Do So Many Home Buyers Insist on Medallion Homes?

"Live Better Electrically," the advertising slogan says. Modern homemakers know that it's more than a mere slogan — it's a fact. You CAN live better electrically when you buy a Medallion home. Here's why. The man who built that home, the Medallion home, EARNED the privilege of displaying the medallion by observing certain minimum electrical standards in the design and construction of the home, and in the appliances which are a part of the plan for living. It has been called "the Hallmark of Excellence." And it is. So look for the "Live Better Electrically" medallion when you are thinking of buying a new home. Enjoy FLAMELESS electric living!
