Baseball News

The Lions closed out the baseball season with a 7 to 2 win over Memphis at Reid Park Sunday afternoon. Eddie Reynolds, Goldston left hander, held the Memphis boys to one fluke hit, and the locals pounded Ruehl, the Memphis pitcher for 8 hits. The basketball season is now approaching and it looks like the prospects for a basketball team are as good or better than last year.

Recommendation on Home Freezing for 1949

Quick Freezing: In the light of present information, temperatures for quick freezing should be 20 degrees below 0 F. in still air and 50 degrees below 0 F. in moving air. It is important that the rate of freezing be rapid. This is best obtained by loose stacking to allow air circulation around the packages. The frozen food storage compartments in household refrigerators and the home freezer compartments in household refrigerators and the home freezers are designed for holding frozen foods. Their capacity for freezing is limited to small amounts at one time unless special sub-zero compartments are provided.

Storage:

1. Temperature of Storage: After the food is quick frozen, it should be stored at 0 degrees F. Excessive fluctuation in temperature should be avoided to minimize drying out and cell damage.
2. Length of Storage: The freezer storage box should be organized so that food can be quickly and easily located. It is desirable to keep an up to date inventory in which the foods are listed as they are put in the box and checked off as they are taken out. This will insure proper turnover of food and prevent excessive storage of some packages.

a. Fruit and vegetables not over one year.
b. Meats, beef, veal, lamb and mutton, 1 year, pork, 6 months

WEEKLY NEWS ANALYSIS

Truman Plumps for Brannan Plan; Union of European Nations Urged; Publicity Asked in Dollar Parley

EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysis and not necessarily of this newspaper.

FARM AID: No "Setups"

Whatever else his critics might say of President Truman, they couldn't charge him with picking any "setups" when he sets out to do battle. The President has a faculty, it seems, for jumping quickest to the defense of measures and proposals that have the least public support.

THIS was the case in the President's latest taking-up-of-arms for controversial causes. He espoused the Brannan plan of farm price supports in a speech at Des Moines. He warned that the nation faces unmanageable and costly crop surpluses, and urged a "modernization" of the farm price support system on the basis of the Brannan production-subsidy program.

This is an issue which promises to be one of the liveliest in the 1950 congressional elections, and if the President was aiming to beat his opponents to the punch on the issue, he had succeeded.

The President's recommendation was made in the face of disagreement among his own congressional leaders as to the best farm price subsidy program to adopt and organized opposition by many farmer groups against the Brannan plan.

MR. TRUMAN called the Brannan plan the most "promising method yet suggested," but left open the possibility that some other system could be substituted.

The Brannan plan is one, wherein prices on practically every farm commodity would be left to find their own level on the market with the government paying a subsidy to farmers in the form of the difference in price between what farm products brought on the open market and the established parity price.

Opponents of the plan point out that while the consumer might appear to be saving money on cheaper market prices for farm products, he would, in reality, be saving nothing, inasmuch as it would be his money that would be paying for the subsidy to the farmer.

COMMANDER: Some Dispute

Amid charges that he was the candidate of the "kingmakers," and was under the domination of the old line leadership, George N. Craig, 40-year old Indiana attorney was elected commander of the American Legion. He was the first World War II veteran to be chosen for the post.

THE 3,344 delegates to the Legion's Philadelphia national convention gave Craig an overwhelming majority on the first vote. Craig's opponents took the rostrum at dominating time to label him the choice of those they claim always select the organization's national commander.

ELECTION of officers climaxed convention sessions in which the Legion urged continuation of aid to China, adopted a resolution asking the U.S. to curtail "as far as possible" any further immigration at the present time.

HIGHWAYS: Rough Going

Thirty-four of these United States need 20 billion dollars worth of work done on their roads.

This huge highway repair bill, forecast by Senator O'Mahoney (D., Wyo.) was disclosed after a nationwide survey of road needs.

THE PICTURE was not as dark as it seemed. O'Mahoney pointed out the condition will serve as a backlog which "will afford an unmeasured market for business and industry."

He declared that everyone is aware of the depreciation of the American road system during and following the war, but added that "few, I am sure, appreciate the tremendous backlog of essential work which has piled up."

As chairman of the congressional joint economic committee, the senator recently sent inquiries to governors and highway authorities in every state to determine their highway construction and repair needs.

HE REPORTED 40 states had responded and that of those, 34 indicate an accumulation of highway deficiencies which would require the expenditure of 20 billion dollars or more.

The information obtained has been turned over to the U.S. bureau of public roads.

DIVORCEES ANONYMOUS

Women Organize to Slow U.S. Divorce Rate

Unhappy because they felt that too many cases they rushed to divorce courts too soon, a group of Chicago women have formed a group which they hope will have the effect in slowing down the accelerating U.S. divorce rate.

They call their group "Divorcees Anonymous" and their major aim is to salvage other marriages which are headed for divorce.

Tito's Envoy

With Russians reported to be massing troops at his borders, Yugoslavia's Marshal Tito sent Dr. Josa Vilfan (above) as his envoy to lay the Yugoslav-Moscow dispute before the United Nations.

EUROPE: Stronger Ties

At Strasbourg, France, the council of Europe's consultative assembly called for creation of a union of European countries with real power in a limited range over the governments of member nations.

There are many students of world problems who are convinced that the procedure is the only one which may eventually do away with war; but being realists, they concede that man has not progressed so far that he is now capable of selfless thinking to a degree here governments will agree to overall control of any kind or degree.

THUS it appeared the idea broached at Strasbourg was doomed at its inception, but men of goodwill must keep trying, no matter how difficult the task, if world peace is ever to become more than an illusory goal.

It has not been too difficult to get the best minds committed to a problem to see the way to its solution; the obstacle always has been that the individuals to whom the procedure must be entrusted fail in the scope and breadth of the wisdom necessary for solution.

So, when the 12-nation assembly meeting in France voted by an overwhelming show of hands for federal authority for the council of Europe, it was a manifestation of hope and desire, rather than any real accomplishment.

THAT the delegates were on good, solid ground is indicated by this portion of the resolution for federal authority:

"The government should undertake systematic instruction of the great mass of the people, pointing out to them the undeniable advantages of union for Europe and at the same time the dangers inherent in national isolation."

DOLLAR PARLEY: Information, Please

Great Britain took the lead in stripping any secrecy from the progress of the critical conference on England's dollar crisis.

OFFICIAL SOURCES credited Sir Oliver Franks, the British ambassador, with a proposal that detailed daily reports be made in order to keep the American, British and Canadian people advised of developments.

This system of daily briefings has been followed at meeting of the Big Four council of foreign ministers in the past, although top-level international postwar financial conferences have been a bit more secretive.

The publicity problem was among the first which had to be ironed out by the principals in the monetary discussions, as decisions will have a vital bearing on reducing British dollar drain and bolstering her position.

THE PROPOSAL for daily briefings was said to have support from Dean Acheson, U.S. secretary of state, but the attitude of John Snyder, treasury boss, was unknown when the proposal was first broached.

The federal administration already had indicated congressional leaders would be kept informed on the progress of the conference.

The British proposed that officials of the three powers take turn-about in giving the briefings to the press.

CLOAK & DAGGER: Russian Wise Guy

It was beginning to appear—as pieces of the picture fell together—that Uncle Sam had been played more or less for a sucker by a Russian wise guy who pretended to be won over to the American ideology by the Voice of America broadcasts, and who wanted to come to America and be a United States citizen.

LAST October 9, two Russian air force lieutenants, Anatol Borzov and Peter Pirigov, landed in the U. S. zone of Austria in a stolen Russian bomber. They had had enough of Russia, they said, in effect, and would like to become U.S. citizens.

According to the Soviet Embassy, Borzov suffered a change of heart late in July and begged for "prodigal son" treatment. Meanwhile, U.S. agents had discovered the "change" and Borzov was arrested by U.S. agents and held secretly at Ellis island. Then he was flown to the U.S. zone of Austria and returned to Russian jurisdiction.

DURING the interim, Pirigov, who says he wants to stay in America, told newsmen that Borzov tried to bribe him with Soviet embassy funds to return to Russia. It was reported that Pirigov had been beaten by Soviet agents.

The one essential element to the chain of events as to whether it proved to be a spy was missing. That was confirmation. The U. S. state department would neither confirm nor deny any of the stories being circulated.

IT merely revealed that a U. S. note on the Borzov affair had been delivered to the Soviet embassy.

There is an old, old adage that it is "very easy to believe what one wants to believe." It may have been that sort of wishful thinking that led state department officials to smile benignly on Comrade Borzov's desire to "change" allegiance and become as one with Americans.

'FAIR DEAL': Author Irked

President Truman continued in a fighting mood. He told newsmen he was going to keep Maj. Gen. Harry Vaughan as his military aide—apparently despite anything the current "5 per center" probe might develop.

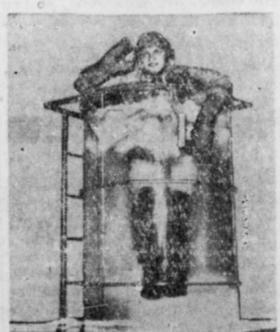

Then, setting the theme of the 1950 congressional campaign, he lashed out with a slashing attack at his recent pet aversion—"organized selfish interests" which, he asserts, are trying to block his fair deal program with a "scare-word campaign."

HE DECLINED to name the "selfish interests," still campaigned against the 80th ("do nothing," he called it) congress. Evidently, Mr. Truman felt he knew a good thing when he saw it. If he could be elected to the presidency—when few felt he had a chance—by campaigning against the 80th congress, campaigning against it again ought to do good for his side in 1950 ballot tests.

Getting away from the 80th for the moment, he talked about the 81st congress, declaring that the Democrat-controlled legislators had made progress with his Fair Deal program in the teeth of "trumped-up slogans" like "statism," "welfare state," "collectivism," and "socialism."

THE PRESIDENT said the people will not be disturbed by such "scare words" dreamed up by a "lot of paid agitators, promoters and publicity experts who make a fat living by frightening the people in the high-income groups about forward-looking legislation and by organizing campaigns against it."

Cold-Water Suit

Looking like a swizzle-stick in a giant-size highball, Melvyn M. Maki is shown demonstrating the navy's new submersion suit which will enable its wearer to spend as many as three hours in freezing water.

NEW LOOK: Next, the Male

The American male would be smart to move cautiously, for fashion designers have launched a movement to give men's clothes a "new look" every five years.

"The men's apparel industry is in bad shape," was the dim view of the situation expressed by Myron F. Perine, executive director of national association of men's apparel.

AROUND THE HOUSE

Preventing Rust

To prevent the tub of your washing machine from rusting, pour a cupful of soda chips or soap powder over the bottom of it when the day's washing is done. This helps to discourage rust, but the soap isn't wasted. When the next wash day comes, just pour hot water over the soap for a new batch of suds.

Candles

If a candle is a little too small for the holder, you can make it firm by dipping the holder—provided it's metal—into piping hot water for a few minutes to get it hot before inserting the candle.

Trimming Wicks

In trimming the wick of an oil lamp or oil heater, the handiest thing to use is a single-edge razor blade. With oil heater wicks, saw straight across, and use the metal clips in the wick as a guide.

Turpentine in Cleaning

When an article is cleaned with turpentine, the odor often lingers on; but you can hasten its departure by steaming the garment in the bathroom while the hot shower is running and then airing it outdoors for one full day.

WHY THE MISSOURI PACIFIC RAILROAD STRIKE?

**Over twenty years ago, the Congress of the
 United States passed the Railway Labor Act.
 It was hailed by union leaders as a model
 for the settlement of labor disputes.**

THE LEADERS of the Brotherhood of
 Locomotive Engineers, Brotherhood
 of Locomotive Firemen and Enginemen,
 Order of Railway Conductors, and the
 Brotherhood of Railroad Trainmen on the
 Missouri Pacific Railroad have refused to
 avail themselves of the peaceful means
 provided by this Act for settling their dis-
 putes. They insist that they be the sole
 umpire of their own disputes over the
 meaning of contracts.

There is no Need for Strikes

With all of the available methods for the
 interpretation of contracts, there is no
 need for a strike or even a threat of a
 strike, but the leaders of these railroad
 unions have ignored the ordinary proce-
 dures established by law and insist upon
 imposing their own interpretations of their
 contracts by means of a strike.

The wheels have stopped rolling on the
 Missouri Pacific. They may stop rolling
 on other railroads at any time. Recently
 the Wabash Railroad was forced to dis-
 continue operation for several days under
 similar circumstances.

What are These Strikes About?

These strikes and strike threats are not
 about wage rates or hours. They result
 from disputes over the meaning of exist-
 ing contracts. They cover claims for a full
 day's pay for less than a day's work, or for
 payments for services performed by others
 who were fully paid for the work done.

**President Truman's Board
 Condemns Strike**

There is an established legal method for
 handling disputes involving existing writ-
 ten contracts—just as there is such a
 method of settling any contract dispute
 which you may have in your daily life.

The President of the United States ap-
 pointed a Fact Finding Board to investi-
 gate and adjust the Missouri Pacific dis-
 pute. This Board reported, in part, as
 follows:

"... It is with a deep sense of regret that we
 are obliged to report the failure of our mis-
 sion. It seems inconceivable to us that a
 coercive strike should occur on one of the
 nation's major transportation systems, with
 all of the losses and hardships that would
 follow, in view of the fact that the Railway
 Labor Act provides an orderly, efficient and
 complete remedy for the fair and just set-
 tlement of the matters in dispute. Griev-
 ances of the character here under discussion
 are so numerous and of such frequent oc-
 currence on all railroads that the general ad-
 option of the policy pursued by the organiza-
 tions in this case would soon result in the
 complete nullification of the Railway Labor
 Act..."

Obviously the railroads cannot be run

efficiently or economically if the leaders of
 the unions ignore agreements or laws.

**Provisions of the Law which
 are Disregarded**

There are five ways under the Railway
 Labor Act to settle disputes over the mean-
 ing of contracts:

- 1—Decision by National Railroad Ad-
 justment Board.
- 2—Decision by System Adjustment
 Board for the specific railroad.
- 3—Decision by arbitration.
- 4—Decision by neutral referee.
- 5—Decision by courts.

The Missouri Pacific Railroad has been
 and is entirely willing to have these dis-
 putes settled in accordance with the re-
 quirements of the Railway Labor Act.
 Regardless of this fact, the union leaders
 have shut down that railroad.

**Innocent Bystanders Suffer
 Losses and Hardships**

There are about 5,000 engineers, firemen,
 conductors and trainmen on the Missouri
 Pacific. They are known as "operating"
 employees, and are the most highly paid of
 all employees on the nation's railroads, but
 their strike action has resulted in the loss
 of work to 22,500 other employees of the
 Missouri Pacific. In addition, they have
 imposed great inconvenience and hard-
 ship upon the public and the communities
 served by that railroad.

The Railway Labor Act was designed
 to protect the public against just such in-
 terruptions of commerce.

If these men will not comply with the provisions
 of the law for the settlement of such disputes,
 then all thinking Americans must face the ques-
 tion, "What is the next step?"

Serve Fish Often For Meal Variety (See Recipe Below)

Seafood Specials
"FISH do not swim in the ocean just to be eaten on Friday," says the old adage. If you've had the good fortune of eating fish prepared properly, then you certainly will adhere to the adage, for fish cooked to perfection is truly delicious.

But, there are other reasons for eating fish, too! You may have abundant body-building proteins, minerals and vitamins when you have a fish dinner.

Fish are modestly priced whether you buy them fresh, quick-frozen or canned, so they'll help you with food budgeting problems. They're plentiful and amazingly versatile, if you'll just give them a chance.

If you don't particularly enjoy fish, try a new way of preparation. One of the recipes in today's column might start you on a new food adventure. Or, if you tend to get tired of fish, try other methods of preparation with a dash of spanking brand new flavor tricks. You'll be surprised at how many new ways there are for preparing the same foods.

Many have heard of "fish and chips," but have you ever tried them at home? Use filets of fish which have been cleaned, then season with salt and pepper. Roll them in flour and dip in a thin batter, and fry in deep fat (360°). Served with shoe string potatoes, also fried in deep fat until golden and crisp, a hearts of lettuce salad and a generous serving of lemon quarters, you'll have a really delicious dinner for any night of the week.

DO YOU OBJECT to the odor of fish? Fish which is not overcooked will not have that odor to which you may rightfully object. It's wise to remember that fish is delicate and does not need long cooking to make it tender.

Baked fish is popular, especially when it's stuffed with a nicely seasoned celery mixture, then served with a tangy lemon-butter sauce.

- *Stuffed-Baked Fish (Serves 6)**
- 3 to 4 pound whole fish
 - 3 tablespoons chopped onion
 - 1/2 cup chopped celery
 - 1 tablespoon minced parsley
 - 1/4 cup bacon drippings
 - 4 cups dry bread cubes
 - 1 teaspoon salt
 - 1/2 teaspoon pepper
 - 1 teaspoon sage, marjoram or thyme
 - 4 slices bacon

Have fish cleaned but leave on head, tail and fins. Wipe dry. Rub inside and out with salt; let stand about 10 minutes. Cook onion, celery and parsley in drippings until golden brown. Combine with bread cubes and seasonings.

Toss lightly and stuff fish loosely. Fasten fish with skewers and lace with string. Place fish, seam side down in a shallow, well greased baking pan. Brush with melted fat or salad oil. Bake, uncovered, in a moderately hot oven (375°) for 49 to 50 minutes. Baste occasionally with fat or oil. During the last 15

LYNN SAYS:
These Tested Ways Help in Fish Cookery

When breeding fish filets, allow the fish to stand after breeding for at least one half hour, so that the coating will not fall off when the filets are fried.

Potato nests are a nice innovation for serving creamed fish. Make them by cutting raw potatoes into slender strips, and cook in hot fat for 2 minutes. Press the potatoes into muffin pans and brown in hot oven.

minutes of baking time, lay strips of bacon on top of fish.

***Lemon-Butter Sauce:** Combine 1/2 cup melted butter or substitute with two tablespoons lemon juice and one tablespoon chopped parsley. Serve over baked fish.

Fish goes to lunch just as nicely as to dinner, when it's tuna fish in golden brown and puffy sandwiches:

- Tuna Fish Sandwiches (Serves 4-6)**
- 1 cup grated tuna fish (canned)
 - 1/2 cup chopped celery
 - 1/4 cup chopped green pepper
 - 1 tablespoon grated onion
 - 2 tablespoons lemon juice
 - 1/2 cup salad dressing
 - Salt, pepper and paprika
 - 1/2 cup coarsely grated American cheese

Combine all ingredients except cheese and season to taste. Cut bread slice diagonally in half. Toast one side; spread other side with tuna mixture. Sprinkle with cheese and broil until golden brown and puffy.

HERE'S A RECIPE for the thin batter into which to dip the fish for deep fat frying:

- 1 cup sifted flour
- 1 teaspoon baking powder
- 1/2 teaspoon salt
- 2 eggs
- 3/4 cup milk
- 1 tablespoon melted butter or salad oil

Sift together flour, baking powder and salt. Beat eggs, add melted fat or oil and milk. Combine with dry ingredients. Beat until smooth and use for fish filets which have been seasoned and rolled in flour. Fry in deep fat until golden brown. Serve at once.

Oysters have a delicate flavor, but you can coax them into an even more appetizing tempting dish as follows:

- Savory Oyster Casserole (Serves 4)**
- 2 dozen oysters
 - 1 cup cooked, chopped spinach
 - 1 bay leaf
 - 1/4 teaspoon tabasco sauce
 - 1 cup toasted bread crumbs
 - 2 tablespoons butter
 - 2 tablespoons chopped onion
 - 1 tablespoon minced parsley
 - 2 tablespoons flour
 - 2 tablespoons minced celery
 - Salt, pepper and cayenne pepper

Add seasonings to parsley, spinach, bay leaf, onion and celery. Brown flour in butter and add spinach mixture to it. Cook slowly for 15 minutes and then remove bay leaf. Drain and dry oysters and place in a buttered baking dish, or in individual casseroles. Mix oysters with bread crumbs, then top with vegetable mixture. Dress with lemon juice. Bake in a hot (450°) oven for about 12 minutes. Serve with additional lemon, if desired.

Chopped sweet pickles added to bread stuffing make a nice innovation when used with pike or other white fleshed fish.

Lemon browned butter is another fine idea for serving with fish. Brown but do not burn butter over a slow fire in a heavy skillet. Add to this a dash of worcestershire sauce and lemon juice to season.

Fish filets are sometimes more interesting if dipped in bread dressing, rolled, fried and baked over flat

Malaria Still Regarded Greatest 'Mass' Killer

Although malaria, mankind's greatest killer, no longer claims its toll among the world's great as it did before discovery of quinine, the disease still remains the "most important in the world from the standpoint of prevalence."

The yearly number of cases throughout the world is estimated at 600 million with 3 million deaths.

Even in the United States, between one and five million cases occur annually with an estimated 1200 deaths.

By claiming such figures as Alexander the Great, Lord Byron, Oliver Cromwell, King James I of England, and a dozen or more popes among its victims, malaria through the ages has enormously influenced world history.

FIRST AID to the AILING HOUSE

by Roger C. Whitman

QUESTION: We have just moved into our new home. We were told to stain our kitchen cabinets and then wax them. After living in the house a month, I found that the cabinets were coming stained and marred by water splashing on the wood. I would like to remove the wax, restain and then varnish them. There anything we can use to remove the wax from the cabinets without harming the wood?

ANSWER: Turpentine is a solvent for wax; use it liberally to move all traces of wax. The liquid is inflammable, so ventilate the room while working and shut all pilot lights and refrigerator. If you wish to apply another stain the same color, this can go right on over the old one, although the second staining will make the color still darker. If you wish to lighten the color, you can apply a wood bleach, on sale at large paint stores.

24 hours every day, 7 days every week, never stopping, the kidneys filter waste matter from the blood. If more people were aware of how the kidneys must constantly remove surplus fluid, excess acids and other waste matter that cannot stay in the blood without injury to health, there would be better understanding of why the whole system is upset when kidneys fail to function properly.
