Baseball

Next Sunday the Hedley Baseball Club will play the Borger team here. Borger has a mixed team of men and boys that make up a strong club, but the Hedley boys are going to try to take them. The game is called for 3 p. m.

Last Sunday the Hedley boys played errorless baseball and shut out the Clarendon second string by the score of 11 to 0. Messer and Owens did the pitching with DeFord catching.

American Legion

Next Tuesday night is regular meeting of the Hedley Legion Post. At this meeting W. D. Franklin, the new commander and the other new officers will be installed to take over at the October meeting. Malcolm Glass, the retiring commander, leaves a mighty good record to shoot at, the Post having 45 members in 1945, which exceeds any membership in recent years. Delegates to the state convention will also be elected at this meeting. All ex-servicemen of both wars are urged to attend.

Junior Class

Monday, Sept. 3, the Junior class met and elected our class officers for 1945-46. The officers are as follows:

Miss Emma Condon and George Condon of Throckmorton are visiting their sister and aunt, Mrs. C. A. Hicks.

Mrs. Jewell Adams and children of Comario visited here this week.

Lions Club News

The Lions Club perfect attendance contest starts with next week's meeting and runs through April of next year. All Lions are urged to attend this meeting and start off with perfect attendance. In 1943 the local club had 12 members with perfect records, in 1944 they had 22, in 1945 they had 24. Let's make it bigger and better in 1946.

About 75 Lions, ladies and other guests attended the annual family picnic and barbecue at the Finch Ranch last Thursday night. They report this an exceptionally good affair with everyone getting plenty to eat and having a good time. Special thanks should be given to the food committee, while not as famous as "Stuttering Sam's food committee" nevertheless they get the job done.

Eighth Grade News

Over three hundred pupils are now on our class rolls and more to start soon.

Owen-Bain

The following article appeared in a California newspaper:

Santa Ana will be the temporary home of Captain Harold Dean Owen and his bride, the former Betty Jo Bain, who exchanged wedding vows at a ceremony solemnized at 8 o'clock Monday evening, July 30, in the Salinas Church of Christ. Evangelist Linwood E. Bishop officiated at the candle-light ceremony.

Gladioli, white dahlias, palms and fern decorated the church for the nuptials. "Always" was sung by Miss Ruth Grieser preceding the ceremony, and Mrs. Kenneth Bain, aunt of the bride, played the wedding march.

For her wedding, the bride wore a gown of traditional white satin styled with a train and a fingertip length veil.

Fuchsia accessories complemented the light blue suit worn by the bride when the justweds departed for a honeymoon of several days in Los Angeles before leaving for Fort Worth, Tex., where the bride's parents, Mr. and Mrs. I. W. Owen, live.

The bride, who is the daughter of Mr. and Mrs. J. R. Bain of Gilroy, completed her high schooling in Salinas and attended the local junior college. Before her marriage she was employed as a bookkeeper in the budget and fiscal office at the Salinas army air base.

Captain Owen, who attended college in Fort Worth, served 18 months overseas with the Fifth air force. A P-38 fighter pilot, he had 608 combat hours and wears the distinguished flying cross and air medal with five oak leaf clusters. He will await further orders after reporting at Santa.

Have the boys graduated from Coach's plumbing class yet?

Hoot why don't you pick a pretty moonlight night, instead of a dark and stormy one like you did Saturday night.

Curly, have you put an ad in the Lost and Found column of the paper yet, or have you found your driver's license?

Who was Sam courting Thursday night when Redtop caught him?

Why was David sitting on Joy's doorstep so late one night last week?

What was Curly's and Redtop's row about?

It seems as though Gibson and Pete are stepping out a bit here lately.

Carter must be doing all of his courting at Memphis now.

Has Hoot been trying to go with Bonnie the past few weeks?

I wonder if Sam would give an account of himself late Friday night and early Saturday morning.

It seems as though Wanda June has three or four boy friends at the present. I thought there was a man power shortage.

Does Charlie doubt Kat's being true to him since she has begun working at Memphis?

Margaret seems to be having a hard time hooking her a boy friend this year.

U.S. Moves to Take Over Japan; See Early End to Rationing As Reconversion Pace Quickens

Released by Western Newspaper Union.
EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.

JAPAN:
Work Out Occupation

Its huge guns belching smoke and fire and bombarding the Nipponese coastline just a few weeks ago, the huge 45,000 ton U. S. battleship Missouri was to become the peace ship of World War II, with the Japanese formally signing surrender papers aboard the vessel in Tokyo bay.

Taking place several days after U. S. airborne troops were to descend on the Atsugi airdrome southwest of Tokyo to spearhead the Japanese occupation along with marines landing simultaneously at the Yokosuka naval base 20 miles below the Nipponese capital, the formal surrender ceremony was to see General MacArthur signing for the Allies as a whole, with Admiral Nimitz countersigning for the U. S. and Admiral Fraser for the British.

In working out the initial occupation plans, General MacArthur and his staff left no stone unturned to assure the safe conduct of the U. S. forces. At the same time, the new Nipponese government headed by Prince Higashi-Kuni strove to prepare the population to accept the American landings peacefully and refrain from riotous outbreaks, imperiling the whole surrender.

Under General MacArthur's plans, the Japanese were ordered to ground all planes and disarm all ships at sea several days before the first U. S. landings. Then, while sprawling Allied fleets moved in close to Nipponese shores, the Japanese were to immobilize all vessels in Tokyo bay and strip coastal guns and anti-aircraft batteries.

As a final precaution, the Japanese were ordered to evacuate all armed forces out of the immediate landing area, to forestall possible attack by fanatical troops. Guides and interpreters were to be furnished to facilitate General MacArthur's control of the occupation territory.

War Casualties

In the first full admission of the intensity of Allied air attacks, the Japanese news agency Domei reported that 44 of the nation's 200 or more cities were almost completely wiped out by bombings, with a toll of 260,000 killed, 412,000 wounded and 920,000 left homeless.

Of the total, the atomic bombs dropped on Hiroshima and Nagasaki accounted for 90,000 killed and 180,000 wounded, Domei said. Declaring the toll may be even greater, the Japs revealed that many of the burned are not expected to survive because of the nature of the wounds, while persons only slightly touched by the fires later weaken and often die.

Reporting that 2,210,000 homes were completely demolished or burnt down, and 90,000 partly damaged, Domei said that in addition to the 44 cities almost completely wiped out, 37 others, including Tokyo, suffered loss of over 30 per cent of their built-up area. Of 47 provinces, only 9 escaped with relatively minor damage, Domei revealed.

CHINA:

Key Position

Relieved from Japanese encroachment, and pivotal point of the present, China has assumed a renewed importance in the far east, with Chiang Kai-shek and his Premier T. T. Soong playing their cards well in the complicated game of international politics.

Backed by the U. S., Chiang's government holds the upper hand in the vast, sprawling nation with its 400,000,000 people, with its position greatly strengthened in dealings with the Chinese communists, Russia and even Britain.

Though the Reds have openly defied Chiang, U. S. financial and material support of his regime, plus efforts of Ambassador Hurley to bring the two dissident factions together, have enhanced his standing. In his dealings with Russia, U. S. and British pressure has resulted in recognition of China's sovereignty over Inner Mongolia and Manchuria, though the

Reds have obtained a 50 per cent interest in vital railways in the latter province, secured Port Arthur as a naval base and been allowed use of the ice-free port of Dairen.

By marching his armies into the crown colony of Hong Kong, which the British wish to retrieve, Chiang even struck up a bargaining position with London.

RECONVERSION:
Pace Quickens

Breathless trying to keep up with relaxation of unending wartime controls, the nation contemplated early removal of meat, tire and shoe rationing, even as the government removed restrictions on industry to permit full-steam ahead on reconversion.

Following a previous announcement that the government had abolished packer set-asides on beef, veal and ham supplies for the army and other federal agencies, an early end of rationing was expected with OPA's revelation that it would reduce meat point values in view of military cutbacks in orders and a prospective heavy fall run of cattle.

With the announcement that tire production would be doubled to 4,000,000 monthly during October,

With industry given the go-ahead signal for civilian production, manufacturers strove for speedy output for the post-war market. Here, body is being slung on chassis of one of the first cars to roll off of postwar production line.

November and December, unofficial predictions that rationing of cords would be terminated within 90 days were strengthened.

Forecasts that shoe rationing also may be ended shortly were supported by an announcement of the Tanners Council of America that production of civilian footwear may exceed 30,000,000 pair a month for the rest of the year, the highest level ever reached by the industry.

By lopping off most controls and only retaining authority to assure military and other emergency production, and break bottlenecks in scarce materials for civilian output, the government gave manufacturers the go-ahead signal on such a wide variety of items as refrigerators, radios, distilled spirits, trucks, oil furnaces, construction machinery, metal furniture, motorcycles, photographic films, storage batteries, waxed paper, sanitary napkins, machine tools, shipping containers, pulpwood and commercial chemicals.

Removal of all lumber controls except those necessary to fill priority orders assured a speedy resumption of both industrial and home building construction.

U. S. CREDIT:
Supplants Lend-Lease

Following termination of the 41-billion-dollar lend-lease program, Foreign Economic Administrator Leo Crowley revealed that the U. S. was prepared to advance six billion dollars in credits to other nations for procurement of material in this country to bolster sagging postwar economies.

At the same time, Crowley said that negotiations might begin within the next year for settlement of lend-lease accounts, which find U. S. contributions of 41 billions offset by only 5 1/2 billions in mutual assistance.

Under plans outlined by the FEA chief, the U. S. would furnish 3 1/2 billion dollars in long-term credit to nations wishing to purchase goods already contracted for to fill cancelled lend-lease orders. An additional 2 billion 800 million dollars would be advanced for procuring industrial and other goods.

Chieftains Meet

Here to discuss increased financial assistance for rehabilitating France, internationalization of the Rhineland and re-establishment of his country as a world power, Gen. Charles de Gaulle (left) arrived in Washington, D. C., to be greeted by President Truman.

QUISLING:
On Spot

Fighting back savagely, big, bulky Vidkun Quisling was hard pressed in defense of his collaboration with the Germans in Norway as the state presented an avalanche of evidence purporting to show that he had co-operated closely with the Nazis in their heavy-handed occupation of the country.

Quisling was first taken back by state presentation of reportedly captured German documents stating that the Nazis had used information supplied by him in their invasion of Norway. The collaboratorist also was shaken by charges that he had turned over to the Germans a communist leader blocking his political program and also denied a reprieve to an official sentenced to death for refusal to force Norwegian girls to work for the Nazis.

Throughout the trial, Quisling defiantly asserted that he had played with Nazism in an effort to prevent British establishment of bases in Norway in 1940 and possible invasion of the Scandinavian peninsula by Russia from the north and Germany from the south to thwart the move. He also claimed to have worked fervently from 1918 for the creation of a German, British and Scandinavian bloc to arrest the development of Communism in Europe.

PACIFIC:
Ask Bases

Taking a realistic view of the Pacific situation, in which the U. S. looms as the greatest power, the house naval affairs committee demanded that this country be given control over both Allied and former Japanese bases for the construction of a powerful defensive system capable of resisting attack from any direction.

Issued by Chairman Vinson (Dem., Ga.) the congressional proposal urged U. S. domination of the whole Pacific area stretching from the Hawaiian westward to the Philippines and Ryukus, and including the Marshall, Caroline and Marianas islands. In addition, the house committee said, the U. S. should take over American developed bases in the Manus islands in the Australian Admiralties; Guadalcanal in the British Solomons; Espiritu Santo in the British-French New Hebrides and Noumea in French New Caledonia.

Justifying American control over Pacific bases, the house committee cited "the loss of American lives in taking these bases. The expenditure of vast sums of American money in establishing and equipping these bases. The great dependence of the world upon the United States for maintaining peace in the Pacific and world."

SALARIES:
Bar Lifted

With President Harry S. Truman having set the pattern for removal of controls over wages and salaries under jurisdiction of the War Labor board, the treasury announced relaxation of restrictions on salaries of administrative, executive and professional personnel under its wartime supervision.

In both cases, employers will be able to grant raises to workers provided they do not use the increase as a basis for requesting higher ceiling prices. In instances where price changes are involved, government agencies will retain authority over proposed raises.

At the same time, the WLB is empowered to grant wage increases where substandard rates are in effect to bring them more evenly in line with living costs.

SKIN TREATMENT:

Establishment of eight centers specializing in the treatment of tropical skin disease was announced by Maj. Gen. Norman T. Kirk, surgeon general of the army.

At the same time the army said that there is no basis for fear of tropical skin infections spreading in this country because practically none of these diseases are contagious and no patient with a transmissible skin disease would be allowed out of an army hospital until he was non-infectious.

He Recognized Dripping Sarcasm From Elephant

One afternoon a famous conductor was rehearsing an operatic group for a performance of "Aida." The singers were all in bad form and for the life of him he could not get them to sing a certain passage to suit him.

He was about to give up in disgust when one of the elephants which was to appear in the performance lumbered out from the wings, lifted his trunk and drenched them with a shower of water.

Observing the discomfort of the singers with amusement, the conductor turned to the elephant and made a sweeping bow.

"Frightful stage manners," he murmured, "but what a critic!"

When You Were Three

Tying your own shoes was a tough job. But your parents let you try. They knew it would help you to help yourself. Remember the thrill when the knot stayed tied? Shifting for yourself has always been an American custom. As boy or man, just give an American an even break—a chance to get ahead—and he'll do the rest. But when government goes into business, in competition with its citizens, the American idea of an even break is destroyed . . . for government in business takes special privileges that are denied the people.

Consider government power projects for example. They are TAX SLACKERS—DO NOT pay federal taxes; but get YOUR money from the U. S. Treasury at little or no interest; make up losses out of the pockets of the patriotic taxpayers. On the other hand, America's business-managed power companies—owned and operated by millions of folks like you—are on their own. They pay their full share of taxes. (near one-third of each gross dollar collected). They pay through able management, fair interest on money loaned by people like you to build the property.

Maybe you run a store or service station or beauty shop. View them—a next-door government politically managed competitor who has little or no rent, or taxes, or interest to pay, and who is kept in business partly by your tax money.

It is a tribute to American self-reliance that tax-paying, self-supporting companies supply over 90% of the tremendous amount of electric power used in this country. And it is a further tribute to the American system of private initiative that these companies provide America with enough electricity to meet even the gigantic demands of war—and, when most things cost more—still deliver this electricity at low pre-war prices and without political tax favors or subsidies.

That Nagging Backache

May Warn of Disordered Kidney Action
Modern life with its hurry and worry, irregular habits, improper eating and drinking—its risk of exposure and infection—throws heavy strain on the work of the kidneys. They are apt to become over-taxed and fail to filter excess acid and other impurities from the life-giving blood.
You may suffer nagging backache, headache, dizziness, grinding up nights, leg pains, swelling—feel constantly tired, nervous, all worn out. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination.
Try **Doan's Pills**. Doan's help the kidneys to pass off harmful excess body waste. They have had more than half a century of public approval. Are recommended by grateful users everywhere. Ask your neighbor!

Top for Toy Chest Is a Folding Table

STENCILING the scalloped borders, bright stars and topsyturvy letters on this toy chest is sure to put you in gay spirits. The chest itself is easy to make from scraps of plywood.

The rope handles and wooden wheels make it possible to move a complete assortment of toys to any convenient spot.

Then off comes the lid; folding legs are opened up, and Little Miss Muffin has a table just the right height for play. When Mother wants to move, toys and all are trundled along until it is time for pandas and dolls to be tucked away under the star-spangled top for another night.

NOTE—Pattern is available to readers showing how to make this chest and folding table top. Also illustrated directions for decoration with stencils which require no special skill for perfect results. Color guide is included. Ask for Pattern 223 and postage 15¢ with money order or check.

SNAPPY FACTS about RUBBER

"Hard Spange," a new synthetic rubber product developed by F. F. Goodrich, combines great strength with extreme lightness. Experiments point to its possible use in airplane wings.
A type of vine recently discovered in China, which attaches itself to trees and other objects, has been found to yield latex (natural rubber). Stems grow to 50 feet in length and yield about a pound of latex.
Inner tubes made with a special type of synthetic rubber hold air much longer than tubes made of natural rubber.

Boys Will Welcome This Cake Overseas!
(See Recipes Below)

Send It Overseas!
It won't be long now before you can start those Christmas presents on their way to the soldiers overseas. Of course, you can send baked goods at any time to the boys in camp here in this country; and sailors and marines stationed overseas can also receive packages at any time.

For your local service centers, you can bake luscious, frosted cakes, but you will have to reserve cakes that will pack well and travel easily for "over there." It has been found that cakes with fruits and nuts stay fresh longer than plainer ones.
Use frosting that doesn't rub off easily or crack if you are sending the cake to some camp in this country. For overseas, it's best to send unfrosted cakes.
The use of cake flour will give a cake fine grain, and such a cake will not crumble easily during shipment. And do pack both cakes and cookies as tightly and securely as you can to assure their arriving in the best possible condition.

Here are some of the nominations for cakes and cookies that pack well and travel easily. The first is an easily mixed fudge type cake:
Fudge Nut Cake.
2 cups sifted cake flour
1 teaspoon soda
3/4 teaspoon salt
1/2 cup vegetable shortening
1 1/4 cups milk
1 teaspoon vanilla
1 1/2 cups brown sugar, firmly packed
2 eggs, unbeaten
3 squares unsweetened chocolate, melted over boiling water
1 cup coarsely chopped nuts
Sift flour once, measure into a sifter with soda and salt. Have shortening at room temperature, mix or stir to soften. Sift in dry ingredients. Add brown sugar, forcing through a sieve to remove lumps, if necessary. Add 1/4 cup milk, vanilla and eggs. Mix until all the flour is dampened, then beat 1 minute. Add remaining milk and blend. Add melted chocolate and beat 2 minutes longer. Fold in nuts. (Count only actual beating time or strokes.) Allow at least 100 strokes to the minute. Scrape bowl and spoon often. Turn into a greased (13x9x2 inch) pan which has been greased lined on the bottom with waxed paper and greased again. Bake in a moderate (375-degree) oven for 35 minutes or until done.
Another good, substantial cake with the flavor of orange, honey and nuts is also a good choice for overseas shipping:

Orange Honey Nut Cake.
2 cups sifted cake flour
3 1/2 teaspoons baking powder
3/4 teaspoon salt
1/2 cup butter or shortening
1/2 cup sugar
2 egg yolks
1/2 cup orange juice
2 egg whites, stiffly beaten
3/4 cup nuts, if desired
Sift flour once, measure, add baking powder and salt and sift together three times. Cream butter thoroughly, add sugar gradually, and cream together until light and fluffy. Add honey slowly and blend. Add egg yolks alternately with orange juice, a small amount at a time, beating after each addition until smooth. Fold in egg whites. Bake in two greased 9-inch layer cake pans in a moderate (350-degree) oven 30 to 35 minutes.
There are any number of cookies which will keep easily and travel well even if they travel far. Here are suggestions for those camp and overseas boxes:
Honey Chocolate Chip Cookies.
1/2 cup butter or substitute
1/2 cup honey
1 small egg
1 cup sifted flour
1 teaspoon baking powder
3/4 teaspoon salt
1/2 teaspoon vanilla
1/2 cup semi-sweet chocolate chips
3/4 cup nutmeats, chopped
Cream butter and honey until light and fluffy. Add egg and beat well. Sift flour, baking powder and salt twice. Add flour mixture to butter mixture; then add vanilla and blend all well. Fold in chocolate chips and nuts. Chill and drop by spoonfuls on a greased cookie sheet. Bake in a fairly hot (375-degree) oven for 12 minutes.
Honey Pecan Cookies.
1/2 cup butter or substitute
1 cup honey
1 egg
1/4 cup sour milk
2 cups flour
1/2 teaspoon soda
1/2 teaspoon salt
3/4 cup pecans
3/4 cup each of raisins, candied cherries and dates
Cream butter and honey. Add the egg, sour milk, flour which has been sifted with soda and salt. Add the fruits and nuts. Drop on greased tins and bake at 350 degrees for 15 minutes.
Spicy and sweet are these fruit spice bar cookies. They are easy to pack and they mellow with age:
Fruit Spice Bars.
1 cup sifted flour
1/2 teaspoon soda
1/2 teaspoon salt
1/2 teaspoon ginger
1/2 cup shortening
3/4 cup brown sugar
1/2 cup molasses
2 eggs, beaten
1/4 teaspoon vanilla
1/4 cup raisins
3/4 cup nuts
Sift together flour, soda, salt and ginger. Cream together shortening and sugar until light and fluffy. Add molasses and blend well. Add eggs and vanilla extract. Mix well. Add flour mixture gradually to creamed mixture, blending well. Fold in raisins and nuts. Spread batter into a greased pan 7x11 inches. Bake in a moderate (350-degree) oven. Cut in bars.

Try These Tips: Transform yesterday's roast into a scalloped casserole, a quick stew, Shepherd's pie or hash.
Bits of cheese and eggs and vegetables can be ground up, mixed with mayonnaise or salad dressing to make delicious sandwich fillings.
Leftover vegetables are also welcome in soups. Or, add them to meat loaves or mold in gelatin salads.
Leftover sandwiches can be toasted to add new, delightful flavor to them. Call them toast-wiches.
Several kinds of leftover canned or fresh fruit can be a topping for upside-down cake.
Dried out cake and cookies can be used for bread pudding.
Leftover rice makes de luxe waffles or griddle cakes.

AROUND THE HOUSE

Poached eggs are much tastier if fixed in hot milk instead of water.
In making coffee, tea or chocolate to be served iced, double the strength—to allow for the loss in cooling the beverage.
When saving buttons from an old garment, put matching ones on a safety pin to keep them together. It will save time later.
Keep all furniture about an inch away from the wall, then you are certain you will not rub the wall-papers and make a mark or grease spots by an overdose of furniture polish on the back of a table or chair.
To keep brass or other metal door knockers, door knobs, and the like shiny, apply a thin coat of colorless wax to them occasionally.

Put FRAM Oil Filters on All Three!

HERE'S how to save a lot of long, costly repairs... lengthen the life of your car, truck, tractor or stationary engine. Just install Fram oil filters!
WHY EVERY ENGINE NEEDS FRAM: During normal operation, dust, grit and other abrasives are sucked into engines. At the same time carbon and sludge are formed within the engine. Unless filtered out, the dirt and carbon grind away moving parts, while the sticky sludge clogs oil channels to hamper lubrication and increase wear. But with a Fram, these impurities are filtered out, to keep motor oil visually clear. That's why millions of Fram filters and cartridges are used by our armed forces—why Fram is standard equipment on more than 75 famous car, truck, tractor, bus, marine and stationary engines. Experts agree on Fram!

MONEY-BACK GUARANTEE
Remember, a Fram oil filter must satisfy you, or you get your money back. If your equipment is already filter-equipped, Fram replacement cartridges can be put in present filters to step up performance. Remember, Fram oil filters are easy to install and cartridges may be changed in a jiffy. So see your dealer today! Find out "How's Your Oil Filter?" The Dipstick tells the story!

Kidneys Must Work Well-

For You To Feel Well

24 hours every day, 7 days every week, never stopping, the kidneys filter waste matter from the blood. If more people were aware of how the kidneys must constantly remove surplus fluid, excess acids and other waste matter that cannot stay in the blood without injury to health, there would be better understanding of why the whole system is upset when kidneys fail to function properly. Burning, scanty or too frequent urination sometimes warns that something is wrong. You may suffer nagging backache, headaches, dizziness, rheumatic pains, getting up at night, swelling. Why not try Doan's Pills? You will be using a medicine recommended the country over. Doan's stimulate the function of the kidneys and help them to flush out poisonous waste from the blood. They contain nothing harmful. Get Doan's today. Use with confidence. At all drug stores.
