Pipe-Dreams

The following local items would look mighty good if they were as true as they should be, and we hope some day they will be true:

"The three days' rain, this week, put the range in fine shape.

"Subscribe for the Daily News-Record, the best paper, in the best city in the Southwest.

"The artesian well recently brought in by W. L. Emery, is now flowing 3200 gallons per minute. Mr. Emery is watering 93 acres of alfalfa from it.

"The Sheepmen's Consolidated Milling Co. has started its big blanket factory, and is now turning out a thousand blankets per day. These blankets have become so popular that the company is not able to supply the demand. There is none better than a blanket made from Concho wool."

"The trees and shrubs planted out in the court yard, two years ago, are now in full leaf and bloom, and are things of beauty. The commissioners court takes much pride in them, and everyone in the city and county point out this beauty spot to their visiting friends.

"The gas company, which bought the W. D. Graham 'blowing well,' two miles west of town, two years ago, are planning to pipe the gas from here to San Angelo at an early date. This well is only 746 feet deep, yet it is pronounced by experts to be the best in America.

"Well No. 5 was brought in Tuesday, and is a fine producer. When put in operation it will yield, at least, 500 barrels of fine oil per day. Geo. H. McEntire, who is now at the head of the company, has arranged with a Dallas concern for 100 miles of piping. The pipe line will be laid as soon as men and money can do it.

"A train of twenty-eight automobiles stopped here today at noon. The occupants of the cars are a party of tourists, from Denver, en route to the coast for an outing. They lunched at the Sterling House, and were loud in their praises of the fare and service of that new hostelry. Judge Optimist, who headed the party, said he never saw better roads than those after they crossed the Sterling county line. 'You people,' said he, 'must have a live wire for a commissioners court.' The Judge and party seemed greatly impressed with the enterprise that was evident in Sterling City.

(The above local items are mere pipe-dreams; but they are possible, and some day they may come true.

Fat Stock Show

The stockmen over the country are taking great interest in the coming exhibit to be held here on April 1st. There will be horses, mules, jacks, Jennets, cattle and sheep on exhibit, and the day will be a big one for the stockmen.

A neat sum has been subscribed to finance the enterprise and give as premiums for prize winners.

A good program will be arranged for the entertainment of the crowd that will attend.

We are authorized to say that J. W. Tweedle will furnish pens to accommodate the stock for exhibit, and we feel sure the other yards will do their part.

Now, let everybody come to the front, and help make the day one long to be remembered.

The oil expert, who took a look over the country last week, was much pleased with the prospects here. He says the "blowing" wells are gas wells.

Willis Jones is now proprietor of the tailoring establishment formerly operated by the Butler Tailoring Co. See his ad.

A Remarkable Find

Last Sunday, the writer, accompanied by his brother, T. J. Kellis, while rambling in the mountains near town, came upon a partially exposed human skull, in a small cave in the side of a mountain. On removing some of the earth, it was found that the skull had been wrapped in a beautiful beaded mantle, which had so decayed that it fell apart on being removed. The beads are of all colors, sizes and shapes. Some are glass, porcelain and hand painted china. About two quarts of these beads were gathered and carried away by the finders.

The next things unearthed were a bracelet and four finger rings, made of some metal resembling an alloy of gold, silver and copper. These trinkets are of crude workmanship and are, no doubt, of Indian manufacture.

Then came a tribal totem, made of the sacred red pipestone, in the image of a crouching bear. It is of exquisite workmanship, and shows that its maker must have spent much time and pains in its making. A part of it is highly polished, and must have been of great value to its owner during his lifetime.

Among the debris, was found an old conical bullet, which was used in the old Col's navy sixshooters in use fifty or sixty years ago, and may have been the messenger which summoned this brave to his Happy Hunting Ground in the days when this country was being disputed by the red man.

But the most remarkable find in this cave sepulchre, was a sterling silver cup, about the size and shape of an ordinary pint dinner goblet, and from its position with the skull it must have served as a cap piece for the beaded war bonnet of the defunct brave. A part of this cup was perfectly bright, while that part which lay next to the decaying body was coated with a foul-smelling, greasy canker, which had to be treated with chemicals before it could be deodorized. The cup is of exquisite workmanship and beauty.

On the rim of the pedestal is stamped in Roman letters, "T. Warner." Then follows the figure of a horse's head, and then again in Roman letters, "Ster." On the opposite side of these, in script, is engraved, "For the best Carlisle Colt—1830." This cup is in perfect condition, and can be seen, along with the other things in the show window of Butler Drug Company.

The finders of this cup are anxious to know its history, and should the rightful owner prove up his claim they will take pleasure in restoring it to him. Who knows of a "Carlisle" breed of horses, and where was a fair held at which a prize was given "For the best Carlisle Colt—1830"—for, indeed, this cup must have been given as a prize.

If this cup could speak, what a thrilling tale it could tell! O, the joy it gave the recipient on the occasion of his triumph over his competitors! Of what was said when it was presented in 1830; of how it was treasured with other precious things; of how the owner emigrated to the West, filled with the buoyant hopes in the future of the land of the setting sun. Of how he was surprised, murdered amid the hideous yells of the red men, and his treasures taken by the exultant savages. Of how it became the cap piece of a chieftain's war bonnet, and how it glittered in the sun light. Of how this chieftain met the white man, with his deadly sixshooter, and how valiantly he fought and died. Of how his friends crept over the battle ground at night and laid the body in the cave where it was found last Sunday. What a tale it could tell!

We would consider it a special favor if other papers would copy this, in hope that it might meet the eyes of someone who could tell the story of this relic.

SHERIFF'S SALE

(Real Estate) In District Court of Texas } In District Court of Bexar County, Texas.

D. Olcott, et al. vs. J. W. Crocker, et al. No. B—4071

WHEREAS, By virtue of an order of sale and execution, issued out of the District Court of Bexar County, Texas, on a judgement rendered in said Court on the 28th day of January, A. D. 1913, in favor of Dudley Olcott, II, and James N.

Tomorrow

The best day in the year. What day is? Why, TOMORROW, of course.

We don't know whether it will be rainy or fair—but why care? Rain or shine, it will have 24 hours. Time for honest work; for honest play; for sound, refreshing sleep.

Time to let you take a lesson from the breaks and mistakes of yesterday and today, and, starting anew, dig your toes into the sand and make things hum.

You know you can't call back the past. So why fret about it? LOOK AHEAD!

Spit on your hands and tackle the future.

If you are not a hopeless dud, you'll be wiser tonight than you were this morning. Wiser by a whole busy day's rich experience. Wiser by what 12 hours in the most eventful, interesting, instructive period of human history have taught you.

Which means that you'll be riper, braver, better fit to go to the tasks, the opportunities, the victories, stronger to bear the sorrows, abler to value the joys, that lie ahead.

Fate may have dealt you poor hands yesterday.

You may have played your cards like a chump today.

But tomorrow you have the chance of your life, because it's a NEW DAY, a CLEAN DAY, A DAY YOU CAN MAKE WHAT YOU WILL.

So up early, fellows, and go to it. —Dallas Dispatch.

THE INFLUENCE OF BEAUTY

(The following is the best article for which we recently offered a year's subscription to the News-Record.)

Say what we may of the power of heredity, it remains, after all, that we are largely the creatures of environment; that our natures and our most inner selves are raised or lowered, or debased by those things which surround us, by those things we hear and look upon.

Since music, acting through the sense of hearing, hath charms to soothe the savage breast; beauty, acting through the sense of sight, has the power of smoothing the rougher places of man's nature, cultivating his finer sensibilities, ennobling his soul and rendering him a more congenial companion, a more perfect image of the Creator of the first park, in which He placed the crowning glory of His creation.

Shakespeare has told us of the tongues of trees; Byron of the pleasures of the pathless woods; Longfellow of the sympathetic wailing of the pine forests of Acadia; and Bryant of the woods being God's first temples. But not only have the poets revealed to us the beauty and grandeur of nature in blending that beauty with the melody of their souls, but in the Holy Writ do we read of the glory of the lily of the valley, the rose of Sharon and the trees beside the living waters. Surely God loved the beautiful, and

meant that we, too, should love it, or else he would not have strewn it everywhere. And in order that we love it and be ennobled by it, it is necessary that we see it, not occasionally, but constantly; that we have it in our yards, along the by-ways and in our public places. So let us beautify the "heart of Sterling," making it a veritable park, that all who gaze upon it may receive the refining influence that emanates from a landscape of trees and shrubbery and flowers and fountains, and that unborn children may lovingly remember our thoughtfulness and our care.

From an economical view, the values will be in proportion to the extent to which our example be followed. If trees are valuable in Washington or Louisiana, where they grow in profusion and to enormous sizes, surely their value, where they are scarce, will much greater; too great for fuel or lumber, but far more valuable for shades, protection and equalizers of the temperature.

In Germany, it is the law that for every tree that is cut down a new one must be planted. No one would deny the wisdom of that law. Why should it not obtain in West Texas? Why should not every individual be required to set out a tree every year he lives, or pay a tax to have it done? Who is going to take the lead in a good movement, and where can we better begin the example than in our court yard?

Wallace, and against J. W. Crocker, C. C. Bearden, Bruce Knight, T. H. Gilliland and J. F. Wood, in cause No. B-4071, on the civil docket of said court, I did, on February 26th, 1913, at 9 o'clock, a. m., levy upon the following described tract or parcel of land, situated in Sterling County, Texas, to-wit:

Being all of Survey No. 205, in Block No. 29, on the waters of Veal Creek, about 19 miles northwest of the town of Sterling City, Texas, originally granted to the Waco & North Western Railroad by the State of Texas, by virtue of Certificate No. 3-713, and patented to the H. T. C. Ry. Co.

And on the First day of April, A. D. 1913, the same being the first Tuesday in said month, between the lawful hours of Ten o'clock, a. m., and Four o'clock, p. m., on said day and date, at the Court House Door of said Sterling County, in Sterling City, Texas, I will offer for sale, and sell at public auction, to the highest bidder, for cash, all the right, title, interest and estate of the said J. W. Crocker, C. C. Bearden, Bruce Knight, T. H. Gilliland and J. F. Wood, and all persons claiming under them, or either of them, in and to the above described property.

Witness my hand, at Sterling City, Texas, this 5th day of March, A. D. 1913. DEE DAVIS, Sheriff, Sterling County, Texas.

The Play

The play, given last Friday night by the youngsters of the town, was a great success. Each one, who represented a character in "A Soldier of Fortune," played his part well. A large audience enjoyed about three hours of solid entertainment, and each came away glad that he attended the play.

Misses Eula Tweedle, Lona Lyles and Pearl Sullivan, H. Q. Lyles, Jr., Joe Graham, Rude Mathis, Prof. Roles, Jeff Davis and Pat Kellis all deserve special mention for the splendid manner in which they did their parts.

The band boys, although deprived of their leader, rendered some music that was much appreciated by audience.

A neat sum was realized, which will go toward furnishing the auditorium with lights.

THOUGHT IT WAS IMITATION

Barney Weller Was Fond of Jokes, But Rooster Under His Bed Was Too Much.

Barney Weller was about the funniest fellow you ever saw. He was always making people laugh by playing jokes on somebody, and he put up a game on a victim every day in the week. He was in Chicago at the big hotel on one occasion when the butt of one of his jokes sought revenge by securing a live rooster and tying it under Barney's bed at night.

At three o'clock in the morning the rooster turned up for his first vocal selection and let out a long, shrill crow. The second performance of this kind was too much for the humorist. He dressed himself hastily and rushed down to the night clerk.

"Give me my bill," he said fiercely. "I'm going to get out of this place!"

"But please tell me what the trouble is," suggested the night clerk.

"That don't matter," said Weller angrily. "I'm going to get out of here and get out quick!"

"At least," begged the clerk. "Let us know what is the matter with the hotel before you go."

"Well," exploded Weller, "there's a crazy fool next door to me who thinks this place is a henhouse. He's spent the last two hours trying to imitate a rooster."—Popular Magazine.

always attracts attention and many reports true and false are circulated throughout the world. There is absolutely no foundation in the rumors:

1. That we have sold out to Rockerfeller—or anybody else.
2. That we will sell cars at less than our advertised list prices.
3. That we intend to cut all our dealers and sell direct to customers.

We are building 200,000 cars this year and our order books will probably close early. A wise buyer will take his car now and disregard ridiculous rumors.

Last week, the old building which has stood for twenty years on the West side, and known as the Fisher Brothers drugstore, was moved by J. B. Cole to another locality, to be used as a blacksmith shop.

Many things were done in and around this old building that has helped to make history for the town and county. The bullet marks in the doors and walls of the old house bear mute testimony of stirring events which remain only in the memory of the old timer.

I have bought the Butler Tailoring Co.'s line of gents furnishings, fixtures and tailoring business, and will operate the business in the new Brennan building, under the name of Jones Tailoring Co.

We have on display some new spring and summer samples. We have an exclusive \$15 line, something new and up-to-the-moment—nothing above \$15 a suit. We also have others ranging in price from \$12.65 to \$32 per suit.

We will do cleaning, pressing and repairing. Ladies work included. Come in and see us. Remember, at the new Brennan bldg.

## HER PUNISHMENT VERY SEVERE

Mrs. Chappell Says That Her Punishment for Five Years Was More than Anyone Could Ever Tell.

Mt. Airy, N. C.—In a letter from this place, Mrs. Sarah M. Chappell says: "I suffered for about 5 years with womanly trouble, also stomach trouble, and my punishment was more than any one could ever tell.

Several doctors had treated me, and I had tried most every kind of medicine I could think of, but none did me any good.

I read one day about Cardui, the woman's tonic, and I decided to try it. I had not taken but about six bottles until I was almost cured. It did me more good than all the other medicines I had tried, put together.

My friends began asking me why I looked so well, and I told them about Cardui. Several are now taking it.

Are you a woman? Do you suffer from any of the ailments due to womanly trouble, such as sleeplessness, nervousness, weakness, and that everlasting tired feeling?

If so, let us urge you to give Cardui a trial. You have everything to gain, if it helps you, and we feel confident it will help you, just as it has more than a million other women, in the past half century.

Begin taking Cardui today.

## RECALLS LITERARY MYSTERY

Rev. Mr. Wolfe, Author of "Burial of Sir John Moore," Buried at Queenstown.

A literary mystery of a hundred years ago is recalled by the special centenary number, recently issued, of the Newry Telegraph, an Ulster tri-weekly. In its pages April 19, 1817, under the simple head of "Poetry," appeared what Byron called, "the most perfect ode of the language." "The Burial of Sir John Moore," by Roderic Campbell or any of the others to whom this poem was variously ascribed would doubtless have been proud to claim it. But the author was the obscure curate of Hallybeg, in Tyrone. Rev. Charles Wolfe, and the fame of the piece was but a posthumous fame for him. Not until his death, in 1823, did the authorship become known to the world. And Wolfe, who wrote much other verse of merit, is remembered only by that one poem, which sprang from the columns of a provincial newspaper to universal recognition in the big world of letters.—London Chronicle.

## RED, ROUGH HANDS MADE SOFT AND WHITE

For red, rough, chapped and bleeding hands, dry, fissured, itching, burning palms, and painful finger-ends, with shapeless nails, a one-night Cuticura treatment works wonders. Disinfect, soak the hands in steaming hot water and Cuticura Soap. Dry, anoint with Cuticura Ointment, and wear soft bandages or old, loose gloves during the night. These pure, sweet and gentle emollients preserve the hands, prevent redness, roughness and chapping, and impart in a single night that velvety softness and whiteness so much desired by women. For those whose occupations tend to injure the hands, Cuticura Soap and Cuticura Ointment are wonderful.

## TRAGEDY OF AN AIR DEATH

How the Grandchildren of Colonel Nieuport Concealed His Son's Death.

"Why did not Charles come back yesterday?" querulously demanded Colonel Nieuport, the eighty-two-year-old father of the airman killed near Etampes, Seine-et-Loire, recently. His eldest brother, Edward Nieuport, was killed in the military maneuvers of 1911.

The news of the second son's death had been hidden from the father, and his relatives could only reply: "Charles has gone for a great flight."

"Ah, well! And why, then, has not Edward come to bid me good night?"

They could not make him remember that Edward was long dead. With tears in his eyes, his grandchildren brought him letters and flowers to distract him.

"What has happened?" asked the old colonel.

"Why, nothing, nothing, grandfather. The old man's memory returned and he was heard muttering: "It is dreadful to lose your boy. I would rather have died before him. And the second—his brother's equal—nothing can have happened to him? Oh, no. The same house could not twice suffer a blow like that." Smiling, he thought of the honors which his younger son was gaining.

Suddenly the sound of military music came up from the street. It drew nearer, and as the beating drums passed the old soldier's window he got up with difficulty, leaned out of the window and saluted the passing regiment. Newspaper boys followed the crowd, shouting, "News of the accident. Gentle hands dragged the old man back—'Go in, grandpa! You are getting cold.'"—Paris Journal.

## AN EXPENSIVE DISEASE.

The doctors thought he had appendicitis until he went into bankruptcy, and then—

Charity Without Pauperism. A great defect of many charitable schemes is their tendency to pauperize the beneficiaries. This is overcome by one of the methods adopted by the Robert Browning settlement at Vealworth, which supplies boots to poor children. The footgear is handed over in return for the payment by the parents of a small weekly "rent" until the retail price has been covered. After the final payment the boots still remain the property of the settlement, without whose permission they can neither be sold nor pawned.—London Globe.

Alfonso Enjoys Reminders of Danger. King Alfonso of Spain is said to be a fatalist, and being of this temper he is able to derive enjoyment from occurrences that would frighten most people. A knife that he knocked out of the hands of an assassin is hung up in his den. The hides of two horses killed in bomb explosions have been made into rugs for his cozy corner. On his wedding day an attempt was made on his life, and the next day he visited the spot and pointed out to his young wife the spot where the assassin stood.

The Reign of Woman. Women will serve as porters and dining car waiters on the special trip which is to carry the Illinois suffragists to the Washington parade, and except for the train crew and solitary man to shine shoes it will be an example of feminized railway transportation. The male shoeblack prompts masculine reflections on the new dispensation. But mere man may take heart. The time is still remote when there will be women at locomotive throttles or in the more responsible posts in railroad operation.—New York World.

Usual Accompaniment. "This fresh air movement is merely tentative." "Well, of course, tents will have to go with it."

Dr. Pierce's Pleasant Pellets cure constipation. Constipation is the cause of many diseases. Cure the cause and you cure the disease. Easy to take. Adv.

A young man should learn to paddle his own canoe, even if his father does own a motor boat.
