VOL. 41

HEDLEY, DONLEY COUNTY, TEXAS, FRIDAY, JUNE 1, 1951

Baseball News

Next Sunday the Lions go to Vega for a Donley league game then a game at home for three Sundays in a row, starting with Groom Sunday week. A win over Vega will give the locals 500% in league standing and a chance to get at the boys on the top of league.

Last Sunday Canyon failed to field a team and forfeited to Hedley 9 to 0. There were 14 players in uniform Sunday and they were divided into teams. The team captained by Blaine Doherty defeated Carl Reid's team 10 to 9, but had to go an extra inning to do so. Junior Hill and Bobby Hancock each poled one over the left field fence for home runs.

Lions Roar

Next week is directors meeting. You old officers and directors will just have about two more meetings this year so why not finish up good. The Lions year closes June 30 so that gives us only the month of June to finish up the year's business.

The Lions three new road signs should be in soon. They will be erected at the entrance of the three highways into town. Since school closed the Lions are losing some good members in Lions Trail, W. L. Davis, Patterson, Baker and Ward. Let's pick up some new members to replace them. Don't forget to ask the secretary to order you a key if you get two members.

This week Ladies Night promises to be mighty good with Norma Jean Brookreson and Myrtle Reeves in charge of the program and the band mothers serving. Since we usually have a picnic in August it will probably be the only ladies night until November.

The rains have given the grass in the City Park, it also seems to have helped the weeds considerably. Maybe we should figure out something to encourage the grass and discourage the weeds.

The attendance last week meeting showed the effect in attendance of the school closing exercises and spring planting. The Lions present just doubled up on the fried chicken. Boss Lion Messer showed quite a bit of gizzard eating ability. The program by Tobe Woodard, Bobby Baker and Lions Gibson and Walter Johnson was good.

Improvements

More Hedley business homes are undergoing improvements, and looking very nice. Among them are a new wash and grease room with a hydraulic lift at the Hall Service Station, new rest rooms at Barney Johnson's 66 Station, and a new coat of white paint on the interior of the Hedley Variator.

Card of Thanks

The Children of J. H. Kennedy wish to thank each and every one for the kindness shown us in every way during the illness and death of our father. May God bless each and every one.

"I got the story on
50,000 Miles-No Wear
 and changed to New Conoco Super Motor Oil"

says Marshall Rousseau
 Police Sergeant
 Harlingen, Texas

"Driving at all kinds of speeds, I've piled up 30,000 miles. I've used Conoco Super in my Nash cars, and have had absolutely no engine trouble of any kind."

"50,000 Miles-No Wear!" Proved Here:

After a punishing 10,000-mile road test, with proper drives and regular care, engines lubricated with new Conoco Super Motor Oil showed no wear of any consequence: in fact, an average of less than one one-thousandth inch on cylinders and crankshafts. AND gasoline mileage for the last 5,000 miles was actually 99.77% as good as for the first 5,000!

TRAVELING SALESMAN

"55,000 hard, fast miles have been put on my Pontiac, with new Conoco Super," says David Brown, Salesman, Salt Lake City. "That car is still like new—excellent gasoline mileage, oil consumption slight, and no engine repairs."

PIKE'S PEAK TOURS

"Our car makes 2 or 3 trips to the top of Pike's Peak every day during the summer," reports R. P. Finney, Sight-Seeing Service, Colorado Springs. "We use Conoco Super and never have to add oil between 1,000-mile drains."

**In the Gas Business, too
IT TAKES MANY SOURCES OF SUPPLY**

One tree doesn't make an orchard, and one orchard doesn't provide all the fruit the consumers demand. People in the fruit business realize that it takes many sources of supply.

The same rule applies in the natural gas business.

Our present customers and the additional thousands who will be served in the

future are assured of a dependable supply of natural gas from the more than 200 fields that are now connected to the United system.

And new sources of supply are constantly being added to United's network of pipe lines to meet the present and future needs of its domestic and industrial users in the Gulf South.
