Catarrhal Deafness Cannot Be Cured only one way to cure Catarrhal Deafness, and that is by a constitutional remedy. HALL'S CATARRH MEDICINE acts through the Blood on the Mucous Surfaces of the System. Catarrhal Deafness is eaused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing may be destroyed forever. Federal Certificates of Importance as They Guarantee Shipments Meet Requirements.

An illustration of the important ervice which inspectors of perishable food, representing the bureau of markets, United States department of agriculture, are able to render exporters, is found in the work recently done in connection with the shipment abroad of 4.000,000 pounds of butter. This butter was destined for one of the European countries, but because previous uninspected shipments had not come up to specifications, the exporting house, to protect itself against further complaints, requested United States government inspection. This insured delivery of butter of the quality called for in its centracts. The bureau of markets' inspectors were called on to certify the grade of the butter which was held in Minneapolis, Chicago, Boston, Philadelphia and New York warehouses. These are the points at which butter inspectors are regularly stationed.

When set in place it will be 6 feet in diameter and will rise 84 feet. Upon completion of this life work Shelton ntends to devote the rest of his days to informing the world of the true inwardness of totem poles. It is a large

It contains 38 acres out and then he'd have hard work to and within its bounds are an abanmake the average man understand the doned Indian village, numerous re true inwardness of totemism, totem and totem pole.

Totemism, the anthropologists say, is common to primitive man in many parts of the world, but is far from being universal. It is found among the American Indians, but there are tribes which show no trace of it. The Eski mos know nothing of it. Certain African savages have it. The Australians

A totem is a class of material objects which a savage regards with superstitious respect, believing that there exists between him and every member of the class an intimate and altogether special relation. The connection between a man and his totem is mutually beneficent; the totem protects the man and the man shows his respect for the totem in various ways. If his totem is an animal he may show this respect either by refusing to kill materials given her in the form of and eat it or by making it his favorite

Early explorers found the American Indian communities, independent of ties of art, by the cartoon, the verses their local distribution into tribes, bands and villages, composed of several distinct clans. Each clan had its atingling, it is reasonable to believe emblem, consisting of the figure of that the high tide of human passion some bird, beast or reptile, as for example, the clans of the wolf, deer of-ter and hawk. In the language of the BALANCED RATION FOR COWS Algonquins these emblems are known as totems. Members of the same clan were prohibited from intermarriage; a man could take a wife from any clan but his own. To different totems attached different degrees of rank and dignity; those of the bear. tortoise and wolf were among the first in honor. Members of the same clan, though they might dwell far apart and speak different dialects, were yet bound by the closest ties of fraternity. This kind of totem was found in at least three varities: the clan totem, common to a whole clan and passing by inheritance from generation to generation; the sex totem, common either to all the males or to all the females in a tribe, to the exclusion in either case of the other sex; the individual totem, belonging to an individual and not passing to his descendants.

As to the totem pole, it is hard to however, which it is not; it is not a fetish or an idol or a thing to be worshiped. The totem pole of one man may be simply his individual totem. A second totem pole may also bear the clan totem of the owner. WAR AND FUTURE OF ART

Fresh Creative Force May Reasonably Be Hoped for, Is Conclusion of Noted Writer.

As for the action of the world's great war upon the world's great art, it is a theme too vast for easy handling, writes Agnes Repplier in Art and Life, New York. It was said in the spring of 1915 that the Quartier Latin had ceased to produce, having nothing which breathless humanity could pause to look at. Death took its toll of artists and month after month saw the blighting of hope, as men died with their work undone.

Mr. Pennell, an acute, but not a sanguine observer, says plainly that new inspiration-as a result of the conflict -is not to be hoped-for. Yet if national fervor was fed by the simpliciof the trench, the "half articulate songs" that set the soldier's blood will not ebb before impregnating a lethargic world with fresh creative force.

Rodin, brooding over the darkest hour and minimizing no peril or calamity, spoke with heroic assurance of the future: "Our young soldlers and our old cathedrals fall that there may flourish again a youth, pure, ardent, healthy, hostile to materialism, keen for spirituality; and that a renewed and sublime art may spring from the soil washed and fertilized by blood."

Milk Consumption.

As it is estimated that only 2.9 of the milk produced in this country is used in making condensed milk, the industry can not have any considerable effect upon the milk industry of the cities. According to figures given for last year, 43.1 per cent of milk produced is used as liquid milk, 41 per cent for making butter, 4.3 per cent for feeding calves, 5 per cent for making cheese, 3.7 per cent for making ice cream, and 2.9 for condensed milk. say what it is. There is one thing The United States has about 23,000, 000 dairy cows. It is estimated that Europe lost about 22,000,000 cows in the last few years.

Have you ever stopped to reason why it is that so many products that are ex-tensively advertised, all at once drop out of sight and are soon forgotten? reason is plain—the article did not fulfill the promises of the manufacturer. A medicinal preparation that has real curative value almost sells itself, as like an endless chain system the remedy is recommended by those who have been benefited, to those who are in need of it. A prominent druggist says "Take for example Dr. Kilmer's Swamp-Root, a preparation I have sold for many years and never hesitate to recommend, for in almost every case it shows excellent re-sults, as many of my customers testify. "Here is another letter that makes me happy," says Peterson, of Buffalo. "One that I would rather have than a thousand

There is many a big hearted, rich man who would give all he has on earth to be able to produce a remedy with such mighty healing power as Peterson's Ointment, to sell at all druggists for 60 cents a large box." "Money isn't everything in this world.

Dear Sirs:—
"I was an untold sufferer from old running sore and ulcers. I had tried most everything without any relief from pain. A friend told me of your wonderful olument and the first box took away the pain that had not left me before in years, and after using just nine dollars' worth of the salve I am cured. The ulcer was inches by 6½ inches, is all healed and I can walk. Never, never will I be without Peterson's again.

HERE is an offer backed by one of your personal friends —a man whom you have known for a long time, and in whose honesty you have implicit confidence. This man is your local druggist. He will tell you that he has been selling Hunt's Salve, formerly called Hunt's Cure ever since he has been in business, under the strict guarantee to promptly refund the purchase price to any dissatisfied meer.

He will say to you "Take home a box of Hunt's Salve and if it is not successful in the treatment of itching skin diseases. I will promptly refund to you your 75 cents."

Hunt's Salve is especially compounded for the treatment of Itch, Eczema, Ringworm, Tetter, and other itching

The General Manager of the Lida Valley Railway Co., Goldfield, Nevada, A. D. Goodenough, writes: "At one time I had a very bad case of Eczema, which troubled me for seven or eight years, and although I tried all kinds of medicine and several doctors, I got no relief until I used Hunt's Salve. It finally cured me.

Thousands of such letters have been received, testifying as to the curative merits of this wonderful remedy. Don't fail to ask your druggist about Hunt's Salve, formerly called Hunt's Cure. Show him this ad, and ask him if the statements herein made are not correct. Sold by all reputable druggists everywhere at 75 cents per box, or sent direct on receipt of stamps or money order.

CHAPTER XII-Continued. -13-

"Oh, he's going to take a look at it on his way West," said Hilliard, diffidently, and added, with more generosity than Waring had anticipated. "Rufus and I both asked him to. Let Rufus-and Jack-handle it together. Between them, they'll make rather an exhaustive study, don't you think? And they might turn up something that all of us would want to know."

"That's right! It's a thought. Well -" Cullen looked at his watch. "I can't waste any more time on this tomfool business. I ought to have been in the office an hour ago. Anybody going downtown?"

"I am-but I'll walk," said Waring "Can I stay?" asked Hilliard of An-

gela, in an undertone.

"I want you to," she said. Her eyes followed Waring to the doorway. After they had been alone for a full

minute, and neither of them had uttered a syllable, it came to Hilliard that the chief difficulty in being evil is to make an end of it, but that the chief difficulty in being virtuous is to begin. His brain was active and his emotions were placid; but to his mild perplexity he had no compelling desire to make a start. There was no restraining impadiment working against him, as on the occasion of his interview with Carol; his impulses were merely lazy. Indeed, he was rather highly gratifled at the course of things this morning; he argued that Waring's zeal and Armstrong's Itinerary had relieved him from any necessity of an out-and-out avowal of his innocent fraud; it was much more satisfactory, since all the issues were so confused, to turn his affairs over to Cullen, and to await the inevitable verdict on an impersonal basis. In the meantime, he was deeply touched by Callen's confidence in him : Cullen and Corol Durant alike had refused to believe the obvious truth; he wondered stolidly what it would have meant to him to have had such a reputation from his youth onward; the gratification now would have been superlarive -provided only that he had been en titled to his pride.

"He's jealous of you," said Angela Simply wild with it. You know thatdon't you?"

Hilliard started; for it wasn't an emboldening beginning. Not the least so; it implied exactly the sort of rivalry which he had feared, and which he had come to relinquish.

"Who is? Oh! Rufus Waring?" "Terribly jealous. Perfectly crazy with it. That's what all this whole mess is about." She tossed her head

willfully. "I don't care; do you?" The unrestried bluntness of it nearly took him off his feet; renewing the devastating suspicion that Angela had grown to care too much for him-too

much for her own good. "Why, Angela!" he said lamely. "Of course I do. It hurts me."

She hammered a gold-embroidered sofa-cushion with one tiny fist.

"Oh, he's jealous of everything and everybody. That doesn't count any more. Unly it made me perfectly furious. . . , I wanted to scratch him , the very idea of his daring to say anything like that about you! Even if you do like me a lot!" She sighed heavily. "And yet if you stop to think about it, it was sort of brave, toostanding up to all of us when it was three to one, and he was wrong-poor

Hilliard looked down at her with deep affection and troubled relief. "As long as I've a defender like you I wouldn't worry," he said, "but I'm afraid it won't be for so very long, Angela, that you'll feel like defending

"Why not?" she asked. "Just a notion of mine. It strikes me that you're fonder of Rufus than you let yourself think. And he needs champion worse than I do; I'm more

time," she reminded him triumphantly, "and this is the time!" "Think so?"

"I know so!" All at once she became demurely sober. "I'm awfully . it isn't out yet, glad, honestly . of course, but everybody knows about you and Carol, especially since Jack Armstrong lost out, and went West, just the way they do in novels. I'm just as glad as I can be. Only you might have given me a wee little hint -just to me, you know, mightn't you?" "Angela!" He caught at her hand.

"Oh! That wakes you up, doesn't it?" Her manner changed to the maternal; if Hilliard had been in a differnt frame of mind it would have convulsed him. "Now, just be calm and tell me all about it," she instructed him indulgently. "Tell me everything-I won't repeat it to a single I'm awfully excited about it. Please tell me."

"Angela! Where did you-" She pouted instantly.

"Not just plain 'Angela'-put some trimming on it."

"Well-Angela, dear . . . what's that about Jack Armstrong? Say that again-and tell me everything you know about it. Be serious for once. That's a good girl!"

Her eyes were mischievously tender; somehow she reminded Hilliard of that moment in the hallway of the Durants' house-the most precious of all his recent memories

"Will you tell me if I tell you?" "Yes. I guess so."

Her finger was upraised in warn-"Say 'Yes, dear.' "

"Yes, dear," said Hilliard, writhing. She settled herself with a little flounce of excitemnt. . Jack asked her, and "Well

she refused him. . . . Flat as a pancake. That's gospel truth! She told me she'd refused him, and he told me the pancake part. And everybody's glad of it-he's a nice boy; awfully nice-but nowhere near as nice as you are. And he's fust naturally gone away to get over it. And you're the only one left. So-that's finished."

He stared at her unblinkingly. Had he really been at such cross-purposes abruptly. "That's all-he's jealous. with Armstrong at the station, then? The conception was illuminating.

"Everybody?" he repeated, red and white by turns, and mightily hushed. "What does that mean?"

"Just that. Everybody. That is-" Her accent was deliciously superior. "That is, all the people one knows." "They think . they think

I'm the . . . the one?"
"Silly!" She patted his head. "I didn't believe you'd try to camouflage me. No-honestly-isn't it true?" He studied her a moment. "What

would you say if it were?" he asked soberly. She returned his gaze with engaging

frankness. "Oh, I want it to be-I want it to be!" she said. "Carol's the sweetest

"Dear girl!" said Hilliard gently. "Do you understand?" Her eyes were very pleading, very misty. "Understand?-yes. Can I wish you

happiness, too?"

"Not yet," she said, adorably prim. "He hasn't . . oh, we both know about it, but he's got to graduate from law school first, and-after that . . 'cavel a little." maybe I can . . . She blushed shamefully. "You needn't grin like a Cheshire cat-I guess I'll see Niagara Falls anyway:"

" He stopped, swamped by the recollection that it was Waring who was to share in the demonstration of his perfidy. To wish happiness to an executioner-and not be a hypocrite? Incredible-yet true. Hilliard wished him happiness.

"What is it?" she demanded, alert to his altered expression. I'm just sorry

"You're fibbing! Still . . ."

Hilliard rose hastily.

just an obsession-" well, sometimes I almost wish I could "It's all right-quite all right, Please!" He touched her hair lightly. "I wish I were as sure you'd always defend me as I am that you'll stick to him. Angela."

"That's twice you've said that . and you know what I think! I've told you. And . . . are you going off without telling me anything at all?" Her voice betrayed the irreparable in-

jury in it. Hilliard moistened his lips, "Angela, dear, next to one other person I love you better than any one else

on earth.' "That's nice," she said, with a sigh of perfect content. He bent to her, but she eluded him.

"Oh, no!" she gasped in fluttering protest. "Even if you . . . but I've told you about Rufe now-you haven't told me about Carol, but it's plain as day-it wouldn't be right!" "Angela!"

She relented swiftly; his voice was something to rely on. "Well-just my cheek, then. Hon-

estly, I . . "No. dear," said Hilliard. He compelled her chin upward, and smiled down into her lovely, startled eyes, and stooped and kissed her forehead . . then her lips.

"That's for good-by," he said, "to the dearest little girl I ever knew. We're both growing up, aren't we?"

CHAPTER XIII.

In the coloriess days that followed. Hilliard listlessly set about the ordering of his final plans. Fortunately, there were few of them; his mind would never have been equal to intricate detail.

It was a slight consolation + realize that the city had judging men by personal oride and wealth, it

I like you better than any- thought, than from his character. He had deposited with Cullen all be owned, except for his private belong-

ings, his runabout, and a trivial sum for current expenses. The runabout he would offer for sale; it meant a few hundred dollars more to be divided among his contributors. Beyond that, there was nothing else he could restore to them.

He didn't believe that Harmon would ever carry out his promised betrayal; not that he had faith in Harmon's code of ethics, but because he trusted Harmon's horse sense. If Hilliard were alone to be accused, Harmon would gain nothing and might, if he offered any adverse testimony, even implicate himself. Indeed, if Harmon should say enough to establish the proof in the dangerous status of an accessory before the fact. No . this was the same procedure; to let

"That's for Good-by."

the memory of Dicky Morgan rest in peace, and to let the brunt of anger fall on Henry Hilliard, who was a nobody from nowhere, with a lying face,

But then there was Angela's startling allegation . . . She had declared "everybody" in town knew all about Hilliard and Carol. "Everybody" would have a different opinion. He had tried to explain himself to Carol, and he had failed; and in the light of Angela's revelation, it was difficult to decide whether Carol herself. in protesting that she wanted to retain him as a friend, had meant that and nothing more, or that and a great deal more. But no matter what she had intended to convey, he dared not go to her again, he dared not see her and speak to her, for if he lied to her but he couldn't lie to her now, and every word of truth would prove a boomerang. He was trapped: and although his heart was breaking for the love he had almost won a second time, he remained steadfast to the ideals he had created. If Carol were to lose him as a suitor, she should never know that her first and foremost

suitor had gone to the devil. He told himself fiercely there was one definite and permanent way out of it. . . . Nobody would then have cause to gossip about Dicky Morgan; no one-after the first natural floed of excitement and denunciation-would remember very much about Henry Hilliard. It would save such a deal of needless trouble; it would save such a wearisome amount of shame.

But against the pitiless background of the war, self-destruction as a means of avoiding personal difficulties, selfcaused, seemed curiously repellentcuriously cheap.

No . . . it was a part of his own grievance that Carol and the others must grieve, too; he had a dual responsibility to society. He had no right to leave these matters clouded by any uncertainty of motive. Syracuse had a right to know the facts; and if the facts brought pain to those he loved, why, that was something he should have thought about in June, and not in November.

As he clung comfortless to the last slipping hours of the reputation he had so carefully builded, he knew that it wasn't the punishment of the law that he dreaded, it was the ostracism which would accompany it. It vasn't his own shame which gripped t m, it was the consciousness of the came which would attach to his frends. And so, for a day or two, all his faculties were strung upon the attitude of the public toward him; he was ratching frantically for the first signs

The end was plainly in sight; Arm-
