GERMAN AND AUSTRIAN ARMIES ON DEFENSIVE

RUSSIANS ARE WINNING IN EAST AND ALLIES ARE GAINING IN WEST.

KAISER HOLDS WAR COUNCIL

German Admirals Reverse Before War in Report of Defeat of Russian Cavalry at Kolko.

London.—The German and Austrian armies are now on the defensive, both in the east and west. They have, at least for the present, given up their efforts to break through the allied lines around Ypres in Belgium, where the British and French have taken the offensive, and according to the reports from French headquarters have commenced to advance, and in the east they have fallen back to their own frontiers in East Prussia.

The Russian army has crossed the Silesia and the German railway. The Russians also are following up their advantage in Galicia, and it is said, have succeeded in cutting the main Austrian line of communication between the German army in retreating through Poland.

German Army in Argonne.

In fact, at only one point on the two battle fronts do the Germans claim success. That is to the west of the Argonne region, where the German emperor's forces have succeeded in taking from the French an important battle near Vimme-Chateau.

Elsewhere the French troops have made progress and retaken the positions which they had lost during the course of the week. This is notably so in the Alsace valley around Soissons.

The Belgians, who are holding the line reaching to the coast, have also made progress, and it would thus seem that the Germans are still waiting for additional reinforcements before renewing their attempt to smash through to the French seaports.

Kaiser Holds Council of War.

London.—A dispatch from Rome says: "German advisers received here say that Emperor William, much affected by the Russian victories, has held a council of war which was attended by Gen. von Hindenburg, the Duke of Wurttemberg and the Austrian chief of staff, Field Marshal Baron Conrad von Hotzendorf, to decide on a further plan of campaign."

Berlin.—The first reference showing the direction and extent of the German retreatment from Mores Warsaw was contained in a report mentioning the defeat of the Russian cavalry near Kolo, 23 miles from the German frontier. This shows that the Germans have retired behind the Warthe river.

Galveston Gets Parcel Post Aid.

Washington.—Galveston has been added to the list of cities where the "farm-to-table" service of the parcel post has been placed in operation.

3 Americans Killed by Mex. Bandits

El Paso, Texas.—Three Americans Carl Eck, W. Bishop and Sam West, were killed by Mexican bandits at Chelateh in Western Chihuahua. The bandits, who were riding on the wagon that they were driving to the Lock range, below Casa Grande in the Mormon district, were followed by E. E. Eck, uncle of the Eck boy, who was but 17 years old, and a Mexican mule rode into San Pedro with the news that the three Americans, after barricading themselves behind the wagonhead, had fought desperately until they were all killed.

No Violation of Law in Cotton Fund.

Washington.—No violation of federal anti-trust laws is threatened by the cotton loan fund plan recently perfected by bankers and members of the federal reserve board, according to an opinion given by Attorney General Gregory at the request of President Wilson. The plan was perfected by bankers and members of the federal reserve board and Mr. Gregory's opinion was rendered after his conference with President Wilson.

Carranza Reported Ready for Flight.

El Paso, Texas.—At the time that Carranza is making an effort to drag the United States into the complications which have resulted since his administration took charge, he is also preparing his flight to Vera Cruz if Villa starts south, says a report received from the south, and is considered as semi-official and authentic. His announced intention of going to Soledad to confer with Aguilar is regarded as a scheme to get near the American lines, so that he could seek refuge if it became necessary.

3,000,000 Soldiers to Oppose Russians.

London.—It is asserted in Berlin that Germany and Austria-Hungary now have concentrated about 3,000,000 soldiers on the line from Thorn to Cracow and this is considered sufficient to crush the Russian forces. A dispatch from Copenhagen says: "Military authorities declare that the Russian army will be completely destroyed. They explain that it is necessary to allow the Russians to advance to the frontier to prevent a good retreat after their defeat."

TEXAS NEWS CONDENSED

A broom and mop factory has been established in Temple by Theo Jensen of Davenport, Iowa.

Permit to do business was granted by the department of insurance and banking to the Pickton Banking and Loan association of Pickton, Hopkins county; capital stock \$100,000.

In the court yard of the Alamo a marble shaft, engraved with letters of gold, was placed by one of Japan's most eminent citizens, Prof. Shigetaka Shiga, as a memorial to the heroic Texas band that was martyred on the spot 73 years ago. Formally presenting the memorial, Prof. Shiga said that he had traveled 6,000 miles for this special purpose.

Brilliant social functions characterized the ceremonies in connection with the official presentation of the new silver service to the superdrumnaught Texas, which arrived in Galveston harbor for the first time.

Galveston has been added to the list of cities where the "farm-to-table" service of the parcel post has been placed in operation.

The attorney general's department approved an issue of Garza county road and bridge bonds of \$50,000.

Pickpockets are said to have robbed Mrs. Brooke Smith, a Brownwood banker's wife of her purse containing \$3,500 in diamonds and money. Mrs. Smith was on the train going to San Angelo to the fair.

The attorney general's department has approved the following bond issues: Briscoe common school district No. 2, \$1,500; Comanche common school district No. 6, \$2,000; Comanche common school district No. 8, \$1,500; Brown county common school district No. 25, \$2,000.

The Texas prison commission will ask the thirty-fourth legislature for further appropriations for the state penitentiaries. These, it is said, will be to finance the planting and cultivation of next year's crop and to defray a deficit in the accounts of this year's operations.

Dallas bankers will guarantee a fund of \$4,000 to pay the expenses of lecturers to carry on the cotton holding and acreage reduction plan proposed by the Texas Bankers' association.

R. Bruce Young has received his appointment as judge of the forty-eighth district court of Tarrant county, to succeed Judge R. H. Buck, who was elected associate justice of the court of civil appeals for the second supreme judicial district, Judge Ocie Spear, whose term as justice of the court of civil appeals would have expired in a short time, resigned and Governor Colquitt appointed Judge Buck to succeed Judge Spear.

Tarrant county will have a new, commodious and modern jail erected on another site than the present one if County Commissioner Durringer is enabled to carry out the plans he has in mind and on paper. He advocates the establishment of a five-story jail costing approximately \$150,000.

John A. Kendrick, who as a penniless orphan boy trailed a bunch of cattle from Texas to Wyoming and who by hard work and hard business sense has become a millionaire, rounded his career by an election to the governor's chair of his adopted state, Wyoming, by an overwhelming majority.

Three steamships cleared Galveston and departed Friday with cotton for transatlantic ports. The total cargoes were 36,914 bales, valued at approximately \$1,400,000.

The Morris Packing company has bought another large tract of land in the Cotton addition along the Rio Grande front at El Paso, and is preparing to lay out union stock yards, stock exchange and feeding yards that will cost \$250,000 when completed.

A strong flow of artesian water was struck at Kerens last week at a depth of 3,400 feet.

J. O. Crockett of El Paso, vice president of the Mexico & Northwestern railroad, was in Plainview looking after his irrigated farms, and while there completed the organization of the Crockett Cattle company, with a paid up capital of \$60,000. This company will raise, buy and sell cattle, sheep and hogs in the Plainview country.

The Citizens' Ice company of Paris has been organized with a capital stock of \$25,000, all of which has been subscribed and paid in. The company will erect an up-to-date plant adjoining the mattress factory.

Re-establishment of the embargo on grain destined for export through Galveston has been ordered by the Gulf, Colorado & Santa Fe. Inability of the elevators to unload cars as fast as they arrive and a shortage of ships is given as the reason for the order.

EVENTS BOILED DOWN

DOMESTIC AND FOREIGN HAPPENINGS SERVED UP IN ATTRACTIVE STYLE.

NOTHING GOOD GOT AWAY

Everything Important That Could Be Confined to a Small Space is Here Found.

An unusual amount of building activity is in evidence at Hugo, Okla.

For the thirty-seventh time in his life Jesse Wilkerson of Sedalia, Mo., broke his left leg. He slipped and fell on the pavement.

Twenty-five acres of cattle pens, one-third of the Kansas City stock yards, had been destroyed with a loss estimated at \$750,000 by fire Friday night and Saturday morning.

A Reading, Pa., firm has received an order for 600,000 hospital shirts for the British army. The contract is for \$350,000. It will require nearly two million yards of muslin to fill the order.

With 35 cases of smallpox in their midst the religious colony at Zion City, Ill., founded by the late John Alexander Dowie, with faith healing the most notable feature of belief, has bowed to strict quarantine measures.

In a local option election held in three commissioners' precincts of Robertson county, prohibition won by a majority of 374.

A deficiency of \$22,500 for the support and maintenance of the state blind school for this fiscal year has been approved by the governor.

The death list in the mine disaster near Royalton, Ill., Tuesday now is placed at 59. A re-checking of the names revealed nine men had not been accounted for.

The formation of the \$135,000,000 cotton loan pool and the opening of the federal reserve banks with greatly reduced reserve requirements will make available approximately \$200,000,000 in the south, which can be used to finance the holding of the cotton crop until normal market conditions are restored, according to treasury department officials.

Achille G. McGrath, formerly of Denton county, was brought to Dallas from El Paso, where he was arrested for the grand jury investigation into the printing of \$1,000,000 of counterfeit currency of General Villa by a Dallas engraving concern on an order purporting to have come from the general.

Attorney General Loney, confirming the Allison Honor law, with reference to the opinion recently rendered by the court of criminal appeals in the Elmer Poole case, gave an opinion in which he points out that the court's decision in no way affected the provisions of the law prohibiting soliciting or taking orders for intoxicating liquors in dry territory.

It is officially announced that the German fortress of Tsing-Tau has surrendered to the Japanese and British forces. It is officially announced that the first step in bringing about the surrender of the fortress occurred at midnight Friday, when the infantry charged and occupied the middle fort of the line of defense. In this operation they took 200 prisoners.

Postoffice receipts at Wichita Falls during October totaled \$5,111.82, an increase of \$66.59 over the receipts for the same month last year.

The Fort Worth chamber of commerce announces that arrangements have been made for the location of a large cooperative plant at Fort Worth, on which construction will begin as soon as the switch which will connect its property with the Belt Line railway is definitely located.

The wagon factory at Texarkana was completely destroyed by fire. The loss was estimated at \$10,000.

A Muskogee firm has just made a shipment to a factory in Nebraska of a car load of cotton wood blocks cut to the proper size for making wooden shoes. The demand for wooden shoes is limited in this country, but since the war in Europe such as are required must be made in the United States, as the foreign supply has been cut off.

Spread of the live stock foot and mouth disease has caused the extension of the federal quarantine to nine states, Massachusetts and Iowa being the last two to be added to the list. Cattle, sheep and hogs, now cannot be moved out of Michigan, Indiana, Illinois, Ohio, Pennsylvania, Maryland, New York, Massachusetts or Iowa. In addition to the states already quarantined Mississippi is believed to be threatened with a case at Como, where it is reported a herd owner himself has contracted the disease.

The first week of current tax collections for Dallas has netted the city \$113,553.39, as against a total of \$82,802.36 collected during the corresponding six days of 1913.

An increase of 10c on the cotton rate by steamers was announced by practically all of the large steamship lines last week. The new rate is 55c on cotton, as against a former rate of 45c to 50c. The demand is reported to be firm in face of the advance.

With a formal appeal to Methodists to contribute \$5,000,000 during 1915 as a fund to support retired ministers or their widows and orphans, the Washington conference of Methodist Episcopal clergymen selected to raise the money, has adjourned.

Foreign orders for clothing, trucks, harness, tinned meats and the like in the Chicago and neighboring markets, it is said, now are amounting to \$7,000,000 and \$8,000,000. The British government has \$3,000,000 in gold to use against a purchase. The meat packers are said to have enough European orders on hand to keep running full time for a year.

Dallas, Texas.—Early Tuesday morning a fire broke out in the Imperial hotel, one of the leading hotels in the city, and considerable damage was done. The Imperial is a six-story building and is one of the oldest in the city. No one was injured and being at the close of the state fair the guests were few and all managed to escape easily.

Official dispatches received from the American legation at Peking reported that the flood in the Hwai river district in China was spreading and that 1,000,000 people were affected by it.

A telegram from Berlin announces that after protracted negotiations the war indemnity to the Germans for the city of Brussels has been fixed at \$9,000,000, payable \$500,000 weekly.

I. C. Renfro of Sulphur, Okla., member of the state board of agriculture, also one of the leading horticulturists in the southwest, has perfected a growing in his part of Oklahoma through cultural methods and forced ripeness to avoid the short season.

Provisions sent to Brussels by the American commission for the relief of Belgium already are supplying 400,000 meals daily and plans are now complete for carrying on a similar work throughout that part of Belgium occupied by the Germans.

Hart Bros., of Dallas, horse and mule dealers, were awarded the contract by the French government for 10,000 horses. This makes 20,000 horses bought from this firm by the French government and is the lion's share of the 30,000 head to be bought for the Fort Worth horse and mule market by representatives of the French army.

E. D. Levy, general manager of the St. Louis & San Francisco railroad, announced that the road's locomotive shops at Springfield, Mo., will be reopened at once and several hundred men, who have been laid off, will be put to work. He said also that the shops at Memphis and Kansas City will open at once.

The first shipment of pipe to be used in the Mexico to Wood pipe line reached Mexico and is being distributed in the field. All the pipe for this line has been bought in Pittsburgh, Pa., and shipments will now be made daily. A car of couplings has been shipped, also the machinery for ditching. It now looks like Mr. Barnsdale will make his promise good to have Mexico gas in Waco by Jan. 1, 1915.

The contract for the new high school building in Memphis has been let.

During October permits at Shreveport were issued for the construction of buildings at an estimated cost of \$75,000. This surpassed the September total by \$17,525. It looks as if the 1914 record will show an increase over that of 1913, as the 1913 buildings cost \$1,352,172 and the 1914 buildings, with two months to head from, show a total of \$1,175,990.

Under the terms of a general order issued by the military commander of Mexico City, more than \$1,000,000 will be distributed immediately among constitutionalist soldiers who saw active service during the recent campaigns.

Martial law has been proclaimed by Great Britain throughout Egypt. An official notification by the British charge d'affaires at Cairo was delivered to American diplomatic agents there.

The Dallas 1,000 Cotton Suit club, a practical promotion of the "wear cotton" movement among the men of Dallas and the south, was organized on board the Commodore Duncan on the trip down the Trinity river in honor of United States Senator Morris Sheppard. Dr. J. B. Cranfill, who is in the party attired in a neat and well-tailored suit of cotton cloth, made in Dallas, was elected president of the club, and a movement was started to get 1,000 charter members at once who will wear cotton clothes.

GERMAN FLEET WHIPS ENGLISH IN THE PACIFIC

Three British Cruisers Search for Kaiser's Warships and Discover Them Near Coast of Chile.

TURKEY IN CONFLICT

Failing to Make Peace with Allies the Sultan Recalls Ministers from England, France, Russia and Servia.

(Summary of Events.)

In the most important naval battle of the war between European powers a German fleet outpooled the British squadron, composed of the Good Hope, the Monmouth and the Glasgow, off Coronel, Chile, and decisively defeated it.

The Monmouth was sunk by German shells. The Good Hope, flagship of Rear Admiral Sir Christopher Cradock, ran for shore while seemingly ablaze from stem to stern and is believed to have been wrecked on the rocks. The Glasgow, with a greater speed than the other English vessels, reached the harbor of Coronel, but it is reported to be badly crippled by the German shells.

This engagement practically ends the power of the Allies in the South Pacific seas, according to naval authorities, and unless the British and the French dispatch another and a more powerful fleet to these waters the commerce of the Allies will be cut off by the Germans. Relief may be had in a Japanese squadron now off Hawaii.

Say Germans Will Leave.

The official reports from Belgian headquarters are becoming more positive in their statements that the Germans are preparing to withdraw from their hard won position on the southwest coast of Belgium. Newport has been evacuated, but not before the city had become an untenable ruin. The battle of the sand dunes may now be said to be history, as in London it is considered as hardly likely that the Germans again will attempt to move in that direction, as the flooding of the country has made it practically worthless as a battle ground.

German Army Retreats.

The German army has abandoned its attempt to back its way along the Belgian coast to Calais. A combination of inundated country, the remnant of the Belgian army under King Albert and the activity of the British warships, seemingly all contributed toward ending the costly struggle.

A Berlin official report attributes the failure of the Germans entirely to the flooded state of the country, where the water in places is over a man's head, but it declares that the army of Emperor William withdrew in good order and without losses.

After nearly three weeks of desperate fighting the brunt of the attack has now shifted to the Ypres region, where the English troops, reinforced by Indians and territorials, apparently must meet another onslaught.

A Berlin official report attributes the failure of the Germans entirely to the flooded state of the country, where the water in places is over a man's head, but it declares that the army of Emperor William withdrew in good order and without losses.

Coast Campaign Cost Dearly. The Germans are being hard pressed at a score of points in the long battle line and the military experts at headquarters say their offensive has materially lost force. At every point the allies are pushing their advance. Slow progress is being made because of the determined resistance of the enemy, now made up more than in half of second line troops.

"Charity Feedseth a Multitude." King Albert of Belgium has asked the American people, through the American Committee for relief in Belgium, to help feed his starving people during the coming winter.

It has been announced from New York that the Rockefeller Foundation has determined to employ its immense resources for the relief of non-combatants in the countries afflicted by the war, and "stands ready to give millions of dollars, if necessary," according to the statement of John D. Rockefeller, Jr. As a cost of \$275,000 the Foundation has already chartered a ship, loaded it with 4,000 tons of provisions for the relief of the starving Belgians, and started it for Europe.

The National Red Cross has announced that Kansas City raised more money per capita (about 20 cents for each inhabitant) for European relief, than any other large city in the country.

Teig Tau Flames Light Sea. Official advices show that a desperate fight is being made at Tsing Tau. For miles from shore the sea reflects the flames from the burning ship yards, reservoirs and houses that had been set on fire by shells from the Japanese and British warships and land artillery which cover the rusher of the infantry.

General Lobko is one of the most efficient of the Russian commanders and has been decorated with the insignia of the order of St. George for his successes.

ops, but it is insisted that there is longer any doubt of the final result. The German attempt to advance to the sea is characterized as the most costly defeat of the war.

May Leave Belgian Coast.

The way to Bruges is now open to the Allies, allowing them to recapture Roulers, and the Germans are digging new trenches behind Ghent with feverish energy. To do this is to announce their retreat. The Germans are abandoning their wounded, gun, and transports. Unless their fleet comes out to create a diversion they will be driven from the Belgian coast within a week.

The fighting on the northwestern flank is now of a particularly savage character. A considerable number of the wounded suffer from bayonet thrusts which often pass completely through parts of the bodies of men.

Buried 25,000 Germans.

As shipping the huge German losses in the Ypres region it is stated that the British soldiers have buried more than twenty-five thousand Germans. There are many great piles of German dead around Dixmude, which it has been impossible to bury on account of the continuous fighting. Dixmude is a heap of ruins. German aeroplanes have been very active.

German Week's Loss 62,000.

The German casualty lists for last week amount to 62,000. The total to date is about 420,000. Reports from stations for convalescents show that thousands of wounded have already returned to the front and others are being used as instructors for new formations.

What Will Balkans Do?

Turkey has definitely broken off diplomatic relations with Great Britain, France, Russia and Servia. Her diplomatic representatives in the capitals of these countries, acting on orders from the Porte, have demanded and received their passports. Some of them already have left their posts, while the others will leave at once.

Now that Turkey has aligned herself among the nations at war, speculation is rife as to what the other Balkan powers will do. Greece is said to be preparing to take sides with the Allies, while Bulgaria has given assurance of her neutrality.

How Turkey Entered War.

Turkish battle cruisers bombarded two Russian Black Sea ports, damaging property considerably, and sank two or three small Russian war vessels, a few days ago. The Turkish shells, recently bought from Germany, were commanded by German officers.

This attack on Russia and this undeclared entry into the great European conflict caused Russia, France, England, Italy and Greece to prepare at once to clean Turkey off the European map. Seeing the handwriting on the wall, Turkey then offered to apologize for the attack.

Russia and her allies replied that an apology might be arranged if Turkey would pay for damage done, take the German officers from the warships that made the attacks and dismantle these vessels until after the war. To this proposition Turkey did not reply.

Shelled Turkish Fort.

After twenty-four hours of uncertainty, during which hope was expressed that the port might make amends for the incidents in the Black Sea, the British admiralty announced that the British cruiser Minerva had destroyed the Turkish barracks at Akabah on the Turkish-Egyptian frontier. Akabah is at the head of the Gulf of Akabah, an arm of the Red Sea, 150 miles east of Suez.

Austro-German Retreat Ends.

Events in Poland would appear to be shaping themselves for a renewal of the fighting between the main forces of Russia and the Austro-German allies, according to German official dispatches. The Austrians and Germans have completed their retirement to new positions previously selected by them. When the vanguards of the Russians who were following them came into touch with this new line, there were several encounters in which the Russians were driven off.

The Russian forces advancing through Russian Poland continue to press back the Germans in the government of Suwalki while beyond the Vistula they have occupied Piotrkow, Opoczno and Orzow. The Germans have now been pushed within twenty miles of their positions along the Warta river.

King Albert of Belgium has asked the American people, through the American Committee for relief in Belgium, to help feed his starving people during the coming winter.

It has been announced from New York that the Rockefeller Foundation has determined to employ its immense resources for the relief of non-combatants in the countries afflicted by the war, and "stands ready to give millions of dollars, if necessary," according to the statement of John D. His Better Half.

"Here, my dear," said the husband, producing his purse, "here is \$50 I won playing cards over at Brown's last night. You may have it to buy that dress you wanted."

Reluctantly the conscientious wife took the money; then said, with an expression of rigid rectitude: "I simply shudder at the thought of using money gained in such a way. Henry, promise me that after you have won enough for me to buy the hat to go with the dress you will never touch those awful cards. I don't want my husband to become a gambler."

Buy a bale of cotton and build a silo.

Several thousand dollars have been exchanged here for horses to be used in the great war. These good dollars come in mighty handy to our people at this time.

The Embden, the famous German cruiser, which destroyed 22 British vessels, was overtaken and sent to the bottom of the sea by the Australian cruiser, Sydney, this week.

Mr. Knocker, suppose you were to succeed in downing the cause of good roads, good schools and the general betterment of your country, does it not occur to you that you will go down with it?

Postmaster Will T. Mann of Post, Texas, in a remittance letter to us this week says: "Keep the News-Record coming. On my next visit to Sterling I hope to see the weeds cut and grass and shrubbery growing in the court house yard."

It is said that the automobile is being used in South Dakota with which to destroy prairie dogs. A hose is attached to the exhaust pipe of the motor and introduced into the doghole and the engine started. After a minute or two the hole is filled up and the dog is dead. The escaping gases is said to be very deadly to prairie dogs.

Home patronage is like Ben Franklin's shop. Patronize home people and home people will patronize you. A man is a fool when he reaches the conclusion that he can get along in the world without the aid and good will of his neighbors. He may succeed for awhile, but his unwise course will overtake him in time and pull him down.

There will be about 700 bales of cotton raised in Sterling county as a side line. Most of this cotton is being held for better prices. There are about 100 men who own this cotton and if sold at 8 cents, it would bring \$28,000, or an average of \$280 per capita. This amount put into circulation along with the horse, mule, hog, sheep, cattle and wool money is going to make better times.

The public official or man in public business who snubs his neighbors by patronizing those who live in the next country, city or state, when his home people could and would serve him as well and as cheaply, is a near relative of Thompson's coat which swam the river to get a drink. Such people have no confidence in their home people and it is only a matter of time when his home people will have darned little confidence in him.

ENTRIES FROM THE U-RANCH DAY BOOK

These are only a few of the hundreds of entries in the old book, but they show that there was something doing in those days on the U-ranch, and while these entries might be as Greek to the expert accountant and bookkeeper, yet, to the old timer they are perfectly legible and intelligible and he can see nothing to smile at in the entries made.

For instance the U outfit was due L. M. Jones \$5 "for work on tank and worms." This might seem a crude way of entering the item to the stranger, but the old timer readily understands that what time Mr. Jones was not working on a water tank he was employed in killing screw worms which get in cattle here and must be gotten out.

Mr. Jones was credited with an item of "cain and worms." This time it might be said that Mr. Jones not only "doctored" for worms, but he also furnished the ranch with some sorghum cane for forage.

Both Lowrey, the famous lecturer was at his best, and for an hour and a half our people enjoyed an intellectual feast whose equal was never before served to our people.

"Simon Wig-Wag" was Mr. Lowrey's theme, and in handling the subject, he made the sparks cintillate and crackle as only a true humorous philosopher can. He made the people laugh, grow serious and think deeply at the same. He made us see ourselves as we really are. Stripped of its wit and humor, this lecture was grand and full of wisdom.

There was one thing noticeable in the speaker, and that was, he seemed to realize that he was addressing an audience which could appreciate what he said and see the serious as well as the ridiculous side of his discourse.

"Rebecca's Triumph"

At School Auditorium

Thursday Night, 19th

This comedy, given by the Philathea Class, is a side-splitter, worth twice the price of admission. It's no "cheap" play.

Don't Miss It!

seemed to realize that he was addressing an audience which could appreciate what he said and see the serious as well as the ridiculous side of his discourse.

This is one of the greatest treats ever given our town. It is said that the other numbers of the course are the equal if not richer in their lines. If they are, they must certainly be grand and no one should mistreat himself by missing them.

From a financial standpoint the affair was entirely a success.

Senator Brown Dead

Judge Brown, this week, received the sad intelligence of the death of his brother, ex-senator Geo. R. Brown of Paris, Ark. The Paris paper gave the following notice:

"Former Senator Geo. R. Brown died Thursday and was buried Friday afternoon. He had been in failing health for several months, but no one thought the end was so near until a few days before his death."

"County Judge Fred N. Carter, W. C. Roady, Dr. W. H. Bennett, and Robt. L. Utley, of Paris, were among those who attended the funeral from a distance.

"Senator Brown was very popular in political circles in Logan County, having served as surveyor for several years, represented Logan county in the lower house of the legislature for four years, and was Senator from this district, composed Logan and Yell Counties, four years."

"REBECCA'S TRIUMPH."

"Rebecca's Triumph," a play in three acts, will be staged by the young ladies of the Philathea class next Thursday night (19th). The play is full of fun and pathos. Irish wit and negro drollery will make you laugh till your sides ache, while the pathetic climaxes will make your heart yearn to go to the relief of the unfortunate.

It will be a hummer from start to finish. Admission 25c and 35c. The proceeds of the play to be used in building an addition to the Baptist church house which the Philathea class has undertaken.

NOTICE OF HEARING TO APPROPRIATE PUBLIC WATERS

THE STATE OF TEXAS

Notice is hereby given, to whom concerned, that Pat Kellis, whose postoffice address is Sterling City, Texas, did on the 30th day of Oct., A. D. 1914, file an application in the office of the Board of Water Engineers of the State of Texas, in which he applies for a permit to construct an impounding reservoir and divert therefrom by means of a pumping plant 1.2 cu. ft. of water per second of time for the purpose of irrigating certain lands hereinafter described, from the unappropriated waters of the State of Texas, to be diverted from the North Concho River, by means of said dam and pumping, the dam constructed across the North Concho River and the pumping plant located on the S. W. 1/4 of S. W. 1/4 of Survey No. 8, Block No. 12, S. P. Ry. Co. survey in Sterling County, Texas, on the south bank of the Concho River.

You are hereby further notified that the lands to be irrigated are described as follows: all of the valley lying between the North Concho River on the north and the range of hills on the south belonging to Pat Kellis, containing about 23 acres, and all that tract or parcel of land lying north of the north boundary line of the above described tract of land and south of the North Concho River, owned by J. L. Glass, containing about 2 acres; all aggregating 25 acres and situated in Sterling County, Texas.

A hearing on the said application of the said Pat Kellis will be held by the Board of Water Engineers of the State of Texas, at the court house, in the City of San Angelo, County of Tom Green, said State, on Monday, the 7th day of Dec., A. D. 1914, beginning at ten o'clock, a. m., at which time and place all parties interested may appear and be heard. Such hearing will be continued from time to time and from place to place, if necessary, until such determination has been made relative to said application as the said Board of Water Engineers may deem right, equitable and proper.

Given under, and by virtue of, an order of the Board of Water Engineers of the State of Texas, at the office of said Board, in Austin, Tex.

Famous Starck Pianos

Shipped Anywhere in the United States on 30 Days' Free Trial

Easy Payments No Money Down

Our Big Free Trial Offer

We require no payment in advance on a Starck piano. You are not asked to tie up your money in any way. All you do is to let us ship you the piano for 30 days free trial in your home where you test it and try it in your own way. At the end of 30 days you decide whether the piano is just the one you want. If it is, you keep it, paying our low factory-to-home prices in payments to suit you. If for any reason it does not prove to be up to your expectations in every way, and the finest piano you have ever seen for the money, you may send it back and in that event we will pay the freight both ways.

The Sweet Toned Starck

The first requirement in a good piano is tone quality. Starck pianos are not only beautiful pianos—but more than this—they are scientifically constructed so that each separate part of the piano performs its own work in producing a tone of marvellous sweetness, purity and power. You will be delighted with the marvellous tone quality of the Starck.

The Celebrated Starck Player-Piano

Lovers of music who are not satisfied with the Starck Player-piano may favorably compare with just as good expression as the complete instrument. These players in themselves are "made to operate" and durable in construction. The Starck Player-piano meets the demand for a "viable, high grade player-piano" at a reasonable price.

Easy Payments—payment is not due until you have tried the piano on days and found it satisfactory. Then you can pay each month on amounts so small you will not miss the money.

Every Starck Piano Guaranteed 25 Years

A Skunk Farm.

Marion Mitchell, the trapper, realizing the handsome prices paid for skunk furs, is planning to establish a skunk farm on his premises in the edge of town. He plans to build a skunk-proof fence around an acre of land and stock it with skunks from which he expects to raise skunks in commercial numbers. He says rabbits are so plentiful and so easily obtained that he can feed the skunks at small expense. He says skunks increase enormously and in a short time he can increase his stock six fold.

Ran Over a Wolf.

Mr. and Mrs. Sterling Foster, while on returning from town in their automobile Monday night, a wolf was seen in the road running just ahead of the car. Crowding more speed, the car soon ran over the wolf and killed him. It is thought the lights blinded the animal so that he could not see how to get out of the way.

CALOMEL IS MERCURY, IT SICKENS! STOP USING SALIVATING DRUG

Don't Lose a Day's Work! If Your Liver Is Sluggish or Bowels Constipated Take "Dodson's Liver Tone."—It's Fine!

You're bilious! Your liver is sluggish! You feel lazy, dizzy and all knocked out. Your head is dull, your tongue is coated; breath bad; stomach sour and bowels constipated. But don't take salivating calomel. It makes you sick, you may lose a day's work.

Calomel is mercury or quicksilver which causes necrosis of the bones. Calomel crashes into your bile like dynamite, breaking it up. That's when you feel that awful nausea and cramping.

If you want to enjoy the nicest, gentlest liver and bowel cleansing you ever experienced just take a spoonful of harmless Dodson's Liver Tone. Your druggist or dealer sells you a 50-cent bottle of Dodson's Liver Tone under my personal money-back guarantee that each spoonful will clean your

sluggish liver better than a dose of nasty calomel and that it won't make you sick.

Dodson's Liver Tone is real liver medicine. You'll know it next morning because you will wake up feeling fine, your liver will be working, your headache and dizziness gone, your stomach will be sweet and your bowels regular. You will feel like working; you'll be cheerful; full of vigor and ambition.

Dodson's Liver Tone is entirely vegetable, therefore harmless and cannot salivate. Give it to your children! Millions of people are using Dodson's Liver Tone instead of dangerous calomel now. Your druggist will tell you that the sale of calomel is almost stepped entirely here.

Activities of Women. The Duchess of Sutherland, who is acting as a Red Cross nurse, was under fire during the bombardment of Namur by the Germans.

Of the 500,000 women workers employed in the trades in London over half a million are out of work, while some two hundred thousand are on half time.

Defective Classes. Insanity is rapidly increasing in this country. In 1880 the number of insane in the United States was 196,487; in 1906 the insane in hospitals alone numbered 120,121. In 1910 the figures exceeded 200,000. In 12 years—from 1899 to 1910—the number of insane in hospitals increased from 102 to 125. The number of "feeble-minded" in the country is about two hundred and twenty-five thousand.

Food Demanded. The human body will stand a lot of abuse, but sometime it will surely rebel and demand proper food in place of the pasty, starchy, greasy stuffs on which it has been made sick.

Then is the time to try Grape-Nuts, the most scientific and perfect food in the world.

A lady of Washington says: "Three years ago I was very ill with catarrh of the stomach and was given up to die by one doctor. I laid in bed four months and my stomach was so weak that I could not keep down medicine or hardly any kind of food and was so weak and emaciated after four months of this starvation that my daughter could easily lift me from bed and put me in my chair.

"But weak as my stomach was, it accepted, relished and digested Grape-Nuts without any difficulty the first time that wonderful food was tried. I am now strong and in better health than for a great many years and am gradually growing still stronger. I rely on Grape-Nuts for much of the nourishment that I get. The results have certainly been wonderful in my case and prove that no stomach is so weak it will not digest Grape-Nuts.

"My baby got fat from feeding on Grape-Nuts. I was afraid I would have to stop giving the food to him, but I guess it is a healthy fat, for his health is just perfect." Name given by Postum Co., Battle Creek, Mich.

DRESSING FOR SALADS

EXPERT DESCRIBES THREE OF THE BEST YET INVENTED.

What is Known as French Dressing is Popular—the Most Popular—Economy in Preparing Quantity at a Time.

Tomatoes, lettuce and cucumbers apples and celery, asparagus, string beans and radishes—all the range of fruits and vegetables—combine in salads in such endless variety that the only law of combination lies in individual taste. Dressings, too, vary, but in their rule must be more nearly followed. These three recipes for salad dressing are given by Miss Cora E. Binzel, instructor in home economics, University of Wisconsin extension division.

French Dressing.—One tablespoonful vinegar, one-quarter teaspoonful onion juice, three tablespoonfuls olive oil, one-eighth teaspoonful pepper, one-quarter teaspoonful salt. Add salt, pepper and onion juice to vinegar. Then add the olive oil, beating until thick and well blended. Use a cold bowl and cold ingredients. The ingredients may be put into a wide-mouthed bottle, corked and shaken until an emulsion is formed. The dressing may be mixed and set in the icebox until chilled; the oil and vinegar will separate on standing and require further beating. Following the correct proportions French dressing may be made in large amounts, kept in a bottle in the icebox and shaken before using.

Sour Cream Dressing.—One-half pint sour cream, two tablespoonfuls lemon juice, one tablespoonful sugar, one teaspoonful salt, one-quarter teaspoonful pepper, one teaspoonful mustard. Beat the cream until it is light and thick; add the other ingredients. Sweet cream may be substituted.

Cream Salad Dressing.—Ten egg yolks, one-half cupful butter, one teaspoonful salt, one tablespoonful mustard, one-quarter teaspoonful pepper, one teaspoonful sugar, juice of two lemons or one-quarter cupful vinegar. Melt the butter, cool it, and when solid cream it. Add the beaten yolks mixed with seasonings. Cook over water until thick, stirring constantly. Remove from fire, add lemon juice, and mix with whipped cream as it is used.

The housewife should plan to prepare a quantity of dressing at a time, keeping it in the icebox, and add sweet or sour cream as it is used. Preparing some foods in quantity is especially good for economy.

Salmon, Cucumber Sauce. One can salmon, one-half tablespoonful salt, one-half tablespoonful sugar, one-half tablespoonful flour, one teaspoonful mustard, few grains cayenne, yolks of two eggs, one and one-half tablespoonfuls melted butter, solid cream, one cupful milk, one-fourth cupful vinegar, three-fourths tablespoonful granulated gelatin, two tablespoonfuls cold water. Remove salmon from tin, rinse thoroughly with hot water and separate in flakes. Mix dry ingredients, add egg yolks, butter, milk and vinegar. Cook over boiling water, stirring constantly until mixture thickens. Add gelatin soaked in cold water, strain and add to salmon. Stand until set. Serve in individual molds with following sauce: Beat one-half cupful heavy cream until stiff, add pinch salt, pinch pepper and two tablespoonfuls vinegar; then add our cucumber, peeled and chopped.

Pickled Onions. Take the smallest onions you can buy, pour hot water on them at a time and they can be peeled easily. Do not have water boiling or it will spoil results. Make a brine of salt and water and let them stand in this for three days and nights, making fresh brine every morning and pouring off the old. On the fourth morning put them in fresh water and let them come to the boiling point, putting milk enough in water to make it white, and being careful you don't let them boil a second. Drain and place in a jar, pouring hot vinegar over. Make them bright.

Leftover Beef. Cut thin slices of cold roast beef, lay them in a tin saucepan set in a pot of boiling water. Cover them with heavy made of three tablespoonfuls melted butter, one of walnut catsup, a teaspoonful of vinegar, a little salt and pepper, a spoonful of currant jelly, a teaspoonful of made mustard and some warm water. Cover tightly and steam for half an hour, keeping the water in the outer vessel on hard boil. If the meat is underdone this is particularly nice.

Dark Cake for Thanksgiving. One cupful molasses, one-half cupful sugar, one-half cupful butter, one cupful milk, three cupfuls flour, two eggs, one-half pound raisins, one-quarter pound citron. Teaspoonful each cinnamon, nutmeg, allspice, one-quarter teaspoonful cloves, three-quarter teaspoonful soda. Bake in a fruit cake tin (large deep tin) two hours with a slow fire.

Potatoes in Half-Shell. To each baked potato take one tablespoonful milk or cream and one-half tablespoonful butter. Salt to taste. Cut potatoes in two, lengthwise, and remove inner portion. Add butter, salt and cream. Beat until light, return to the shells pyramid fashion and set in oven to brown.

Pumpkin Fritters. One pint of pumpkin, boiled and sifted, one pint of milk, two eggs, one-half teaspoonful salt, pinch of ginger, one teaspoonful molasses, flour to make a batter stiff enough to drop or griddle as for buckwheat.

DEFENDS POPULAR REMEDIES

Speaker Says Newspapers Should Investigate Merits of Medicines Before Barring Advertisements.

That an organized attempt has been made to blacken the reputation of the popular family remedies of this country, and to mislead the newspaper publishers into rejecting the advertising of such medicines, was the charge made by Carl J. Balliett, of Buffalo, N. Y., at the convention of the Advertising Association at Detroit.

Mr. Balliett is a director of the Proprietary Association of America, which includes in its membership two hundred firms which make the popular prepared medicines of America.

Mr. Balliett pointed out that it is the duty of the newspaper publisher to refuse the advertising of any fake or fraudulent medicine, just as it is his duty to refuse any fake or fraudulent advertising, but it is not right to shut down on all medical advertising because there have been some fakers, any more than it would be right to refuse to publish all department store advertising because certain stores have made a practice of lying about bargain sales.

Diseases and death are mysteries. People who are perfectly well are skeptical. They laugh at the time-worn patent medicine joke, just as they laugh again and again over the many variations of the operation joke. "The operation was a success but the patient died." This so-called humor has perhaps hurt the medicine business with well people, but when the ill or infirm, he immediately wants medicine, and will believe the cure whether it be at the hands of a regular doctor, a homeopath, an osteopath, a Christian Scientist or patent medicine. There is nothing more deadly than disease; nothing more honorable than to cure it.

Mr. Balliett refuted the idea sought to be spread about that patent medicines are unpopular by showing that from 1909 to 1912 the amount of prepared medicines consumed in America increased from \$100,000,000 to \$160,000,000 annually. He showed that, although the American Medical Association is trying as an organization to exterminate so-called patent medicines, the family doctor, individually, is not fighting them but prescribing them. He estimated that 40% of the prescriptions written by doctors today include proprietary medicines.

The writings of Dr. Harvey W. Wiley, he said, have also aimed to destroy confidence in proprietary medicines; but that Dr. Wiley's ideas are not infallible is shown by cases which his analyses were entirely wrong. Mr. Balliett mentioned a case where, with all the power of the Government, he fought a preparation as being dangerous to health, and was indignantly walloped.

There has been spread the idea that a clever faker can mix a few useless ingredients and by smart advertising, sell tons of it and win sudden wealth; whereas, as a matter of fact, the medicine business is notoriously difficult, and where there has been one success at it, there have been a hundred failures. Any medicine which has no merit cannot live, because persons who are duped into buying it once will not buy it again, and the profit from advertising a medicine can only come from repeat sales to the same, satisfied people. Therefore, any medicine which has been on the market for a number of years, and is still advertised, must have merit behind it to account for its success.

In conclusion Mr. Balliett declared that no newspaper is doing justice to its readers in the matter of medical or other advertising, unless it investigates, not only the wording of the advertisement offered for publication, but the merits of the article advertised. He pointed out that the few newspapers who have been deluded into the policy of barring out medical advertising have adopted this general policy, rather than to form an investigation bureau of this kind which could, in a constructive and useful effort, investigate and decide what is a good product and what is a fraud, in not only the medicine business, but in every other business which advertises its wares to the public.

The audience seemed to agree with Mr. Balliett's ideas on the subject and the chairman decided the question at issue in his favor.

True to His Principles. A new comer to Idaho from the strictly prohibition state of Kansas had the misfortune one wintry day to fall into the rapids of a swift-running river when the thermometer stood several degrees below zero. He was saved with difficulty, and his clothes became a rattling sheath of ice before his rescuers could get him to the nearest saloon.

"What'll you have, Dan?" inquired the barkeeper, solicitously.

The Kansan opened his eyes and answered weakly: "Guess I'll take a glassful of lemonade."—*Lippincott's.*

Put That Pain to Use

The network of nerves in your body, like the network of wires in a burglar alarm system, gives quick warning when anything is going wrong inside. Looking at it in this way a pain is a useful alarm. Now, kidney weakness is a dangerous thing—a condition not to be neglected—and it is wise to know and pay attention to the early alarm signals of sick kidneys.

Backache is a common warning of congestion or inflammation in the kidneys. It may be dull, nagging pain, or a sharp twinge when stooping or lifting. There are likely to be disorders of urination, dizziness, headaches, and drowsy, despondent, tired feelings.

It is very hard to strengthen weak kidneys at first, but neglect invites rheumatic or neuralgic attacks, gravel, dropsy, and fatal Bright's disease. As a special medicine for weak kidneys Doan's Kidney Pills have been used for years all over the civilized world, and surely are considered reliable. The patient can always help the medicine immensely, however, by dieting lightly, using little or no liquor, tea or coffee, keeping regular hours and drinking lots of pure water.

"I can hardly straighten up."

As to Doan's Kidney Pills, read the following enthusiastic endorsement by one who has tested them.

COULD NOT STRAIGHTEN

Treatment by Specialists Failed

E. D. West, Port Aransas, Tex., writes: "My kidneys acted so freely and the aching pains in my back were so bad that I could not stoop. I had awful pains in my back and sides and simply couldn't straighten up and very near broke down. I had been treated by specialists and two months of treatment failed. I was confined to bed for months. Specialists told me I had but a short time to live. One specialist said my case was very near Bright's disease. One day I read of a case similar to mine being cured by Doan's Kidney Pills and I immediately got some. From the first I began to feel better and stronger, and two months after I began their use I was able to work over my job. Another month I was in the best of health. Doan's Kidney Pills made this cure. Six years ago and I have never had a sign of kidney trouble since."

If Customer Was in Luck in Getting Hat to Fit Him, How About the Shop Keeper?

After playing a matinee performance recently in Omaha, relates a popular actor, I discovered my hat was missing from my dressing room. This was really a serious loss, for, being possessed of an exceptionally large head, it is not unusually necessary for me to visit every hat shop in the town before I can find a hat to fit. Finally, after a lot of effort and determination, I found a hat shop where they had just one hat that would fit me. I inquired the price of it, and the shop keeper answered with an encouraging smile that it was five dollars. It struck me that the hat wasn't worth that, being somewhat out of date. I offered him two and a half. "Two and a half!" he exclaimed, shrugging his shoulders. "Why, you ought to be mighty glad to get that even for five dollars. Where will you be able to find a hat large enough to fit your head?"

"That may be true," I answered, "but where will you be able to find a head large enough to fit your hat?"

I got the hat for two and a half.
