherage which school had advertised for sale.

Hawkins' bid was \$750. The building will be moved in 15 days, Morton says.

Routine business included paying bills for October and reading minutes of last meeting.

Board members present were J. D. Kirkpatrick, Tom Beauchamp, Grady Sorley, Dean McCallum and M. H. Carson. Jack Clayton and Tom Caldwell were absent.

Following meeting, board members visited high school library.

QUARTERBACK GOAT--This Spanish goat, shown here with Quarterback Club President Connie O'Brien, has probably been money-makingest animal of its kind in Texas during past week. Making money has been its job for past few days. Quarterback Club members brought Mr. S. Goat into act when they decided on a fund raising project so they could entertain football squad with a banquet at end of season. The goat was staked in a yard of a member. Fee to move him to another yard was \$5. He set up camp in several yards during first few days he was in business.

Number Of Tourists Declines In Texas

AUSTIN, Tex.--What happened to the million tourists who did not come to Texas this year? That question faces a State-wide conference of "Texans for Tourists" called for November 28 in Austin, by Gov. Price Daniel.

Since 1957, the number of tourists coming to Texas has steadily declined. Governor Daniel always has felt that Texas should match the advertising programs of other states.

Nationally, tourism is the third largest industry. In Texas, it ranks 13th.

Texas voters amended the constitution in 1958 to allow state money to be spent to attract tourists. But two sessions of the Legislature have declined to appropriate the money.

Charged with responsibility of promoting tourism in Texas is the State Highway Department.

The upcoming all-day session is designed to build grassroots support for legislation to finance a program of advertising.

SAFE HIGHWAYS--An increase in highway fatalities this year, after a 26 per cent decline in past years, disturbs the state's chief policeman, Col. Homer Garrison Jr., of the Department of Public Safety.

Present statistics indicate the number of deaths in 1961 will be 20 to 25 more than the 2,254 of 1960. So Colonel Garrison has sent out word for his men to redouble their efforts to remove the unsafe and reckless drivers from the highways.

Program includes more use of radar equipment to check speeds, especially the new type which requires only one highway patrolman per car. It also includes more stopping of drivers to make sure they hold drivers licenses.

Tougher enforcement policy will be followed by Governor Daniel's annual Christmas

He is an attorney and a former representative and senator. H. A. Beckwith of Eagle Pass was named to the Board of Water Engineers. He previously served 10 years on the board. Since 1958 he has been its chief topographic engineer. R. M. Dixon of Dallas leaves the board.

The Board of Water Engineers is the state's water-administrative and planning board. It decides who can take water from Texas streams. It also has worked out a master plan for meeting the needs of the state for municipal and industrial water for the year 1980.

MORE TAX LAWS?--City officials had their annual meeting, and heard Governor Daniel give support to their main thesis--that cities need new sources of revenue if they are to handle the growing problems caused by Texans moving to town.

Most likely avenue is the movement to have the state abandon the property tax, so it can be used exclusively for city and school purposes. The State and Local Tax Study Commission created by the Legislature in 1959 is specifically directed to report on this possibility.

Speaker James A. Turman filled two vacancies on that study group. He named Reps. Charles L. Sandahl of Austin and Charles N. Wilson of Trinity to work with senators and citizens who have been named to it by Governor Daniel and former Lieut. Gov. Ben Ramsey.

In addition to reporting on the idea of state abandonment of the ad valorem tax, now bringing in about \$40,000,000 a year, the commission will report on whether other new tax sources should be granted to cities which need them.

Most headline tax news came from James McGrew, research director for the Texas Research League. He said it is a very close question whether the new sales tax will produce enough state revenue in the two years starting September 1, 1963, to keep the state's books in the black. The big factor -- steady and heavy growth of public schools and colleges.

HIGH HEAD COUNT--Enrollments in the 19 colleges and universities operated by the state government rose sharply this year -- about 11 per cent.

Total head count at the 19 schools this fall was 100,982. This compares with 91,960 a year ago and 52,568 only 10 years ago.

Addition of the University of Houston to the list of state-supported colleges in 1963 will give the state school total a big jump. Its 11,860 enrollment this fall makes it the second largest in the state, second only to the University of Texas' 20,396.

Texas Tech at Lubbock has become the third largest with 10,212 enrolled.

Colleges and universities which are not state-supported showed a smaller gain than the state schools -- from 59,036 to 60,924. One factor in the change was the move of Midwestern University at Wichita Falls into the state-supported group.

Fastest-growing college is Arlington State. It had 1,318 students 10 years ago and now has 8,318 to rank it fifth largest. Right behind is Texas A & M, which has 8,835 students this fall.

MORE TIME--The State Board of Insurance urged all insurance companies to extend by 60 days the 90-day period allowed under Texas standard policies for filing proofs of loss on Hurricane Carla.

While it was not an order, it is fairly certain the industry will obey the Board's suggestion voluntarily.

Legislative investigation was completed on the claim-paying practices arising out of Carla. Rep. Charles Ballman of Borger, chairman of the House Investigating Committee, suggested strongly that some legislation should result.

Legislators were particularly critical of the fact that the Texas policy carries the word "hurricane" on the front, but also carries an endorsement which limits the coverage somewhat.

They also found many Texans do not have their insurance policies, because mortgage companies require that the policy be filed with them. Legislators suggested that copies be supplied the homeowners, too. Some insurance companies do, and some do not.

NURSE PROGRAM--Studies by the State Board of Vocational Nurse Examiners reveal that 24,613 vocational nurses have

HIGHLIGHTS AND SIDELIGHTS From The State Capitol

been licensed in Texas since 1951. Also 103 training schools now are in operation over the state. Examinations on October 20 and 21 resulted in licensing of 656 candidates.

It now takes one year in a vocational nurses school or two years in a professional nursing school to become eligible to take the state board examinations.

WORKING ON THE HIGHWAYS--Texas Highway Commission laid out \$20,000,000 worth of work for its staff to do to improve safety on 2,433 miles of primary highway.

List includes 378 projects in 156 counties, and ranges from pavement and bridge-widening to complete reconstruction.

Highway workers are getting some new training, too. They will be taught how to detect

radiation contamination, so traffic can be routed away from unsafe areas in case of a nuclear attack.

Tranquilizers help livestock gain weight.

Thanksgiving Transition

The very first Thanksgiving Day was celebrated in Plymouth Colony for quite a simple reason. Colonists and friendly Indians shared that first feast in gratitude for a bountiful harvest after a winter of great hardship.

Now, three centuries and forty years later, we are thankful for the growth of our Nation. We are thankful for its great strength which stands as a fortress of protection for free people in a world filled with tyranny and oppression.

Let us, as good Americans, express these thanks and rededicate ourselves to preserve and maintain this spirit of freedom.

GENERAL TELEPHONE
 COMPANY OF THE SOUTHWEST

Merrily strolling together along a street in Rome, Italy, are four of the five stars in the frolicsome comedy romance, "Come Septembris." From left to right are Bobby Darin, Sandra Dee, Gina Lollobrigida and Rock Hudson. Walter Szozak also stars in the Technicolor picture, a 7 Pictures Corporation-Raoul Walsh Enterprises, Inc., production, and released by Universal-International.

NAM Leader Cites Need for Renewal Of Self Reliance

Americans must rededicate themselves to freedom and self reliance if the United States is to survive and prosper as a world leader, Rudolph F. Bannow, 1960 president of the National Association of Manufacturers, has told a national gathering of U. S. industrialists.

"Virtually everything we stand for as a nation and as a people will be put to the test of our science, our education, our self-discipline, our moral precepts and our basic principles," he said in an address to the 65th Congress of American Industry held earlier this month in New York.

Mr. Bannow said America must answer some disturbing questions if it is to maintain its position of economic leadership, create more job opportunities and overcome the present adverse balance of international payments "which is threatening to make the United States dollar a second class currency."

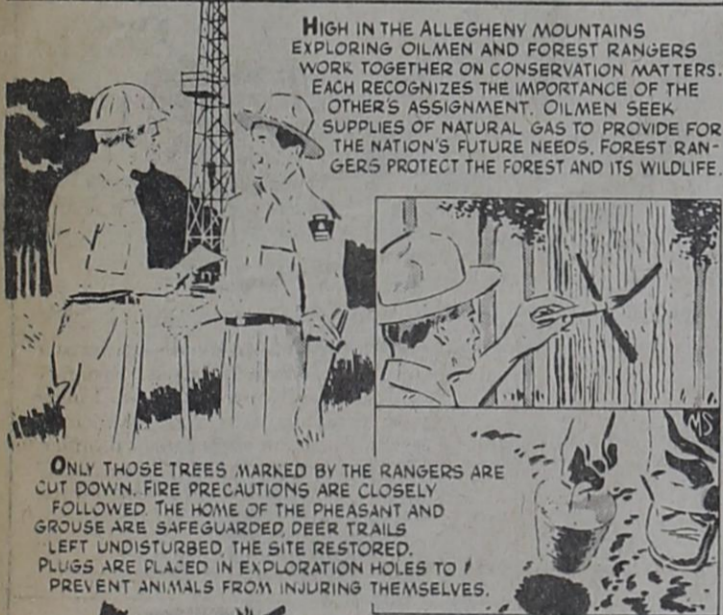

These questions, he said, include the following:

"Can we keep our economic house in order? Do we have the discipline to resist trying to solve our internal social and economic problems by the easy road of inflation? Do we have the wisdom to recognize that we can hold the markets of the world, including our own, only by offering better quality at competitive prices?"

"Do we have the common sense to realize that we cannot increase our standard of living merely by paying ourselves more money for the same amount of work, but only by increasing our productive efficiency? And do we have the foresight to gear federal fiscal and tax policies to the objective of economic growth instead of catering to the demands of political pressure groups?"

"The big challenge of the immediate future, Mr. Bannow said, is to 'begin showing our heels to the Soviet Union—to demonstrate the superiority of our system by a performance which will leave no one in doubt.'"

EXPLORATION AND CONSERVATION

HIGH IN THE ALLEGHENY MOUNTAINS EXPLORING OILMEN AND FOREST RANGERS WORK TOGETHER ON CONSERVATION MATTERS. EACH RECOGNIZES THE IMPORTANCE OF THE OTHER'S ASSIGNMENT. OILMEN SEEK SUPPLIES OF NATURAL GAS TO PROVIDE FOR THE NATION'S FUTURE NEEDS. FOREST RANGERS PROTECT THE FOREST AND ITS WILDLIFE.

ONLY THOSE TREES MARKED BY THE RANGERS ARE CUT DOWN. FIRE PRECAUTIONS ARE CLOSELY FOLLOWED. THE HOME OF THE PHEASANT AND GROUSE ARE SAFEGUARDED. DEER TRAILS LEFT UNDISTURBED. THE SITE RESTORED. PLUGS ARE PLACED IN EXPLORATION HOLES TO PREVENT ANIMALS FROM INJURING THEMSELVES.

DRILLING RIGS SUNK INTO THE OCEAN FLOOR OFFSHORE NEAR LOS ANGELES RESULTED IN THE CREATION OF A FISHING AREA WHERE NONE HAD EXISTED BEFORE! FISH WERE ATTRACTED BY BARNACLES AND VEGETATION WHICH SPROUTED ON RIG SUPPORTS.

THROUGHOUT MANY AREAS OF THE U.S. OILMEN AND CONSERVATIONISTS ARE PROVING THAT OIL AND WILDLIFE ARE COMPATIBLE. PERHAPS THE MOST IMPRESSIVE EXAMPLE IS IN LOUISIANA THE NATION'S SECOND LARGEST OIL PRODUCING STATE. MUCH OF THE OIL COMES FROM THE COASTAL MARSHES AND TIDAL FLATS - ONE OF THE NATION'S GREATEST CONCENTRATIONS OF MIGRATORY WATERFOWL.

Baptist Women Special Guests At Methodist Meet

Members of First Baptist Church W.M.U. were special luncheon guests at Woman's Society of Christian Service at Methodist Church Wednesday.

Mrs. Leon Grissom was in charge of program titled, "Testament of Truth." Others assisting her were Mrs. P. O. Dixon, Mrs. Jimmy Charles, Mrs. Leon Ware, Mrs. George Turner, Mrs. Vernon Estes, Mrs. Warren Morton, Mrs. Vernon Willard, Mrs. Earl Ware, Mrs. Hallie Gee, Mrs. I. W. Quickel, Mrs. Billie Suddarth, and Mrs. Mable Newberry.

Following the program a short business session was conducted by president, Mrs. Billie Suddarth. The group was given a preview of a record of "The Sermon On The Mount" by Rev. Harold Morris. They are contemplating a campaign to sell these records.

Baptist women present at the meeting were Mrs. Keith Garner, Mrs. Ovid Lawlis, Mrs. Doug Beaty, Mrs. Malcolm Kennedy, Mrs. H. D. Bradshaw, Mrs. Johnnie Horn, Mrs. Don Murphy, Mrs. Jim Russell, Mrs. E. H. Moody, Mrs. W. W. Wilcox, Mrs. Grady Sorley, Mrs. James McLeRoy, Mrs. Duane Carter and Mrs. J. B. Barrett.

Other Methodist women present...

R.N. Willifords Return Home

Mr. and Mrs. R. N. Williford returned Thursday following a two-week vacation to Ft. Worth, Denton, Chico and Weatherford. While gone they visited with relatives and friends.

Thrifty Club Has Dinner Party Mon.

Mr. and Mrs. H. H. Kelso hosted a dinner party Monday evening for members of Thrifty Club and their husbands. Members brought covered dishes to compliment the hostess' chicken and dressing. Thanksgiving theme was carried out in table decorations. Following the dinner the men played forty-two and the women visited.

Those present were Mr. and Mrs. L. M. Grissom, Miss Lola Grissom, Mr. and Mrs. Wilbur Charles, Mr. and Mrs. George Turner, Mrs. Earl Ware, Mr. and Mrs. J. D. Stevens and family, Mr. and Mrs. P. O. Dixon, Mr. and Mrs. H. D. Bradshaw, Mr. and Mrs. G. A. Bandy, and Mr. and Mrs. C. R. Brandon.

Of Interest To THE WOMEN

Party Honors Kamansky Twins

Keith and Ken Kamansky celebrated their fourth birthday Saturday afternoon with a party at the home of their grandparents, Mr. and Mrs. Wilbur Charles. Hosting the affair was their aunt, Mrs. Vernon Estes.

Favors of hats, balloons, and horns were given the children. The birthday cake was decorated with a farm scene featuring horses and animals. Ice Cream, and soft drinks were served to the group.

Those present were April Wilson, Karen and Sharon Nabors, Randall and Brenda Charles, Rene Charles, Tommy Hartwell, David Bushnell, Cindy and Johnnie Caldwell, Ginger and Gary Goher, Linda Ware and the honorees.

Latin American Music Program At Study Club

Fr. Declan Gilligan, S. A., pastor of St. Ann's Catholic Church, presented program to members of Bovina Woman's Study Club Thursday afternoon at club house.

He highlighted his talk "The Art of Latin American Music," with various records and tape recordings and a history of its origin.

Preceding the program, Mrs. Ovid Lawlis, president, conducted a short business session in which the group agreed to help Bovina High Student Council in its campaign for a public library. Possibilities of a book drive were discussed.

Following the meeting, refreshments of Swedish tea rings, mints and coffee were served to those present. Attending were Mrs. Rouel Barron, Mrs. J. R. Caldwell,

Mrs. A. E. Crump, Mrs. H. L. Ivy, Mrs. Clarence Jones, Mrs. Reagan Looney, Mrs. Warren Morton, Mrs. I. W. Quickel, Mrs. Dolph Moten, Mrs. Charles Ross, Mrs. Earl Stevenson, Mrs. Billie Suddarth, Mrs. Jesse Walling, Mrs. A. B. Wilkinson and Mrs. Lawlis.

Blade Sawdust by SUE MOTEN

Have mentioned from time to time that grandparents fall into a special category. Another incident that proves this theory is this: The other afternoon at study club, Obreta Suddarth came puffing in the door smiling, and carrying a little bundle which was making the usual baby sounds.

She finally got all the paraphernalia situated along with the baby and explained that her grandson's sitter had become unavailable at the last minute and she had to bring him to club. Of course he was real good and "Grandma" beamed constantly rather than having that perturbed, disgruntled look that mothers have when a sitter is unavailable at the last minute. However, she admitted it was a bit harder to get off than usual.

From the male point of view women spend a tremendous amount of time in beauty parlors, shopping and in general having a grand time doing nothing but spending money and trying to get beautiful. Actually this is only part true. However, believe they overlook all the necessities that a woman performs as part of her daily routine. Cooking, washing dishes, and clothes, ironing and all the drudges of housework which must be done each week are never accounted for when a man is describing his spouse. They always think of the frivolous parts of her life. Guess this is true of the way a woman thinks of her husband also. Perhaps they don't spend all their time standing on the street corner shooting the breeze or drinking coffee.

Had you ever thought about all the different slogans toothpaste advertisers think up. If Crest gives proven results of 45% fewer cavities, Colgate, guards against tooth decay, Ipana, has hexachlorophene, what ever that is, and Gleem is for people who can't brush after every meal I wonder why the great need for dentists. You notice, however, with all the wonder drugs and miracles in toothpaste we still have a supply of these doctors.

BOVINA'S FUTURE CITIZENS--left to right, top row, Brenda and Randall Charles, children of Mr. and Mrs. Mark Charles and Pam Wilson, daughter of Mr. and Mrs. A. M. Wilson. Bottom row, left to right, Larry and Nancy Mitchell, children of Mr. and Mrs. Dean McCallum, and Buzzy Mast, son of Mr. and Mrs. Art Mast.

To El Paso

Mr. and Mrs. Art Mast, Mr. and Mrs. Reagan Looney, Mr. and Mrs. Leslie McCain, Mr. and Mrs. C. E. Trimble, W. E. Williams and Rev. Harold Morris are attending a Scottish Rite Convention at El Paso this week.

G.D. Turners Host Forty-Two Party

Home of Mr. and Mrs. George Turner was scene of a Progressive Forty Two party Friday evening.

Following an evening of dominoes refreshments of German chocolate cake, coffee, tea and soft drinks were served to those present.

Attending were Mr. and Mrs. Edwin Lide, Mr. and Mrs. Earl Stevenson, Mr. and Mrs. Earl Richards, Mr. and Mrs. Warren Embree, Mr. and Mrs. Earl Ware, Mr. and Mrs. A. V. Campbell and Mr. and Mrs. Jack Clayton.

Shower Fetes Mrs. Ralph Roming

Mrs. Ralph Roming was feted with a pink and blue shower Thursday evening at the home of Mrs. Oakley Stevenson.

Following an evening of pencil games the group was served refreshments of banana nut bread and coffee.

Those present included her mother, Mrs. Troy Atchinson of Lariat, Mrs. Earl Stevenson, Mrs. Erith Hawkins, Mrs. Glendon Suddarth, Mrs. Leon Ware, Mrs. Jimmy Clements, Mrs. Vernon Willard, and the hostess.

Locals

Visiting in the home of Mr. and Mrs. Dean McCallum and Mr. and Mrs. George Turner Sunday were Mr. and Mrs. T. B. Mitchell of Lockney.

Mr. and Mrs. O. W. Rhinehart are visiting his mother, Mrs. J. C. Rhinehart, in Louisiana this week.

Foreign Missions Program At WMU

"I Am The Way" was title of program presented at W.M.U. Tuesday morning at First Baptist Church.

The program dealt with new foreign mission fields and was presented in skit form by Mrs. E. H. Moody, program chairman, Mrs. A. D. Dumpton, and Mrs. Don Murphy. Mrs. J. W. Gooch presented the devotional and Mrs. J. O. Combs, gave a part on France, Mrs. W. W. Wilcox, Portugal, Mrs. Johnnie Horn, Vietnam and Okinawa and Mrs. Moody Sumatra.

Others present than aforementioned were Mrs. Ovid Law-

Congratulations

Congratulations to Mr. and Mrs. Cary Joe Magness of Lubbock on the birth of a baby boy born October 30 at Methodist Hospital. The new arrival is named Kenneth Don and weighed 7 pounds and 2 ounces at birth. Maternal grandparents are Mr. and Mrs. Paul L. Lloyd of Bovina and paternal grandparents are Mr. and Mrs. Clyde Magness of Farwell.

Condition your car and your driving for winter weather.

WSCS Slates Bazaar, Nov. 19

McCallum Agency will be scene of a Church Bazaar sponsored by Methodist Church Saturday, November 19.

Baked goods and handmade items will be featured by members of Woman's Society of Christian Service.

A small boy attending dancing school, was instructed by his mother to say something nice to each young lady as he escorted her back to her seat. He danced with a young girl and took her back to her seat without saying anything to her. Remembering the oversight he went back to her and said, "Mary you sweat less than any little fat girl I ever danced with."

Didja hear the one about the whale who was so nearsighted that he fell in love with a U. S. submarine and followed it all over the world? Every time the sub ejected a torpedo the whale would pass out cigars.

She was eight years old and was permitted to attend a fashionable luncheon on condition that she'd keep quiet and not say a word. She kept her promise and was silent straight through the salad and dessert. As coffee was served, she thought it might be nice to say a little something. So, waiting for a lull in the chatter, she said: "Do you ladies happen to know there is a kind of dog with two rows of buttons on her stummick?"

Little Boy: "We have a new baby at our house."
Neighbor: "That is nice; did the stork bring him?"
Little Boy: "No, he developed from a unicellular amoeba."

THE HIGH PLAINS FARM AND HOME

Animal Health Group Formed

A Farmer County organization was formed at a meeting in Bovina Thursday night to support recently-formed Southwest Animal Health Research

Foundation. The meeting, initiated by County Agent Deryl Coker and Vocational Agriculture Teachers Roy Crawford of Bovina, J. C. Lane of Friona, and Robert Morton of Farwell, and attended by a group of livestock producers and others concerned with animal health, saw the organization formed and decision made to support state-wide effort.

HEC Makes Plans

Six members of the Home Economics Committee of the County Program Building Committee made plans for 1962 programs in the county to be carried out by the Extension Service Agents. Plans were made by the committee Thursday afternoon following the county-wide luncheon in the Friona Methodist Church.

Problems of the county homemakers were discussed in housing, clothing, foods and nutrition, and health. Objectives and goals were planned in an effort that the problems could be made easier.

Since many homemakers are troubled with how to determine good furniture, a county-wide tour was planned to visit a furniture store to compare construction, wood, finish, design, cost and size.

Many homemakers have difficulty in planning accessories throughout the home. Leaders of HD Clubs will be trained by the home demonstration agent so that they can present programs in their clubs.

The committee felt that many homes had problems of landscaping the home and planning for windbreaks. When and how to plant trees and shrubs has always been a problem. To meet this problem the home demonstration agent will train leaders of the HD Clubs and other interested groups how to landscape the home, where, when and how to plant the shrubs, and which shrubs and trees are suitable for this area.

The agent will be responsible for programs on pruning shrubs and trees.

Many homemakers have scarred furniture or older furniture that needs refinishing that is still in good condition otherwise. The home demonstration agent will conduct county-wide refinishing furniture workshops in each of the precinct and train HD Club leaders.

Since homemakers have laundering problems with soaps, detergents, equipment, fabrics, drying, ironing, and starching a program will be held. The home demonstration agent will be responsible in conducting meetings in Farwell and Friona to educate homemakers how to launder garments properly.

The committee felt a concern that the citizens need to know more about cancer, diabetes, muscular dystrophy, heart diseases, and cystic fibrosis and symptoms and care of these diseases. To help the people have a better understanding of these meetings a series of meetings will be planned for the communities with everyone invited to attend.

Many homemakers are still using old methods of canning vegetables when newer and better methods could be used for better quality and less spoilage. The committee planned that the home demonstration agent present method demonstrations in each of the HD Clubs and in each precinct to reach all homemakers. A pressure cooker testing clinic would be conducted, too.

Homemakers need help in identifying good cuts of meat and then in proper preparation of each cut. Programs will be held in each precinct on low cost cuts of meat in pork and beef, and how to prepare poultry and fish.

Homemakers are also concerned in meat packaging standards, weights, quality and appearance. They would like to be able to examine the underside of packaged meats for better quality for the cost.

The committee felt these programs would help the needs of the people in the county for 1962.

Planning these needs were: Mrs. Dee Brown, Mrs. Ralph Price, Mrs. Dean Powell, Mrs. Lewis Core, Mrs. J. D. Sanders, Mrs. Vernon Symcox, Mrs. Clyde Hays, and Mrs. Raymond Martensen.

SOIL CONSERVATION DISTRICT NEWS

The critical water squeeze in the West is growing tighter. In a historic and inevitable re-shaping of public land policy last week, Secretary of the Interior Stewart Udall announced that water conservation must now come first in the order of management priorities. Recognizing the growing demands on water in relation to the limited supply, he announced a new 5-point conservation policy to govern USDI's future management of the National Land Reserve.

Under the new policy, agricultural land entries in areas with declining water tables will not be allowed.

Instead, strong emphasis is placed on protection for present farmers and water users located on or near public lands. The USDI will actively encourage water conservation. It will discourage "mining" of underground water in areas of the West where the Department's Bureau of Land Management is responsible for approximately 168 million acres.

"The old policy clearly did not give adequate protection for farmers and other water users near Federal lands," Secretary Udall declared in his announcement. "Under the previous policy, new agricultural land entries -- were often allowed, which jeopardized existing uses and did not treat water as a renewable resource. We are moving rapidly in States such as Arizona into a period of acute water crises if present growth rates continue, and Federal policies must recognize this paramount fact and place water conservation first in the order of priorities."

What prompted the new policy pronouncement at this time?

The issue centered around the review of appeals on some 300 applications for 160-acre farm homesteads in Arizona, which happens to be Secretary Udall's home state. One would have to say it took considerable courage on the part of the Secretary, and on the part of Assistant Secretary John A. Carver, Jr., who shared in the decision, to turn down the applications.

Back of the decision, however, were the blunt facts of the tightening supply-demand water situation -- "current water requirements of the irrigation of lands already under cultivation exceed the annual rate of recharge to the underground water supply."

NEW USDI CONSERVATION POLICY ON NATIONAL LAND RESERVE.

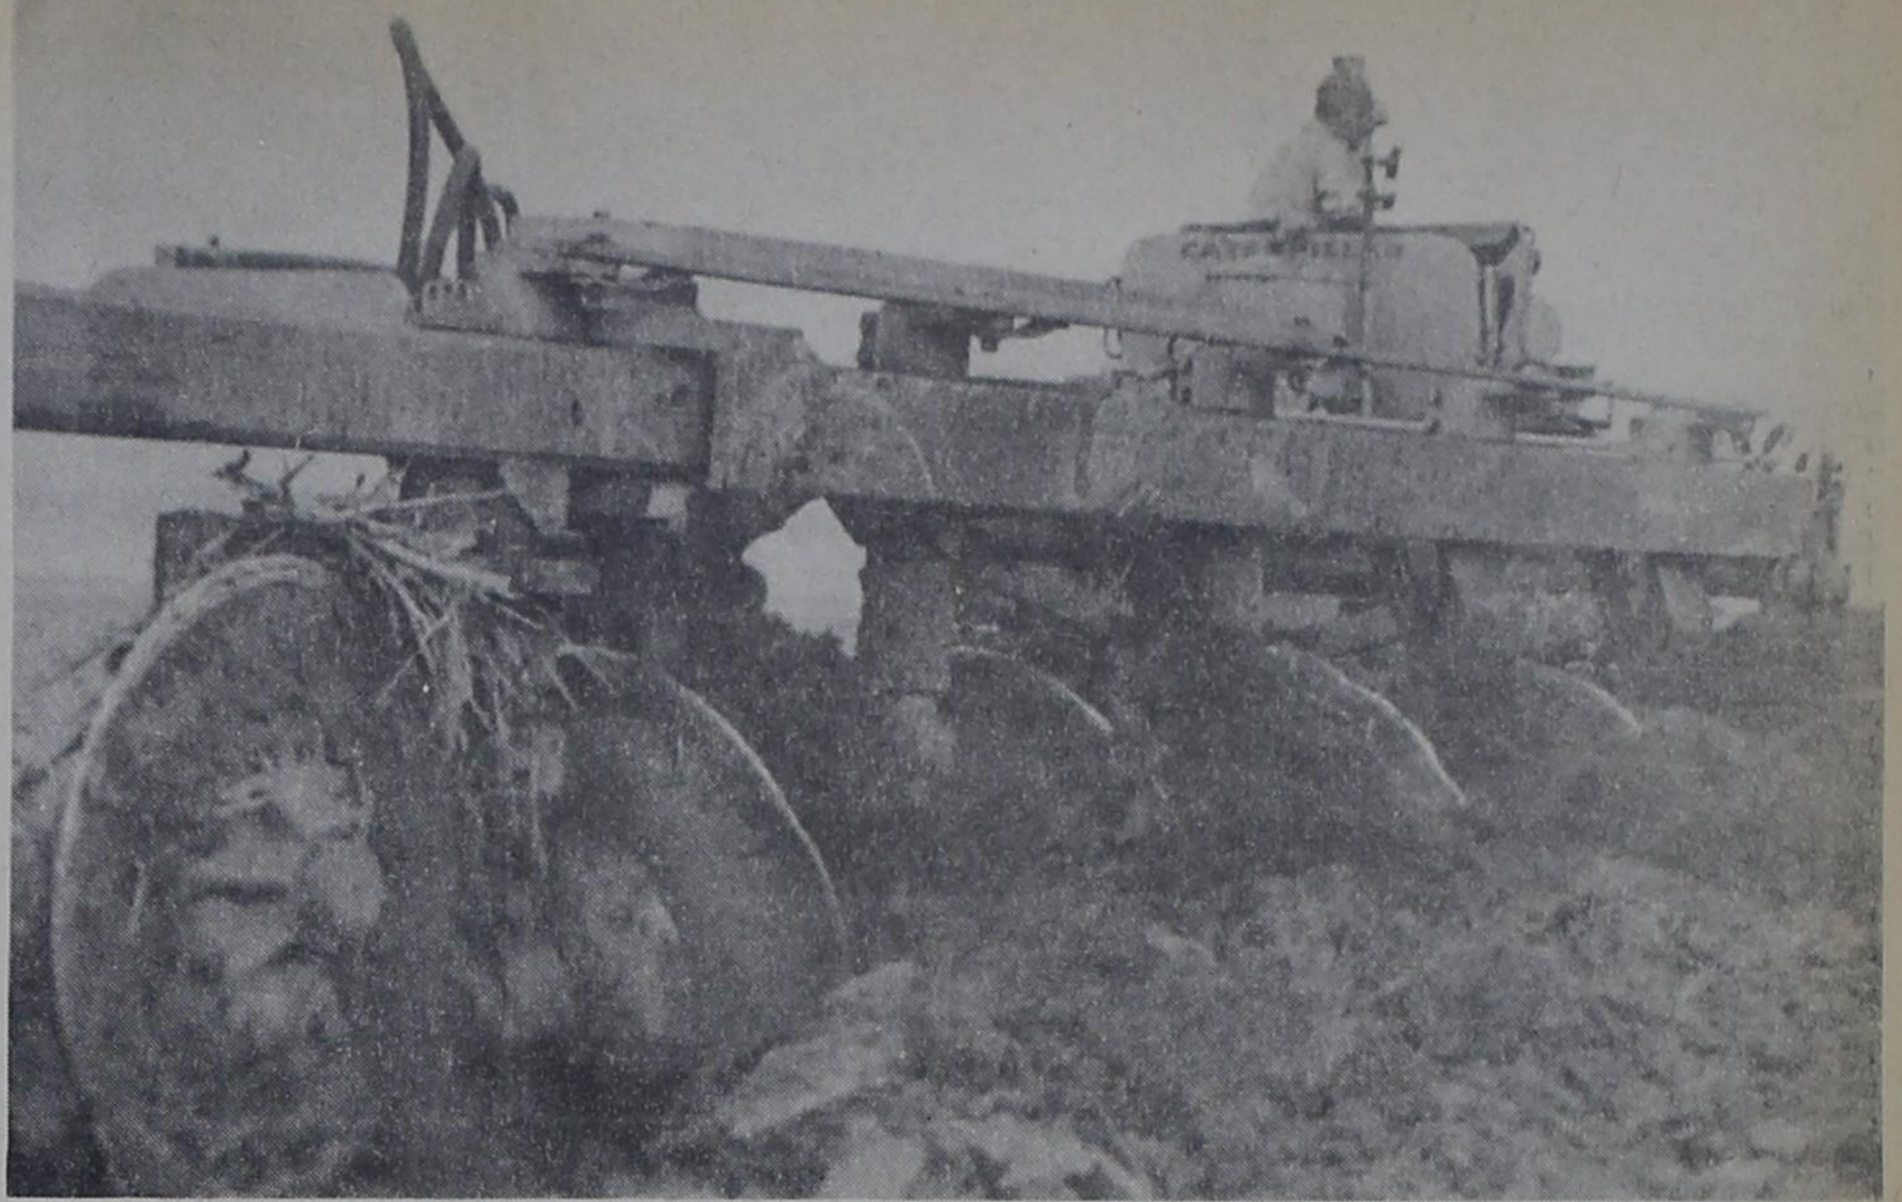

1. Wise conservation of the water resources of the arid and semi-arid lands of the United States must now be a paramount objective of resource management.

2. In many areas of the West existing water supplies are being used to capacity. In some places water is being "mined" from underground reserves far beyond annual replenishment. In the long run, disregard for the conservation of this vital national resource can only jeopardize existing water uses and limit future growth.

3. The Department of the Interior recognizes the important impact which its land management programs have on the Nation's water resources. Such recognition in no way infringes on the obligations of the respective States and of citizens themselves to manage and conserve water resources.

4. In all of its programs, the Department of the Interior will adopt policies which encourage the management of water as a renewable natural resource.

5. Henceforth, wherever possible, the Department of Interior will conduct its land management activities on Federal lands in a manner to promote the conservation of water supplies. In its land disposition programs, the Department will avoid actions which would endanger the supply of adequate water for existing users or encourage the unwise dissipation of water reserves.

KEEN DISKS . . . bite deep in the fertile earth as deep breaking operations begin. Several Farmer County farmers are bringing in the mammoth plows and turning the earth in preparation for the winter months. The operation here is on Gordon

Massey's farm east of Friona. Barney Baten is herding the powerful Caterpillar across the field where combines completed their work a few days earlier.

NEWS FROM THE FARM BUREAU

BY RAYMOND EULER

Notwithstanding published reports of USDA, farmers have not "really taken hold" of the emergency feed grain program "benefits" in very large measure. Actually, 55.1 per cent of those with base acreage did NOT sign the program contracts, and only 44.9 per cent of those with base acreage DID sign program contracts. These figures are, of course, on the national basis, and not local. Anyway, percentage wise, the grass roots support is about as small as any program has had in a long time. And USDA, or CCC holdings of feed grains are as high or higher than they have ever been on this date, and those holdings are what usually constitute surplus supplies. The cost of the program is estimated at not less than one billion dollars, with an approximate reduction in production of corn, grain sorghum and soybeans of only about 5.3 per cent.

At the last director's meeting, Vernon Symcox was re-elected as secretary treasurer of Farm Bureau. Other officers and committeemen have not been named. Mr. Symcox has held this position for several years and has done an excellent job, as expressed by other directors in re-electing him.

A large farmer-rancher in the central Texas area is currently feeding grain sorghum to his feeder cattle bought from the government and in the open market for \$1.70 per hundred. This same rancher and farmer produced a large amount of grain sorghum on his farm which was placed in the government loan at approximately \$2.14 per hundred. Tax payers are paying the difference between the \$1.70 price and the \$2.14 price. This situation is being duplicated locally and everywhere, of course. Farm Bureau people do not think this is a healthy situation. Do you?

Rules Protect Farms

Several provisions have been written into the 1962 feed grain and wheat law, which safeguard the rights of farm operators, tenants, and sharecroppers.

One of the provisions says that if a landlord has not provided the tenant or a sharecropper the chance to participate in the program, then the County Committee may not approve participation in the program.

Another provision states that a landlord shall not be allowed to reduce the number of tenants on a farm operation, or force a tenant to leave a farm, other than for voluntary reasons, which would preclude the tenant or sharecropper from benefiting from the program.

Thirdly, the county committee cannot approve participation, which is necessary before a farm may take part in a program, if it is shown that there might exist between the landlord and tenant any lease or agreement which would force the tenant to pay over to the landlord money earned by the tenant under the program, or which might reduce the size of the tenant's acreage on a farm.

Landlord and tenant are urged, if it is at all possible, to come into the ASCS office together, so that the program provisions may be fully explained to them, says Prentice Mills, office manager.

Premium Schedule For Quality Hard Wheat Under 1962 Support Program

Premiums ranging from three to 24 cents per bushel for varying qualities of hard red spring, hard red winter and hard white wheat as measured by a baking quality (sedimentation) test have been announced by the U. S. Department of Agriculture.

Under the 1962 wheat price-support program, premiums will be paid on hard wheats with baking quality values of 40 or above on the quality scale. Wheats with a value of 40 or higher are preferred

for commercial bread baking. Hard wheats with no test or testing below 40 will be supported at the basic loan rate for the county under the 1962 program.

The quality premiums under the new schedule are substantially higher than those under the present price support program schedule which is being replaced. Hard wheats with a baking quality value of 40-44 will draw a 3 cent premium; 45-49, 6 cents; 50-54, 10 cents; 55-59, 14 cents; 60-64, 19 cents and those testing 65 or more will draw the 24 cents per bushel premium.

Ben Spears, agronomist for the Texas Agricultural Extension Service, said producers have no sure way to guarantee the level of wheat quality, but that by planting adapted varieties known to have strong gluten characteristics and by following recommended cultural and fertilizer practices, they can increase the probability of harvesting wheat of better quality.

The purpose of the quality

premium in the support operation is to provide more of a price incentive to encourage producers to move forward with a wheat quality improvement program, Spears added.

In commenting on the sedimentation test, Spears said it is the feeling of USDA officials that the baking quality test more nearly reflects the true value of hard wheats for making flour for commercial bread baking under modern circumstances. The test reflects both the protein content of wheat and the quality of its gluten and is an index of bread making "strength." Facilities for providing such tests are being expanded to meet expected needs, Spears said.

Watch For Prussic Acid

Johnsongrass and sorghum sometimes develop a high prussic acid content after a frost, and if grazed by livestock, can cause a lot of trouble, warns Dr. C. M. Patterson, extension veterinarian.

Certain chemical changes occur in the frost-wilted plants, and are responsible for the development of the prussic acid, Patterson explains. The poison acts quickly and can kill an animal within a very short time after the damaged plant is eaten. Whether a poisoned animal can be saved depends upon how quickly a veterinarian can get to it, Patterson says.

Frosted Johnsongrass or sorghum should not be grazed until it is completely dry, warns the veterinarian. If it is ready to cut for hay before a frost,

it may be cut the first day after frost if care is taken to see that it is completely cured before baling.

Frost-wilted plants may also be used for silage. Generally, points out Patterson, enough prussic acid is lost in gaseous form during the ensiling process and as the silage is removed and fed to make it safe for livestock. Animals should not be allowed to self-feed from a silo filled with frosted sudan or sorghum.

DERYL COKER

Walter Little ran a gran sorghum variety demonstration which has been harvested and results obtained. The plots were planted on April 27, and harvested on October 17. Each plot had 120 lbs. of nitrogen applied when sorghum was about knee high. Yields per acre were adjusted to 15% moisture for all 9 hybrids.

The results are as follow:
 T.E. 77 8889
 Texas 660 8685
 P.A.G. 665 8628
 Lindsey 788 8386
 Apache 8348
 DeKalb F63 7888
 Steckley 106 7851
 Steckley 214 7672
 Frontier 400F 7392

most elaborate and expensive systems cannot remove all of the small "pin and pepper" trash that is ground into seed cotton when it is tramped into the trailer.

3. Keep strippers and trailers clean. Do not over lubricate. Wipe off excess grease and keep the trailer beds free of dirt.
 4. Keeping the strippers centered on the row and operating at the proper speed will help eliminate barky cotton.
 5. Keep a few tarpaulans on hand in case of rain or dust storms.

These results are very interesting from that fact that several people had made guesses or tried to pick the top hybrid, before they were harvested. It seems that no one had picked the top 2 as the high producers. It just goes to prove that you can't always look at something and determine what it will do. The best way, of course, is by weights.

With only approximately 3% of our cotton out of the field and about 65% of the grain sorghum harvested the early winter weather is definitely not doing us any good. Cotton quality is going to be hurt and grain sorghum could start falling. The bad weather will, however, give farmers a chance to put harvesting machinery in good shape, so when we do get some pretty weather, they won't be bothered as much with machinery failures.

Even though we are going to be in a hurry to get cotton harvested, let's keep the following in mind:

1. Don't start strippers too early in the morning following heavy dews or showers. Research has shown that harvesting cotton with too high a moisture content can cost the farmers \$10 to \$15 a bale in quality. Cotton gins best at a lint moisture content of about 7 1/2%. A good rule of thumb is to squeeze a few holes and if the cotton bounces back after being squeezed in the hand, it will be too moist for good harvesting and ginning.
2. Provide ample trailer space for each bale of cotton. The USDA estimates that it takes up to 450 cubic feet of space for one bale of machine stripped cotton. To tramp and crush cotton into too small a space results in lower grade cotton. Even gins with the

RUBY LESLY AND GARY FOSTER

To Honor 4-H Clubbers

Reba Lesly and Gary Foster, Farmer County 4-H Gold Star Girl and Boy of 1961 will be honored Saturday evening, November 18 at the District 4-H Gold Star Banquet to be held in Amarillo in the YWCA Building at 6:00 p.m.

This banquet is sponsored annually by the electric cooperatives of District 1. Gold Star boys and girls from 22 counties of District 1 will be honored.

The Gold Star Award is the highest county award provided by the Texas Agricultural Extension Service. The club members must be at least 13 years of age as of January 1 of the current year.

Other requirements state that the club member must be an active 4-H member during the current year. The club member also must have completed at least 3 years of club work including the current year. And a club member may receive this award only once.

Also planning to attend the banquet are Mr. and Mrs. U.L. Lesly, Mr. and Mrs. Nelson Foster, and Extension Agents Miss Ettie Musil, and Mr. and Mrs. Deryl Coker.

HD Agent's Notes

BY MISS ETTIE MUSIL

It's time to start planning for that Thanksgiving turkey. Homemakers are forever puzzled how much turkey to buy for company guests, or even for their small family at home. For each generous serving of roasted whole turkey you may need to allow three-fourths to one pound per person.

Here are some recommended servings needed and how much ready-to-cook turkey you may need. For 4 to 10 servings you will need 4 to 8 pounds of turkey. For 10 to 20 servings, 8 to 12 pounds turkey will be needed.

If you are planning to have more friends or family members home for dinner you may need to plan for a 12 to 16 pound turkey for 20 to 30 servings. A 16 to 20 pound turkey would serve 30 to 40 servings. Don't forget to allow extra servings for evening meal turkey.

Now the question comes up "How long should I thaw my turkey" or "Does my turkey need thawing before baking?" Unstuffed frozen turkeys and turkey parts, except boneless

turkey steaks, should be almost completely thawed before cooking. Do not thaw commercially frozen stuffed birds before cooking.

The refrigerator is the best place to thaw. Thaw whole birds and large parts in the original wrappers. Unwrap small parts and separate them so air can reach each piece.

To shorten the time you may thaw turkeys sealed in water-tight wrappers in cold water. Do not use warm water. Since the water will become very cold you will need to change the water often. Allow from 2 to 6 hours, depending on the size of the package. Or thawing may be started in the refrigerator and finished in cold water. Frozen turkeys and turkey parts should be cooked soon after thawing.

It takes about 2 to 3 days to thaw a large whole turkey in the refrigerator. Allow about 1 to 2 days for a small whole bird to thaw in the refrigerator. If you plan for a half, quarter, or half breast parts from a large bird allow 1 to 2 days to thaw. And as I mentioned earlier, do not thaw commercially stuffed turkey. Follow baking directions on the package; they allow time for frozen turkey to thaw and bake.

To make the dressing start preparing the stuffing a day or so ahead of time if you like, but refrigerate dry ingredients and bread crumbs or pieces may be made ahead of time and crumbled or cubed.

Do not stuff the turkey until time to roast it. Stuffing a turkey and refrigerating it is not recommended. Turkey may be roasted unstuffed to shorten the cooking time, and the stuffing baked separately.

Now we have the size turkey, it has been thawed in the refrigerator, stuffing has been made except for the baking. Very young birds as fryer-roasters 4 to 8 pounds should be roasted 3 to 4 1/2 hours if they are stuffed, or 2 to 2 3/4 hours if unstuffed. Well-grown young birds y to 12 pounds stuffed should be roasted 3 1/2 to 5 hours or unstuffed 2 1/2 to 3 1/2 hours. A 16 to 20 pound stuffed turkey needs to bake 6 to 7 1/2 hours, or unstuffed 4 1/2 to 6 hours.

Roast turkey at moderate oven at 325 degrees. Plan roasting time so that the turkey will be done 20 to 30 minutes before serving. This "rest period" helps make meat juicy and carving easy, and gives you time to make the gravy.

Home builders or those purchasing homes are reminded by the Texas Farm and Ranch Safety Council that this is Fire Prevention Week. Home builders should insist that only fire-proof materials be used for building or repairing. Many of the modern materials look good but may be fast burners, they warn.

DRILLING STATISTICS FOR AUG. AND SEPT.

During the month of August, 71 wells were drilled within the bounds of the High Plains Water District, 11 replacement wells were drilled; and 2 wells were drilled that were either dry or non-productive for other reasons. The County Committees issued 72 new drilling permits.

In September, 32 new wells were drilled; 13 replacement wells were drilled; and 4 wells were drilled that were dry. The Committees issued 61 new drilling permits.

Permits issued and wells completed for August and September are listed below by counties.

	Permits Issued		New Wells Drilled		Replacement Wells		Dry Holes Drilled

OVERSEAS CANDY

3 cups sugar
 1 cup evaporated milk plus 3 tablespoons
 1 cup white Karo
 1/4 pound butter
 1 pound pecans
 1/4 teaspoon salt
 1 teaspoon vanilla
 Beat all together, except vanilla until it forms soft ball when tested in cold water. Let mixture partly cool in pan, then pour into mixer. Add vanilla and beat until thick. Drop by teaspoonfuls onto buttered wax paper. Cool.

Good Response To InSTITUTE

Prospects for a record crop and wide grower response indicate participation in the Cotton Producers Institute in the High Plains will be greater than the original estimate of one million bales the first year.

The optimistic outlook for the voluntary grower plan to achieve a 25 per cent increase in cotton markers and acreage was pointed up this week by Roy Forkner, Lubbock, Chairman of the High Plains Committee for the Institute.

A check with Plains growers shows participation in areas where meetings were first held in running as high as 85 per cent in some counties, with the average will above 50 per cent. Organization of the Institute, controlled and financed at \$1.00 per bale by producers, is nearing completion. Committee members in the counties now are explaining the plan to neighbors and urging them to join.

"The Institute gives us two powerful tools," said Howard Alford of Lubbock. "We'll use research to cut production costs and nationwide advertising to cultivate customers for cotton products. Research also will help us improve cotton products and find new uses."

The HAPPY HOMEMAKER

BY JUNE FLOYD

Cool winter evenings, such as we are sure to be having in the near future, are ideal for making Christmas candy and cookies. If you have saved the unusual glass and tin containers you have bought various things in during the year, drag them out, paint the tops and use them for gift containers for the candy you make.

It is a good idea to make several recipes of different kinds of candy, then wrap various sizes and shapes in Saran wrap and place them in whatever box, jar or other container you have and you will have a gift suitable for anyone on your gift list.

The following recipes are being borrowed from "Treasures of Recipes," a cookbook recently published by Lubbock Christian College Associates.

DIVINITY CANDY

2 cups sugar
 3/4 cup white Karo
 1/4 cup cold water
 2 egg whites
 Boil sugar, Karo and water until stringy (test in cold water.) Pour a little at a time into the beaten egg whites, beating in the meanwhile. Beat until cool and stiff. Add nuts to suit and pour into buttered pans.

MILLION DOLLAR FUDGE

4 1/2 cups sugar
 1 1/3 oz. can evaporated milk
 1/2 cup butter or oleo
 1 pint marshmallow cream
 3 6 oz. packages chocolate chips
 1 teaspoon vanilla
 Combine first 3 ingredients and bring to a boil; boil 6 minutes, stirring constantly. Remove from flame and add re-

Before roasting place turkey on a rack in shallow pan, breast side up unless it is to be turned during roasting. Small birds roast well without turning. Heavy birds roast more evenly if started breast down and turned when half done. This heavy bird would weigh about 18 pounds. Roast halves and quarters skin side up.

Brush the skin of the turkey with melted fat. Do not add water. Do not cover the pan. You may put aluminum foil tent over the turkey or a piece of thin cloth moistened with fat. Keep basting the turkey with pan drippings or melted fat several times during roasting.

Right after the meal, remove any stuffing left in the turkey. Cover stuffing and bird lightly, and refrigerate at once. Measurized portions of meat may be frozen. Cool broth and gravy quickly. Refrigerate at once.

maining ingredients. Mix until chips are melted. Pour into 2 well greased 6x8x2" pans. Cool and cut into squares. Makes 5 pounds. 1 pound of nuts may be added if desired.

PEANUT BRITTLE

2 cups sugar
 1 cup white syrup
 1/2 cup water
 1/2 teaspoon salt
 3 cups peanuts
 1 teaspoon oleo
 1 teaspoon vanilla
 1 heaping teaspoon soda
 Put sugar, water and syrup in pan and boil until it crackles in cold water. Add peanuts and cook slowly until the peanuts are roasted. Add vanilla, oleo and soda. While mixture is still foaming, pour on greased cookie sheet. Cool. Break into pieces.

DATE LOAF CANDY

3 cups sugar
 1/2 cup water
 1/2 cup milk
 1/2 cup Karo
 1 box dates
 2 cups chopped pecans
 Combine first 4 ingredients and bring to a boil. Add dates. Cook until mixture forms soft ball in cold water. Add nuts, remove from fire and beat until real thick and heavy. Have wet flour sack ready, pour candy onto sack and roll. Cool and slice.

BUTTERSOTCH CARAMELS

3 cups sugar
 1 cup butter
 1 cup heavy cream
 1 cup light cream
 1 3/4 cups white Karo
 1 teaspoon vanilla
 2 cups pecans
 Cook first five ingredients to soft ball stage (240degrees). Pour over pecans in well greased pan after adding vanilla. When cool cut in squares and roll in wax paper.

Contest

1. There are 10 high school and college football games listed in ad. on this page.
2. Pick the team you think will win in each game and place the WINNER'S NAME beside same advertiser's name in the contest entry blank at bottom right of this ad.
3. Pick the score of the tie breaker game and place your guess in the appropriate blanks on the entry. The tie breaker game will not count on your won-lost record. It will be used only in case of a tie.
4. Winners will be named by the Monday following the contest deadline each Friday and they will be named by Saturday, if possible. Cash prizes of \$5 for first, \$3 for second, and third prize of \$1 will be awarded.
5. Tabulations of individual entrants will be kept all season and at the end of the season a grand prize winner will be named. Grand prize winner will receive two free tickets to Cotton Bowl games plus hotel, food and traveling expenses to Dallas and the January 2, 1961 football classic.
6. There is nothing to buy. No requirements other than to bring the entry blank, filled out, to The Blade office by 5 p. m. Friday of each week.
7. Only one entry blank may be submitted per individual. If more than one blank is submitted by an individual, all will be disqualified.
8. Tabulations will be available for public inspection. Members of Blade staff will serve as judges for contest.
9. Everyone, except employees of this newspaper and their families, is eligible to enter.

County Officials Seek Re-Election

(Continued from page 1.)

seek re-election in Democratic Primary next May 5.

Jefferson will be seeking election to his fifth term in office. He has served two four-year terms and two two-year terms.

In making public his announcement as a candidate to succeed himself, Jefferson made the following statement:

"In announcing my candidacy for nomination to office of Parmer County commissioner, Precinct 2, subject to will of the voters in the Democratic Primary next May, I wish to express my sincere thanks and appreciation to the voters of the precinct for their help and confidence in the past and pledge myself to continue to serve in the best interests of the people if I am re-elected.

"I will appreciate your vote and influence."

CHARLIE JEFFERSON

Brewer Seeks Re-election As County Judge

I wish to take this means of announcing to the people of Parmer County that I will be a candidate for reelection to the office of County Judge and Ex-officio County Superintendent for a second term, subject to the actions of the Democratic Primaries in 1962.

I appreciate the confidence the people of Parmer County have placed in me, and during my first term I have tried, to best of my ability, to discharge the duties of my office fairly and impartially.

Should you see fit to elect me, it will be my purpose to continue to discharge my duties to the best interests of the people of Parmer County. The facilities of my office will always be available to you, if I can help you in any way.

Loyde A. Brewer

Dorothy Quickel For District Clerk

I would like to announce as a candidate for District Clerk, subject to the Democratic primary.

I have been Deputy County and District Clerk for the past ten

years and feel this experience qualifies me for this office. I pledge my time and efforts to fulfill the duties of office to the best of my ability. I will appreciate your support, vote and influence in my behalf.

Very sincerely,
Dorothy Quickel

Mabel Reynolds For Re-Election

Subject to the will of the voters of Parmer County Democratic Primary election next May, I wish to announce as a candidate for re-election to the office of County Treasurer.

I wish to express my thanks and appreciation for the support you have given me, and I shall be grateful for your influence and support in the coming election.

Very truly,
Mabel Reynolds

Bovina Vs--

slot. They replace Stevenson, Glasscock and Fraizer. Coach Gee had his squad working this week mostly on defense in an attempt to keep Groom's fast halfbacks and aerial game in check. There was some time devoted to offense, however.

Time and site of the game was decided at a meeting in Canyon Wednesday night of school administrators and coaches from Bovina and Groom. Ideal time for the game was Friday. But a AA bi-district game between Floydada and Dalhart was already scheduled for Buffalo Bowl Friday night and Groom was opposed to playing in afternoon. Those two factors caused the game to be scheduled for Saturday night.

This will be Bovina's first bi-district football game since 1954. Mustangs have, however, been consistently in basketball playoffs.

In '54, Bovina teams lost to Meadow in bi-district, then won by default after it was discovered Meadow had an ineligible player. Bovina lost in regional play to Matador.

Winner of Bovina-Groom play will meet winner of Anton-Wilson contest the following weekend in regional game, which is as far as class B playoffs go.

Whittlin' --

that expense-paid trip to Cotton Bowl.

Following was swiped from The Tulsa Herald which in turn swiped it from another paper which in turn, etc.

"If a man's after money, he's money mad; if he keeps it he's a capitalist; if he spends it he's a playboy; if he doesn't get it he's a ne'er-do-well; if he doesn't try to get it he lacks ambition. If he gets it without working for it, he's a parasite; and if he accumulates it after a lifetime of hard work, people call him a fool who never got anything out of life."

What in world is matter with Bovina's outdoorsmen? Here, for first year in many, there's open season on sandhill crane and we haven't heard of a Bovina hunter bagging one. We've read about a Farwell man killing a couple and about a Houston hunter getting his limit of two, but not a word have we heard about a Bovinian bringing down a member of this strange fowl family.

We want to make a picture of first hunter who brings one by our office. . . if he's a Bovinian.

Next best thing to having a district championship football team in your town is have a district championship basketball team. . . or vice versa, depending on which sport you prefer.

In Bovina, we noticed, the most preferred sport is one we're winning at. . .

Exact particulars will be worked out by officials of winning schools.

SCIENCE TOPICS

A GIANT RADAR complex near Lima, Peru is probing outer space for information on stars and other possible space inhabitants we may have overlooked using conventional telescopes. The station, constructed by the U. S. National Bureau of Standards, has a 6-million-watt transmitter and an antenna which covers 22 acres.

SMALLER FAMILIES have become more popular with women of child-bearing age, report three scientists at Miami university. Married women aged 20-24 in 1955 expected to have an average 3.1 children, but this year those in the same age bracket expect only an average 2.8 children. The report predicts an "appreciable downturn" in the average size of completed families within several years.

Steels containing nickel retain their toughness at sub-zero temperatures where most metals become brittle and break.

MONDAY--

Invite Public To Library

Public open house will be observed at Bovina High School Library Monday, High School Principal James McLeroy announces.

The open house will mark beginning of a book drive for the library which will be conducted jointly by student council and Bovina Woman's Study Club.

The groups will seek book donations to be added to the library, McLeroy says. Individuals wishing to give books may bring them when they come to the open house Monday or they may contact him, a student council member or a member of study club.

Mrs. John Zahn, librarian, has arranged present supply of books systematically and ample shelf space for more books has been provided.

Possibilities of making the library a public one are being considered, McLeroy says.

Britons Have Fun Guessing Name Of New Heir To Throne

By MARGARET SAVILLE United Press International LONDON (UPI) -- Britons indulged in a national guessing game today trying to pick a given name for the newest heir to the throne, tiny Viscount Linley of Nymans.

As the apple of the nation's eye slept in his blue-trimmed crib sheltered for a time against a world of clamor and adulation, Britons "wet the baby's head"--traditional term for the toast drunk to the newborn child.

Clarence House, where the baby was born, was banked with flowers. In the room of the baby's mother, Princess Margaret, were three bouquets of roses from his father, Lord Snowdon, the former Antony Armstrong-Jones.

Inherited Father's Title
The baby inherited one of his father's titles at birth but he also will get a given name or names.

The Daily Sketch reached far back into the Armstrong-Jones family tree and came up with the name of Ludwig.

The Daily Herald added up the favorite royal names of Queen predicted the boy would be named Albert.

Tourists interviewed outside Clarence House favored George, after Margaret's late father, King George VI. Others thought it

might be Antony.

Sightseers Tricked Past
Crowds of sightseers trickled past Clarence House far into the night, peering at the light from Princess Margaret's bedroom.

Viscount Linley was born Friday to the squeal of a passing bagpipe band.

Friday night some of the details were released. He weighed six pounds, four ounces at birth, has blue eyes like his mother and fair hair like his father.

In the words of his grandmother Queen Mother Elizabeth, "He's a lovely little boy."

ORLANDO PARK, ILL., HERALD: "If Abraham Lincoln was alive these days... (he) would have government protection under the minimum wage law and social security."

"If the wages he was offered were not satisfactory, he would receive a subsidy for rail splitting, another for raising some crop he was going to raise anyway, and still another subsidy for not raising a crop he had no intention of raising."

"The rail splitters union would increase his wages periodically."

"Result: He wouldn't be President Lincoln."

RESEARCH PAYS OFF

Earl Stevenson, who farms east of Bovina, planted two varieties of P.A.B. --515 and 665. "Both had good early vigor," Stevenson says, "and I was especially pleased with the 515. It matured early, was standing when it was harvested and weighed good. It threshed more than it looked like it would." Stevenson's P.A.G. yield was "around 7000" pounds per acre. He farmed it just as he did his other hybrids, pre-watered and watered three times during growing season. He fertilized with 120 pounds of ammonia and side dressed 50 more pounds per acre. Stevenson plans to plant P.A.G. again next year.

Mr. Stevenson is one of many farmers who have found it profitable to plant P.A.G. Hybrid Sorghums.

Plan ahead for profit. Order your P.A.G. Sorghum seed now. P.A.G. offers you a Seed Replacement Program. Ask about it when you place your order. Man. . . That's Sorghum!
