J. L. Glass, T. J. and Pat Kellis made a trip to the J. T. Joyner ranch, near Lamesa, Dawson county last Monday and Tuesday. While there, Mr. Glass bought ten registered Hereford bull calves and yearlings from Mr. Joyner, for service on his Lacy ranch. These cattle will be fed through the winter and delivered about April 1st.

Mr. Joyner's herd is probably the best herd of range Herefords in Texas, many of his cows, as they run upon the range, weigh fifteen and sixteen hundred pounds. This herd was selected from C. C. Slaughter's famous Roswell herd, which is said to be the best in America.

#### **WEALTH OF FARMER GROWS THE FASTEST**

RURAL INCREASE 117 PER CENT AGAINST CITY'S 59

121 NEW TOWNS IN TEXAS

During the past decade the value of our property assessed as town and city lots, which includes the lands and buildings within our city limits, has advanced in value from \$189,760,828 in 1900 to \$506,255,233 in 1910, making an increase of \$317,495,410 or 167 per cent, but city property not being rendered at its true value it is likely that its actual increase in value will exceed \$600,000,000. No attempt is made to separate the value of the buildings from the value of the land within our city limits by either the State Comptroller or the Federal Census Bureau and the information is therefore not available.

The Federal Census shows that we have built 121 new cities during the past decade, and our city population has increased from 559,872 in 1900 to 938,104 in 1910, making an increase of 378,232 or 67 per cent. We now have twenty cities with ten thousand population and over, and three cities that approximate

100,000 in population.

The per capita increase in wealth of city population, taking the assessed value of city lots and buildings as a basis, has advanced from \$339 in 1900 to \$540 in 1910, making an increase of \$210 per capita or 59 per cent.

Compare these figures with those of the per capita increase in farm wealth and we find the farmer has made an increase of 117 per cent against an increase of 59 per cent within our cities. These figures prove that we have greater oppor tunities on the farm for money making than in the city and if our citizenship could fully appreciate the force of this comparison it would turn the tide of our population back to the soil.

Texas has probably suffered less from the rush of its citizenship from the farm to the city than any other State in the Union. While our cities have shown a rapid increase in population our farms have cor siderably more than held their own. Our cities have been built up by immigration, inter-state and foreign. and have drawn very little from the farms.

The commanding importance of Printtype is every where couceded.

For who does not see what it means to make the world's vast volume of type-Written matter as readable as books and mag asined The Printype Oliver Typewriter is equipped with beautiful Bok Type, such as is used on the world's printing

Printype is distinguished by marvelous clearness and beauty. It do s away with all strain on eyesight which the old style outline type imposes. Printype pats life and style and character into typewritten correspondence. It makes every letter, every numeral, every character "as plain as print."

Tue complete story of Printype has pever before been told. Here it is. THE REAL STORY OF PRINTYPE

The id a from which "Printype" sprang resul ed from the success of our type experts to equipping a typewriter used to our offices to write "The Oliver Typewriter" in our famous trade-mark type just as the name appears on the outside of the machine and in all Onver publicity.

The beautiful appearance and the marvelous clearness of the reproduction of our "ebony" trade-mark type, disclosed the possibilities of equipping The Oliver Typewriter to write the entire Euglish language in shaded letters!

We worked for years on the plan and finally encoreded in producing, for exclusive use on The Oliver Typewriter, the wond- rig! shaded letters and numerale know to the world as "Printype,"

THE PUBLIC'S VERDICT That the public is overwhelming in favor of Printype is impressively shown by this fact; Already over 75 per cent of our entire output of Oliver Typ writers are "Printypes."

The public is demanding Printype in preference to the old-style type. Within a year at the present rate. 90 per acat

of our total sales will be "Printypes" Thus The Oliver Pype" riter, which first ouccoastully introduced visible writing, is again to the fore with another revolutionary improvement-

#### TO CORPORATIONS:

The Oliver Type writer is used extensively by great concerns in all sections of the world Our "17. euts-a-Day" Plan is designed to help that large class of typewriter buyers who want the same typewriter that serves the great corporations, but prefer the easy system of purchase.

The masses want The Oliver Typewriter becasee it stands the test of the largest corporations Meet "Printype"-You'll Like Its Looks. Ask for Specimen Letter and "17-cents-a-

Day" Plan. Make the acquaintance of Printyre, the reigning favorite of spewriterdom Ask for a letter written on The Printype O iver Typewriter, which will introduce to you this new type We will also be pleased to foward the "17-Centea-Day" Plan on request. Address Sales Department,

#### FIGS A POPULAR FRUIT

EVE'S FAVORITE BECOMES GOLD IN TEXAS PROGRESS.

LARGEST ORCHARDS HERE

The fig was the early companion f man. Ite leaves furnished the initial garments for our first ancestors, its fruit nourished early civiliration and its foleage has shaded and sheltered man and beast since the beginning of time.

It has had more free advertising than any other fruit in the vegetable kingdom. It figured conspicuously in the episode that resulted in closing the Garden of Eden, the Savior used it in a parable and it is closely woven in ancient legends and in the history of nations. To mention the fig leaf nakes mankind smile and to men-

The soil, climate and altitude of the coast country for one hundred miles inland is especially adapted to the hardy growth of the tree and the perfect maturity of the fruit and the skillful horticuiturist has developed varities especially adapted to natural conditions.

It responds generously to kind treatment, makes few demands upon its owner, its yield is reliable and abundant and the tree shows remarkable business instinct in making Texas its domicile.

The fig is the pioneer of Texas fruits and the numerous races of the tree have explored most every section of the State, but it has more thickly populated the coast country than any other part of Texas.

According to the Texas Almana

we have 3,710 acres now in commercisl fig orchards on the coast country and the planting of an additional thousand acres is under contract. Galveston County leads in fig culture, having 1,225 acres. The largest fig orchards in the world are located in this county. The farm value of the annual output of one acre of bearing figs averages \$250 and the total value of the annaal Texas output approximates \$1,000,000.

#### PHYSICIAN ADVISES CUTICURA REMEDIES

"Four years ago I had places break out on my wrist and on my shin which would itch and burn by spells, and scratching them would not seem to give any relief. When the trouble first began, my wrist and shin itched like poison. I would scratch those places until they would bleed before I could get any relief. Afterwards the places would scale over, and the flesh underneath would look red and feverish. Sometimes it would begin to itch until it would waken me from my sleep, and I would have to go through the scratching ordeal again.

Our physician pronounced it "dry eczema." I used an ointment which the doctor gave me, but it did no good. Then he advised me to try the Cuticura Remedies. As this trouble has been in our family for years, and is considered hereditary, I felt anxious to try to head it off. I got the Cuticura Soap, Ointment and Pills, and they seemed to be just what I needed. "The disease was making great headway on my system until I got the Cuticura Remedies which have cleared my skin of the great pest. From the time the eczema healed four years ago, until now, I have never felt any of its pest, and I am thankful to the Cuticura Soap and Ointment which leader of the Unionist party in parlia-ment, succeeding A. MAKES RATHER A BAD START

No Doubt Boy Meant Well, but His Initial Efforts at Keeping a Diary Are Impressive.

This is my first diry so dont mind

the spellin. I wus'nt goin to right it

till a little while longer, only, this morning was rainy and my ma sed, William, why don't you begin your diry, this will be a good day to begin, and it will keep you out of mischif?" I sed airight, so I went up-stairs and got my big brother John's stamp album and began pulling out the stamps so's I could right. John says his stamps are worth a lot of money but I don't believe it cause when he wanted to buy a football the other day why didn't he sell em and get the money. Anyhow I don't want him to catch me as I have started righting in it. The first thing in a diry is the date so I will now right it. October 26, 1911-When i began this diry I forgot to tell you that I borrowed my sisters pink hair-ribbon to hold the leaves to-gther more, and, when big brother John came home I heard him yell awful when he couldnt find his album so I ran upstairs to the attic behind a big trunk where he cant find me. I just now heard my sister come in and Im so scared I darst not go down stairs now and Im afraid to right anymore so I'll have to creen in the trunk and stay till he goes. I'll continu my diry to-morrer. -Newark (N. J.) Star.

W. N. U., DALLAS, NO. 47-1911. When You Think

Of the pain which many women experience with every month it makes the gentleness and kindness always associated with womanhood seem to be almost a miracle. While in general no woman rebels against what she regards as a natural necessity there is no woman who would not gladly be free from this recurring period of pain.

Dr. Pierce's Favorite Prescription makes weak women strong and sick women well, and gives them freedom from pain. It establishes regularity, subdues inflammation, heals ulceration and cures female weakness.

Sick women are invited to consult Dr. Pierce by letter, free. All correspondence strictly private and sacredly confidential. Write without fear and without fee to World's Dispensary Medical Association, R. V. Pierce, M. D., President, Buffalo, N. Y.

If you want a book that tells all about woman's diseases, and how to cure them at home, send 21 one-cent stamps to Dr. Pierce to pay cost of mailing only, and he will send you a free copy of his great thousand-page illustrated Common Sense Medical Adviser—revised, up-to-date edition, in paper covers. In handsome cloth-binding, 31 stamps.
