

Smart Face-Framing Fascinator to Crochet

Pattern No. 5491

FASCINATORS are beginning to pop out—all sizes, shapes and colors, but for sheer charm and face-framing effect the triangular fascinator crocheted in soft open-work stitch still takes the cake. You need just two ounces of yarn.

To obtain complete crocheting instructions for the "Fascinator" (Pattern No. 5491) send 16 cents in coin, your name, address and the pattern number.

To Save Money, Mix Your Cough Relief at Home

So Easy! No Cooking. Quick Relief.

Even if you're not interested in saving good money, you really want a really effective relief for coughs due to colds. So try mixing it yourself in your kitchen, and be ready for a surprise. It's so easy to mix, a child could do it. Make a syrup by stirring 2 cups of granulated sugar and 1 cup of water a few moments, until dissolved. No cooking is needed. Or use corn syrup or liquid honey, instead of sugar syrup. Put 2½ ounces of Pinex obtained from any drug store into a hot bottle. Then fill up with your syrup. This makes a pint—about four times as much for your money. It tastes good—children really like it. It lasts a family a long time, and never spoils. But what you'll like most is the way it takes right hold of a cough. It loosens the phlegm, soothes irritation, and helps clear the air passages. Eases soreness, and lets you sleep. You'll say you've never seen its superior. Pinex is a special compound of proven ingredients, in concentrated form well known for its quick action on throat and bronchial irritations. Try it, and if you're not really delighted, your money will be refunded. —Adv.

SNAPPY FACTS about RUBBER

A synthetic rubber developed entirely from petroleum gases is now being used in the manufacture of truck tire inner tubes. Called Butyl, the new synthetic provides an extra margin of safety against puncture, holds air much longer.

Since Pearl Harbor, the United States has produced as much synthetic rubber as the entire world's supply of natural rubber for the 18 years from 1900 through 1915.

The rubber industry's power capacity of 650,000 tons a year has been increased to more than 1,100,000,000 civilian tons annually.

People Make Fun of Mrs. Beulah Hankins

INDIANAPOLIS, INDIANA. — Mrs. Beulah Hankins, who lives at 634 S. Collier, wrote an amusing letter to Faultless Starch Company recently. She said,

"I want to tell you about your wonderful starch. I sure think it's grand. Several people make fun of me for not boiling my starch. They say this starch is for lazy people. I have a boy four years old and I iron ten to fifteen suits of clothes a week for him. I love to iron them as Faultless Starch makes easy ironing. I also have twins, eight months old, and do they have a laundry — from twenty to twenty-five dresses a week and most of these are white ones. They iron so smooth and smell good. Thanks again for Faultless Starch. It sure saves me many hours of ironing."

SAVES TIME AND WORK

That's probably the most wonderful letter anyone could write about Faultless Starch! Mrs. Hankins is a busy wife and mother and she has found that Faultless Starch saves time and work for her. She makes starch without cooking and she has found that Faultless Starch makes her ironing easy. She gets a kick out of people saying that her Faultless Starch is for lazy people. Certainly she isn't!

MADE A SPECIAL WAY

If you are busy, too—especially on washday and ironing day—you deserve the time-saving and work-saving help Faultless Starch can give you. You see Faultless Starch is made a special way to help you through your washing and to save you hours of ironing. So why not enjoy Faultless Starch? All you have to do is ask your grocer for it. Then you can make perfect hot starch without cooking! And you can make ironing so smooth, easy and beautiful. It's yours for the asking... Faultless Starch!—Adv.

PAZO for PILES
Relieves pain and soreness
PAZO IN TUBES!
Millions of people suffering from simple Piles, have found prompt relief with PAZO ointment. Here's why: First, PAZO ointment soothes inflamed areas—relieves pain and itching. Second, PAZO ointment lubricates hardened, dried parts—helps prevent cracking and soreness. Third, PAZO ointment tends to reduce swelling and check minor bleeding. Fourth, it's easy to use. PAZO ointment's perforated Pile Pipe makes application simple, thorough. Your doctor can tell you about PAZO ointment.
SUPPOSITORIES TOO!
Some persons, and many doctors, prefer to use suppositories, so PAZO comes in handy suppositories also. The same soothing relief that PAZO always gives.
Get PAZO Today! At Drugstores!

WEEKLY NEWS ANALYSIS
Congress to Probe Diplomacy of State Department; Maneuver to Modify Demands of CIO Unions

Released by Western Newspaper Union.
(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.)

U. S. DIPLOMACY: Duplicity Charged

Long under fire for its implementation of American foreign policy in the wake of U. S. victories on the battlefield, the state department was scheduled for congressional investigation following ex-Amb. Patrick Hurley's charge that some of its personnel had worked counter to his efforts to promote the unification of China.

In losing his bombshell on Capitol Hill, Hurley declared that certain professional diplomats were inviting future conflict by siding with the Chinese communist party and the imperialistic bloc of nations in keeping China divided against itself and unable to resist encroachment.

While he worked for a democratic China which could act as stabilizing influence in the Orient, Hurley charged, some state department officials told the Chinese communists that his activities did not reflect the policy of the U. S. and they should not enter into a unified government unless retaining military control.

Agreement to investigate the state department followed the demand of Senator Wherry (Rep., Neb.) for an inquiry to determine whether there was any variance between U. S. foreign policy and the Potsdam declaration and whether the foreign service was interfering with domestic affairs in South America, influencing other countries toward communist government, or clashing with the army and navy over occupation policy.

Meanwhile, Gen. George C. Marshall, ex-chief of staff, prepared to embark upon his duties as special envoy to China in the midst of Chiang Kai-shek's redoubling of efforts to unify the country and open the way for vigorous postwar economic expansion. In announcing his program to modernize the country, Chiang declared the No. 1 goal would be the improvement of transportation to facilitate an exchange of materials between the various regions.

LABOR: On Defensive
Heretofore on the offensive with its demands for higher wages to maintain high wartime pay, the CIO was suddenly thrown back on the defensive with the Ford Motor company's proposal that the United Automobile workers pay a \$5 a day fine for workers involved in unauthorized strikes.

Ford asked for this protection against production losses as officials continued negotiations with the UAW, whose leaders have maintained that the industry can afford 30 per cent pay boosts without raising prices because of large reserves and promises of substantial profits from huge postwar output.

While UAW immediately challenged the effectiveness of a fine in curbing wildcat walkouts, Ford officials insisted that the union could exert sufficient pressure on its locals to prevent unauthorized strikes, slowdowns and controlled production.

Meanwhile, General Motors, reversing a previous stand, agreed to consult with government officials concerning resumption of negotiations with the UAW after the union gave ground in its demands for a 30 per cent wage increase. With the company holding out for a modification of terms, the UAW declared that it would seek no wage increase.

Laboratory technicians who are working with the Reconstruction Finance corporation in developing methods of disposing of three to five billion dollars worth of new and used radio and electronics equipment no longer needed by the armed forces have found that antenna tube sections can be cut into small sizes and converted into toy whistles for exuberant youngsters.

ASK ME ANOTHER? A General Quiz

- The Questions**
1. Is arsenic a metal, salt or plant?
 2. Is the governor of Alaska appointed or elected?
 3. Does a nickel or a cent contain its market value in metal?
 4. The largest number of Indian tribes are found in what state?
 5. How many colors are visible in the rainbow?
 6. Why are stenographers among the highest paid workers in Russia?

- The Answers**
1. A silvery, brittle metal.
 2. Appointed.
 3. No.
 4. Oklahoma.
 5. Seven — violet, indigo, blue, green, yellow, orange and red.
 6. They must know about 180 dialects that are spoken in the U. S. S. R.

When Your Back Hurts -

And Your Strength and Energy is Below Par

It may be caused by disorder of kidney function that permits poisonous waste to accumulate. For truly many people feel tired, weak and miserable when the kidneys fail to remove excess acids and other waste matter from the blood. You may suffer nagging backache, rheumatic pains, headaches, dizziness, getting up nights, leg pains, swelling. Sometimes frequent and scanty urination with smarting and burning is another sign that something is wrong with the kidneys or bladder. There should be no doubt that prompt treatment is wiser than neglect. Low Dose's Pills. It is better to rely on a medicine that has won worldwide approval than on something less favorably known. Dose's have been tried and tested many years. Are at all drug stores. Get Dose's today.

What do I think of the servant situation?

Why, I haven't any servants! I do all my own housework.
Not quite all, Mrs. Smith. You have some household appliances, haven't you?

Of course, but—
OF COURSE—that's the answer, Mrs. Smith. You DO have a servant, but you take that servant for granted. You've got a combination laundress, cook, cleaning woman, lamplighter, seamstress and entertainer—one who doesn't mind a few odd jobs like heating the bath water; guarding your food, fanning your fevered brow—

Oh, you mean ELECTRICITY—
Yes, Mrs. Smith, *electricity*—the universal servant who works 24 hours a day at low pre-war wages—and never asks for time off. Why, Mrs. Smith, your "servant situation" here in America is better than anywhere else in the world.

Freezing Cooked Foods Solves Homemaker's Problems

Mrs. H. F. Lathrop (left), Allen county, Indiana, homemaker, empties frozen soup into the cooker well of her electric range for a quick snack. Meals made up of frozen foods give her extra holidays from the kitchen. Mrs. L. A. Spencer (right), Van Buren county, Michigan, has just unwrapped one of her frozen pies from the reach-in freezer. The other is still in its heavy waxed-paper covering. When baked, these will be a tempting dessert.

FREEZING cooked foods solves many problems for busy farm homemakers, advises Joan Miller, Rural Home expert of nationally circulated "Harvest Home" Sunday dinners every meal," she writes in the farm magazine. "If you're short of help in the kitchen, it's hard feeding them. When farm women hold a 3-day meeting you would like to go, but Dad and the youngsters can't cook for themselves. Every day you wish you could shorten the time spent preparing meals. Freezing

cooked foods solves all these problems, according to representative farm homemakers. "Short-notice meals for extra help on the farm are easier to prepare with plenty of baked things in the home freezer, Miss Miller points out. Another big advantage is that home freezers make it possible to get the most out of food at the best stage. Cooking large amounts of foods and freezing them: at one time for future meals is a time and labor saver for many farm women. As one homemaker put it: "Cooking has

to be done some time; with a home freezer, work can be distributed to make the farm woman's life a bit easier." The approximate lengths of time farm women have kept cooked foods frozen are: red beans, 2 years; pastry shells and pies, 1 month; cookies, 6 months; bread 6 weeks; rolls, 2 months; cakes, 2 months; baked beans, 2 months; left-over meats, 9 months; baked ham, 3 or 4 months; tomato juice, 9 months; soupstock, 9 months; and wheat cereal, 2 months.

Behind Your Bonds Lies the Might of America

SOY BEANS AND FLAX

Iowa's big contribution to national funds guaranteeing Victory Bonds will be enhanced in future years through its expanding production of soy beans and flax. It produced 39,312,000 bushels of soy beans and 2,820,000 bushels of flax seed in 1943 to aid the war. With increased demand for both products, farmers will be encouraged to expand their production. Iowa is first in output of red clover and timothy seed.

FLUSH KIDNEY URINE
Benefit wonderfully from famous doctor's discovery that relieves backache, run-down feeling due to excess acidity in the urine

People everywhere are finding amazing relief from painful symptoms of bladder irritation caused by excess acidity in the urine. DR. KILMER'S SWAMP ROOT acts fast on the U. S. S. by ease discomfort by promoting the flow of urine. This pure herbal medicine is especially welcome where bladder irritation due to excess acidity is responsible for "getting up at night". A carefully blended combination of 15 herbs, roots, vegetables, balsams Dr. Kilmer's contains nothing harsh, is absolutely non-habit forming, has great ingredients that many people say have a marvelous effect.

HOUSEHOLD MEMOS

Home-made Presents are a Pleasure to Receive
(See Recipes Below)

Presents from the Kitchen

Gooeties of sugar and spice, quiv'ry, fruit-sweet jellies and citron and cherry flacked fruit cakes—all these make wonderful presents. Wrap them in gay Christmas trappings and you'll have a gift that any one will be proud to receive.

A few days spent in the kitchen with a well-organized schedule will yield enough cookies, cakes and jellies to take care of any number of friends. They'll appreciate the thought and care you have taken in preparing something especially for them.

Many homemakers canned fruit juices last summer which they want to make into jelly now that they've saved enough sugar. A few jars of these colorful jellies will make excellent presents.

Grape Jelly.
(Makes 11 6-ounce glasses)
4 cups grape juice
3 1/2 cups sugar
3/4 cup light corn syrup
1/2 cup liquid pectin

Measure out the juice and place it in a large kettle with the sugar and syrup. Mix thoroughly. Bring to the boiling point and boil 3 1/2 minutes. Add liquid pectin, stirring constantly. Then bring again to a full rolling boil and boil hard 1/2 minute. Remove from heat, skim and pour into hot, sterile glasses. Paraffin at once.

Apple and Orange Marmalade.
(Makes 10 6-ounce glasses)
1 lemon
1 orange
3 pounds tart apples
3 1/2 cups sugar
1/2 cup water
3 cups corn syrup

Extract juice from lemon and orange and strain. Then grind the rinds of both fruits. Peel, core and slice apples 1/4 inch thick. Weigh out 2 pounds of the sliced apples, or measure out 2 quart. Place juice and ground rind of lemon and orange together with sliced apples in a large kettle. Add sugar, water and syrup. Stir well, place over heat and bring to a boil. Simmer for 50 minutes, stirring frequently. Skim, pour into sterilized jars and seal immediately.

A tangy, well-flavored jelly is always handy to have with a roast or casserole. You will particularly like this one made with honey:

Lemon Honey Jelly.
(Makes about 6 glasses)
4 cup lemon juice
2 1/2 cups honey
1/2 cup liquid fruit pectin

Combine lemon juice and honey. Bring to a full rolling boil. Add pectin, stir vigorously and boil about 2 minutes. Pour into hot, sterile glasses. Cover with paraffin to seal.

Conserves and fruit butter will give nice variety to the home-packed gift. In both of the following recipes, slow cooking is recommended to allow the mixtures to reach a thickened consistency:

Baked Apple Butter.
(Makes 12 6-ounce glasses)
4 quarts quartered apples
3 cups water

LYNN CHAMBERS' MENUS
Scalloped Spaghetti with Chicken
Peach Nut Salad
Brussels Sprouts

Clay a Diplomat

Henry Clay once failed to recognize a lady he had met on a previous occasion. "Why, Mr. Clay," she exclaimed reproachfully, "you don't remember my name!"

"No," replied the great statesman, gazing upon her admiringly, "for when we last met I was sure your beauty and accomplishments would soon compel you to change it."
He was forgiven.

What you NEED is SLOAN'S LINIMENT

It's the "CENTER BITE" of Firestone GROUND GRIPS that helps You Do MORE WORK!

ONLY one tractor tire has the patented "Center Bite" tread design... that's the Firestone Ground Grip. This "Center Bite" will give your tractor up to 16% more pull at the drawbar. That's because the triple-braced bars cross at the very heart of the traction zone where the center of your load falls. And it doesn't catch trash and clog up like open-center treads.

But the extra pull of a "Center Bite" Ground Grip tire is not its only advantage. It has a 40% longer tread life and the cord body is 14% stronger. That's why more farmers use Firestone Ground Grips than any other make.

You will find that you can save time, money and do a better job of farming with Firestone Ground Grips... the only tires with the "Center Bite."

*Area in white shows the "Center Bite" traction zone, not found in other tires because of Firestone's exclusive patent rights.

Listen to the "Voice of Firestone" every Monday evening over NBC. Copyright, 1945, The Firestone Tire & Rubber Co.

POST-WAR FLYING IN YOUR HOME TOWN

By C. C. CAMPBELL, Member of Aviation Writers Association, Washington, D. C.

National Groups Aid in Airpark Planning

The day is not far off when a town that does not possess community landing facilities will be as much out of the American scene as would be a town without roads leading to other sections.

As personal flying and feeder airline transportation become a definite and important feature of our everyday lives, much of the community activity will be centered around the airpark. For this reason, progressive town officials look forward to building an air service installation that will be attractive, convenient,

At Washington, the Civil Aeronautics Administration has an airport division which will supply diagrams and working plans for air landing facilities of every description. Regional offices of the Civil Aeronautics Administration work closely with State aviation executives.

Various privately operated aviation organizations can provide much salient information. For instance, the National Aeronautic Association is helping communities to plan their air future and aiding them to gain their position on the "Main Line." More than 40 years of accumulated knowledge on aviation, and particu-

The Joint Airport Users Conference, designed by the National Aeronautic Association as a discussion and study group, meets in Washington. Conference membership includes such organizations as the American Road Builders Association, the American Public Works Association, the Association of Land Grant Colleges and Universities, the American Association of Nurserymen, and many other technical and professional groups with an interest in airport planning, construction, and use.

and economic, as well as being capable of future expansion.

Naturally few citizens know much about the construction of an airpark, so seek expert advice. Fortunately, this is easily available. Both the Government and several non-profit aviation organizations are ready with information and advice from the early decision to have an airpark through all the stages of selecting a suitable site and arranging for runways and buildings.

The usual community will find that its State Capitol offers a wealth of information. Most states have aviation commissions and boards functioning for this very reason. State officials know the local conditions and geography, are aware of what the neighboring towns are planning, and usually have data on the number of feeder or area airlines contemplated and lists of prospective owners of personal planes.

larly on the construction of air facilities, is available. Many communities which have decided to establish airparks or other types of landing facilities have formed their own community chapters of the National Aeronautic Association.

Two other groups ready and willing to plan and work with town aviation planning organizations in this effort are the National Aviation Trades Association, located at Kansas City, Missouri, and the Personal Aircraft Council of the Aircraft Industries Association of America at Washington, D. C.

These organizations have endorsed the model airpark at Eldon, Missouri, and are doing pioneer work among other communities in all parts of the country.

This is the eighth of a series of articles on post-war flying and its effect on community life. The final article, "Local Flying to Aid American Air Power" will appear in an early issue.
