FREE **ADVICE** TO WOMEN BOTH FOREIGN AND DOMESTIC

Women suffering from any form of fliness are invited to promptly com-municate with Mrs. Pinkham at Lynn, Mass. All letters are received, opened, read and answered by women. A woman can freely talk of her private ill-

their files will attest.

Out of the vast volume of experience which Mrs. Pinkham has to draw from, it is more than possible that she has gained the very knowledge needed in your case. She asks nothing in return except your good will, and her advice has helped thousands. Surely any woman, rich or poor, should be glad to take advantage of this generous offer of assistance. Address Mrs.

Pinkham, care of Lydia E. Pinkham Medicine Co. Lynn Mass. Medicine Co., Lynn, Mass.

Lydia E. Pinkham's 80-page be completed by July 1, a record for Text Book. It is not a book for quick railway building for the sort of general distribution, as it is too territory through which is to be built. expensive. It is free and only obtainable by mail. Write for University extension, announced that It today.

ed over and over, and some bitterness injected the whole conclusion was so settled by act on the part of the United States and silent consent on the part of all others that the canal shall never be blockaded nor shall right of war be exercised nor any act of hostility committed within it. The United States, however, shall be at liberty to maintain such military police along the canal as may be necessary to protect it against lawlessness and disorder.

THE GREAT AVIATION MEET.

(Signed) Miss Mary A. Bentley, Fliers Do Numerous Stunts to Delight , of Crowds.

> Dallas: The great aviation meet, the first in the Southwest, has come and gone. To many it was a wonder and a revelation; to others it was tame and uninteresting. Flights were made on Wednesday, Friday, Saturday and Sunday, the winds being too high Thursday. Much trouble was had with several of the machines, and some of them were practically abandoned. Long distance flights over the city and nearby country districts were made on several occasions, and at one time Garros claimed to have reached an altitude of 8000 feet. No unusual feats were attempted or performed. Monday, Tuesday and Wednesday of this week were added to the dates, making a week's stand. The best flight was made Sunday, when Garros was up for 45 minutes and covered a distance estimated at 45 miles. He landed three miles outside the city and came in in a buggy, having lost his way in the settling darkness and clouds that obscured a view of the

Costly Cigarette Smcke. Little Rock: Investigation into the origin of Tuesday's conflagration, which destroyed nine business houses and caused a loss of \$750,000, showed that the blaze was started by a carelessly thrown cigarette stub. Tow students of a business college located on the fifth floor of the building in which the fire started confessed that they had thrown lighted cigarettes onto a box filled with an oil sub stance used for cleaning floors. A blaze started, but the boys poured

ments have been turned in for vote selling in last November election.

water on it and thought they had

extinguished the fire.

· Railroads ·

We have 13,000 miles of railroad in operation. The average cost of transporting freight over the railroads of Texas last year was less than 1 cent per ton per mile.

1 Cent Per Ton Per Mile.

Railroad transportation saves 42 cents per ton per mile as compared with public highways, and illustrates the economy of improved methods of farmer who hauls a bale of cotton twenty miles to the railroad gets the same price as the farmer who hauls it one mile, and as a consumer the farmer who hauls his goods twenty miles from the railroad to the farm buys them at the same price as the farmer who hauls them one mile.

Distance levies a penalty of time and money against the long hadl which the farmer must pay. Bringing the railroad to the farm adds perpetual value to future production, says the Texas Commercial Secretaries' Association. A new railroad makes a free and equitable distribution of values to adjoining property

estimated at \$64,000 per mile

Interurbans have practically the same effect on property values as rail-Texas has 4.95 miles of railroad per nois has 21.8 miles per 100 square

The engines shown above represent the relative transportation facilities of the two States on basis of area. To equal Illinois in railroad mileage per equare mile we would have to have \$2,000 miles, and this increased mile-age will provide facilities; cheapen the

cost of transportation and develop the

resources of the State

CHILD'S GIFT REAL CHARM Rescued Father From Despondency

and Proved the Foundation

A certain business man has a curlous little charm for his watch chain. He wouldn't sell it for \$1,000; no. nor two, nor three. His little child gave it to him one day when, as he says, he was "down."

"I had lost every cent I had in the world, and there at my desk, my head on my arms, I was thinking of a possible way to end it, when my little child "ruined" mean, papa?" And then I to be heard and understood. 'You said

'ruined" paper. What does it mean?' 'It means I haven't any money, baby. Papa's a poor man.' The little feet pattered away, then back again, and here on my watch charm is what she gave me. Not a great fortune-no. but the foundation of one. Whatever | dred miles as a day's work. I've got since came from it for it gave me courage "-The Christian Herald.

Funds to Fight Tuberculosis.

pense in 1910 was for treatment in tive runs. sanatoria and hospitals, \$11,376,500 be-

The statement declares that the most significant fact in the survey of the year's work is the increase in the public money spent. While in 1909 53,5 per cent. of the total expenditure was from federal, state, municipal or county funds, 62.6 per cent. came from public appropriations in 1910. The actual amount of public money spent in tuberculosis work this past year was \$9,267,900, or more than double the amount from this same source in 1909. This fact indicates, the national association declares, that anti-tuberculosis associations are gaining ground, by securing increased appropriations from public

Human Quarry Driven to Bay. An exciting man-hunt in Nottingham, England, has ended in a dramatic manner. A hawker named Henry Stanley, locally knowns as "the bull," was accused of causing the death of a man named Clarke in a public-house quarrel. Stanley's description was given to the police, and a force of detectives started on his track. He was chased over a wide area and was driven back into the heart of the city. When the police were close upon his heels Stanley decided to surrender himself, and headed straight for the police station. He entered the room one minute in front ed, "I'm Harry Stanley, the man you travagant.
