

STERLING CITY NEWS-RECORD

STERLING CITY, TEXAS, FRIDAY, SEPTEMBER 27, 1912

NO. 35.

VOL. XII.

TELLEZ AT HEAD OF NORTHERN FORCES

DEFEATS HUERTA IN CAMPAIGN AGAINST REBELS.

NOT LOCATE OROZCO

Is That He May Have New and Large Force in Field Now.

Gen. Tellez has placed in command of the Government troops in the operations against the rebels in the northern part of Mexico, succeeding Gen. Huerta, has been granted temporary leave to have his eyes treated. It is believed that it will be many weeks before Gen. Huerta will be again able to assume command.

The scene of operations must be that of Galveston is indicated by the rapid movements in Coahuila of rebel movements in Coahuila of the LaHuna district about Torreon. Just where Gen. Pascual Orozco is yet a mystery to the War Department, but apparently the rebels lead to the belief that he is either with Caraveo near the Gulf or with a new and large force appearing just west and north of Torreon, near the Refugio Mountains. The rebels who appeared in these localities are well armed and undoubtedly fighting under the banner of Orozco.

Torreon was brought to Torreon by the rebels force near the Refugio Mountains defeated a body of Federal troops Thursday. The rebels near Musiquia are said to be more than holding their own.

The village of Chapultepec, two miles from Cuernavaca, was taken by Zapatistas and reports of the capture of the city of Mexico in and of the States affected by the rebellion. In the State of Mexico increased activity has been reported. Gen. Ovejo de Lao, who is believed to be the dominating character in that region last week established headquarters at San Simon and threatened to sack Tenango in revenge for the recent administration by the Government troops.

TEXAS NEWS

GATHERED EVERYWHERE

The Greenville City Council has awarded the contract to build eleven miles of new concrete sidewalks.

The attorney general has approved a bond issue of \$15,000 for Caldwell County common school district No. 20.

Gov. Hadley and Missouri State Board of Agriculture have decided not to quarantine against horses from Kansas and Nebraska.

The gin at Pasche, near Brady, burned, a total loss. Insurance \$4,500. Twenty bales of cotton and forty tons of seed also burned.

A sum calculated at \$200,000 by one of the school trustees will be required to provide adequate school building accommodation for the Fort Worth public schools.

Will Smith, a negro, was crushed to death at Galveston when the sand scoop, which was loading his wagon from a sand barge at pier 22, pinned him to the wagon in unloading.

The 12-year-old son of J. E. Ashcraft a gliner at Rogers, Texas, killed a very large pelican at a gin tank where it had alighted for water. The bird measured 7 feet 9 inches from tip to tip of its wings.

Plans are being made by the directors of the First National Bank at El Paso to erect a seven-story structure, costing \$500,000, making it the finest banking house between Los Angeles and Dallas.

The will of Hon. A. W. Terrell was filed for probate in Austin last week. The value of the estate is estimated at \$45,000, consisting mostly of real estate located in Austin and Fort Worth.

A work train on the Santa Fe was wrecked two miles east of Novice. Engineer E. C. Vlas and Fireman Charles Collins were scalded and otherwise injured by the engine jumping the track and turning on its side.

Passenger train No. 1 from Coleman, was about eight hours late as a result of the wreck. About 200 feet of track was torn up.

The City Council on the Texas side of Texarkana, in response to a numerous signed petition of school patrons and others, has ordered an election to be held Oct. 21 to determine the question of a bond issue in the sum of \$50,000 for the building of a new ward school on Rose Hill and enlarging the Highland ward school in the DeLoach and Mabry addition.

A wind and hail storm struck the town of Coleman Friday afternoon and caused a damage of at least \$10,000 in the city limits, and great damage to crops in that vicinity. At Santa Ana, where it is said the greatest destruction to crops was sustained, it is claimed that 600 bales of cotton was destroyed. No lives were lost so far as is known.

The State Fair of Texas will open at Dallas Oct. 12 and continue until Oct. 27. Preparation for the greatest exhibition ever held are fast nearing completion and it is estimated that \$75,000 in new improvements are completed.

An increase of 10c on the \$100 valuation for the year 1912-13 over last year is provided for in the ordinance passed by the City Commission of Dallas levying ad valorem taxes for the present fiscal year to provide revenue for the payment of the current expenses of the city of Dallas and for other purposes. The increase of 10c is levied for the years 1912, 1913, 1914, 1915 and 1916, and was voted by property holders in an election held April 2 for the purpose of providing what is commonly known as a garbage tax.

C. B. Canshike, general live stock agent of the Gulf, Colorado and Santa Fe, with headquarters in Fort Worth, has resigned. No successor has yet been appointed.

The fourth arrest to result from the Suffolk County Grand Jury investigation of the dynamite "planting" in Lawrence, Mass., during the textile strike last January, occurred when William H. Rice, an East Milton quarry owner, was taken into custody. He was arrested on an indictment charging illegal transportation of dynamite and furnished \$2,000 bail.

The A. W. Koch Company has been organized at Waco with a capital stock of \$150,000, purpose is to conduct a realty business.

According to the report of City Physician Trimble of Fort Worth, there were more deaths than births in August in that city. The total number of deaths for the month was 77 and the total number of births 63. Of these born, 35 were males and 28 females. Of those who died, 47 were males and 30 females. Nine deaths were due to typhoid and five to pellagra.

Altafa has been shipped from the Pecco Valley this season. About 5,000 crates of cantaloupes have been shipped from Pecco to points in the North and East.

Although it sold \$100,000,000 worth of farm implement, the International Harvester Company of America last year made only \$150,000 in profits, or fifteen-hundredths of 1 per cent, according to R. C. Haakins, the president, who testified at Chicago before a special examiner in the Government's suit to dissolve the corporation.

A WEEK'S WORLD NEWS

ITEMS OF IMPORTANCE CONDENSED FOR QUICK READING.

STATE, NATIONAL, FOREIGN

Affairs Given Here in Tabloid Form for Busy Readers in City and Country.

Mrs. Albert A. Sprague, Jr. of Chicago reports that a pearl necklace valued at \$12,000 has disappeared while she was traveling from Boston to Chicago on a New York Central train. The necklace, made up of fifty-nine pearls, disappeared from a small chamois bag Mrs. Sprague wore about her neck.

One million dollars in final payment of the \$2,500,000 advanced to China under the terms of the new independent \$50,000,000 loan contract, signed in London Aug. 30, was placed to the credit of China in the Tien Tsin Bank. The price paid for the new loan was \$9. It has been decided to issue \$25,000,000 at 95 this year, the remaining half of the loan to be issued in 1913.

The Hatfield Steel Company of Hatfield, England, has underbid its nearest competitor about \$200,000 on a \$1,000,000 contract for fourteen-inch shells for the American Navy and American concerns have called upon Secretary Meyer to say whether he intends to violate the unwritten policy of the navy department of awarding contracts to American companies.

Aviator Russell Blair of Kansas City, Mo., while making an exhibition flight at Shenandoah, Iowa, was killed in a fall from a height of thirty feet. Blair had just made a successful flight and had landed some distance from the crowd. When he attempted to rise from the ground again his machine struck an air current and turned over. Blair was pinned underneath the wreckage, his head crushed under the engine.

The Harris Trust and Savings Bank of Chicago was the highest bidder for the \$198,000 permanent improvement bonds recently voted by the citizens of Sherman and Mayor John C. Wall and City Attorney Joe P. Cox, Jr., have concluded the sale of the bonds to them. The institution bid par, accrued interest and a bonus of \$1,319. The money will be used for street paving, building the water mains and improving the fire department. The work of paving the streets will be commenced as soon as the contract can be let.

The crowded and congested condition of the Denison High School building has determined the trustees to immediately begin the construction of a temporary building to be erected on the High School campus that will take care of the overflow. Also, at a meeting of the School Board, a committee was appointed to confer with City Councilmen and ask for the ordering of an election at once to determine whether or not the city will issue its bonds in the sum of \$100,000 for the purpose of constructing a new High School building to take the place of the one now in use and which is altogether insufficient to meet the needs and requirement of the times.

When a crowd of men and boys from Fulton, Ark., appeared at the county jail at Washington, Ark., with the avowed intention of lynching a negro accused of attempting to assault a white woman of Fulton, Sheriff E. D. Viven calmly took their guns away from the leaders of the mob. He then advised them to hasten from Washington as rapidly as possible and his advice was followed.

Immediate withdrawal of the armed forces of the United States now in Nicaragua is demanded in a circular drawn up by residents of San Jose, Costa Rica, copies of which have reached Washington.

Farmers in the Southwest will be able to ship corn into Mexico free of duty until the end of this year. The State Department received word from Ambassador Wilson saying the decree, by virtue of which the duty on corn imported from the United States was suspended, had been extended until Dec. 30, 1912.

Analysis of water from a deep well at Spur shows it to contain potash in solution from the depth of 800 to 3,000 feet, varying from one per cent to five per cent to five and three-tenths per cent of the solids.

The celebration of the anniversary of Mexican Independence was concluded Monday with a big military parade and without any disorders. The hissing of the name of President Madero last Friday and Saturday and led to the belief that outbreaks would probably mar the ceremonies, but none occurred.

The first train over the San Antonio, Uvalde and Monday. There were about fifty passengers aboard. It is the first train ever operated between this city and Pleasanton, Atascosa County. The road will be rapidly extended to Fowlerton, in Frio County.

To protect the border along the Rio Grande the entire regiment of Thirtieth Cavalry has arrived in El Paso from Fort Riley, Kan. The reinforcements bring the border force under command of Brigadier General Steever up to 3,500 in the immediate vicinity of El Paso.

A prohibition election has been ordered to be held in Baylor County Oct. 12.

S. H. Owens of South Carolina, a sand-clay road expert, has arrived at Palestine and will take charge of the work of building the good roads in that precinct. One hundred and fifty thousand dollars will be expended there for sand-clay roads, and started.

The reports on the condition of the National banks of the six reserve cities of Texas at the close of business Sept. 4 shows, with one slight exception an increase of both loans and discounts and individual deposits over the statement of June 14 and over the statement of Sept. 1, 1911.

Mrs. John Epps who served twenty-three years in the Indiana woman's prison for the murder of her husband and who was paroled six years ago, has been vindicated. It was learned by the death-bed confession of Henry Epps, a brother, who died a few weeks ago, at Huntington, Ind. Epps before dying said that he poisoned his brother.

Over \$100,000 is to be expended at Wichita Falls within the next few months by the Strickland interests on improvements for the water and light companies recently acquired by them and the new concern is planning to make extensive betterments in the local service.

The Hatfield Steel Company of Hatfield, England, has underbid its nearest competitor about \$200,000 on a \$1,000,000 contract for fourteen-inch shells for the American Navy and American concerns have called upon Secretary Meyer to say whether he intends to violate the unwritten policy of the navy department of awarding contracts to American companies.

Aviator Russell Blair of Kansas City, Mo., while making an exhibition flight at Shenandoah, Iowa, was killed in a fall from a height of thirty feet. Blair had just made a successful flight and had landed some distance from the crowd. When he attempted to rise from the ground again his machine struck an air current and turned over. Blair was pinned underneath the wreckage, his head crushed under the engine.

SOME COOL DESSERTS

DAINTIES EQUALLY GOOD IN HOT OR COLD WEATHER.

Recipe for the Ever Popular Strawberry Shortcake—Cherry Souffle a Delicacy That Will Appeal to Both Old and Young.

Sift together one quart of flour, one teaspoonful of baking soda, one teaspoonful of baking powder, one tablespoonful of sugar; rub into it three-quarters of a cupful of butter, mix into a soft dough with one well beaten egg mixed with one cupful of buttermilk and handle very lightly; roll it out and cut into two layers to fit buttered layer cake pans. Bake in a moderate oven till ready. When ready and cool, spread with mashed and sweetened strawberries on one of them, placing the other layer on the top. Cover with hotted frosting and decorate with large ripe strawberries.

Strawberry Shortcake.—Two heaping cupfuls of flour, three teaspoonfuls of baking powder, one cupful of milk, two tablespoonfuls of butter, four tablespoonfuls of lard and a quarter of a teaspoonful of salt. Mix and sift the dry ingredients, then add the butter and lard and chop until thoroughly blended; gradually add the milk. When thoroughly mixed divide in two halves; put each half into a round, buttered and floured cake tin. Flour and pat to fit the tin. Bake for 12 minutes in hot oven. Separate the upper portions from the lower portions of each cake with a fork—never with a knife. Spread with butter, fill with strawberry filling and arrange in layers.

To make the strawberry filling: Hull, cut in pieces and sweeten two boxes of ripe strawberries, let them stand for several hours. Arrange between the layers of shortcake and garnish the top with whole strawberries and sweetened cream flavored with one teaspoonful of strawberry extract.

Making a Cherry Souffle.—Two tablespoonfuls of butter, two tablespoonfuls of flour, half a cupful of milk, three heaping tablespoonfuls of chopped preserved cherries, two tablespoonfuls of sugar, three eggs and one additional white of egg and one teaspoonful of rose extract.

A souffle tin is plain and holds about one pint. It is prepared thus: Butter it well; then butter a double piece of white paper and wrap it round the tin outside, having about two inches above the edge, and tie it on securely. The paper is torn off when the souffle is ready. Blend the butter and flour in a small saucepan over the fire, then add the milk, stir till it boils and becomes thick; remove from the fire to cool for ten minutes, then add the sugar, the yolks of the eggs, one by one, stirring each thoroughly, add the cherries and the rose extract, then fold in the whites of the eggs stiffly beaten, and pour into the prepared tin.

Put it in a saucepan with half an inch of boiling water; put the lid on the saucepan and steam gently for three-quarters of an hour. Turn out and serve at once with hot milk.

Cherry Cake. Quarter cup of butter, quarter cup of sugar, one egg, one cup of flour, one heaping teaspoon of baking powder, two tablespoonfuls of brandy. Spread in a form or tin, put on the pitted cherries and sprinkle with zwieback or cracker crumbs. Bake 20 minutes.

Filling.—Yolks of three eggs, one-eighth of pound of grated almonds, three or four bitter almonds, one-eighth pound of sugar, rind of a lemon.

Beat the yolks and sugar fifteen minutes, add almonds and rind of lemon and the beaten white of three eggs. Return to the oven until light brown.

Salad of Tomatoes. Chop up some tomatoes, small, flavor them with a head of garlic and a shallot chopped up and rubbed through the sieve; add four tablespoonfuls of whipped aspic jelly and mayonnaise sauce, and mix into the puree. Decorate a mold with hard-boiled eggs stamped out in rounds or stars, and arrange them in tiers one above the other. Between each layer of egg place a little chervil leaf and a sprig of tarragon alternately; fill the mold with the tomato puree, place on ice, and when ready, turn out. Garnish with small salad mixed with mayonnaise sauce round the base.

Paper Cups and Towels. Most useful to picnicers, travelers, motorists, etc., are the paper cups which are to be had in sealed packages of one dozen for five cents. The sanitary towels made of crepe paper, which come in half dozen packages, are also extremely useful to travelers, walking parties, etc. Incidentally, the housewife who is determined to take things easy during her summer in the country may also consider these additions to the list of household articles which may be used once and then

Macaroni Ice Cream. Dry, pound and measure one cup of macaroni, add to one quart of cream, then add three-fourths of a cup of sugar and a tablespoonful of vanilla. Freeze, using three quarts finely cut ice to one part rock salt. Give the cream a seasonable touch by placing a ring of fresh ripe strawberries around it. Roll the berries in powdered sugar just before serving them.

To Cut Boiled Eggs. To cut hard-boiled eggs in smooth slices, dip the knife in water.

MADE THE WRONG QUOTATION

Nervous Swain Meant Well, but It Was Not Likely He Won Love of Fair Maiden.

He was diffident and universal in society's ways, but he was badly smitten with a reigning belle, and had nerved himself to woo and win. So he secured an introduction, and in due course went to pay his first call.

He thought it would help him out a bit if he took her some flowers, so he bought a superb bouquet for her. As he reached the house, however, he remembered that she had a splendid conservatory, and he tried to think of a way out of the difficulty. Suddenly he recollected the saying anent "taking coals to Newcastle," and determined to make use of it. But he was dreadfully nervous. He broke into a cold sweat as he rang the bell, and when the divinity appeared in the reception room he didn't know whether he stood on his head or on his heels.

"I—I—thought," he stammered, "that I would bring you a bouquet, but—but it's like casting pearls before swine!"

Albert J. Beveridge said in Chicago of a corrupt boss:

"He's very virtuous—oh, very virtuous. A millionaire once went to him and said:

"I want to get in the senate. Will you sell me your support?"

"No, sir!" the boss answered, striking himself upon the chest. "No sir! I'm a free-born American citizen and I'll sell my support to no man."

"But," said the millionaire, blandly, as he drew out his checkbook and fountain pen, "if you won't sell me your support, perhaps you'll rent it to me for the term of this campaign?"

"Now you're talking," said the boss in a mollified tone.

Big Crop Yarns Are Ripe. Secretary Wilson of the department of agriculture was talking about the record crops of 1912.

"These wonderful crops," he said, "are almost enough to make you believe the cross-cut saw story."

"A farmer, you know, sent his hired man to a neighbor's with a note saying:

"Friend Smith: Will you please lend me your cross-cut saw, as I wish to cut a watermelon up so as to get it into my dray?"

"The neighbor wrote back:

"Friend Jones: I would be glad to lend you my saw, but same has just got stuck in a canteloupe."

Passengers Had to Work Their Way. A drummer and a friend climbed aboard a ramshackle train in an isolated Missouri town. The train was a feeble, asthmatic piece of mechanism, and the humane society should have prosecuted its owners for allowing it to run at all.

It finally came to a dead stop just in the edge of town, and after a long interval of trying to make it go the engineer stuck his head in the door and bawled:

"Say, you two gents'll have to get out, till I git it started!"

As One Sees It. "Jones grumbles that his wife can't take a job."

"That's funny, seems to me."

"How so?"

"She took Jones."—Judge.

To prevent Malaria is far better than to cure it. In malarial countries take a dose of OXIDINE regularly one each week and save yourself from Chills and Fever and other malarial troubles. Adv.

Cheerfulness is also an excellent wearing quality. It has been called the fair weather of the heart—Smiles.

SUFFERED EVERYTHING

For Fourteen Years. Restored To Health by Lydia E. Pinkham's Vegetable Compound.

Elgin, Ill.—"After fourteen years of suffering everything from female complaints, I am at last restored to health. I employed the best doctors and even went to the hospital for treatment and was told there was no help for me. But while taking Lydia E. Pinkham's Vegetable Compound I began to improve and I continued to improve until I was made well."

—Mrs. HENRY LEISEBERG, 743 Adams St. Kearneysville, W. Va.—"I feel it my duty to write and say what Lydia E. Pinkham's Vegetable Compound has done for me. I suffered from female weakness and at times felt so miserable I could hardly endure being on my feet."

"After taking Lydia E. Pinkham's Vegetable Compound and following your special directions, my trouble is gone. Words fail to express my thankfulness. I recommend your medicine to all my friends."—Mrs. G. B. WHITTINGTON.

The above are only two of the thousands of grateful letters which are constantly being received by the Pinkham Medicine Company of Lynn, Mass., which show clearly what great things Lydia E. Pinkham's Vegetable Compound does for those who suffer from woman's ills.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

ISSUED EVERY FRIDAY AT STERLING CITY, TEXAS.

Subscribers failing to get their paper on time, will confer a favor by reporting same to us.

If you are opposed to good roads, vote against the bond issue; but if you want good roads and a cheaper rate of taxes, vote for the bonds.

As it is now, we are paying taxes at the rate of 15 cents on the \$100 for road and bridge purposes; whereas, the bond issue would only make us pay 13 1/2 cents on the \$100.

The Republican party was all right for Teddy so long as it gave him what he asked; but when it failed to give him the nomination for a third term, he suddenly found that the whole push was rotten and he took the "high-tail and went."

It is related that some of our friends have threatened to leave the county if the road and bridge bond issue carries. If this be the case, they will have to leave Texas to get away from this thing, for almost every county in the state are building roads with bond money.

The man who figures that the bond issue of \$30,000 for roads and bridges will have cost the county \$60,000 when they are paid off, forgets that under his theory and the present rate of tax we will have paid \$120,000 in the same length of time and have the roads in no better condition than they are now.

WIMODAUGHSIS CLUB

The Wimodaughsis Club met Sept 18. Mrs. H. Knight as hostess, with twenty members present.

The President's greeting, by Mrs. Lowe, was enjoyed by all; and in response Mrs. J. T. Redmon, in her sweet manner, gave the welcome address in behalf of the Club.

A motion was carried that we give fifteen minutes of each meeting to the discussion of home life, which we think will be beneficial to all.

PROGRAM

- Roll Call

We cordially invite you to make our store your home while here.

Crowther Hardware Co. San Angelo, Texas

O, Shucks

Like every other thing that contributes to the upbuilding of the country, there are a few men who are opposed to the road and bridge bond issue.

Some of these people are arguing that if the bond issue carries, the \$30,000 will have cost us \$30,000 when they are paid off. They are in earnest about it, too, and they are worrying and losing sleep over it, for they really think that it is true. Most any boy in the fifth grade, of course, could demonstrate the fallacy of their contention. But like corn, they have ears, but hear not; like potatoes, eyes they have, but they see not; and, unlike the man from Missouri, they refuse to be shown. They are "agin" roads, bridges, and most other things for which progressive people stand. It is no use to spend time and breath to argue with them; for they would not believe you if you were to show them.

There are some people who will oppose anything that will conduce to the betterment of the country—especially if they suspect it might cost them a few nickels. You will find them among those fellows who fought us so hard when we wanted to build a decent school house. They rub noses with the man who

ways roaring about the \$2.75 taxes he has to pay when his seven kids are drawing \$126 tax money from the state for their schooling. He is a half-brother to the man who has abdominal troubles because he is afraid the Commissioners might spend some of that money on the roads near town. This sickly man is a male relative of the man who fought the building of the new jail. All of these fellows like cow trails for roads, and which lead up the back way of their premises so they can slip to their homes without being seen.

They are all good fellows and mean well. They love their mothers, go to meetin' on Sunday and pay their taxes, but—O, S-s-shucks!

School Notes

Miss Alma Crawford was absent from school Monday.

Reverend Redmon visited the school Wednesday morning and made an entertaining talk. We would be glad to have more patrons with us.

School is getting along nicely. The pupils of the lower grades are working hard to secure books for their library. They have already over 200 books.

We have an interesting ball game

had a case of hysteria when the new court house was about to be built, and they are ardent admirers of that poor, little, tight-twisted fellow who mourned and wailed because we put a steel bridge across the Concho so that he could get home when the river was up. This little fellow loves the man who stood aloof, and knocked us, and didn't come "a'nigh" when we were sweating and groaning and giving up our hard earned dollars to build that railroad of which we are all so proud. Uh, huh, and he is a cousin to the man who said we could never tear down that old brush arbor and build a decent tubercle andry which to worship god. Yes, and he is a half-brother to the same fellow who

every day, in which the tenth and eleventh grade boys are playing against the eighth and ninth grades. I think the latter are winning.

HIS CATCH.

A man with a fishing pole sat on the river bank near the Atelisan waterworks intake. "How many have you caught?" some one asked him. "When I get another I'll have one," he replied.

THE IDEA.

"So you are going to call on the Influence of Alexander Hamilton at the commencement exercises this morning was very fine, Mrs. Dudds," said the professor of English. "Mebbe 'twas, professor," said Mrs. Dudds, "but her overskirt set so crooked I was most mortified to death."—Harper's Weekly.

NOTICE

The Mothers' Club will meet next Tuesday, October 1, at the school building.

All the ladies in town who feel an interest in the work, whether members or not, are requested to be present.

Letter to Jas Daly Sterling City, Texas.

Dear Sir: The hardest climate for paint is Florida; and Devoe is the longest wearing paint in that state.

D G Smith, of Madison, Fla, says: "I painted my mothers house Devoe 11 years ago, and today it looks better than other houses in town that were painted with other paint 3 or 4 years ago." Three or four and eleven.

This shows two things: (1) the low standard of paint in that part of the country; and (2) that Devoe is the paint that wears.

It doesn't show the whole fact; which is: Devoe is the paint that takes least gallons to do the job, makes first cost by a ratio of 2 to 3, 2 to 4, 2 to 5, 2 to 6 for the job.

Smith wasn't thinking about the cost of the job; it was done a long time ago. He was thinking how well the house looks after 11 years wear in that hot climate, and how long it will be before painting again.

Yours truly, F. W. DEVOE & CO. P. S.: Butler Drug Co. sells our paint.

FIRST USE OF MAHOGANY

Its Beauty for Furniture Was Discovered Accidentally—Carpenter Found It Hard to Work.

Mahogany was first used in the repair of some of Sir Walter Raleigh's ships at Trinidad in 1597. The discovery of the beauty of its grain for furniture was accidental.

A Dr. Gibbons was building a house in King street, Covent garden. His brother, a West Indian captain, had brought over some planks of mahogany as ballast. He thought the wood might be used in the house, but the carpenters found the wood too hard for their tools and objected.

Mrs. Gibbons shortly afterwards wanted a small box made. So the doctor sent the mahogany to a cabinet maker. He also complained that the wood was too hard. But the doctor insisted as he wanted to preserve some of the wood as a memento of his brother.

The finished box polished so nicely that the doctor ordered a bureau made of the same wood. The cabinet maker displayed that in his window before delivering it. The Duchess of Buckingham saw it and begged enough wood from the doctor to have it duplicated. Mahogany furniture soon after came into popular favor.

HARD TO TELL

Millions—Do you think you will learn to like your titled son-in-law? Billions—I don't know; I can't tell where to place him in my expense account. He is neither a recreation nor an investment.

AN EARLY SUBMARINE.

The submarine was known in England as far back as the early years of the seventeenth century, when a submarine was navigated from Westminster to Greenwich by Cornelius Drebel of Allman, in Holland. Drebel, who enjoyed the patronage of James I., was given an apartment in Etham palace. The king expressed his intention of accompanying Drebel in one of his submarine voyages, but was dissuaded by his courtiers, who alleged that Drebel was in league with old Nick. Drebel's boat was so constructed that, according to a contemporary writer, "a person could see under water the surface of the water, and without candle-light, as much as he needed to read in the Bible or any other book."—London Chronicle.

MORTIFYING.

"Your daughter's address on the Influence of Alexander Hamilton at the commencement exercises this morning was very fine, Mrs. Dudds," said the professor of English. "Mebbe 'twas, professor," said Mrs. Dudds, "but her overskirt set so crooked I was most mortified to death."—Harper's Weekly.

SONG-BIRDS OF A SOLITUDE

Remote Coral Islet of the Pacific Has Several Species Peculiar to Itself.

One scarcely expects to find any but such sea-wanderers as albatrosses, gulls, and the like on a remote coral islet in the Pacific. Yet the Island of Laysan, west of Hawaii, has several which have been there long enough to acquire specific distinction, for they are not known to occur except on these lone reefs.

Among these is a small red honey eater that lives chiefly on the nectar of flowers, as do its near relatives on the larger islands of the archipelago to the eastward; also a member of the warbler family of about the same size, originally probably from the Malay Archipelago. It is called the miller bird because of its partiality for millers or moths. Apparently this little warbler finds Laysan so much to its liking that it declines to extend its range to the Hawaiian islands proper, which it might reach with very little effort. The list of land birds is completed by the Laysan finch, which is the chief musician of the island solitudes. During the long ages of its residence, unheard by human ears it has trilled forth its beautiful song to the accompanying murmur of the trade winds and the rhythmic beat of the ocean surges on the desolate shore. Some years ago, when unprotected, these finches were trapped in numbers and sold in Honolulu for cage birds, but this traffic has now ceased.

MOTOR CARS AND LEATHER

What the Modern Luxury Will Cost the Poor People of All Countries.

The tremendous growth of the motor car industry is producing a scarcity of leather so great that in a little over four years, according to the leading authority in the New England shoe trade, the price as advanced 72 per cent, the Toronto Globe states. This advance, he stated, must inevitably result in an increase of 20 per cent in the cost of shoes all over the world. The interdependence not only of nations in matters of trade and commerce, but of the rich and poor, is strikingly illustrated by the statement of the New England expert. Poor folk in the remotest corners of civilization, who rarely see a motor car, will be forced to spend a larger part of their scanty income upon shoes, a necessity of existence, because rich people are pouring out money upon a new luxury.

ANTI-MOSQUITO PLANT.

The Essex County Mosquito Extermination commission, at East Orange, N. J., has obtained some of the seed of the plant called viride, and after it has made some experiments in growing it, seed will be distributed over the county by the inspectors. The plant is reported to be abhorrent to mosquitoes.

It is said that if the merest sprig of the plant be nurtured in a room no mosquito will attempt to enter it, and one strong stalk on a porch will keep it clear of the pests.

The new plant is believed not to be harmful to human beings, although scientists have not yet fully studied its qualities.

HEARD AT THE BEACH.

As the couple entered the dining room at Revere Beach a raucous voiced young fellow was assailing the air with alleged vocal music.

"Wonder who he is?" said the girl when the howler had stopped his racket.

"Don't you know who that is?" returned her escort. "He's the guy who put the din in dinner."

IGNORANCE.

Mrs. Kaller—Cooks are such ignorant things nowadays.

Mrs. Justwad—Arca't they? They can't do the simplest things. I asked mine to make some sweetbreads the other day and she said she couldn't.—McCall's Magazine.

MAKING PLACE OF ONE.

Eve—How did you come to marry me, Adam?

Adam—It was leap year and you offered to be a girl to me.

MODERN STYLES.

Ethel—Odd about Maud, isn't it? Marie—What?

Ethel—When she's dressed in her best she looks her worst.

DEPENDS.

"Isn't the graft situation terrible?"

"Not if you get one where the graft is good and easy."

ITS USE.

"I wonder what's the use of the sand on the plains?" "I suppose the sand is what the plains are sanded with."

Buy a Garland and get stove satisfaction

HIS NARROW ESCAPE

Helen—Don't you think it unsafe in such deep water?

Henry—Oh! no, indeed! Got in much deeper water last season. I nearly became engaged to one of the girls down here.

COLORING BLOOD.

The color of blood is due chiefly to iron in the little blood-cells. When the iron is kept in these little blood-cells, which are living and traveling around in the blood vessels, the color is red. Hit the skin hard enough to break some of the little blood vessels beneath the surface, and the little red cells escape from the injured blood vessels, wander about for a while in the tissues and die. When they die the iron that made them red before then changes to black-and-blue coloring. After a while this iron is taken up by the glands called the lymphatics, and made over again into nice red cells. The iron is taken up very much more quickly by the lymphatics if the black-and-blue spot is rubbed and massaged.—St. Nicholas.

ORIGINAL SIN.

Wife—John, what is original sin? Husband—Apple stealing. I didn't my dear.—Judge.

A BIT FOGGY.

Bookley—What became of you last night, Sanders? Sanders—I spent the evening with you, old man.

ARROW and Nitro Club Steel Lined SHOT SHELLS

Each and Every One a Speed Shell

The speed that breaks your targets nearer the trap. That's why Remington-UMC Steel Lined Shells have won 13 out of the 15 Handicaps held in the last three years.

The speed that gets that mile-a-minute "duck" with a shorter lead—that's why it takes over 50,000 dealers to handle the demand for Remington-UMC Steel Lined Shells.

The Shooters' fraternity are speed-wise. They know loose smokeless powder won't drive shot. They know that the drive depends on the compression.

The powder charge in Remington-UMC shells is gripped in steel. This lining is designed to give the exact compression necessary to send the load to the mark quickest. It insures speed—the same speed in every shell.

The steel lining is moisture proof—no dampness can get through. No proof—no powder can get out. Waste proof—no energy is lost.

WE GUARANTEE
The wear of every pair. Let us Shoe your family.

LOCALS

We frame pictures. —Lowe & Durham.

Some nice cottages to rent at reduced prices. R. B. CUMMINS.

Leave your laundry with Norman, the tailor.

C. W. Scudday was among the visitors of our town Wednesday.

Born:—On the 13th, to Mr. and Mrs. James Williams, a girl.

Dr. J. T. Brannan says he will make five bales of cotton this year.

MONEY TO LOAN:—On 1 or 2 years time, interest payable semi-annually. Apply at this office.

Now is the time to order that new fall suit. See Norman, the tailor. He gives you fits.

NEW Cozy Barber Shop is now open on West Side in Sterling City. Now come on and try him. It pd

Why go around with your suit run down when Norman, the tailor, can make it look as good as new.

For Sale or Trade:—A No. 4, Densmore Typewriter, in fine shape. See H. W. Stoneham, Sterling City.

\$100,000.00 to loan on farms and ranches in Sterling County. See Lewis E. Alexander at Court House.

Will buy first class Vendor's Lien notes in amounts of \$1000.00 and up. Lewis E. Alexander at Court House.

A special barber, On West Side of square He's there when it comes to Hair cuts and Shaves He's there today.

Grover Potts says it is time to have your winter suits and overcoats cleaned up and made to look as good as new. All work guaranteed With B. F. Roberts.

Remember, it don't pay to throw your old clothes away when Grover can make them look as good as new. If you haven't any to clean, get your order in for new ones. All work guaranteed. With B. F. Roberts.

JEFF. D. AYRES,
LAWYER AND NOTARY PUBLIC.
STERLING CITY, TEXAS.

District Court next Monday. Judge Dozier, of Paint Rock, was a visitor to our town this week.

Quite a number of our ranchmen are embarking in the sheep industry.

Ed Gilmore purchased a flock of sheep this week, and will engage in the sheep industry.

Judge John J. Cox, a prominent attorney of San Angelo, was here on legal business last Monday.

Lewis E. Alexander returned last Wednesday from a business trip to Mount Vernon and other points in the northeast part of the state.

Plenty of money to loan on ranch lands in sums from three thousand dollars to a hundred thousand dollars. If interested write at once as this ad. will not appear again. I am yours truly, G. B. Harness, Colorado, Texas.

When you approach an automobile with a lantern, you run the risk of burning it and yourself up. Don't do it. Use a pocket electric flash light. They cost no more than a good lantern and can be carried in your vest pocket. Lowe & Durham have them in stock, together with extra batteries.2t

Miss Eula Potts, who has been visiting her sister, Mrs. W. H. Roberts, at Tucuman, N. M., during the summer, returned home last Monday.

C. N. Crawford is putting his pasture under a wolf-proof fence. This will practically eliminate the Mexican herder and cut off the supply of mutton chops from the coyote.

There will be a meeting of citizens at the court house next Monday night for the purpose of discussing the proposition of developing the coal and oil that are known to exist near here. Come out.

Mrs. C. R. Carver and daughter, Miss Cora, and Mrs. R. P. Brown were among the east bound passengers on this morning's train to San Angelo, where they went on a shopping expedition.

J. S. Cole received a silo from Kansas City, last week, for use on his ranch up the river. This is the first silo ever built in this county, and it will be watched with much interest by our citizens.

I have made arrangements to place loans to the amount of \$10,000.00 on lands in Sterling County. If you want to borrow money sell Vendor's Lien notes see Lewis E. Alexander at Court House.

We learn that J. R. Cope has purchased a flock of sheep and will engage in the sheep business in the future.

Verner Davis left last Tuesday morning for Waco, where he will resume his studies at Baylor University.

The streets over which the public roads run are receiving some creditable improvements by J. B. Buckner's road brigade.

Walter Menn bought a 1050 sheep this week, from Lampasas parties. These sheep will be grazed on the Cushing & Mann range.

T. M. Jackson and H. Deck, of Iolanthe, were here yesterday marketing cotton. We learn that Robt. Brown was the successful bidder.

Grandchild of George III. The Grand Duchess Augusta Caroline of Mecklenburg-Strelitz, Europe's oldest princess, celebrated her 30th birthday recently. She is the only surviving grandchild of George III.

C. N. Crawford is putting his pasture under a wolf-proof fence. This will practically eliminate the Mexican herder and cut off the supply of mutton chops from the coyote.

There will be a meeting of citizens at the court house next Monday night for the purpose of discussing the proposition of developing the coal and oil that are known to exist near here. Come out.

Mrs. C. R. Carver and daughter, Miss Cora, and Mrs. R. P. Brown were among the east bound passengers on this morning's train to San Angelo, where they went on a shopping expedition.

J. S. Cole received a silo from Kansas City, last week, for use on his ranch up the river. This is the first silo ever built in this county, and it will be watched with much interest by our citizens.

I have made arrangements to place loans to the amount of \$10,000.00 on lands in Sterling County. If you want to borrow money sell Vendor's Lien notes see Lewis E. Alexander at Court House.

The new jail is rapidly nearing completion. The stone work is about completed, the concrete floors are laid and the cells are all in position. When completed, it will be absolutely fireproof.

Contractor Lee J. Rollins has been employed by our Commissioners court to build a septic tank in addition to the new jail. This device will take care of all sewage emanating from the jail and render the premises perfectly sanitary.

L. C. Dupree, of Colorado, was a pleasant and substantial caller Wednesday. Besides a substantial check for the News-Record, L. C. left a big sandy land watermelon for the editor's better half.

Dupree is an optimist, and only sees the silver lining of every cloud. He never crosses a bridge until he gets to it; consequently, he avoids all the imaginary sorrows of life.

COAL.

About the first of October I will have on sale a consignment of first class New Mexico coal. Those wishing to buy coal at a reasonable and living price, will find it to their interest to place their order with me at an early date.

—A. A. Gamble.

Lucinda Forced to Smile at Antics of Men Caught in Rain With New Straw Headgear.

"I have nothing to say against men," said Lucinda, "but really makes me smile to see them in the straw hat season when a showe comes. At such a time you may see woman in all her finery keeping calm ly on her way quite unruined, while men are darting into open doorway or starting to run, all to protect their precious straw hats from a few drops of rain. And what funny things they do besides!"

"Party of men when the sprinkler begins take off their hats and cover it sort of carelessly down at their sides as if they had taken it off just to cool their fevered brow, don't you know, I make themselves more comfortable but really so that less of the hat surface may be exposed to the rain. And then you may see a man carrying his hat so tilted that the rain will fall on the under side of the brim as well as on the top and crown."

"You may see some man take a shower bat and put it quite frankly under their coat and hold that over their head to keep it dry, while the number of men who open out a newspaper and hold that over their bright straw hat is not small."

"The man who holds a newspaper over his hat tries usually to do this with a careless air, as if he didn't care much about it, but thought it might as well give his hat some protection. But sometimes you see a man wrestling with a newspaper desperately."

"Here, for instance, was a man who had been standing in a doorway waiting for a car, and when he saw his car coming, clapped a newspaper over his hat and ran on into the rain. Heavy business this was, for he had to hold that newspaper on with one hand while he grabbed for the handhold on the side of the car with the other. And after all I know he must have found that his hat had been ruined when he got aboard."

"But here was another man, who with the aid of a newspaper was keeping his hat absolutely dry. He has carefully and completely wrapped his hat up in a newspaper, and now he was with his hat so wrapped around carried under his arm, walking bare headed down Broadway!"

"Really, it does make me smile when I see what men do with their hats when a shower comes."—New York Times.
