Hedey Fathers With Sons Or Daughters In Armed Forces Invited To Meeting

Hedley fathers with sons or daughters serving in the armed forces are invited to attend the Clarendon Dad's Club meeting at the Clarendon City Hall Monday night, August 9, when ex-Amarillo Mayor Ross D. Rogers will present that chapter with a charter.

The Clarendon club, according to G. G. Reeves, president, urges the Hedley fathers to attend with a view of joining the local club or forming a club in Hedley.

"There will be no obligations attached to attending the Clarendon meeting," Reeves said, "but we of that organization believe this club can be of a material benefit to the war effort and to Donley County. It is with this in mind that we invite the fathers of Hedley to be our guests next Monday night in order that they may be acquainted with the association."

In his statement Reeves said, "Today our nation is engaged in the world's greatest conflict, a conflict between the forces of decency and human kindness and the forces of hate and greed. Millions of American young men and women are now fighting with the patriots of the Allied nations. We are proud of our sons and daughters who are valiantly giving their all in the war. They are fighting our fight, God knows we would have it otherwise if we could, would carry this burden for them if it were possible, but this is war. Upon the youth of the world, upon their efforts and success, depends the future of civilization."

"Our sons and daughters are entitled to all the help and support we can possibly give them. Recognizing this fact, the fathers of American fighting men and women have organized in many communities to render any and all possible service, systematically and forcefully. American War Dads is a working organization. This group is not just another organization for 'joiners' who are seeking a membership card and a button, it is a live-wire program in which fathers are doing a big job for Uncle Sam. No one in the entire nation has a greater vested interest in the progress of this war than the father of a son in service. His flesh and blood is out there on the firing line. Whether or not he has a fighting chance depends upon a multitude of factors controlled by the man BEHIND the man behind the gun. Whether or not his great effort achieves ultimate liberty and peace depends upon the home front, not the war front. Every War Dad owes it to his son or his daughter to be a 'fighting war dad' at home."

METHODIST REVIVAL CLOSES

The Revival at the Methodist Church came to a close with the Sunday evening service. The results were very gratifying. We are happy to report 12 additions on profession of faith. Our helpers were from the beginning in high favor with our people, and there was splendid cooperation on the part of the other churches. May I urge that our folk attend the revival services of the Nazarene next Sunday night.

LITTLE MISS LORETA JENKINS HAS FAREWELL PARTY

Little Miss Loreta Jenkins was given a farewell party and dinner in the Cullen Hunsencker home Friday. Several of the little friends were invited and along with a number of nice games as a climax to the occasion a nice dinner was served to the children. All had a good time.

HOW'S YOUR PRINTING SUPPLY, LETTER HEADS, ETC.

We are prepared to take care of your printing needs. Let us know what you need.

Mr. and Mrs. C. C. Stanford have returned from their vacation trip. Mr. Stanford plans to stay in Hedley.

Rev. Fitzgerald, pastor of the Clarendon Circuit of the Methodist Church, was a visitor in Hedley last week.

PALMER IS NAMED CHAIRMAN OF BUILDING FUND

Rev. G. T. Palmer, District Superintendent of the Clarendon District of the Methodist Church met with other pastors and a number of laymen in a special called meeting today with Dr. Harold G. Cooke, President of McMurray College, and Alfred T. Snoko, Campaign Executive Secretary, for the purpose of perfecting the District Organization for the McMurray College, 1-750,000 Building and Endowment fund Campaign.

From this meeting, pastors and laymen will go back to their own churches and build a complete working organization for the McMurray fund within each church of the District.

The District officers elected at the meeting were Hon. H. B. Hill, Shamrock, and Rev. G. T. Palmer, Co-chairman. Three sub-district chairmen, J. T. Bishop, Memphis, C. E. Edgar Turkey, Hubert Thomson, Wellington, J. L. Britt, Wheeler; E. B. Bowen, Pampa and J. L. Hess, McLean, Dr. Cooke and Mr. Snoko are covering the entire area of the Northwest Texas conference and the New Mexico conference, and will organize each district on a similar basis.

When Dr. Cooke came into the presidency of McMurray, last January, he, with the executive board of trustees of the college, began to study the advantages of undertaking a campaign that would challenge the Methodists and all other people of West Texas and New Mexico who are interested in McMurray.

At the time of the spring commencement, the board unanimously voted to adopt the campaign recommendation, and appointed a committee to make a study of and lay the basic plans.

The idea has met with enthusiastic response throughout the area and many have expressed the belief that the time is ripe to provide for an adequate endowment and to take care of the building and equipment needs of an enlarged program at McMurray following the war.

A MEETING AT BRISCOE REV. LEMOND CONDUCTING

Rev. C. R. LeMond is away in Briscoe, Texas. Mr. C. O. Hill will speak at the Methodist church Sunday morning. Mr. Hill is a good speaker, and you will enjoy hearing him. Give him a good congregation.

F. A. FINCH MOVING TO MEMPHIS

Mr. and Mrs. F. A. Finch, whose ranch lies South of town are moving to Memphis. They have a home there. Mr. Shorty Spalding well known here will be foreman at the ranch.

Word was received here that week from Mrs. W. H. Hill in Panama City, Fla., stating that she was really experiencing some hot weather and that she would soon be going up to Atlanta, Ga.

Virginia Watt is home for a few weeks. She has been in Canyon the past several weeks doing some summer work in the college there. She plans to do this again this year.

Pvt. Allen DeBord was home this week for the funeral services for his father, Mr. Charles DeBord. Allen is stationed in Topeka, Kans.

Margie Burdine, who has been in Amarillo for several weeks, is home.

Miss Hilda Ruth Burden of Pampa spent a day last week with Miss Mary Sue Scales.

Cheese is a concentrated food full of protein, calcium, fat and vitamins A and B2.

Fresh green peas hold protein, minerals, and vitamins A, B1, and C.

SCENE IN THE ALEUTIANS

U. S. ARMY AIR FORCE PHOTO — The above photo shows a jeep being towed out of the mud at Amchitka, which is now occupied by a U. S. Army and Navy Expeditionary force. The island, one of the Rat group, is 1,700 miles from Tokyo and only 63 miles from Jap-held Kiska.

Donley Red Cross Chapter To Equip Soldier's Hospital

The Donley County chapter of The American Red Cross will furnish a Sun Room in one of the five Panhandle soldier hospitals, it was decided at a meeting of the North Plains Council last Wednesday.

At the meeting John C. Knorpp was named local chairman and Mrs. Walker Lane secretary.

Following their appointment, Knorpp and Mrs. Lane announced that contributions from Donley

County citizens would be solicited and everyone would be contacted in view of receiving sufficient contributions to furnish the room.

What hospital will be furnished by the local Red Cross chapter was not designated.

Additional committees and members of the central committee will be announced later.

Mrs. Thomas Lyons, General Field Representative of the American Red Cross from St. Louis,

NOTICE

While Bro. LeMond is away from town Mrs. C. L. Johnson will receive the news items. See her if you know any news.

Mr. and Mrs. W. T. Wallace and family of Amarillo were week end visitors here.

SCHOOL BUYS BUS

The Hedley school has secured the Watkin school bus from that district. The bus is badly needed and will be a good aid in taking care of the transportation problem of the school.

Hobart Moffitt was a business caller in Amarillo Thursday of last week.

Mr. and Mrs. J. W. Reese have returned from a trip which took them into deep East Texas. This business trip took them to Tyler, Longview and other East Texas points.

O. C. Walker and J. L. Seitz of Mobeetie, are visiting in the Edd Kinslow home this week. Mr. Walker is an uncle of Mrs. Kinslow. Mr. Seitz will visit a sister in Clarendon also while here.

Roy Bridges and R. H. Alexander have been stationed at Camp Barkley in Abilene.

Mrs. J. P. Johnson (Collen Abernathy) and her mother, Mrs. L. C. Abernathy were visitors in Hedley, Friday afternoon. Mrs. Johnson has just returned from a visit with her husband, who is stationed at the Way Cross Air Base in Georgia.

Rev. Bob Jenkins and his family are leaving Sunday afternoon to go Friona were Bro. Jenkins has accepted a call as pastor of the Baptist Church, The Church under Bro. Jenkins' administration here has grown in many ways. The attendance at both night and morning services has been good, several have been received into the Church. The finances of the Church have shown a good increase. Bro. and Mrs. Jenkins and children will be missed, but we feel sure that the new field to which they go is fortunate to secure them for their work. The church in Friona is reasonably new, the parsonage is new and the memberships of the church is much larger than that of the Hedley church. We wish for our friends, the best of success in their new field of labor.

Miss Myrtle Willis has returned from her vacation in California.

Reba Dell, Donnie Rhea, Alton Cope of Dalhart are here for two weeks visiting friends and relatives.

MRS. M. C. DeBORD IS MCKNIGHT CORRESPONDENT

Mrs. M. C. DeBord is correspondent for McKnight. Folk at McKnight give Mrs. DeBord your news. We hope to have a representative in each community soon.

Mr. and Mrs. Mack Noland of Hereford were week end guests in the W. C. Plunk home. Mrs. Noland is a daughter of the W. C. Plunk's. Miss Josie Plunk has been visiting with her sister, Mrs. Noland for the past month.

Mr. and Mrs. Theo Johnson and family have moved to Memphis, where Mr. Johnson is employed by Farmer's Grocery store.

Mrs. W. M. Bowden returned from Fort Worth Friday where she had been for a week. She visited Lucille Shaneyfelt.

Mr. and Mrs. L. R. Smith and son of Dumas visited in the A. A. Cooper home over the week end.

Mrs. Lura Blackwell and family were here this past week visiting with her parents, Mr. and Mrs. J. W. McPherson.

The Horace Coopers were visitors over the week end. They had visited relatives at Sunset before coming here. The Coopers are now living in Amarillo.

Truell Huffman, Air Cadet is now stationed at Mt. Pleasant, Iowa. Truell was moved from Shepherd Field at Wichita Falls, Texas.

Mr. T. J. Cherry and Mr. Edd Todd returned to their work on Monday of this week. Mr. Cherry is working in Amarillo, and Mr. Todd in Dumas. Both have been off the job on account of injuries.

Junior Moore and Mrs. W. M. Moore of Muskogean, Mich., are visiting here in the Kirkpatrick home. They will be here for two weeks.

Mr. and Mrs. E. H. Watt and Mr. and Mrs. E. M. Glass have returned from Navarra county. They also stopped in Grand Prairie where they visited Fred Watt, Jr., who works for North American Aviation Co.

Mrs. V. F. James of Little Rock, Ark. is in Hedley visiting her aunt, Mrs. J. A. Lemmon.

The Wm. Biffle family returned from a visit in California on last week.

Hedley Old Settlers Picnic To Be Held On August Twentieth

Pressure Cookers are Only Safe Method for Canning Non-Acid

Use of pressure cookers is the only method that can be recommended for home-canning of non acid foods, according to canning experts.

This is to avoid growth of botulism spores which create a poison so deadly that just tasting a canned product can result in death. The poison cannot be detected by smell or sight and is even tasteless, the experts say.

The experts are emphasizing that only methods known to be safe should be used.

Canning instructions may be obtained from any of the Donley County canning plants.

NO INFANTILE PARALYSIS HERE

Local health officers today branded rumors of infantile paralysis in Donley County as false and informed the public that a case in discussion proved to be negative.

Pointing out the fact that rumors spread like wildfire the health officers cautioned persons not to believe everything they hear.

Although Polioyitis is more or less prevalent over the state, Donley County residents may rest assured that no cases have been reported here.

MARION H. BAKER GETS COMMISSION

Fort Washington, Pa. July 28.—Marion H. Baker of Hedley has been commissioned a second lieutenant in the army of the United States after successfully completing a course of training at the Adjutant General's school here.

Lieutenant Baker was one of a selected group of enlisted men drawn from virtually all arms and branches of the service and designated to attend the officer candidate school.

During the intensive course he received training in the executive and administrative function of the nation's largest business, the army of the United States.

MRS. MAY TAYLOR VISITING IN THE CASSIDY HOME

Mrs. May Taylor of Clyde, Texas is here visiting in the Cassidy home. She is a niece of Mrs. Cassidy. Other visitors in the home over the week end included Mrs. E. V. Hawkins, and her daughter, Mrs. Willoughby of Shamrock, Mrs. Maude D. Chapman, of Tucos, Ariz. is also visiting in the home. She is a daughter of Mrs. Cassidy.

MOVES BACK TO HEDLEY

Mrs. J. T. Gunn moved back to Hedley over the week end. Elmo Gunn is leaving Monday for Lubbock, where he expects to enlist in the Navy. Henry Gunn is reported to be some better. He has been quite ill for several weeks.

SPECIAL LEGION MEETING

There will be a call meeting of the Adamson-Lane Post of the American Legion next Tuesday night, August 10 at 9 p. m. at the Legion Home. The purpose of the meeting is to elect officers for the year, election of delegates to the State Convention matters of importance.

The local Post now has 41 members, three more than last year. Their quota was 20 so they have received special mention for having more than doubled their quota.

WOMEN SERVING IN MORE THAN 100 ARMY JOBS

"When she enrolls in the Women's army corps her last training is taken into account, and, if she possesses certain skills or knowledge, she will be sent directly to active duty upon completion of her period of basic training. She will be 'on duty' at an army post or station, doing work she knows and likes, and helping the army to place another man where he is needed on combat duty."

If an enrollee has no special training, she may be sent to a WAC training school where she will be taught a valuable trade that will help the army win the war.

ANNOUNCE REVIVAL

The revival services of the Church of Christ will begin August 27 with the evening service. Services will be held both morning and evening. Time of service later. Bro. Tillet Teddie will be

Donley County pioneers, who survived all the hardships of the West, will keep their annual picnic going and set the date for this year's gathering as Friday, August 20.

In a statement issued by President Rains today, he said that the arrangement committee had delayed action until a late date but after consulting many of the old timers it was decided to make definite plans for the occasion.

President Rains said he expected the crowd to be smaller this year due to rationing and because many of "the boys are in service, but the picnic this year will prove a patriotic deed as there are many things to take into consideration that have not confronted us before."

In addressing the old timers at large, the president continued, "Due to the rationing, etc., we feel that your excuse for not attending is already justified, but it is our hope that by having the picnic it will renew and revive our pioneer spirit and may we resolve to leave the 1943 picnic with renewed determination to first do our every bit to win this war so all our people will be back to attend our future picnics."

The program committee is already on the job. Other committees will be appointed in the very near future. We ask the cooperation of all old settlers toward making this picnic the very best we possibly can.

"All who promised to donate a bench, we ask you to have your bench ready by August 19.

McKnight

This community was shocked last Monday night when the news spread that Mr. Charlie DeBord had suddenly passed away. His passing was not wholly unexpected, as he had been in bad health some little time, although he was able to be up most of the time. "Uncle Charlie" was sitting on the porch talking to his youngest son, Pvt. Alton DeBord, who had just come home on a short visit, when his time came. "Uncle Charlie" was an old timer in this country and was well liked by all who knew him.

Surviving besides his widow are two daughters: Mrs. Ray Burdine of Amarillo and Mrs. Bonnie Muncie of Hogerman, N. Mex.; two sons: Buddie of McKnight and Alton, who is in the army stationed at Topeka, Kansas; three brothers: W. H. of Leslie, Walter of McKnight, and Mack of Strong City, Okla., three sisters; Mrs. Ira Hamill of Sterling City, Mrs. Mannie Watkins of Amarillo, and Mrs. Daruse Horn of Abboth, N. Mex.; five grandchildren and a large number of nephews and nieces.

Rev. D. Lee Hukel of Stamford started a revival meeting Sunday morning which was well attended as was the night service. Every body is invited to attend at any time during the week.

Pfc. James Dalton Duggins and his friend, Pfc. Arthur Horn, from the army air base in Amarillo visited in the home of J. W. DeBord (Thursday and Friday).

Mrs. Gladys Cantrell visited her brother, Joe Adams, and family Sunday.

Velma Kyle of Amarillo is spending her vacation with her sister, Mrs. Cordwell Duggins.

Mr. and Mrs. Price Johnson of Quail attended church here Sunday morning.

Mr. and Mrs. Leo Usury and children from Lelia Lake attended church here Sunday night.

Seaman 2-c Alvin Mesoir, his wife and baby have been visiting relatives and friends in this community for a few days. Alvin or P. C. as he is better known, has to return to his base in San Diego, soon.

Mrs. Ira Hamill of Sterling City and her daughter, Mrs. Joe Dyches of San Angelo, went to Amarillo Sunday afternoon to visit Mrs. Mannie Watkins before going on home.

Pvt. Alton DeBord left Sunday night for his camp in Topeka, Kans.

the preacher for these services. You are cordially invited to hear him.

FARM PROFITS — ???

We cannot speak with authority of other sections of the country but farmers in Donley County are becoming irritated by statistics which inform the world in general that agriculture is making a financial killing out of the war.

If the statisticians would leave the city long enough to take a look at the conditions a local farmer must try to operate under, they would go back and toss their statistics out of the window.

For example, a lot of ballyhoo has been published about the "flood" of men going back to the farms. One farmer was recently subjected to the flood—at \$4.50 per day for "choppers." Two men, one a professor working only to help the farmer in a pinch and the other man looking for easy money, went into the field to hoe. At the end of the day they had hoed less than one row, or a fifth of an acre, each. That night they were paid off. Net result: Nine dollars for two rows of cotton . . . an average of around \$20 an acre for chopping cotton.

This is merely a sample. But it shows the country is going to go hungry if the pencil pushers that make the rules don't quit writing fairy tales.

For additional results, compute your picking and ginning and planting, etc., costs.

THE RIGHT ANSWER

"I am getting," said an eighteen-year-old, "so I hate to ask an older person for an opinion about anything. They won't just answer your question. They start in giving a lot of general advice and a lot of their personal experiences."

Isn't it about time that these youngsters who are taking over the war and doing a far better job of it than the tradition-minded oldsters should be allowed to tell us a few things. Only two years ago, a lot of grown up men and women were using space in magazines and on platforms sanctimoniously bewailing the shortcomings of Young America. What did Young America do? They just laughed and that made their would-be saviors all the more "deeply concerned." Then, when the deeply concerned statesmen and world leaders led the world into its present mess, the youngsters began taking over and pulling a lot of irons out of the fire, including scrap iron shipped to Japan.

The next time one of these bright-eyed, clear-thinking young Americans asks your opinion about something why not show a little wisdom and come back with this intelligent answer . . . "What do you think, son?"—CAPS and Lower Case.

The President's Fair Employment Practices Committee is taking action against both employers and unions toward ending discrimination against workers because of "race, color or national origin." The announcement specifies Mexicans and negroes.

There are tens of thousands of persons available for skilled work, who are ignored by employers and banned by certain unions because of race, color and national origin, for whom the FEPC has yet to say a word. They are citizens, too. Japanese-Americans against whom there is no suspicion. — WICHITA FALLS RECORD—NEWS

LITTLE JACK HORNER

Washington, D. C. GERMAN - ITALIAN ANTAGONISM

With the invasion of Sicily, the question of whether Germany and Italy can pull together as a team now becomes something much more than a subject of amusing wisecracks. The basic hostility always existing between them — both the armies and the people — may now prove to be the fatal fault in the Axis.

United States diplomats and newsmen who lived interned in Italy until May, 1942, recall many an expression of Italian resentment against the Germans.

On the night before the interned Americans left Rome to return to the U. S., a group of newspapermen, including Richard G. Massock of the Associated Press, visited a restaurant called Biblioteca, which had been a favorite haunt for most of them before the days of internment. The place was packed, largely with Germans, but when the head waiter recognized them, he hustled some diners off, to make room for his old American friends.

An Italian at the next table mumbled something about Germans intruding, whereupon AP's Massock spoke up: "We are not Germans!" "Excuse me," said the Italian, indicating clearly that to call a man a German is a fighting word.

This prompted another Italian to come to Massock, the first American he had seen for months. With an affectionate embrace, he said: "Please give my kind regards to President Roosevelt."

TANKS AND POTATOES

The army doesn't like to say too much about it, but the United States now has an embarrassment of riches with respect to tanks. A year ago, and for at least a year before that, there was great clamor about speeding production of this weapon with which Hitler overran the continent.

However, both the invasion of Sicily and raids over Germany now make it apparent that the weapon with which we shall take back the continent is not the tank but the plane.

Tanks were needed for the campaign in North Africa, and a year ago they were the most important weapon in the arsenal in preparation for the landing of November 8.

But fewer tanks were expended in North Africa than had been expected, and we still have most of these which were sent to that theater. Further, there will be less demand for tanks in Europe than in Africa, because of shorter distances and less mobility.

A tank factory closed down in Ohio, last week, a fact which normally would have caused great alarm. But it passed almost unnoticed because of the fact that we now have miles of tanks standing in line waiting to be used what ever theater may require them.

NOTE: Claude Wickard says that tanks are like potatoes. A few months ago everybody clamored for them. Now they are a glut on the market.

NAZI AIR STRENGTH

Air force experts are commenting on the fact that German air activity is stiffer in every theater of the European war. More German planes have been rushed to Italy, are also active on the Russian front, and are more active over the European continent in combating Allied bomb raids than at any previous time in the war.

Experts believe the Germans have put up all their air strength. This is highly significant, for it means they have taken everything they have leaving no reserves.

Thus every loss inflicted on the Luftwaffe in any of these theaters represents a decline from the minimum required for a defense of the continent. And when you cut a force below its necessary minimum, you are bringing about its downfall.

MERRY-GO-ROUND

A professional cameraman's appraisal of capital figures, as seen under the flash bulb: Cordell Hull, patient; Donald Nelson, harried and hurried; handsome Ed Stettinius, vain as a Hollywood actor; Henry Wallace, philosophically reflecting on "how the news camera distorts life."

Enemy broadcasts, intercepted by FBI, declare Washington is pushing an Argentine break with the Axis with "increasing eagerness" to satisfy U. S. "appetite for encamping" on the Falkland Islands — "unjustly" snatched

THIRD WAR LOAN DRIVE

Fifteen billion dollars is the goal for the Third War Loan which President Roosevelt has proclaimed will be launched September 9. In his proclamation the President said, "Our need for money now is greater than ever, and will continue to grow until the very day that Victory is won; so we must ask far more sacrifice, far more cooperation than ever before."

ARMY PHOTO SERVICE GROWS

The Army's radio photo service, which made it possible for the public to see newspaper pictures of the assault on Sicily on the same day that the invasion was launched, will be augmented in the immediate future by the same type of transmission from the South Pacific theatre, the War Department has announced. Personnel of the U. S. Army Signal Corps, with their equipment, are now in Australia, finishing preparations for the new service.

SUPPLY OF FATS, OILS

Despite heavy wartime demands on the supply of edible fats and oils (principally lard, butter, shortening and margarine), 44 pounds per capita — about five pounds less than in 1942 — will be made available to American civilians during the 12 months ending June 30, 1944, the War Food Administration has announced. Of the total civilian allocation, approximately 9 ounces per week per capita will be available for direct purchases, and

by Britain from Argentina. Thus Berlin tries to drive wedges both between Argentina and U. S. and between U. S. and Britain.

PACIFIC WAR WILL TIGHTEN

Operations in the Pacific have met with glorious initial successes, and American forces will push on from one island to another, in a campaign which will have no permanent pause.

But don't look for a continuation of one-sided warfare much longer. We made our first landings in places where the Japanese were weak and where resistance was not substantial. But as we advance farther, resistance will become stiffer, and the progress slower.

an additional 4 1-2 ounces for indirect consumption in such items as restaurant meals, bakery products, mayonnaise, etc.

COST OF LIVING DROPS

With other living costs relatively stable, a drop in fresh vegetables and butter prices cut the cost of living for city workers by .2 per cent in the month ending June 15 — the first month to show a reduction since a year before Pearl Harbor, the U. S. Department of Labor reported, recently. Food prices as a whole making up over 40 per cent of the cost of living index, declined 0.8 per cent. The cost of living index now stands at 124.8 per cent of the 1935-39 average. Food prices are 45 per cent above Jan. 1941 and more than 16 per cent above May 1942.

HOME CANNERS WARNED

Home canners have been warned by the U. S. Department of Agriculture against the use of "canning powders" and other chemical preservatives. W. G. Campbell, commissioner of the Federal food and drug administration, said that use of some of the "canning powders" constitutes a definite health hazard. The term "canning powders" includes boric acid and its compounds and substances like metabisulfite which yield sulfurous dioxide when brought in contact with an acid-reacting food product. The safe way for the home canner is to process foods adequately with heat and not to use chemical preservatives. For safety's sake, rely on thorough heat sterilization.

ARMY EXCHANGES SELL EXOTIC WARES

Army Exchanges, which follow American troops wherever they go, are now dealing in such items as kangaroo rugs, grass skirts, and native-made jewelry, in addition to their staple line of cigarettes, candy, soft drinks, and other home commodities, the war department has been informed. Since many of the soldiers want to send such things home, the exchange service buys them from the natives at a reasonable price and resells them to the soldiers. The natives were inclined to "jackup the price" on direct sales. Grass skirts sell for approximately \$1.50, while a

good kangaroo rug may cost \$20.

FLOOD RESTORATION LOANS

Flood restoration loans to enable farmers to get their flood-damaged farms back into production have been authorized in 34 counties in Arkansas, Oklahoma, Illinois, Kansas, Michigan, Minnesota, Mississippi, Missouri, Ohio, Oklahoma, Wisconsin, and Texas. Secretary of Agriculture Claude R. Wickard announced recently. Two types of loans will be available to eligible farmers; real estate restoration loans which may be made for a period of up to 20 years and will bear interest at 3 1-2 per cent; and production restoration loans which may run as long as ten years and will bear interest at 5 per cent. These loans will be made only to farmers who do not have other credit available and security must be provided. Farmers needing flood restoration loans should apply to their nearest Farm Security Administration county office.

GAS COUPONS CHANGED FOR TRIPS

Motorists can use their "A" ration books for trips into, or out of, the Eastern gasoline shortage area, according to rules recently announced by OPA. Since July 21, Eastern motorists have been using "A-6" coupons, while those outside the East have been using A-7's. To overcome these difficulties in travel across the border a new amendment to the gasoline rationing regulations permit A ration holders to exchange any of their valid A coupons for other coupons that may be used in the area in which they expect to travel. Exchanges may be made and further information secured at the War Price and Rationing board.

POINT REDUCTION CONTINUED

The provision permitting retailers to make emergency reductions in the point values of rationed meats, fats and dairy products in imminent danger of spoiling; which was to expire July 31, has been extended indefinitely, OPA has announced.

MASS MAILING FINISHED

Approximately 122,000,000 copies of War Ration Book Three had been mailed by the first of last week. OPA announced that: (1) anyone who does not receive his war ration book three should apply at his local board between August 1 and 10, (2) a plan is now being set up to distribute war ration book three to members of the armed services who are eligible for ration books; 3. Persons receiving war ration book three should sign their names and addresses in the spaces reserved for that purpose on the cover.

STORAGE FOR POTATOES

Arrangements have been completed to provide additional stor-

age facilities for handling the late crop of 1943 Irish potatoes, the war food administration has announced. WPB has approved the allocation of materials for the construction of storage facilities sufficient to take care of 15 million bushels of potatoes. Farmers should apply to their county war boards for approval to begin construction.

BINDER TWINE SUPPLY

An adequate supply of binder twine is available for this year's harvest of grain crops, the WPB binder twine sub-committee has reported. This ample supply has been made possible through the blending of cotton with henequen to produce a new twine which has proved satisfactory.

INCREASED SHOE SUPPLY

To increase the supply of children's and infant's shoes, and men's work shoes, WPB recently amended order M-217 (footwear) to permit a 25 per cent increase in the output of shoes for boys, misses, children, and infants. Production of men's work shoes may be increased by 15 per cent and men's safety shoes by 25 per cent. The order also will permit production of shoes at price levels where there is greater consumer demand.

Smaller quotas of new passenger car tires for August and larger quotas of used and recapped tires have been announced by OPA, based on rationing allotments assigned for the month by the Office of Rubber Director. The August quota of grade I tires is the lowest since last April. OPA officials warned that drivers who are eligible for new tires may have to accept used or recapped types as long as the quota of new tires is low.

SUPPORT YOUR HOME TOWN BANKS

At the present time when banks of the country, more especially those of small communities, are being taxed to the limit of their facilities by government activities, it is very important that we support our home town bank.

Government bond sales are handled by your local bank without any charge for clerk service, and clerk service is very expensive to the bank when obtainable at all. They are also handling ration banking with only a small fee for the services. The banks are buying heavily in government bonds which bear a smaller interest rate than the series E bonds the individuals are allowed to buy.

Your bank is usually one of the largest tax payers in the community. They are for anything that will build up the community because they realize that as the community grows so will the bank. The employees of the bank and usually a large part of the stockholders are members of the community, so as the bank prospers the profits will be spent at home and the community will prosper as well.

For these reasons our people should take their loans to the bank rather than borrow from the various government agencies who pay no taxes and take very little part in community affairs. The bank loans the peoples money and the loan must be safe and the interest rate is based on the amount needed to handle the losses that may occur, pay taxes and the expenses of taking care of your deposits with them. While the government agencies loan at a small rate it is very often the case that you will actually pay more for your money when you count off the inspection fees, time lost and inconveniences, and in most cases traveling expenses, as the agencies are usually located in the larger towns. The present price of farm labor is about 50c per hour and a farmer should be worth more to himself than a farm hand so if he will figure his time lost it may be that he is actually losing money at a lower interest rate when he takes all these things into consideration.

We just wanted to let you know about your home town bank—a little bank which through its officers and employees personalities in a business way the Western spirit of friendliness and helpfulness.

THE COAST GUARD WANTS 17 AND 18 YEAR OLD BOYS

The United States Coast Guard wants men who have passed their seventeenth birthday and who have not become eighteen. There are many openings in the Coast guard for these seventeen year old men who are desirous of joining its ranks. The men who enlist will be sent to the Coast Guard training station, St. Augustine, Fla. All men who desire to enlist should write the United States Coast Guard recruiting office for full information and an appointment for physical examination. The address of the coast guard in Lubbock is Coast Guard Representative, Room 217, P. O. Box 42, Post Office Building, Lubbock, Texas.

Kidneys Must Work Well-

For You To Feel Well 24 hours every day, 7 days every week, never stopping, the kidneys filter waste matter from the blood. If more people were aware of how the kidneys must constantly remove surplus fluid, excess acids and other waste matter that cannot stay in the blood without injury to health, there would be better understanding of why the whole system is upset when kidneys fail to function properly. Burning, scanty or too frequent urination sometimes warns that something is wrong. You may suffer nagging backache, headaches, dizziness, rheumatic pains, getting up at night, swelling. Why not try Doan's Pills? You will be using a medicine recommended the country over. Doan's stimulate the function of the kidneys and help them to flush out poisonous waste from the blood. They contain nothing harmful. Get Doan's today. Use with confidence. At all drug stores.

DOAN'S PILLS

Rationing . . . At A Glance

GASOLINE—"A" book coupons No. 7, good for four gallons outside the East Coast shortage area, must last through September 21. Within the shortage area, "A" book coupons No. 6 are good for three gallons each. "B" and "C" coupons cut to two and one-half gallons in twelve of the Northeastern states of the shortage area. "B" and "C" coupons good for three gallons in the remaining five states of the Eastern shortage area. All gasoline coupons in the possession of car owners must be endorsed with the owner's license number and state of registration.

SUGAR—Stamp No. 13 good for 5 lbs. through August 15. Stamp No. 14, good for 5 lbs., becomes valid August 16 and remains good through October. Stamps Nos. 15 and 16 are good through October 31 for 5 lbs., each for home canning purposes. Housewives may apply to their local ration boards for more if necessary.

COFFEE—Ration stamps no longer required.

SHOES—Stamp No. 18 (1 pair) is valid through October 31.

STOVES—Purchase certificates now issued and normally valid for 30 days from date of issuance, will be invalid after August 23, by which time it is expected the new nationwide stove rationing plan will be in effect.

MEAT, ETC.—Red Stamps T and U, now valid, expire August 31; V is valid August 8, expires August 31; W is valid August 15, expires August 31.

PROCESSED FOODS—Blue stamps N, P, Q remain valid through August 7. Blue stamps R, S, T, became valid August 1 and will be good through September 20.

ADDITIONAL SOUTHWEST GAS FOR THE ARMED FORCES, NOT PLEASURE

Slicing two gallons of gasoline from the ration cards of Texas motorists, as suggested by some federal authorities, will impose roughly uniform restrictions in all sections of the country with the surplus going to the armed forces and not pleasure drivers of the East.

Since mileage rationing was begun, Texans and other car drivers in the Southwest have enjoyed a surplus of petroleum products accumulated by jammed transportation.

No margin of petroleum products is available for civilian use above minimum requirements of the armed forces and essential civilian use. Petroleum Administrator Harold Ickes, his subordinates and many oil executives say.

A temporary Texas backlog of petroleum products was accumulated through dearth of transportation outlets to the East and the Pacific coasts.

Texans in recent months were permitted to siphon much of the apparent surplus for civilian use.

Recently completed pipelines are chipping at this transportation dike. In a few months the dike is expected to collapse, opening an avenue to the east for all the oil Texas can produce.

Completion in July of the Eastern link of the 24-inch crude oil pipeline from Longview to the Eastern seaboard—the nation's principal oil consumption region—will afford an outlet for 2,100,000 barrels or nearly 90,000,000 gallons of Texas crude each week.

From Norris City, Ill.—the terminal until war emergency pipelines punched through the eastern extension—an estimated 70,000 railroad tank cars have shuttled to the East Coast with pipeline's oil load from Texas.

Now this still armada will swing to the direct Texas to East Coast route, supplementing the

300,000-barrel daily capacity of the Big Inch line by dumping probably 1,000,000 barrels of oil daily into eastern terminals.

By December a 20-inch line scheduled to carry gasoline and other products will swing into operation alongside Big Inch, the biggest pipeline in size and capacity ever built. The production line will funnel about 240,000 barrels a day into the East.

Other eastward avenues for petroleum are opening as tankers spill from shipyards and submarine sinkings decline. New oil barges are lumbering down coastal waterways between Gulf Coast fields and the East.

By early 1944, Texas oil will be sloshing to the East and other consumption centers at 2,000,000 barrels or more a day.

STEVENSON IS AGAIN CUT IN GASOLINE RATIONING

AUSTIN — Asking if there were any truth in the reports of a coming reduction in the value of gasoline ration coupons issued to Texas motorists, Governor Coke R. Stevenson has wired OPA Administrator Prentiss Brown that he requested a statement from the official.

The telegram said: "A statement from you showing no such intention would be very helpful to quiet the rumors and a general feeding of unrest and uncertainty. People generally will resent any attempt to reduce value of gasoline coupons."

CHILDREN SHOULD BE IMMUNIZED SOON AS POSSIBLE

AUSTIN — "Few conquests of science have been as spectacular and complete as those relating to diptheria," Dr. Geo. W. Cox, state health officer, said today. "Science has firmly established the value of serum treatment in both its preventive and curative phases. However, toxin-antitoxin, or its successor toxoid for immunization and antitoxin for cure, are serums of which the general public is even yet not fully aware."

An inactivated, toxoid is the immunizing or preventive agent now usually employed. However, three or four months are required for the body to develop immunity. At that time the Schick test can be applied to determine the results of the preventive treatment.

Dr. Cox urged that children receive diptheria immunization as early as possible, preferably as soon as they are six months old. The necessity for this immunization is recognized when it is known that two thirds of all deaths from diptheria occur in the age group under six years.

"It cannot be too strongly emphasized that to deprive children of this protection which science has made possible is to subject them to unwarranted and unnecessary hazards that can easily turn into a tragedy," Dr. Cox said. "Parental interest in immunization must be more widespread if the Texas death rate from this

GOVERNOR STEVENSON'S PROCLAMATION URGES RETURN OF DEPOSIT BOTTLES. In the proclamation, just issued by Governor Stevenson, Texans are urged, during the month of August, to conserve the existing supply of returnable deposit bottles by returning them promptly to the dealers. Governor Stevenson's proclamation points out that the general public, by returning idle milk, carbonated beverage, and beer bottles, which can be sterilized for civilian re-use, will permit the glass industry to re-use even more of its facilities for the manufacture of glass containers for food, and other items, required by the armed forces at home and abroad. Mrs. Margaret McDuffie, the Governor's personal secretary, was photographed with him at the time the proclamation was signed.

Cooling warm foods before storing and covering most foods except those with thick skins will keep down the temperature of your ice box. Otherwise, their heat, flavor, and moisture escape to freeze on the cooling unit.

Yellow squash is rich in vitamin A.

Frostbite ruins vegetables if they are paced in the coldest part of the refrigerator, or if the refrigerator is too cold. Ice crystals take away taste, and lettuce and other vegetables spoil quickly after being frostbitten.

disease is to be eliminated as a cause of death.

"When a child has been stricken with diptheria, antitoxin is the only treatment that will save his life. Also, to be effective, it must be given early in the illness and in large doses. Delay is usually caused by parents' failing to realize that any sore throat may actually be diptheria."

THE GOVERNMENT IS URGING YOU TO BUY YOUR COAL WHILE YOU CAN GET IT.

J. C. Woolridge Co.

BUILDING MATERIALS

Hey, Kids! YOU CAN HELP, TOO! Round Up and Return Deposit Bottles Today!

It's patriotic—and practical—to search for and return to your neighborhood dealer, empty MILK, BEVERAGE and BEER BOTTLES. You'll have your original deposit refunded . . . and what's more, you'll help your family and friends by assuring a greater supply of the liquids

for which these idle bottles are needed. MILK, BEVERAGE and BEER BOTTLES are sanitarily re-sterilized right away by the bottlers. Return all these "stray" bottles in your home today and you'll help conserve vital material, machinery and manpower needed for the War Effort.

PROCLAMATION
By The Governor of the State of Texas No. 8029

TO ALL TO WHOM THESE PRESENTS SHALL COME:
WHEREAS, the conservation of deposit bottles, like the conservation of all materials these days, is of vital importance to everyone; and

WHEREAS, millions of these empty deposit bottles are known to be in homes, garages, business places and industrial plants; and WHEREAS, the return of these bottles which can be sterilized for civilian re-use would permit the glass industry to use even more of its facilities for the manufacture of glass containers for food and other items required by the armed forces at home and abroad;

NOW, THEREFORE, I, Coke Stevenson, Governor of the State of Texas, do hereby request that every person cooperate in this deposit bottle conservation program which opens August 1 and ask that they search their homes, garages, business places and industrial plants and promptly return these containers to the places from which they were obtained.

IN WITNESS WHEREOF I have hereunto signed my name officially and caused the seal of state to be affixed hereto at Austin, this the 19th day of July, A. D. 1943.

(Signed) COKE R. STEVENSON, Governor of Texas.
(SEAL)
(Signed) Sidney Latham, Secretary of State.

CHURCH OF THE NAZARENE

By the time this is being read our meeting will be well on its way, but will still have another week to go, closing the evening of the 15th. We are looking for the best attendance we have had since coming here. We want all to feel welcome and make themselves at home.

The Methodist have just closed a good meeting, which has helped all of us. And we are sure that if we can have a revival that all will benefit from it. It really doesn't matter who does the good, just so good is being done.
Remember the time. Prayer, 8:45. Service, 9:00.
Howard Smith, Pastor.

NOTICE
All church calendars with resident pastors are up to date in this issue of the Informer. If the other churches will furnish us the information we will be glad to have your calendars and announcements, etc. — Editor.

THE LOW DOWN FROM HICKORY GROVE

I guess with most of us there is something that gives us a pain in the neck. With me, it is when some windy gent rises up and says the USA is such a boggeddown kind of unmanageable and difficult country that we gotta look out or we are sunk and nobody can save the day except the ones who have been saving it. If the ones who have been saving it have let it go to the dogs, almost — how come they can save it some more? That is where I get riled.
Jeffries or Fitzsimmons or Dempsey — none of them were champions forever. Better and new men always showed up, to put a haymaker on the slipping champions.
But I am straying off my subject of a pain in the neck. When I stop to think that these talkative gents take me for a sucker, my blood pressure zooms. The world will be revolving 2000 years hence — and no present living person will be there then to give it super-management.
With 130 million people in our USA I can't savvy how any one person can be indispensable — dingbust if I can. Fact is we could dispense with a few — and I would not overlook the ones

POTATOES SHOULD BE PLANTED AFTER RAIN IS RECEIVED

STILLWATER, Okla. — Quick sprouting, early maturing Irish potato varieties such as Warba and Triumph make better fall crops than the slower sprouting Cobblers. Dr. H. B. Goodner, Oklahoma A. & M. College horticulturist says.
Plant the fall crop, if possible, at a time when the soil is cooled by recent rainfall (unless irrigation is used) Soil temperatures of 90 degrees F. and above cause a marked reduction in plant stands, and consequently in yields.
The first week in August appears to be about the best time for planting the fall potato crop in this area. Seed planted earlier is still dormant, takes longer to sprout, and is therefore more likely to encounter and be damaged by high soil temperatures.
Seed planted has less chance of making a crop before frost.
Principal reasons for failure of the fall potato crop, Dr. Corder said, include: Low yields as the result of poor plant stands. And poor plant stands are the result of decay of the seed pieces.
Another cause for fall potato crop failure is unusually early frost, which terminate the growing season before the tubers are big enough to make a profitable yield.
Another cause for failure to grow fall potatoes is a lack of moisture, especially in the central and western parts of the state.
Seed tubers cut before planting do not require chemical treatment to induce sprouting. It is best to cut the potatoes immediately before planting since the "shock" to the potato helps to awaken it from its dormant condition, Corder says. And this awakening, in turn, helps to cause the potato to sprout.
Care should be exercised to see

telling us they are our only hope and salvation.
Yours with the lowdown,
JO SERRA.

that potatoes are not planted until there is a break in the weather and that the soil temperature is below 90 degrees F. If this is not done, the potato sets may be severely damaged by heating and poor stand of plants result.
hot dry weather is no time to plant potatoes. The excessive heat causes the newly cut sets to assume an exceedingly high respiratory rate and they go to pieces.

PHOTOS OF CHILDREN UNDER ONE YEAR OF AGE MAY BE SENT TO OVERSEAS SOLDIERS

The transmission by V-mail of photographs of children under one year of age of soldiers serving overseas will be permitted under certain conditions, the War Department announces. The picture may include the mother or another person holding the child.

Under the ruling the photograph must be not one-third of the correspondence space in size and that the V-mail form not be altered, treated or sensitized in any manner.

Which was your favorite kind of candy when you were a lad: a "wine-ball or a "jaw-breaker?" Let me hasten to add for the benefit of the uninitiate that there was no wine in the former (it derived its name from the transparent red color) and that the latter actually broke no jaws but would have if you had tried to chew it instead of letting it dissolve in your mouth — a process which took only about two hours.

"Do you think the radio will ever take the place of newspapers?"
