BONDS OVER AMERICA

HEDLEY SCHOOL BONDS

It has long been the pelicy of the Hedley School board to redace expenses wherever possible In 1940 the district owed many shousand dollars in bonds and otes issued at different times and at different rates of interest, Under the calling in of the bonds a 1940 and the ensuing reissue. be rates of interest were lower d to \$i percent This was a say ng of several hundred dellars

Last week the present school pard offered to H L Sheaffer ad Co our present bonds at a ate of 32 percent for half and 34 on the other half. This will also make a saving of a few hundred dollars each year by reduced in erest. Bids by bonding compa ies to buy our bonds is a good ign that we are not as bankrupt s some seem to think

Mr C. O Bill also states tha f the people would pay thei taxes as well for the next two years as they have this up to dat that the school tax rate could be reduced about 20 percent in 1945

Largest and Smallest The world's largest living creature, the whale, is many billion times as heavy as the world's smallest, a tiny kind of germ.

WEEKLY NEWS ANALYSIS

Nazis Wreck Northern Italian Ports To Hamper Future Allied Operations; United Nations Formulate Relief Plans U. S. Issues Current Casualty Figures

(EDITOR'S NOTE: When epinions are expressed in these columns, they are those of Wastern Newspaper Union's news analysis and not necessarily of this newspaper.)

Allied Pact-Seated around conference table from left to right, U. S. Allied Pact—Seated around conference table from left to right, U. S. Secretary of State Cordell Hull; Russian Foreign Commissar Vyacheslav Molotov, and British Foreign Minister Anthony Eden, sign historic pact in Moscow, calling for League of Nations to preserve postwar peace.

Said Hull: "We agreed upon a broad, basic program of international co-operation. The program contemplates the hastening of victory . . ., the preservation of peace and the promotion of human welfare . . ."

Destroy Ports

Italy's northern ports of Leghorn and Pescara were blocked by Nazi demolition squads to render them useless to the Allies for future operations, or in the event Gen. Dwight Eisenhower attempted landings above Rome to trap elements of five German divisions holding out in the

mountainous country to the south. Principal action in Italy centered on the Fifth army front, where Lieut. Gen. Mark Clark's mixed British and U. S. forces were edging forward at the mountain passes at Mignano, to gain the long, level valley leading to Rome.

Once General Clark's warriors burst through at Mignano, they still will have to buck elaborate Nazi mountain fortresses farther up the valley at Cassino, which stands some 60 miles from Rome. Because Allied troops must clamber up rugged slopes in the face of entrenched enemy machine gunners and mortars, and U. S. artillery must rake whole mountain sides to clear out Nazi posts, progress necessarily is slow.

Fit Italy Into War

To get Italy functioning on the side of the Allies, Gen. Dwight Eisenhower established a control commission headed by Maj. Gen. Kenyon Joyce, formerly of the 9th service command. service command.

Purpose of the commission will be to fit the country's agriculture and industry into Allied war plans, and to regulate Italian governmental ad-

ministration. To prevent any political party from establishing its hold over the country through military force, the commission will control Italy's revived fighting services.

Advising the commission will be the U. S., British, Russian and French committee on Mediterranean affairs, and Greece and Jugoslavia will be included later.

WORLD RELIEF:

Allied Plans

Assembling in the east room of the White House, representatives

from 44 United Nations signed agreement for the relief and rehabilitation of Europe, with each country providing supplies to the limit of its capacity. Of the 46 million

tons of food, seed, fuel, clothing, raw materials, machinery and medical supplies that will be needed for European relief during the six months fol-

Lehman lowing the war, the U. S. will furnish nearly 91/2 million tons, Great Britain 31/2 million tons, Europe 29 million tons, and other regions 4 million tons. Congress will appropriate the funds for American participation.

Herbert

Slated for appointment as direc- Italy, with 1,295 killed, 4,764 woundtor general of the relief and rehabili- ed and 2,497 missing. tation administration was former Of the navy casualties, 12,548 are by Australia, New Zealand, South Governor Herbert Lehman of New dead, 5,542 wounded, 8,999 missing, Africa and India, who operate under York. Purpose of the administration and 4,228 prisoners. is to tide over distressed people of reconquered areas until they can put army, about 2,500,000 men will be their factories and land back into serving abroad by the end of the production.

CROPS:

Weather Helps

Profiting from favorable weather, the 1943 corn crop was estimated at 3 billion, 85 million bushels by the department of agriculture on the basis of conditions November 1. This compared with last year's record crop of 3 billion, 175 million bush-

With October weather good and without widespread frosts, the large acreage of late corn reached maturity in Iowa, Missouri, northwestern Ohio, and parts of Michigan and Indiana. Checking summer drouths, rains perked up late corn in the South Central states. Record yields were in prospect for the Northwest.

Other crop estimates for 1943: Wheat, 835,816,000 bushels; oats, 1,-148,692,000; barley, 330,212,000; rye, 33,314,000; flaxseed, 51,486,000; soy beans, 206,017,000; rice, 69,019,000; potatoes, 469,092,000; sugar beets, 7, 239,000 tons, and peanuts, 2,681,955,-000 pounds-record highs for rice, potatoes and peanuts.

Hogs Crowd Markets

Chicago's sprawling stockyards teemed with over 60,000 live hogs after a high three-day shipment of 128,500 head, which compared with 85,552 for the previous week and 66,-418 for the same period of 1942.

As a result, packers paid the "floor" of \$13.75 for only the heavier weights out of the 200 to 275 pound pledged price support. Packers obtained many bargains in classes for which no "floor" has been con-

structed. So called "floor" prices were high on the flooded market, equalling the lowest tops since last December.

SOUTHWEST PACIFIC: At Japs' Rear

Pursuing his policy of pinching off Japanese strongholds in the Southwest Pacific by cutting off their communications, Gen. Douglas MacArthur has established U. S. forces to the rear of the enemy's important forward base of Buin on Bougainville island in the Solomons.

With U. S. marines and doughboys standing astride the Japs' communication lines leading to Buin, they were in position to strike against the enemy supplies, and his main body from the rear.

Bougainville is the Japs' last important holding in the Solomons, and apparently they were determined to take advantage of the wild nature of the humid, tropical isle for another long, delaying action.

U. S. CASUALTIES: Total 120,967

U. S. casualties totaled 120,967 for almost two years of war, with the army reporting 89,648, and the navy

Of the army casualties, 12,841 were killed, 30,263 wounded, 23,952 missing and 22,592 prisoners. Since the landing at Salerno, September 9, the U. S. suffered 8,556 casualties in

year.

RUSSIA:

Attack Last Railroad

Russia's last north-south railway came under the attack of Red troops as they pressed forward on a 70mile front west of recaptured Kiev. As the Russians drove against the railroad, other forces of their army continued attacks on Nevel, less than 50 miles from the Latvian border in the north, and on Krivoi

Rog in the south.

At Krivoi Rog, the Germans continued to hold open an escape cor-ridor for the last columns of Nazi forces pulling out of the huge bend of the Dnieper river, where early Russian attacks had threatened them with encirclement.

Crossing into the eastern Crimea from the Caucasus, strong Russian forces drew up for a major attack on the 75,000 German troops reportedly massed in the huge peninsula, guarding the Black sea. The Nazis held their ground at the north entrance to the Crimea.

TIRES: Continued Shortage

Although production of synthetic rubber is expected to total 818,000

tons in 1944 compared with 233,000 tons this year, only about 30 million tires will be manufactured to meet needs of essential users of cars, light delivery trucks, taxis and farm ve-hicles. Ordinarily, 50 million tires are made a year.

Tightness in the civilian tire supply will prevail because of military requirements, scarcity of manpower operate fabricating equipment, reduction in the peace time inven-tory of tires, shortage of rayon cord for heavy duty tires, and the cut in crude rubber imports.

To obtain maximum use of present tires, the rubber manufacturers' committee counseled drivers to pre-serve their tire carcasses, or bodies, for recapping by protecting the walls and not running down treads. Further, the committee advised low speeds, adequate air for tubes, and proper alignment for wheels and

Homemade Penicillin One of medicine's most precious tures, magical penicillin, is being

Plant physician for the Jones and Laugh-lin Steel corporation, Dr. Vogel Vogel has used his penicillin to treat external infections, with complete cures effected in more than a score of cases.

CHILD DELINQUENCY:

Supervision Needed

During the last year, delinquency among girls has increased 38 per cent and among boys 11 per cent, range on which the government has | Katherine Lenroot, chief of the chil-

With 51/2 million women with children under 14 years of age working, and many fathers in service or sleeping days, a general weakening in home supervision is a contributing cause for the delinquerary, Miss Lenroot said. More than one million more women will be needed in in-

dustry this year, she reported. Other factors of delinquency, Miss Lenroot asserted, are lack of school facilities in war-expanded communities, and the increase in child la-

bor to five million this year.
"There would be little juvenile delinquency today if children were treated as as much of an emergency as armament production," Lenroot concluded.

LEND-LEASE:

British Aid

Up to last June 30, British lend-lease assistance to the U. S. totaled 871 million dollars, of which the major share consisted in supplying base facilities, barracks and hospitals for American land and air forces in the United Kingdom. Incomplete figures indicated assistance to date has topped one billion dollars.

Not included in the accounting, the British said, was the cost of food furnished on the fighting fronts where no adequate records could be kept, and the value of information and experience gained in battle and relayed to the U.S. army and industry.

The British assistance does not include lend-lease granted the U.S. separate agreements. On August 25, President Roosevelt reported U. S. lend-lease assistance to Britain alone totaled nearly 4½ billion dol-

BUILDING

STAGE SCREEN RADIO

By VIRGINIA VALE

T'S one of the tales that people of the entertainment world will be telling years from nowthat Abbott and Costello story. Last March, when Costello was stricken with rheumatic fever, and doctors said that he would never walk again, Abbott was urged to get himself a new partner. He refused. He went off the air, stopped all picture work. He and Lou had been partners in pictures and radio for 13 years, he was sure that Lou would recover, and he'd wait. His faith was justified last September, when Lou took 60 steps, one for each year of the birthday anniversary his mother was

Lou Costello and Bud Abbott

celebrating. They're back on the air now, start a picture late this month. But Fate again has dealt cruelly with the roly-poly comic, for his infant son, Lou Costello Jr., was drowned in the family swimming pool three hours before his adoring dad went on the air, brushed the tears aside and laughed as loud as he could on a coast-to-coast hookup.

"Youth in Crisis," the latest March of Time release, is going to startle a lot of complacent people. Dramatically, movingly, it tells the story of what is happening to our young people because of the disrup tions and excitement of war. Dealing with the same problem, RKO Radio is making "Are These Our Children?" Ruth Clifton, 18-year-old high school girl who originated the famous Moline Plan, has been brought to Hollywood to confer with California officials and to act as technical advisor on the film.

When "Vox Pop" transferred from the sidewalks of Houston, Texas, to those of New York, in 1935, Variety, the theatrical paper, predicted that "This show ought to last indefinite-Recently Parks Johnson selebrated "Vox Pop's" 12th birthday, so the prediction may come true.

Shirley Temple's Pekingese died recently, while his mistress was playing a comedy scene in David O. Selznick's "Since You Went Away." She'd had him for eight years. Any girl who's come home to learn that she's lost a childhood pet knows how she felt.

At last comes the definite announcement from Columbia Broadeasting System that Fred Allen will return to the air on Sunday, De-cember 12. It's said that he has staged a marked recovery to good health, and is all ready to resume his feud with Jack Benny.

If you haven't formed the habit of listening to those delightful sketches done on the Dinah Shore program by Cornelia Otis Skinner and Roland Young, better do something about it right away. Many an effort has been made to do exactly this sort of thing on the air, and many an effort has failed. Comes along on CBS right after the Bing Crosby program on NBC on Thursday evenings.

Maurice Murphy's playing a fighting pilot in Paramount's "Submarine Alert," doing all right, but he has one deep regret. As a small child he portrayed the star, John Gilbert, as a child in "Flesh and the Devil," and the leading lady often held him on her lap. The leading lady was Greta Garbo. "And when it happened," says he, "I was too young to appreciate it!"

Carlton E. Morse, writer and producer of "I Love a Mystery" and "One Man's Family," has signed to put the latter on the screen. Morse will write an original story for the film, which will be produced by Charles Rogers for United Artists release.

HIGHLIGHTS . . . in the week's news

TIGERS: The Detroit Tigers baseball club will go to Evansville, Ind., for their spring training period.

COAL: The emergency regulations on delivery of soft coal have been relaxed, Secretary Ickes announced. As modified, the rules state that a dealer cannot sell coal to a customer who has 30 days supply on hand.

BUILDING

In the first 12 months after the final armistice there will be five and a quarter billion dollars spent on private construction, according to a survey of the nation's building needs. About 8½ billion will be expended annually between 1947 and 1951, the report estimates.

Residential building will reach its high point before 1950, and dip to a Tow in the middle 1950s. Commercial, industrial and community buildings will total over a billion dollars ages to weave a gag around Dorothy Lamour into each of his pictures; the latest is in "Standing Room Early," with the new increase allowed by the War Labor board, the tries allowed for this extremely hazardous work.

DIAMOND: A 530 carat diamond, "probably the eighth largest ever found," has been dug up in Sierre Leone, British colony on the west coast of Africa.

"The Lighter the oil the better"... Discover how very light, by changing to Winter OIL-PLATING

Have you ever been a new papa? Have you ever had to enlarge the hole in the nipple of baby's bottle? The hot milk, just about as fluid as anything, barely comes through. Far "skinnier" than small holes in nipples are many of the oil spaces in your car's engine. That's still true after it is middle-aged or beyond. Any oil...any oil...has a hard enough time coming through and spreading all around. Overweight oil-easily thickened by cold—is far worse. The lightest oil your engine can use this season is rightest. And you can know that tight oil will more than stand the gaff when it

Dread Engine Acid Fought by OIL-PLATING

Normal combustion always leaves acids inside of your engine when it stops.

Formerly it seldom stood idle long. Soon mileage and speed heated your engine enough to oust acids.

But nowadays rationing may force long rests, while corrosive acids gnaw. To combat corrosion, metals are plated. You combat acid corrosion with your engine OIL-PLATED.

includes the ability to give your engine internal OIL-PLATING.

Because a Winter change to Conoco Nth motor oil adds OIL-PLATING to engine parts, you can go your car's limit on lightness. Any good plating is a protective surface, and so is OIL-PLATINGattached all over your engine's insides, as if strongly "magnetized" there by a synthetic that's part of patented Conoco Nth. Now every moving part enveloped in its close-fastened OIL-PLATING must slide upon the rupture-resistant fluid film of Conoco Nth. Safety is multiplied!though your economical Conoco Nth is so light that your battery, too, has every chance to outlive the Winter, and the War. OIL-PLATE at Your Conoco Mileage Merchant's-today. Continental Oil Co.

REDDY: Say, Lady, are you posted with the latest facts about how to keep an electric refrigerator smiling?

LADY: Why, of course not; whoever heard of keeping a refrigerator smiling? Its purpose is to conserve vitamins, and it was built to last many

REDDY: Exactly, but now-it's different. The war makes it impossible to predict when you can buy a new one, so it's important that you take good care of what you've got.

LADY: And how's the best way to do that?

REDDY: Defrost it regularly.

Cool food before putting it in the refrigerator.

Have motor checked regularly.

If yours has open type of mechanism oil moving parts of motor every six months.

Treat it with "kid gloves." It must last for the duration.

West Texas Utilities
Company

The water in which meats and vegetables have been cooked will add flavor and nutriment value to a kettle of soup.

Unusual and colorful tie-backs for draperies can be assembled by using celluloid poultry rings, which are available in assorted colors.

Don't discard that worn umbrella. Remove the cloth or oiled-silk covering and hang the frame in the basement or utility room. It makes a dandy drier for baby's clothes and dish towels.

After polishing brass articles such as buttons and buckles, coat them with colorless nail polish to protect and preserve the luster. Colorless nail polish serves well to protect and waterproof bottle

The next time you have a shade roller to wind, insert the flat metal end in a keyhole. Both hands will then be free to grip the roller and turn it.

place in 1773. 8. The galley.

9. Sixty-seven. 10. Iron.

When armored knights met, it

was customary for each knight to raise the visor of his helmet as a means of identification. This gesture has come down through all armies in the form of the salute. Traditional, too, is the Army man's preference for Camel cigarettes. With men in the Army, Navy, Marines, and Coast Guard, actual sales records in their service stores show that Camel is the favorite. It's one of the favorite gifts with service men. And though there are Post Office restrictions on packages to overseas Army men, you can still send Camels to soldiers in the U. S., and to men in the Navy, Marines, and Coast Guard wherever they are .- Adv.

In The Midst Of War We Still Have

Much To Be Thankful For

Thanksgiving Day finds us grateful for assured Victory, even though the exact date is still uncertain; for ample food, clothing and other necessities in a Warrationed world; for unity and patriotism displayed in so many ways here on the home front.

And let's not forget a special Thanksgiving prayer for our fighting boys overseas, who are giving everything to insure that Freedom shall not perish among Nations.

Ration-Free Children's Shoes

Some relief from the shortage of youngster's shoes will be provided about the first of the year by a new supply of children's non-leather shoes for general wear to be sold ration free, OPA has announced. In general, children up to about eight years of age will benefit. The shoewill have canvas uppers and soles made from remnants and heavy woven fabric, reinforced with vulcanised rubber. Shoes of this type larger than misses' and youths' size three will be ration.

Tire Situation Tightens

Operators of passenger cars may find it impossible to obtain used tires because commercial vehicles delivering easential goods are now eligible to receive used passenger and truck tires of x 245 smaller than 7.50 20 to replace tires no longer serviceable. November quotas recentivelessed by OPA for new cassenger and truck tires who x 30 percent fower for trucks and 14 pe center for trucks and 14 pe center for passenger cars.
