VOL. 46

HEDLEY, DONLEY COUNTY, TEXAS, DEC. 30, 1955

NO. 9

Methodist Church

We are most grateful to the Hedley Informer for promoting the "Christmas for Christ" slogan of American Christians and for the generous space given for announcing the two special Christmas programs given in our church.

It would be a considerable task for us to respond personally to all the cards and expressions of good will which have been our pleasure to receive from numerous friends of our church and the Hedley community. Your generous gifts and love have increased our debt of appreciation to you one and all, and may heaven's richest blessings reward those who contributed their talent to the pageant and those who lent their voices to the singing of carols at the vesper service on Christmas evening.

See you at Church Sunday.

R. N. and Mrs. Huckabee

To Our Friends

Well, Christmas of 1955 has come and gone with its sorrows and its blessings. Sorrows of the gloom and death that has been spread over our land with the death toll of more than 700 men, women, and children that has come to us largely by the recklessness and carelessness of the citizens of our fair land. It is pitiful that the innocent of our women and children should be slaughtered by the recklessness of our people.

But amid all the sorrow and suffering of our time there has been millions made happy, and we rejoice at the measure of good will and fellowship that has come to us through the merit and power of the One that was born 1,955 years ago and reigns in the hearts of men today.

So with love and good will I thank every one of our past customers that has traded with us in the past year and asking you to come back and trade with us again in 1956. May the new year bring many blessings to each one of you.

Yours truly,

Z. C. Cornell

GUARANTEED... the new multi-viscosity motor oils will do more to improve the winter starting characteristics and extend the life of your car than any other petroleum lubricating oil.

It's a scientific fact... most engine wear occurs:

1. During the warm-up period before ordinary oil thins down enough to circulate freely.
2. At high operating temperatures when ordinary oil thins down too much to give proper protection.

It's a scientific fact... Shamrock multi-viscosity motor oil stops this wear because:

1. It circulates freely in temperatures as low as 30° to 35°F below zero.
2. It retains its viscosity (thickness) at highest operating temperatures.

Improve the performance and extend the life of your car with Shamrock 5W-20 or 10W-30 motor oil. Ask for them at the Shamrock station near you.
