

## Services Held For Ed Kinslow Saturday, July 21

In loving memory of Ed Kinslow, a pall of gloom overspread our little town when the message: "Ed Kinslow Is Dead" was announced Saturday afternoon.

Mr. Kinslow who had been in the Odom Hospital at Memphis for two weeks, passed away Saturday afternoon July 23rd at four p.m. Funeral services were held Monday afternoon at 3 o'clock in the Methodist Church in Hedley, Dr. R. W. Cowan, Minister of the Presbyterian Church, Clarendon, and Rev. W. E. Bond, Pastor of Hedley Nazarine Church, conducted the services.

A special number "Does Jesus Care", was beautifully rendered by Mr. and Mrs. Zebbie Land of Pampa, Texas.

Burial was in Citizens Cemetery Clarendon, Texas under the direction of Murphy-Spicer Funeral Directors, Memphis.

A profusion of beautiful floral offerings and the immense number of people who attended the funeral bespoke the high esteem in which Mr. Kinslow was held.

He was a quiet, unassuming man, a friend to all classes of people and loved by all who knew him.

George Edward Kinslow was born in Missouri Aug. 7th 1886 and came to Donley County with his parents, Mr. and Mrs. W. A. Kinslow in 1904, where he had lived ever since.

He passed away July 21, 1951 at Odom Hospital in Memphis, Aged 64 years 11 months and 4 days.

Mr. Kinslow is survived by his wife, Mrs. Ethel Whittington Kinslow, to whom he was married June 15, 1921, two sisters, Mrs. Ed Dishman and Mrs. Nova McClure both of Clarendon. One nephew, C. W. Kinslow Jr. of Memphis, one niece Mrs. R. D. Williams, Bay City Texas, and one great nephew, C. W. Kinslow 111.

He was preceded in death by his parents, Mr. and Mrs. W. A. Kinslow, one sister Mrs. Ollie Kendall.

Active Pall Bearers were: Dr. D. H. Cox, Herman Horschler, Rollie Beumley, Foster Pickett, Robert Moffitt and J. S. Beach.

Honorary Pallbearers were: J. B. Masterson, C. E. Johnson, Alva Simmons, C. L. Trimble, Fred Watt, J. B. Pickett, J. N. Everett, Ike Rains, Fred Watt, Jr., Ray Moreman, and Walter Johnson.

## Hedley Wins Game 8 to 4 Sunday Vega Next

Last Sunday Hedley defeated Panhandle there by the score of 8 to 4. Doc Pittman on the mound for Hedley kept the 8 Panhandle hits well scattered and was mighty stingy with hits in the pinches. The locals made 12 hits off the offerings of Wester and Renfro the two Panhandle pitchers. The defense was good with only two errors to Panhandles three, and a scoring threat was stopped in the 8th by a fast double play, Thomas to Smith to Billy Hill.

Next Sunday's game with Canyon has already been forfeited to Hedley so the locals will have the day off and be ready for the game with Vega here Sunday week. However the Jr. Legion team is trying to get a game here for Sunday.

HAVOC IN WAKE OF TWISTER . . . Here's an airview of the extensive damage wrought by tornado which swept through Duncan, Iowa, population 100, recently. There wasn't a house left undamaged by the freak twister which caused one million dollars damage and injury to five persons.

## -Local Happenings-

Carroll Deahl and Connie Taylor made a flying trip to Mt. Capulin Sunday.

Pvt. "Fat" Swinney of Fort Carson Colo., Mr. and Mrs. S. L. Swinney of Lubbock, and Mr. and Mrs. Hershel Swinney and Norma of Pearyton spent the week end in the home of their mother Mrs. Ruby Swinney.

The heat was beat Sunday by Donnie, Susan, Cox, Jack, Jean Ray, and David Moreman, Mike Thornberry and Don Springer, who went swimming in Wellington.

Those visiting in the O. D. Stephens home last week were: Mr. and Mrs. Buford Winegeart, Mr. and Mrs. S. D. Winegeart, Mrs. Winegeart's mother, Mrs. Cochran, Mr. and Mrs. Austin Rudick and children, Roena and Delors of Pampa, Mrs. J. H. Stephens Mr. and Mrs. C. D. Stephens and Clara.

We are glad to report that Mrs. W. G. Johnson is improving after her illness.

Mr. and Mrs. D. B. Thomas and little daughter of Floydada were guests of his parents Mr. and Mrs. John Thomas on Sunday.

Visit in the home of Mr. and Mrs. Jim Everett Sunday were Mr. and Mrs. Bucky Everett and Mr. and Mrs. Hub Foster both of Amarillo.

Mrs. Delores Runyon has returned to her home in O-Fallon Illinois after a two weeks visit with her mother Mrs. John Koeninger and her sister Mrs. Wilson Morgan.

Mr. and Mrs. W. H. Stewart are the parents of a fine baby daughter, Virginia Kay, mother and baby were brought home from the Groom Hospital on Tuesday.

Mr. and Mrs. Nolan Raspberry and three sons of Tyler visited in the home of his uncle Mr. and Mrs. J. B. Pickett.

Hense Dickson of Amarillo visited last week with his brothers John and Will Dickson.

Mr. and Mrs. Jay Hunt and Wanda visited last week in Ranger and Fort Worth. They attended the Rodea while in Ranger.

Mrs. Alma Hail left Friday with some friends from Amarillo for a vacation back in the eastern States.

Mr. and Mrs. Frank Mikesell and little son of Amarillo visited last week with her parents, Mr. Cochran, Mr. and Mrs. Austin Rudick and children, Roena and Delors of Pampa, Mrs. J. H. Stephens Mr. and Mrs. C. D. Stephens and Clara.

Mr. and Mrs. Leo Reeves and family have returned from a vacation trip to Colorado. While there they visited her sister, Martha Sue Noel, in Boulder.

Mr. and Mrs. Walter Bill Wiggins, Bill and Bobby are vacationing this week in Colorado.

Capt. and Mrs. Jerry Hunt and daughter Terry of Ft. Worth are visiting this week with his father, Jay Hunt and family.

Norine Gibson has returned home from a visit with her sister in Kansas City, Mo.

Malcolm Usrey has returned home from Abilene where he has been attending Abilene Christian College. He plans to teach this fall.

Claude Nash and son, Cecil, of Amarillo went to Temple Monday. Mr. Nash will undergo treatment at Scott & White Clinic.

Mr. and Mrs. Frank Finch of Memphis visited friends here Sunday afternoon.

Jap Shaw went to McKinney last week to see his brother, R. A., who has been in the veterans hospital there. R. A. returned home with him.

Friends of Mrs. Adrian Davis will be glad to know she is home again from the hospital in Amarillo.

Wanda Shaw and Anita Bain, both students at West Texas State College, were home over the week end.

Mr. and Mrs. Theo Johnson of Amarillo visited in the home of their daughter, Mrs. J. M. Dickson, and Mr. Dickson over the week end.

Joe Usrey sailed last week from Camp Stoneman, Calif., for Japan and possibly Korea.

Mr. and Mrs. Bob Watkins and daughter, Jeanie, of Childress visited over the week end in the home of his brother and wife, Mr. and Mrs. Cal Watkins.

Mr. and Mrs. Harold Mithell visited in the Herman Kirkpatrick home the past week end.

Ray Moreman and son, David, are visiting in Oklahoma City with his mother, Mrs. Moreman, and sister, Mrs. Glenn Shults.

Mr. and Mrs. Harrison Hall returned home Monday from a vacation in New Mexico and attended the races in Raton.

Mr. and Mrs. R. N. Barron and son from Galveston visited their grandmother, Mrs. J. W. McPherson last week.

Alice Wilkerson has returned home after a visit with her sister in New Jersey.

Mr. and Mrs. Alva Simmons have returned home after a visit with relatives in Kansas City and Texarkana.

Mr. and Mrs. Otis Owens returned home Monday from a visit with her mother in Hartley.

Mr. and Mrs. Oneal Weatherly and son have returned from a vacation in Arkansas.

Billy McKee of Camp Carson, Colo., was a week end visitor in the home of his parents, Mr. and Mrs. Roy McKee.

Larry Jones, son of Rev. and Mrs. O. L. Jones, is recovering from an operation in the Groom hospital.

## Mrs. John Nash Host to W. M. S.

The W.M.S. of the First Baptist Church met in the home of Mrs. John Nash on last Monday afternoon for the monthly social meeting and Royal Service Program, Mrs. Oscar Moore was leader the subject being the "The Continuing Price of Freedom".

Those taking part on the program were: Mesdames Charles Rains, Joe Miller, Otis Owens, Mack Sims, Bill Seales, Clyde Bridges and Miss Myrtle Hall.

A social hour was held after the program.

## Latima Whitwell Bride of M. J. Smith

Latima Whitwell of Dumas (formerly McKnight) and Morton J. Smith Jr. of Dumas were united in marriage at Clayton, N. M. on July 12th. They will make their home on his farm near Morton, Texas.

## New Laws For Truckers Now In Effect

Texas truckers, today were put on notice to heed the provisions of a new law enacted by the 52nd Legislature requiring the installation of mud guards or flaps on heavy vehicles.

Homer Garrison Jr., Director of the Texas Department of Public Safety, pointed out that the law, which became effective on June 21st, requires that mud flaps be installed on any road tractor, truck, truck tractor, trailer or semitrailer, excepting pole trailer, when operating on the highways when the roadway is wet.

Garrison explained that the guards were required on these vehicles only if they have four or more tires on the rear axle. The flaps, he said, must be located and suspended behind the rear wheels of the vehicle within six inches of the surface of the highway and must be at least as wide as the tires they are covering.

Construction of the safety guards, according to Garrison, must be such that they will remain in proper place back of the rear wheels, and rigid enough to prevent slush or mud from being transmitted to the windshield of any following motor vehicle within a distance of 100 feet. The flaps may be constructed of metal, rubber, rubberized material or heavy flexible textile material.

Garrison stated that the law does not apply to those vehicles which are so designed and constructed that the above requirements are accomplished by means of fenders, body construction, or other means of enclosure.

## Students Eligible For Draft Test May Still Apply

Students who were scheduled to take the Selective Service college qualification test May 26 and did not due to circumstances beyond their control may get a chance at a later test.

Previously, test rules made it impossible for any student to take the test if he missed it for any reason.

Students who were issued tickets for the May 26 test and were precluded from taking test by circumstances beyond their control should immediately write to the Selective Service Examining Section, Educational Testing Service, P. O. Box 586, Princeton, N. J., explaining the circumstances and returning their ticket of admission, if available. New ticket will be issued for later test in deserving cases.

## School Work

School Registration will be held August 4, 1951 between the hours of 9:00 a. m. and 3 p. m. All high school and grade school students will register between the hours listed above.

Students come to the high school building to register in the hall and get textbooks and may leave at anytime. Grade school students will also register in the hall of the high school building and will go to grade building for books.

Please register on this date as regular classes will start on Monday and no registration will be on Monday.

## Texas Adopts Statute For Motorist Safety

Two important laws were passed last month by the Texas legislature which will effect motorist in Memphis and Hall county as elsewhere.

First to go into effect is the mechanical inspection act, which will become law Sept. 7, 1951.

The new drivers financial responsibility act will not become effective until January 1, 1952.

The legislature also passed a third law which effects all motorists, that of raising the drivers license fee from 50c to one dollar.

Texas is the 45th state to have forms of the so-called model on financial responsibility of drivers. The act is not a compulsory insurance law, but under statutes of the law any person involved in an accident where damage is estimated at \$100 or more must show financial security of at least \$1,000 or be insured by liability insurance.

Failure to do either of these may result in loss of drivers license and automobile registration.

Safety Department officials predict that there will be 600 accidents next year, involving one or more cars, and about 45 percent of the drivers will be injured.

Accidents may be reduced by as much as 25 per cent if Texas does as well as New York, which enacted a similar law five years ago. Currently, about 15 per cent of Texas' motorists carry that type coverage it is said.

Mechanical inspection act requires persons to have a periodic inspection of their automobile which must pass a safe driving test before it will be permitted on Texas highways.

Purpose of the act is to free the highways of unsafe vehicles. act will include such things as proper brakes, lights, horn, steering and other safeguard features.

## C. P. Darnell Family Has Family Reunion

The home of C. P. Darnell was the scene of a family reunion Sunday. The occasion being the birthday of Mr. Darnell. After enjoying a lovely dinner brought by the children the afternoon was spent in visiting. The childrens gift to their father was a large platform rocker.

Those enjoying the happy occasion was: Mr. and Mrs. Pete Darinell and children of Clarendon Mr. and Mrs. Eldon Darnell and children of Claude, Mrs. Rosalee Shelton and family of McLean the honoree Mr. Darnell and Mrs. Darnell. Mr. and Mrs. Elmer Darnell were unable to come on account of illness of Mrs. Darnell.

## Betty Gideon Is Shower Honoree

Betty Gideon, the former Betty Usrey, was honored with a bridal shower in the home of Walter Moss Thursday night. A social hour was enjoyed by everyone while music was furnished by Walter Johnson, Tola and Jack Woodard, Arthel Gileson and Letha Moss.

Punch and cookies were served to about fifty guests after which Betty opened her many lovely gifts, many who were unable to attend sent gifts.

Hostesses for the occasion were Thelma Moss, Mrs. Leonard Baggett, Charlie Johnson, and Woodrow Farris.

Mr. and Mrs. R. W. Alewine, Mrs. T. E. Caldwell, Letha and Thelma Moss and Bobby Seago of Lelia Lake attended the Donald funeral in Claude Sunday afternoon.

## Clarendon Lions to Present Program

This week is regular Lions Club meeting at 8 P. M. The program is being arranged by the Program Chairman, Seales and will be a program from Clarendon brought down by Lion R. E. Drennon. The local club plans to send a program to Clarendon soon.

Last weeks directors meeting several things were discussed. The Lions voted to offer their aid to the Old Settlers Picnic August 17th and made plans for the annual Lions Club family picnic August 30th. They also voted a donation to the upkeep expense on the city Park.

## Dist. Commander To Install Officers

Rhea Smith of Amarillo, 18th District Commander will install the new officers of the local Legion Post Tuesday night August 14th. The Post plans a free feed and expect several out of town guests. The Post plans to send one or more delegates to the State Convention at San Antonio August 18 and 19th as Charlie Gibson of Amarillo is a candidate for State Commander and our post wishes to give him their support.

Tommy Dean Tate is the new commander of the Hedley post and Tom Fannicutt is the retiring commander. The post has a 1951 paid membership of 103 which will entitle them to 6 votes at the State convention.

## Drives 1,500,000 Miles for Kiss

SHREVEPORT, LA.—Shelly Liles, bus driver, is welcomed at the bus terminal here by his daughter, Elizabeth, as Liles completes a record-breaking 1,500,000 miles of driving without an accident. Liles, 49, established his amazing record in 10 years time, driving an average of almost 75,000 miles a year with a perfect safety record. It all began the year his daughter was born in 1931.

Cotton, the world's most valuable crop, is expected to reach a record 5,500,000,000 (billion) pounds this year, according to the U. S. Department of Agriculture. This is a 50 per cent increase over the 3,600,000,000 pounds produced in 1940.

felt this fall by the butcher, baker and every other business in the Lone Star State as the money from the picking sale and processing of lint and seed flows into the towns and cities of practically every one of the state's 254 counties.

## Health Dept. Advises Check Of Restaurants

The Texas State Department of Health cannot maintain daily inspection of all eating places and the public is urged by Dr. Geo. W. Cox, State Health Officer, to insist on the proper sanitation of the establishment where they eat.

If the public is careless in this respect the incentive to maintain clean food service will be lessened and operators will only maintain the level the public is willing to accept. He urged that the public patronize "eating establishments which measure up to a high standard of cleanliness."

The State Health Department is making every effort to improve sanitation of eating places. Dr. Cox said, and their is "no excuse for cafe owners not taking advantage of the food handlers schools which are being offered all over the state." He added that there are laws, rules and regulations which require the use of approved equipment and methods in such establishments.

"The public should be aware of these sanitary rules and regulations and insist that restaurants observe them. Patrons should realize that tables and counters will be many times cleaner than the kitchen and other places out of sight," he warned.

He urged milk appraisal by the patrons also. Texas law requires that a milk bottle cap state the grade of milk, and whether it is raw or pasteurized. "Insist on having the milk served in its original container, with a covered top and a legal label," Dr. Cox advised.

"Obviously," he said, "the best in sanitation can be had only by close co-operation between the public and the investigators of the State Health Department."

### CARD OF THANKS

I want to thank all those who did so much while I was in the hospital and for all the beautiful cards and Landkerchiefs. My God bless each and every one of you.

Mrs. Adrian Davis

Mr. and Mrs. Alfred Johnson are visiting this week in Oklahoma.

## JOINERS

RECOMMENDED BY THE NATIONAL FOUNDATION FOR INFANTILE PARALYSIS

These are precautions recommended by the National Foundation for Infantile Paralysis when polio is around. Also, wash hands before eating and be on the alert for such symptoms as feverishness, sore throat, headache, upset stomach or sore muscles. They may—or may not—mean polio. If the disease does strike, call your doctor promptly, follow his advice. Your local National Foundation chapter will provide needed assistance.

## Cattlemen Alerted Press Paragraphs

A baffling disease of cattle which often creeps into a herd without noticeable symptoms is now causing losses to farmers in 41 states, the American Foundation for Animal Health reported here today.

The Foundation's report said the condition, known as Johne's disease, is regarded as one of the most difficult of all infections to eradicate from cattle herds. Slow to develop, it is very hard to detect in its early stages.

"The disease is caused by a tiny germ which attacks the intestinal tract. Affected animals develop scours and gradually lose weight for several months. The coat may become rough. Milk production slows up and eventually may stop. The infected animal may continue to lose weight until it becomes so thin and weak it dies," the bulletin said.

Symptoms are most likely to show up in animals from two to six years old. Such animals may have harbored the germ since calf-hood and this long incubation period makes the disease difficult to stamp out once it shows up in a herd.

We were wondering just what we would use for an editorial subject this week, when along came a news release from the West Texas chamber of commerce with some astounding figures which might be of interest to you.

You know, we like our form of government; we like our democracy; we like to think we are governing ourselves. For that reason, we do wish to halt extravagant government spending which is daily leading us further along the road to socialism.

That's why these figures are worth repeating. An informed public can do much to keep down spending if they insist that their representatives in Washington run the government as our

"Control depends on an accurate diagnosis, as there is danger of confusing the disease with tuberculosis," say Foundation authorities. "Clinical tests enable the veterinarian to spot the reactors which should then be removed from the herd and sold for slaughter. The premises should also be disinfected and young calves kept away from contaminated quarters if this dangerous infection is to be prevented from spreading."

even veiled under the guise of defense needs—is another way to lead us to a socialistic form of government.

Here are examples of what waste can be found:

Since the start of the Korean campaign a year ago, the government has purchased 68 million can openers—even if the army had four million men in service (which it doesn't) that would be 17 can openers per man.

Army ordnance recently purchased six million gallons of paint in quart and gallon cans—this was a full year's requirement, but the army sought delivery in 60 days. The army set up a requirement of 4,636,000 web belts for 1951—for a present army of one-half million men, although only 1 web belt is issued per man per year. The 1951 requirement for combat boots was set up at 11,753,000 pairs, although the total consumption was estimated at 4,800,000 pairs.

Last January the quartermaster service bought five million pounds of oleo at 25 1/2 cents per pound. At the very same time the department of agriculture was selling five and one-half million pounds of surplus butter to Italy at 15 cents per pound.

From December 31 of 1950 to April 30, 1951, civilian employees on the federal payroll had increased by 224,440—this means the government has been filling new positions at the rate of 1,870 per day, every day in the month. And recently an official of the new Defense Transportation Administration reported that that agency is "stockpiling stenographers against the needs of the future."

These figures are astounding, aren't they? And they must be accurate, for the West Texas Chamber of Commerce would not release them if they had not been checked.

Wasteful spending can get us into a terrible fix, unless we citizens do something about it. Private business cannot operate on such spending, and neither can the federal government.

The trouble is: It's so much easier to spend other people's money than it is our own.

### Fill 'er Up!

Once more the country is in the midst of the vacation season. And this summer, according to the American Petroleum Institute, more than 1,000,000,000 gallons of gasoline will be consumed by American motorists in one of the greatest vacation travel spurges in history. The total of vacation travel by motor car for the three months of June, July and August

will probably clear an increase of almost 60 per cent since 1940.

This is good news for the country's 200,000 service stations, which are now enjoying their busiest period of the year. And when the motorist drives into one of those stations and says "Fill 'er up" he might give a brief moment's thought to the vast and complex organization which makes it possible for that order to be executed as a simple matter of routine. Keeping the service stations supplied with adequate amounts of gasoline and other oil products is a major problem for the oil industry in the summertime. Demand skyrockets on regular highways, and increases many times above normal in mountain, seashore and woodland retreats. But to the oil industry, meeting and solving such problems is just part of the day's work. The gas and the lubricants are always

available for them. It has been observed never before in history have Americans had such power at their fingertips, through the new cars owned and the quantity of motor fuel available to them. Fill 'er Up!

—Industrial Rev.

WILSON DRUG CO.

**Let's closely examine the FACTS\***

Frequent statements have been made that would lead the public to believe that prices received by farmers have been a primary cause of inflation. It is well to examine the facts to determine to what extent this may be true.

According to the Bureau of Agricultural Economics (U. S. D. A.) and based on December 1950 prices:

**IF A FARMER GAVE AWAY**

- The wool in a \$50 suit of clothing, the suit would still cost \$40.50.
- The wheat in a 1 1/2 loaf of bread, the bread would still cost the consumer 13.4¢.
- The milk in a 2 1/2 quart of milk, it would still cost the housewife 11 1/2¢.
- The beans in a 1 1/2 can of pork and beans, the can of pork and beans would still cost 14¢.
- The tobacco in a 2 1/2 package of cigarettes, the pack would still cost the smoker 17¢.

Here's how the farm operators' income stacks in comparison with the total national income from 1947 to 1950.

National income UP 16%  
Farm Operators' income DOWN 27%

And here's how his average hourly earnings during 1950 compares with the unweighted average of workers employed in other endeavors.

FARMERS	69¢	OTHERS	\$1.35
FARMERS	5%	CORPORATIONS	15.5%

And here's how the farmer's interest at the rate of 5% on his total investment in farm real estate, livestock, equipment and working capital compares with profits on net corporate investment of all manufacturing corporations (after corporate taxes) according to the Federal Trade Commission (Year 1950).

Farm production involves great risk, great skill of many kinds, and large investment of money and labor. If farm costs increase they must be balanced by increased returns just as in any other business, if the plant is to keep operating—and particularly, if it is expected to turn out increasing supplies year after year.

\* The facts and figures are enclosed in a statement by Secretary of Agriculture Chas. F. Brannan to House Committee on Agriculture April 24, 1951 and is reported issued by the Bureau of Agricultural Economics USDA.

"I got the story on  
**50,000 Miles-No Wear**  
and changed to New Conoco Super Motor Oil"

says Carl W. Smith  
Chrysler-Plymouth Dealer  
Miles City, Montana

"Cars coming to my shop after using Conoco Super are cleaner and show less wear than anything I have seen in my 27 years of garage work," Mr. Smith says.

**"50,000 Miles-No Wear!" Proved Here:**

After a punishing 50,000-mile road test, with proper drains and regular care, engines lubricated with new Conoco Super Motor Oil showed no wear of any consequence; in fact, an average of less than one one-thousandth inch on cylinders and crankshafts. AND gasoline mileage for the last 5,000 miles was actually 99.77% as good as for the first 5,000!

**TRAVELING SALESMAN**

"My car is my meal ticket," admits R. C. Eberhart, Travelingman, Flagler, Colo. "I average 2,800 miles a month. Since changing to new Conoco Super, my operating cost has been reduced and the performance is much smoother."

**DELIVERY FLEET**

"Repair work has been cut 50% since I started using Conoco Super in all our delivery vehicles," writes George Lange, Laundry Partner, Muskogee, Okla. "One has run over 30,000 miles on Conoco Super, without any mechanical work."

# ADA Campaign To Promote Sales

Texas' 60,000 dairy farmers will coordinate their activities during Dairy Month in June in an effort designed to bring back stronger than ever on the nation's dinner tables butter, milk and other dairy products, James Kizer, President of the American Dairy Association of Texas and San Antonio dairyman, said this week.

Kizer said that during Dairy Month, Texas dairymen will promote the ADA's "Set-Aside Time" campaign. They will set-aside funds at the rate of a penny per pound of butterfat delivered during the 30 days in June.

These funds will be used in providing nationwide year-round advertising and merchandising activities of the American Dairy Association, Kizer said. A budget of \$1,500,000 for this purpose has been outlined—and Texas dairy farmers are expected to raise their proportionate share through

## Legal Notices

The 51st Texas Legislature at its Regular Session, 1949, passed a bill providing that effective January 1, 1951, the levy of the 30c ad valorem tax by the State would be discontinued and authorizing the counties to levy this tax of not exceeding 30c on each \$100.00 valuation, except the first \$3,000.00 valuation of residential homesteads, for use in construction and maintenance of Farm-to-Market and lateral roads, or for flood control. This bill provides that before such tax can be levied by the counties the question must be submitted to a vote of the resident property taxpaying qualified voters. The commissioners court of Donley County, at its July 9th meeting, passed an order providing for such an election to be held in Donley County on July 28th, 1951.

The adoption of this levy will not increase the taxes in this county as the amount collected will be the same amount that was formerly collected by the State of Texas; instead of the tax being paid to the State it will be retained in Donley County for construction and maintenance of Farm-to-Market and lateral roads.

"Set-Aside" campaign.  
 Kizer cited the business objective of the ADA promotional campaign as (1) prompting better understanding of dairying and its products; and (2) promoting greater public acceptance and use of all other dairy foods.

He said the ADA merchandising campaign will be keyed to the expansion of the nation's markets for milk, cream, cheese, ice cream, evaporated and dry milk. "Recovery of the markets for butter will be one of the ADA's big undertakings in coming months," Kizer said. "Today's per capita consumption of butter is at the 11 lb. level compared to 17 lbs. prior to the war."

"Pennies set-aside in June, as used by ADA, provide twelve-for-one returns," Kizer added. "First comes 12 month of advertising activities for one month's set-aside in June. Secondly, for every dollar invested by ADA related food manufacturers spent at least twelve additional dollars in dairy food advertising."

One of the primary features of the promotional campaign is a nationwide broadcast as "The Voice of the Dairy Farmer." The program is pointed at giving Americans an up-to-the minute understanding of the food situation at home and abroad. It explains and discusses the effects on producers and consumers of subjects such as: rollbacks, subsidies, price supports, production control, manpower supply for farm and food factories and other questions dealing with the family dinner table.

## Offer Knowledge For Curious GIs

Curiosity and a genuine desire for knowledge generated the reading and research habits of more than a million G. I. and officer visitors in the libraries throughout the five-state Fourth Army area during the last three months of 1950, a Special Services survey has revealed.

A sampling of the cross section of the questions asked of librarians, indicates the average G. I. has something akin to the cat's curiosity. Sometimes these questions are answered by merely handing the soldiers the World Almanac, dictionary of an encyclopedia, while other send the librarians scurrying through all sorts of reference books to satisfy that curiosity.

World War II is still a popular subject with the soldier reader. He may want to know about the Battle of the Bulge, or when a certain outfit left Ireland for France or how many books had been written about the colorful General Patton.

The soldiers take out hundreds of books on radio, television, electric wiring, electronics or he may want to know all the facts of insurance and investments. Music science and the arts come in for a goodly share of attention. Even the various grand operas are studied avidly.

The Army educational program causes many soldiers to visit the libraries. They seek information

## Housework Easy Without Nagging Backache

When kidney function slows down, many folks complain of nagging backache, loss of pep and energy, headaches and dizziness. Don't suffer longer with these discomforts if reduced kidney function is getting you down—due to such common causes as stress and strain, over-exertion or exposure to cold. Minor bladder irritations due to cold, dampness or wrong diet may cause getting up nights or frequent passages.

Don't neglect your kidneys if these conditions bother you. Try Doan's Pills—a mild diuretic. Used successfully by millions for over 50 years. Works often otherwise caused, it's amazing how many times Doan's give happy relief from these discomforts—help the 15 miles of kidney tubes and filters flush out waste. Get Doan's Pills today!

## DOAN'S PILLS

Do you know what's between here and here?

Let's follow your physician's prescription into your pharmacist's compounding room...

The pharmacist's first act is to carefully interpret the prescription—check its signs and symbols to make sure of their precise meanings. Your safety is his legal responsibility.

That done, he assembles the necessary components for your prescription from the thousands of drugs he has in his stock. He knows them all intimately—their dosage, usage and properties.

Then he skillfully uses his specialized equipment to weigh, mix, or combine the ingredients of your prescription in strict accordance with your physician's specifications.

He checks and rechecks every ingredient he uses, and every step in his compounding technique. Instructions are confirmed, and directions stated on the label in such a way that no misunderstanding will occur. Finally, he registers your prescription by number and files it away for future reference.

He prepares simple mixtures as meticulously as he does the highly complex ones. In mixing every prescription, he applies the technical skill and professional knowledge that have been acquired through many years of scientific training. As a member of one of the professions that help you guard your health, he is ever mindful of his responsibility.—Reprinted from a copyrighted advertisement published by Parke, Davis & Company, Detroit 32, Michigan.

## Phone Company Grants New Wage Increases

Southwestern Telephone Company has signed a new agreement for one year with the Communications Workers of America effective July 1, 1951, it was announced in Dallas recently by Company President, Roy Autry.

The new Agreement calls for a ten percent increase in basic wages for employees within the designated bargaining unit.

Part of the increase will be put into effect on July 1, 1951, and the balance must await determination by the Wage Stabilization Board. It is anticipated that the Company and the Union will present a joint request to this Board in Dallas.

Autry pointed out that the increase in wages will cost the Company approximately \$400,000 per

year and would undoubtedly be necessary to ask for increases in telephone rates.

"Our Company is growing rapidly," said Autry, "and it is our policy to pay our employees good wages in line with those which prevail in the communities where we operate.

Naturally, if we are to meet existing wage standards to attract and retain good people for our Company, we must increase our revenues accordingly. In the telephone business this money can only be made available by a proper adjustment of telephone rates."

Juan Adamson is visiting in Amarillo this week with her sister, Mrs. Carmen Hubbard.

## Have Dirt, Feet?

This provocative query has nothing to do with the tootsies of those weather-beaten individuals who charge you five bucks to take you where the fish aren't biting... The guides referred to are those on your rod, and the feet are the flat ends of the guide over which silk thread is wound.

When these feet become caked with lin dressing, which in turn picks up minute particles of dirt, it acts as an abrasive. This is rough on good fly lines and it brings on that curse of all fly fishermen—a sinking fly line, according to Heddon's caution, ber that it's not how m' dressing you put on that counts, but how little you can still give a complete your line.

If a pad comes with your dressing, throw it away for it becomes a dirt catcher. Apply the dressing with your clean, bare hands, after cleaning your line with naphtha, and before every fishing trip. If your lader won't sink, try washing it with a small piece of abrasive soap.
