## 80 Get Food Poisoning In School Lunch Room

Nearly 80 students and teachers of the Hedley schools were seriously ill Tuesday afternoon, a few hours after eating lunch at the school lunch room, as a result of food poisoning. Samples of food from the lunch room were being tested Wednesday to determine the cause of the poisoning.

The victims were rushed to Clarendon and Memphis hospitals in ambulances and private cars for emergency treatment, and all were reported much better Wednesday. Beds were made for many in the Cooper Hotel, Security State Bank, and the office of Dr. D. H. Cox.

Doctors treating the patients here included Dr. Keith Lewis, Dr. Laura Lowell and Dr. Gordon Stewart, all of Clarendon, and Dr. D. H. Cox.

### METHODIST CHURCH

Due to the Baccalaureate Sermon at the school at 12 o'clock Sunday the Methodist church will not have the morning worship service May 1 as pastor urge that you attend Sunday school and then go to the School for the Baccalaureate Sermon. He will have the regular service Sunday night. Let us make a special effort to be present.

C. R. LeMond, pastor

### Excerpts from Maximum Price Regulation Order

All personal services not rendered in connection with a commodity (such as beauty and barber shops) are excluded from the OPA's Maximum Price Regulation order.

Among services specifically excluded from the OPA's Maximum Price Regulation are professional advertising, insurance, entertainment, transportation and barber shop.

Local retailers must mark the maximum price, i. e., the highest price charged in March, 1942, on cost of living commodities offered for sale on or after May 18.

Local retailers must file a list of their maximum prices on cost of living commodities with the nearest Price and Rationing board of the OPA on or before June 1, 1942. Ceiling prices go into effect May 18.

Every person who owns or acquires one or more retail stores must register each of these stores with the Office of Price Administration and receive a certificate of registration. A regulation will be issued by OPA prescribing the manner, time and place for registration.

Every retailer automatically becomes licensed by the OPA under the Price Control Act on May 18, 1942.

Both civil and criminal penalties may be invoked against any one who violates the Price Control Law.

Procedures for seeking adjustment or amendments will be provided retailers, wholesalers and manufacturers under the Price Control Law.

A retailer may ask for adjustment in his ceiling price where he is suffering substantial hardship from the fact that his price has been frozen at a level below that of his competition.

Willie Thomas of Fort Hill visited here last week end.

## Mother-Daughter Banquet

The Mother-Daughter banquet was held at the Methodist church Tuesday evening at 8:45. There were between 75 and 80 people present for the banquet. Many more would have been present had it not been for the sickness of so many children. Sale of tickets closed early Tuesday, due to the fact that there was more demands than the church could accommodate. There was a nice program rendered, however several who were to have been on program were unable to attend due to sickness. Men and boys of the church served and cleaned up following the banquet. Several of the ladies assisted after a number of those who had planned to help were kept from helping on account of the sickness of school children and teacher.

Mrs. Ruth Duncan received recognition as the oldest mother present and Mrs. W. H. Jones received the same recognition as the oldest daughter. Mrs. Blaine Doherty and daughter received honors as the youngest daughter and mother present. Those present enjoyed the banquet. We feel sure that it will be made an annual affair, and of course we hope that next time there will be no wholesale sickness to mar the enjoyment of the occasion. The ladies appreciate this splendid response given to this enterprise. May the appreciation due mother continue throughout the year.

For Sale cheap—some old hay.  
Mrs. J. C. Hill

### Tire Rationing

For the month of May, Donley County has been issued four passenger car tires and ten tubes and 17 passenger car retreads. They were also issued 32 tires for trucks and tractors, 40 tubes and 48 retreads for trucks.

If a person issued a certificate decides he does not want the tires it is very important that this certificate be returned to the county office within thirty days.

Persons guilty of abuse or negligence in care of their tires may be denied certificates even though they are otherwise eligible. We are asking all who have received tires to conserve them as much as possible as our quotas are getting smaller every month.

### Board Thanks Registrars

To all persons helping with the registration of sugar rationing:

We, the Donley County Rationing Board, wish to take this opportunity to express our appreciation to you for your wonderful cooperation and hard work in the signing of consumers throughout Donley County for the Sugar Rationing program. We wish to also emphasize and congratulate you on the accuracy of the execution of forms and issuance of War Ration Books.

Donley Co. Rationing Board

### Teachers Re-elected

All teachers of the Hedley school faculty have been re-elected for the 1942-43 term. We understand that all have accepted except Miss Edythe Shearer.

Winifred Doherty and family spent last week end in Wichita Falls.

WEEKLY NEWS ANALYSIS

Corregidor and Other Philippine Forts Fall After Constant Pounding by Japs; Eastern Supply Routes Safeguarded By Allied Occupation of Madagascar

(EDITOR'S NOTE—When opinions are expressed in these columns, they are those of the news analyst and not necessarily of this newspaper.)

To David Fairfax Oyster, 18, of Chevy Chase, Md., went the honor of being the first (and youngest) high school cadet accepted in the navy's aviation program.

CORREGIDOR: Chapter Ends

Even as the first British Commandos were landing on one important island (See Column Two—Madagascar: A Coup), American troops were engaged in their last stand for the Philippine island fortress, Corregidor, in Manila bay.

For almost a month since the fighting had ended on Bataan, American forces commanded by Lieut. Gen. Jonathan M. Wainwright had been holding this fortified rock against a terrific air and artillery pounding by the Japs...

The Jap's final assault ended after about two days of constant hammering from big guns and aerial bombs. When the first Jap landings on the island itself were reported, military experts in Washington could see that the end was near.

It was from Gen. Douglas MacArthur's headquarters in Melbourne, Australia, that the blunt announcement finally came: "General Wainwright has surrendered Corregidor and other fortified islands in Manila harbor."

Then from Washington, the war department reported that it had received a message from Corregidor that resistance of our troops has been overcome.

AUSTRALIA: A Jap Headache

For over a month the United Nations had been letting the world know, with Japan included, that their strength in Australia was assuming increased proportions.

Evidence of this increased strength has been indicated by the news dispatches of hard-fought air battles off the coasts of this important outpost.

This activity added impetus to the reasoning projected by military strategists to the effect that Japan was concentrating naval forces preparatory to a flank attack on U. S. communications in the South Pacific.

Alarmed by this news, Japan's opening moves were seen coming from the Marshall Islands either through the Gilbert and Ellice Islands or through the Solomon Islands and the New Hebrides.

WAR LABOR SUPPLY: Reaches High Peak

Chairman Paul V. McNutt of the War Manpower Commission has estimated that the number of men employed in war work by the end of 1942 may reach 17,500,000, compared with 1,500,000 at the beginning of 1941.

McNutt said that although labor, like materials, must be re-directed for war production purposes, no draft or regimentation of workers is contemplated.

MADAGASCAR: A Coup

When British troops landed on the French island of Madagascar to forestall an expected coup by the Japanese the United States state department was not long in announcing that this country was in sympathy with the move.

British sources explained that the move was made after the Laval French government in Vichy had played host to visiting Japanese officials en route to Berlin.

Retaliatory action by the French was to be considered as an act of aggression against the entire group of the United Nations, according to the U. S. state department and this country, with Britain pledged to return the strategic island to France after the war.

RUSSIAN FRONT: A Plege

If the Russian soldier can fulfill his pledge to Josef Stalin, 1942 will see the final defeat of Adolf Hitler's military might.

Meanwhile other Russian dispatches told of a strong drive by Marshal Timoshenko's Red army of

Premier Josef Stalin and Marshal Timoshenko.

the Ukraine, which cut deep into the Nazi position in the Donets industrial basin.

Strong opposition to the war department's plan to lower the draft age to 18 or 19 was seen in congress as Louis B. Hershey, national selective service director, instructed state draft directors to include men of the 20 to 21 and 36 to 44 groups in the June calls.

At present the army and navy both are accepting voluntary enlistments of 18 and 19-year-old youths.

An alternate plan was suggested by Sen. Claude Pepper of Florida. This would call for the pre-draft military training for those less than 20 years old.

However, Paul V. McNutt, chairman of the War Manpower Commission, stated that no draft or regimentation of workers is contemplated.

JUGOSLAVIA: Harassing Hitler

Out of Istanbul, Turkey, came a report that the Nazis were being forced to send additional large numbers of troops into Yugoslavia to quell the general attack by Gen. Draja Mihailovitch's Serbian army.

Guerrilla warfare and sabotage have been sweeping the area in increasing degrees since the passing of winter and sending of Nazi forces here on the eve of Germany's spring offensive was good news to the Russians.

NAZI WARSHIPS: Three Cripples

Last February when the three Nazi warships, the battleships Gneisenau and Scharnhorst, and the cruiser Prinz Eugen, made their startling escape from the Nazi-held port of Brest through the English channel, a naval offensive in northern waters to cut the United Nations Arctic supply line to Russia was foreseen.

Now the British admiralty has explained why such action has been lacking. An announcement from this source indicates that the three ships will be out of action for some time.

They were severely damaged, say the British, by torpedo and bombing attacks in their channel flight, and by British mines and submarine action later.

Thus instead of six powerful warships to smash at British and U. S. fleets, the Nazis have only three capable of immediate action.

NON-VIOLENCE: Gandhi's 'Defense'

Mohandas K. Gandhi once more proved his power over India's masses when the All-India Congress party's working committee decided to urge a policy of "non-violent non-co-operation" if their country is invaded by Japan.

The Congress thus returned to the ideas of Gandhi in spite of the more belligerent attitude of Jawaharlal Nehru and other party leaders who have stated that India must fight.

Peace-loving Gandhi has advanced his policy of non-violence to the point of opposing the scorched earth policy.

The British government again took the blame for India's stand. The Congress party's resolution declared that such a policy was necessary.

Guiding force behind the Royal Air force's devastating bombing raids on Germany is Air Marshal Arthur Travers Harris.

'QUICKIES' OUT?

The practice of granting army and navy "quickie commissions" to unqualified civilians was condemned by Rep. Charles I. Faddis of Pennsylvania, chairman of a house subcommittee on army matters.

At the request of Faddis, who declared that congress must stop such action, the house military committee had written into the army pay bill an amendment requiring that future commissions be granted only to graduates of officers' training schools, National Guard and ROTC officers, or those who completed military courses at approved schools.

He stated that "Too many of these commissions are being issued. It may be true that in certain cases a man from civilian life is needed for a commissioned post, but there is no reason to commission a thousand of them."

FOUR DESTROYERS:

A new world's record was established at Kearney, N. J., when four destroyers slid down the ways in a mass launching which Gov. Charles Edison of New Jersey described as "the equivalent of a splendid naval victory."

The destroyers were the U. S. S. Fletcher, the U. S. S. Radford, the U. S. S. Quick and the U. S. S. Merivine. The exceedingly brief time in which they were constructed plus their condition (90 per cent complete) were the factors responsible for the world's record.

MISCELLANY:

Chicago: Uncle Sam's wartime call for more food will be answered by a 17,081,000-acre increase in the area planted to 14 major farm crops this spring, according to a statement of the Middle West Soil Improvement committee.

London: Seventy Czechs, taken to Germany for forced labor, were reported shot after a strike in the plant where they were working.

Vichy: The execution of 65 French hostages in reprisal for the assassination of two Nazi soldiers was announced together with the sabotage of two more German troop trains in the occupied zone.

Salt Lake City: Seventeen persons were killed when a United Air Lines Mainliner plowed into a mountain peak while circling for a midnight landing during a wind and sleet storm.

Star Dust STAGE-SCREEN-RADIO advertisement with decorative border.

By VIRGINIA VALE

WARNER Brothers' "Heroes Without Uniforms," a story of the American Merchant Marine, will be the first of a group of films telling us things that the government wants us to know.

"Parachute Nurse" has what might be termed an All-Starlet cast, virtually an all-feminine one. When Charles Barton, the director, counted noses he found Marguerite Chapman, Shirley Patterson, Alma Carroll, and eight other beauty-contest winners.

Now it's Priscilla Lane who's having to learn card tricks. Jan Grippio, who tutored Veronica Lake for her

PRISCILLA LANE

sleight-of-hand role in "This Gun for Hire" is doing the same for Priscilla, for "Silver Queen," in which she plays opposite George Brent.

Three of the cast of Columbia's "The Invaders" have signed rather unusual contracts. Glynis Johns, Eric Portman and Anton Walbrook have agreed to appear in Hollywood within three months after the war is ended; won't leave England till then.

When you see Paramount's "Wake Island" you'll see a setting that's absolutely authentic. The contracting firm which made the actual defense installations for the Wake Island marine garrison before the Japanese attack is in charge of construction at the Salton Sea location for the picture.

"Crossroads," the Hedy Lamarr-William Powell picture, brought up a slight dilemma at Metro. Powell, Basil Rathbone and Felix Bressart all had mustaches, and all were loath to part with them—but three was just too many for one film.

That's Ginger Rogers' mother whom you'll see as Ginger Rogers' mother in "The Major and the Minor"; she'll be making her screen debut. She had been a drama editor and a dramatic coach, she's been in charge of the younger players at RKO and this past year she's been installing a dairy at Ginger's 1,100-acre ranch in Oregon—but never before has she been an actress.

The famous musicians of the future may find themselves forming a "Those Who Were Helped by Major Boves" association. For instance, take the Aquaviva brothers, Anthony, 17, a clarinetist, recently on the Major's program, said that if he won a prize he'd help his younger brother, Nicholas, to get the kind of tutoring he was getting. Anthony won \$100, second prize. The Major suggested that he have Nicholas audition for the program. Nicholas, 14, won first prize. So Major Boves, with the help of everybody who voted for the lads, helped them along.

ODDS AND ENDS—Returning to the lot where she was an important star, Evelyn Brent reported to Paramount to play a role in "Freckling Crew"; Richard Arlen, Jean Parker and Chester Morris co-star in it... Harry Sherman may reprise several famous western stars in "Backlot Empire"—William S. Hart, Hoot Gibson, William Farnum, Jack Holt and Richard Dix... Vivian Leigh is being sought for the lead in "Frenchman's Creek"... William Warren is in London during an air raid in his new "Lone Wolf" comedy thriller; last time he was actually there was during a seppelin raid during the last war.

J. Fuller Pep

"Fuller," says Aunt Netsy, the other day. "Folks are like wine. Some sour with age, and some, like you, get better."

Kellogg's Pep is extra-rich in the two most often short in ordinary meals—vitamins B1 and D1. Mighty fine-tastin', too. Try it!

If You Bake at Home... We have prepared, and will send absolutely free to you a yeast recipe book full of such grand recipes as Oven Scones, Cheese Puffs, Honey Pecan Buns, Coffee Cakes and Rolls.

**Assembly**

Rev Howard Smith from the  
 Nazarene Church conducted our  
 devotional for Friday, May 8  
 His subject was The Final Achiev-  
 ment He first read a portion of  
 Paul's letter to Timothy in which  
 Paul spoke of his departure.  
 Paul said he had fought a good  
 good fight and had kept the faith.  
 Brother Smith said this was ap-  
 propriate now because school is  
 about out and he wondered if we  
 had fought a good fight He de-  
 veloped the point that a stum-  
 bling block can be a stepping stone  
 to success He closed his re-  
 marks with a prayer.

The eighth grade had charge  
 of the Color ceremony with Jack  
 Snowden, Sam Owens, Bucky  
 Everett, Gene Laumer, K. L.  
 Beach and Johnnie Everett tak-  
 ing part.

The Juniors had charge of the  
 main program under the direc-  
 tion of Mrs Pitcock with Zebbie  
 Lane acting as master of cere-  
 monies First on the program was  
 a play in the form of a book re-  
 view with Fay Langford, Oona  
 Proffitt, Ila Faye Reid, Tudy Ju-  
 Myers, Joel Plunk, Margie Bur-  
 dine and Albert Martin taking  
 part Then Jo Ann Shaw gave a  
 reading. Zebbie Lane, Paul  
 Disbman, Albert Martin and  
 Wayne Ray concluded our pro-  
 gram with some music After  
 the program the group sang two  
 songs.

Jo Ann Shaw

**Senior Class Play**

The Seniors presented their  
 annual class play on the night of  
 April 28 before a large crowd.  
 The play was a success from every  
 stand point and was through-  
 ly enjoyed by all present. Each  
 member of the cast rendered  
 such a splendid performance  
 that it was difficult to spot the  
 stars The Seniors deserve much  
 credit in this success, for they  
 achieved it in spite of many ob-  
 stacles What worsening on the  
 play they suffered the loss of  
 both their speaker and their di-  
 rector. Besides that epidemics  
 of both measles and mumps and  
 extremely rainy weather inter-  
 fered with their progress. Much  
 praise goes to those who assisted  
 the class, namely Mr. Buckner,  
 Mrs Snowden, Mrs Payne, and  
 the room mother, Mrs. Bridges,  
 as well as to each member of the  
 Senior class.

**First Signal Officer**

IN THE post library at Fort Monmouth, N. J., is a simple velvet-covered box with an engraved plate which reads: "Compass and chain worn by Brigadier General Albert J. Myer, First Signal Officer, U. S. Army. Presented by his daughter, Miss Gertrude Myer, through Major General Campbell B. Hodges, by the Chief Signal Officer to the Commanding General, Fort Monmouth, March 3, 1942." This latest addition to the collection of early signal corps equipment at Fort Monmouth is a memorial to the man whose foresight and pioneering with flags and torches, during and after the Civil war, blazed the way for the army's streamlined signal communication systems.

When 20-year-old Albert J. Myer was graduated from Hobart college in his native state of New York in 1847, his graduation thesis was titled "A Sign Language for Deaf Mutes" and it contained the germ of the visual signaling system which he was to devise later. After his graduation from Buffalo medical college, he practiced for three years. Then, in 1854, he was commissioned assistant surgeon in the army and ordered to New Mexico.

In the dry climate of the Southwest, where the clearness of the air made it possible to see objects at a great distance, Myer became enthusiastic over the possibilities of visual signaling and devoted his leisure hours to developing a simple system. In 1858 the war department recognized the work of the young doctor by appointing a board to examine "the principles and plans of the signaling, mode of use in the field and course to be pursued in introducing to the army." The next year John B. Floyd, President

Buchanan's secretary of war, commended his system to congress which appropriated \$2,000 for the "manufacture or purchase of apparatus and equipment for field signaling." It also authorized the appointment of one signal officer on the staff of the army with the rank and pay of a major of cavalry and on June 27, 1860, Assistant Surgeon Myer became Major Myer.

The army's first signal officer soon had an opportunity to demonstrate the value of his system. He was detailed to duty with Gen. E. R. S. Canby's expedition against the hostile Navajos in the Southwest, where an extensive test of his new system, using both flag and torch, proved a distinct success. The result was the opening of a signal school at Fortress Monroe, Va., under his direction and at the outbreak of the War Between the States, Myer was called upon to organize signal communications in the Army of the Potomac. Immediately after the battle of Bull Run, he submitted a plan for a separate signal corps but it was not until March 3, 1863, that this was done.

Within a year he was no longer Major Myer but Colonel Myer, having been brevetted lieutenant-colonel for gallantry at the battle of Hanover Court House and colonel for similar services at Malvern Hill. By the time the war ended he had been brevetted brigadier general.

After the war Colonel Myer, who had been relieved of duty as chief signal officer following a disagreement with Secretary Stanton of the war department, was reappointed to that post by President Johnson. He succeeded in having West Point include signaling as a permanent part of the cadet course and the naval academy at Annapolis also adopted his methods. Myer was promoted brigadier-general on June 16, 1880, and died in Buffalo, N. Y., two months later, on August 24, while still on active duty in the service he had organized.

Myer has another distinction which entitles him to the grateful remembrance of his fellow-Americans—that of "Father of the Weather Bureau." In 1869 he proposed that the peacetime activities of the signal corps be extended to include sending out storm warnings. He influenced congress to establish the United States weather bureau under the direction of the signal corps and during its first 10 years it was supervised by "Old Probabilities," as Myer became familiarly known all over the United States.

**PATTERNS SEWING CIRCLE**

1570-B

**Picturesque Play Set.**

DON'T you find it fun to make your daughter's play clothes in cunning styles and pretty cottons? In Pattern No. 1570-B you'll find a play set for girls from 1 to 6 years old which has many practical features.

First comes a frock—delightfully cool with scalloped cap sleeves, a pert pocket, braid and button trimming and a button-down-the-back opening which makes it easy to get on and off.

Second, there is an adorable bonnet to match, the crown of which buttons in place. The whole thing opens flat for ironing. Third is a pair of overalls—so sensible for play and so healthy, too, because in warm weather no top is needed and the wearer is exposed to a grand sun tan.

Barbara Bell Pattern No. 1570-B is designed for 1, 2, 3, 4, 5 and 6 year sizes. Size 2 requires 3 1/2 yards 32 or 33-inch material for ensemble, 3 yards bias braid for frock and bonnet. Send your order to:

**ASK ME ANOTHER?** A quiz with answers offering information on various subjects

**The Questions**

1. Did Confucius live before, during, or after the time of Christ?
2. Which is the oldest business house in the United States?
3. In the development of man what characterized the neolithic age?
4. Which of the following does not touch Canadian land: Vermont, Wisconsin, Idaho?
5. What is a fancy name for magic?
6. What does a telegrapher mean by the number 73?
7. How did the fast-moving little reconnaissance cars of the army come to be known as jeeps?
8. How is the change from centigrade temperature into Fahrenheit made?

**The Answers**

1. Before—551-478 B. C.
2. The Perot Malting Co. in Philadelphia, established in 1687.
3. The use of polished stone implements.
4. Wisconsin.

**Go Slow for Safety**  
The little man ordered his meal and waited patiently for it to be served. Half-way through the second course the waiter came quietly to his table.

"Excuse me, sir," he whispered, "but I advise you not to hurry with your meal."

"Good gracious!" exclaimed the little man. "Why shouldn't I?"

"Well, sir," said the waiter, "you're sitting on a prize-fighter's hat, but he doesn't know it yet."

**Bachelor fireman's nightmare:** He dreamt the fire brigade came to his wedding—but there was no escape.

**The Feel of It**  
"Aren't people funny?"  
"Yes. If you tell a man there are 270,678,534,341 stars in the universe he'll believe you, but if a sign says 'Fresh Paint' that same man has to make a personal investigation."

**Not a Chance**  
After getting married to his former secretary, he remarked: "Well, my dear, I suppose I must get someone to take your place in the office."

"I've been thinking of that," replied the bride; "my cousin is just leaving school."

"What's her name?"

"John Henry Buggs," said the bride, sweetly.

**A CLEAN UP**

**Ethel—**We're going to give the bride-to-be a shower.  
**Johnny—**Count man. I'll bring the soap.

**Well in Hand**  
"Oh, my husband's changed since our marriage. He eats out of my hand now."  
"Really? Well, it saves a lot of washing up."

**Pay or Pay?**  
The offices of the inspector of taxes and the collector of taxes were in the same building.  
A woman who got into the elevator said to the elevator boy, "Taxes."  
"Collector or inspector?" asked the boy.  
"Taxes, please," replied the woman.  
"Now, look here, madam," said the elevator boy, "do you want to pay or just have an argument?"

Once there was a man who thought he'd get ahead going to parties. He got a head.

**Beauty in Harmony**  
Beauty does not lie in the face. It lies in the harmony between man and his industry. — Jean Francois Millet.

**PREPAREDNESS** by the AMERICAN RED CROSS

Two million volunteer Red Cross workers—a militant army of mercy.

GIVING a pint of blood for the army and navy is a new form of patriotism in which thousands of loyal Americans are now participating.

This blood, processed into life-saving plasma for emergency transfusions, is collected from volunteer blood donors at 18 Red Cross Blood Donor centers.

The program was launched in February, 1941, following a request by the surgeons general of the army and navy that the Red Cross provide 15,000 pints of blood to be processed into dried plasma. This program has now been expanded at the request of the army and navy to the point where over one million donors will be required. Eighteen centers have been opened, and donations are pouring in at the rate of approximately 60,000 a month.

Giving blood is a simple process, requires but a few minutes time on the part of the donor, and has no after effects. The blood is shipped daily in refrigerated containers to the laboratories, where it is processed into dried plasma, a light, straw colored powder that can be kept indefinitely and transported easily.

Plasma is the liquid part of the blood which remains after the red and white corpuscles have been removed. It does not have to be typed as does blood used in other transfusions. Once it reaches the field of battle it can be returned to liquid form in about three minutes by mixing it with distilled water.

Numerous cases have been reported where plasma saved the lives of American soldiers and sailors suffering from burns and traumatic shock, and Red Cross plasma has been distributed to our armed forces operating in the Atlantic and Pacific war theaters. However, thousands of additional donors are needed to supply the full requirements for the army and navy, and to provide plasma for any civilian emergencies which may result from enemy action in this country.

Red Cross Blood Donor centers are located in New York, Philadelphia, Baltimore, Buffalo, Rochester, N. Y., Indianapolis, Detroit, Pittsburgh, St. Louis, Boston, Milwaukee, Cleveland, San Francisco, Los Angeles, Chicago, Cincinnati, Brooklyn, and Washington, D. C. (Prepared exclusively for WNU.)

**Household Hints**

After use, dry steel wool in sun to prevent its rusting.

Cheese will stay moist longer if the edge is thinly spread with butter before the cheese is placed in the refrigerator.

Clean out cellar and attic to avoid undue fire hazards. Turn the old rags and papers over to organizations conducting defense salvage campaigns.

Celery tops should never be thrown away. They may be used as stock in soup or may be boiled with turnips, carrots, or cauliflower. Remove them from the pan before serving. A new flavor will be added to vegetable stand-bys.

Unwrap soap before storing. The soap dries out, lasts longer when exposed to the air several days before use.

### Notice to Farmers

There seems to be quite a bit of confusion as to how much cotton serving acres or Government Land will be on each farm and why they have not been notified by the county office

In November and December, Community Committeemen contacted farmers to sign up 1943 Farm Program Plan Sheet. This sheet contains, as well as a commodity report for defense purposes the cotton allotment in Section I (Erosion resisting or soil conserving acres (Government Land) in Section IV near center of page, and Bell Building Allowance in lower right corner. These were the official notices of allotments but as some farmers seem to have misplaced these forms, I will try to explain how to arrive at the Government acres.

This year the Government land is determined on a percentage basis for all farms in the county. No matter how small or how large 20% of the total cropland must be devoted to a non-depleting crop or land use throughout the year, if the operator expects to receive payment on the cotton allotment. In the amount a producer fails to plant this 20% the same percent will be deducted from his cotton payment.

On any Government land may be planted any of the following crops if used in accordance with the instructions herein stated.

1. Any biennial legume including new seeding (seeding qualifies the crop as gov. land regardless of any other use of the crop). These crops are alfalfa, sweet clover and field peas.
2. Sudan grass and millet used for pasture regardless of height when stock was taken off (Use qualifies these crops as part of gov. land)
3. Any sweet sorghum, sudan, millet, oats, rye or barley, either left on land or plowed under will qualify as gov. land. Barley, rye and oats plowed under early will count 2/3 acreage plowed and replanted to cotton serving crop.

(Sudan, sudan, and peas, etc.)  
4. Summer fallowed acreage in government land if plowed before June 15 and clean tilled throughout the year.

5. Forest tree strips cultivated in government land.

6. The only time idle land in government acres is when new terraces are constructed on them in the 1942 crop year.

7. Sweet sorghums, oats, rye, barley, or millet cut green for hay in gov. acres provided a strip 1 rod wide (6 or 8 rows) left standing between each 5 rod strip (20 or 26 rows) harvested. This regulation applies to all except cases and in this crop the one rod strip may be planted to sudan late cane and left on land or can be cut provided a stubble 12 inches high is left standing.

If you have lost your allotment or farm plan sheets, drop us a card and we will send a sheet with cotton allotment, government acres and bell building allowance.

Walter J. Flynt
