Walter Rogers

for Congress

Typical self-made, successful citizen. Born in Texarkana, Ark., July 19, 1908-41 years old. Attended elementary schools McKinney, Texas.

Worked on farm while attending Austin College, Sherman. Worked way through University of Texas law school, employed in

state comptroller's office. Graduated with high honors, now licensed to practice before United States Supreme court and all courts of our state.

Moved to Pampa in 1935, began practice of law. Opened own law office 1937, which he has maintained since, except for 4 years when he served

Made outstanding record as district attorney, refers voters to any member of grand jury or law enforcement officer in district he served Has built large practice among his neighbors, friends and acquaintances. Represented many clients before highest courts of land, Railroad, Bank-

ing and other state commissions Member Gray County and State Bar Associations. Served as first War Bond chairman Gray County. Married Jean Daly of Pampa in November, 1936.

They have family of 6 children, ranging in age from 18 months to 11 Two sons and daughter are Scouts. Former member of Jaycees.

Past president Pampa Rotary club. Active in all civic and community affairs. Life-long member Protestant Episcopal Church.

HE BELIEVES

Walter Rogers believes future of our country depends upon the homes and small communities. Believes in home rule and home responsibility. Believes encroachments have been made upon individual rights which must be checked or rights will be lost to the people.

Believes a balanced economy must depend upon private competitive enterprise, free of Government control except for adjustment of wrongs brought about by bad faith. Believes capital and labor should settle own disputes with government only in role as arbiter.

Believes economy of this region based primarily on agriculture, believes farmers of this section capable, sound-thinking Americans; favors stabilized farm economy but believes many features of farm program should be at option of the farmer and not at the whim or caprice of Bureaucrats. Problem can not be solved overnight, but is being solved and that farmer's suggestions and advice should be followed and used. Pledges full assistance to Canadian Dam and all other water conservation projects in district; sees such projects as sound investment and essential to economy of district and also vital to national defense. Believes federal aid to education is double taxation; believes if government will attend to own affairs, leave our tidelands alone and conduct itself in accordance with Constitution, 'sas won't have to worry about federal aid to our schools.

Believes Civil Rights is a mis-nomer, is purely political and will not aid any of the peoples involved; if Constitution is followed there is no necessity for a Civil Rights program by Congress. Constitution provides that program fairly and honestly.

Believes the old people are not getting their just dues, too much of

the money set aside for them coing into overhead costs, that they are entitled to more courtesy in the ir claims and requests.

Believes in soundness of deple ion allowance for oil and gas business. Believes that soft treatment of traitors should cease.

Believes in drastic reductions in government costs, abolition of overlapping bureaus, cleaning out of overstaffed departments, stream-lining red tape, demands full and fair day's work on part of every government employee, and courtesy to the axpayers as they go along.

Believes in proper prepared to sand defense of this country first; do the cutting where it will not teaken the strength of the nation.

Believes income taxes too high, that proper economy can bring about reductions.

Believes rights of Veterans to jurchase land under Veterans bill should be immediately stream-lined, completely freed of red tape and all political favoritism should be a lished.

Summed up, Walter Rogers b lieves in our American way of life, is for efficiency and economy in government, and pledges the people of this district to work for these ideals.

He is widely-known and respected as an able and courageous lawyer and a conscientious and patric ic citizen.

He offers to the people of the district experience and training.

He is successful in his own pr fession.

Walter Rogers has as much at stake in the future of this country as any of the rest of us. Here is the Rogers family. Standing, left to right, are John, Walter and Commy. Seated, left to right, are Mary mmy. Seated, left to right, are Mary Robert and Susan. "We're one family Catherine, Mrs. Jean Roger
