Lions Club News

The Lions Club held their regular meeting last Thursday night with 42 present. Lions Walter Hughes and Royce Hall were in charge of the program, which consisted of three vocal numbers by Mrs. Hobart Moffitt and Mrs. Aiva Simmons, with Mrs. L. P. Trimble at the piano. They sang three old favorite songs, which everyone enjoyed very much.

Other guests were Rev. Cox of Alouquerque and Sgt. Louis Hall of the Marine Corps who has just returned from two years service in the South Pacific.

J. R. Sanford Dies

The following appeared in Monday's Amarillo Times:

John Raymond Sanford, 40 of 402 Tennessee St., died Friday night in Temple. He was an employe of the Amarillo Post Office for 17 years.

Survivors include his wife, Mrs. Annie Sanford; one son, Jerry; a daughter, Doris Jean Sanford; two brothers, Robert Sanford, with the U. S. Army in the Philippines, and Ovie Sanford, Plainview; four sisters, Mrs. Roy Blanks of Hedley, Mrs. Roberta Crow, San Antonio, Mrs. J. W. Tarter and Mrs. Hance Williams, both of Amarillo. Funeral rites were held Saturday at 4:30 o'clock in the Blackburn-Shaw Memorial Chapel. Rev. John W. Darby officiated.

Pallbearers were Ernest Parsons, Jack Pollan, A. L. Wilson, Ira Bone, Perry Vaughn and Ted Worsham. Burial was in Llano Cemetery.

Card of Thanks

We wish to extend our heartfelt thanks to our many friends in their sympathy to us during the long illness and death of our father. The floral offerings and cards of sympathy were beautiful notes of friendship to us. May each of you have a protecting arm of love around you is our wish for your future.

J. W. Rowland Dies

James W. Rowland was born in McKinney, Texas in 1863, moving with his parents near Tolar, Texas where he grew to young manhood. There he was married to Addie Kimmel some fifty-three years ago and bought land and reared his family.

In 1909 he came to Donley County, rented land for two years near Lelia Lake, and in 1910 bought a track of land north of the Windy Valley school house. He resided there until 1918 when he moved to Clarendon, Texas with his family to enter his two younger daughters in school. He and his family used to come to Hedley while on the farm to do most of his business when Jim Swift was banker here.

James W. Rowland was well known in the vicinity of Lelia Lake, Hedley and Clarendon. He was a good citizen and when he could extended a helping hand to whom it was needed. He will be greatly missed by his many friends and associates of this vicinity. He was a member of the Church of Christ and a regular attendant up until his late illness.

He is survived by five daughters who will miss his guiding hand. He was one of the best of fathers.

Bi-County Teachers Meeting

The Bi-County Teachers Meeting for Donley and Hall Counties will be held at Memphis on Friday evening, March 23. The Texas State Teachers Association units of the counties mentioned will meet for about three hours of fun and instruction. New school laws will be explained.

School board members are invited. All teachers are requested to attend. Let's show a professional attitude or quit teaching. A twenty-five cent entrance fee will be charged. Tickets for a splendid banquet will cost us seventy-five cents.

War Fund Campaign

The Red Cross drive is progressing very well, but quite a bit more is needed. The school students have collected \$168.36, and Hedley's total collection to Thursday morning is \$635.91.

If you have not given, see Hobart Moffitt or your community chairman at once. If you have given, then see them anyway and give again.

Entertain Stewards

Rev. and Mrs. W. F. Gaede entertained the stewards and their wives last Wednesday night at their home.

All enjoyed a delicious buffet style dinner, followed by 42 and other games.

Those present included Mrs. Mabel E. Jones, Mrs. Ross Adamson, J. W. Noel, Messrs. and Mesdames Frank Kendall, W. P. Doherty, Royce Hall, Leon Reeves, Hobart Moffitt, T. J. Cherry, C. O. Hill and Ray Moreman.

Mrs. Harold Mithelman of Alamogordo, N. Mex. is visiting here. She was formerly Miss June Kirkpatrick.

Cpl. John Bond Wears Authorized Beard

Somewhere in the Pacific—De-layed—"Big John" Bond, a former Texas Christian University backfield star, now a Marine Corporal in the Pacific, wears the only authorized beard in his regiment.

"Big John", Corporal Mendle E. Bond, wore his distinguished beard into a recent football game attended by Colonel Victor F. Bleasdale, his commanding officer.

The Colonel liked "Big John's" football and he also liked his beard. Although facial brushes are forbidden in his regiment, he sent word to Bond's battalion that the Corporal would be allowed to wear the beard.

Bond played both fullback and halfback during his three years with the Horned Frogs, including the 1942 Orange Bowl game against Georgia. Now a squad leader in an infantry outfit, "Big John" found time during the football season to play in the backfield of his regimental team.

He has another year of college varsity football if he wishes to play on his return to college after the war. Or he may play professional football with the Boston Yankees on a contract offered before he joined the Marines.

His wife is Mrs. Maulcie Lee Bond, of Shamrock, Texas. He is a son of Rev. and Mrs. W. E. Bond of Hedley, Texas.

Sgt. Yates Writes Mother

Agra, India

Dear Mom,
I haven't heard from you in several days, so I thought I'd write and let you know I'm O.K. Hope every one there is O.K.

My, this is a beautiful Sabbath day. It's nice and warm and in about an hour it's going to be hot. I sure wish you could see our flowers, they have been blooming since April of last year. I was down at the Signal mess hall yesterday to see a friend. While I was there he and I looked at all their flowers. They have some beautiful ones. Their roses are about 5 inches across. Ours isn't blooming yet. I wish you could see their dahlias. They are the most beautiful flower I've ever seen, and they were all colors. I'd

give anything if I could send some of the bulbs home, but we're not allowed to send any kind of seeds out of India. Well, I know you're tired of hearing so much about flowers, so I'll change the subject.

Mom, I really had an interesting talk with one of the Indians in our mess hall the other day. I knew he was a Christian so I asked him a few questions. He was born into a Christian family. His wife's people are also Christians; one of his grandfathers is a hindu. This Indian's grandfather offered him lots of land if he would go back to the Hinduism belief. He said, no never. I have one God and that is the only God, the father of Jesus, and I'll keep praising Him and giving Him thanks ever day. I just wish you could have heard him. I had to listen very close to understand him, because his English isn't very plain and there was so much noise I couldn't hear very well.

I then asked him about the Hindu faith. I asked if they really worshipped cows. Well, it seems they don't exactly worship them, but the cow to them is like the Mother of Jesus to the Catholic people. As you know the Catholics have an image of Mary. She's the Holy Virgin. I'm afraid I'm not making myself clear. I don't know how to put it on paper. Well, when a Hindu gets sick they bring a cow into the house and the sick person touches the cow. That is supposed to heal. Here's the part that sounds so ignorant and pathetic: When the cow comes in the Hindu touches her, then the Indians take the urine of the cow and sprinkle it all over the floor and walls, also they do the same with the waste from the cow. I thought all such thing as that were things that happened in the Dark Ages, but it's happening here ever day.

Then he told me about the missionaries. I didn't know the missionaries had such a hard time with their teaching. He said one missionary went into a village to teach and some of the men caught him and tied his hands together and hung him in a well. He was there quite awhile. Some of the Indians reported it to some Christian Indians and they came and untied him. Talking to this Christian Indian really made me ashamed of myself because I haven't been going to church. So I got up early this morning and went to our chapel and enjoyed a good sermon.

Your son,
James B. Yates

J. M. Dickson Writes Parents

Following is a letter from J. M. Dickson to his parents, Mr. and Mrs. John Dickson:
Dear Folks,

How is everything at home? I was just in the operation you have been reading about in the news and hearing on the radio. I am still O. K. and fine. Here's the dope I can tell you:

"On the 19th of February, Admiral C. W. Nimitz announced that the Tennessee was one of the ships which participated in the bombardment and assault on Iwo Jima (sometimes spelled Iwo Shima). Iwo Jima's position is about Latitude 25 North, Longitude 141 East. It is in a group called the Volcano Islands, and it is about 700 nautical miles almost due south of Tokyo."

Those yellow Japs really flew in every direction when we opened

up with our guns.

I am sending this bulletin to you so you can give it to Ed Boliver. Tell him he can put what he wants to of it in the Informer.

Hope I hear from you soon. Be good and may God bless each of you. My best wishes.

Love,
J. M.

The USS Tennessee, Captain John B. Heffernan, USN, was singled out by Admiral C. W. Nimitz in a talk delivered to officers and men of the battleship Friday for special commendation, in which the commander in chief reviewed the brilliant record of the warship following her damage suffered at Pearl Harbor.

The record was a testimony to the part her personnel have played in the Pacific war and a "well done" from the Admiral.

In particular, emphasis was laid in the Tennessee's work in the current Philippines campaign, where she participated in the battle of Surigao Strait before dawn on October 25. The performance of her big guns was not revealed, but her group of battleships, cruisers and destroyers assisted by valiant little PT boats sank two enemy battleships, two cruisers and four destroyers.

The Tennessee was repaired after Pearl Harbor and returned to service, rejoining the fleet in the Aleutians and taking part in the Kiska campaign. A year ago she was in on the Central Pacific "curtain raiser" at Tarawa, and a year after that she was 3,000 miles farther west at Leyte. During this time, Admiral Nimitz pointed out, most Central and Western Pacific islands had been captured or blockaded; the Japanese fleet had been reduced "to a point of ineffectiveness," and enemy air strength had been severely damaged.

In the Gilberts campaign the Tennessee supported Marine landings at Tarawa, then escorted transports from those dangerous waters. Likewise in the Marshalls she supported landings at Kwajalein and Eniwetok, at the latter objective being the leading heavy ship to enter the unfamiliar lagoon and anchoring close inshore.

St. Sgt. Gilbert Conner Awarded Bronze Star Medal

Following is a part of a recent release from U. S. headquarters in France:

Award of the Bronze Star Medal: By direction of the President, under the provisions of Army Regulations 600-45, as amended, a Bronze Star Medal for meritorious service in eastern France is awarded to Staff Sergeant Gilbert C. Conner, 38077777, Cavalry Reconnaissance Troop, from 18 September 1944 to 17 January 1945, entered military service from Plainview, Texas. April 14, 1942.

Sgt. Louis Hall of the U. S. Marines visited in the Harrison Hall home last week. He has just returned from two years service in the South Pacific, and was on his way to Edenton, N. Car.

Out of town relatives for J. W. Rowland's funeral were his sister, Mrs. M. Coyle of Ft. Worth, Mr. and Mrs. O. S. Knowles of Borger and Cpl. and Mrs. H. C. McMahon of Lawton, Okla.

J. M. Whittington is still seriously ill in a Clarendon hospital.

Turn Your Tin Cans Into Handy Footstool

THE "sitting room" of two generations ago was cozy and planned for use. Not the least of its comforts were the late footstools to be used with the most frequent chairs. These were covered with bright carpet or other heavy material and, if you examined them, you found that inside there

were cans filled with sand for weight and then bound together and padded.

Such a stool cost not a cent. Nor did it require any carpenter work. Mother or the girls could put one together in no time from things on hand and there it was ready for years of service. You can do the same. The diagrams in this sketch show exactly how to go about it.

NOTE—This footstool is from BOOK 3 of the series offered with these articles. This book also contains more than 20 other things to make for your home from odds and ends plus inexpensive new materials. Booklets are 15 cents each postpaid and requests should be sent to:

WEEKLY NEWS ANALYSIS Germans Fight to Hold Vital Industrial Districts in West; F.D.R. Draws Pattern for Peace

Released by Western Newspaper Union. (EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.)

Able to perform the work of 12 coolies, this elephant loads gas drums on American transport command plane flying supplies to troops in Burma.

EUROPE: Vital Areas

With Allied armies poised against both the Ruhr and Saar valleys, the Germans fought with their backs against the wall in a desperate effort to hold on to these industrial districts so important to their ability to continue the war.

Already heavily battered by aerial bombardment, the Ruhr and Saar faced the prospect of destructive artillery drum-fire, destined to lay their smoke-blackened cities and coal and iron-mining districts in giant ruins.

Offering only sporadic resistance to the rolling columns of U. S. and British troops west of the Rhine, the Germans beat a steady retreat back to the river, evidently intending to put up a strong stand behind the 1,300 to 3,270 foot wide waterway rather than in the rolling plains before it, where superior Allied armor could chew up their diminishing strength.

During the Nazis' withdrawal, fleets of Allied bombers roared over rear areas, not only smashing at road and rail lines in an effort to hamper troop movements, but also hitting at armored formations concentrated behind the Rhine for a last ditch defense of the Ruhr. Full extent of the magnitude of the Allied aerial bombardment can be gathered from reports that British-based U. S. planes alone dropped 51,000 tons on Germany in February.

While falling back to the Rhine on the U. S. 9th and 1st and the British 2nd army fronts in the north, the Germans utilized the rugged Eifel and Hunsbruck mountain country at the northern rim of the Saar in an effort to slow up the U. S. 3rd army's smash to the south. In every way, the Germans, familiar from A to Z with the country, were making every attempt to use the terrain to meet the Allied threat with a minimum of manpower.

Slightly larger than the state of Delaware, the besieged Ruhr cradled 75 per cent of the enemy's war industry in 1942, with its great coal deposits, estimated at 90 per cent of Germany's reserves and half of continental Europe's, forming the basis for its manufacturing. Besides armaments, the Ruhr's 5,000,000 people produced steel, chemicals, pig iron, textiles, synthetic oil, high octane gas, rayon, drugs, plastics, dyes, bricks, glass and pottery.

Smaller than Rhode Island, the Saar also relied upon massive coal beds and iron deposits for the basis of its thriving industry, which produced steel, machinery, cement, plate glass, shoes, paper and textiles besides war goods.

Pocketed before by the Germans during the latter's great sweeps through Russia earlier in the war, wily Red generals were taking no chances on being nipped off all over again on the eastern front.

Although their forces had reached the Oder and Neisse rivers due east of Berlin on a broad front, the Red generals sought to minimize the possibilities of a German attack on their flanks far to the rear of the forward positions. Holding up their fire on the central front until securing their flanks, the Reds exerted strong pressure against the Germans strung out along the Baltic coast immediately above the right wing of Zhukov's 1st White Russian army. To the south on the left wing of Konev's 1st Ukrainian army, the Reds guarded against the danger of a Nazi thrust from Upper Silesia, where the latter had set up strong lines to defend the industrial district and approaches to Czechoslovakia's Axis-worked war plants.

Price Supports Aid British Farmers

Although British farmers now are being paid adequate prices for practically all the main food products to return a profit on the farm by the government, the present British policy is not assured after the war, it was reported. British farmers enjoyed prosperity during World War I, but the repeal of price and wage guarantees in 1920 left the farmers without protection when prices for their products dropped, driving much land into use as pasture.

PACIFIC: Share Spotlight

Carrier pilots, marines and army men all shared the spotlight in the developing attacks aimed at smashing Jap outposts of the home islands to smoothen the road to Tokyo.

Unchallenged by the once-vaunted Nipponese imperial fleet, Vice Admiral Marc Mitscher's famed Task Force 58 continued to roam in the enemy's home waters, with his carrier planes, following up daring attacks on Tokyo, smashing at the Ryukyu Islands flanking the sea route to the east.

Having overrun the southern half of Iwo Jima, battle-hardened marines pressed the remnants of 20,000

defenders into the northern part of the island, using flame throwers along with light arms to root the enemy from well-designed natural entrenchments.

In the Philippines, army men, having cleared Manila, fanned out to the north, east and south to clear resistance from the rest of Luzon, with heavy fighting still ahead.

WORLD PEACE: Pattern for U. S.

Once quoted as saying that scholarly Woodrow Wilson failed to secure U. S. entrance into the League of Nations because he was not a politician, Master Politician Franklin D. Roosevelt fired the first gun in the campaign to obtain approval for this country's participation in a postwar organization to preserve peace in an address to the nation and congress on the historic Yalta conference.

To assure the effectiveness of a postwar peace program, the President said U. S. collaboration must be two-fold:

First, this country must join in a world organization to suppress aggression, if necessary, by force. Second, the U. S. must provide relief to alleviate suffering in the liberated states, and furnish credits for the reconstruction of their economy so that they might be able to resume full production and stand on their own.

"There can be no middle ground," declared the President. "We shall have to take the responsibility for world collaboration or we shall have to bear the responsibility for another world conflict."

Aid French

In an agreement that might set the pattern for future arrangements, the U. S. granted the French a 2 1/2 billion dollar lend-lease credit to be paid within 30 years.

Under the agreement providing for shipment of over 1 1/2 billion dollars of raw materials, food, petroleum products and light manufacturing equipment, repayment would be in 30 annual installments at 2 1/2 per cent interest, while deliveries of almost 1 billion dollars of locomotives, freight cars, machinery for mines, industrial equipment, ships and barges would be made with a 20 per cent down payment and 30-year amortization of the remainder.

To maintain the present French army and double its strength of eight divisions, the U. S. agreed to continue lend-lease military supplies. In return, the French promised increased reciprocal aid.

and introduced this new berry that you
have been reading about or have heard
about over the radio. Rossberry was cre-
ated by the famous Luther Burbank and
has broken all records for production and
outstanding merits. It is the greatest ber-
ry ever discovered. Grows like a Boysen-
berry, loaded with giant-size, 2 by 1 inch,
wine-colored, delicious berries. Has the
combined flavor of Boysenberry and rasp-
berry with some sweet added. Those who
have tried it are re-setting their whole
patch with Rossberry. Rossberry is really
the dream berry—the ideal we have wait-

MAY THE BEST WOMAN WIN!

There's the bell... hold your hat... hang on to your purse... and may the best woman win!

Bargain sales look as exciting as ever these days, but this ancient sport isn't what it used to be. So much merchandise is up in price or down in quality.

However, there's at least one real bargain that still provides high prewar quality at low prewar prices. That's the electric service you enjoy in your home.

Actually you're getting about twice as much electricity for your money today as you did 15 years ago. If your total electric bill is no less today, it's because you have more electric conveniences now and use them more. But the cost per kilowatt-hour average is much less.

The credit for this wartime bargain belongs to your friends and neighbors in this company. Their hard work, plus sound business management, made it possible. You can count on them to continue to furnish cheap, dependable electricity for still finer electric living in the war.

BEES NEED BUMBERSHOOTS?

YES NO

They say that "bees never get caught in the rain." Maybe you claim you've seen different. But the changed natural light as a storm approaches is supposed to make bees get busy and fly home. They may be weather-wise or not. But you've simply got to believe for Spring weather demands an oil change in the car you cannot replace, and Conoco Nth motor oil will OIL-PLATE your engine for extreme resistance to wear—

That's really how to hold down carbon, gum and sludge.

That's really how to keep up engine power.

That's really how to get good mileage from your oil and your gasoline.

The special life-giving quality of OIL-PLATING comes from patented

Conoco Nth oil's additional ingredient—a climax of notable research. This effort developed the magnet-like effect that makes metal attract OIL-PLATING—lubricant fastened square in the path of friction. And you can credit the same intensive research with making your OIL-PLATED engine defy corrosion.

Then both worst causes of wear are curbed. And you're safer from lay-ups—junking—walking! Surely Conoco Nth is worth its slight extra cost. OIL-PLATE today. Continental Oil Company

When Your Back Hurts -

And Your Strength and Energy is Below Par

It may be caused by disorder of kidney function that permits poisonous waste to accumulate. For truly many people feel tired, weak and miserable when the kidneys fail to remove excess acids and other waste matter from the blood.

You may suffer nagging backache, rheumatic pains, headaches, dizziness, getting up nights, leg pains, swelling. Sometimes frequent and scanty urination with smarting and burning is another sign that something is wrong with the kidneys or bladder.

There should be no doubt that prompt treatment is wiser than neglect. Use Doan's Pills. It is better to rely on a medicine that has won countrywide approval than on something less favorably known. Doan's have been tried and tested many years. Are at all drug stores. Get Doan's today.

SNAPPY FACTS ABOUT RUBBER

Spare synthetic tires carried on vehicles should be protected against sun and weather. Synthetic casings are particularly subject to sun checks, the beginning of cracks and mileage wasters.

Botanists designate the *Eucommia tinctoria* as "the only hardy rubber tree." It is an evergreen tree with 3 per cent rubber content, an amount that does not encourage commercial extraction.

Tests have demonstrated that in many respects typewriter and business machine rolls or platens of synthetic rubber are equal or superior to those of natural rubber.

MEAT: Scarcity Felt

Recent tightening up of meat rationing reflected frequent warning of government officials in recent weeks that short supplies could be expected until late summer or fall when livestock marketings should increase.

With the present meat situation aggravated by the sharp drop in hog slaughtering in the face of heavy military requirements, March allocations to civilians will fall about 6 per cent below February and 14 per cent below January.

In an effort to spread the civilian supply of all meat, point values were raised on a wide range of cheaper beef and pork cuts, with reductions for choice beefsteaks and roasts failing to offset the increases because of the relative scarcity of such items. Affected by the latest point revision were a wide variety of sausages and canned meats previously uncontrolled.

COAL MINERS: Start Bargaining

Having previously filed a 30-day notice of the intent to strike in case of a snag in negotiations for a new contract, United Mine Workers Chairman John L. Lewis sat down with coal operators to bargain for a new pact as government officials warned of an impending coal shortage even without a walkout.

Although he did not ask for a basic wage increase, Lewis demanded a royalty of 10 cents for every ton of coal to build up a \$55,000,000 medical and rehabilitation fund; time and a half beyond a seven-hour day and 35 hours a week, and a 10 cent differential for the second shift and 15 cents for the third.

With requirements continuing at peak levels and the mines' manpower problems becoming more acute with the loss of an estimated 30,000 men from an already shrunken force, a 50,000,000-ton shortage of coal is in prospect unless the European war ends this year, it was said. Industrial reserves were below standard in many regions, with New England electric utilities, for example, possessing only an 89 days' supply compared with 102 last year.

Find Shell in Seaman

Convalescing at the naval hospital in San Francisco, Calif., from a compound fracture of the leg and chest injuries incurred on a battleship off Leyte, Seaman Dewey Dupree, 20, of Potosi, La., told doctors that he felt there was something inside of him.

Thinking they had missed a piece of shrapnel, doctors ordered an X-ray, found a highly sensitive unexploded 20-mm. shell embedded in Seaman Dupree's body.

In operating to remove the projectile, the doctors had to exercise the greatest care, since the shell could have exploded on contact even with a surgical instrument.

JET PLANES: U. S. Development

Using an engine based on the design of Commodore Frank Whittle of the RAF, two American aircraft companies have produced a jet propelled fighter capable of flying over 500 miles per hour.

Called the "Shooting Star," the new plane is supposed to be much more maneuverable than German jets because of the development of special devices for controlling wind resistance. Sleek in appearance, with the cockpit set before the wings, the new jet can carry heavy loads of ammunition, photographic equipment and bombs and fuel.

Principle of the new jet engine is simple: Wing ducts permit passage of air into a combustion chamber, where kerosene flame causes it to expand. Because of this expansion, the gases beat against one side of the chamber, forcing a forward motion.

ALLIED ARSENAL: U. S. Earns Title

Possessed of almost unlimited resources, a vast pool of skilled and unskilled labor and efficient management, America has well earned the title of the arsenal of democracy during World War II. In supplying U. S. and Allied forces since 1940, U. S. industrial production included:

- 246,045 airplanes; 56,697 naval vessels; 4,631 merchant ships; 75,204 tanks; 14,767 armored cars; 110,945 trucks over 2½ tons, and 658,523 trucks under 2½ tons.
- 2,422,099 machine guns; 5,942,385 rifles; 5,163,826 carbines; 130,017 tank and self-propelled guns; 48,952 army and anti-aircraft guns; 55,252 pieces of all types of field artillery; 4,130,000 tons of aircraft bombs; 59,646,000 grenades, and 37,198,000,000 rounds of small arms ammunition.

Because U. S. airmen and ground troops in Europe will have to be completely reequipped for the fight against Japan, war production will have to continue at a high level after Germany's fall, it was said.

OLD WHEAT

If properly stored, wheat may be kept as long as 22 years and still make good bread, scientists of the USDA and the Colorado Experiment station report.

Ordinarily, wheat is stored no longer than two or three years before being milled since it has been thought that the long storage might change the protein of the wheat so that it would lose the elasticity that allows bread to rise and the fat in the grain would become rancid and affect the flavor of bread.

Household Hints

When drying a hairbrush, put the bristle side down. If bristles point upward, water will drain onto wood block holding the bristles, in time causing it to split.

After washing your window sills, wax them. They can then be kept clean for a long time by just dusting them with a cloth.

Blow dirt from the windings of an electric motor with the tire pump or vacuum cleaner. A wet cleaning job will bring trouble.

Cut the cover for the ironing board on the bias and there will be no trouble with wrinkles.

Be careful in the use of your electric cords so wires will not be exposed, or let the two bundles of wires touch each other. When removing cords, handle carefully, rather than twisting or yanking them. Keep all cords dry. Do not fasten to baseboards with staples or nails.

Cover scratches on dark furniture by touching with iodine. When dry, polish.

For Years Kreisler Played Own Music as Another's

Fritz Kreisler achieved much of his fame as a violin virtuoso by playing, among others, his own many compositions which he claimed were unknown works of minor masters long dead, says Collier's.

Kreisler started this practice in his early days of concert work through the fear that he would not become popular if the public knew his repertoire consisted largely of his own music; and he carried on the artifice for 30 years before confessing in 1935.

HE HAS YOUR BATTERY

Army Medical Corpsmen run the risks of front line warfare side-by-side with the hard-hitting infantry. Using battery-powered flashlights to help save time—save lives, gallant "medics" give quick, efficient attention to wounded men. Countless war batteries are needed for weapons and lights—that's why supplies are limited on the home-front. Use your batteries carefully—make them last longer.
