

STERLING CITY NEWS-RECORD

STERLING CITY, TEXAS, FRIDAY, JANUARY 16, 1914.

NO. 48.

DL. XIII.

OTHER! LOOK AT CHILD'S TONGUE

Cross, feverish, constipated, give "California Syrup of Figs"

Relaxative today saves a sick child tomorrow. Children simply will not get the time from play to empty their bowels, which become clogged up with bile, liver gets sluggish; stomach looks at the tongue, mother! If constipation or your child is listless, cross, feverish, breath bad, restless, doesn't eat, full of cold or has sore throat, or other children's ailments, give a spoonful of "California Syrup of Figs" then don't worry, because it is perfectly harmless, and in a few hours this constipation poison, sour bile fermenting waste will gently move out of the bowels, and you have a well, playful child again. A thorough "inside cleansing" is oftentimes all that is necessary. It should be the treatment given in any sickness. Beware of counterfeit fig syrups. At the store for a 50-cent bottle of California Syrup of Figs, which has directions for babies, children of all ages and for grown-ups plainly printed on the bottle. Adv.

His Turn for the Feather. Two motorists, having almost rained their tempers—and their times—in an attempt to find a hotel with a room, were at last forced to take the best of a small inn. Even then they had to share a bed, which was—and on this the landlord did great stress—a feather bed. They turned in, and one of the pair soon fast asleep; the other was not. He could not manage to dodge the bumps and heard hour after hour rattle on the church clock until 3 p. m., when he also struck. He did this by violently shaking his snoring friend. "What's the matter?" growled the other. "It can't be time to get up yet. No, it isn't," retorted his friend, "I'm trying to shake him, but it's my turn to sleep on the feather!"

THICK, GLOSSY HAIR FREE FROM DANDRUFF

Beauty Your Hair! Make it Soft, Fluffy and Luxuriant—Try the Moist Cloth.

Try as you will, after an application of Danderine, you cannot find a single hair that will not fall out, but what will cause you most, will be after a few weeks use, when you see new hair, and downy at first—yes—but real new hair—growing all over the scalp. A little Danderine immediately doubles the beauty of your hair. No difference how dull, faded, brittle and graying, just moisten a cloth with Danderine and carefully draw it through your hair, taking one small strand at a time. The effect is immediate and amazing—your hair will be light, fluffy and wavy, and have an appearance of abundance; an incomparable luster, softness and luxuriance, the beauty and shimmer of true hair health.

In Chicago. Mrs. Wabash—I see eggs laid by a New Zealand lizard require 14 months to hatch. Mrs. Dearborn—The idea! We ought to boycott those eggs, too!

Feel Comfortable

After eating a Hearty meal—or is there a sense of fullness—or bloating—or nausea. This indicates a weakened condition of the Stomach which can be materially benefited by a short course of

HOSTETTER'S Stomach Bitters

GRANDE VALLEY IRRIGATED LANDS, as good as there is, for sale at very low prices, on very easy terms. In large or small tracts. Nothing like it for truck or diversified farming, rich loam, with just enough sand, plenty of water, easy to cultivate. Climate ideal for wife and family. Poultry, bees, dairy cows and fudge crops thrive. Twelve months in the year. Address Box 212, SAN BENITO, TEXAS.

DROPPY TREATED, usually gives quick relief. A short course, often gives entire relief in 10 to 25 days. Trial bottles entire price 10c. Dr. THOMAS GREEN, Successor to Dr. H. H. Green, Box 0, Abilene, Ga.

VILLA TALES OJINAGA FROM FEDERAL

HUERTA MEN FLEE IN ALL DIRECTIONS WHEN ENEMY MAKES ATTACK.

4,300 CROSS THE BORDER

Problem of Caring for Them is Serious—Prisoners are to be Taken to Marfa and Held.

Presidio, Texas.—Gen. Villa occupied Ojinaga at 10 o'clock Saturday night, the federal troops evacuated, with their nine generals. The federals fled in all directions. Gen. Salvador Mercado, who was Huerta's chief military commander, crossed the river and surrendered to Major McNamee, in charge of the United States troops at this place.

Gen. Villa had with him 1,000 men, while Gens. Herrera and Hernandez led 1,200 from the west, from a base at the village of San Juan.

The main body of revolutionists, comprising about 4,800 men, advanced along the river road from the east.

Steadily creeping toward the federal fortifications high on the plateau where Ojinaga stands, the constitutionalists occupied positions within four miles of the village before they met resistance.

The federal outposts then opened fire, their rifle volleys being supported by the fire of a few machine guns. The rattling return fire of the revolutionists soon silenced the guns of the outpost. The scattered federals were thrown into disorder and attempted to retreat, but 50 were captured and seven others threw away their rifles and jumped into the river, swimming to the American side.

4300 Flee Across Border.

Presidio, Texas.—Twenty-eight hundred Mexican federal soldiers, six generals, 200,000 rounds of ammunition, two cannons, four large field pieces and 1,500 civilian refugees were in the custody of the United States army border patrol Sunday, as the result of the federal evacuation of Ojinaga, Mexico, and the occupation of the Mexican village by Gen. Francisco Villa's insurgent forces.

The distress of the refugees was intense. They had scant food and no shelter. Men, women, children, dogs, chickens and cattle are packed together in a space covering several acres. About them are scattered all the goods and baggage brought in from Ojinaga. Urgent requests for the immediate removal of soldiers and refugees to some other place were sent by Major McNamee to the war department through Gen. Bliss.

The federal soldier prisoners are to be taken to Marfa, the nearest railroad station point to Mexico, where they will be held pending instructions from the war department.

BLIZZARD FOLLOWS FLOODS.

Retceding Waters in Belgium Disclose Enormity of Loss.

Brussels, Belgium.—The temperature dropped 20 degrees Sunday, converting torrential rain into a stiff blizzard. Throughout Belgium the rains are falling as rapidly as they rose. The danger, temporarily, is considered over, although later the melting snows may cause fresh inundations.

The enormous losses caused by the flood are becoming apparent. The Vesdre river has left a deep coating of mud over the floors of houses. Miles of roadways have been washed out; paved sidewalks have disappeared and hundreds of houses threaten to collapse.

Streets are strewn with the bodies of animals. Machinery in numerous mills and factories is ruined, which means a long suspension of operations and the prospect of great suffering among the industrial population.

THAW WOULD NOT BE MENACE.

Is Report of Commission That Inquired into His Mentality.

Concord, N. H.—Harry Kendall Thaw would not be a public menace if released on bail according to the report of the commission appointed by Federal Judge Aldrich to inquire into Thaw's mentality.

The report says the commission finds Thaw is not now afflicted with any of the mental diseases from which he was suffering when he slew Stanford White.

Wolves Devour Peasants.

St. Petersburg.—A snowstorm has swept over Northwestern Russia blocking roads and railways and interfering with telegraphic communication. In the suburbs of St. Petersburg the snow is nine feet deep and 40,000 soldiers and laborers are engaged in clearing away drifts. No farm produce is reaching the city. Official reports record 150 deaths from cold and exposure. Many peasants have been devoured by wolves.

TEXAS BREVITIES

According to the new city directory just compiled, Palestine has a population of 12,985. This is a sharp increase over the previous year.

The Port Arthur board of trade is negotiating with Dallas and Kansas City parties for the establishment of a brick factory there. The enterprise is practically an assured fact.

The December cotton report of the Department of Agriculture shows that 103,308 bales were ginned in Texas during the month, as compared with 195,951 bales in December, 1912.

Two young men were recently fined in the Denton county court recently for an offense that in this county is absolutely new—picking up pecans in a farmer's field. The owner of the pecans filed complaints against them. They were fined \$5 each.

Secretary McAdoo has recommended to congress that an appropriation of \$47,000 be made for the installation of a hospital for the treatment of pellagra in some Southern city.

The split log drag is being used extensively over the roads throughout Washington county. This action was prompted by the recent rains which placed practically all of the highways in the county in such condition that travel was almost impossible.

Game is more abundant in Texas this season than for many years, and the state game warden has issued 12,000 permits to hunters, many of whom came from other states. Numerous violations of the state game laws have been reported and a number of persons have been convicted.

Mrs. W. H. Kiser, 27 years old, wife of the Harris county commissioner of Humble, was instantly killed and her husband, W. H. Kiser, was seriously injured when an automobile in which they were driving from Humble to Houston was struck by an inbound passenger train on the Houston East and West Texas railroad at Mount Houston, nine miles north of Houston.

The eighth cotton ginning report of the census bureau for the season, issued last week, announced that 12,332,074 bales of cotton, counting round and half bales, of the growth of 1913 had been ginned prior to Jan. 1, to which date during the last seven years the ginning averaged 92.4 per cent of the entire crop. Last year it was 90.7, 495 bales, or 95.7 per cent of the entire crop, 14,317,002 bales, or 92.1 per cent, in 1911, and 12,465,298 bales, or 95.3 per cent, in 1908.

According to information work will start shortly on the erection of a large silo factory at San Angelo. This section of the state offers great fields for this enterprise, as this is the center of the cattle industry of Texas. The factory will be built by out-of-state interests.

A bulletin just issued by the Federal department of agriculture shows that there were 416,000 bushels of old corn in the Texas granaries when the 1913 crop was gathered. Had the harvesting of the new cereal been delayed another week, the Texas farmer would have had to turn his livestock into the pasture, as this amount of corn would feed the domestic animals of Texas only three months.

The old "acquia" or irrigation ditch running along the southern part of El Paso, and now known as the Franklin canal, will be improved at an early date. The work will be done by the United States government through the reclamation service at a cost of about \$200,000.

Oil in paying quantities has been discovered near Bedias. The product was struck at a depth of 240 feet at the Kerr & Bracewell gas well boring for water. Other wells will be sunk.

A contract has been closed between the city council and the Corpus Christi Ice and Electric Company, whereby that concern will install a complete street lighting system throughout the entire city. Work will begin at an early date.

According to data compiled by the Stamford commercial club more than \$200,000 worth of poultry, butter and eggs have been marketed this season from the trade territory adjacent to that city.

The citizens of precinct No. 1, Bonham, will on Jan. 29 determine the issuance of road bonds to the amount of \$300,000.

The cost of maintaining the city government of Dallas during the calendar year of 1912, exceeded that of any Texas city, according to data furnished by the United States census bureau. The total operating expense for the year is \$3,326,000. Fort Worth is second with \$3,016,000 and Houston third with \$2,111,000.

GOOD ITEMS OF NEWS

ENTIRE WEEK'S HAPPENINGS THAT ARE WORTH PASSING NOTICE.

WHOLE WORLD THE FIELD

Current Domestic and Foreign News Boiled Down to Readable and Small Space.

Ten thousand men are engaged in repairing the damage wrought Texas railroads and the work is being rushed to an early completion. A party of 500 Mexican laborers, some deserters from both sides of the Mexican revolution, passed through El Paso recently en route to the devastated area.

In the December issue of the Engineering and Mining Journal is an interesting article by Robert Linton, mining engineer of Los Angeles, on Texas iron ore deposits. It is the opinion of Mr. Linton that the best iron ore in Texas occurs in Cass county. There are about 20 counties in Texas where iron ore is found, however.

Just \$797,948,900 was expended last year in construction by the seven United States standing second in the list with appropriations of \$149,800,843. Great Britain spent \$235,713,489, while Germany was not far behind the United States with an expenditure of \$111,279,025. Japan took last place, having spent but \$48,105,151.

That all debt and obligation of the Texas Industrial congress will be discharged and funds provided for the payment in full of the \$10,000 offered in the prize crop contest of 1913 has been assured by action of the executive committee of that organization. This decision was reached at a called meeting of the committee in Dallas last week.

Physicians at Baltimore are interested in the case of 10-year-old Nettie Schatz, who apparently is recovering from an attack of heart trouble caused by a puncture of the X-ray revealed the hole in the girl's heart her case was considered hopeless. However, under medical treatment she began to show improvement, and now is permitted to assist her mother in housework.

Latest reports from Copperfield, Ore., are that the court order enjoining the militia from seizing liquors and fixtures of saloons there has been disobeyed. All saloon stock has been prepared for shipment to Baker. Fifteen more militiamen have gone to reinforce the present command at Copperfield.

Viscount Cross, who was one of the most prominent conservative statesmen in England about 30 years ago, died last week, aged 91 years. He held offices in several cabinets, occupying at various times the secretaryship of state for India. He was a member of the house of commons 24 years and sat in the house of lords 28 years.

Freemen of the Cherokee nation will share in a distribution of the nation's tribal lands and funds. The district court of appeals at Washington, so held in a decision, which will distribute among the freedmen some \$5,000,000 of money and property.

An alleged overcharge of 10c on a package of freight cost the American Express Company \$500 in Federal court at Buffalo, N. Y. The Adams Express Company paid a similar fine for alleged rebating.

Sentences of 24 of the labor union officials convicted in Indianapolis of conspiracy to transport dynamite were confirmed by the United States circuit court of appeals of the Seventh district. Six of the 30 who appealed were granted new trials.

At the end of the second week since the approval of the federal reserve act, the treasury department had received from national banks in 45 states 1,280 notifications of intention to enter the new currency system. Assistant Secretary Williams announced that the New England states had presented 196 notifications, the Eastern states 314, the Southern states 280, the Middle Western states 419, the Western states 109 and the Pacific states 52.

The Texas Good Roads association will meet in Fort Worth Jan. 26 and hold a three days' session. President Warren is urging that all county judges and members of various commercial organizations over the state attend the gathering.

Hunters in the San Angelo vicinity have killed several deer recently and it is thought that this game is plentiful in the territory west and south of there. Quail and other small game is also to be found in abundance.

Cash gifts of \$81,916 to Princeton university were announced at the winter meeting of the board of trustees. The appointment of Jacob Gould Schurman, president of Cornell university, to the Stafford Little lectureship for 1914 was confirmed by the trustees.

Farmers in town from the wheat section of Wise county report green bugs working on the wheat, doing serious damage. The growth of the wheat in many communities is very rank, the muddy condition of the fields for the last month preventing the usual amount of pasturing.

With a view to equalizing Turkey's naval strength, which will be augmented by the acquisition of the new battleship Rio Janeiro, it is understood Greece has begun negotiations for the purchase of a dreadnaught now being built in England for the Chilean republic.

The new Catskill aqueduct, through which, within a year, New York City's water supply of 500,000,000 gallons, a day will flow, was opened last week. A blast of dynamite was fired 400 feet underground at 149th street and St. Nicholas avenue, and was the signal for the completion of the tunnel of one of the most stupendous undertakings of the sort in the history of the world's municipalities. The aqueduct has cost the city \$162,000,000, and the labor of more than 72,000 men, and the injury and death of nearly 4,000. Foreign engineers rank the aqueduct with the Panama canal as one of the greatest engineering feats of the world.

An epoch in the world's industrial history was marked in Detroit last week and a note struck in the hymn of humanity progress that will echo throughout the civilized nations of the earth. A few typewritten lines given out by Henry Ford, head of the Ford Motor Company, bore in concrete fashion the story. By its wording 25,000 men in the army of Detroit's laborers at forge and stamp, at drill and press, will be lifted from the position of wage earners to that of sharers in profits of the company and \$10,000,000—about half of the earnings of the great concern—will flow into their pockets in the next year. The man who sweeps the floor will receive not less than \$5 a day.

Convinced the public has been inexcusably purchasing quantities of chickens "fattened" by unscrupulous shippers with rock and sand in food mixtures, the department of agriculture has ordered an investigation into this phase of the poultry business. The people of New York City alone, the department estimates, buy every week from 150,000 to 300,000 pounds of rock and sand substances, paying poultry market prices. Officials of the department determined on the investigation by the New York Live Poultry Dealers' Protective association, who brought a batch of chickens "of the sand-fattened variety" as an exhibit. Some of the chickens' crops were puffed out to the size of the average orange and weighed a half-pound each, though not more than three ounces could be charged to the natural weight of the crop.

Texas confederate pensioners will receive a pension of \$15 for the quarter ending Feb. 28, an increase of \$4.50 over the customary apportionment. The increased apportionment was voted by Pension Commissioner George W. Kysner, who has been given estimates that by March 1 next there will be sufficient money in the state treasury to the credit of the pension fund to meet the increase. This will be the highest amount of pensions the credit of the pension fund to meet the increase. This will be the highest amount of pensions the confederate pensioners have received in a number of years.

Details of a new pension plan for its 33,000 employees were issued in pamphlet form by the Pullman Company. Under its conditions employees who reach the age of 70 years and have been 20 years in the service of the company will be pensioned at the rate of 1 per cent for each year of service of the average monthly pay received during the last full year of employment. More than 7,000 men employed as porters will be among those entitled to come under the provisions of the plan.

Cisco residents will soon have natural gas as the result of the laying of gas pipes from the Moran field. The gas will be turned into the mains within a few days.

Silos are coming into their own in the Fowler country. This is evidenced by the increasing demand for the wonderful feed preservers. Farmers in that section have placed an order with a Fort Worth concern for a solid car load of silos for immediate delivery.

According to a report just issued by the government bureau of mining the 1912 production from natural gas wells in Texas was worth \$1,405,000. Clay county was the largest producer.

Farmers' children are the predominant class of students enrolled in the University of Texas according to data just compiled. Out of 2,116 pupils, 516, or 25 per cent are from the farm and ranch. The percentage of the student body represents 94 separate lines of endeavor.

Women Everywhere

Praise Lydia E. Pinkham's Vegetable Compound

Women from the Atlantic to the Pacific, from all sections of this great country, no city so large, no village so small but that some woman has written words of thanks for health restored by Lydia E. Pinkham's Vegetable Compound. No woman who is suffering from the ills peculiar to her sex should rest until she has given this famous remedy a trial. Is it not reasonable to believe that what it did for these women it will do for any sick woman?

Wonderful Case of Mrs. Stephenson, on the Pacific Coast.

INDEPENDENCE, OREGON.—"I was sick with what four doctors called Nervous Prostration, was treated by them for several years, would be better for a while then back in the old way again. I had palpitation of the heart very bad, fainting spells, and was so nervous that a spoon dropping to the floor would nearly kill me; in fact was about as sick and miserable as a person could be. I saw your medicines advertised and thought I would try them, and am so thankful I did for they helped me at once. I took about a dozen bottles of Lydia E. Pinkham's Vegetable Compound and also used the Sarsaparilla Wash. Since then I have used them whenever I felt sick. Your remedies are the only doctor I employ. You are at liberty to publish this letter."—Mrs. W. STEPHENSON, Independence, Oregon.

A Grateful Atlantic Coast Woman.

HODGSON, ME.—"I feel it a duty I owe to all suffering women to tell what Lydia E. Pinkham's Vegetable Compound did for me. One year ago I found myself a terrible sufferer. I had pains in both sides and such a soreness I could scarcely straighten up at times. My back ached, I had no appetite and was so nervous I could not sleep, then I would be so tired mornings that I could scarcely get around. It seemed almost impossible to move or do a bit of work and I thought I never would be any better until I submitted to an operation. I commenced taking Lydia E. Pinkham's Vegetable Compound and soon felt like a new woman. I had no pains, slept well, had good appetite and was fat and could do almost all my own work for a family of four. I shall always feel that I owe my good health to your medicine."—Mrs. HAYWARD SWENSON, Hodgson, Maine.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No one sick with woman's ailments does justice to herself if she does not try this famous medicine made from roots and herbs, it has restored so many suffering women to health. Write to LYDIA E. PINKHAM MEDICINE CO., (CONFIDENTIAL) LYNN, MASS., for advice. Your letter will be opened, read and answered by a woman and held in strict confidence.

SNOW REALLY A BLESSING

Denver Newspaper Rejoices at the Remarkable Fall of "the Beautiful" Throughout the State.

It has been said before. Let it be said again. The snow that you swept from your walks, that sifted down your collars, that got into your hair, your eyes, your temples is worth a million dollars to the agriculturists of Colorado. To the dry farmer who plows it into his soil it will bring rewards in a next year's bank account. Lying in the mountains it will flow down the ditches to the irrigations next season. On ranch, in orchard and truck garden it means moisture and money. To the city it means health that always comes from reasonable weather. Waded through it with a smile on your lips, shovel it with song in your heart, roll it into balls and throw at your neighbor with a laugh and a cheery word. It spells temporary inconvenience and future prosperity—and a white Christmas for the public tree that brought all Denver—all Colorado—into that new, better, greater, get-together bond of friendship and work.—Denver Times.

Errors of His Ways.

"A good New Year resolution for a middle-aged married man" said George Ade at a dinner in Chicago. "Well, the best resolution a middle-aged married man could make, according to my view, would be for him to swear off telling his wife and children about the girls he used to kiss in his young days."

"I'd say to the middle-aged married man of this type: 'Suppose your wife fell into a reminiscence, jovial mood some evening after supper and started to tell about the boys who used to kiss her by the wood stove in the dim parlor, wouldn't the dove of peace flap her wings and light out p. d. q. just?'"

Stern Duty. "Well, little boy, do you want to buy some candy?" "Sure I do, but I gotta buy soap,"—Life.

A great deal of what passes for dignity is nothing but genuine laziness.

One of Many. Briggs—Rogers claims to be an agnostic, doesn't he? Briggs—Only as to religion; as to everything else he knows it all.

"CASCARETS" FOR A BILIOUS LIVER

For sick headache, bad breath, Sour Stomach and constipation.

Get a 10-cent box now. No odds how bad your liver, stomach or bowels; how much your head aches, how miserable and uncomfortable you are from constipation, indigestion, biliousness and sluggish bowels—you always get the desired results with Cascarets. Don't let your stomach, liver and bowels make you miserable. Take Cascarets to-night; put an end to the headache, biliousness, dizziness, nervousness, sick, sour, gassy stomach, backache and all other distressing cleanse your inside organs of all the bile, gases and constipated matter which is producing the misery. A 10-cent box means health, happiness and a clear head for months. No more days of gloom and distress if you will take Cascarets now and then. All stores sell Cascarets. Don't forget the children—their little insides need a cleansing, too. Adv.

The Secret of Health is Elimination of Waste

Every business man knows how difficult it is to keep the pigeon holes and drawers of his desk free from the accumulation of useless papers. Every housewife knows how difficult it is to keep her home free from the accumulation of all manner of useless things. So it is with the body. It is difficult to keep it free from the accumulation of waste matter. Unless the waste is promptly eliminated the machinery of the body soon becomes clogged. This is the beginning of most human ills.

DR. PIERCE'S GOLDEN MEDICAL DISCOVERY

(In Tablet or Liquid Form) Assists the stomach in the proper digestion of food, which is turned into health-sustaining blood and all poisonous waste matter is speedily disposed of through Nature's channels. It makes men and women clear-headed and able-bodied—restores to them the health and strength of youth. Now is the time for your rejuvenation. Send 50 cents for a trial box of this medicine.

Send 31 one-cent stamps for Dr. Pierce's Common Sense Medical Adviser—1008 pages—worth \$2. Always handy in case of family illness.

Address: Dr. V. F. Felt, Lowell, Mass., U. S. A.

W. F. Kellis,
Editor and Proprietor.

Subscribers failing to receive their paper on time, will confer favor by reporting same to us.

FOR DISTRICT AND COUNTY CLERK.

We are authorized to announce D. C. Durham a candidate for reelection to the office of District and County Clerk, subject to the action of the Democratic primaries.

FOR TREASURER

We are authorized to announce R. B. Cummins a candidate for reelection to the office of County Treasurer of Sterling county subject to the action of the July Democratic primaries.

"If I had built a silo last summer," said W. L. Foster to the writer one day this week, "I would have saved half its cost in feedstuff during the season. I raised a nice lot of feedstuff last summer and fall, but the larger part of it spoiled. Yes, I think I shall build a silo this year." Foster is not given to publishing his plans, but when questions like this are to be answered, his business instincts dictated the above.

Cullen Thomas has informed Lane and Mays that he wants to be governor, and has given these gentlemen to understand that if they didn't get out of his way, Brother Rankin would proceed to eliminate them. Cullen Thomas, Brothers Rankin and Gambrell are the trinity of elimination. They propose to eliminate all candidates except Cullen. If they could get Mays and Lane into the game, there would be some old dealing from the bottom of the deck.

If our commissioners court lets the February term go by without taking steps to plant trees in the court yard it means that another year will pass with nothing done about the matter. From year to year this important matter has been brought to the attention of the court, but the excuse has been always that there was no money with which to do it. Now the people are asking if a sufficient levy has not been made to carry out the work and if not, why not?

The Dallas Democrat recently published the following as the list of gubernatorial candidates to date: W. A. Hanger, Fort Worth; W. P. Lane, Fort Worth; Chester H. Terrell, San Antonio; James E. Ferguson, Temple; J. H. Marable, Mineola; Leopold Morris, Victoria; Dr. Worsham, El Paso; Will H. Mayes, Brownwood; Jude Robertson, Dallas; Mr. Chatterton, Waco; J. G. Willacy, Portland; C. A. Rublee, Seagoville; Cullen F. Thomas, Dallas; Sam Sparks, Temple. And in addition to the above the Democrat says Colquitt has been numerously urged to stand for a third term, but doesn't know whether "Barkis is willing" or not.

Who Will Cap It?

Superintendent Roberts of our High school, informs us that notwithstanding the rapid progress toward affiliation, we have yet some very important work to do in order to meet the requirements of the University. He says we must install another teacher, and in order to do this, a sum of about \$250 must be raised to defray the expenses. If this is not done, we will be forced to discard the 11th grade work next year.

This would prove an irreparable loss to our splendid school—one which we can ill afford to bear. It would entail a loss on those who would give their children an advanced course from \$3,000 to \$5,000 a year in the aggregate. Which is the cheaper, \$250 this year, or \$3,000 next year? Can we afford it? We think not. The News-Record is poor and hard up, but we have a \$10 million to give to the good cause. Are there as many as twenty-four more citizens who feel as we do about it? What do you say, boys?

H. Q. LYLES

Died.

Last Monday Miss Ruby Epps died at the home of her mother, Mrs. J. W. Schooler, and was buried the following Wednesday at the city cemetery.

Deceased was a victim of the "great white plague," and has been a sufferer for several years. She was a good, sweet and patient girl and was loved by all Sterling. She bore her affliction with uncomplaining fortitude, and when the pale messenger came to bid her lay down the burdens of this world, she obeyed the summons with that cheerfulness which comes to those who have lived a spotless life.

Alas, another rose has faded from old earth. It bloomed for a brief period and the world was made to rejoice with its glory. The angels saw its beauty, and cut it down and bore it to heaven that it might adorn God's eternal gardens. With earth we mourn because a rose has withered and faded; because its sweetness has vanished from its face forever. With heaven we rejoice, because a rare flower has been plucked from earth and planted where it will bloom and give out its sweetness to bless the perfection of God's paradise.

The mother, brother and sisters of the beloved dead indeed have cause to weep and mourn in this sad hour of their bereavement, but like a sunbeam through a rift in the stormcloud will come the thought that her "soul is out of prison and her body out of pain" and she is resting where God is, and they will find peace and comfort and bear their loss with that fortitude which is the heritage of those who have hope beyond the portals of the grave.

Hotel Dee Davis.

The Hotel Dee Davis has had four guests this week. Simon Rottles, who jumped his bond, was brought in by Sheriff Davis last week and placed behind the bars. Last Sunday three other citizens of the Aztec land got drunk at the section house and proceeded to put on a show when our sheriff appeared on the scene and ended the performance by showing these gents their rooms in his hotel. Next day Judge Patterson and Pat Kellis interviewed the aforesaid hoppers in his honor's court, Judge Patterson, through Walter Sparkman who acted as interpreter, informing the offending brown brothers that the state of Texas had her back up, and that it would take money or

muscle to get it down again. The judge then proceeded to assess a fine against each of the chili eaters and they went back to their rooms to meditate. We learn that in case the money is not forthcoming at an early date, the offending citizens of Mexico will do dental work on the public roads by extracting divers and sundry grubs.

Notice.

The tree planting picnic which was to have been given at the school house tomorrow, has been postponed to Saturday the 24th.

Rabbit Drive.

Last Tuesday some of the China Valley citizens built a chute and drove it full of rabbits. M. Odom and John Roberson brought in a load of them and shipped them out to market.

Next Saturday afternoon another drive will be made and it is hoped that the rabbits in that vicinity will be thinned. Everybody is invited to see the fun.

Died:—Last Saturday, the infant of Mr. and Mrs. D. D. Davis died and was buried the following day at Montvale cemetery.

China Valley News.

Mr. and Mrs. H. D. McKinley of Monument, New Mexico, came down via automobile last week and visited with her parents, Mr. and Mrs. J. H. Bugg, over Sunday, returning home Tuesday morning.

Mr. and Mrs. James Latham came down from Sterling Saturday and remained over Sunday to visit with her sister, Mrs. McKinley and family, and her parents, Mr. and Mrs. J. H. Bugg.

R. R. Roberts, formerly of the Valley, but now of Tarrant county, Texas, is reported seriously ill.

Mrs. Josie Gresset is visiting her father in Comanche county.

Mr. and Mrs. D. D. Davis were called upon to mourn the loss of their infant Saturday morning at 1 o'clock. The funeral took place Sunday at 2 o'clock at Montvale cemetery, Rev. Hull officiating.

Notwithstanding the funeral and cool weather Sunday a good little company gathered at 4 o'clock Sunday to hear James on "That Form of Doctrine," and at night at the residence of Mr. and Mrs. Bugg. He will preach again the second Sunday in February. Subject, "The Kingdom; Where Is It? It's Different Elements, and How to Get Into It." At 11 and 3:30 o'clock.

CORRE SPONDENT.

No. 70

THE STATE OF TEXAS

To the Sheriff or any Constable of Sterling County—Greeting:

W. A. Stewart and J. Y. Stewart, Jr., Administrators of the Estate of J. Y. Stewart, deceased, having filed in our County Court their final account of the condition of the Estate of said J. Y. Stewart, deceased, together with an application to be discharged from said administration, by publication of this Writ for twenty days prior to the 2nd day of February, A. D. 1914, in a newspaper regularly published in the county of Sterling you give due notice to all persons interested in the Account for Final Settlement of said Estate, to file their objections thereto, if any they have, on or before the February Term, 1914, of said County Court, commencing and to be holden at the Court House of said county, in the town of Sterling City, on the first Monday in February, A. D. 1914, when said Account and Application will be considered by said Court.

Witness D. C. Durham, clerk of the county court of Sterling county. Given under my hand and seal of said court, at my office in the town of Sterling City, Texas, this 3rd day of January, A. D. 1914.

Sterling City, this 3rd day of January, A. D. 1914.
(Seal) D. Durham, Clerk C. C. Sterling County

A true copy, I certify:
Dee Davis, Sheriff of Sterling county

Auto Turns Turtle.

While driving up third avenue last Tuesday in his automobile, Sam Morgan accompanied by Fred Barrett lost control of his machine which rolled over in the street. The occupants escaped from the car unhurt. The steering wheel and radiator looked very much as if they had just returned from an Irish wake. However, the machine was righted and it was driven under its own power to Brown & Pierce's shop for repairs. It was a narrow escape for the boys and it is hoped that such accidents will not occur again. The automobile is a very gentle and safe animal, but Sam's experience demonstrates the fact that they can be made to buck and roll over in the mud if the rowel is put too deeply in their flanks.

A Card.

I hereby announce myself a candidate for re-election to the office of County Treasurer, subject to the coming Democratic primaries. You have honored me once with this office, and if you are satisfied with my work in the past, I ask you for your votes and influence again, and if I am so fortunate as to receive this token of your approval, I promise to show my gratitude and appreciation by giving you the very best service of which I am capable.

Very Respectfully,
R. B. CUMMINS.

D. C. DURHAM

Last week we announced D. C. Durham as a candidate for re-election to the office of County and District Clerk. Prof. Durham needs no boosting here, but we cannot resist in the temptation to say he has made good by faithfully discharging the duties of that office and according the old Democratic custom he will no doubt be given his second term.

TEXANS HEAVY TOBACCO USERS

Tobacco raising in Texas is still in an experimental stage. Experts of the Federal Government claim that there are 500,000 acres of land in East Texas suitable for tobacco culture, but according to the latest reports of the United States Department of Agriculture, only 200 acres are planted to this product. The production in 1912 was 140,000 pounds, which had a value of \$24,000.

Texans, as a rule, are heavy users of tobacco and last year spent for this weed two and one-half million dollars, practically all of which went outside the State. We consume more than 100 times as much tobacco as we produce, and statistics show that the demand is ever increasing, while the production at the present time is less than that of 10 years ago.

The manufacture of snuff, chewing and smoking tobacco is limited in Texas, although cigarmaking has developed into an important industry. The latest Federal Census Reports show 67 cigar factories operating in this State, employing 500 persons and turning out products valued at \$509,000 annually. Nearly a half million dollars is invested in this line of industry and the yearly payroll of the employes amounts to \$160,000.

Cigars made in Texas, from Texas raised tobacco have become popular among smokers everywhere, and although the supply is limited, they find a ready market in all parts of the country. Practically all of the tobacco grown in this State is made into cigars of fine quality. Raw material consumed by the Texas factories is grown principally in Cuba, Kentucky, North Carolina and Virginia.

The cultivation and use of tobacco are of such antiquity that authentic history does not record their origin. The claim of certain European and Asiatic countries to an acquaintance with the plant prior to the discovery of America by Columbus is not supported by accepted history nor satisfactorily demonstrated by the researches of the antiquarian. It is generally accepted that tobacco is indigenous to the Western Hemisphere and that the aborigines practiced its cultivation and use from the remotest times, and spread their knowledge to the rest of the world. It is not definitely known when the first tobacco was planted in Texas, but its first propagation on a commercial scale was attempted in Nacogdoches county during the past decade.

FOR SALE

An automatic Sheep Shearing Machine for sale at a bargain. See it at the garage.

ATTORNEY GENERAL REPLIES TO CRITICS.

Railroad Development at Standstill Until Katy Suit is Settled.

The storm of protest that has reached the Attorney General criticizing his action in filing suit against the M. K. & T. Railway Company has caused him to issue a public statement defending his course, in which many technical reasons are advanced and violation of the constitution on the part of the legislature is alleged. No sound approval worthy of mention has emanated from any source commending either his action or his explanation. It is a matter of record that the suit has arrested the expenditure of millions of dollars in railroad improvements in Texas and demoralized the market for Texas securities, and just what the Attorney General proposes to give the people in return has never been announced. Certainly he cannot hope to either add to the railroad mileage or increase our transportation facilities and there is a crying need for both in Texas at this time. Apparently the thing most hoped for by the Attorney General is to uphold the dignity of the constitution, which he contends the Legislature assaulted in passing the Katy merger bill, but while the Attorney General is extracting satisfaction from the courts the progress of the country, insofar as transportation affairs is concerned, is at a standstill.

It is indeed unfortunate that we should become involved in the meshes of technicalities at a time when the Panama Canal has thrust world-wide opportunities upon us and the domestic need for railroads was never more intense. While the immensity of the former advantage may stun us, one has only to glance at the map to fully realize the importance of more mileage.

At no time in the history of our development could restraint upon our progress have been more fatal to our growth.

The brief presented by the Attorney General may be a document of recognized merits by the courts, but at the bar of public opinion, if one is permitted to judge by newspaper comments, it has failed utterly to validate the position of the Attorney General.

When the lawyers and the courts are all through, our destinies will remain in the hands of those who have the money to invest, for the man with money is the court of last resort.

AN INDUSTRY WITH SOUL MATERIAL.

Cotton Mills of Texas Study Efficiency of Employes and Provide for Their Comfort and Happiness.

In this age when many corporations are charged with being soulless, it is encouraging to find a line of industry giving first attention to the care, comfort and happiness of its employes. Men and women are the greatest finished product a factory can turn out and their development is good for society. Improving and repairing the efficiency of men is as good an investment as improving and repairing machinery of the plant and the greatest field of economy in industry now lies in increasing the efficiency of employes.

Industrial psychology is a science that is being recognized in many ways by large concerns throughout the country. The efforts of many business institutions which have heretofore been confined to official advice and warning to their employes are now taking a more practical form and the managers of industry are realizing that manhood cannot be constructed by threats and penalties alone. Mental and physical efficiency is the result of education, growth and development. Breakdowns in men have caused more loss to industry than breakdowns in machinery and manufacturers are finding those things which contribute toward efficiency of their employes the most profitable investment that can be made.

The textile mills of the State, in most instances, provide comfortable homes with modern conveniences, looking well after the health and comfort of their employes and the mental charges are nominal. The employes are as a rule thrifty and industrious and a large per cent of them own their homes. The home life of the employes is pleasant and he will usually be an executive one, the colony of workers living to themselves.

Some of the mills provide community playgrounds equipped with modern devices of pleasure and games—ammunition furnished with up-to-date contrivances are available for the use of the employes in the work of physical development. The machinery of the mill furnishes a practical study of mechanical science and the happiness of the plant affords an opportunity for acquiring information and experience in the affairs of industry.

WHO IS HARGRAVE?

Following is a copy of what your neighbors in an adjoining county have to say of him:

FIRST NATIONAL BANK, MERTZOP, TEXAS, Sept. 4th, 1913.
To any Bank, Company, or Individual Anywhere:

J. W. Hargrave, the bearer of this, has been for more than two years conducting the most up-to-date modern dry goods and gents furnishing store this country has ever known.

Selling out his business a few days ago, you hear regrets from far and near all over this country. When Mr. Hargrave first established this store seemingly all odds were against him, but with an iron determination, experience, honesty, a square deal, and perseverance as his basis, he has won for himself an enviable record as a progressive, modern, up-to-date business man; honest, conservative, and a man of his word. From time to time this bank has loaned him money and helped him in different ways without regret, and it gives us much pleasure to recommend him to all good citizens. He is competent to carry through anything he undertakes. Any town or country can be proud of such men as Mr. Hargrave for a citizen. Few towns have better business men. He is thoroughly competent, thoroughly progressive, he is honest and qualified. By helping him you help this entire country. We are all his friends and lose him with much regret. Yours truly,

W. J. CARSON,
FAYETT TANKERSLEY, Directors.

Mr. Hargrave has requested us to say through the News-Record that he has had twenty-one years experience with some of the best department stores in the state, a part of this time having been occupied as traveling salesman for a large wholesale dry goods firm. Further, that he proposes to put in Sterling City one of the most modern and up-to-date, best selected stock of dry goods, gents furnishings and millinery to be found in West Texas. Miss Louise Branch, of Mertzop, who is an experienced milliner, will have complete charge of the dress goods and millinery department. Mr. Hargrave leaves for St. Louis Saturday, Jan. 17th, where he will buy his entire stock, everything brand new. Watch for big opening. He expects to have everything complete in detail by March 1st.

POWER OF COMPETITION

Free Port and Independent Steamship Line
Among Important Achievements
of the Year.

ED. S. HUGHES.

COMPETITION is the most powerful factor in commerce and the most successful agency in empire building. Whenever it is stimulated prosperity abounds and when it is stifled progress is blighted. It is the only sovereign that sits upon a world throne and rules on land and sea. Proud vessels that majestically sail the deep and hurl their governmental rate-makers will dip their flags at the appearance of this invisible monarch of the world's traffic.

The greatest event in the commercial life of the State during the past year was the establishment of an independent steamship line, managed by Texas merchants, plying between New York and Freeport, and the establishment of a free port where the commerce of nations can pass to and from this country without paying toll to private enterprise. Its effect upon commerce will be international and the lowering of rates has extended the trade territory of Texas jobbers hundreds of miles into the interior.

The Texas jobbers purchase from the Atlantic seaboard markets approximately \$250,000,000 of merchandise per annum and the larger volume moves via the steamship lines. An increase in freight rates not only serves to reduce the profits of the jobbers but contracts the trade territory of the Texas dealers. There is no event quite so certain—not excluding death and taxes—as an increase in freight rates when no independent steamship line is in the field and the new steamship company is rendering all the people of Texas an inestimable service by holding down the rates.

A free port injects into the marine affairs of Texas an element of competition much needed in water traffic. It is more than a business device to fight competitive ports—it is progress. The improvement of the harbor and port facilities at Freeport which can be completed to accommodate twenty-five-foot vessels at an estimated expenditure on the part of the Federal Government of \$300,000 will perpetuate competition in ports and competition in ocean traffic. No more profitable investment can be made and no greater aid rendered the public.

12-Gauge Hammerless "Pump" Guns

The Marlin Hammerless 12-gauge repeating shotgun, Model 28, is a fine appearing, beautifully balanced gun, without any objectionable hump or bump on top for gas to blow out through or water to get in; can't freeze up with rain, snow, or sleet; it's solid steel breech (not a shell of wood) permits a thoroughly symmetrical gun without sacrificing strength or safety; it is the safest breech-loading shotgun ever built. It is Hammerless with Solid Steel Breech (inside as well as out)—Solid Top—Side Ejection—Matted Barrel (which costs \$4.00 extra on other guns)—Free Button Cartridge Release—(to remove loaded cartridges quickly from magazine without working through action)—Double Extractors—Take-Down Feature—Trigger and Hammer Safety. Handles rapidly, guaranteed in shooting ability, price standard Grade "A" gun, \$22.60. Send 3 stamps postage for big catalog describing No. 28, A, B, C, D, T and Trap Special and all other Marlin repeating rifles and shotguns. Do it now! The Marlin Firearms Co., 42 Willow Street, New Haven, Conn.

If you shoot a rifle, pistol or shotgun, you should have a copy of the Ideal Hand Book—100 pages of useful information for shooters. It tells all about powders, bullets, primers and reloading tools for all standard rifle, pistol and shotgun ammunition; how to measure powders accurately; shows you how to cut your ammunition expense in half and do more and better shooting. This book is free to any shooter who will send three stamps postage to The Marlin Firearms Co., 42 Willow St., New Haven, Conn.

Special January Offer

LOCALS

Best candies at Butler Drug Co. Don't forget the day. It's Wednesday at Roberts'.

See the Squirrel before you buy a nut cracker.—Lyles Bros.

Our friend J. A. Canon has been quite ill for the last few days.

Mr. and Mrs. R. P. Brown made a trip to Stanton last Saturday.

Our friend, O. C. Lane, is having a tussle with a case of measles.

Do you like sausages? Cotten & Davis keep them—both pork and Bologna.

J. B. Cole returned from Plainview last Tuesday where he had been visiting his brother, A. T. Cole.

Men's 75¢ outing shirts; Unloading Sale price 48¢. B. B. Wright, San Angelo.

Preston Sullivan who has been seriously ill for the past week, is reported to be improving.

W. L. Foster who sustained a broken arm a few weeks ago, while his arm is still in splints, is rapidly improving.

Men's and boy's \$3.00 and \$3.25 dress shoes in all sizes, styles and leather; Unloading Sale price \$2.48. B. B. Wright, San Angelo.

C. C. Reynolds and O. Longshore left Wednesday for Lubbock on a business trip. They went in Mr. Reynolds' automobile.

Ladies' regular \$3.00 and \$3.25 dress shoes in all styles, sizes and leather; Unloading Sale price \$3.48. B. B. Wright, San Angelo.

Labe Hanson of Water Valley was here last Tuesday prospecting for a location with a view of becoming one of us.

Harry Shipman and Miss Eleanor Dupree of Colorado, after visiting friends here for several days, returned home last Monday.

A great opportunity to save money on goods now in great demand at the big Unloading Sale. E. B. Wright's, San Angelo.

Mr. and Mrs. Bates, of Eldorado, attended the funeral of Mrs. Bates' sister, Miss Ruby Epps, here last Wednesday.

Owing to delay in getting the trees, the tree picnic to be held on the school campus tomorrow has been postponed until Saturday the 24th inst.

The Squirrel nut cracker is the best on the market. It will not break the kernels; there's no screw to wear out, and it is much faster than any other. Go around and see them at Lyles Bros.

Let Uncle Sam deliver your purchase at our expense. Order by mail; we pay the postage. B. B. Wright Dry Goods Co., San Angelo.

W. E. Beyer and his cousin, Fred Oppenheimer, will leave next Tuesday morning for Charter Oak, California, where they will spend the season prospecting.

Our commissioners last Monday secured from W. L. Foster the site for the bridge across the North Concho on the Sherwood road. We learn that steps are being taken to extend this road to the county line in the near future.

J. B. Cole, our enterprising blacksmith, has planned to erect a 40x80 concrete shop building in the near future on the site of his present shop. Owing to the enormous increase in his line of business, Mr. Cole finds that he must have more room in order to accommodate his customers.

Miss Ethel Foster while cranking an automobile last week sustained a very painful wound when the motor "kicked" causing the crank to strike her arm. For several days she was confined to her room, but we are glad to say that while she is carrying the injured member in a sling, she is rapidly improving and will soon be herself again.

It won't take long to peel pecans for your cakes and candies if you have a Squirrel nut cracker—it's a lever action—no slow screw. Lyles Bros. have them.

Now is the time to get your dry goods at a bargain. H. Q. Lyles will put on a special sale next Monday in which all dry goods sold for cash will be from 10 to 50 per cent under the regular prices.

NEXT WEDNESDAY

SHIRTS!

Next Wednesday will be SHIRT DAY at our store, and if you need a shirt of any kind you cannot afford to miss this sale. All Shirts will be placed on sale at reduced prices. 75¢ to \$1.50 will go at 50¢ to \$1.00, and \$1.50 to \$2.50 Wool Shirts will sell at \$1 to \$2. 500 votes will be given with each dollar's worth purchased. *A Rogers' Silver plated Sugar Shell and Butter Knife will be given to the one buying the largest bill, of anything in stock, for cash. DON'T MISS THE OPPORTUNITY.

"Mother."

Answers to the question, "What is Mother?" given by supposedly feeble-minded school children of New York: She's what you chop wood for. She's what feeds you. She's what puts clothes and shoes on you. She keeps care of you. She's who's good to you. She's your creator. She's what's dead on to me. Best composite portrait of a mother ever painted.—New York American.

More Work.

"Hello, old man, on your way home?"

"Yes."

"Yep."

"Yes, work all done?"

"Not much. Wife just telephoned me to come home and button up her dress in the back, as she had to go out."

Lying at the Door.

"What you should encourage the things which lie at your door," said the mother.

"I suppose so, mother, but that doesn't mean that you should encourage Katie to say to your friends that you are out when you are in."

ARE YOU CONSTIPATED?

She—Yes, she decided on the color scheme last week.

Rheumatism Is Torture

Many pains that pass as rheumatism are due to weak kidneys—the failure of the kidneys to drive off uric acid thoroughly.

When you suffer achy, bad joints, backache, too, dizziness and some urinary disturbances, get Doan's Kidney Pills, the remedy that is recommended by over 50,000 people in many different lands.

Doan's Kidney Pills help weak kidneys to drive out the uric acid which is the cause of backache, rheumatism and lumbago.

Here's proof. **A SOUTH DAKOTA CASE**

W. R. Smart, Belle Fourche, S. D., writes: "Rheumatism caused me terrible suffering. I had to give up work. I had to sit around and was perfectly helpless. Doan's Kidney Pills acted like magic in driving away the rheumatism. It soon left me entirely and I have not had an attack since."

FOR COUGHS AND COLDS

London Slums.

The approaching demolition of the notorious Tabard street area reminds one of the clearing away of another famous slum—the Rookery of St. Giles—which was pulled down in the forties for the construction of New Oxford street. It largely consisted of lodging houses where men and women were accommodated at two pence per night, and was the resort of thieves and coiners. Many of the houses were connected together by the roof, yard and cellar in such a way that the apprehension of a criminal was an almost impossible task. In some of the passages traps were set which landed a determined pursuer into a cellar or cesspool.—London Chronicle.

Place for Prayer.

Probably few youngsters make such a matter-of-fact business of prayer as a certain little Chicago laddie. He was going to bed one night in an upper-room, which was heated in the old-fashioned way by a stovepipe running through the floor. A caller sat with the family in the room below, and this is what floated down to the caller in the child's clear treble:

"Oh, Billy, come over here by the stovepipe! It's a bully warm place to pray."

Subway Elocution School.

On the New York subway is a school car in which all new employees take lessons in car coupling, door closing and opening, signaling, the operation of motor and brake mechanism, car lighting and heating and what to do in emergencies. Among the subjects taught is elocution. Each recruit has to learn how to shout loudly and clearly "Please watch your step" and call out the names of stations distinctly.

Improving With Age.

"This lamb is getting pretty bad," said the new clerk. "What shall I do with it?"

"Does it smell rank?" inquired the market man.

"Yes. Shall I throw it away?"

"No. Label it venison and mark up the price to 60 cents a pound."

Certainly Frightened.

Footlights—Awful case of stage-fright at the theater, last night.

Miss Sue Brette—Did you have it?

"No; it was the author of the play, whom they dared to come before the curtain."

In the Hospital.

"What is the matter with this prohibition patient, doctor?"

"What might be expected. Water on the brain."

It takes a pessimist to worry over a job lot of possibilities that never develop.

SKIN CLEARED.
By Simple Change in Food.

It has been said by a physician that most diseases are the result of indigestion.

There's undoubtedly much truth in the statement, even to the cause of many unsightly eruptions, which many suppose can be removed by applying some remedy on the outside.

By changing her food a Kan. girl was relieved of an eczema which was a great annoyance to her. She writes: "For five months I was suffering with an eruption on my face and hands which our doctor called eczema and which caused me a great deal of inconvenience. The suffering was almost unbearable.

"The medicine I took only gave me temporary relief. One day I happened to read somewhere that eczema was caused by indigestion. Then I read that many persons had been relieved of indigestion by eating Grape-Nuts.

"I decided to try it. I liked the taste of the food and was particularly pleased to notice that my digestion was improving and that the eruption was disappearing as if by magic. I had at last found, in this great food, something that reached my trouble.

"When I find a victim of this affliction I remember my own former suffering and advise a trial of Grape-Nuts food instead of medicines."

Name given by Postum Co., Battle Creek, Mich. Read "The Road to Wellville," in pkgs. "There's a Reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

Cucumber-Tomato Relish.

Take one large ripe cucumber, peel and slice. Place in an enamel kettle with a tablespoonful of salt, cover with hot water and boil until tender. Then take three large ripe tomatoes and remove their skins. After draining the water from the cucumbers, cut tomatoes up and put in with the cucumbers. Add one cup of vinegar and a few drops of sugar. Boil until the tomatoes are done. If not salt enough, add a little, also a few whole cloves and allspice. Mix a dessert-spoonful of potato flour with some cold vinegar and stir into the mixture after coming to a good boiling point. Can hot. This makes a little over a pint jar full.

Chestnut Salad.

The chestnuts are shelled, blanched, peeled and boiled gently in salted water until they are mealy. Then drain and pour over them, while yet warm, a little French dressing. Set aside to cool. Do not mix until ready to send to the table. Then have ready an equal quantity of sweet oranges cut in dice and dressed with oil and lemon juice, a pinch of salt and a dash of paprika, and a few drops of sweet cream to a good stiff mayonnaise and blend all together. Drain the orange dice and reserve the juice, which escapes for flavoring a dessert sauce or making a fruit jelly.

Oyster Soup a la Creole.

For a quart of oysters you will need about a cupful of fried bread crumbs. Drain the oysters and add the juice to a pint of clear water. Now put a piece of butter the size of two walnuts in a saucepan. Add a tablespoonful of flour and stir till it browns, without burning. Take it from the fire and season it with pepper, cayenne and a dash of salt. Add the liquid from the oysters and the water, mix thoroughly and allow the mixture to simmer for half an hour. Just before serving add the fried bread crumbs and a little chopped parsley, if available.

Plant Foods.

Plant-foods are necessary to preserve thrift throughout the winter.

Some use a tea made from poultry droppings, but extreme care must be taken that it is well diluted, and there's still more or less trouble with insects as a result.

We have found liquid ammonia, though a less complete plant food, much more agreeable to use. Using a teaspoonful to each quart of water keeps the plants in growing condition and with healthy foliage.

Fruit Dainty.

Two cupfuls seeded white grapes, two cupfuls chopped apples, one cupful celery, one cupful nuts chopped, one cupful marshmallows cut in pieces, one-half cupful candied cherries. Whip one pint of cream, sweetened slightly, two sweet green peppers, dressing just before serving.

Fillets of Weakfish.

Take a three-pound fish, cut off the head and tail, split the fish through the back, and take out the bone, cut these two pieces into four or six, season with salt and pepper. Dip each piece into melted butter, then roll in crumbs and broil on both sides.

FACE FULL OF PIMPLES

Ruffin, N. C.—"My face became full of pimples and blackheads, and would itch, burn and smart. The skin was rough and red. I was really ashamed of my face. My arms and back were affected almost as badly. The pimples would fester and there would come a dry scab on top. The trouble caused my face to be disfigured badly and the itching would both-er me so I could not sleep well nights, especially during warm weather.

The trouble lasted me three long years without anything doing me any good until a friend told me about Cuticura Soap and Ointment and then I decided to try them. After the first application I could see some improvement. After using Cuticura Soap and Ointment two weeks I did not look like the same person; most of the pimples had disappeared. At the end of four weeks I was completely cured." (Signed) Miss Mamie Mitchell, Jan. 9, 1915.

Cuticura Soap and Ointment sold throughout the world. Sample of each free, with 25c Skin Book. Address post-card "Cuticura, Dept. L, Boston."—Adv.

His Life-Story.

"Excuse me, sir," said the seedy one in the hotel lobby, "but though a stranger to me, your face seems familiar. Have you any relatives in Atlanta?"

"Not one," was the reply. "Years ago I floated down the Chattahoochee river on a raft, leaving all my relatives behind. The raft was wrecked in a storm and I had to swim ashore, with a 40-pound catch in tow. I traded the fish for a week's board, put an 'ad' in the 'Lost' column, recovered my wrecked raft and started a lumber yard. You can get a doubleheader of near-bait at some bar on the left, here's the price."—Atlanta Constitution.

The Answer.

"It is very strange."

"What is?"

"The hats of today are not as becoming to my style of beauty as were the hats of 20 years ago."

"Your style of beauty is not as becoming to hats as it was 20 years ago."

Coughs and Colds cannot hold out against Dean's Mentholated Cough Drops. A single dose gives relief—5c at all Druggists.

OUCH! BACKACHE, RUB LAME BACK

Rub pain away with a small trial bottle of old "St. Jacobs Oil"

When your back is sore and lame or lumbago, sciatica or rheumatism has you stiffened up, don't suffer! Get a small trial bottle of old, honest "St. Jacobs Oil" at any store, pour a little in your hand and rub it right on your back, and by the time you count fifty, the soreness is gone.

Don't stay crippled! This soothing, penetrating oil takes the ache and pain right out and ends the misery. It is magical, yet absolutely harmless and doesn't burn the skin.

Nothing else stops lumbago, sciatica and lame back misery so promptly and surely. It never disappoints!—Adv.

Vastly Benefitted.

On a final examination paper in English and elocution for students in the first term of the high school course, one of the questions was: "State how you were benefited by the work of the term in English and elocution." Two of the students, according to their own testimony, were benefited as follows:

"I used to say Eytallan and leave out my comers, but I am cured by my English course."

"I used to say quit your kiddin', but now I say quit your kidding"—New York Evening Post.

CAKES AND FROSTINGS

EXPERT TELLS HOW TO PREPARE TEMPTING DELICACIES.

Golden Pound Tea Cakes for After-noon Refreshments—Confection With Orange Flavor—Macaroons May Be Decorated.

(By FANNIE MERRITT FARMER.)

Golden Pound Tea Cake—Wash and work until creamy one-half cup butter, add gradually while beating constantly one-half cup sugar, the yolks of four eggs well beaten, 1-1/2 tablespoons medium cream, one cup flour mixed and sifted twice with one-half teaspoon baking powder, one-quarter teaspoon mace and one-half tablespoon lemon juice. Bake in buttered and floured individual tins in a very slow oven. Upon removing from tins sprinkle with powdered sugar.

Mocha Cake—Cream one-quarter cup butter, add gradually one cup sugar, two squares Baker's bitter chocolate melted, two eggs well beaten, one-half cup milk, 1-1/3 cups flour mixed and sifted with one-half teaspoon salt, three-quarters cup baking powder. Flour with one teaspoon vanilla. Bake in layer cake-pan and put between and on top. For Frosting—Wash and work until creamy one-quarter cup confectioner's sugar with one-third cup breakfast cocoa, and add to butter alternately with three tablespoons heavy cream, then add one-half teaspoon each vanilla and orange.

Fall River Orange Cake—Beat yolks of five eggs and whites of three until thick, add gradually two cups sugar and one-half cup cold water, then add two cups flour mixed and sifted with one teaspoon soda, two teaspoons cream-of-tartar, and the grated rind and juice of one orange and one-half lemon. Bake in shallow buttered and floured cake-pan. Cover with orange frosting made like this: Boll one cup sugar and one-third cup water until it will spin a thread, pour slowly on to the white of egg beaten slightly, and beat until mixture begins to thicken; then add one teaspoon lemon juice beaten until a little stiffer, then cover and let stand a few minutes. Add two tablespoons orange marmalade.

Macaroons—Break one-half pound almond paste into small pieces and mix with the hand, adding gradually a cup of sugar less one tablespoon, and a scant one-half cup egg whites. When perfectly blended stir in one-third cup powdered sugar. Shape, using a pastry-bag and tube, on to sheets covered with thin paper and bake in a slow oven. Remove from oven, invert paper and macaroons, and wet with a cloth wrung out of cold water, when macaroons may be easily removed. Frost and decorate with leaves in the form of wreaths and the wreaths with a red bow of ornamental frosting made the same as orange frosting, omitting the marmalade and coloring red and green.—Boston Transcript.

GAS, DYSPEPSIA AND INDIGESTION

"Pape's Diapepsin" settles sour, gassy stomachs in five minutes—Time It!

You don't want a slow remedy when your stomach is bad—or an uncertain one—or a harmful one—your stomach is too valuable, you mustn't injure it.

Pape's Diapepsin is noted for its speed in giving relief; its harmlessness; its certain unfailing action in regulating sick, sour, gassy stomachs. Its millions of cures in indigestion, dyspepsia, gastritis and other stomach trouble has made it famous the world over.

Keep this perfect stomach doctor in your home—keep it handy—get a large fifty-cent case from any dealer and then if anyone should eat something which doesn't agree with them; if what they eat lays like lead, ferments and sours and forms gas, causes headache, dizziness and nausea; eructations of acid and undigested food—remember as soon as Pape's Diapepsin comes in contact with the stomach all such distress vanishes. Its promptness, certainty and ease in overcoming the worst stomach disorders is a revelation to those who try it.—Adv.

JOHN JUST COULDN'T MARRY

Had a Peculiar Reason, But After All It is Always a Good Thing to Look Ahead.

Governor-elect Stuart of Virginia, who was at the Raleigh, has traveled in every nook and corner of the Old Dominion, and he knows thousands of voters well enough to call them by their first names, says the Washington Post. The governor was down in one of the southern counties not long ago. He has a lot of friends in that section, and one of his particular hobbies is the promotion of the social welfare of the negroes. A prosperous-looking darkey ventured to shake hands with the governor-elect, whereupon Governor Stuart remarked:

"John, I hope you are well and that the members of your family are all well."

"Everybody's well," returned the darkey, "only Ah hasn't got no family."

"Why, aren't you married?" inquired Governor-elect Stuart.

"No, Ah isn't married," replied John.

"Well, you ought to get married," advised the governor. "Every man ought to be married. It is best for one's moral and spiritual welfare and his material happiness."

"It's this way," said John. "Ah'd lak powerful well to git married, but Ah ain't got money 'nuff to git a divorce. It costs some of da 'niggers' down heah as much as \$30 to get lawyers. Why, some of dese gits unchained makes a good living gittin' divorces for us niggers."

GRANDMA USED SAGE TEA TO DARKEN HER GRAY HAIR

She Made Up a Mixture of Sage Tea and Sulphur to Bring Back Color, Gloss, Thickness.

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray; also ends dandruff, itching scalp and stops falling hair. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any store for "Wyeth's Sage and Sulphur Hair Remedy," you will get a large bottle of this famous old recipe for about 50 cents.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy. Adv.

Calumet the Secret of Economy

The high cost of living nowadays, and the way prices are steadily climbing skyward, is making economy in the home more important than it was in the good old days of our thrifty ancestors. But how to achieve economy? There's the rub!

In many lines, it depends almost entirely on the housewife's knowledge of foods and on her watchfulness—but fortunately, in one line, baking economy can be made almost automatic by the use of the famous Calumet Baking Powder.

Economy in baking is every good cook's aim, and depends not so much on economy in buying the materials as on the success of her baking. Many mean wasteful bakers lose by far more than they save in buying. And the fact that Calumet absolutely ensures failures and makes every baking successful has made it the favorite of every cook that seeks to be economical. In other words, Calumet is the secret of economy in baking.

It is the purest, too—attested by hundreds of leading physicians—and as for its general quality, it is enough to say that Calumet has received the highest awards at two World's Pure Food Expositions—one in Chicago, Ill., and the other in Paris, France, in March, 1912. Adv.

Not One Alike.

Our neighbor's wife reports this conversation with the young man who comes to take the grocery orders:

"Step in and get warm—you look half frozen."

"Thank you, ma'am. It's queer weather we're getting."

"Yes, it's so changeable."

"That's the word, ma'am. We don't get a single day alike, do we?"—Cleveland Plain Dealer.

Iceless Refrigerator.

What might be termed an iceless refrigerator has been invented by an Oregon man, a double-walled chest, between the walls of which is packed salt to protect its contents from sur-rounding warm air.

Employment bureaus have been provided for the Philippines by the Government.

Good Bowels Are An Aid to Growth

Growing Children Need a Mild Laxative to Foster Regular Bowel Movement.

As a child grows older it requires more and more personal attention from the mother, and as the functions of the bowels are of the utmost importance to health, great attention should be paid to them.

Diet is of great importance, and the mother should watch the effect of certain foods. A food will constipate one and not another, and so we have a healthy food like eggs causing biliousness to thousands, and a wholesome fruit like bananas constipating many. It is also to be considered that the child is growing, and great changes are taking place in the young man or young woman. The system has not yet settled itself to its later routine.

A very valuable remedy at this stage, and one which every growing boy and girl should be given often or occasionally, according to the individual circumstances, is Dr. Caldwell's Syrup Pepsin. This is a laxative and tonic combined, so mild that it is given to little babies, and yet equally effective in the most robust constitution. At the first sign of a tendency to constipation give a small dose of Syrup Pepsin at night on retiring, and prompt action will follow in the morning. It not only acts on the stomach and bowels but its tonic properties build up and strengthen the system generally, which is an opinion shared by Mr. John Day of Bloomfield, N. J. He has a large family and at ages where the growth and development must be watched. Little Marie thrived especially well on Dr. Caldwell's Syrup Pepsin. Mr. Day says: "My old and has found none better for young children."

The use of Dr. Caldwell's Syrup Pepsin will teach you to avoid cathartics and pills, as they are too harsh for the majority and their effect only temporary. Syrup Pepsin has permanent results, and it can be readily obtained of any nearby druggist at fifty cents and on collection the results are always guaranteed. Money will be refunded.

Families wishing to try a free sample bottle can obtain it postpaid by dressing Dr. W. B. Caldwell, 203 North Kingston St., Monticello, Ill. A postcard with your name and address will do.

NOT MUCH OF A PROBLEM

Observing Boy Had Sure Way of Determining the Breed of Chicken Served for Dinner.

At a recent dinner in a suburban district, where all the guests were amateur chicken raisers, after a discussion of the egg problem the conversation turned to the best breed of hens. After the good points of Orpingtons, Minorcas, Leghorns and others had all been brought forth the host said:

"Well, the ultimate end of every chicken is the pot, and you can't tell the difference when it is on the table. Let's see how many can tell what kind of a hen we have just eaten."

All agreed it was a very good kind, but there were many guesses as to the breed. The only child at the table, a twelve-year-old boy, was the one who guessed correctly.

The host beamed on him and said: "Jimmie, how did you know it was a Plymouth Rock?"

"Oh, that was easy," he replied. "I found a feather in the gravy."

Why Suffer From Headache

Neuralgia, Rheumatism

Hunt's Lightning Oil quickly relieves the pain. The Hurting and Aching almost instantly. A truly wonderful relief for those who suffer. It is soothing, the pain fades away the moment Hunt's Lightning Oil comes in contact with the sore spot.

So many people are praising it that we can no longer doubt. For Cuts, Bruises and Sprains it is simply the best. Dealers sell Hunt's Lightning Oil 25 and 50 cent bottles or by mail.
