#### Sew-On Chair Covers In the Smart Cottons

SEW-ON covers of chintz or other smart cottons are always neat and trim and, since the pieces are all sewn to the old upholstery of the chair with rather long stitches, it is not difficult to remove the cover for washing or cleaning. If

washed at home it is much easier to handle separate pieces than an entire slip cover.

A sew-on cover should be pin-fitted with a 4-inch tuck-in around the spring seat and 1-inch seam allowances. Use tailor's chalk to mark stitching lines and indicate pieces to have welting stitched to edges. Here, welting is used for the side seams of the inside center back section; across the front of the seat; for the top and bottom of the outside; and all around the front of the arm sections. The sketch shows how welted and un-

welted pieces are sewn in place.

NOTE—The new BOOK 10 of the series of booklets offered with these articles gives other valuable pointers on making both sew-on covers and removable slip covers. BOOK 9 gives directions for repairing the springs of chairs before covering them. BOOK 9 and 10 are 15 cents each. Send your order to:

. "Dive Bombing" mosquitoes -"Four Motor" flies-are just two of the insect-enemies that wage war on our soldiers on many battlefronts ... and two reasons why the army uses such vast quantities of FLIT and our other insecticides.

For these super-slayers kill many vicious foreign pests just as they mow down household insects here

FLIT has the AA Rating . . . the highest established for household secticides by the U.S. lureau of Standards.

#### WEEKLY NEWS ANALYSIS

Attu Victory Brings U. S. Nearer Tokyo; Flood Damage Menaces Food Production; Labor Stirred by Lewis Bid to AFL; Churchill: 'Bomb Jap Cities to Ashes'

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.) Released by Western Newspaper Union

Feted from one end of the country to the other for his exploits in shooting down the record number of 26 Jap planes, Marine Capt. Joseph Foss received from President Roosevelt the Congressional Medal of Honor for "outstanding heroism and courage above and beyond the call of duty." Photo shows, left to right: President Roosevelt; Mrs. Mary Foss, mother of the air hero; Captain Foss and his wife, June, adjusting the medal around his neck.

### ALEUTIANS:

Tokyo Gets Nearer

The Japanese government had prepared the civilian population of Nippon for the fall of Attu through the medium of a report indicating that the last defenders of the Aleutian Islands outpost were making a death stand against attacking Amer-

While the Japs were singing their Attu swan song, reports from Washington had disclosed the strategic moves that had succeeded in bottling the enemy up. Two American columns, landed on opposite sides of the island, had joined and trapped the Japs on a narrow front on the northwestern end of Attu.

#### Japs Warn Reds

As American air power thus moved closer to Tokyo, the Japs showed their unrest. Apparently the success of Allied bombings of Germany had stirred the Japanese government to the dangers ahead should the United Nations be permitted by Russia to use Siberian bases.

The result was a Tokyo broadcast reported by the British warning Russia that "if in the future she ever put her Siberian bases at the disposal of the United States, the Japaand will deal upon her the heaviest blows Russia has ever known."

#### AFL TO LEWIS: 'Come Back Home'

Unpredictable John L. Lewis knocked at the door of the American Federation of Labor carrying in his hand an application for the readmission of his United Mine Workers. Just eight years before he had torn the parent union asunder in the greatest labor schism in history.

That the door would be opened wide to the errant Mine Workers was evident from AFL President William Green's announcement that the federation's executive council was considering Lewis' application "orderly and sympathetic way." Green said he personally welcomed the miners and reminded the public that for seven or eight years he had said the latch string was out and he wanted the miners "to come back home."

What effect Lewis' move would have on the present peace negotia-tions between the AFL and the CIO which Lewis founded and later quit, was not immediately evident.

#### EUROPE:

Air Blasts Continue

In the wake of ebbing flood waters that had swept disastrously through Germany's industrial Ruhr valleys from the Eder and Moehne dams, shattered by RAF bombs, American Flying Fortresses inflicted further punishment on the Nazis in attacks on submarine and shipbuilding yards at Kiel and Flensburg, 40 miles away.

Air Force communiques said the unescorted bombers had left both targets in flames and shot down many enemy fighter planes that had tried to ward them off.

### FLOODS:

Peril Farm Output

Ruined crops, inundated cities, damaged homes and casualties from drownings resulted from the disastrous flood that started in Midwestern farm states and spilled south from rivers and streams flowing into the Mississippi river.

As emergency crews and troops had toiled to check the rise of flood waters and hold down damage from breaks in Mississippi river levees protecting rich farm lands and war plants, weather bureau officials attributed the flood to unprecedented May rains.

In Illinois alone the continuous rains had destroyed 100,000 acres of corn, wheat and oats. Other states reporting serious crop destruction were: Indiana, Missouri, Arkansas, Kansas and Oklahoma. The flood losses represented a critical threat to the nation's epochal wartime food production crusade. The damage resulted not only from crops already in, but from serious delays in planting corn and other vital cereal

#### CLOTHES:

May Avoid Rationing

Rationing of clothing and other of plans worked out between offi-cials of the War Production board and retail clothing dealers, it was announced in Washington.

Under the new plan the WPB will make possible increased production of more essential types of clothing and textiles. At the same time re-tailers have promised to revise certain practices and develop new methods designed to relieve pressure on the industry.

"We believe we can avoid clothes rationing and other textiles this winter and perhaps indefinitely, if we get adequate support from the public," said an official statement.

#### CHURCHILL: 'Hitler First; Japs Next'

War to the death on Japan, but

defeat of Hitler first was the recipe for complete United Nations' victory prescribed by Prime Minister Winston Churchill in his historic speech before congress.

Answering congressional critics who predicted that Britain would leave the burden of defeating Japan to America, Mr. Churchill pledged the empire to war side by side with the United States "while there is still breath in our bodies and while blood flows through our veins." He promised, further, that British air power will join with American to bomb Jap cities and war industries, adding: 'In ashes they must surely lie be-

fore peace comes to the world." He defended present United Nations strategy founded on the judgment of President Roosevelt, himself and their military advisers that 'while defeat of Japan would not mean the defeat of Germany, the defeat of Germany would infallibly mean the ruin of Japan."

Greater aid for both China and Russia were promised by Churchill.

#### HIGHLIGHTS . . . in the week's news

CRABS: For the first time in history the giant king crab of the Bering sea will be canned commercially by Americans, Secretary of the In terior Harold L. Ickes announced.

GASOLINE: No extra gasoline will be available for vacation trips this year, according to an OPA rul-Holders of B and C cards must not use them for holiday trips, the of the War Manpower commission, miling stated.

CASUALTIES: Axis losses in Tunisia totaled 324,000 according to estimates of the Allied high command. The losses included 267,000 prisoners, 30,000 killed and 27,000 wounded, at Henry Ford's Willow Run bomber

BOMBERS: Production schedules plant in Detroit are being exceeded, Edward L. Cushman, local director

#### GAS CRISIS: Middle West Next?

As the gasoline supply crisis mounted along the Atlantic seaboard, Price Administrator Prentiss M. Brown decreed a complete ban on pleasure driving in 12 eastern states, part of another and in the

District of Columbia. The states affected by the ruling were Maine, New Hampshire, Ver-mont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Delaware, Pennsylvania, Maryland and Virginia. In addition eight eastern counties in West Virginia were affected.

Previously the OPA had sought to curb nonessential driving through a

voluntary "honor system." That additional restrictions loomed ahead was indicated by Petroleum Administrator Harold L. Ickes, who said that the East would have to cut its gasoline consumption still further and that new restrictions may be put into effect in the Middle West so that some gasoline may be diverted from there to the seaboard

#### FOOD CONFERENCE:

Postwar Goals Outlined

Continuance of food rationing after the war, the creation of a global agricultural commission and the assurance that the people of the world will be better fed in the postwar period were among goals agreed upon by delegates representing the "big four" of the United Nations—the United States, Great Britain, China and Soviet Russia—attending the food conference at Hot Springs, Va.

In addition the delegates were said to be in agreement on declarations advocating continued agricultural expansion throughout the period of post-war relief, on a statement favoring the reduction of world tariffs and on educational measures to promote better nutritional goals.

Although no binding agreements linked the delegates, Paul H. Appleby, undersecretary of agriculture and acting chairman of the American delegation, said that representatives of 44 governments attending the conference had come forward with offers of co-operation.

#### FARM IMPLEMENTS: Bigger Output Ahead

Production of farm machinery in 1944 at an estimated rate of 80 per cent of the average annual output in the 1940-41 period, and unlimited production of repair parts was approved by the War Production

Release of the official order awaited completion of a farm-to-farm check being made by the War Food administration to determine specific machinery items needed by 6,000,000

DONALD NELSON ... Concentration a "dead duck."

farmers, Paul Henry, head of the WFA's production equipment branch, revealed.

Concentration of the farm equipment industry previously ordered in a WPB directive, is to be eliminated. Donald Nelson, WPB chairman, announced that "concentration is a dead duck." Thus large farm equip-ment manufacturers whose sales are over \$10,000,000 are permitted to come back into production.

#### RUSSIANS: Reds Press Hard

Even as former Ambassador Joseph E. Davies was engaged in conferences with Russ Premier Joseph Stalin in furtherance of his second and historic mission to Moscow, Red armies were reported by the Germans to have launched major attacks on four points along a 1,100-mile section of the Eastern front from the Volkhov sector to the Kuban valley in the Caucasus.

In the Caucasus campaign Red army troops shattered two Nazi attacks, according to a Soviet report, and blasted 14 boatloads of Nazis attempting to retreat over the Kuban In the vicinity of Novorossisk, last

remaining Axis bridgehead in the Caucasus, Russian forces continued their pressure, breaking up Nazi tank assaults and tightening their of fensive ring around the key city. CANNED FOODS:

#### More for Civilians

Civilian supplies of canned fruits and vegetables will be increased by approximately 30,000,000 cases from the 1943 pack because of reduced military demands for these commodities, the War Food administration

Whether the new allocation would result in a lowering of point values for canned goods was not known. Officials said this would depend on the size of the 1943 fruit and vegetable pack.

EANNA DURBIN has succeeded in convincing Hollywood executives, as well as the public, that she's grown p, thanks to radio. She was chosen to play the unhappy, psycho - pathological role creed by Teresa Wright in "Shadow of a Doubt' for the Screen Guild Players' air version over CBS. Not

DEANNA DURBIN

only did Deanna come through with flying colors, but the radio program opened an entirely new vista of film and air endeavor for her, one that is completely removed from her singing.

It's not surprising that William Holden wanted to drop his own name—William Franklin Beedle and legally switch to Holden. But when his wife, Brenda Marshall, has worked so hard and successfully to introduce that one, it's startling to have her announce that she's never liked it, and from now on will be known by her maiden and married names—Ardis Ankerson Holden.

Casting for "Hi Diddle Diddle" sounds a little goofy. Marek Windheim, former Metropolitan Opera tenor, will play a pianist-accompanist for Pola Negri, who makes her motion picture comeback as an opera singer. Seems he was chosen because he, like Miss Negri, is of Polish descent and artistic temperament. Richard Hageman, Metropolitan Opera conductor, plays a stockbroker.

Shirley Temple talked things over with David O. Selznick, and very wisely signed a long term contract with him. She'll appear in "Since You Went Away," his first produc-tion since "Rebecca," with an allstar cast.

Some people say that Hollywood had better lay off war pictures be-cause the public's sick of them. Well, the armed forces aren't, judging by the men who come to New York's Civilian Defense Entertainment committee for free tickets. The other night I handed out passes to "Crash Dive" and "China" by the dozen. Of course, "China" had Har-ry James and his band to back it up.

Bill Terry, who made his film debut in the short, "Private Smith of the U. S. A.," and will soon be seen in its continuation, "Lieutenant Smith," has been signed up by Sol Lesser for a role in "Stage Door Canteen."

Two men of the merchant marine visited Jimmy Dorsey a while back and gave him the "Gibraltar Medal" one of them was wearing. Affoat 36 days after their freighter was torpedoed, all they had to keep their morale up were his recordings of "Maria Elene" and "The Breeze and When they'd used up their needles they fell back on matches and paper clips.

Newest screen actor to branch out into radio as a regular performer is Jack Carson, last seen in Warner Bros.' "The Hard Way." He's winning new fame as a comedian as master of ceremonies of the CBS "Comedy Caravan," heard Friday evenings.

Even Ellery Queen, ace detective, failed to notice a wedding ring on the left hand of Ernest Chappell, his program announcer; it was a week efore he learned that Chappell had married Claudia Morgan, daughter of Ralph, niece of Frank, "Nora Charles" of "The Thin Man" on the air and leading actress on "The Right to Happiness" and "We Love and Learn."

ODDS AND ENDS—Kate Smith's getting a reputation for having launched more fighting and merchant ships than enyone else in the U. S. A.—she recently launched her sixth . . . Jerry Wayne, singing star of "All Time Hit Parade," acted in minor roles in pictures before turning to radio. . . Rosalind Russell named the baby Carl Lance Brisson . . . Mevo's bucking the manpower shortage by readying two top budget pictures with all-male casts, "Batean" and "A Thousand Shall Fall" . . . If Spencer Tracy's really as tired as he looked in "Keeper of the Flame" he's badly in need of a rest . . Better see "I" fore the Merrier" for

Gas for Flying Fortress A fully loaded Flying Fortress uses as much gasoline in an hour as Mr. and Mrs. America's auto does in six months.

**SNAPPY FACTS** ABOUT RUBBER

Considering cost of oil, gas, tires and upkeop, it is estimated that the cost of driving the average car for 1000 miles at 45 miles per hour is \$22.03. At 25 mph the cost is cut to \$14.38 and at 35 mph it is held to \$17.88.

Malaya and the Netherlands Indies were the only sources of natural rubber in the world which had been successfully ex-ploited to an important extent prior to the present war.

Rubber and gas rationing did not drastically cut motor truck operations last year. Official figures show that during 1942 trucks hauled an estimated 46 billion ton miles of freight on main rural highways, com-pared with 46.7 billion in the more normal 1940.

Unsightly scratches on dark-

colored furniture may be covered by wrapping a swab of cotton on a toothpick and dipping in iodine. Apply to the scratches and when dry rub with furniture polish.

When soil in which house plants are potted becomes more like clay than loam it may be lightened by adding sand to it. Plants grow best in this kind of soil.

After you have removed old wallpaper, wash the walls with warm water to remove the old paste. Rinse slightly and let the walls dry perfectly before putting on the new paper. This extra work pays.

Do not throw away used wax jelly tumbler covers. Wash in cold water and dry them and place in an empty tin can. When the can is filled, they should be melted together to form a cake and covered. Thus, they will be kept fresh and as good as ever for next season's jars.

Ground or chopped meat needs much colder storage and keeps a shorter time than other meat.

Use a toothbrush for polishing silverware. It is especially good for the fork tines and engraved handles.

To tightly fasten corks in bottles, boil the corks for five minutes to soften them and then, while hot press them into the bottles. When cool the seal will be perfect.

A small window may be made to look larger by setting the curtain rods beyond the casing on each side and using draperies of a material heavy enough so that casings will not be seen through material.

Rinse in cold water or wipe off with a damp cloth all your meats, vegetables and fruits, as soon as possible after they are delivered. Canned goods and bottles of milk should be wiped off before they are stored in the refrigerator or cupboard.

What is the most welcome gift you can send to a man in the service? Well, surveys among service men themselves show that one of the favorite packages from home are cigarettes. And first choice among men in all the serv-ices is Camel, based on the actual sales records in Post Exchanges and Canteens. Though there are now Post Office restrictions on packages to overseas Army men, you can still send Camels to soldiers in the U.S., and to Sailors, Marines, and Coast Guardsmen wherever they are .- Adv.

HOW colorful, young and be-

with brilliant, wool-embroidered posies blooming at neck and hem

Barbara Bell Pattern No. 1770-B is designed for sizes 10, 12, 14, 16, 18 and 20. Corresponding bust measurements 28, 30, 32, 34, 36 and 38. Size 12 (30) requires, with short or % sleeves, 4½ yards 35 or 39-inch material. 4 yards ric-rac to trim; ½ hank blue and ½ hank red wool for embroidery.

Due to an unusually large demand and current war conditions, slightly more time is required in filling orders for a few of the most popular pattern numbers.

SEWING CIRCLE PATTERN DEPT. 530 South Wells St. Chicago.

Enclose 20 cents in coins for each pattern desired.

town in the United States? 7. What is meant by quid pro

8. What distinguished English poet died while fighting with the Greeks against the Turks? 9. On what island is Mt. Etna? 10. What is a "bombardier's

The Answers

 A railway operated by cable.
 In 1212. 3. Two-thirds.

Fish Hooks on Liferafts

Fishing kits containing dehydrated pork rinds, a knife that will float, hooks and rigs, a dip net, cotton gloves and instructions printed on waterproof paper, are now part of the equipment of lifeboats and rates boats and rafts.

4. Eighty-five per cent. 5. Treasure Island (San Francisco) where an average of 6,000 men can be fed in 40 minutes.

6. Penasse, Minn. 7. Something of equivalent value

in return. 8. Byron. 9. Sicily. 10. When operating a bombsight,

bombardiers wear a rubber eye-piece. A black sooty ring is left on the user's face and cadet bombardiers are so proud of their "bombardier's eye" that they re-fuse to wash it off for days at a time.

#### Largest Bible Weighs Over Half Ton; of Wood

I wonder if it is mere coincidence that the largest Bible in the world was made by a carpenter? Aided by his wife, he constructed it at Los Angeles, and the job

took them two years exactly.

This gigantic volume measures 431/2 inches by 34 inches and is 34

inches thick. Weighing 1,094 pounds—approximately half a ton—when open it spans 8 feet 2 inches, has 32 separate sections, and contains 8,048

And it was all done on a hand

In addition to serving Kellogg's Corn Flakes as "meatless meals," use them to extend your meat. In meat loaves, hamburgers, croquettes, stuffings, casserole dishes, patties, cereals blend well with meat flavors.
