WEEKLY NEWS ANALYSIS

FDR Tightens Living Cost Controls; Allies Push All-Tunisia Offensives As Rommel Speeds Retreat Northward; Draftees Status Altered in New Plan

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.) Released by Western Newspaper Union.

ANTI-INFLATION: 'Hold the Line'

President Roosevelt's "hold the line" anti-inflation order served

blunt notice on all special economic groups that competition for higher prices and wages must end, because the resulting conflict would not only result in inflation but "breed disunity when unity is essential." Banning further wage increases

except to correct substandard living conditions virtually freezing employees to their present jobs and extending price controls to all cost-ofliving commodities, the President's order centered a four-pronged attack on inflation. The order provided:

1-No further wage increases beyond the Little Steel formula of 15 per cent over rates on January 1, 1942; 2-Immediate ceilings on all commodities affecting the cost of living; 3-No hiring of new employees by employers, except in accordance with War Manpower commission regulations, to prevent employment of workers at higher pay than they received in previous jobs; 4-Stabilization of rates of common carriers and public utilities.

DRAFT: Classes Reshuffled

As local draft boards speeded the reclassification of registrants, in accordance with new selective service regulations, the fathers of children born before September 14, 1942, found themselves the sole occupants of class 3-A. All other men of draft age were being placed in one of the following classes:

1-A-Subject to immediate induction; 2-A-Deferred because of occupation in activities directly supporting the war effort, or vital to the maintenance of civilian health and welfare; 2-B-Deferred because of occupation in war plants; 2-C or 3-C-Deferred because of essential agricultural work; 3-D-Deferred because their induction would cause extreme hardship to dependants; 4-F-Mentally, morally, or physically unfit for service.

PACIFIC FRONT: Air War Continues

Aerial warfare on the north and east extremities of the Pacific battle front provided for weeks the only activity in this theater.

In the north American army bombers escorted by fighters continued their daily assaults on Jap positions in the Aleutians, bombing Kiska and blasting Attu.

Largest scale action of all occurred near Guadalcanal, where American airmen destroyed 37 out of 98 Jap planes and bombers which lost seven of their own planes in the encounter.

U. S. NAVY:

Billions for Building

Further evidence of the navy's determination to build itself into unmatched global power was seen in President Roosevelt's request of congress for a \$24,551,070,000 appropriation for the fiscal year 1944the largest amount ever sought for the nation's sea-fighting forces.

The President asked for \$6,230, 000,000 for new warships; \$1,830,000,-000 for maintenance and repair of

ADM. ERNEST J. KING ... more battle-wagons for him.

ships and \$3,476,000,000 for guns, ammunition and armament. While only \$1,640,000,000 was requested for airplanes, a backlog of about \$4,000, 000,000 in orders will provide adequate numbers of fighting craft.

RUSSIA:

Quiet on Donets As reports had persisted that the Germans were moving many fresh divisions to the Russian front for a new offensive, the Red forces took the initiative in the Kharkov area and seized several favorable positions south of Izyum, thus widening the Soviet bridgehead on the south bank of the Donets river.

Following their failure at Izyum, the Germans were reported massing strength in the Balakleya sector. A Moscow communique reported

that quiet had again descended on the Smolensk front after a lightning Russian thrust that resulted in the capture of several strongly held villages northeast of the Axis strong-

Engagements were but a prelude to bigger movements, for both sides were massing their forces for new major actions once the spring-thawed ground became firm again. TUNISIA:

Fox in the Open

Rommel's retreating Afrika Korps had been faced by Allied armies on three sides after "The Fox" was uprooted from his El Akarit positions

Tunisia well north of Gabes. The seriousness of the crisis for the Axis was reflected in Italian communiques which admitted that Italo - German forces were being

and chased into the open plains of

GEN. BERNARD MONTGOMERY

steadily overpowered along the entire Tunisian front.

The long-hoped for junction of American and British forces had intensified Rommel's plight, for now General Montgomery's British Eighth army was not only pressing him from the south, but its advance units now joined directly with Genattacked U. S. shipping. Americans eral Patton's Second American army corps were menacing his flanks from the east. To the north, General Anderson's British First army had moved to close off Rommel's movements for a possible union with the Axis forces of Gen.

Von Arnim. In routing Rommel at El Akarit, General Montgomery took the Nazis by surprise with a night attack that blazed its way forward under the screen of 500 cannon and scores of tanks and reinforced by hundreds of planes overhead. In the first break-through the Eighth army had gathered in 6,000 Axis prisoners.

As the battle picture became clearer, the contributions of General Patton's American forces emerged importantly. Prior to the historic junction with the British Eighth army after piercing the Axis armies' flanks, the Americans had held up most of Rommel's armored forces in the El Guettar region, weakening his defenses and making easier the task of the British at El

BLOCK-BUSTERS: Work Well Done

The penetrating eyes of British reconnaissance cameras confirmed reports of RAF bomber pilots that "block-busters" have done their work well in laying waste industrial areas of Berlin.

Photographs taken after one recent raid disclosed that 30 important war factories had been destroyed or damaged. The devastation was concentrated mostly in areas south and southwest of the center of Hitler's capital, a report by the air ministry disclosed.

Railway repair shops, freight yards and the Templehof airfield were among objectives damaged.

HIGHLIGHTS . . . in the week's news

NEW YORK: Secretary of Navy ! Frank Knox announced that salvage operations were progressing rapidly on the 83,000-ton former French liner Normandie, now named the La-

LONDON: A shipment of 10,000 American alarm clocks will be used to replace those worn out in Britain since the war started, it was announced by Hugh Dalton, president Fayette, which burned and capsized of the board of trade, in a statement at her pier here on February 9, to the house of commons after a 1942. He indicated that the vessel | member complained that coal minaving a hard time wat

35 BILLION: U.S. Must Recapture

CHESTER C. DAVIS . . . 'spending power a peril.'

The government will have to recapture \$35,000,000,000 in surplus spending power if present price and wage controls are to combat inflation effectively, Chester C. Davis, food administrator declared.

A banker as well as an agricul-tural leader, Mr. Davis recommended higher federal taxes and sharply increased investments in war bonds to relieve the strain of "too much purchasing power" on a declining supply of consumer goods, including food and other living items.

"This is no 10 per cent war," he declared, referring apparently to the treasury's campaign to get 10 per cent of salaries invested in war

KEYNES' PLAN: To Sidetrack Gold

Following closely on the heels of the United States treasury's pro-posal for a \$5,000,000,000 postwar international stabilization plan came Lord Keynes' proposal for a world credit institution "designed to expand world trade and serve as a genuine organ of truly international government."

Unlike the American plan, the British fiscal expert's program would subordinate gold as the postwar international medium of exchange. The announcement of Keynes' proposal made in a British white paper said "the purpose of the clearing union is to supplant gold as a governing factor, but not dispense with it."

Financial observers viewed the Keynes' plan as a trial balloon. Their idea was that a compromise between the American and British viewpoints would be ultimately ar-

Under the Keynes' plan the clear-ing union would have executive offices in New York and London. It would operate as a bank of nations. with creditor nations allowing their balances to accumulate as deposits, while the union would lend these deposits for short periods to debtor nations, just as a commercial bank

FRANCE:

U. S.-Britain Agree

When British Foreign Secretary Anthony Eden announced he had invited Secretary of State Cordell Hull to visit London and said he was satisfied there is "complete agreement" between Britain and the United States on the "future policy toward France," he took a long step toward settling the troublesome North African political situation.

Seemingly on the point of settlement, the problem had been intensified once more when the Fighting French took umbrage at Allied Commander Gen. Dwight D. Eisenhower's request that Gen. Charles De-Gaulle delay his projected visit to Algiers for conferences with Gen. Henri Giraud.

Military men had viewed the Eisenhower request as a perfectly logical action. With the battle for Tunisia at its height, the time was not right for political discussion, since the entire time of the French, British and American leaders in North Africa was occupied in win ning the campaign.

BLACK MARKETS:

Meat Supply Scarcer

Black markets were blamed by the department of agriculture for the reduced marketing of livestock for slaughter in recent weeks.

In recent weeks, a department report noted, government buying agencies and civilian consumers depend ent on federally inspected plants have experienced difficulty in obtaining meat. While the report did not disclose how great a reduction in inspected meat supplies stemmed from the black market operations, it described it as "fairly large."

Meanwhile seven meat packing firms operating in the East and Middle West were indicted by a federal grand jury in Newark, N. J., on charges of conspiracy to violate meat price regulations and meat quota restrictions.

EUROPE:

Axis on Alert

The defense of Europe against the forthcoming Allied invasion was increasingly occupying the attention of Axis leaders, reports from the continent indicated. The Germans were said to be undertaking anti-invasion maneuvers in Belgium and Holland. Intelligence reports reaching Allied governments said the German and th commands had met at discuse the defe

Pattern 7480 contains a transfer pattern of a 131/2 by 161/2 inch motif and 12 smaller notifs; stitches; color schemes; list of naterials needed. Due to an unusually large demand and current war conditions, slightly more time is required in filling orders for a few of

From an old French word "mes" derived from the Latin word "missus" meaning a course at a meal, comes the Army's name "mess" for its breakfast, dinner and supper. Favorite meal with the soldier is chicken dinner-his favorite cigarette, Camel. (Based on actual sales records from service men's own stores.) A carton of Camels, by the way, is a gift that's always welcome. And though there are Post Office restrictions on packages to overseas Army men, you can still send Camels to soldiers in the U.S., and to men in the Navy, Marines, and Coast Guard wherever they are .- Adv.

The Church of the Nasarena has set the dates August 1 to 15 for the Summer revival. An neuncements will be made fator concerning the workers.

The "come and get it" call never comes too early for hungry soldiers at the end of a day's march. It's a welcome call for pipeliners, too, as they wind up their day's work of patroling gas transmission lines.

Important as a means of cutting down on transportation, these maintenance crews usually make two-week journeys-pitch camp to eat, and sleep where the day's work leaves them.

By keeping thousands of miles of high-pressure gas lines throughout the Gulf South in tip-top shape, these crews are performing a vital war-time service. For on the efficiency of these huge steel arteries greatly depends the output of war materiel. And nothing must interfere with the production of ships, guns, tanks, and planes that means success or failure to our heroic defenders of freedom.

NATURAL GAS AND OIL ARE ESSENTIAL TO VICTORY . . . VICTORY IS OUR No. 1 JOB.

FOOD:

3-Way Attack

No stranger to farm problems, food production or the delicate job of dealing with recalcitrant congressmen was Chester C. Davis, recently appointed chief of the new Administration of Food Production and Distribution. Former head of the Agricultural Adjustment administration, Davis knew the ropes in Washington and how to keep from getting tangled in them.

For weeks the capital had expected some action in the increasingly critical food production situation. By relieving hard-pressed Secretary of Agriculture Wickard of his food administrator tasks and appointing Mr. Davis as sole food czar, President Roosevelt had created a new threeway agency, combining the Food Production administration, the Food Distribution administration and the Farm Labor administration.

Closer working agreements between congress and the food administration and a minimum of official friction in dealing with war-created farm problems were expected to result under Davis' administration. Observers agreed that Davis had one of the toughest jobs in history, but they were betting he would win.

AIR RAIDS:

Woe to Axis

Axis-held Europe will soon be subjected to 'round-the-clock air raids in which newer, bigger and faster American bombers will carry three or four times the bomb weight of present Flying Fortresses.

This prediction was made in London by Maj. Gen. Ira C. Eaker, commander of the U. S. army air forces in Britain. American forces, he said, are now ready to build up a striking power on a par with that of the Royal air force. Soon, he added, will begin the sustained offensive in which the Americans will strike at Europe by day and the British will bomb by night.

General Eaker disclosed that in a series of 51 raids, the U.S. army air force has lost fewer than 90 bombers.

NORTH AFRICA:

Rough Road Ahead

The battle to clear the Axis out of Tunisia was going to take time. Rommel's army still had an offensive "kick." The struggle was likely to get tougher before it got better.

These facts emerged more clearly as the inexorable pressure of the Allied forces ringing the enemy was met by counter attacks which had regained for Rommel's army much of the ground lost when the British Eighth army sliced into the Mareth

The communiques did not indicate any lessening of the Allied effort. They merely served to show that the battle was by no means won at the present time. The conviction of an ultimate Axis defeat contin-

While the British stoutly contested the Nazi forces in the South, the Americans under Lieut. Gen. George S. Patton not only held their previous gains at El Guettar in the "waist" of Tunisia but pushed on east of Maknassy in a drive on the coastal road.

DOCTORS:

Rural U. S. Praised

Praising the rural areas of the United States for having in many instances exceeded their quotas in contributing doctors to the nation's armed forces, the American Medical association declared that enrollments of medical officers in the army and navy are lagging because of the failure of young available physicians in large cities to volun-teer for duty. This situation is par-ticularly prevalent along the Eastern seaboard, the association's official magazine charged.

The fact that the armed services are not getting all the doctors they need was disclosed at a recent meeting with military authorities in Washington, the Journal of the American Medical Association said. The conference revealed that 6,000 doctors must be drawn from the civilian population this year.

FLOUR:

16 Millers Indicted

indicted 16 flour milling companies and the industry's trade association on charges of conspiracy to fix prices of packaged family flour-the kind ordinarily sold for use in homes throughout the United States.

The indictment charged that the defendants who mill 81 per cent of the 45,000,000 barrels of family flour sold annually met from time to time and agreed upon a uniform schedule of price differentials to be applied to the various sizes of packages in which the flour is sold. Addition of packaging charges had the effect of increasing bulk prices charged by millers by more than 100 per cent in some sizes, the indictment alleged.

The Miller's federation in a statement declared "there are no price agreements in the milling industry and there is no price fixing of family

RUSSIA:

Action Slackens

Although the tempo of battle on the Russian front had slowed down and action appeared to be drifting into a deadlock in several sectors, the Red army had continued its dogged drive through the spring slush and mud toward Smolensk.

Meanwhile German onslaughts designed to gain control of the upper Donets river valley had slackened following the furious resistance of the Russian defenders.

The Russian move toward Smolensk took the form of a north-south drive. The heaviest assault. A Soviet war bulletin reported sharp thrusts by the Red forces north of Dukhovschino, 32 miles northeast of Smolensk. At the same time a Russian column was reported moving toward Dorogobuzh, below the Moscow-Vyazma-Smolensk railway and 50 miles east of Smolensk. Fierce counter-attacks with heavy concentrations of artillery backing up infantry were being undertaken by the Germans, a Russ communique re-

To the south, the Germans were paying a heavy price in men and material for their effort to gain control of the upper Donets river basin. Nazi attempts to establish bases on the east bank of the river had been severely repulsed.

SOUTH PACIFIC: Prelude to Storm?

A lull in activity on both the Alliea and Jap sides of the Pacific war had been taken by some observers to be merely the prelude to a storm ahead.

Action for some days was confined to local air and sea attacks in various sectors of the South Pacific. In the Solomon islands, air raids were traded. American bombers strafed Rekata bay, while the Japs inflicted some damage on Guadalcanal. Further to the east, an American submarine torpedoed and sank a Japanese submarine. In Burma, American fliers attacked the long railway viaduct between Mandalay and Lashio, a bridge north of Rangoon and the Thazi railway junc-The RAF bombed Donbaik, north of Akyb.

ABSENTEES: Women Worst Offenders

Women war workers were charged

with being guilty of almost twice as much absenteeism as men, in a report compiled by the National Industrial Conference board.

Covering a "sample" group of 29 plants employing 106,620 persons, the report showed that in a single month 82,618 worker-days had been lost and that female employees averaged 1.16 days out of the month while male workers lost 0.65 day

Women showed a greater tendency to be absent for personal reasons the survey disclosed. The board found that 50.4 per cent of their absences were in this compared with 47.8 per cent for men.

RAW MATERIALS: < Allies Now 'Solvent'

William L. Batt, vice chairman of the War Production board, an-nounced that the United Nations have now achieved "solvency" in raw materials and "are assured of sufficient amounts of all kinds to meet any military needs regardless of the length of the war."

"No material is being used faster by the United Nations today than is being produced," he said. "It can be stated with complete safety that whatever the length of the war, ample raw materials are available to meet our military needs."

Batt credited the accomplishment to the combined raw materials board of the United Nations, established by President Roosevelt and Prime Minister Churchill in their White House conferences in December, 1941.

UNIONS: War to Cease?

Many a priceless hour of war production time had been lost in jurisdictional disputes between rival unions. Although some wrangles still In Chicago a federal grand jury appeared inevitable, the heads of the American Federation of Labor and the Congress of Industrial Or-

WILLIAM GREEN . . . raids to cease.

ganizations agreed to take definite steps to end the difficulties.

Appearing before the senate's Truman investigating committee William Green, president of the AFL, and Philip Murray, president of CIO, promised to reopen negotiations to end "union raiding," the maneuver by which one union seeks to oust another from representation of workers.

WAR BONDS: 'They Give Their Lives'

"They give their lives-You lend

your money.' That is the slogan of the treasury department's second War Loan drive opening April 12, which has as its objective raising 13 billion dollars through the sale of government securities. A substantial part of this vast financing-the most stupendous in world history-will be leaned by people in ordinary walks of life.

Financial experts point out that there are in liquid funds in the U.S. at present, more than 40 billion dollars which should go into the purchase of government bonds. It is from this huge reservoir that the treasury expects to meet its new

Delos Wheeler Lovelace

Consolidated Features.-WNU Release.

JEW YORK.-Harold B. Rowe stands in Washington holding a

serving spoon that reaches all across the continent. You eat what he Here's Chap Who He counts Dishes Out What the beans, We Have to Eat the prunes, the pounds of beef, divvies them up among the

army, our lend-lease friends, and the home front. He is the OPA's boss of food rationing, and his promise that national control will cramp hoarders and end local shortages makes a pin-up poster that John Citizen wouldn't swap for Hollywood's loveliest.

Rowe was born on one of those deep black Iowa farms where any man can learn a lot about food because it is so abundant. He needed the big University of Minnesota to finish his education although he studied first at Iowa State. At Minnesota he moved a step along toward his present eminence as a food expert. He learned to cook. He hired out as a waiter to get the meals he couldn't afford to buy, but when he dropped a tray of glasses the lords of the University cafeteria figured he would do less damage in the kitchen. If he dropped a roast it could be brushed off, and they hoped he'd hang onto pies.

After Minnesota he taught for six years at Massachusetts State college. He has been with the government since 1941. He lives in Kenwood, Md., with his wife, son and daughter, Verna, Marvin and Shirley Ann. He has a round mild face and an easy manner that ought to keep him from looking old for quite a spell. He is in his middle thirties.

TWO brothers of Anthony Eden, British foreign secretary, were killed in the last World war and he fought all through it, coming clear Eden, Hitler Had with a ma-

Chance in '17 to the Military Finish Each Other Cross. Today

his two sons, like your sons and the sons of everybody else, are in increasing jeopardy with every month that this second World war hangs on. These are reasons why Eden, on his visit in Washington, went to work like a nailer to smooth over aggravations among the United Nations and to stave off the third World war that some people say is shaping up even

A few years back Sir Austin Chamberlain, brother of Munich's Neville, called Mr. Eden a first-class second-rater. The Chamberlains are gone now and the second-rater is the No. 2 man of Britain. Only Churchill stands above him.

Eden got into politics as soon as he finished at Oxford after the war. He was old Stanley Baldwin's white-haired boy. He has been in the house of commons since 1923, but his real start dates from the time he was named secretary to the secretary of state for foreign affairs. He zoomed after that and now is himself the secretary for foreign affairs. This is his second turn at the job.

He is still only 46 years old, tall, broad-shouldered and usually the best-dressed man at the party. Admirers say he takes after his mother, a famous beauty. His family runs a long way back. Robert de Eden started it in 1413 and Hitler might have ended it. Eden and Adolf, talking one day, discovered that their outfits had shot at each other around Ypres in 1917.

ONE of tallest generals in any army helps the Americans push against Rommel's men on the side opposite from where Leclerc fights. Should Take Much This is Brig. Gen. Everett Tape to Bind Gen. S. Hughes. Hughes' 61/2 Feet He stands a bit over six feet five inches in his army shoes

Hughes has cussed at red tape all his army life and it is his odd luck to be made Gen. Dwight D. Eisenhower's deputy commander in charge of training, supply, hospitalization and personnel, all bound round with red tape. In the battle zone the loss of any military property can be blamed on a lone enemy shell; a little one will do. In the supply area everything must be signed for, and if the papers aren't kept there is weeping all the way back to Washington. General Hughes came into the army from South Dakota. He left West Point in 1908, rated his class'

most efficient cadet. The artillery got him first and he served in it down in Mexico and then down in the Philippines. In the first World war he was decorated for meritorious service, but he landed in the service of supply and so trained for his present post.

For a while he was the golf champion of the United States army, and he finds great pleasure in hunting. Travaling is also one of his favorite pastimes. While on leave in Europe, he retraced Napoleon's campaigns. With his men he seems stiff, but he is actually re sly

Father says: Relieves pain and soreness

There's good reason why PAZO ointment has been used by so many millions of sufferers from simple Piles. First, PAZO ointment soothes inflamed areas relieves pain and itching. Second, PAZO ointment lubricates hardened, dried parts—helps prevent cracking and soreness. Third, PAZO ointment tends to reduce swelling and check bleeding. Fourth, it's easy to use. PAZO ointment's perforated Pile Pipe makes application simple, thorough. Your doctor can tell you about PAZO ointment. Get PAZO Now! At Your Druggists

That Nagging Backache

May Warn of Disordered Kidney Action

Modern life with its hurry and worry, fregular habits, improper eating and drinking—its risk of exposure and infection—throws heavy strain on the work of the kidneys. They are set to become over-taxed and fail to filter excess acid and other impurities from the life-giving blood.

You may suffer nagging backache, headache, disziness, getting up nights, leg pains, swelling—feel constantly tired, nervous, all worn out. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination.

Try Doon's Pills. Doon's help the kidneys to pass off harmful excess body wants. They have had more than half a century of public approval. Are recommended by grateful users everywhers. Ask your neighbor!

LL the Ameches aren't in the I movies. Dark-eyed Jim, who looks enough like brother Don to be his twin, has made good on his own in radio by landing the master of ceremonies assignment on that new all-musical program, "Here's to Romance," on the Blue Network Sundays. Two movie personalities are featuredorchestra leader David Broekman, whose long-time association with Columbia pictures enabled him to score 60 films, and singer Buddy Clark; his latest picture is "Seven

JIM AMECHE

Days' Leave." Jim Ameche was born and educated at Kenosha, Wis., and was introduced to radio by his older brother, Don, who advised him to take an audition for Jack Armstrong -All American Boy. Jim landed the part and since has played the lead in several radio series.

Pat O'Brien, back at work-in RKO's "The Iron Major"-is still marveling over his trip home after eight weeks of entertaining at army camps overseas. He breakfasted at Trinidad, lunched at Haiti, dined at Miami, breakfasted the next morning in New York. He wants to make another army camp tour, but says next time he'll take his wife along; that two-months' separation was too long.

So Merle Oberon said she was retiring from the screen! As usual after such announcements, the star has signed a long-term contract; this one's with Metro, and she'll make pictures in Hollywood and in London. Seems as if, when a star wants to retire, the studios realize what they'll be missing and can't wait to make sure of keeping good box-office material.

Susan Hayward, who did an army camp tour after she visited New York when "Reap the Wild Wind" was released nationally, has been given the feminine lead in "The Man in Half Moon Street" by Paramount. Susan's on her way up,

Judy Garland is proudly wearing a pair of silver wings, sent her by the young paratroopers of Fort Benning, Ga., who recently dubbed her "The Parabelle." You'll see her wearing them for a scene in "Girl Crazy, in which she stars with Mickey Rooney.

Joan Thorsen, famous as a model after she appeared on the covers of six national magazines in rapid succession, has been given her first movie role by Metro. She's beautiful and glamorous-so she'll portray a Russian girl guerrilla, and will make her screen debut wearing a peasant smock, and with her face blacked up, in "Russia," the Rob ert Taylor picture.

Mayo Methot - Mrs. Humphrey Bogart-is on location with her husband for "Somewhere in Sahara." The other day when they unpacked their lunch kits she spied three kegs, which they used as chairs and a table till the powder man approached. "Sorry, Mr. Bogart," said he, "But I'll have to move these dynamite kegs." Whereupon the Bogarts moved, fast and without argu-

Looks as if Helmut Dantine, who scored so heavily with his Nazi-aviator performance in "Mrs. Miniver," is headed for stardom. Seems he's turned in another grand per-formance in Warner's "The Edge of Darkness," and Jack L. Warner is looking for possible starring material for him. His fan mail has shown a 300 per cent increase during the past three months.

ODDS AND ENDS
Allan Napier, British actor in "Appointment in Berlin," has a speech that defends the late Neville Chamberlain—who was his uncle . . . Jean Arthur's spent more time in Washington, D. C., on the screen than any other actress in real life she's than any other actress; in real life she's been there just a few hours . . . Something Wrong if RAF Pilots 'Put Up a Black'

The RAF has developed a language all its own. Many of the terms, such as "Browned off" for bored, and "Put up a black" for doing something wrong, have been adopted now into common usage. Some expressions have been borrowed from the United States, including "Flinging a woo," which means to have a date with a girl, and "'Roughneck" which, in the RAF does not mean a tough guy, but an unlikeable person.

"Gen" means the real, inside information on anything, and, similarly, "duff gen" means wrong information. A "flap" is a sudden operation. To be in a "flap" or in a "flat spin" means to be busy on a job, too busy to do anything

The "Chief Plumber" is, of course, the Chief Engineer; the "Quack" is the doctor; the "Second Dickey" is the second pilot, and a stickyback is an RAF photographer.

Pilots who go "dicing" or on a "shaky-do" are attacking a difficult and dangerous target; if it's an easy target it's a "piece of cake." After they drop their bombs they sometimes "stooge around to take a beaker," meaning to hang around to have a look.

IN EVERY price range today there are handsome flowered materials for slip covers. The patterns are designed so that a motif may be centered in each part of a chair to make a panel. This is not difficult to do if you cut straight pieces first according to the widest and longest measurement of the part to be covered, plus one inch at all seams and four inches for a seat tuck-in.

Pin and trim to fit, as shown. Seams that are to be sewn without welting are pinned and basted from the wrong side. Unpin seams where welting is to be used. Baste

Bring your barrors to Ker alla Shae Shop and save money

ACID - not speed -may burn up your engine now! to resist acid corrosion, have your You don't go "tearing off" the engine OIL-PLATED-quicklymiles, and you hate tearing off -simply-economically-by ration coupons, too. You'd think your low speed and mileage would changing this Spring to Conoco Nth motor oil-patented. It inalmost do away with engine wear. But the products of combustion

inders after stopping-contain acids that nibble at metals! Engine acids are nothing new, only they couldn't do their worst when interrupted by frequent use of your car and fast driving, instead of staying in your inactive engine for days. Short, slow, infrequent runs don't help much to clean acids out. So now when you're not even sure of getting any needed replacement parts, make sure you muzzle acids as

-always hanging back in the cyl-

engine's insides OIL-PLATED. You know of plating being used to resist such corrosion as rust, for instance. And

well as you can, by keeping your

cludes a great advancement in synthetics, invented to maintain OIL-PLATING up and down your engine's insides, during many hours or days when such resistance against acid can help. Your Spring oil change is a "must," but the worst acid effects are not -not when you get Conoco Nth motor oil. Continental Oil Co.
