

"MY TURN"

By
Carol Ellis

A STRANGER, driving through this area of the Texas Panhandle, would probably admire our lush golden fields and quiet, sleepy little hometowns. But looks are sometimes deceiving. Crime appears to be moving out of the big cities and into the rural areas.

In the past few months it seems that crime has taken up residence in our area. A car runs through the front of a store and speeds off without stopping. Homes are burglarized in broad daylight. Pickups have been taken from the driveways of rural homes and cars stolen from out of their garages in town.

It has been shown that most home burglaries occur during the daytime, when the occupants of the house are at work, and most burglaries of stores occur at night.

A motor vehicle theft is committed in this country every 30 seconds and a burglary every nine seconds. For every 100 cars reported stolen, only 15 suspects are usually arrested.

Professional auto theft rings are responsible for most of the thefts of expensive cars. But they are not the only hazards. Owners of inexpensive cars can be ripped off by drug users who plan to re-sell parts, such as tires or stereos, for quick cash.

If your car is stolen by a juvenile joyrider, you have about a 50-50 chance of getting it back, according to the National Automobile Theft Bureau, but any valuables inside your car will, most likely, be missing when you get it back.

An estimated 20,000 hot cars cross our southern border into Mexico every year. Officials in Mexico locate and return about half of these vehicles every year. The remaining 10,000 simply disappear without a trace.

Auto theft is a growth industry, increasing each year by more than three per cent. A car thief can earn up to \$100,000 a year stealing autos according to the Chicago Crime Commission.

The insurance industry gets stuck with the bill for most of this type of crime. But the victims in the long run are the car owners and policy holders, whose premiums will be raised to cover the losses. Auto theft costs insurers \$4 billion each year. Annual loss from phony claims run around \$600 million.

Your car or its contents have a one-in-five chance of becoming a target of theft sometime during the next decade. You can reduce those odds a lot if you drive a disreputable-looking car that is five years old or older, with lots of door-dings and rust spots, needing a wash and/or a paint job. If you drive a good-looking late-model expensive auto, we suggest that you leave a member of the family guarding the car any time you have to park in a large parking lot in a big city.

I guess we could all give up cars and start riding bicycles everywhere we go, but bicycles are even easier to steal than cars. And wouldn't you dread a trip to Amarillo by bicycle!

FmHA Vote Deadline

The deadline for voting for a county committeeman for the Farmers Home Administration (FmHA) is October 30, rather than September 30 as previously published, it was announced this week.

A ballot provided by the FmHA and printed in the Friona Star's September 24 issue had a typographical error listing the deadline erroneously.

Another ballot is being printed in this issue, so that farmers wishing to vote may do so.

"We are sorry for this error, and hope it will not cause anyone not to vote," said a spokesperson for the county FmHA office in Farwell.

Cancer Unit October 13

According to the American Cancer Society, one out of every ten women in the United States will develop breast cancer sometime during her lifetime. Every year over 37,000 women die as a result of breast cancer.

According to a spokesman from the Regional Breast Care Center at Women's & Children's Hospital in Odessa, "The death rate from breast cancer could be drastically reduced if women would have mammograms done before a problem exists."

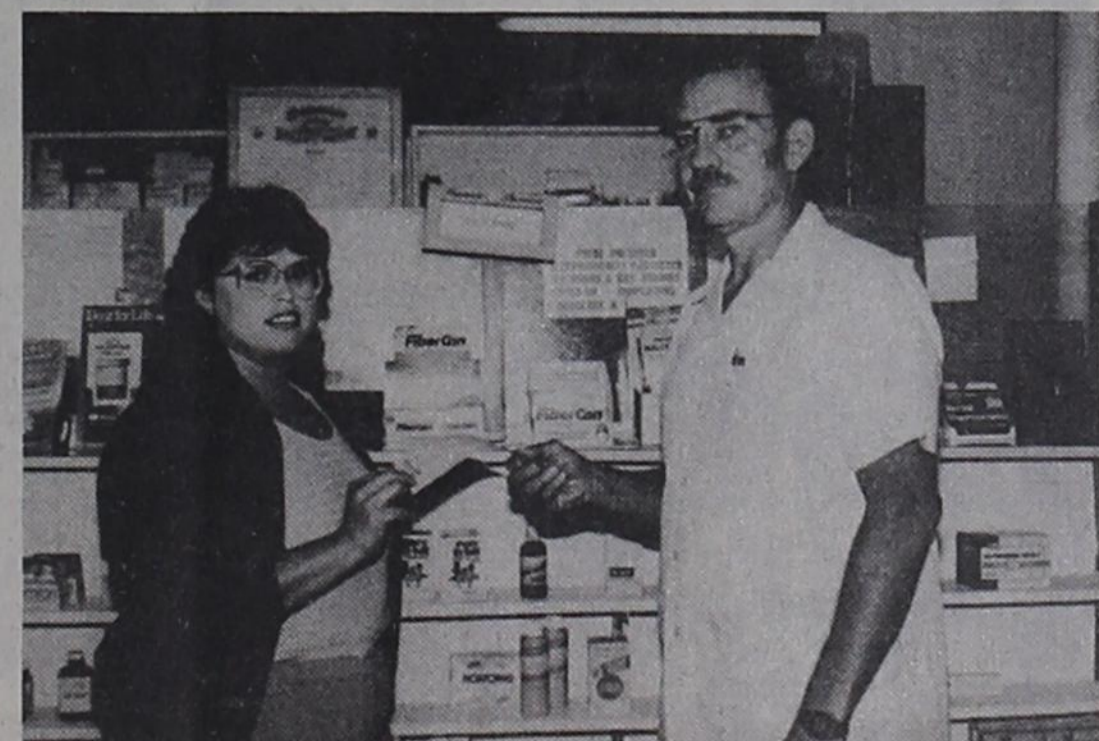

By using modern state of the art x-ray equipment, breast cancers can be found when they are about the size of a grain of rice and well before the cancer can be felt.

A woman who is diagnosed with breast cancer at this early stage has a 90%-97% survival rate. However, a woman who is not diagnosed until a lump can be felt has approximately a 50% survival rate in five years.

In an effort to find cancers at the earliest possible stage and prevent unnecessary deaths, a mobile breast cancer detection unit will be made available to local women on October 13 from 9 a.m. until 7 p.m.

The mobile unit will be parked at Bovina City Hall at 205 North Street. Appointments may be made by calling 806-238-1116.

For more information, you may call the Regional Breast Care Center at Women's & Children's Hospital at (915) 334-8888/561-9999.

In the second quarter, Venable scored on a four-yard pass for a 20-8 Bovina lead as his PAT kick failed.

Program Is Vital

Sue Nuttall, elementary principal, said that this is the beginning of the second year of the Volunteers In Public Schools (VIPS) program in Bovina Schools.

Teachers now wonder how they ever got along without the volunteers. If they have missed contacting you about their volunteer program and you have a few hours to spare each week, come by the school and let them know. This includes not only parents, but grandparents, as well as others.

They need your help in all sorts of ways including typing, making copies, preparing the bulletin board, art and learning games, working in the library, listening to students read aloud, story telling, and presenting lessons on arts and crafts.

Mrs. Nuttall said, "If you love a child, you care about school. Volunteer and share!"

Mustangs Get Open Date Fri.

The Bovina High School Mustangs will get a much-needed open date on Friday, brought about by the fact that their scheduled opponent, Texline, has cancelled its schedule for 1988.

District superintendents met and agreed that there will be no forfeit involved in the games scheduled against Texline. It will simply be a "no game" situation.

"The open date should come in handy. It is coming at just the right time. In addition, the kids are looking forward to NOT having to go to Texline," said Coach Terry Bean. Texline would have been one of the team's longer trips for a game this year.

The BHS football coach said that the players have been working hard ever since two-a-day workouts started, and they are really needing a chance to rest a little.

"This open date should give us a chance to recuperate, and get ready for the rest of our district games," Bean said.

Bean said that his players came out of the Three Way game without any new injuries.

Three senior starters, Scott Scaff, Scott Sudderth and Denver Riddle, have missed early-season games, but are on the verge of being 100 per cent. That should make a difference as the team heads into its vital district games.

Following the open date, the Mustangs will play at Cotton Center October 21, then host Lazbuddie October 28 before going to Amherst November 4 to close out their district schedule.

Commodity Distribution Is Scheduled

Surplus government cheese will be distributed in Bovina on October 20 at the Legion Hall on Third Street.

Distribution for all persons who are sixty years old and older or are handicapped, who qualify according to the eligibility guidelines, will be given cheese beginning at 8 a.m.

Persons under sixty years of age that qualify can begin picking up their cheese at 9 a.m.

It is not determined what commodities will be issued that day, but you are asked to please bring your own bags.

ADDED ATTRACTION...Marie Venable gives the football boys a boost at all the games as she rings the victory bell and blows a horn when the team scores. A good crowd attended last Friday's game.

Running stocker calves on wheat pasture?

Now, more than ever, **IVOMEC** can build your profits.

(ivermectin)

At this year's beef prices, every pound you put on your calves is worth good money. And with IVOMEC (ivermectin) you can put on plenty of extra pounds.

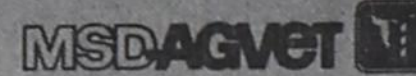

Whenever you have cattle on pasture, you're bound to have parasites. And if your calves have been sold and resold before shipping, you can't know what parasites they've picked up. And parasites steal weight.

But one shot of IVOMEC kills 31 different kinds of parasites--more than twice as many as TRAMISOL and WARBEX combined.

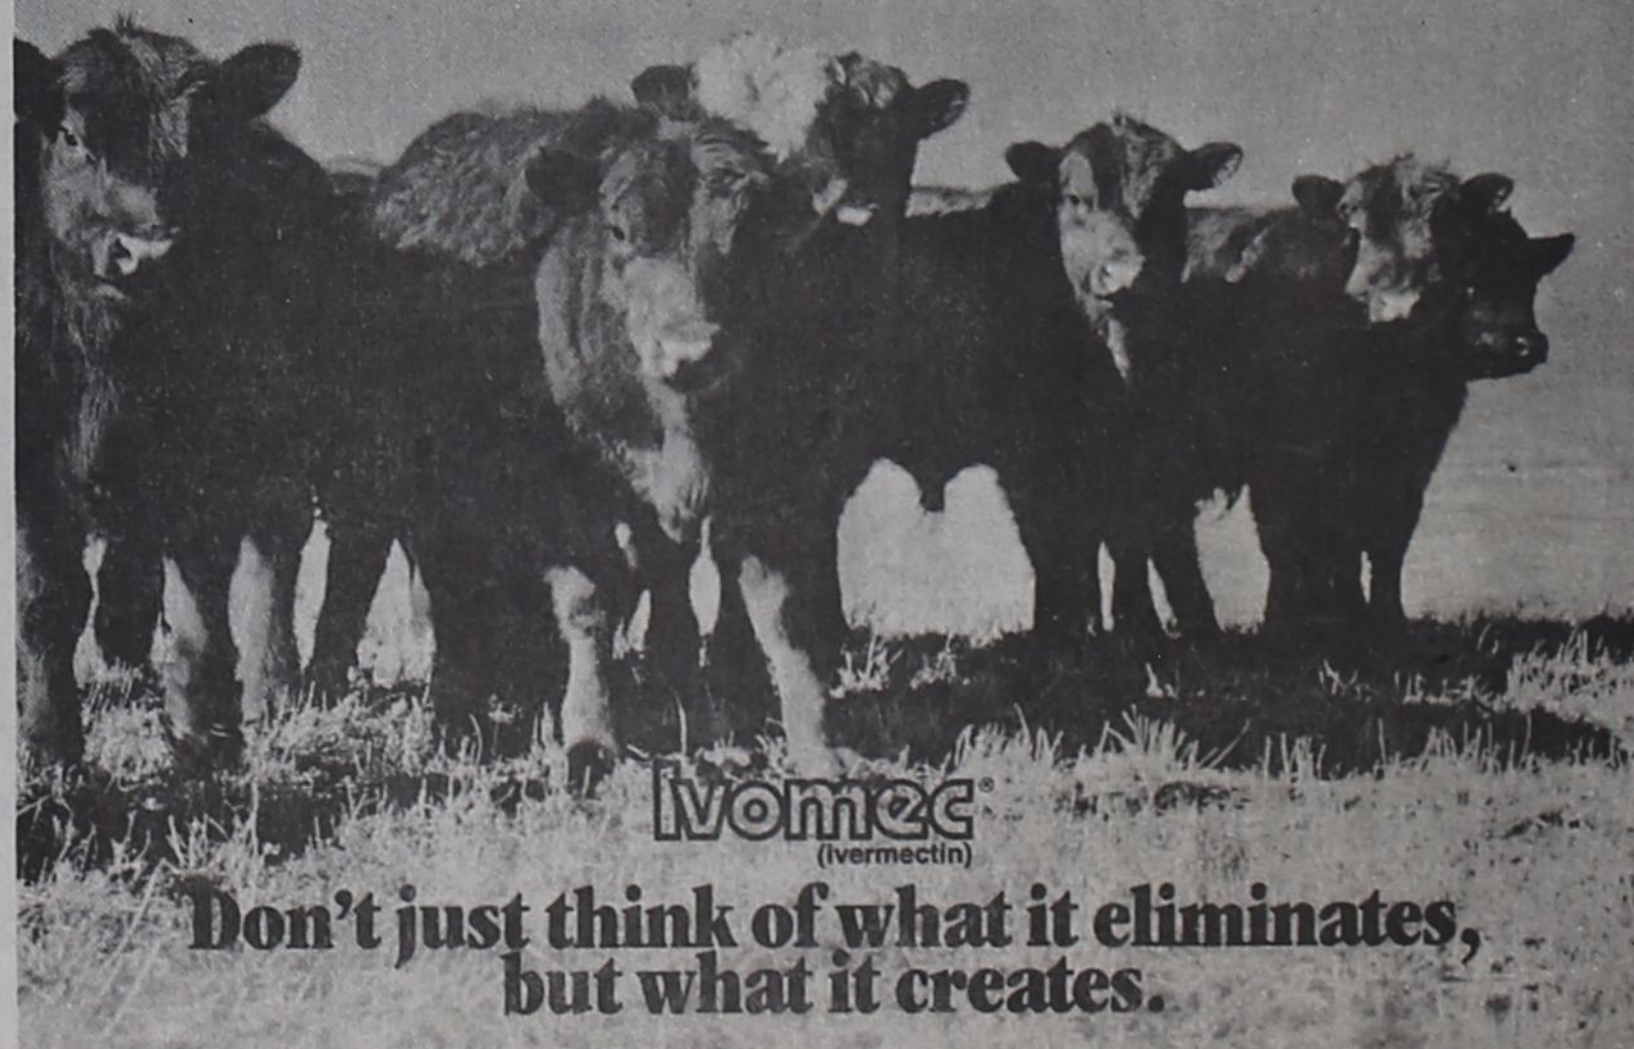

IVOMEC kills mature and immature worms, so you don't have to use it again in a couple of weeks. And IVOMEC gets external parasites, too. It does it all with just one simple shot under the skin. No wrestling. No Mess. No stress.

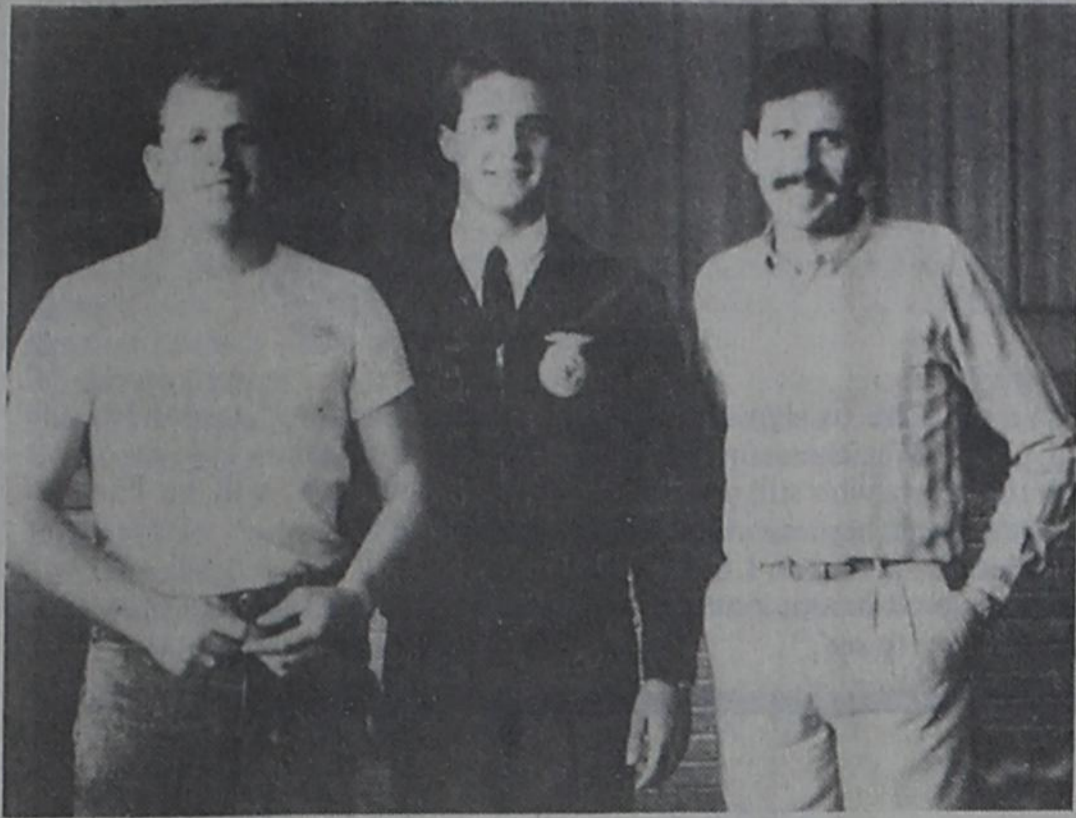

So go with your best shot.

State FFA Prexy Is Assembly Speaker

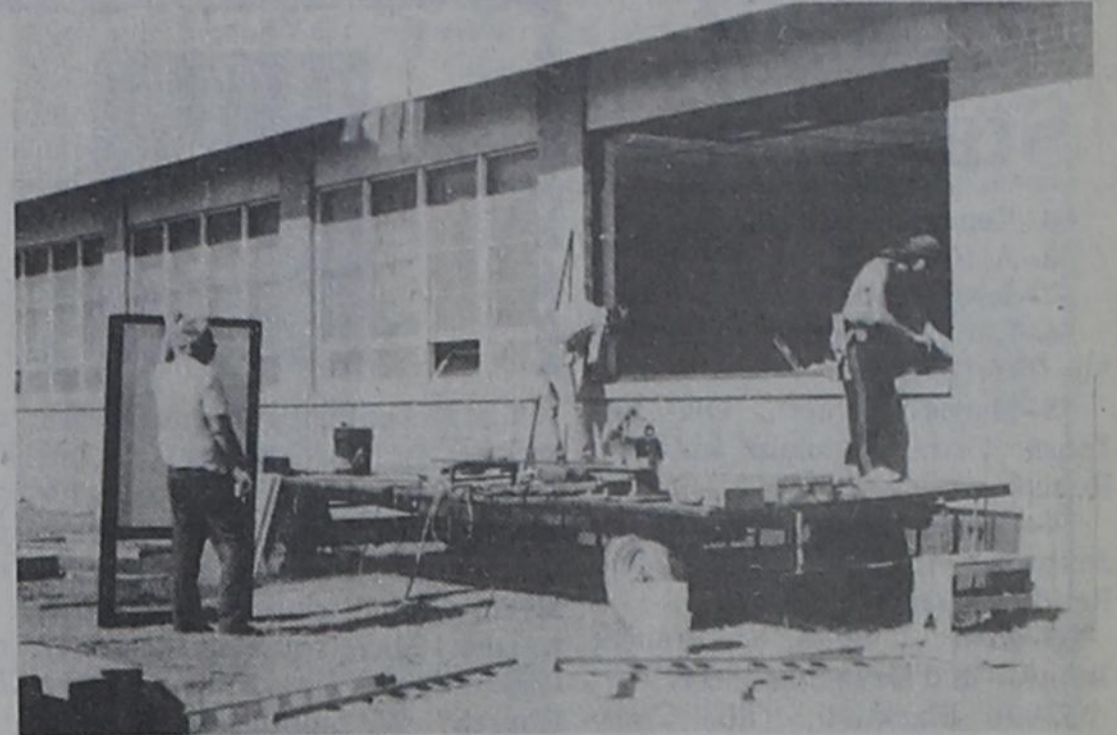

The Texas Future Farmers of America state president, Donnell Brown, spoke to a general assembly of high school and eighth grade students on Thursday, September 22, on how to set your goals for the future and what it takes to be a leader.

Brown got the students enthused by his motivational efforts. The students were yelling and clapping, and truly were involved. He was elected as the 1988-89 state president at the state convention in San Antonio last July before

thousands of FFA members across the state.

Brown will be taking a break at Texas Tech University, where he was a freshman last year. He will travel over sixty thousand miles in the coming year visiting high schools, attending leadership conferences and banquets.

Art Hunter, the local FFA advisor, feels that Bovina was lucky to have Donnell visit because he was not scheduled to visit the Bovina area, but made a special effort to be here, and give his presentation.

Jayvees Play Well Vs Alamo Varsity

The Bovina Mustang junior varsity played the Amarillo Alamo Catholic team on even terms for 37 minutes in their game here last Thursday, before the visitors pushed across two late touchdowns for a 20-6 win.

"We moved the ball well all evening. We just seemed to bog down when we got to about the ten yard line," said JV coach Marks Lanham.

The Mustangs took the lead

when Hector Guevara capped a Bovina drive with a two-yard touchdown run with ten seconds left in the half. A try for points running failed, for a 6-0 halftime score.

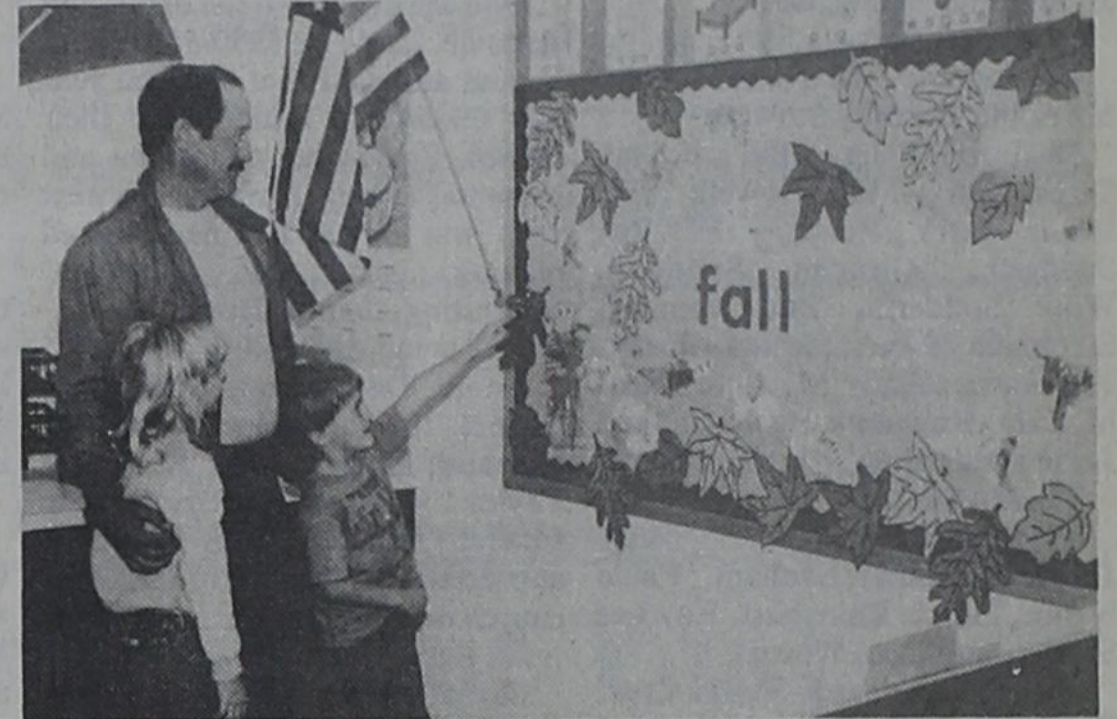

Alamo scored with two minutes to go in the third quarter. The kick try failed, leaving the score tied, 6-all.

The game was a defensive struggle the rest of the way. Alamo managed to get outside for a long run with three minutes to play, and they scored again before time ran out, for the difference.

"They finally wore us down with their size. They had some huge boys, playing juniors and seniors, where we're mostly freshmen," Coach Lanham said.

Juan Reyna had a good night at quarterback for Bovina, completing 13 of 24 passes for 118 yards. Jay Holman gained 75 yards on eight carries and also caught five passes. Guevara had four receptions in addition to his TD run.

The JV team plays the Ropes varsity at Whitharral Thursday at 6 p.m. Ropes is in the process of changing to six-man football, and is having to play a "pick up" schedule this year.

WE URGE YOUR SUPPORT FOR--

MEL PHILLIPS
CANDIDATE FOR STATE SENATOR, 31ST DISTRICT

No State Income Tax

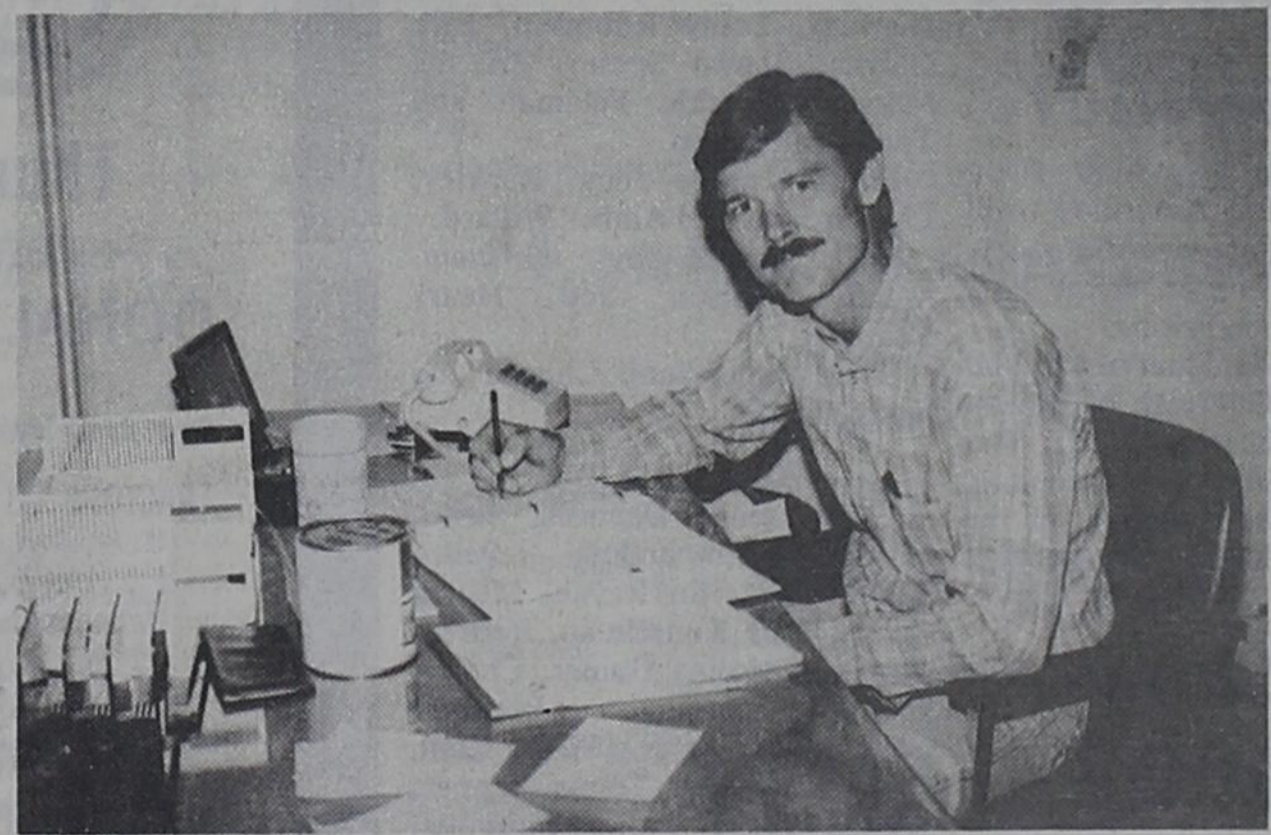

Mel Phillips filed an affidavit with the county clerks of every county in the 31st Senatorial District promising that if he is elected, there will be no state income tax. Phillips is the only candidate to have put his promises in this regard in writing on a legal basis.

Mel Phillips believes that the residents of this area should receive their fair share of taxes back from the state, and that rural hospitals should be re-imbursed by the same percentage that large hospitals are.

"People in Parmer County are worth as much as people in Houston or Dallas," Phillips says.

Scooter's Scoops

By Scooter Russell

We are enjoying beautiful fall weather and the harvest is in full swing...The nights are cool with temperatures in the forties. During the day, the temperatures are in the seventies and eighties. Beautiful weather! Have you seen the pretty flowers by the First Baptist Church? We appreciate Richard and Velma Grisham for planting these each year. They make our days much nicer!

Don Spring was in the office and said he had a 1950-51 school annual and said that was the year that Oklahoma Lane closed their school. Some went to Bovina and some to Farwell. Anyway, the next year was when Bovina stopped playing six man football. Interesting, thanks, Don.

Annie Derrick wanted us to correct the obituary about her husband, Earl. It was Rev. Jeff Taylor who officiated at the funeral services. She expressed appreciation for Jeff and the church members.

Barbara Trim underwent back surgery on September 7 and we saw her one day last week. She said she is getting along real well and was driving again. She had the surgery in an Amarillo hospital.

Louise Christian is a patient in the Methodist Hospital and her address is Methodist Hospital, South No. 784, 3615 19th St., Lubbock, Texas 79410. Our thoughts and prayers are with the family.

Polly Mills had a good time last week and over the weekend with her daughters and families visiting. Kara and Mike Fulcher and Mike's brother, Von, came from Lubbock. Karla and her husband, Jarod Withrow, and their daughters, Layal and Emily, were here from Littlefield and Polly's

daughter, Debbie and Dan Goldsmith of Dimmitt, and their daughters, Rachel and Sarah. The family enjoyed a meal together one night.

Other guests were Polly's mother, Bessie Webb of Bovina; Polly's brother-in-law and sister-in-law, Wayne and Joan Mills and Polly's nephew, Dale Sikes of Lubbock. The family enjoyed a good time together. Debbie made the birthday cake for Polly.

Nannie Rhodes underwent surgery on Tuesday of last week. She has been released and is spending a few days with her daughter, Dorothy Sims of Happy.

Alma Englant was released from the Lubbock hospital where she was a patient for fourteen days. Her daughter, Mary Alice, said her mother's condition is slightly improved.

William "Widdy" Gromowsky was in Bovina visiting over the weekend with family and friends. Widdy lives in Canyon and attended church in Bovina before returning to his home. Widdy's parents are William and Kathryn Gromowsky.

Visiting in the home of Tom and Virginia Rhodes was their daughter, Rhonda, of Lubbock. Rhonda attended church with her parents on Sunday before returning to Lubbock.

Veda McKay was telling me about her mother-in-law, Rosie Osborn, who was 88 years old on the eighth month, eighth day, and nineteen eighty-eight. The family had her birthday meal at 8 p.m. and she was driven in the McKay's 1988 Pontiac. Six of her children were with her and several grandchildren. The family enjoyed a meal, birthday cake and ice cream.

Mrs. Niehaus's social studies classes are completing a unit on the Indian tribes who lived in what is now Texas. Most of the study has been about the tribes before the white man came and shortly after the Spanish and French began to explore here.

Both Mrs. Niehaus's and Mrs. Feldman's classes participated in making the dioramas. Prizes were awarded in each class for the students' efforts.

Winners were: best overall, Pablo Martinez and Kasey Bell; most effort, Tina Bermea, Josh James, Maria Fragoza and Larera Trevino; most creative, Lennie Brito, Sandra Talavera, Jason Kerby, Lisa Hromas, Ann Flores and Amber Willard.

BREAST CANCER DETECTION UNIT AVAILABLE TO AREA WOMEN

OCTOBER 13, 1988 BOVINA, TEXAS

A Service of CITY HALL

205 N. Street

CALL 238-1116 FOR APPOINTMENT

According to the American Cancer Society, one out of ten women in the United States will develop breast cancer sometime in her lifetime. It is currently estimated that over 37,000 women die each year as the result of breast cancer.

Ninety percent of breast cancers are diagnosed by women or their physicians finding a lump in the breast. Women who are diagnosed with a lump large enough to feel have a 50 percent five year survival rate. A woman who is diagnosed as having breast cancer by mammography, before a lump can be felt, has a 97% five year survival rate and a 90% 10 year survival rate.

A mammogram can detect a cancer this small, even before it can be felt.
APPOINTMENTS MAY BE MADE BY CALLING 238-1116.

The Mobile Breast Cancer Detection Unit Will Be In Bovina on Thursday, October 13th.

The American Cancer Society has established guidelines for mammography in asymptomatic women. (Women who have no symptoms of disease). Those guidelines have been adopted by the American Academy of Family Physicians, American College of Obstetricians and Gynecologists, and The American College of Radiology. Those guidelines are:

- I. 35-40 years of age - One baseline mammogram.
- II. 40-50 years of age - A mammogram every 1-2 years depending on breast type and risk factor.
- III. 50 years of age and over - An annual physical examination and annual mammogram.
- IV. Asymptomatic women under 50 years of age with

significant high risk factors should be examined at appropriate intervals. These risk factors include previous breast cancer and family history of cancer.

A symptomatic woman should have a mammogram at any age when she experiences a mass, nipple discharge, skin changes or unexplained breast pain.

A screening mammogram is an x-ray of the breast using extremely low dosages of radiation (usually comparable to dental x-rays) and is designed to find very early cancers.

A female technologist who is highly trained in mammography will perform the examination.

The charge for the screening mammogram is \$50.00. The Unit accepts cash, check, Visa, Mastercard and American Express.

FOR MORE INFORMATION OR TO MAKE AN APPOINTMENT CALL 238-1116.
