Makes A Bank Useful

Ten to one there's a certain mechanic who looks after your car when it needs a repair. You have a doctor you swear by, a particular lawyer for your legal problems, a druggist and grocer you patronize regularly. You go to certain people because they possess a 'know how' that enables them to serve you better than anyone else.

It's the same way with a bank, and the reason we believe, why folks come back to us day after day, week after week, and year after year.

WEEKLY NEWS ANALYSIS

Chinese Register New Coastal Gains As Japs Are Diverted Toward Russia: U. S. Air Power Aids British in Egypt; Huge Nazi Losses Mark Soviet Fighting

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.) Released by Western Newspaper Union.

CHINA:

Fighting Back

The Japs learned something more of the Chinese ability to fight back as the defenders of the Hangchow-Nanchang railway front wiped out three weeks of the enemy's gains in a concentrated drive that netted them a 25-mile wedge into Jap lines plus two important towns.

In this fighting in eastern Kiangsi province the Jap was virtually cleared out of the southeast Chekiang coastal area and the Chinese recaptured the two vital ports of Julian and Wenchow.

Taking the Japs by surprise, the Chinese captured several villages along the railway before smashing through to the coast. Continual thinning out of Jap garrisons in the newly occupied regions of Kiangsi and Chekiang provinces helped the Chinese in their victories, according to military experts on the scene.

This thinning out was viewed as being most important for some sources indicated strongly that troops leaving the area were headed for Inner Mongolia. And this was interpreted as meaning that preparation for the long expected Jap invasion of Russia was actually making head-

But the Chinese were intent on keeping their minds on the task at hand-regaining the entire 403-mile Kangchow-Nanchang railway-and refused to be diverted entirely by the movement to Inner Mongolia. The official communiques from Chungking said that attacks all along the line were in full swing and hinted that the Jap positions were far from secure.

EGYPT: Air Warfare

This is Mai, A. F. Kalberger of North Hollywood, Calif., who led the attack of the U. S. army's fourmotored bombers on the Italian fleet in the central and eastern Mediterranean sea recently. It was the first participation by U. S. air forces in that theater of war.

In Egypt Nazi Marshal Rommel's drive for Alexandria and Suez had been slowed down for over two weeks and the British were busily at work keeping his hard-hitting forces off balance.

Then the word began to sift through to the outside world that the U.S. army air forces were also in there pitching-and bombing. For It was announced from Cairo that Maj. Gen. Lewis Brereton had assumed command over these U.S. forces in the Middle East and for some time been directing a series of terrific bombing raids on the chief Axis supply ports of Tobruk and Bengasi.

In driving through to establish himself some 65 miles to the west of Alexandria, Rommel had dangerously extended his supply and communication lines. It was the job of the United Nations to harass such supply and communication activities with all possible fervor. Not only were American planes blasting the Axis forces, but the British had called into action many of their navy planes to fight against the land based enemy.

Meanwhile on the ground British Imperial and Axis land forces battled back and forth for new footholds on the barren wastes near El Alamein. Tanks and truck-borne infantry tangled day in and day out in the non-ending fury of desert warfare that is Egypt in mid-summer,

General Brereton had been in command of American air forces in India and came to the western desert area with large numbers of big four-motored high-altitude bombers. He described these as being more than suitable for action on the Egyptian front because of the cloudless skies. An announcement from his headquarters indicated that the U. bombing units were depending on RAF facilities and ground crews to keep their ships flying. He spoke of splendid "RAF co-operation" and sald that "we also depend on the RAF for intelligence . .

RUSSIAN FRONT: Bloodiest Battles

When Russian troops evacuated Voroshilovgrad, largest city in the Don basin, it was plain that the German drive southeastward along the Donetz river was threatening to join Nazi troops striking near Millerovo along the railway leading to Rostov, 100 miles to the south.

A Soviet communique said that, aside from the loss of Voroshilovgrad, the Russian army still was inflicting heavy blows on the Germans in two other areas. At Voronezh, from where the Nazis were thrusting eastward toward the Volga river, the Russians killed 1,000 more Germans and blasted a path into another town which the Germans had captured in their initial breakthrough. The main Nazi drive south of Millerovo also was slowed up.

The Russians now are defending an east-west line situated north of the Pervozvanovka-Likhaya-Stalingrad railway, which is approximately 75 miles north of Rostov.

A Russian dispatch stated that American and British built tanks as well as planes were bolstering the Red lines in the imperiled south. A second war bulletin said that the Nazis lost 211 planes in the previous week's fighting. Russian losses were placed at 136 planes.

Reports indicate that the battles in the lower Don basin are as bloody as the world has ever known. The extreme southern section was the scene of the most furious fighting, placing Rostov in grave danger.

ALEUTIAN: Blind Man's Buff

For more than a thousand miles through the fog-shrouded waters of the Aleutian islands, a mammoth game of blind man's buff is being played between American air and naval forces and the Japanese invaders who may be preparing a major push against continental North America.

Bad as well as good news concerning the fortunes of this grim game was contained in reports from the Aleutian sector. On the debit side was the navy's announcement that at the same time they landed at Attu and Kiska, the Japs also occupied a third island—Aggatu, 750 miles west and slightly north of the United States base at Dutch Harbor, on Unalaska.

On the credit side was a communique revealing that the landings on the three small islands had cost the Japanese 13 ships sunk or damaged. This total included one heavy cruiser, three destroyers and a troop-laden transport sunk and an aircraft carrier, four cruisers and

three destroyers damaged. The communique disclosed that the Dutch Harbor base was attacked twice on June 3 and 4, instead of once, and that in the second raid an old United States station ship, the Northwestern, which had been beached and converted to use as a barracks, had been destroyed.

SYNTHETIC RUBBER:

The synthetic rubber situation was at least partially clarified when Secretary of Commerce Jesse Jones reported that private industry is producing rubber at the rate of 25,000 tons a year, and that two government plants, with an annual capacity of 30,000 tons, are in production.

Jones indicated that the country will have a production capacity of approximately 100,000 tons by the end of 1942, a capacity of 300,000 tons by August, 1943, and the entire 800,000 tons by the end of 1943.

SELECTIVE SERVICE: Line-Up

Local draft boards were authorized to consider registrants for selection on the basis of a new memorandum released by national headquarters of selective service.

Following is the order in which such registrants will now be called under the new plan: (1) single men with no dependents; (2) single men who do not contribute to the war effort but who have dependents; (3) single men with dependents and who contribute to the war effort; (4) married men who are not engaged in the war effort but who maintain a bona fide family relationship with a wife only; (5) married men who are engaged in the war effort and who maintain a bona fide relationship with a wife only; (6) married men who are not engaged in the war effort and who maintain a bona fide relationship with wife and children or with children only; (7) married men who are engaged in the war effort and who maintain a bona fide family relationship with wife and children or children only.

"In all cases the dependency status must have been acquired prior to December 8, 1941, and at a time when induction was not imminent," the announcement said.

ALIENS:

More Arrests

As the Washington military commission trial of the eight Nazi saboteurs drew to its close the FBI arrested 14 persons in New York and Chicago charging them with acting as contacts and assisting the eight

Formal charges had been filed against six Chicago persons alleged to have aided the saboteur Herbert Haupt. Four others will also be charged with unlawfully and knowingly assisting the Nazis; three with being dangerous alien enemies; and one is being held in custody pending further investigation.

During the saboteur trial it was revealed that they had been surprised by John C. Cullen, 21-yearold coast guardsman, when they landed from a submarine on the coast of Long Island in June. Cullen was on a six-mile coastal patrol at the time. When he discovered them they threatened him and he pretended to accept a bribe but rushed immediatey to his headquarters to spread the alarm.

MAC ARTHUR ON WAR: 'Off the Record'

In an "extremely frank" two-hour off-the-record talk to more than 100 newspaper editors and correspondents, Gen. Douglas MacArthur outlined his views of the entire World war picture and the southwest Pacific area in particular.

The conference was MacArthur's

second since his arrival in Austraia. The first was held March 23. MacArthur answered all questions with surprising freeness after being assured that everything he might say was strictly off the record. As usual, MacArthur used sports terminology in illustrating his points, making reference to prize fighting and baseball in his explanations. He also made frequent references to his experiences in World War I, when he was chief of staff of the 42nd division in France.

BRIEFS:

OFFICIAL - Although congress had several weeks earlier passed joint resolutions of war against Hungary, Rumania and Bulgaria, President Roosevelt has now formally proclaimed a state of war with these Balkan countries.

DISOBEYS-Although he had received orders to change his course, British submarine commander Anthony Miers, continued to trail an Axis convoy into a heavily guarded harbor. He'll get one, of course, eventuallyhe's bound to, because he's the stuff that officers are made of. But when so many men of the motion picture industry are stepping right out as officers at the start, isn't it swell of Gene to begin at the bottom? Reminds me of one movie executive who told me that he had applied for a commission as lieutenant colonel in the army; if he didn't get it, he'd stay out! P.S .-He didn't get it!

You really ought to see "Mrs. Miniver," if only to find out why the world's largest theater, the Radio City Music Hall, booked it for six weeks running, with 772,983 people seeing it during the first five weeks-a figure equalling the population of Boston, Mass.

Five years ago the Maine Development association sent Walt Disney the two young deer who served as models for the hero and heroine of his "Bambi." So a special premiere of "Bambi" was booked for Augusta, Maine, following the first showing of the picture in New York,

Daisy, who won fame in the "Blondie" series, recently whelped five pups, all of which are now the property of Penny Singleton because she has a large ranch. She named them, naturally, for the characters in the pictures. By the way, this is the only film series in which the original actors have worked as a unit throughout - Penny, Arthur Lake, Larry Simms ("Baby Dum-pling"), and Daisy.

Maybe Esther Williams started something when, wanting a souvenir that she could show friends who weren't in the movies, she bought a white satin bathing suit and had it autographed in black waterproof ink by every star on the Metro lot. Incidentally, though she's a swimming star, Esther really swims in "Andy Hardy's Last Fling"-usually Hollywood doesn't let an expert do what he or she is expert at.

The biggest stride of any regional radio network show has been made by "Grand Ole Opry," the Saturday night folk music program heard over NBC. It was the first of the in-person shows to make regular army camp appearances last fall, under the name of "Caravan." Now there are four road units touring the camps. One master of cere-monies has landed a network contract on the new CBS Caravan Hour.

To prove that Uncle Sam uses radio talent to the best advantage, take the story of Detroit's Frank Telford, director of the "This Is Our Enemy" series heard over Mutual Sunday nights. A former script writer for the Detroit board of education, Telford went to Washington without network experience, but with a briefcase full of ideas. Now he's made a niche for himself as a radio executive.

A good way to utilize stale bread is to make crisp rusks to eat with butter and cheese. Break up the bread into fairly equal sizes, dip into a little sweetened milk, and bake in a warm oven until dry and crisp.

To increase the amount of frosting for custards, puddings, etc., without increasing the amount of material used, take the whites of the eggs you saved, beat them as usual and drop the mixture into a saucepan of boiling water. It will instantly rise to the top and will make a large amount of very light white frosting. Spread at once and serve.

Medical officers have long recognized tobacco as an aid to morale among our armed forces. Surveys among the men themselves have shown that tobacco is their favorite gift. If you have a friend or relative in the Army, Navy, Marines, or Coast Guard who smokes a pipe or rolls-hisown, nothing would be more appreciated than a pound of his favorite tobacco. Prince Albert, the world's largest-selling smoking tobacco, in the pound can is recommended by local dealers as an ideal gift for men in the service.-

Give Up "Makeshift" Constipation Remedies!

Why fool with constipation? Why try to combat the trouble after it has already made you miser-

able?
It may well be that your constipation is caused by too little "bulk food" in your diet, for medical science warns that lack of "bulk" is one of the commonest

If yours is this kind of con-stipation, those purges and cathartics can give you, at best, only temporary relief. Eating KELLOGG'S ALL-BRAN regularly, on the other hand, co the cause by supplying the "bulk food" you lack and must have! Enjoy this crisp, crunchy cereal daily, drink plenty of water, and like so many others, you'll "Join the Regulars"! ALL-BRAN is made by Kellogg's in Battle Creek. If your condition is not helped by this simple treatment, see a doctor.

Kidneys Must Work Well-

For You To Feel Well

24 hours every day, 7 days every week, never stopping, the kidneys filter waste matter from the blood.

If more people were aware of how the kidneys must constantly remove surplus fluid, excess acids and other waste matter that cannot stay in the blood without injury to health, there would be better understanding of why the whole system is upset when kidneys fail to function properly.

Burning, scanty or too frequent urination sometimes warns that something is wrong. You may suffer nagging backsche, headaches, dizziness, rhoumatie pains, getting up at nights, swelling.

Why not try Doan's Fille? You will be using a medicine recommended the country over. Doan's stimulate the function of the kidneys and help them to flush out poisonous waste from the blood. They contain nothing harmful, Get Doan's today. Use with confidence. At all drug stores. For You To Feel Well

Summer Salads

Salads with summertime meals form a perfect alliance bringing your family precious pep-giving minerals and vitamins. Vitamins A, B, and C are well represented in crisp celery, golden skinned carrots, rosy cheeked tomatoes, green glowing cucumbers and lettuce. Dress them up with a light liquid salad oil blended with seasonings to bring out the hidden flavoring of the vegetables, and you have a perfect warm weather meal.

* Tossed Garden Salad Wash and drain dry your favorite salad greens-such as lettuce, romaine, watercress or endive; a combination of two or more may be used. Cut or break into pieces and combine with portions of diced celery, cucumber, green pepper, radishes and minced onion. Chill thoroughly. Then place in a salad bowl; add Basic French Dressing and bits of tomato. Toss lightly until well blended. This type of salad may also be served with just an oil and vinegar combination as a dressing.

Basic French Dressing. (Makes ¾ cup) ½ teaspoon salt 1/2 teaspoon sugar ¼ teaspoon paprika Dash white pepper ½ teaspoon dry mustard ½ cup mild salad oil 1/4 cup cider vinegar

Combine first five ingredients in a jar and blend well. Add vinegar, cover and shake; add oil and shake again thoroughly. Just before using, shake again. Or simply mix ingredients together in a bowl and beat with mixer until well blended.

Leftover meats and vegetables served daintily in lettuce cups make tempting main dishes for lunch or supper. Have a hot soup, potato chips, thin bread and butter sandwiches and fresh fruit to serve

with salad. The next three salads are perfect as a main course. Veal Salad, Summer Style.

(Serves 6) 2 cups cold veal, diced 1 cup string beans or celery or both

6 hard-cooked eggs Salt and pepper 4 tablespoons salad oil 11/2 tablespoons vinegar 3 tomatoes Mayonnaise

Lettuce and parsley Chop eggs coarsely, combine with veal, oil, vinegar, salt and pepper. Let stand 30 minutes. Add mayonnaise to moisten. Arrange salad in a mound and garnish.

Jellied Green Pea Salad. (Serves 6) 1 tablespoon gelatin 1/4 cup cold water 34 cup pea liquor

Lynn Says:

Save Washing Time: So many new demands are being made on your time these days, it is wise to make the best possible use of each minute. One way is in how you use your washing machine. For instance, long washing is not necessarily good washing, and it wastes time. Soap undergoes a chemical change after it has been used a little while, suds "break down" and the soil is actually deposited again on the fabric. Then it is practically impossible to get the articles clean. Only individual experimentation can show how short to keep the washing of each load, and yet be thorough. Tests have revealed one woman taking only half the time of another to wash a practically identical washing, yet doing it better.

Twenty-minute soaking hastens washing by loosening soil. Then remove water by wringing the articles into the first washer full of sudsy water of the right tempera-

Garnish bottom with slices of hard cooked egg and cover with a little of the gelatin liquid. Chill in refrigerator until set. Cool remaining liquid until mixture begins to thicken and fold in corned beef, celery and pickle relish. Line sides of loaf pan with sliced eggs and fill with meat mixture. Chill until firm. Unmold on platter and garnish with watercress, lettuce or desired greens. Serve with mayonnaise or any de-

sired dressing. To save sugar, omit dessert and serve a pretty chilled salad with

coffee and wafers as a last course. You can prepare this in the cool morning hours and keep in the refrigerator until just ready to serve.

Frozen Fruit Salad. (Serves 6) 2 three-ounce cakes cream cheese

2 tablespoons cream 1/2 cup mayonnaise 2 tablespoons lemon juice

1/8 teaspoon salt cup orange sections 1/2 ci p seeded and quartered Royal Anne cherries

1/2 cup chopped nutmeats 1/2 cup maraschino cherries, chopped

2 tablespoons ginger, in 1 cup cream, whipped Mix cream cheese and 2 tablespoons cream. Add mayonnaise, lemon juice and salt. Combine orange sections, cherries, and nutmeats, and add to cream cheese mixture. Fold in whipped cream and pour into freezing tray and allow to freeze in electrical refrigerator without stirring. Garnish with orange sections and cherry halves. Have you a particular household or cooking problem on which you would like expert advice?
