Housing Loans

Applications for insured housing loans are now being accepted from families in all income groups, Donley County Supervisor Claude Moore of the Farmers Home Administration said today.

Until recently funds were available for families with low and moderate incomes.

Mr Moore said home financing for families of above moderate income can be resumed by the agency under a new allocation of lending authority granted by President Johnson. A Presidential order March 17 authorized the agency to insure \$25 million more in housing loans to families of the upper income group between now and June 30.

Action on new applications from persons in the above moderate income group had been at a virtual standstill since November. The agency had taken all applications it could meet under the previous \$25 million allocation of loan authority for the current fiscal year.
