Wheat Loans

For those of you who have a loan on your 1967 or 1968 wheat, you have until April 30 to either redeem the loan, request an extension, or forfeit the grain thus cancelling the loan. Special post card notices have been mailed to all producers with outstanding wheat loans. On the return portion of this card you will be asked to check what you want to do.

Acreage Reports

Remember that May 1 is the final date for reporting your wheat acreage. In making these reports, please consider the following items:

- 1 It is very important that these reports be correct.
- 2 Any acreages determined in the county office using measurements you furnish are not official.

To have an official acreage determination it will be necessary for a representative of the County Committee to visit the farm, make any necessary ground measurements, then return to the county office and determine the acreage.

3 If you have any doubt as to whether or not you can make a correct acreage report, may we urge you to request and pay the cost of official measuring service.
