Miss Sue Alexander registered the guests. Mrs. Connie DeBord served punch, cookies, nuts and mints from a table laid with a lace cloth and bearing an arrangement of yellow flowers, carrying out the bride's chosen colors of yellow and white. An unusual feature of the punch bowl was a yellow and white flower molded in a ball of ice.

Everyone enjoyed watching the honoree open her many lovely and useful gifts.

Hostesses for the occasion were Mesdames Connie DeBord, Charlie Johnson, Leonard Baggett, Arthur Shields, Cullen Taylor, Woodroe Farris, Jess Mann, A. G. Alexander, Bright Newhouse and Harold White.

## Brown-Seiler

Miss Kay Beth Seiler, daughter of Mr. and Mrs. G. B. K. Seiler of Adkins, and Johnny Brown, son of Mr. and Mrs. Roy Brown, were united in marriage last Saturday in the Church of Christ at Sayers by the minister.

Given in marriage by her father, the bride wore a white floor length dress of lace with a white veil of illusion, and carried a bouquet of white roses atop a white Bible.

Miss Suzette Seiler, sister of the bride, was maid of honor. She and the three bridesmaids were dressed in rainbow colors. Roy Brown Jr., brother of the groom, was best man, and Air Force friends of the groom served as groomsmen. Donna was the flower girl and Ricky was the ring bearer.

A reception followed in the church, and the lovely blue and white wedding cake and punch were served to about 100 guests. The guests were then taken to the Seiler home, where the many wedding gifts received by the couple were on display.

The bride is a 1966 graduate of East Central High School in San Antonio. The groom is a 1963 graduate of Hedley High School and is in the U. S. Air Force, stationed at Dyess Air Force Base, Abilene, where the couple will make their home.

**INDUSTRIAL PROSPECTS**

**... a must in Economic Development**

Obtaining leads on industries that might locate in a community is one of the hardest parts of any sound economic development program. The lack of an industrial prospecting program that produces several leads may cause serious mistakes by a community in financing or other endeavors to attract unsound or unattractive industry. A community needs a well balanced program, combining all the techniques and utilizing all of the sources that will give it increased effectiveness and chances for real success. **LOCAL PEOPLE AS A SOURCE OF INDUSTRIAL PROSPECTS** — usually provide a sound reason or give the community a competitive advantage in attracting the industry.

—**BUSINESSMEN**—should ask the company representatives they buy from if the company needs additional manufacturing facilities to serve this market area, also, service stations, restaurants and motel people can ask their customers.

—**CITIZENS**—who know someone that works for an industry should inquire if that industry might be interested in locating a plant.

—**EXISTING INDUSTRY**—may need a companion industry to supply them with raw materials or services. Expansion of existing industry is sound economic development.

—**LOCAL IDEAS**—can provide leads for the local people to establish an industry of their own or attract a certain type industry.

—**EX-CITIZENS**—should be contacted, advising them and asking their help to obtain leads on any industry that could logically locate in the town.

**CHAMBER OF COMMERCE ACTIVITY** — should utilize such programs as direct mail, asking local citizens to call on industries when they are on a trip — watching all news media for possible leads or indications that a company might expand.

**COOPERATION WITH OTHER AGENCIES** — such as utilities, banks, railroads, regional and state development organizations can provide leads for new industry. Keep all of these organizations fully advised of the local programs, advantages, activities and community interest for attracting new industry for improved economy in your community.

**ANY and ALL** industrial leads should be handled through and by the local group that has been delegated this responsibility, usually the Chamber of Commerce.

**Storm Warning**

Since the tornado season is with us again, it is time to remind everyone of the signals sounded by the fire siren. One blast of the siren indicates a fire, two blasts are to call the department together, and three blasts indicate a storm.

Three blasts do not necessarily indicate that a tornado has been sighted, but they do mean that everyone should watch the clouds and take whatever action seems to be necessary.
