"Our freedoms are imperiled today as never before by aggressive Communism on one hand and by passive Americanism on the other. I appeal to you as defenders of those freedoms to make the 175th anniversary of our country's birth a day of re-examination and re-declaration of American Independence."

No celebration is planned for Hedley except the All Star baseball game here in the afternoon, but the Legion wishes everyone to concentrate on conditions today and do what they can to keep our notion the free country our forefathers founded 175 years ago.

ONE RIVER doesn't make an ocean...

In the Gas Business, too IT TAKES MANY SOURCES OF SUPPLY

One creek doesn't make a river, nor one river an ocean.

In the same way, one joint of pipe doesn't make a natural gas pipe line. It takes thousands of joints to form the gathering lines which move gas out of the field; it takes thousands more to construct a main transmission line; and still other thousands to build a system of distribution mains and service lines.

When gas supplies from more than 200 fields are available to meet the needs of such a system... and when more than 400,000 homes and industries are being served from that system... then you have United Gas.

Always, United Gas is planning and building for tomorrow; building to assure adequate supplies of gas for our customers of today, and of the future.

THERE'S PLENTY FOR YOU AND INDUSTRY, TOO

"I got the story on
50,000 Miles-No Wear
 and changed to New Conoco Super Motor Oil"

says W. R. Abel
 Traveling Salesman
 El Paso, Texas

"I travel 40,000 miles a year," says Mr. Abel. "Since I've changed to new Conoco Super I never have to add a quart between drains, and I've had no engine trouble."

"50,000 Miles-No Wear!" Proved Here:
 After a punishing 50,000-mile road test, with proper drains and regular care, engines lubricated with new Conoco Super Motor Oil showed no wear of any consequence: in fact, an average of less than one one-thousandth inch on cylinders and crankshafts. AND gasoline mileage for the last 5,000 miles was actually 99.77% as good as for the first 5,000!

SHOP FOREMAN
 "I have 80,000 miles on my Chevrolet, using Conoco Super," says Nick Motzner, Shop Foreman, Twin Falls, Idaho. "The motor has never been torn down, oil consumption is at a minimum, and gasoline mileage averaged 23 miles to the gallon."

TAXI OPERATOR
 "I've had a decided decrease in maintenance costs and gasoline consumption since changing to Conoco Super," reports Goddard Langlais, Taxi Fleet Operator, Lafayette, La. "I only wish all my cabs had been broken in with Conoco Super."
