# BIG LAKE'S DAM **NEAR ABILENE BREAKS**

SIX HUNDRED MILLIONS OF GAL. LONS OF WATER RUSH THROUGH VALLEY.

### LOSS IS PROBABLY \$10,000

Heavy Rains Cause Rise That Makes Pressure on Masonry Too Heavy.

Abilene, Texas.-The Lyttle Lake dam, two miles southeast of town, broke Sunday morning and 600,000, 000 of gallons of water rushed through down and destroying every obstacle within its path. Although a wall of water 12 feet high started on its mad rush, the valley below this dam is a broad basin and the water soon spread out and no report of lives lost or of live stock being drowned have reached here.

A Texas and Pacific pumphouse was washed away. Numbers of telephone and electric wire poles were knocked out and carried on with the water. Just 30 minutes before the dam broke, the keeper of the grounds and lake had crossed over the dam and there were no visible signs of

it being about to break. For the past three months this lake has been full to its capacity. Heavy Texas Spur, has purchased the plant dous rise and early Sunday morning several feet of water was running of the Clairemont Reporter Dec. 1. over the spillways. This did not cause any alarm, as it had been seen this high numbers of times before after

A gap at least 200 feet wile was washed out near the center of the When danger was discovered the water had undermined the dam in the old bed of the creek and the top had not fallen, but within a few minutes a gap 30 or 40 feet long had been washed out.

Manager Swenton of the Abilene Water company estimated the damage done to the dam at about \$10,000. He stated that it would be rebuilt at once. This dam was constructed in the spring of 1898 and the reservoir was filled in June of the same year, having a capacity figured at 500,000,-000 gallons. It was 650 feet long and water was backed up for severalmiles.

#### CONQUEST OF THE EARTH

Achievements of Past Twelve Years Not Equaled in Any Similar Period in History.

Though in days pre-eminent for man's conquest of Nature by science and engineering, says World's Work, Amundsen's journey to the South as made with only the appliances of and dangerous tasks that stirred the tury or two the era of the pole dis coveries will be hailed as the good old times when men were still men and civilization had not made the world effete.

The twelve years ending with the discovery of the South Pole are as full of dramatic achievement as the days of Drake and Raleigh, for not extraordinary series of discoveries and conquests packed into a dozen

In 1900 only one man had been the length of Africa by land, and the Cape to Cairo Railroad was but a dream There was not a railroad across South America. A great part of Siberia was without rail or road except the old caravan trails. China was practically failed, and the North Pole had bar fled the efforts of four hundred years

Within a dozen years white men visited Lake Chad, made a protecto is an assured fact. The heart of At popular imagination than Oklahom: City was in 1900.

In South America the Railroad is in full operation across the roads. Lhassa has been visited by a British army and both poles are the common property of every fireside that boasts of books, magazines or newspapers.

of pride that the spirit of conquest and adventure is as alive as ever and accompanied with all the courage and hardihood that blessed any earlier gen-

Minor Defects.

Ex-President Roosevelt was once shown a picture of himself in battle. He was represented as waving a sword, on horseback, in one of the fights in Cuba.

"Is it a good picture?" he was "Ye-es." he replied, "it's all right, except that I never had a sword and

1 didn't ride a horse. Otherwise it's Short of Winning a Battle,

Short of winning a battle, nothing could have more delighted the Kaiser than the news that of all the ten various liners which hastened to the help of the Volturno, the largest num ber of its passengers were saved by

the Grosser Kerfurst (or Great Elec tor). But the name will have recalled to him the greatest disaster that ever befell the nascent Germany navy. This was the ramming of the ironclad Grosser Kurfurst by the Koenig Wilhelm off Folkstone in May, 1878, and the sinking of the vessel with a loss of 280 lives-the rest of its crew of 497 being picked up by the Folkestone fishing fleet. Two days later, when suffering acutely from this catastrophe, the old emperor was shot at and wounded by the Socialist Dr. Noiling. - London

What are

# Post Toasties?

Thin wafery bits of choice Indian Corn - perfectly cooked; delicately flavoured; then toasted to an appetizing golden brown, and packed in tightly sealed packages without being touched by hand.

"Toasties" are for breakfast or any other meal-served direct from package with cream or milk, and a sprinkling of sugar.

Post Toasties are convenient, save a lot of time and please the palate immensely!

But after all, a trial is the best answer.

Grocers everywhere sell

Post Toasties

# Gathered Smiles

IN THE WRONG PLACE.

An East Ninth street liquor store had a very fine window display last week. There was a big model of the Niagara, done in flowers and picked out with lights, so skillfully copied that it attracted a great deal of attention. This decoration occupied one window; the window opposite was filled with bottled goods.

A sailor came up from the pier Friday and looked approvingly at the floral model. "That's pretty well done," he said to

the proprietor. "The riggin' is right, an' the lights is right, an' the spars! has the proper slant. You got just one mistake. "What's that?"

"The life preservers is in the wrong winder."-Cleveland Plain Dealer.

# What is Woman's Beauty but Health

And the Basis of Her Health and Vigor Lies in the Careful Reg-ulation of the Bowels.

If woman's beauty depended upon cosmetics, every woman would be a picture of loveliness. But beauty lies deeper than that. It lies in health. In the majority of cases the basis of health, and the cause of sickness, can be traced to the action of the bowels. The headaches, the lassitude, the sallow skin and the lusterless eyes are usually due to constipation. So many things that women do habitually conduce to this trouble. They do not eat carefully, they eat indigestible foods because the foods are served daintily and they do not exercise enough. But is to sit down and think about the whatever the particular cause may be it is important that the condition
