Those shopping in Memphis Saturday were Mrs. W. B. Proffitt, Irene and Odell Proffitt, Mr. and Mrs. G. T. Foster, Mr. and Mrs. Jerry Stotts and daughter Nelda Sue, and Mrs. J. O. Stotts and daughter, Mrs. Chas. Levi.

R. O. Kelley made a business trip to Amarillo Monday. Mrs. B. F. Kelley visited Mrs. E. H. Paul of Memphis over the week end.

## Lions Club News

The Lions Club meetings now begin promptly at 9 p. m. This time was set to allow the farmer members of the club and others who work late to be able to come. This should help attendance during the summer months.

At last weeks meeting of the directors a bond rally, picnic and other matters were discussed which will be mentioned at the regular club meeting.

The nominating committee for next years officers and directors were appointed. This committee consists of Chester O. Hill, Chairman, C. R. Hunsucker, R. W. Alewine and B. C. Johnson. The nominees will be read at the first meeting of June, new officers elected at the second meeting in June and will take office the first meeting in July.

The Lions are having some good meetings now and there is much necessary work to be done. All Lions are urged to attend every meeting.

## Morris Davis Writes

We received the following letter Tuesday from our friend, Morris Davis of Ajo, Arizona:

Dear Friend:  
I guess you will be surprised to hear from me. I just want to give you a little news about a chicken we have hatched off. We have got one with three legs and it's about one month old now. I will send you a picture of it one of these days. I am going to write Ripley one of these days, but I think my home paper should have the first news.

So you see what war does. It causes a man to raise meat on the desert. I got a kick out of it.

Well I guess all the boys I knew there are in the service now. I see some names in the paper now and then. Well I guess I will close 'till everybody hello for us.  
Morris Davis and family

Edd Todd of Denison visited home folks from Sunday to Thursday.

## Notice

Due to an oversight on Miss Garrison's part, Dolores Gunn did not get her perfect attendance award at the grade school exercises. Dolores has not missed a day of school this term, nor has she been tardy.

## Singing

There will be a big singing at the Nazarene church Sunday, May 28, with N. L. McBroyer, well known song writer and leader from Dallas and other good singers present.

These singings will be held the 2nd and 4th Sundays of each month. Everyone is cordially invited to come.

Mrs. Clarence Sharp and boys, Mrs. Jap Shaw and girls and Mrs. Cherry and daughter visited in Amarillo Thursday.

Mrs. Laura Cawthon of Dunn, La. is visiting Mrs. G. B. Leggett.

## Junior-Senior Banquet

If you had tried to find the Juniors and Seniors on Friday night, May 19, you would have found them at the High School English Room for their yearly banquet.

The nut cups were green with a music note covered with snow. The place cards were music scales with the name on the scale. For the room decorations were green and white streamers of paper with music notes fixed on them.

The program consisted of:

## Dolores Gunn Writes Poem

The sixth grade pupils composed poems in language, and out of the many poems to be written this was selected as one of the best.

Victory for America  
By Dolores Gunn

We'll do our share for the red, white and blue,  
And man the guns of the Army too.  
Uncle Sam, we'll fight for you  
Until all of our dreams come true.

Our cause is just, our courage strong.  
United we sing our victory song.  
Never retreat, but always advance,  
When you do the victory dance.

And until that live-long day,  
We'll laugh, work, and play,  
And all of us will proudly say  
That we're glad to live in the U. S. A.

Peggy Zoe Stotts spent last week end with Kathryn and Margaret Baker at Kathy.

J. C. Hickerson of Fort Worth visited here Tuesday.

Let C. E. Johnson, manager of the Hedley Telephone Co., write your fire and hail insurance.

## IMPORTANT NOTICE

If your paper is marked with a red pencil this week, look at your date and come in and renew. Due to the paper shortage and our increasing circulation, we are going to be forced to drop delinquents. Papers marked in red this week will not be mailed next week unless renewed.

## Bank Money Orders Cheaper

During these times we would all like to save a little money, but with the increasing prices it is becoming very difficult. However there are many little things on which one can save a little and these little items will amount to a lot in the long run.

Since the increase in postal rates the money orders issued by banks are much cheaper than postal money orders. These money orders are very handy and preferred by many mail order houses and others as they can be deposited or cashed at their local bank. The Security State Bank now has the latest bank money order forms for sale that give you a receipt but do not require you to fill out an application blank. The next time you require a money order why not try a bank money order. A few dimes saved here and there will buy you a bond the next drive.

Gems of Thought

HE WHO is not liberal with what he has does but deceive himself when he thinks he would be liberal if he had more.

It is a great step in the interpretation of life when we have discovered that all events are ultimately spiritual.—Brierley.

Nature is a revelation of God; Art a revelation of man.—LONGFELLOW.

A more glorious victory cannot be gained over another than this—that when the injury began on his part, the kindness should begin on ours.—Tillotson.

WEEKLY NEWS ANALYSIS  
**Allies Hammer at Gustav Line; Japs Continue Advance in China; Delay Induction of Men Over 30**

Released by Western Newspaper Union.  
(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.)

China—Allies fight to open back door to China in southwestern part of country as depicted by 1 and 2, Japs seized control of Peiping-Hankow railroad in drives shown by 3 and 4.

ASIA:  
**Chinese Set Back**

Gallant China's defenders took one more step back in the eastern belt of their country as 80,000 Japanese supported by strong reinforcements drove beyond the Peiping-Hankow railroad, upon which they tightened their hold. As the Chinese fell back, Lieut. Gen. Joseph Stilwell's mixed U. S. and Chinese troops hacked their way forward in north Burma, far to the southwest of the main Chinese battleground. Purpose of General Stilwell's offensive was to clear the Ledo road, over which supplies could be trucked into sorely pressed China from the southwestern corner of the country.

By grasping the Peiping-Hankow railroad, the Japs consolidated their positions in eastern China, which extends inland from the sea coast. It is in this rich region that the cagey enemy has established heavy industry to utilize the country's abundant manpower and natural resources.

**Near Inner Lines**

As U. S. army and navy forces drew closer to the Philippines and Indies within the Japs' inner defensive ring, Yankee airmen continued to hammer at the enemy's tottering outer fortifications guarding these prized conquests.

To the west of Hollandia, army fliers pounded at Jap installations

Yank Feeds Wounded Jap.

near the tip of New Guinea, forming one side of the gate to the Indies, and drew stiff fire from some of the planes the enemy has supposedly concentrated in the region. To the north, both army and navy fliers collaborated in blasting at Jap installations in the Caroline islands, the front door to the Philippines, with the big base of Truk being an especial target.

OIL:  
**Big Strike**

Mississippi's little village of Heidelberg in the southeast corner of the state, became the mecca for the nation's sharpest oil men with the development of two high producing wells in the region and giddy anticipations that it might blossom into another East Texas field, which has given up almost two billion barrels in 16 years.

As oil men rushed to be in on the kill, the region's poor, struggling farmers who have eked the barest living from the stony soil, suddenly visioned manna from heaven. Besides receiving fancy sums for leasing their land, they would get a royalty of one-eighth on production. Already, a Negro reportedly obtained \$17,500 in royalties alone.

**Diamond in the Rough**

Twelve years ago a boy named William Jones was playing horse-shoes with his father on a farm near Peterstown, W. Va. One pitch dug into the earth and uncovered a large bright stone. "Gee, I found a diamond!" exclaimed the youth. Afraid of ridicule, however, he did not submit it to experts until recently. Then, R. J. Holden, professor of geology at Virginia Polytechnical institute, reported that the stone is the largest alluvial diamond ever found in the United States.

WHEAT:  
**Big Crop**

With frequent spring rains over much of the country resulting in good plant development and improvement in yield outlook, the U. S. department of agriculture predicts a 1944 winter wheat crop of 662,275,000 bushels as compared with an earlier estimate of 602,000,000 and 1943 harvest of 529,966,000.

On the basis of 40,943,000 acres grown, yields are expected to average 16.2 bushels per acre, compared with 15.6 last year and the 1933-'41 average of 15.

Since January 1, the USDA reported, rainfall has replenished soil moisture supply, offsetting deficiencies at seeding time last fall in much of the Great Plains area. Failure of plants to germinate or survive because of dryness has been marked in the western portion of the Plains states, USDA said, and floods have damaged stands in the Mississippi and Missouri river basins.

High in a Tree-top

There was much ado before election officials recognized Coffing M. Arslanian's quaint little bungalow atop a 50-foot tree in Montclair, N. J., as a legal residence, entitling him to vote.

The rug merchant, who has barred visitors from his roost, has lived in the tree-tops since 1936.

SCIENCE:  
**Spoiled Cantaloupe**

The U. S. department of agriculture's research laboratory at Peoria, Ill., continues as one of the centers of penicillin development, with the latest discovery that spoiled cantaloupe produces a mold efficient in making the wonder drug.

Although it is little known, British Doctors Heatley and Forey made the Peoria lab their workshop in developing methods of increasing penicillin production after they had been bombed out of London in 1941.

The discovery of the spoiled cantaloupe mold came only after the laboratory's scientists had studied growths on cheese, fruits and other foods as part of a search for a mold from which much of the penicillin would not be lost during separation of the drug from the liquid in which it develops.

**New Feed**

A new process of extracting oil from tung nuts may result in the use of the residue as a protein feed for livestock as well as a material for plastics, Chemist R. S. McKinney of the U. S. department of agriculture declared.

Under the old system of extraction through pressing, only about 85 per cent of the oil from the nut was obtained, McKinney said. By removing the oil with solvents, however, almost 99.9 per cent of the oil has been extracted, with probable use found for the residue or meal.

Used for all sorts of paints and varnishes and in brake-linings, tung oil has many other applications, McKinney said. The services have found it invaluable as an insulator for electric wiring and as a "dope" for waterproofing the wings of naval planes.

CIVILIAN GOODS:  
**More Coming**

To take advantage of the increasing supply of surplus materials and relieve local employment problems, the War Production board ordered the resumption of manufacture of civilian goods wherever it would not interfere with the arms program.

One result of the order was expected to be a relaxation of restraints on production of simple farm machinery, like hay loaders and barn equipment, although WPB declared that there would be no increase in quotas for binders, tractors and mowers, etc.

Regions outside of the centers of heavy war output primarily will benefit from the WPB's new order, while companies inside these centers will only go into civilian work with the permission of the local urgency production boards.

**Sign of the Times**

The roof of a huge industrial building being planned for New York City will be designed as a landing field for helicopter airplanes. Commuters will be able to fly in from country estates in near-by New Jersey and Connecticut as well as Long Island and upstate New York, landing within a few blocks from the center of business.

Helicopters have passed the experimental stage but commercial development has been held up by the war.

Costs only 1/3 as much as old ROYAL.  
Contains no cream of tartar.

It's made by ROYAL so it must be good! And we want you to see how good it is. That's why we make this amazing offer. Quick—go to your grocer now. Get this new baking powder with the famous old name. See what marvelous results it gives.

## I was some pest.

I bothered the life out of auto service men after the curtain went down on new cars. I knew I'd be in *some pickle* if this car wouldn't last, so I kept quizzing the fellows. Every man-jack of them had a good motor oil or some other life-saver, if I could judge. By good luck I paid real attention to one chap who had his reasons why to OIL-PLATE this engine with Conoco N<sup>th</sup> oil. He said every explosion in your engine makes acids, which corrode bare metal. Sounds straight, eh? But with something synthetic in Conoco N<sup>th</sup> oil keeping the metal OIL-PLATED, you'd say the fine finish receives special protection to fight the acids off. When you see you're not needing a trade-in nearly as soon as usual, you can give real credit to OIL-PLATING. New cars will be going some if they're half as far ahead as you can be right now by switching to Conoco N<sup>th</sup> oil.

### THE AMERICAN'S CREED

I believe in the United States of America as a government of the people, by the people, for the people; whose just powers are derived from the consent of the governed; a democracy in a republic; a sovereign nation of many sovereign states; a perfect union, one and inseparable; established upon those principles of freedom, equality, justice and humanity for which American patriots sacrificed their lives and fortunes.

I therefore believe that it is my duty to my country to love it; to support its constitution; to obey its laws; to respect its flag, and to defend it against all enemies.

### That Nagging Backache

May Warn of Disordered  
Kidney Action

Modern life with its hurry and worry, irregular habits, improper eating and drinking—the risk of exposure and infection—throws heavy strain on the work of the kidneys. They are apt to become over-taxed and fail to filter excess acid and other impurities from the life-giving blood.

You may suffer nagging backache, headache, dizziness, getting up nights, leg pains, swelling—feel constantly tired, nervous, all worn out. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination.

Try Doan's Pills. Doan's help the kidneys to pass off harmful excess body waste. They have had more than half a century of public approval. Are recommended by grateful users everywhere. Ask your neighbor!

### THE OLD JUDGE SAYS...

"Did you hear that Tom is going to be inducted into the Army next week, Judge?"

"Yes, Frank told me this morning down at the barber shop. Our town's got a lot of men in the service now, Jim. In fact, all towns have. I was just reading in the paper where there are more than 10,000,000 men away from their homes in the armed forces. And, from all reports, they're doing a grand job bringing victory closer every day."

"We folks at home have a mighty big obligation to those 10,000,000 fighting men. We've got to produce the food to keep them

well fed. We've got to keep them supplied with the ammunition and equipment they need to finish their job. We've got to help the Government pay for all these supplies our men need by buying more and more War Bonds. We'll have another big chance to do that by helping to put the 5th War Loan drive over the top, Jim."

"And, in addition, we must be sure that, while they're away and can't express their opinions, we don't go voting on and deciding any things that will displease them when they come back."

PROTECT THE  
LIFE LINE OF  
YOUR ELECTRIC  
APPLIANCES

Want to keep those appliances from getting old? Then, watch those "yanks"—a jerk of the cord can shorten the life of any appliance. When you pull out the cord, take a firm grasp on the plug and pull it out—Quick. Never yank the plug from the outlet by using the cord as a handle.

Keeping your electric appliances clean is most important. The appliance may be washed with a damp, soapy cloth, but be sure no water gets into the motor.
