## Hedley Schools Open

The Hedley schools opened Monday morning with a good program in the high school auditorium. A large number of patrons and several out of town visitors attended the opening exercises.

The program was as follows: Invocation, Rev. M. E. Wells. Two songs led by Robert Watkins.

Two numbers by the Clarendon Jr. College quartet of Jo Wells, Inell Biffie, Theresa Bain and Jane Williams.

Piano solo, Mrs. Watkins. Address, "The Little Child," Rev. Walter Patterson. Talk, Mrs. Q. L. Johnson, P. T. president.

Supt. Payne introduced Messrs. Burton, Drennon and Payne of the Clarendon schools, Rev. Stanley and Mr. McPherson, and presented the faculty. He then, with fitting remarks, presented a book to Mrs. Mary Beest, who has served in the Hedley schools for 14 years. The program closed with announcements by Mr. Payne.

## Methodist W. M. S. to Offer Womack Burial Insurance, Free Ambulance Service During Sickness

Mr. Womack announces the missionary society as representatives for the new type of burial insurance being offered in this locality. He states: "I feel that we can be of service in two ways to the community in which we serve, helping the ladies carry on the Lord's work through their church and at the same time offer the highest protection ever introduced through funeral service insurance. The ladies were extremely interested in a plan to help carry out their work, therefore I sincerely hope the people of Hedley, Lella Lake and surrounding territory will give them your support. They will deeply appreciate any consideration you offer them."

I feel that certain sickness requires an ambulance, while may be the family is unable to pay for such service, therefore I included this service to our policy holders. We are not operating this company with the intention of making big profits from those we serve; this is why we require no medical examination and write as high as 85 years of age. Our company is founded on a sound financial basis, therefore we do not pick the choicest risks and leave the more serious ones to want for our protection. No one asks protection and is turned away to receive a non-Christian burial, or to suffer death during illness for want of an ambulance.

I am deeply enthused to have the society to act as my representatives. My company will help carry on the Lord's work and at the same time offer every form of protection that we can. I urge the people, regardless of profession of faith, to give them your Christian support. They have a goal to reach that cannot be without the support of every man, woman and child in this territory.

Mrs. E. A. Malone of Amarillo visited here this week.

Mrs. D. W. Malone is visiting in Borger.

## Shower

Mrs. D. B. Thomas, a recent bride, was honored with a shower at the home of Mrs. J. B. Master on Monday, Aug. 21. The hostesses being Mesdames Earl Tollett and Leon Reeves and Miss Myrtle Reeves. The guests entered and were served by Mesdames Tollett and Reeves from a lace covered table, banked with ferns and flowers. Miss Hazel Stewart presided at the bride's book where about sixty guests registered. They were then seated by Miss Reeves.

The living room of the Master son home was beautiful with a profusion of roses and other cut flowers. The bride was seated beneath a canopy of red, white and blue. A novel feature of the afternoon's entertainment, also reminiscent of the fact that Mrs. Thomas is a soldier's bride, was a playlet in verse written by Mrs. E. Davenport, and given preliminary to the presentation of gifts.

When the bride entered the bugle sounded reveille. After she and her party were seated, the following program was presented to the assembled guests: Stars and Stripes Forever, Mrs. Bob Watkins.

Wedding Bells and Santa Lucia, Misses Jo Wells, Theresa Bain and Inell Biffie.

Love's Old Sweet Song and Girl of My Dreams, Miss Theresa Bain.

Piano solo, Mrs. Bob Watkins. Let Me Call You Sweetheart and Sweet Genevieve, Mrs. Ross Adamson and Miss Otay Watkins. Playlet: The Captain and the Soldier, Mesdames E. Davenport and Ray Moreman. Eva Jean Cherry, Melba Jean Clifton and Ivan Jones.

Tipperary, Sidewalks of New York and Star Dust, Accordions led by Ivan Jones.

As the bride unwrapped the gifts, Mrs. Watkins and Ivan Jones furnished music for an appreciative audience. It was a very pretty and most interesting affair making clear indeed that an "army" of friends do really wish the young couple a long and happy life.

## Parent-Teachers Assn.

Let's all be Parent Teacher members and help our school. The first meeting will be Sept. 16 at 8 p. m.

# U. S. Joins World Wide Propaganda Drive; Broadcasters Fight Government Control

## Charge of Censorship Follows New FCC Regulation

By JEROME ARNOLD  
(Released by Western Newspaper Union.)

Twenty years ago the United States officially discarded its weapon of propaganda, war-enforced, and set about reviving a true democracy in which there should be free speech, a free press and no holds barred.

In the years that passed other nations found free expressions of opinion a handicap. Dictators arose with special rows to hold in which part truths were more effective than whole ones, both for home consumption and abroad. Radio soared into being, the mightiest instrument of propaganda, the world's ether was torn by cross currents, Fascist againstunist, dictator against democ-

DIRECTING A MESSAGE—Radio operator selecting directional antennas at the Columbia Broadcasting system's international station W2XK. These antennas enable the broadcaster to concentrate the station's power in any given direction.

re specifically: Germany, Italy, Japan are now directing propaganda via short wave to Latin America, the continent which the United States promised to protect as historic Monroe doctrine. Dictators are vying for political, cultural and economic supremacy on the world's last unexplored frontier.

Propaganda Forces Censorship.

Propaganda's most alarming quality is that it spreads like a cancer, infecting innocent nations to launch their campaigns for world peace. In turn, these anti-Fascist designs may grow until nations discern what their radio stations and newspapers tell foreign nations, that is censorship, a suppression of free speech and free press.

This subject is pertinent today because the United States has begun active participation in the modern World War of propaganda, a participation started voluntarily several years ago by independent radio organizations but now under increasing surveillance from Washington.

This surveillance has reached such heights that the Federal Communications Commission recently issued an unprecedented order to 14 "international" stations which broadcast by short wave, principally to Latin America. The order demanded that after next November 1 all foreign broadcasts must "promote international good will, understanding and co-operation." It further stated that when representatives of these stations appear before FCC for annual renewal of licenses, they must show their programs have reflected the "culture of this country."

**Broadcasters Complain.**

This, complained President Neville Miller of the National Association of Broadcasters, is censorship, because it would, for example, "require a licensee to suppress spokesmen for minority groups, either the licensee or the commission believed their views would not promote international good will, understanding and co-operation."

Whether the order will be rescinded

is problematical, but meanwhile the United States is actively participating in the propaganda war. At Washington the state department has opened its new "division of cultural relations" under direction of Dr. Ben M. Cherrington, former chairman of international relations at the University of Denver. This office, maintaining a small personnel, was created by agreement with Latin American republics at the Buenos Aires conference in 1936. As the official United States agency cooperating with schools, professional organizations and radio groups in advancing American cultural ties with foreign nations, Dr. Cherrington's office has announced it "will in no way seek to control their activities." He was assured by Secretary of State Cordell Hull that the United States will make no effort to force ideologies down the throats of listeners in other nations; that he would proceed along democratic lines in keeping with democratic tradition and precedents.

**Cites Respect for U. S. Radio.**

This, however, does not conform with the interpretation Mr. Miller places on the new FCC ruling. In a world of propaganda, the radio official has found this to be true:

"Freedom of speech as an integral part of the culture of this country not only is a cherished tradition, but a living reality. We are advised by several licensees of international broadcast stations that foreign lis-

teners rely upon stations in the United States as a source for unbiased and uncensored news of the world. This reliance is based upon the fact that these listeners know that in the United States there is no government supervision or control over the matter to be broadcast. We feel that the confidence that has been developed in the independent operations of American short wave stations will be destroyed when it becomes known that an agency of the government . . . has laid down requirements to control the program content of these stations.

"The most effective way to develop and foster international good will by the United States is to avoid copying the tactics of totalitarian governments who supervise and direct all broadcasting."

**U. S. Broadcasters Successful.**

Privately sponsored American stations have thus far been very successful in winning listeners abroad. This was revealed before the FCC by Frank E. Mason, director of international programs for the National Broadcasting company, during hearings probably intended to determine the advisability of an official government-sponsored international broadcasting system.

Four principal corporations are now engaged in this work, the National Broadcasting company, Columbia Broadcasting system, General Electric company and Westinghouse Electric company. Together they sent more than 400 hours of material each week by short wave, about 75 per cent of which is aimed at South America. This is also the principal objective of German and Italian broadcasts, whose reception has been abetted not only by narrow broadcast beams but by low-priced short wave receivers sold to South American listeners and "locked" on the wave lengths of certain European stations.

Yankee ingenuity, coupled with unrestricted freedom of broadcast, has outmaneuvered the "kept" radio of dictator nations if Mr. Mason's testimony is any indication. Observers sent abroad discovered that Japanese, Italian and German short-wave offerings were principally in those respective languages, and not easily understood by South American listeners.

## Hopes of League Die a' Burning; Costly Palace Is Left Haunted

GENEVA. — A \$7,000,000 monument to unfulfilled dreams of world peace, the League of Nations palace, has already become a symbol of bygone days although completed a scant three years ago.

Standing on the shores of one of Switzerland's fairest lakes, the most monumental building Europe has erected in recent times, lies ghost-like and haunted by what one correspondent called "the dreams of stronger men." Since 1926 a total of 15 nations have left the "security" of the League and today only three major powers—France, Great Britain and Russia—retain membership.

Contracts for the building were let on March 1, 1931, after elaborate preparations in which architects of five nations participated in an effort to preserve international harmony. In a further effort, from 300 to 500 workmen representing 10 different nationalities helped raise the structure. On the walls of the council chamber is a series of murals by Jose-Maria Sert, internationally celebrated Spanish artist, designed to picture mankind's long struggle for peace. Ironically, these murals were the gift of Spain.

Designed in several buildings, the palace has a secretariat consisting of 400 offices, the headquarters of Secretary General Joseph Avenol who has been under severe fire for lesser league members for failure to transmit complaints from Albania and Czechoslovakia, "swallowed" by Italy and Germany, respectively. Avenol is alleged to represent the less forceful type of League leadership which has recently taken control, represented also by British Foreign Minister Halifax and Prime Minister Neville Chamberlain, neither of whom wishes to enforce the League covenant because since Japan invaded Manchukuo and Italy drove Emperor Haile Selassie out of Ethiopia.

DIRECTOR-GENERAL—Joseph A. C. Avenol, secretary of the League of Nations, whose policies have been under severe fire for alleged failure to transmit complaints from invaded nations to League members.

Since 1926 there has been a steady exodus of League members, each being required to give two years' notice. These nations, and the date their memberships expire, are:

# HOW TO SEW

by Ruth Wyeth Spears

The Plumber's Hack Saw Did This Trick.

BETSY was all agog to have a bed with no foot piece and a padded head to match her spread. Ingenuity would have to substitute for money, and she was seriously considering this and that when the plumber was called to fix a leaky pipe.

As a tiny tot Betsy always said, "Let me watch," when workmen were coming and at 16 she hadn't grown up much. The plumber took a fine saw out of his tool bag and sawed a pipe in two just as if it were wood. Right then something clicked for Betsy. That old iron bed in the attic! It could be cut down. It was cut down, as shown in the sketch.

The top of this bed is padded with cotton basted to muslin. Betsy used an old comforter for padding. Her mind seems to jump with the greatest ease from water pipes to iron beds and from padding to old comforters.

NOTE: Book 1—SEWING, for the Home Decorator, and No. 2, Gifts, Novelties and Embroideries, are now 15 cents each, or both books for 25 cents. Readers who have not secured their copies of these two books should send in their orders at once, as no more copies will be available, when the present stock is sold. Your choice of the QUILT LEAFLET showing 36 authentic patchwork stitches; or the RAGRUG LEAFLET, will be included with orders for both books for the present, but the offer may be withdrawn at any time.

Leaflets are 6 cents each when ordered without the books.

Everyone should have copies of these two books containing 96 How to Sew articles by Mrs. Spears, that have not appeared in the paper. Send your order at once to Mrs. Spears, 210 S. Desplaines St., Chicago, Ill.

**KOOL-AID CREAM SHERBET**

(Made in Mechanical Refrigerator)

1 package Kool-Aid, 2 cups milk  
any flavor 1 cup heavy cream  
1 cup sugar

1—Dissolve Kool-Aid and sugar in milk; turn into freezing tray and freeze 3/4 to 1 hour (until slushy).

2—Whip cream (well chilled) until stiff.

3—Add partly frozen Kool-Aid mixture to whipped cream and whip just enough to mix well, but keep cold as possible.

4—Return quickly to freezing tray and freeze at coldest point. Requires no more stirring. When frozen, set control back to normal. Makes over one quart. If desired lighter, beat 2 egg whites fluffy with 2 tablespoons sugar and fold into above mixture before final freezing.—Adv.

**FAMILY REUNION**

At the farm home of Mr and  
 Mrs J. W. DeBord, on Sunday,  
 Aug. 20 the descendants of the  
 late Sam and V. I. DeBord met for  
 their fourth reunion. This is a  
 very happy occasion and thor-  
 oughly enjoyed by all. The fun  
 starts as soon as the first folks  
 arrive and lasts throughout the  
 day. Those who missed being  
 with us this year really lost out  
 but we hope more of you can be  
 here next year. Among those  
 we especially missed this year  
 were Elin Bickey and family of  
 El Paso and Fred Tidwell, Law-  
 rence and Clarence DeBord who  
 are in Colorado for the summer.  
 This is an annual affair and we  
 meet each year on the third Sun-  
 day in August.

Each family brought well filled  
 baskets of lunch. This food was  
 passed on two long tables and  
 served picnic style. Although  
 there were 32 people present we  
 could not eat all the food in one  
 meal, so we just stayed for sup-  
 per. There was everything good  
 to eat from country ham to a  
 fancy boiled ham with all the  
 trimmings.

The afternoon was spent in  
 music, games, talking and taking  
 pictures. In looking over the  
 register at the ages, we found  
 one man who has been the same  
 age for three years and one lady  
 who hasn't had a birthday for  
 years. Here's hoping we have a  
 bigger and better reunion next  
 summer so I'll be seeing you.

Those present from Hedley  
 were Mr and Mrs W. L. De-  
 bord, Clifford and Helen, Mr  
 and Mrs. Rimer Dishman and  
 Lavane, Charite DeBord, Mr and  
 Mrs. Haskell Murdie, Bobbie  
 and Patsy Ann Mr and Mrs J.  
 W. DeBord and Dalton Duggins,  
 Mr. and Mrs. Coley DeBord,  
 Connie, Patricia and Dewey Lynn  
 From Quail were Mr. and Mrs.  
 Cardwell Duggins, Rexie and  
 Kenneth, Mr. and Mrs. G. O.  
 Wingham, Herbert and Don  
 From Leslie were Mr. and Mrs.  
 Leo Jester, Eulis, Clifford, Wel-  
 don, Derrel and Oleta. From  
 Amarillo were Mrs. Nannie Wat-  
 sins, Owen and Era Belle, Mr  
 and Mrs. Orlis Vandergriff and  
 Leon. From San Angelo were  
 Mrs. Tillie Dyches, Tabitha, Mo-  
 dona and Billy Hill and Mrs. Mae  
 Koff. Other visitors were Mrs.  
 Susan Johnston and Jimmy and  
 Mrs. W. E. Adams, Della and Le-  
 ona of McLean and Joy Mae Mil-  
 nam of Hedley.

Mr. and Mrs. Alva Simmons  
 have returned from a vacation  
 tour through most of the western  
 states, and report a wonderful  
 trip. Among other places, they  
 visited Pike's Peak, Yellowstone  
 Park, Vancouver, B. C., Seattle,  
 and the San Francisco Fair.

They stopped over at Laguna  
 Beach, Calif., to see Mrs. P. O.  
 Johnson and Mrs. P. M. Acord.  
 Mmes. Johnson and Acord send  
 best regards to all their Hedley  
 friends.

Betty Hooker of Amarillo is  
 visiting here.

Born to Mr. and Mrs. Ben  
 Howard at McLean, on Thursday  
 Aug. 24, a fine baby girl. Mrs.  
 Howard was formerly Miss Al-  
 pha Bell.

Miss Mary Harris visited in  
 Claude several days last week.

### How Women in Their 40's Can Attract Men

Here's good advice for a woman coming her change (usually from 35 to 42), who feels about her best appeal to men. She desires about her fashion, loss of pep, disposition, upset nerves and moody spells. Get more fresh air, 5 hrs. sleep a night. Use a good general system tonic like Lydia E. Pinkham's Vegetable Compound, made especially for women. It helps her build up physical resistance, thus helps her more vivaciously to enjoy life and avoid irritating dietary errors and disturbing symptoms that attend menopause change of life. WELL WORTH TRYING!

## New Wash Materials Remind It's Time for Spring Sewing

By CHERIE NICHOLAS

AS A proper approach to the perennial spring sewing program that soon will be staged in countless households, we know of no gesture that will so inspire to hurry and get going as to take a day off and go fabric sight-seeing. We make the prediction that at just a mere glimpse of the new textiles with their refreshing departure from the old, in the way of texture, patterns and colorings, you will feel an urge stirring to cut and to baste and to sew.

In this day and age when wonders are being performed in the way of textures and weaves, it becomes absolutely imperative that the woman who would sew successfully must know materials. This is especially true in regard to wash fabrics that are a revelation as to what science is achieving in the way of non-shrinkage, color-fast-boil-proof tones and tints and in the way of weaves of entirely new origin. Consider for example the new spun rayon fabrics that are as lovely and exquisite in texture as imagination can conceive.

When you ask to see these fascinating new spun rayons take note of their marvelous colorings that are so refreshingly different from the usual run. Many of the beautiful hues and motifs for design are traced to fine Chinese porcelains that excel in subtle soft blues and canary yellows, lime greens, peach-bloom pinks and cherry blossom reds. You'll love these new wash fabrics that are so handsome they really do not look like washables, but they are and what's more they are treated to an anticrease process that greatly enhances them from the practical standpoint. Some of the smartest washable crepes combine the newest fabric (spun rayon) with one of the oldest (pure linen).

### Rebirth of Amber

It's amber jewelry you will be wearing if you are up to the moment in style. The revival of this familiar gem is important fashion news. The new amber jewelry reveals untold beauties. The colors range from golden yellow to rich antique mahogany tones. The lovely transparent quality of the stone is especially effective in the new floral designs. The leaves and foliage of many flowers are formed of delicately shaded or veined amber. In the picture a very up-to-date young woman enhances her gown with amber flower jewelry.

### Petticoat, Tiered Frocks Real News

If you see a glimpse of lacy frock peeping from under her neat little afternoon dress of silk crepe, do not make the mistake of saying "Pardon me lady, your petticoat is showing." If you do mildly is apt to airily reply, "Sure, that's the intention." Yes'm it's only too true, petticoats are in fashion and furthermore the so-termed petticoat dress that is causing so much excitement in fashion's realm is actually styled so as to reveal a tantalizing glimpse of its frill.

### Open Toes, Heels In New Footwear

The vogue of open toes and open heels has reached such a state that it will be difficult before many weeks to find even an Oxford which supplies good foot coverage. Shoe styles for spring have been placed on exhibition and indicate that pumps and Oxfords as well as sandals expose the toes and the back of the heels. Protect Feet. Robust weather calls for rugged footwear.

## C. Houston Goudiss Offers Timely Advice on Keeping Children Well in Winter; Warns of Several Dangers

By C. HOUSTON GOUDISS

ONE of the ways by which her community judges a woman's success as a mother is by the health and well-being of her children. If they are energetic, rosy-cheeked normal boys and girls who have a high resistance to infections, such as the common cold, and if they display the good dispositions that we usually associate with buoyant health, then the verdict of friends and neighbors is usually that of a job well done.

To help her children maintain top health and vitality, a mother must constantly be alert to the various factors that help produce this ideal estate. And at the same time, she must likewise be on guard against the common conditions that may contribute to lowered resistance, especially fatigue and improper diet.

degrees Fahrenheit when there is a strong wind. Mothers should be on guard against frostbite when the temperature is below 24 degrees Fahrenheit, however, and at all times during the winter, see that children are warmly clad. This need not mean that they are so bundled up as to preclude the possibility of active play. Suitable clothing consists of garments which provide warmth and protection against dampness, without constriction at any point.

Two layers of wool, such as that provided by a woolen sweater and playsuit are considered preferable to one too-bulky garment. Feet and hands should, of course, be well protected.

Don't Overheat the House. Only a little less serious are the consequences of dry, overheated indoor air. It is unfortunate that so many people keep their rooms entirely too warm in winter. This not only widens the gap between indoor and outdoor temperatures, but may be extremely irritating to the delicate membranes of the nose and throat. Most authorities consider an indoor temperature of about 68 degrees Fahrenheit satisfactory.

Is Your Child Lazy? We often hear mothers complain that their children are lazy in cold weather... and they seem to have less pep and energy than in other seasons. If by that they mean that their children are less active, it may be that this can be attributed in part to the bleak, shorter days that do not always invite outdoor play. But sometimes a child displays such a reduction in his activities as to appear indolent. Then the mother must seek the physical or emotional factors that may be responsible. For true laziness suggests a body that is not functioning normally.

Quite possibly the child's diet is not meeting his bodily requirements. An undernourished child usually tires easily and is disinclined to exert himself. The food may be adequate as to quantity, but not as to quality. For example, a diet that is too highly concentrated, contains too little bulk or cellulose, may cause a tendency to faulty elimination.

Guard Against Frostbite. Over-exposure must be avoided, particularly in cold, damp weather. For under these conditions, doctors warn, there is always a danger of frostbite. They say that whenever the temperature falls below 8 degrees Fahrenheit, children should not be permitted to play outdoors. If they do, the cold may act upon the tissues so that part of the body is deprived of its blood supply. This is most likely to occur in the fingers, toes, nose or ears which thereupon become frozen. The combination of wind and low temperature is especially dangerous and frostbite frequently occurs at temperatures up to 14

## PATTERN DEPARTMENT

HERE'S a practical, slenderizing dress that large women will thoroughly enjoy for their busiest days of housework. And a trim little bolero frock that's gay and fresh as a spring morning, just the thing for shopping, business and general wear. They are so easy to make that even beginners will enjoy working with these easy designs—each of which includes a step-by-step sew chart.

Comfortable House Dress. This dress is so easy to make that you'll turn out half a dozen of it in practically no time; it's a diagram design that you can complete in a few hours. And it's so easy to work in that you won't be satisfied with less than half a dozen. Wide armholes, a darted waistline that looks slim, a skirt with sufficient width, all assure freedom of action. It's easy to

put on, too, as well as to iron, because it buttons down the front. Percale, calico and gingham are good materials for this.

Tailored Bolero Dress. Even without the sleeveless bolero, this dress is a charming style for runabout and street wear. The darted waistline makes you look slim and supple. A scalloped closing, edged with braid or binding, and puff sleeves narrowed into the arm by shirring, complete the effect of youthful charm. Make this right now of flat crepe, silk print or thin wool. Then repeat it later in summer cottons; it's a design that you'll use many, many times.

The Patterns. No. 1615 is designed for sizes 34, 36, 38, 40, 42, 44, 46, 48 and 50. Size 36 requires 4 1/2 yards of 35-inch material, with 1/2 yard for cuffs in contrast. No. 1674 is designed for sizes 12, 14, 16, 18, 20 and 40. Size 14 requires 5 1/2 yards of 39-inch material, with 3/4 yards of braid to trim.

This, in turn, is frequently responsible for lassitude. The remedy is often a simple dietary change—the addition of a salad to the daily diet; or possibly the use of stewed dried fruits in addition to a fresh fruit or fruit juice daily. Of course, the child should also have two servings of vegetables besides potatoes, one of which should be of the green leafy variety. Also a quart of milk daily; breads and cereals, at least half of which may preferably be the whole grain variety; an egg daily or at least three or four weekly; one serving of meat, fish or chicken, and another serving of a protein food, such as cheese. Some form of vitamin D should be included in the diet of young children, especially during the winter months. It is also most important that children follow a daily routine that includes plenty of time for sleep. And for younger children a daytime nap is usually advised.

### Children Need Healthy Mothers

Mothers must give attention to the children's health. But let them give some consideration to their own. The tired, nervous mother is very apt to transfer some of her own fatigue and nervousness to her child. So in arranging your child's rest periods and diet, in looking after proper habits of elimination, make sure that Mother, too... and better still every member of the family... follows this same sound health program.

**New Easy-to-Sew and Keep-Cool-In Patterns**

AS YOU see from the diagram, the pretty daytime dress (1754) consists of just two pieces to sew together. Then make the easy darts at the neckline and waistline, so that your dress will be slim and softly full over the bosom, edge the sleeves and neckline with lace or ruching—and there you are! Anybody can do it, and it's so attractive and comfort-

able. Linen, gingham, batiste and lawn are nice materials for this.

**Cool, Comely Jacket Frock.**  
If you're looking for an extremely smart and pleasantly youthful jacket ensemble in women's sizes, 1761 is the pattern for you. Gatherers make the bodice just full enough, and the paneled skirt, cut to a high waistline, is beautifully slenderizing. The smart jacket is the most flattering length—certainly to make your hips look slim. Chiffon, georgette, linen or pure dye silk print are pliant fabrics in which this design looks particularly well.

**The Patterns.**  
No. 1754 is designed for sizes 32, 34, 36, 38, 40, 42, 44, and 46. Size 34 requires 3 yards of 35-inch fabric and 2 1/2 yards of lace or ruching.  
No. 1761 is designed for sizes 34, 36, 38, 40, 42, 44, 46 and 48. Size 36 requires 6 1/2 yards of 39-inch fabric with nap for the ensemble and short-sleeved dress. With long-sleeved dress 7 1/2 yards.

**HOT WEATHER BILIOUSNESS**

Have you noticed that in hot weather your digestion and elimination seem to become torpid or lazy? Your food sours, forms gas, causes belching, heartburn, and a feeling of restlessness and irritability. Your tongue may be coated, your complexion bilious, and your bowel action sluggish or insufficient. These are some of the symptoms of biliousness or so-called "Torpid Liver," so prevalent in hot climates. They call for calomel, or better still, Calotabs, the nauseless calomel compound tablets that make calomel-taking a pleasure. Calotabs give you the effects of calomel and salts combined, helping Nature to expel the sour, stagnant bile and washing it out of the system. One or two Calotabs at bedtime with a glass of water—that's all. Next morning your system feels clean and refreshed, your head is clear, your spirit bright, and you are feeling fine with a hearty appetite for breakfast. Eat what you wish and go about your work or pleasure. Genuine Calotabs are sold only in checker-board (black and white) packages bearing the trade mark "Calotabs." Refuse imitations. Trial package only ten cents; family package twenty-five cents, at your dealer's (Adv.)

**STRAWBERRY-WHIPPED-CREAM ICE**  
See Recipe Below.

**Cold, Frosty and Delicious**

Do you remember how, as a child, a party just wasn't a party unless you had ice cream? Do such childhood memories even now create little appetite longings for that frosty, flavorsome dish—longings that send you hurrying to the kitchen to make up a batch of your own favorite frozen dessert?

Homemade ice creams and sherbets are more popular than ever now that efficient modern ice cream freezers make quick work of their preparation. (You can freeze smooth, velvety sherbets and ice cream in 5 to 10 minutes flat!) And when the advent of torrid weather calls for something special to encourage appetites made indifferent by the onslaught of heat waves, these delicious treats come into their own!

Here are some simple hints on making freezer ice creams with a collection of brand new recipes for cool, refreshing, frozen desserts—recipes which I've tested in my own kitchen and found to be as practical as they are appealing:

**Hints on Making Ice Cream Freezer Ice Cream.**

1. Follow directions in the recipe.
2. Scald freezing container, dasher and cover before using.
3. Crush or crack the ice finely.
4. Fill freezing container only 3/4 full of ice cream mixture, to allow for expansion.
5. Cover tightly.
6. Adjust the dasher so that the handle turns easily and smoothly.
7. Use three parts crushed ice to one part rock salt, arranging in alternate layers.
8. Turn the crank slowly and steadily until turning becomes difficult.
9. When the mixture is frozen (5 to 10 minutes, with a modern ice cream freezer), wipe around the top of the container with a cloth, and remove cover carefully, so that no ice or salt falls into the mixture.
10. Remove the dasher, and pack down the cream with a spoon.
11. Replace the cover, and drain off the water from the freezer.
12. Repack with ice and salt. Cover with burlap bag or heavy paper, and allow to "ripen" for about an hour before serving.

**Peppermint Candy Ice Cream.**

1/2 pound peppermint stick candy  
1 quart thin cream  
Break the stick candy into pieces. Pour the cream over the candy and place in the refrigerator over night. Then pour the mixture into the freezing well of an ice cream freezer, pack with three parts crushed ice to one part rock salt, and freeze.

**Strawberry or Raspberry Preserves Ice Cream.**

(Serves 6-8)  
1 pint coffee cream  
1/4 teaspoon salt  
1 cup strawberry or raspberry preserves  
Combine all the ingredients and pour the mixture into the freezing container of a modern ice cream freezer. Assemble the freezer and cover. Pack with ice and salt, using three parts crushed ice to one part rock salt. Freeze.

**Buttermilk Ice Cream.**

(Makes about 1 1/2 quarts)  
3 cups buttermilk  
1 cup crushed pineapple  
3/4 cup sugar  
3 tablespoons lemon juice  
1 egg white (stiffly beaten)  
Combine the buttermilk, pineapple, sugar and lemon juice. Fold

in the stiffly beaten egg white, and pour into freezing container of ice cream freezer. Assemble the freezer and cover. Pack with a mixture of three parts crushed ice and one part rock salt. Freeze.

**Cream-Less Ice Cream.**

(Makes 2 quarts)  
3/4 cup sugar  
4 tablespoons flour  
1 quart milk (scalded)  
2 eggs (beaten separately)  
2 teaspoons vanilla extract  
1/4 teaspoon salt  
Combine sugar and flour and blend with scalded milk; then cook over low flame, stirring constantly, until mixture thickens. Remove from flame and pour three tablespoons of the mixture over beaten egg yolks. Blend thoroughly, then add to custard mixture, together with salt and vanilla extract. Chill. Pour mixture into freezing container of modern ice cream freezer. Pour the stiffly beaten egg whites over and then assemble the freezer and cover. Pack with mixture of three parts crushed ice and one part rock salt. Freeze.

**Strawberry Whipped Cream Ice.**

(Serves 6)  
1 quart strawberries  
2 cups sugar  
1/4 cup lemon juice  
1 pint cold water  
1 cup whipped cream sweetened with 1 tablespoon confectioners' sugar  
Mash the berries, add the sugar and lemon juice, and let stand for about an hour. Add the water, and pour the mixture into the freezing container of an ice cream freezer. Assemble the freezer and cover. Pack with a mixture of three parts crushed ice and one part rock salt. Turn the crank slowly and steadily until the mixture thickens (about five minutes). Carefully remove the cover and the dasher, fill the hollow with sweetened whipped cream, cover with wax paper, replace the cover and repack with ice and salt. Let stand for about three hours before serving.

**Lemon Cream Sherbet.**

(Makes about 2 quarts)  
3/4 cup lemon rind (grated)  
1 cup cold water  
1 cup lemon juice  
4 cups sugar  
2 eggs (beaten)  
5 cups milk  
2 cups heavy cream  
Put the freshly grated lemon rind in a saucpan with the cold water. Bring to a boil and strain. To the liquid add the lemon juice and the sugar. Stir well. Beat eggs and to them add the milk and cream. Assemble the freezer and pack with ice and salt. When the freezer is ready, combine the two mixtures for the ice cream, pouring the fruit mixture slowly into the milk and cream. Stir quickly, pour into the freezing container, cover and freeze.

# METHODIST MISSIONARY SOCIETY

OFFERING

## Womack Burial Insurance

"A Consolation to the Living and a Perfect Memorial for the Dead"

We are striving to create GOODWILL and fellowship among the living and to see that upon the death of a member, they will be insured of a Christian-like burial. It is therefore in this spirit that we join and associate ourselves together so that the loved ones left behind will never feel that their departed one did not receive a Christian burial in keeping with the tradition of mankind.

Not everyone who wants to can purchase life insurance, but EVERYONE can purchase Womack Burial Insurance. Many policies are rejected because of physical impairments. Many have waited too long to apply, but unless you are over 84 years old you can enjoy the benefits of Womack Burial Insurance.

This policy provides a complete funeral service for every member of your family from 1 to 85 years of age. It further provides for FREE AMBULANCE AND INVALID COACH SERVICE to and from the hospital of your choice DURING ANY FORM OF ILLNESS OR SICKNESS.

It is easy to own! No medical examination is required, only a correct statement of age. Our rates are so reasonable and yet cover any arising emergency that we can be of service, so why delay to phone 94 or write for a member of the missionary society to call and explain our plan to you.

## Why

Have the communities surrounding and including Lelia Lake and Hedley favored so strong our plan of insurance? Because it offers benefits that have never been introduced before and such a complete funeral service at a nominal cost.

The ladies of the missionary society will appreciate your good will toward them in this new project. The Bible favors this institution: 1 Timothy 5:8 says, "but if any provide not for his own, and specially those of his own house, he hath denied the faith, and is worse than an infidel." Therefore we dedicate this institution to help the ladies to further carry on their work. When you buy Womack burial insurance you not only get the highest protection offered, but you help to carry on the Lord's work. Why not secure your protection before it is too late--death is certain while life is uncertain--yet when the doctor says, "they must go to a hospital at once," you have the consolation that you can secure an easy traveling ambulance at no cost and one that will be fully equipped to meet all cold weather conditions that will soon be facing us.
