WEEKLY NEWS ANALYSIS

First Phase of Invasion Ended As Initial Foothold is Secured; French Hail "Liberation Troops"

- Released by Western Newspaper Union. (EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysis and not necessarily of this newspaper.)

This first picture made from French soil shows American doughboys, rifles ready, wading through the surf onto the French beachhead. The photographer who made the picture was in the first group to hit the beach, Note the invasion craft in the background. Soundphoto.

THE INVASION: First Phase Ended

The first phase of the Allied invasion of Europe was completed. To a tense world, supreme head-quarters of the allied expeditionary forces announced this phase as the "securing of a foothold and the defeating of local German reserves."

Against fierce, last-ditch resistance of 10 hastily massed Nazi divisions, totaling nearly 150,000 men, allied forces were plunging inland on a 100-mile front of curving shoreline from the Seine Estuary near Le Havre to the Cherbourg area.

Allied forces are now in the sec-ond phase, which is one of defeating the German "tactical reserves," said headquarters. The third phase, which must be won before the Allied position is completely secure, is that of defeating the German "strategic reserves."

(Tactical reserves are those in or need the combat area; strategic reserves are those held in readiness at a distance.

The Air Umbrella

Headquarters announced that 27,000 individual air missions were carried out in the two and one-half days following the dawn of D-day. Great air fleets, probably greater than those of D-day, hammered Nazi strong points, transport and troop concentrations within a 150mile radius of the beachheads. Nazi fighter opposition was weak. The German high command had not yet thrown its long-hoarded fighter reserves into the battle for Normandy.

The battle was joined around Bayeux, first city of France to be freed from Germans, and Caen. A fierce tank battle raged in several wooded areas near Bayeux, where the Nazis were strengthened by

parachute troops. The navy supported foot troops with a gigantic bombardment of counterattacks. But on the second day of invasion, the Germans were forced to admit street fighting already was being waged inside Caen.

Single Front

It became increasingly obvious that Allied positions were fast being welded together into a single front, stretching from Caen through Bayeux to just outside Carentan and some distance up the Cherbourg peninsula toward Valognes.

It was disclosed that the first forces ashore on D-day might have pushed ahead more rapidly than they did, but General Eisenhower's supreme command decided it was wiser to slow the advance somewhat while awaiting more ade-quate strength rather than make a risk having the spearheads choked

OBJECTIVE PARIS: By Bastille Day?

Bastille day, French national holiday, falls on July 14 and in the first days of the invasion of western Europe, veterans of the 1940 battle of France forecast that the Allies would be in Paris by that date to help the natives celebrate.

In New York the French language weekly, "France-Amerique" carried a column by Ernest R. Bauer, which indicated that French military veterans familiar with the terrain over which the battles are now being fought predict rapid progress from the beachheads to Paris-120 miles

Meanwhile in London Winston Churchill urged the house of com-mons to guard against "the idea that things are going to be settled

LIBERATED BAYEUX: First of Many

Eyewitness accounts described great joy in the streets of Bayeux, France, first city to be liberated by Allied troops in the invasion of western Europe. On the main rail line linking the big port of Cherbourg to Paris, Bayeux is five miles inland from Seine Bay.

"God save the King. We've waited for this day. On to Paris. Vive Tommy. Vive Amerique." These were some of the rejoicing cries that greeted the first detachments to march through the narrow streets of the Normandy town. Cheering men and women danced through the same streets as the troops came in. Cafe owners began throwing open their doors with pianists striking up patriotic tunes to add to the festivity of that first day.

Europe is to have many towns cleared of the enemy in the weeks to come but Bayeux got its niche in the history books when the French Tricolor was hoisted above it again on the second day of the Allied land ings in France.

SHUTTLE-BOMBING:

Russian Bases Used News dispatches began carrying a

new dateline that read "From a U. S. Air Base Somewhere in Russia" and this spelled historic military significance in cooperation between the United States and the Soviet Union. For the first time, U. S. planes had taken off from bases in Italy, bombed German targets, and continued flying eastward to land at secret U. S. air bases set

This new program opened the far-thest corners of German territory to bombing attack by Allied planes based in Britain, Italy, North Africa and Russia. American military Caen. Nazi forces were attempt-ing to hold the city as a pivot for sian bases but it took diplomatic skill of the first caliber to get the Russians to agree to the strategy. They were finally convinced when it became obvious that the U.S. and England had the necessary planes

and the Russians did not. First target was a Rumanian freight yard in which the Nazi had concentrated supplies for troops fighting the Russians. American Flying Fortresses were accompanied by Russian fighter planes on part of the mission.

ITALY:

'Major Break' in Lines

The German high command in Italy was forced to admit a "major break" through their lines north and west of Rome as the Fifth army smashed toward Lake Bracchiano and Civitavecchia, key port of the Tyrrhenian sea.

German resistance was described by the allied command as "only light." It amounted to little more than disorganized activities by delaying infantry units and self-pro-

pelled guns.

The Fifth army had taken more than 18,000 prisoners and many more thousands were captured by the British Eighth army, which was meeting heavier resistance north-west of Rome, where the hardest fighting is being encountered.

The Vatican

"Whoever may be the military authorities actually having control of the city of Rome," the Vatican has announced its determination to maintain a policy of neu'rality. Ob-servers took this to mean that the holy see gave the Germans credit for correct behaviour with regard to Rome in its final hours.

After giving Linda Darnell the big-gest break of her career in "Sum-mer Storm," then realizing, while critics raved, that they had no further claim on her services, Angelus Pictures is taking no more chances. time without ever getting a good break, so finally she won cancellation of her contract so that she could take advantage of the Angelus offer. Douglas Sirk, director of "Summer Storm," made a special test of Dona, and it was on his recommendation, because he thinks she's potentially a dramatic star, that she got the contract.

Norman Price, tenor of the "Mother and Dad" quartet, chose music as a career not too many years ago, but it was a toss-up whether he'd sing or earn a living as a professional swimmer or a baseball player. Norman was a star athlete in his home state of Arkansas; he hails from Berryville. Polly Robertson, organist and arranger for the quartet, is another Southerner, from Kentucky.

Claude Rains, currently featured in Warner Bros.' "Mr. Skeffington," back from England by mid-July for his next assignment under a long-term contract. He went to play op-posite Vivien Leigh in "Caesar and Cleopatra.'

As part of its twentieth anniversary celebration Metro has dug into the files and come out with some bits of interesting information. For instance-Glenn Martin, the plane manufacturer, once was a movie actor. He played opposite Frances Marion, the ace film writer and executive. He was given the job because no other leading man could be found, in 1916, who owned an airplane!

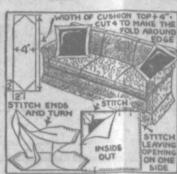

In a poll of enlisted men embracing the entire Southwest Pacific area, conducted by the Overseas Motion Picture Service, Humphrey Bogart was voted the year's No. 1 actor, as a result of his performance in "Casablanca." An "Osear," a facsimile of the Fuzzy Wuzzy Angel of New Guinea, is being forwarded to him, as an expression of the gratitude the men feel for all that he has done for them.

The well-worn theory that mystery stories are too exciting fare for children receives another knockout blow in results from interviews with youngsters having roles on "Mystery Theater," All report that never in their lives have they slept better than on the nights after they have been in on a few choice mur-ders in the NBC mystery thrillerthe more murders, the better.

WHAT NEWS WILL EISENHOWER GET FROM US?

You know now what we've heard from him.

We ve heard that Eisenhower and his Americans have hurled themselves like a thunderbo't against the bristling defenses of Hitler's Wehrmacht

We've heard that they are smashing at our foe sparing neither steel nor sweat nor blood in one final, furious assault that marks the supreme military effort of this War!

And what news do Eisenhower and his men expect from us?

Men and women of America - what the Invasion is to our fighting men, the 5th War Loan is to us

For us, as well as for them, this is the crisis - the time for tremendous overwhelming effort! Make no mistalte! The 5th War Loan will undoubtedly be the biogest most vitally important financial effort of this whole War!

If the 5th War Loan is to succeed, each one of us must do more than ever before - must buy double . . . yes trip'e ... the Bonds we bought last time.

Our men expect to hear that we are buving double - that we are matching their sacrifice as best we can - that the American nation, soldiers and civilians together, is making one gigantic effort to win this War!

That's the news our men expect to hear from us Will you personally see that they get it?

And here are 5 More reasons for buying Extra Bands in the 5th!

- 1. War Bonds are the best, 4. War Bonds will help the safest investment in the world!
- 2. War Bonds return you \$4 for every \$3 in 10
- 3. War Bonds help keep prices down.
- win the Peace by in creasing purchasing power after the War
- 5. War Bonds mean edu cation for your chil eren, security for you funds for retirement.

NOW SERVING THE STARS AND STRIPES FOR

THE AMERICAN'S CREED

I believe in the United States of America as a government of the people, by the people, for the people; whose just powers are derived from the consent of the governed; a democracy in a republic; a sovereign nation of many sovereign states; a perfect union, one and inseparable; established upon thos; principles of freedom, equality, justice and humanity for which American patriots sacrificed their lives and fortunes.

I therefore believe that it is my duty to my country to love it; to support its constitution; to obey its laws; to respect its flag, and to defend it against all enemies.

I'll predict no-miles-an-hour.

I'll hand it to folks. They've had the patriotism to hold down their speed. But imagine war restrictions ended. Man, you'll see old cars overdoing till they can't chug another mile. You'll see every repair shop crowded for months, but I'm figuring to duck that! Of course, I couldn't see everything coming when I originally had this engine OIL-PLATED. I'd simply overheard that any engine forms dangerous corrosive acids. It made sense to try protecting the engine by OIL-PLATING it with Conoco Nth motor oil. I switched to Nth. You can suit yourself about thinking it's the only oil or not, but first read

the whole label. You'll see where Conoco Nth oil's special synthetic fastens OIL-PLATING to your engine's fine inside finish. Then OIL-PLATING is really sort of a special surface to block steady acid corrosion. When repairs might be just a promise, and you can only pray for a new car, you're way ahead with your engine safely OIL-PLATED by Conoco Nth.

Notice For Bids

Whereas, at the March term of court in 1942, the City of Hedley bought the property, known as the Edythe Antrobus Maher property, all of Lots No. 4,5&6 in Block No. 18 of the original town plat of Hedley.

And since the two years has expired since that sale, we hereby advertise for bids on said property.

Motion was made by W. C. Johnson and seconded by W. M. Biffle and unanimously passed that this property be offered for sale to the highest bidder for cash, the City reserving the right to reject any or all bids.

The City requests that you file your bid at the City Secretary office on or before July 4th, 1944. City of Hedley, Texas

Tokyo Bombing Hero Has Still Another Namesake to Greet in Same 8th Air Force

By Ernie Pyle

(Editor's Note: Due to transmission delays, brought on by the volume of invasion dispatches, Ernie Pyle's first reports on that historic event have not yet reached this country. The following dispatch was written before the invasion started.)

LONDON.—(by wireless)—Here I've been gallivantin' around with lieutenant generals again. If this keeps up I'm going to lose my amateur standing. This time it is Jimmy Doolittle, who is still the same magnificent guy with three stars on his shoulder that he used to be with a

General Doolittle has written hun-

bands in his air forces. But one of

the men in that crew was the hard-

est subject he has ever had to write

home about. Here is the reason— When he led the famous raid on

Tokyo, Doolittle had a mechanic who

had been with him a long time.

You remember the details of that

raid, which have gradually seeped

out. The planes were badly scat-

Doolittle just snorted.
"Well, I'll bet you so," the sergeant said. "And I'd like to ask

one thing. As long as you're flying

I'd like to be your mechanic."

That finally got inside Doolittle's gloom. Somebody had confidence in

him. He began to buck up. So he

"Son, as long as I've got an air-plane you're its mechanic, even if

we live to be a thousand years old."

As you know, he did get a Congressional Medal of Honor, and now

he has not only one star but the

three of a lieutenant general. And that sergeant, who devoted himself

to Colonel Doolittle that miserable

night out there in China, was still General Doolittle's mechanic the

night they landed at Youks les Bains in February of 1943. He was one

Ernie Pyle

Jimmy Doolittle has more gifts than any one man has a right to be blessed with. He has been one of America's greatest pilots for more than 25 years. He is bold and completely fearless. Along with that he has a great technical mind and a highly perfected education in engi-

on himself. Here is an example: He was at a Flying Fortress base one afternoon when the planes were. coming back in. Many of them had been pretty badly shot up and had wounded men aboard.

Doolittle was a colonel then. The mechanic went on the Tokyo raid with him.

The general walked up to one plane from which the crew had just got out. The upper part of the tail gun turret was shot away. General Doolittle said to the tail-gunner: "Were you in there when it hap-

The gunner, a little peevishly, re-"Yes sir."

As the general walked away the annoyed gunner turned to a fellow crewman and said in a loud voice: "Where in the hell did he think I was, out buying a ham sandwich?' A frightened junior officer, fearing the general might have over-

"My God, man, don't you know who that was?"

"Sure I know," the tail-gunner snapped, "and I don't give a damn. That was a stupid question."

With which Jimmy Doolittle, the least stupid of people, fully agrees when he tells the story. . . .

Jimmy tells these stories wonderfully, with more zest and humor than I can put into them secondhanded. As he says, the heart-breaks and tragedies of war sometimes push all your gaiety down into the depths. But if a man can keep a sense of the ridiculous about himself he is all right. Jimmy Doolittle can.

Lieut. Gen. Jimmy Doolittle, head of the Eighth air force over here, noticed one day in the roster of offi-cers at his staff headquarters the name of a Captain Doolittle.

The name is not a very ordinary one, and he made a mental note that some day he would look the fel-low up for a little chat. One day not long after that his phone rang and the voice at the other end said, "This is Captain Doolittle."

"Oh yes," said the general. "I had noticed your name and I meant to call you up sometime." "I'd like to come in and see you," said the voice at the other end.
