VOL. 41

HEDLEY, DONLEY COUNTY, TEXAS, FRIDAY, APR. 13, 1951

## Baseball News

Last Sunday the Lions defeated Washburn here by the score of 6 to 5. Bobby Everett pitched a full game for Hedley, and Washburn used Ray Davis and Carl Davis on the mound. Arthel Gibson hit a home run for Hedley. The team will play at Washburn next Sunday.

The fans seem to like the new arrangement of the field. The baseball park and city park connected so as to give Hedley a park that will compare with parks in much larger towns with a little time, a little money, and a lot of work.

The Hedley High baseball team will tangle with the Kirkland High team here Friday afternoon at 2 o'clock. The Owls say they are going to get revenge for the 11 to 5 defeat at Kirkland.

## Junior-Senior Banquet

The most outstanding social event of the school year, the Junior-Senior Banquet, was given Friday, April 6, at 8:00 p. m. in the School Lunch Room. The guests were met and ushered into a reception room by the class mothers, Mrs. Jack Brumley and Mrs. W. P. Doherty, and members of the Junior Class and their sponsor, Mr. Patterson.

After a few minutes of pleasant visiting, guests and class members were invited into the dining hall where the banquet was held. The color scheme, rose and green, was effectively carried out in decorative effects, place cards, menus, and flower arrangements. The place cards and menus were beautiful specimens of student work, especially the water color drawing of Miss Martha Fitzgerald of the Junior Class. The center piece for each section was an arrangement of snapdragons in varying shades of rose. Green vases were used.

Otis Owens was toastmaster for the occasion, and addressed the seniors in interesting and appropriate words. He also led the assembled guests in proposing a toast to the members of the Senior Class. Stanley Bailey, president of the Junior Class, welcomed the guests. Wendel Penick, president of the Senior Class responded.

Others appearing on the program were Misses Letha Moss, Cynthia Thornberry, Carolyn Morris, Joan Young, Jaque Johnson, and Norine Gibson, who played and sang several numbers. The high light of the occasion was an after dinner speech by Dr. Quinn of Amarillo.

The menu consisted of baked chicken and dressing, giblet gravy, English peas, hot rolls, olives, congealed salad, iced tea and strawberry ice cream pie.

Those present were Mary Lou Greer, Bobby Baker, Wendel Penick, Oretta Sanders, Don Hansard, Jenny Milton, Virginia Owens, Jimmie Lamberson, Lloyd Hightower, Patricia Usrey, Aubrey Lee Cherry, Ronald Doherty, Mattie Lou McKee, Martha Fitzgerald, Darrell Brumley, Tom Adamson, Stanley Bailey, Dr. A. Many nice gifts were opened by the honoree before the show.

## Band Booster Club

The Band Booster Club met in the high school auditorium Thursday, April 5th, with a nice crowd assembled.

A social hour was enjoyed with punch and cookies served. Following this, the chairman of the club, Ross Springer, gave a history of the club and extended an invitation to all who were interested to become a member of the organization.

The program was begun by the band director, L. E. Talbert, who acted as master of ceremonies, presenting the new Hedley Band in their attractive uniforms. Marches, waltzes, folk songs and a variety of different types of music was effectively presented by the band with the audience marveling at the splendid progress the band has made in such a short time. Especially effective were the specialties by different types of instruments. A duet was sung by Mary Jane White and Mary Ann Brumley.

The next regular meeting will be Thursday, May 3rd, with an interesting program promised. Everyone is urged to come out for this last club meeting of the year.

## Mother of Two Praises Hadacol

HADACOL Supplies Deficient Systems With Vitamins B<sub>12</sub>, B<sub>2</sub>, Niacin and Iron

Mrs. Elmer Hise, 3225 2nd Ave., Council Bluffs, Iowa, is a good mother and like all good mothers she keeps a careful watch for the welfare of her two young children. And when little four-year-old Lucille Hise wasn't feeling as her mother knew she should do something about it. Mrs. Hise gave Lucille HADACOL because she had heard how much it was helping children who had poor appetites and stomach distress caused by deficiencies of Vitamins B<sub>12</sub>, B<sub>2</sub>, Iron and Niacin. It helped her so much that now Mrs. Hise gives HADACOL to both of her children.

Here is what Mrs. Hise says: "My daughter has taken two bottles of HADACOL and she has been eating more than before and also sleeps better. I think HADACOL is the best thing for children who do not have an appetite. My daughter is four years old. Before taking HADACOL my daughter complained of her stomach hurting her, and I got her a bottle of HADACOL and she says her stomach doesn't bother her any more. I think HADACOL is wonderful. I am also giving HADACOL to my three-year-old daughter."

**HADACOL is So Effective**  
An important thing about HADACOL is that you get Vitamins B<sub>12</sub>, B<sub>2</sub>, Niacin and Iron in liquid form, which means that they are quickly absorbed and dispatched to the blood stream, ready to go right to work. HADACOL helps build up the hemoglobin content of the blood (when iron is needed) to carry these precious Vitamins and Minerals to every part of your body.

## MORE and BETTER COTTON

ANTHRACNOSE boll rot can reduce the grade of your cotton

If you've had some points taken off by the grader for spotty cotton, you know what anthracnose, or pink boll rot, can cost you as a cotton grower. It is expensive and persistent; but it can be controlled now by measures that cost you little.

Anthracnose is a fungus disease, and is at its worst in times of heavy rainfall and where cotton grows rank. The fungus lives over the winter on diseased bolls and stalks left in the fields, and in or on the seeds from infected plants. Clean fall plowing and rotation of your crops helps to control it.

You will also find that treatment of your seed with an organic mercury dust before

planting helps a lot to kill off the anthracnose fungi. This treatment cuts off the disease at its source. Used with other control measures, it can practically wipe out the disease from an entire area in a few years. Mercury dust treatment will also control seed decay and damping-off (sore shin) organisms and reduce angular leaf spot.

The cost of the chemical amounts to less than 10¢ per acre. Treatment can be done on your farm or by many ginners and delinters. Ask your County Agent or Farm Extension Service about the value of seed treatment and about where the treaters are in this area.

July 25th has been set as the deadline for any G. I. with educational eligibility to enroll in any vocational school, on the job training, or any other educational benefits under the G. I. bill. The Donley County Vocational School is currently offering courses in Agriculture for the G. I.'s on the farm, and Cabinet Making both part time and full time for those interested in this work. Anyone interested in any of these courses or other similar courses should contact the County Vocational School Office at an early date in order to establish their eligibility before the deadline.
