Ration Free Shoes

Limited quantities of men's and women's shoes may be sold to consumers ration-free at specified price reductions during the two weeks period of February 19 through March 3, OPA announces. Two-fold purpose of the temporary ration holiday, OPA states, is to give consumers the benefit of extra shoe mileage that otherwise might remain unused on dealers' shelves, and to help dealers clear their stocks of the normal accumulation of odds and ends and broken sizes. Before rationing, such shoes were customarily disposed of in seasonal clearance sales. OPA estimates that about 4,500, 000 pairs of shoes will be sold in this special ration-free "sale."

Revival Meeting

L. H. Dierksen of Bethany, Mo., will conduct a revival at the Church of the Nazarene from Feb. 23rd through Mar. 4th. Services will begin at evening 8:00 o'clock. Everyone is cordially invited to attend.

Card Of Thanks

We wish to express our deepest appreciation for the kind words and comforting words of sympathy shown us in our deepest hour of grief in the loss of our dear husband and daddy.

May God's richest blessing rest upon each and everyone of you.

Locker System

Work is progressing nicely on the Moreman Locker System. The plumbing is completed and laying of the first floor started this week.

Locker equipment and material is arriving daily, and the vault men will begin work next week.

Lions Club News

The Lions enjoyed an oyster supper last Thursday night prepared by Lion Clyde Bridges and his aides, being the losing side in the membership contest.

This week is regular meeting night and should be a good one, as Lions L. P. Trimble and J. Hunt have charge of the program. Awards are to be presented to several Lions who got members in the contest.

Next week will be directors meeting night. Things to come up will be the City Park, Red Cross Drive and a Ladies Night for March. If you miss a meeting be sure and make up by attending directors meeting and keep up your attendance.

In the attendance contest the side led by Lion Leon Reeves now leads over the side led by Lion Moffitt by the score of 13 to 7. This contest closes in April.

Singing

Sunday is singing day again at the Nazarene Church, beginning at 3:00 o'clock. A quartet from Childress is expected.

Everyone is cordially invited to attend. Singing is now held every 4th Sunday instead of every 2nd Sunday.

C. B. McLaughlin Dies

Funeral services for C. B. McLaughlin, who passed away last Thursday after a long illness, were held Friday from the Church of the Nazarene by Rev. W. E. Bond, assisted by Rev. H. T. Harris. Interment was in Rowe cemetery under direction of Womack Funeral Home.

Pallbearers were Herman Kirkpatrick, Clifford Johnson, Chuck Davis, Coyte Doherty, Obe Holland and Ed Kinslow.

Flower bearers were Mesdames Ethel Kinslow, Herman Horachler, Francis Hinds, Wanda Dumas, Jap Shaw and Frank Kendall.

Honorary pallbearers included J. A. Tollett, Ray Moreman, Leon Reeves, Frank Kendall, Jim Vaughn and Marshall Stone.

Cornelius Brenton McLaughlin was born July 31, 1893, at Dexter, Texas. He came to this community about 19 years ago. He was a veteran of World War I.

He is survived by his wife, six sons, Louis of Hedley, Henry of the U. S. Army, overseas, Ira of the U. S. Marines, overseas, Ray George of Fountain, Colo., Earl and Joe of Hedley, and one daughter, Merlyne, of Hedley, and his mother, Mrs. A. J. McLaughlin.

The Crusade for Christ My Covenant

I covenant with my Lord and with my fellow Christians that I will give myself to the accomplishment of the objectives of the Crusade for Christ as follows:

1. I will endeavor to do my Christian duty as a world-citizen. (Matthew 28:19)
2. I will undertake to carry my share of the task of world reconstruction. (Matthew 25:40)
3. I will purpose to witness for Christ in my daily contacts with my neighbors and fellow workers. (Acts 5:42)
4. I will honestly endeavor to practice Christ's principles of Stewardship of all of life and possessions. (Matthew 7:21)
5. I will unite in a Church-wide movement to increase enrollment and attendance in the Sunday School and to provide for the religious education of the unchurched. (John 4:35)
6. To the end that I may be personally prepared for the fullest participation in the Crusade for Christ, I will religiously set apart each day a definite time for prayer and silent communion with Christ. (Acts 6:4)

In the Crusade for Christ, Hedley has a quota of \$765.00. Thus far we have only \$119.00 cash and \$44.00 in pledges. So bring your contribution to the church Sunday. Give it in the honor of some man in the service, and make him feel proud of his church, the church he is defending, with his life. We can make him proud of his church by giving to the Crusade for Christ.

BASKETBALL

Next year's prospects for a good basketball team reached new heights when next year's basketball team defeated this year's team at the High School gymnasium Tuesday night by the score of 34 to 29. Next year's team consisting of juniors, sophomores and freshmen scored first and kept the lead all the way. Johnson and Gibson were high point men for the winners and they all showed lots of speed and hustle. The losing team, consisting of seniors got off to a slow start but made a rally in the last part of the game that nearly caught up. It was a good game, well played on both sides and the handful of spectators got a big thrill.

In an afternoon game the Hedley Junior team defeated a Junior team from Claude by the score of 23 to 12. Corkie Hunsucker, with good support from his team mates was high point man with 9 points. It looks like with a little support from the town we should have good teams from here out.

Mr. and Mrs. Lewis C. Pistoria announce the birth of Donald George Pistoria, born February 12, weighing 8 lbs and 5 ozs. Mrs. Pistoria was formerly Camilla Doherty.

Mrs. Frank Simmons, who has been quite ill in a Kansas City hospital, is now out of the hospital and feeling much better. She appreciated very much the many cards and letters from her Hedley friends, and wishes to thank them all. She will always remember their thoughtfulness.

Mrs. Ivan Taylor of Amarillo visited here last Friday.

WEEKLY NEWS ANALYSIS Allied Armies Squeeze Nazis As Big Three Map Knockout Drive; AFL, Industry Buck Labor Draft

Released by Western Newspaper Union. (EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.)

With one member carrying cumbersome anti-tank weapon, Berlin home-guarders mobilize for action as Russ march on capital.

EUROPE: Plan Knockout

As Swedish reports played up a big shakeup in the German government in an effort to form a more respectable regime for approaching the Allies for peace, the Big Three conference continued in the Black Sea area, with Messrs. Roosevelt, Churchill and Stalin announcing completion of plans for the knockout of the Nazi military machine.

Although Hitler would remain as the head of the German state under the reported shakeup, actual power would pass into the hands of wily Fritz von Papen, ace diplomat and Reich chancellor before the Fuehrer's ascension to dominance. Although a conservative in tone, Von Papen, reports had it, would have as Finance Minister Hjalmar Schacht, who devised the Reich's

Chieftains Stalin, Roosevelt and Churchill in confab.

complex prewar barter system, by which the Reich attempted to do business without formal exchange.

In agreement on military plans, the Big Three also were reportedly in harmony on postwar occupation of Germany, with Britain taking over the northwest, the U. S. the southwest and Russia the east.

Twin Thrusts

While the Russians drove in from the east, the U. S. and British undertook a large-scale offensive in the west, with Field Marshal Bernard Montgomery's Tommies attempting to outflank the Siegfried line terminal of Kleve on the northern end of the front and move down the Ruhr valley.

Following 11 hours of intensive aerial and artillery bombardment, Montgomery's forces, paced by tanks and flame throwers, fought deep into the Reichswald forest screening Kleve, while the Germans rushed up reinforcements in an effort to curb the offensive. Not only would a British breakthrough imperil the industrial Ruhr valley, but it would place the Tommies at the rear of Nazi troops holding a line against the U. S. First and Third armies farther south.

While Montgomery's offensive mounted, the First and Third armies continued to chew deeply into the once formidable Siegfried line, with the battering Yanks encountering new earthwork defenses beyond the west wall's concrete bunkers, pill-boxes and tank-traps. Strongpoint after strongpoint in the Siegfried line fell as the Nazis appeared to be falling back into the earthwork system, stretching as far back as the Rhine in some places.

Attack in West

While a great battle raged for the battered Prussian stronghold of Berlin, another great and equally important fight flared for Silesia's interior industrial district.

In pressing their great offensives along the sprawling eastern front, the Reds threw numerous bridgeheads across the Oder river, whose ice-packs were thawed by warm winds. With artillery laying down heavy barrages, Red armored columns, backed by waves of in-

WORK OR FIGHT: Bill Bucked

Still strongly opposed by labor and industry, the administration's "work or fight" bill forcing men between 18 and 45 to accept essential jobs or face induction or fine and imprisonment received close senate consideration after house passage.

As the solons took up the bill, the AFL's executive council meeting in Miami, Fla., declared that no actual manpower shortage existed, but that some plants were hoarding labor to keep up production costs and allow them a greater percentage of profit, and contracts were being let in tight labor areas while establishments were forced to lay off help in others. The AFL recommended a substitute under which hoarded labor would be drafted.

Claiming that only 150,000 workers were needed, the National Association of Manufacturers said that voluntary cooperative efforts of industry, labor and government had largely been successful in recruiting needed help, and said that lower employment ceilings in unessential plants could "flush out" surplus workers. Reductions in absenteeism, elimination of wasteful labor practices and shifting of skilled help would serve to draw the most from available manpower, the NAM said.

PACIFIC: Manila in Flames

Overwhelmed by American forces moving from the north, and squeezed by other U. S. units moving in from the south, Jap defenders of Manila destroyed all bridges over the Pasig river dividing the city in two and put the business district to the torch.

As the Manila business district's reinforced concrete, streamlined and air conditioned buildings billowed in flame, winds blowing in from the bay spread the fire, forcing the removal of freed prisoners and internees by truck to outlying

suburbs. As U. S. troops worked their way through the barricaded streets, they came under heavy sniper gunfire.

In telling his troops that they "... have redeemed a country's pledge to recapture its lost land, ..." General MacArthur said that the conquest of Manila marked the end of one phase of the war and the opening of another. Declaring that his command was ready to carry on the campaign against the Japs, in what was interpreted as his bid for continued leadership of Allied forces in the Pacific, MacArthur proclaimed: "On to Tokyo."

fantry, pressed into the fortified zones before Berlin.

Farther to the south, the Russians headed for Silesia's interior industrial district around Schwiednitz and Wuenschelburg, nestled deep in the shadow of the towering Sudeten mountains rimming Czechoslovakia. Capture of this region would add to the conquest of the eastern Silesian industrial district and further impair Nazi industry.

It's Home, Sweet Home, for Vets

The first problem which will face the returning serviceman and one which is a necessary first step before he embarks on his postwar career, is a decision on the place in which he is to live. To this question, the great majority of the men have given the answer "We're going back home," according to a report of the army service forces.

The survey shows that eight out of

every ten white enlisted men expect to return not only to the same region, but also to the same state in which they lived before the war. Only one in ten anticipates moving to another state; the remainder are still undecided. Negro enlisted personnel tend to be somewhat more migratory. Only about two-thirds expect to go back to the same state in which they lived in civilian life.

HOUSEHOLD HINTS

If a newspaper becomes stuck to a varnished table top, apply olive oil. Let soak thoroughly, then paper can be removed.

Baste velvets with silk thread. This leaves no mark of the bastings.

When washing a knitted wool garment, don't lift it out of the water, as the weight of the wet garment will stretch it. Squeeze suds through instead and support the garment firmly with the hands. Gentle always is first rule in right wool care.

To make screws penetrate hard wood more easily place a little ordinary household soap on the thread.

MOOS OF THE MOMENT

BY UNCLE BOB
of the Kraft Dairy Farm Service

Being the kind of a lazy fellow I am, I'd like to see someone come along who can teach cows how to milk themselves. But I don't think this is going to happen, so right now I'm interested in the best advance in milking methods that's been made in a couple of thousand years.

The new and improved way of milking is called the "correct milking method." It is faster, aids sanitation, has helped build volume and is a most important part of mastitis control.

The system calls for a few simple steps, as outlined by extension dairymen. First, wash teats and udder with a chlorine solution which feels quite warm when you put your hand in it. Next, take two full-hand squeezes of each teat, into a strip cup.

Start milking immediately. When teat cups crawl, pull them down part way, using the free hand to massage the udder. Remove machine as soon as milk ceases to flow. Leaving it on may cause injury.

In hand milking use full hand strokes and stop when the milk quits flowing. Milking takes about three minutes by machine and from four to seven minutes by hand.

Next, remove milker units and dip the teat cups into a chlorine solution before applying to next cow or, in hand milking, wash hands in warm, sudsy water.

I mentioned a short time ago that an article on this method of milking which appeared in the Kraftman has been reprinted and is now available. A lot of dairymen have already written in and asked for this reprint and I suggest you get an order in for your copy right away. Write Uncle Bob at 500 Peabody Court, Chicago, 90, Ill., and ask for "How to Milk a Cow—and Why."

No doubt you have a bunch of educated cows, but I don't suppose they can write. If they could, and made out a list of the hay they like best, alfalfa would be at the top.

Hay and pasture are the foundation for your entire dairy feeding program. Now is the best time to make your hay plans for 1945 and even 1946.

PUBLISHED NOW AND THEN BY THE
KRAFT CHEESE COMPANY

I hope you will include at least an acre of alfalfa per cow. Illinois figures 25 pounds of high quality alfalfa hay will furnish all the protein required to produce about 30 pounds of 4 per cent milk.

Alfalfa will give your cows all the calcium they need. In winter it is the best source of Vitamins A and D. If you don't have alfalfa, look to some of the other legumes, such as the clovers, soybeans, lespedeza or good mixed hay.

Valuable suggestions for planning your hay program will be found in USDA Farmers' Bulletin 1626, Extension Bulletin 217, Purdue University, Lafayette, Ind., and Extension Circular 122, Mississippi State College, Miss.*

An ancient story in my collection is about a man who was marvelling at a friend who he said, ran ten miles and then jumped over a six foot fence. "Yeah, but look at the long start he had," said the party he was telling this to.

The start your calves get is about the most important thing in their whole lives. If they are troubled with scours, colds, ringworm or other things which bother young stock, it may cut down their milk production in later years.

Scours generally results from indigestion. Improper feeding, drinking too fast, cold milk, sour milk and dirty utensils or dirty feeding troughs can cause scours.

You will get a lot of help on treating scours from a veterinarian and from the following bulletins: Extension Bulletin 377, University of Missouri, Columbia, Mo., Extension Bulletin B-104, Texas A. & M. College, College Station, Texas, and Extension Circular 308, University of Wisconsin, Madison, Wisc.*

Growing City
In 1854, Brooklyn was the seventh largest city in the nation, but on January 1, 1855, after Bushwick and Williamsburgh were added to the original city, it was third, with a population of 202,000. By 1882 it was a metropolis of half a million.

That Nagging Backache

May Warn of Disordered
Kidney Action

Modern life with its hurry and worry, irregular habits, improper eating and drinking—its risk of exposure and infection—throws heavy strains on the work of the kidneys. They are apt to become over-taxed and fail to filter excess acid and other impurities from the life-giving blood.

You may suffer nagging backache, headache, dizziness, getting up nights, leg pains, swelling—feel constantly tired, nervous, all worn out. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination.

Try Doan's Pills. Doan's help the kidneys to pass off harmful excess body waste. They have had more than half a century of public approval. Are recommended by grateful users everywhere. Ask your neighbor!

Watch Your Kidneys!
Help Them Cleanse the Blood of Harmful Body Waste
Your kidneys are constantly filtering waste matter from the blood stream. But kidneys sometimes lag in their work—do not act as Nature intended—fail to remove impurities that, if retained, may poison the system and upset the whole body mechanism.

Symptoms may be nagging backache, persistent headache, attacks of dizziness, getting up at night, swelling, puffiness under the eyes—a feeling of nervous anxiety and loss of pep and strength. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination.
There should be no doubt that prompt treatment is wiser than neglect. Use Doan's Pills. Doan's have been winning new friends for more than forty years. They have a nation-wide reputation. Are recommended by grateful people the country over. Ask your neighbor!

WEEKLY NEWS ANALYSIS
Russians Strike for Berlin As Nazis Plan Last-Ditch Defense; New Landings Aid Manila Drive

Released by Western Newspaper Union.
(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.)

Members of Fifth division of Third army warm themselves about bonfire in Luxembourg comfortably ensconced in furniture salvaged from the town's debris.

EUROPE:

Berlin Goal

Berlin was their goal as the First White Russian and the First Ukrainian armies plunged to the winding ice-packed Oder river on a wide front, with German resistance growing stronger as columns of reinforcements rushed to the front and took up their positions in the flaming battle line.

With the two Russian armies drawing up to the Oder on an almost solid front from above Berlin clear down to the Czechoslovakian border, Berlin was imperilled by a powerful outflanking maneuver by Marshal Zhukov from the north and Marshal Konev from the south.

The great thrust on Berlin promised to put the Germans' vaunted Oder river defense line, over two years in the making, to the test, and further strain Nazi strength, already outnumbered by about three to four in the east. In early assaults on the Oder in the Silesian area, German regulars, reinforced by fanatical 16 to 65-year-old home front troops, stubbornly held their ground against the powerhouse attacks of the First Ukrainian army, which had been the first to reach the defense line from central Poland.

Finish Fight

Long the hallowed center of Prussianism, Berlin, it appeared, was not to be spared the fate of other great European capitals as the Nazis made strong points of its public buildings and institutions for a des-

perate stand and prepared to blow up all factories and installations in the district.
"Not one stone atop another . . . will be left . . . when the Russians enter," proclaimed Propaganda Minister Goebbels.
Meanwhile, as thousands of German refugees streamed into the Reich from the east and Hitler called upon all able-bodied men, for a last ditch fight and all others for industry, Nazi leaders threatened . . . cowardly creatures who try to desert the fatherland in its hour of need." Said they: "We shall not permit them to throw a wrench in the works. . . Germany will fight on no matter where or under what conditions. . ."

Declaring "there is no evidence yet of any rout in the German retreat," Navy Secretary Forrester said: "They are withdrawing to the great line of defenses on the Oder river . . . where . . . they may fight with the same tenacity and ferocity they have shown in the west. . . All that will beat Germany is power, sheer, crude power."

Attacking in snow and slush in strength along an expanding front below Aachen, Yanks put the enemy's vaunted Siegfried defenses to the test again even as Berlin feared an all-out drive to break the deadlock in the west.
At the same time, the Germans began to slowly break ground in Alsace to the south, where mixed U. S. and French forces increased heavy pressure on their huge pocket below Strasburg and threatened the enemy's escape roads eastward to the Rhine.
No less than 100,000 U. S. troops reportedly burrowed their way into the outer defenses of the Siegfried line along the sector from which Von Rundstedt had burst into Belgium

Fear Yank Drive

ARMY PURCHASES

The army quartermaster corps in 1944 placed more than 65 per cent of its prime contracts, representing 46 per cent of the dollar value of all QMC depot contracts, with smaller business organizations, the war department said.

Total purchases of subsistence and other supplies for the army and military services by the quartermaster corps amounted to \$6,637,872,909.

and Luxembourg in his great December drive. As the Yanks plowed through heavy snowdrifts, they met bitter opposition at Nazi strong points.

PACIFIC: Strategic Moves

Strategist and tactician, Gen. Douglas MacArthur scored two more landings in Luzon, directly aiding his triumphant march on Manila, while far to the north, U. S. forces continued to drive to the eastward in bitter hand-to-hand fighting, which threatened to cut the island in two.

In one of the landings, U. S. troops overran the Subic Bay area, which opened up a big harbor for naval use and supply of American forces above Manila, while the other land-

ing Yank stepped ashore below the Philippine capital itself, threatening any enemy effort to bring up reinforcements from the south. As long as MacArthur still appeared to be holding back some of his strength, Jap commanders were reluctant to commit sizeable forces into the battle in the Manila region.

In one of the most dramatic episodes of the Philippine invasion, picked men of the 6th Ranger battalion and Filipino guerrillas made a surprise attack on a Japanese prison compound behind enemy lines on Luzon, freeing 488 Americans, 23 British, three Dutchmen and a Norwegian. Although over 100 were so weak from malnutrition, disease and old battlewounds that they had to be carried off on husky Ranger backs or in carabao carts, only two failed to survive the 25-mile journey.

CONGRESS: Busy Session

With publication of President Roosevelt's agreement to the separation of the Reconstruction Finance corporation with its vast loaning powers from the U. S. department of commerce, the senate passed the George bill authorizing the action by a 74 to 12 vote and thereby paved the way for the confirmation of Henry A. Wallace as the department secretary.

Although Wallace's confirmation was postponed to March 1, it was considered likely at that time, since principal objection to his appointment had been based on the fact that he would have controlled the vast resources of the RFC in the postwar period, with fear of their use on government projects to provide full employment. House approval of the bill to separate the RFC from the commerce department was expected to meet speedy approval.

At the same time, the house passed, and then sent to a none too sympathetic senate, a work or fight bill, under which all men between 18 and 45 would be frozen in essential occupations or asked to take jobs designated by their local draft boards under penalty of induction or fine and imprisonment in case of refusal.

On Nation's Honor Roll

To Pvt. John Hartman of Exeter, Calif., went the Silver Star for gallantry in action. During a fierce enemy counterattack in Italy, seeing two machine guns 200 yards to the front and right front were causing considerable trouble, he moved forward into the face of these firing machine guns on his own initiative. Edging his way forward with enemy bullets landing within inches of him, and in spite of the fact that he had received a serious wound in his arm, he fired till he had silenced both machine

U. S. to Take More

With smaller slaughter in federally inspected plants reducing allocations of meat for military and lend-lease purposes, the government moved to channel more stock into these packing houses from non-federally inspected establishments.

To trim slaughter at the 27,000 non-federally inspected plants, whose entire output goes to civilians, the government reported that they will receive cattle subsidies ranging from 50 cents to \$2 per hundredweight only for the same amount of stock that they butchered a year ago, while payments of \$1.50 per hundredweight on hogs will be made on only 70 per cent of the volume of 1944.

Effect of the regulation will be to make less meat available for civilians in centers served by non-federally inspected plants, but only slightly more for consumers supplied by federally inspected houses. Present government acquisition of half of the beef and 45 per cent of the pork output of federally inspected plants will be increased, it was said.

FARM MACHINERY: Pinch to Persist

Stating that ". . . as long as the war continues, farmers will not be able to buy as much new farm machinery as they need," the Office of War Information said that the production of equipment for the year ending July 1 will fall short of heavy demand despite the fact that it should approximate peak prewar output.

Although expecting quotas to be generally met despite a slow start in production, OWI warned ". . . no more new tractors, side delivery rakes, combines or other haying and harvesting machinery will be available during . . . 1945 . . . than were available during . . . 1944."

Indicating that farmers will have to fall back on the same methods this year to meet food goals, OWI said that 1944's high production resulted from intensive use of existing machinery, increased use of fertilizer, greater acreage and harder work and longer hours, with output per hand 28 per cent above 1940. Re-processing of some 365,000 young farmers between 18 and 25 for the draft, however, may further complicate the already pressing manpower problem, OWI said.

ACCIDENTS: High Toll

Ninety-four thousand people killed, 9,750,000 injured and material losses of \$4,850,000,000—that was the nation's accident toll in 1944, the National Safety council revealed.

As a result of mishaps, lost time equalled one year's production of 1,000,000 workers, it was pointed out, or the manufacture of 29,000 heavy bombers.

Although the death toll showed a drop of 5,000 over the previous year, with the greatest reduction shown in home accidents, authorities were alarmed by the increasing fatalities among children. More than 1,000 toddlers under five were killed, more than in 1941, the Safety council said, while accidental deaths of youngsters from 5 to 14 in the home were high.

Luckiest Man

In rear base hospital in Pacific recovering from frost bite, Sgt. James B. Krantz of Liberty Point, Tenn., might well consider himself the luckiest man in the world. Blown from gunnery in waist of B-29 during raid over Japan, one of Krantz's legs was miraculously held by a safety strap while the rest of his body dangled in the air at 29,000 feet before bud-dies pulled him back into the plane.

GRAIN MARKETS: Get Boost

With brokers interpreting the senate banking committee's approval of a bill increasing the Commodity Credit corporation's borrowing power from 3 to 4 1/2 billion dollars as a means of maintaining major farm prices at 90 per cent of parity for two years after the war, grain prices firmed.

Also adding to the market's strength was the expectation of an increase in the government subsidy to wheat millers, and reports of CCC purchases in Minneapolis, Minn., with CCC acknowledgments it had given large quantities of high protein wheat to millers in exchange for inferior grades.

In approving the increase in the CCC's borrowing power, the senate banking committee limited food subsidy expenditures to \$845,000,000 for the year beginning next July 1, and also permitted sale of more than 1,500,000 bales of cotton a year from CCC stocks.

FARM FORECLOSURES
With more and more farmers recovering from the drought years, and with present high incomes making it possible to reduce debts, farm foreclosures totalled 5,800 in 1943 compared with 11,000 in 1942 and 65,000 during 1934, the Farm Credit administration reported. These figures are equivalent to 2.7 foreclosures for every 1,000 farms mortgaged in 1943, 5.3 in 1942 and 30.3 in 1934, when farm activity still was

SURPLUS GOODS:

Investigate Sales

With congress announcing its intention to go into the whole question of surplus property disposal now to develop fair practices rather than to wait until most of the goods had been sold, the senate war investigating committee ranged over the whole matter, with emphasis on operations of an auctioneering firm allegedly soliciting business through high officials.

During the course of the committee's inquiry, it was learned that purchasers bought surplus materials at bargain prices and then resold them to the government at big profits, and that test tubes, stopper corks and surgical dressings were being classed as surplus while factories worked around the clock turning out more of the same items.

In investigating the affairs of Surplus Liquidators, Inc., it was brought out that Herbert Bayard Swope, consultant to Secretary of War Henry Stimson, had written to Jesse Jones, former secretary of commerce, asking for the latter's consideration of the firm's plans for disposal of surplus goods. There not only was pre-arranged bidding at Surplus Liquidators' auctions, it was charged, but sales were made without any competitive bidding at all, and in some cases buyers later were asked to pay higher prices for goods they had previously bought.

COURT-MARTIAL:

Stirs Nation

In a case that stirred nation-wide interest and created a flurry on the floor of the U. S. senate, the army's sentencing of Pvt. Henry Weber, 27, of Vancouver, Wash., to hanging for refusal to bear arms in a drill was changed to life imprisonment at hard labor.

As Weber's wife said that his deep personal conviction against killing in war should have entitled him to consideration as a conscientious objector before his induction, he, himself, declared: "I am interested in a world in which all men can live peacefully. To be a good soldier you have to learn to hate and to kill. I am willing to do anything I can to get the war over as long as I do not have to kill other people."

Exclaiming "... It is inconceivable to me that army officers would sentence a man to death because he refused to drill," Senator Wheeler (Mont.) threatened to press a congressional inquiry into the case when it was first announced. "Whoever sentenced that boy to hanging ought to be discharged," he said.

CANADA:

Draft Trouble

Reaffirming its traditional privileges of self-government under the British North America act (the Canadian constitution), French-speaking Quebec's 22nd legislature convened in the same week as English-speaking voters in the Grey North district of Ontario repudiated the dominion government's compromise overseas draft policy.

Strongly opposed to an overseas draft, the Quebec legislature's firm declaration of self-government, coupled with the assertion that the minority's interest in any change in the dominion's constitution should be respected, indicated that French-Canadians aimed to maintain their position on conscription.

Meanwhile, repudiation of the government's compromise overseas draft policy to avoid a head-on collision with Quebec meant that Premier King may be compelled to call a general election to thrash out the question publicly and strengthen an administration's hand on dealing with the touchy problem.

RAIL TRAFFIC:

Car Shortage

One great artery linking the nation into a whole, the U. S. railroad system's operations in one section must strongly affect activities in another as the recent heavy snowstorms and frigid weather in the northeast have proved.

Because of the delay in returning rolling stock from the storm area, and the necessity of giving important military freight the right of way, an acute shortage of box cars has developed in the middle west, it was said. The situation has been all the more complicated by the fact that terminal mills and grain elevators have made a heavy demand for box cars in the face of a record 1944 harvest and a large carry-over.

Freight difficulties have been equally matched by passenger service troubles, it was also said, what with the severe winter weather delaying the arrival of many trains in midwest terminals and resulting in travelers missing connections on lines leaving for the west.

Income Drops

Class I railroads of the United States in the year ended December 31, 1944, had an estimated net income, after interest and rentals, of \$991,000,000 according to reports filed by the carriers. The decrease in net railway operating income in 1944 compared with 1943 was 18.6 per cent, with the drop ascribed to increased wages growing out of adjustments made in 1943 but in some cases not effective until 1944, and higher prices of fuel, materials and supplies.

SNAPPY FACTS ABOUT RUBBER

Rubber does not enter into the making of tanks, yet the demand for military tanks has reduced the manufacture of passenger car tires. Tire cord and yarn for tent duck are made with the same machinery.

Assuming that the tread area in a reasonably good condition when the For Good rubber plantations are re-occupied, experts anticipate that within two years some 1,400,000 tons of natural rubber will be made available, enough to fill one year's unmet needs. That is why B. F. Goodrich officials believe civilians will still have to depend upon synthetic rubber tonnage in addition to that required for national security.

Warm, Gayly Hued House Boots Nebraska Oak Leaf Heirloom Quilt

Heirloom Quilt. THIS handsome quilt belonged to Mary Gregg McCollum who lived in Kearney, Nebraska, sixty or more years ago. Faded to a soft pink on white, it was doubtless a bright turkey red "oak leaf" when as a bride she went from Berea, Kentucky, to Nebraska. The twenty-inch block is put together in four separate sections—the leaf itself is 7 inches.

Warm House Boots. HANDSOME crocheted wool house boots are warm as muffs on your feet. Make them of white wool brilliantly accented with stripes of red, green and yellow. Easy to crochet—and easy to look at! They make grand gifts.

To obtain complete cutting pattern and matching directions for the Nebraska Oak Leaf Quilt (Pattern No. 5830), with amounts of materials specified, send 10 cents in coin, your name, address and the pattern number.

To obtain complete crocheting directions for the House Boots (soles are crocheted of heavy black cotton yarn), Pattern No. 5813, sizes 4, 5 1/2, 7, 7 1/2, including instructions, send 10 cents in coin, your name, address and the pattern number.

To Relieve Bad Cough, Mix This Recipe, at Home

Big Saving. No Cooking. So Easy. You'll be surprised how quickly and easily you can relieve coughs due to colds, when you try this splendid recipe. It gives you about four times as much cough medicine for your money, and you'll find it truly wonderful. Make a syrup by stirring 3 cups of granulated sugar and one cup of water a few moments, until dissolved. No cooking needed—it's no trouble at all. (Or you can use corn syrup or liquid honey, instead of sugar syrup.) Then put 2 1/2 ounces of Pinex (obtained from any druggist) into a pint bottle. Add your syrup and you have a full pint of medicine that will amaze you by its quick action. It never spoils, and tastes fine. This simple mixture takes right hold of a cough. For real results, you've never seen anything better. It loosens the phlegm, soothes the irritated membranes, and eases the soreness. Pinex is a special compound of proven ingredients, in concentrated form, well-known for its prompt action in coughs and bronchial irritations. Money refunded if it doesn't please you in every way.
