Swing of SOUTHWEST FARM MARKETS

Most farm products brought steady to strong prices at southwest markets last week, except for wheat and milo losses, reports USDA's Production and Marketing Administration.

Cotton hovered around 37.75 cents per pound for Middling 15-16 inch offerings, with Monday's price about 50 cents per bale less than June 1, but around \$5 per bale higher than a year ago at this time at Dallas.

Heavy receipts of new wheat dropped prices to \$2.39 per bushel at Texas common points Monday, the lowest since last August. Milo declined 12 cents to \$3.68 to \$3.73 per hundred pounds as the new crop started moving from south Texas. Oats were stronger around \$1.29 to \$1.32 at Fort Worth. Barley gained about 4 cents as corn declined as much.

Last week's trading in southwest egg and poultry markets showed some improvement. Monday's prices held this firm tone with lighter supplies of farm run eggs quoted mostly at 36 to 38 cents per dozen. New Orleans paid around 43 cents for all white current receipts. Fryers ranged from 38 to 41 cents on the farm. Turkeys found good demand at 38 cents for toms and 40 for hens. Roosters held around 10 to 15 cents per pound.

Hog prices were fully steady to stronger at most southwest markets Monday, reflecting a decline in last week supplies and continued good demand for pork. Best butchers brought \$23.75 at San Antonio; \$24 to \$24.50 at Fort Worth and Oklahoma City. \$24.25 to \$24.50 at Wichita and \$24.50 to \$25.50 at Denver. Sows ranged mostly from \$17 to \$19.

Except for occasional weak spots on lower grade cattle and sockers, southwest markets reported steady to strong prices for slaughtering classes so far this June. Light receipts last week were just about half as large as for the same period last year, but Monday's run was heavy. Good demand took common and medium cows around \$17 to \$21.50 at Texas markets, while medium and good cows ranged from \$22 to \$24.50 in Oklahoma, Colorado, and Kansas.

Heifers reached an all-time high at \$33.25 at Denver.

Mr. and Mrs. John B. Turnbow of Medria, Calif. and Mr. and Mrs. J. Truett Blankenship of San Francisco visited in the J. E. Blankenship home the past week.

That's Right!

I will move dead horses or cows free of charge. Just call me, line 32, 4 rings; fast service, usually from one to two hours.

Some day soon—perhaps this very day—one of Uncle Sam's volunteer representatives is going to ring your doorbell to ask you to do one of the most important things you can do now for yourself and your country. He or she is going to urge you to start, or to increase, your buying of United States Savings Bonds under a patriotic, automatic and regular plan. If you heed my nephew or niece's advice, you'll be doing yourself a favor. They can mean financial security for you and your family. **AMERICA'S SECURITY IS YOUR SECURITY!**

Two Pioneer Clarendon Women Die Sunday

Death claimed two pioneer women of this area Sunday in an Amarillo hospital, Mrs. Mary J. Patching of Clarendon passing away Sunday morning and Mrs. Sarah M. Stocking passing away Sunday night.

Mrs. Patching was 81 years old, and was a native of Springtown. She had lived in Bowie and Tulia before moving to Clarendon in 1909.

Her funeral services were held Monday at the family home in Clarendon, with burial in Citizens cemetery.

Survivors include the husband, F. G. Patching, three daughters, Mrs. J. C. Harris of Claude, Mrs. C. L. Craig of Plainview and Miss Eva Patching of Amarillo, two sons, F. C. Patching Jr. of Goodnight and E. T. Patching of Happy, eight grandchildren and five great-grandchildren.

Mrs. Stocking was 80 years of age and lived in Clarendon since 1887. She was born in Alton, Ill., and made the covered wagon trip to Texas in 1870, settling first near Henrietta, and moving to New Clarendon in 1887. She was married in 1889 to Dr. J. D. Stocking, first doctor in the Texas Panhandle. She took a leading role in the Methodist church, in women's club activities, in writing local history, and in everything contributing to the advancement of culture in the Panhandle.

Six of her ten children survive. They are Jerome D. Stocking of Clarendon, Dr. Ruth Stocking and Collis A. Stocking of Washington, D. C., Dr. George Stocking of Nashville, Tenn., Mrs. William McConnell of Perryton and Hobart E. Stocking of Stillwater, Okla.

Funeral services were held Tuesday at the Methodist church in Clarendon by the pastor, Rev. E. W. Hayne. Burial was in Citizens cemetery.

J. M. Lynn and family have been visiting in Jack county.

Uncle Sam Says

America's security begins right in your home. Make your future secure and you are helping make your country's future secure, too. That's what the Security Loan means to you. Your part in this bond drive is to sign up for automatic bond buying through the Payroll Savings Plan where you work, or the Bond-A-Month Plan at your bank if you are self-employed. U. S. Savings bonds are truly security bonds, which require the allotment of only a little spare cash each week, and yet return a whopping big nestegg in 10 years. For example: as little as \$3.75 invested regularly every week will bring you \$163.45 by 1958. **AMERICA'S SECURITY IS YOUR SECURITY!**

The Hedley Lions will play Pantex here next Sunday afternoon at 3 p. m. This is the first time the two teams have met. They evidently have a good having beat Panhandle by a score that we did. Come on promise you a good game.

Billy Hill lost a pitcher with Vega's Ed Mathis last day, the score being 4 to 0. He struck out 9 men and allowed 6 hits, part of them scratches, while Mathis only gave up 3 hits and struck out 14 Lions. The Lions are in fifth place in the league but with three home games coming up they expect a little climbing.

Your pocketbook tells you that living costs have sky-rocketed—that nearly everything costs more nowadays. But not your electric service! The average family served by the West Texas Utilities Company still gets twice as much electric service for its money as it did 20 years ago!

Uncle Sam Says

Seeding time on the farm calls for the use of strong, pure seed able to meet weather and pest attacks and still come through with a good harvest. United States Savings Bonds are like good reliable seed. They grow a crop which can be left to full, rich maturity in ten years at the rate of \$4 for every \$3 invested. Take a tip from the wise farmer who is storing up a crop of security by investing now in Savings Bonds. He is growing more money, security for himself and his family and security for his country. You may suffer nagging backache, rheumatic pains, headaches, dizziness, getting up nights, leg pains, swelling. Sometimes frequent and scanty urination with smarting and burning is another sign that something is wrong with the kidneys or bladder.

From where I sit... by Joe Marsh

Who is this Man?

Now and then, in the pages of the *Clarion*, I run a biographical quiz, under the heading of "Who is This Man?" For instance...

"He was one of the earliest lovers in American history..."

"And yet he was too shy to court a woman outright..."

"He came to the New World on the Mayflower..."

"A cooper to repair the beer barrels accompanying the Pilgrims..."

"Who is this man?"

I thought that everybody was

stumped. But not Ma Hoskins, who returned the clipping to me with "John Alden" on it. She recognized all the clues—including that reference to "beer" and "cooper."

For Ma—who's read her history, knows that beer as the beverage of moderation, is as old in this land of ours as the never-ending American search for tolerance which brought the Pilgrims over to this country in the first place.

HOW TEXAS INDUSTRIES PUT NATURE'S RESOURCES TO USE FOR THE BENEFIT OF MANKIND

Cooking **A TEMPEST IN A TEST TUBE**

The chemical industry is making giant strides in Texas. No other industry in the nation is expanding so fast. The development of the chemical industry forms a dramatic example of the way natural resources can be put to use to serve mankind. And natural gas has been of enormous value in the expansion of that industry.

But natural gas, like other natural resources, must be gathered, processed and moved to places where it can be used before it becomes of value to anyone. Thus the work of the United Gas companies—converting what might otherwise be a valueless resource into an efficient fuel for hundreds of cities, towns and industries. This is practical conservation, for it creates jobs, stimulates industrial development, and benefits all the families in Texas.

CHEMICAL INDUSTRY

The chemical industry is of vast importance to the security and prosperity of our nation. Its products are going into practically every manufacturing process... its research is opening bright new vistas for the whole world. Here, indeed, is Free Enterprise at work—with private capital and private energies combined for the benefit of all.

Indian Resin
When Columbus landed on the island of Santo Domingo on his first voyage he found the young Indians playing with balls made of elastic resin. He took samples of this resin back to Ferdinand and Isabella and it became known in the Spanish language as caucho. Joseph Priestley, the famous discoverer of oxygen, saw a small ball of this elastic gum in 1770. He found that when it was rubbed over pencil writings it eliminated them, so he called it rubber.

Serve Stuffed Cauliflower for Dinner (See recipes below)

Meat-Shy Meals
IF YOU CAN'T GET the meat variety you want for meals, or if you just want to serve something different, glance over the main dish ideas I've planned for you today. These are all protein-rich foods and will do nicely for a main course either for a luncheon or simple supper. All recipes have flavor-value plus, and many of them will teach you new cookery tricks with foods that are real treats when properly prepared. If you are serving heavy eaters with these dishes, plan a calorie-rich dessert that will completely satisfy the appetite. These dishes go well with rich, tasty pies, cakes and whipped cream desserts.

THIS CAULIFLOWER DISH makes a complete meal and turns out pretty on a platter when served with broiled tomato halves and choice mushroom caps, also broiled. **Stuffed Cauliflower** (Serves 4 to 6)
1 large head cauliflower
5 tablespoons butter or substitute
3 tablespoons flour
1 1/2 cups hot milk
1 tablespoon prepared mustard
1/2 cup shredded American cheese
Salt, pepper
2/3 cup chopped mushrooms
1/2 cup soft bread crumbs
Broiled mushroom caps
Broiled tomato halves

Cook the cauliflower in boiling, salted water until tender. Melt three tablespoons butter in top of double boiler, blend in flour, then milk, gradually, stirring constantly. When thickened, add mustard, cheese, salt and pepper to taste. Sauté the chopped mushrooms in two tablespoons butter. Add the crumbs and two tablespoons of the cheese sauce. Place the cooked cauliflower on a round platter, spread the flowerets apart and fill with stuffing. Pour remaining sauce on top of cauliflower and garnish the plate with the broiled tomatoes and mushrooms.

Tamale Loaf (Serves 8)
1 large onion, chopped
1 clove garlic, minced
2 tablespoons salad oil
1 quart canned tomatoes
1 1/2 cups corn kernels
1 tablespoon butter
1 tablespoon chili powder
1 tablespoon salt
2 cups milk
1 1/2 cups yellow cornmeal
3 eggs
1 cup ripe olives, seeded and chopped.

Brown onions and garlic in oil. Place in large, heavy pot with tomatoes, corn, chili powder, butter and salt. Mix milk and cornmeal and add. Cook until very thick, about 20 minutes, but stir occasionally being careful not to scorch. Then beat in whole eggs, one at a time. Turn half the mixture into a loaf pan or baking dish. Top evenly with chopped olives and cover with remaining cornmeal mixture. Cover and bake in a moderate (350 degree) oven for 45 minutes. Cool slightly in pan. Cut into thick slices and serve with a well-flavored tomato sauce.

The tamale loaf will make a complete meal when served with a tossed green or tossed citrus salad with Roquefort cheese dressing.

LYNN SAYS:
Enjoy Garden Vegetables Most By Cooking Them Properly
All cooking of vegetables reduces the Vitamin C content, but tomatoes and potatoes, when baked, manage to retain most of theirs. To insure an adequate supply of this vitamin, it's best to use some fresh fruit, especially citrus, every day.
Use an uncovered kettle for cooking vegetables, and cook only until fork tender.

Add 1/4 cup of the crumbled cheese to each 3/4 cup of well seasoned French dressing.

HERE IS A PERFECTLY DELICIOUS way to prepare that delicate, egg plant. The tomatoes and cheese add a rich, meaty flavor, making this suitable for a main dish.

Egg Plant Parmesan (Serves 6)
1 medium-sized egg plant
Cracker crumbs
1 egg, beaten, diluted with 2 tablespoons water
1 pound ground beef
1 onion, chopped
2 1/2 cups tomatoes
1 teaspoon sugar
1 cup grated Parmesan cheese

Slice the egg plant into quarter-inch pieces. Peel. Dip in crumbs, diluted egg and in crumbs again. Fry on both sides in a little fat until browned. Season ground meat with salt and pepper. Form into small balls and fry. Cook onions in fat until browned. Add well - drained tomatoes and sugar. Season to taste with salt and pepper.

Place a layer of egg plant into a buttered casserole, then the meat balls. Sprinkle with half the cheese, and pour over half of the tomato mixture. Cover with remaining egg plant, cheese and tomato mixture. Bake in a moderate (350 degree) oven for one hour.

Spinach Luncheon Dish (Serves 2)
2 strips bacon, chopped
1 cup cooked, drained spinach
2 eggs, slightly beaten
1/2 teaspoon salt
1 tablespoon grated American cheese.

Cook bacon until crisp, drain off fat. Arrange spinach evenly in skillet over the bacon. Add salt to eggs and pour over spinach. Sprinkle with grated cheese, cover and cook slowly over low heat for five to seven minutes. Serve at once.

***Baked Crab Salad** (Serves 6)
1 large green pepper, chopped
1 small onion, chopped
1 cup finely cut celery
1 can crabmeat, shredded
1 can shrimp, cleaned
1 cup mayonnaise
1/2 teaspoon salt
1/8 teaspoon pepper
1 teaspoon Worcestershire sauce
1 cup bread crumbs, mixed with
2 tablespoons butter

Combine green pepper, onion and celery. Remove all tendons from crabmeat and shred or flake. Remove black line from shrimp and cut in small pieces. Mix fish with vegetables. Add mayonnaise and season with salt, pepper and Worcestershire sauce. Place in buttered ramekins or in greased baking dish. Cover top with buttered crumbs. Bake in a moderate (350 degree) oven until top is nicely browned, about 30 minutes.

The red color of vegetables is due to their acid, and needs to be kept that way. Tomatoes have enough acid to keep their color, but beets and red cabbage may need a bit of lemon juice or white vinegar in their water to keep red. Sauces and toppings enhance most vegetables. Cheese and white sauce are old favorites, but you might try mustard sauce with green beans, crumbled bacon and bread crumbs over spinach and hollandaise sauce over asparagus.

Refinishing Refrigerators
Kitchen refrigerators can be finished with two brush coats of quick-drying enamel of any desired color. However, it is advised by experts in finishing that the job be done with a spray gun by a man who specializes in such work. In either case, surface of the refrigerator must be absolutely clean and free from any trace of greasy film which might impair adhesion of the new finish.

While our business is that of making loans, we realize that we are doing an injustice to an individual when we enable him to borrow beyond his capacity to repay. It means much worry, sleepless nights and possibly outright loss.

Borrow when you must but only for a worthy purpose. And then go to a bank that is just as interested in helping you get out of debt as it is in loaning you the money.
