## Swing of SOUTHWEST FARM MARKETS

Cotton, grains and livestock recovered recent losses last week. U. S. Department of Agriculture's Production and Market Administration reports.

Cotton trading increased sharply at southwest markets, and prices advanced around \$3.50 a bale. Dallas closed Friday at 32 cents a pound.

Hogs recovered mostly 50 cents to \$1 or more of recent losses during the week's trade, though off weights and sows suffered further losses at Wichita and Denver. San Antonio paid a top of \$23 for the week as Fort Worth gave \$23.50, Oklahoma City \$24, Wichita \$23.25, and Denver \$23.75. Sows ranged from \$16.25 to \$17.50.

Most cattle classes sold at a profit higher for the week, though bulls tended lower at some markets and cows lost at Houston. Common to medium cows brought \$15 to \$18 at Houston and Wichita, while medium and good grades moved at \$17.50 to \$19 at San Antonio and \$17 to \$20 at Oklahoma City. Fort Worth bought beef cows from \$15.50 to \$18, as Denver took common to good kinds from \$16 to \$18.50. A spread of \$11 to \$15 took most canners and cutters, though Denver paid up to \$15.50.

Eggs sold lower at Fort Worth and poultry weakened slightly at Fort Worth and Denver, as most of the southwest markets remained steady to firm. Dallas bought eggs around 40 cents a dozen, Fort Worth 40 to 42, and Denver 39 to 41. Fryers ranged from 33 to 35 cents a pound at Dallas, Fort Worth, and New Orleans.

## Teachers Banquet

The Bi-County, Hall and Donley Teachers Banquet was held at Hedley High School, February 19th, with the Home Economics Department in charge. About one hundred thirty five teachers, trustees and visitors were present. Mrs. Mary Sue Longan, home-making teacher, is to be commended for her splendid work in making this banquet a success. Everyone enjoyed the occasion and a very interesting program was presented.

Mrs. Elvia Davenport, head of the English Department at Hedley, and also choral director, directed her group of girls in singing several numbers.

Little Mary Ann Longan gave two readings under the direction of Mrs. Curtis Mears.

The business meeting was held for the election of delegates to the District IX T. S. S. A. Convention to be held in Amarillo, March 12 and 13. Those nominated were O. D. Lowry, Jr. High Principal, Clarendon, and Ruth M. Richardson, County Superintendent.

Mr. Louis Spears, Director of Health Education, State Department of Education, Austin, was the main speaker for the occasion, presenting a very worthwhile topic for consideration. He discussed the necessity of having a Health Program organized in each county in the state, and stressed the necessity for special education for exceptional children.

Mr. Spears brought regrets from H. E. Robinson, Director of Special Education for Exceptional Children, State Department of Education, for being unable to be present, due to illness. The group regretted being unable to hear him speak, but Mr. Spears very ably filled both places.

The teacher group expresses their appreciation to the Hedley School Board for their fine cooperation in this matter.

The fine group is to be commended for their professional attitude in attending such a lovely occasion.

**Uncle Sam Says**  
What would you say if you saw a groundhog emerge from his hole this month with a stock of Savings Bonds in his paws? Millions of boys, nieces and nephews, who own Savings Bonds and are adding to their bond holdings regularly through the Payroll Savings or the Bond-A-Month Plans, would say that Mr. Groundhog has at last acquired common sense as a prophet of an early spring. There is no better harbinger of a bright, happy future than the growing, safe, profit-making financial reserve of United States Savings Bonds.

## Seniors Honored

The Senior Class of the Hedley High School was honored with a formal banquet by the ladies of the First Baptist Church in the basement of the church on Friday evening, Feb. 20th from 7:30 to 9:30.

Guests were received at the door by Mrs. Bert Stone and Mrs. H. H. Hall, room mothers and ushered into the basement where they were greeted by other members of the committee, Mesdames M. L. Sims, A. T. Simmons and Lionel Blankenship.

The table was laid with white linen. Red and white carnations in crystal vases flanked by tall tapers of red and blue candles carried out the patriotic motif on the table and piano. The color scheme was carried out in the place cards and programs.

The menu consisted of ham loaf, green beans, new potatoes, buttered beets, congealed fruit salad, hot rolls, butter olives, pickles, coffee, cherry pie with whipped cream and mints.

L. E. Blankenship was toastmaster for the evening. Rev. C. W. Lisenbee gave the invocation. Miss Myrtle Hall spoke words of welcome to the Seniors, Faculty and guests and Edward Todd gave the response. Mrs. Hobart Moffitt gave a clever reading in rhyme naming each Senior, and "Lifes Single Standard" by Edgar A. Guest.

Two vocal numbers, "Beg Your Pardon" and "Sundown" were rendered by Misses Anita Bain, Mary Alice Hunsucker and Rita Johnson, accompanied by Sarah Ann Rains at the piano.

Dr. A. J. Quinn of Amarillo was guest speaker. The attention of the group to his inspirational and witty address proved his ability as a speaker.

Seniors present were Bobbie Lee Hall, Louise Dodson, Wanda Jennings, Martha Reed Hill, June Lisenbee, Duane Naylor, R. L. Stone, Bobby Everett, Curtis Bailey, Edward Todd and Joe Neal Bevers.

Other guests attending were Jack J. Smith, Mesdames Harold Longan, Gertrude Todd, Ruth Hill and Miss Elvaree Moore, Messrs. and Mesd. L. E. Groves, L. A. Lowry, James L. Willett, C. W. Lisenbee.

After a sing song by the group, the benediction was pronounced by Rev. Willett.

## Spider Must Be Cautious To Steer Clear of Its Net

A spider doesn't stick to its web for several reasons. First, the spider treeds only on the strands of the web which are not sticky. Second, it never lets its body touch the web. Third, the spider secretes a liquid which oils up the claws and prevents them from sticking to the silk.

Despite all this, however, accidents will happen—sometimes a spider gets caught in its own web.

## WEEKLY NEWS ANALYSIS

# Commodity Skid May Affect Tax Cut; Russ in Second Propaganda Blast; Fight Shapes Up Over Soil Control

Released by WNU Features

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysts and not necessarily of this newspaper.)

**JUNIOR MARSHALL PLAN**... Members of Bethesda, Md., Cub pack 232 called on Secretary of State George Marshall to present a "Junior Marshall plan" through which they hope to feed and care for at least 12 of Europe's needy children. The Cubs want to raise funds for their aid program by staging a series of benefit shows.

## MARKET FALL: And Tax Cuts

Following the first blush of joy over the spirit of deflation which seemed to have been evoked by the commodity market price slump, U. S. citizens began to realize that complications might set in.

Most significant hidden gimmick behind the market skid appeared to be the development that the price decline might, in the words of Sen. Scott Lucas (Dem., Ill.), "eliminate all possibility" of income tax reductions this year.

And that apparently was the cautious but considered opinion of the entire tax-writing senate finance committee, of which Lucas is a member.

Sen. Owen Brewster (Rep., Me.), also a finance committee member, expressed a concurring view, pointing out that any appreciable general price decline "certainly would have to be taken into consideration" by Republicans in their tax-cutting plans.

Another member of the group, Sen. Harry Byrd (Dem., Va.) said that if a decline of market prices develops into a business recession, it probably would have "a considerable effect" on tax reduction.

"I certainly am not going to vote for any bill that would put the treasury in a deficit position," said Byrd.

While the senators' statements reflected a good deal of pussyfooting and at least a temporary surge of indecision with regard to tax reduction in the light of the market slump, it was obvious that they were thoroughly concerned with this turn of events.

Theory which set their tax-cutting plans awry is that a continued slump of commodity market prices would bring down the national income and tax receipts, thus rendering any major tax reduction perilous.

## U. N. PLUM: To Europe

Decision on where the United Nations will hold its 1948 assembly meeting will mean that some European city will get a healthy, 50-million-dollar plum tossed in its lap.

Because the choice of a site for the coming meeting probably will involve that much money there is a considerable ferment of anxiety in the cities of Paris, Brussels, Geneva or the Hague, principal contenders for the honor.

Trygve Lie, U. N. secretary-general, just back from a tour of European cities, has made a factual report without actually recommending any one spot. He did, however, narrow the field down to those four cities.

The 57 member nations of the general assembly decided at last fall's session to hold the 1948 parley in Europe, possibly to get away from the scene of their erstwhile rather futile efforts.

## SERIAL: Propaganda

Russia has issued the second installment of its popular propaganda serial based on the western Allies' behind-the-scenes relationships with Adolf Hitler.

Great Britain and France, asserted the latest Moscow release, conspired with Der Fuehrer in spawning World War II by appeasing him in the hope that Germany could be shunted off into an attack on the Soviet Union.

During this international skulduggery, claimed the Soviet information bureau, Austria and Czechoslovakia were betrayed.

The Russian statement, citing

German documents seized by the Red army as its authority, was the section portion of the Soviet propaganda retaliation to the release by the U. S. state department of other Nazi foreign office papers proving that Stalin and Hitler had been working on an agreement to divide Europe between them.

Unlike the first Soviet attempt to make capital of the German documents, this installment contained but one brief reference to the United States. Until lately, it said, it was customary to blame the "treachery" of Britain and France alone for the Munich appeasement. But it added:

"The fact that the American government undertook to make the German files public while excluding documents pertaining to the Munich agreement shows that the U. S. government is interested in whitewashing the heroes of the Munich treachery and in putting the blame on the Soviet Union."

## SOIL CONTROL: State or Federal?

One of the springtime battles now shaping up in congress will concern the issue of whether the national farm erosion program should be federally or state controlled.

Fireworks are scheduled to begin in March when the house agriculture committee opens hearings on a bill sponsored by Rep. Harry D. Cooley (Dem., N. C.) which would turn over the soil conservation program, operated by the agriculture department since 1935, to state land grant colleges.

Along with the transfer of authority would go about 10,500 department agents who administer the program in about 2,000 districts. That will provide a point of strong controversy, as will the measure's provision for federal grants to help states foot their soil-saving bills.

Pushing the switch from federal to state control most strongly is the national farm bureau, one of the most powerful lobbies in Washington, on the grounds that the soil conservation program would accomplish more under state authority.

The federal program has not been as effective as it should be so far, the farm bureau contends. But opponents of the transfer counter with the argument that the states lack experience to handle the project satisfactorily.

Currently operating under an annual budget of 39 million dollars, federal soil conservation service has 10,500 persons working with farmers, helping prepare conservation plans which the farmers may accept or reject.

So far it has prepared conservation plans for 476,128 farms covering 131,855,608 of the country's one billion acres of farm land.

## THAT LOOK: Watchful Waiting

Remember when the new look was new and an organization of women who called themselves the Little-Below-the-Knee club arose with sardonic wrath in Dallas, Tex., for a battle to keep the hemline up where they thought it belonged?

The girls now have subsided into the state of "watchful waiting" that eventually claims any minority group attempting to bar the path of a steamrolling social institution.

Present condition of the club, which attracted 300,000 members in 46 states, was outlined by its president, Mrs. Warren J. Woodard, 24-year-old housewife and mother, of Dallas.

"We are in an inactive status. We won a compromise victory and we are ready to mobilize again in case drastic style changes seem to be coming up," she asserted.

The "compromise victory," Mrs. Woodard said, was the persuading of American fashion designers to tone down the new look from the extreme styles which had originated in Paris.

## CARRIER: 'Greater Need'

Because of the "greater need" for even more potent vessels, the U. S. navy has halted construction on two guided missile ships to make way for the building of six new experimental-type vessels, including a mammoth aircraft carrier of 60,000 to 80,000 tons.

While Navy Secretary John Sullivan couched the announcement in routine terms, there was, nevertheless, an indication that the change in plans might be heralding a major shift in naval strategy.

Sullivan said the guided missile development "has not proceeded as fast as anticipated," and he intimated that the last year's North Atlantic tests, in which captured German V-2 rockets were fired from the flight deck of the aircraft carrier Midway, had not been fully satisfactory.

Most significant consideration hinting at a long-term strategy shift is the fact that the projected new aircraft carrier would be big enough to launch a plane carrying an atomic bomb.

That might mean that the navy is foregoing, temporarily at least, any plans for sea-based guided missiles in favor of concentrating on the more conservative but also more accurate method of using carrier-based planes to deliver atomic bombs in a hypothetical future war.

The new carrier will be a "flush-deck" model, more than one-fourth larger than the navy's present heaviest ships, and will be built to carry "heavier, faster and larger planes," Sullivan said.

## AID BURDEN: Taft's Plank

Sen. Robert Taft, Ohio's G.O.P. aspirant to the White House, started off another campaign jog around the West by offering a thoroughly Republican message calculated to appeal to a large portion of the western voters.

The United States cannot allow its foreign aid program to jeopardize freedom at home, he said in Chicago, his first stopping place.

"We should not be actuated by purely altruistic desire to improve the condition of a lot of other people who have failed for centuries to do the job themselves.

"We want peace and prosperity throughout the world to eliminate a threat to our own freedom, but it is certainly not worth while to adopt a foreign policy so burdensome on our own people that it will destroy at home the very freedom we are trying to protect."

There was expressed a major plank in Taft's campaign platform: Careful control of the foreign aid program in the pre-eminent light of how it may effect this nation's domestic economy.

Also, it was consistent with his activities in congress where he has been making that theory felt with regard to approval of the Marshall plan.

## ? Current Events ?

These five questions will test you on how well you read and remember details in the news. If you are short on details you'll be long on wrong answers.

1. John L. Lewis has indicated that he might challenge the provision of the Taft-Hartley law which prohibits union welfare funds. What is wrong with that statement?

2. A famous Irishman recently wrote: "Leisure alone can make us free; and only in Russia is there any legal right to leisure." Who would you say the author is?

3. The house has passed two bills liberalizing benefits paid to veterans under the servicemen's readjustment act of 1944. What is the popular designation of that law?

4. (a) A British crown colony recently became a self-governing dominion. (b) At the same time Britain announced that "the Gibraltar of the East," another crown colony eventually would become self-governing. Identify both.

5. Under the terms of a newly signed agreement the U. S. will continue for three to five years to use a military air base in the Azores. Who governs the Azores?

ANSWERS . . . . .  
 1. The law does not prohibit union welfare funds. It only requires that funds to which employers contribute must be jointly administered by unions and management.  
 2. George Bernard Shaw.  
 3. The G. I. Bill of Rights.  
 4. (a) Ceylon; (b) Singapore.  
 5. Portugal owns the Azores.

## WORLD FOOD: Short Supply

Any claim that the United States can feed the world from its own farms is absurd, according to R. H. C. M. Case, University of Illinois economics chief, who recently returned from a 6,000-mile tour of U. S. agricultural resources.

This country can, without stretching a point, consume all the food it produces, except during good years when crop yields are highly favorable, he said.

## AROUND THE HOUSE

Protect your rubbers from oil and soil. Oil causes blistering, and soil will cause rubber articles to chip and crack and lose their resilient strength. Clean well after using.

Keep on hand: Percolator tops, electric fuses, an assortment of corks, waxed paper, paper napkins, a box of tacks, an extra can-opener, extra light bulbs, a ball of twine, bicycle tape.

Excessive use of oil or thinners will reduce the covering power of any paint.

Keep acid foods, such as tomatoes, lemons and vinegar off the porcelain enamel of a range or refrigerator. They cause stains that won't come off.

Thread a dozen needles with different colored threads and put them in a pin cushion hung from the wall. It is then an easy matter to repair a garment promptly instead of placing it in the ever-growing mending bundle.

Fix a towel rack on the back of baby's high chair, on which you can keep such handy items as a damp wash cloth, a bib and a towel.

Do not put woolen blankets through a wringer when washing them. Place in thick Turkish towels first, then pass through wringer. Avoid changing temperature of water from hot to cold, only tepid water must be used. Dry blankets indoors on flat surface after stretching to size.

## Fired to Better Job

Editor Horace Greeley was famed for his illegible handwriting, which few people could decipher. Once, after an argument with an employe, he wrote the man a letter informing him that he was fired.

Several months passed. Then one day the former employe stopped by for a chat.

"You're the fellow I fired some time ago, aren't you?" asked Greeley. "How are you getting along?"

"Oh, just fine, thanks to you, Mr. Greeley!" laughed the other. "You remember that letter you sent me? Well, I showed it to an editor the following day and told him it was a letter of recommendation from you. He gave me a job immediately—and for more money!"

HOW TEXAS INDUSTRIES PUT NATURE'S RESOURCES TO USE FOR THE BENEFIT OF MANKIND

**THIS IS A Paper WORLD**

Natural resources made the pulp and paper industries possible  
 in Texas. The forests, the water, the chemicals, the natural gas.  
 But none of these would be worth a cent unless they  
 were put to use... for the benefit of mankind.

Take natural gas, for example. Stored deep in the earth, natural  
 gas is a worthless resource. But it becomes valuable when  
 it is gathered, processed and moved to market where it can be used  
 as a convenient, inexpensive fuel. This is the function of the  
 United Gas companies—to give value to a natural  
 resource that would otherwise be worthless or wasted. This is  
 practical conservation, for it stimulates industrial development,  
 creates jobs, and benefits all the families in Texas.

**PULP AND PAPER**

The 33 pulp and paper establishments operating  
 in Texas during the year of 1945 employed  
 3,902 persons with payrolls amounting to  
 \$8,671,000. The industry's production during  
 this period was valued at \$28,626,000. This is  
 another example of Free Enterprise at work  
 —private capital and private citizens working  
 together to bring prosperity to Texas and  
 all her people.

**That Nagging Backache**

May Warn of Disordered Kidney Action

Modern life with its hurry and worry, irregular habits, improper eating and drinking—its risk of exposure and infection—throws heavy strain on the work of the kidneys. They are apt to become over-taxed and fail to filter excess acid and other impurities from the life-giving blood.

You may suffer nagging backache, headache, dizziness, getting up nights, leg pains, swelling—feel constantly tired, nervous, all worn out. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination.

Try Doan's Pills. Doan's help the kidneys to pass off harmful excess body waste. They have had more than half a century of public approval. Are recommended by grateful users everywhere. Ask your neighbor!

From where I sit... by Joe Marsh

**Where Does Your Money Go?**

Read the other day where country folks and farmers spend more money, proportionately, on their homes than city dwellers do.

Doesn't seem hard to believe when you think it over. Take the folks in our town, for instance: They're home-loving people—who'd rather spend an evening by the fire with a mellow glass of beer than go out in search of entertainment or diversion.

So it's only natural they put more into what means most to them and to their children: their homes. They

may not have too much to spend—but it goes for those permanent abiding comforts that make home a nicer place to be.

And from where I sit, that budget calls for some of the niceties of home life too—like cider and popcorn for the kids from time to time, and a friendly glass of beer for Mom and Dad... things that belong with what we mean when we say "Home."

34 hours every day, 7 days every week, never stopping, the kidneys filter waste matter from the blood. Burning, stinging or too frequent urination sometimes means that something is wrong. You may suffer nagging backache, headaches, dizziness, rheumatic pains, getting up at night, swelling. Why not try Doan's Pills? You will be using a medicine recommended the country over. Doan's stimulates the function of the kidneys and help them to flush out poisonous waste from the blood. Have Baked Ham for a Social Supper. (See recipes below.)

**Feeding Fifty**

If your club or church is planning a community social dinner for a get-together or for the purpose of making money, you'll appreciate these tested recipes. The recipes are bound to be tempting to most people, which is an important consideration for dinners of this type. You'll need to do careful planning for both purchasing and preparing, or perhaps you can have a committee work out the donations so there will be more of a return on the dinner. Have your group choose an able leader to insure a successful dinner. She should be thoroughly familiar with all the procedures of the menu, and should be able to divide and assign the work properly, as well as to iron out all sorts of details that come up. Tableware should be checked in advance so there will be enough to go around. The same goes for kitchen equipment. Men as well as women will like the menu for this community supper as it is appetizing and well balanced.

**Baked Ham**  
Buttered Green Beans or Peas  
Candied Sweet Potatoes  
Cole Slaw  
Apple Cranberry Sauce Relish  
Rolls Jelly Butter  
Pineapple Chiffon Cheese Cake  
In addition to the items listed on the menu, you'll want to provide coffee, tea and milk as beverages. Here are the recipes for this dinner. They are carefully planned to serve 50 people.

**Baked Ham.** (Serves 50)  
18 pound smoked ham  
2 cups brown sugar  
1 tablespoon vinegar  
1 tablespoon prepared mustard  
3/4 cup cloves  
Place ham (wrapped in heavy waxed paper or inside wrapper), fat side up in an uncovered roasting pan. Bake in a slow (350 degree) oven for about 5 1/2 hours. About an hour before the ham is gone, remove from oven, lift off remaining skin and score fat surface. Mix brown sugar and mustard, add enough vinegar to make a paste. Spread paste over fat surface and stud with cloves. Return to oven and bake in a slow (325 degree) oven for about 45 minutes to glaze the surface.

Here are some other glazes which may be used. The amounts are sufficient to cover the surface of one ham:  
**ORANGE GLAZE:** Mix one cup brown sugar, juice and grated rind of one orange and spread over fat surface. Garnish with orange slices when serving.  
**HONEY OR MOLASSES GLAZE:** Use one cup honey or molasses and spread over ham; stud with cloves. Finish baking.  
**SPICE GLAZE:** Use one cup brown sugar and one cup juice from spiced peaches, crabapples, ginger pears or pickled peaches. Garnish with the spiced fruit.  
For the vegetable, green beans, you may use two No. 10 cans, sea-

1 pound butter, melted  
Combine two cups sugar and two cups syrup with slightly beaten egg yolks. Cook over hot water until smooth and thickened, stirring constantly. Soften gelatin in remaining syrup for five minutes. Add hot mixture and stir until dissolved. Chill until the mixture starts to congeal; add pineapple, cottage cheese, lemon rind and juice. Fold in stiffly beaten egg whites, salt and whipped cream. Combine crumbs with remaining sugar and butter. Line a pan with this mixture, saving about a third for the top. Pour in cheese mixture and top with remaining crumb mixture. Chill for several hours until firm.

A nice easy dessert consists of tapioca mixed with crushed pineapple, served with soft boiled custard.  
Serve fish on a bed of watercress if you want it to look truly effective. The greens, of course, should be eaten.  
If the family doesn't take kindly to liver, parboil it, chop and mix with egg, bread crumbs, chili sauce and seasonings. Make into patties and wrap in bacon. Bake in tomato sauce.

**Food Tips Add Interest to Menu**  
When you serve whitefish or halibut, you'll find that cranberry sauce or jelly adds just the right note of tartness as well as color to the fish.  
Rice or noodle ring makes a nice platter when filled with leftover ham or chicken creamed with peas and pimiento.  
When you serve vegetable loaf, pass along a sauce made of tomato soup and grated cheese.

When a woman refuses to tell her weight, she probably weighs a hundred and plenty.  
Seriously  
"And so I told her that I loved her and we'd be married in summer."  
"July?"  
"No, I meant it."  
Needs Her  
"Is my sweetheart ever clever. She has brains enough for two."  
"Then she's just the girl for you to marry."  
In the Hat  
"How come you tipped your hat to that delicious doll? Do you know her?"  
"No, but this is Charlie's hat and he knows her."

● Rub in gently-warming Ben-Gay for soothing relief from simple headache! Ben-Gay contains up to 2 1/2 times more of two famous pain-relieving agents known to every doctor—methyl salicylate and menthol—than five other widely offered rub-ins. Insist on genuine Ben-Gay, the original Bausen Analgesique. It brings quick relief!  
Also for Pain due to RHEUMATISM, MUSCLE ACHE, and COLDS. Ask for Mild Ben-Gay for Children.

**Why Lose Dollars -**  
Driving a SMOOTH Tire?

When the tread on your tire begins wearing smooth, just consider this:  
The last 3 or 4 thousand miles in that tire can be awfully expensive miles. Suppose the tire is bruised and damaged—or suppose it just gets worn so thin it cannot be recapped. Then it is only junk and brings you only a junk price.

**Let Us Buy It!**  
Right now if you have a tire that is wearing smooth and is still undamaged we can pay you several dollars for it in trade-in on a new tire. Why risk losing these dollars? Come in and let us bid on your worn tires—TODAY!
