Somebody cared.

Be somebody.

Hunger hurts children most, in body and mind; kills from diseases a well-nourished child can withstand. When you join CARE's Food Crusade, your help goes to children first, in countries beset by hunger.

Every dollar sends a food package to do a multitude of good. You help feed millions of boys and girls every day at preschool centers and schools, so they can grow into healthy, educated, self-supporting adults. You provide meals at home in food-for-work projects to help parents build community resources. You rescue families in war and disaster areas, and help them rebuild their lives.

With your money, CARE delivers U.S. donations of farm abundance or buys other needed foods. Local governments share operating costs. \$1 can help feed a child for 3 months... \$10 serves lunch to 900 children... \$100 sends over a ton of food. Mail your check.

New Vaccination Laws

Senate Bill 27 amending section 209 of the Texas Education Code, was signed into law by Governor Preston Smith on April 26. This law is now in effect and requires that all children entering Texas elementary or secondary schools or institutions of higher education must have been immunized against six diseases: diphtheria, tetanus, poliomyelitis, measles, rubella, and smallpox. The law states that the State Department of Health shall provide the required immunizations to children in areas where no local provision exists to provide these services.

Senate Bill 971, an amendment to Senate Bill 27, has become law. It enables the State Board of Health to modify or delete any of the six required immunizations, and allows the provisional admittance of students if the required immunizations have been begun and are continued to be received "as rapidly as is medically feasible," and requires the State Department of Health to promulgate rules and regulations relating to the provisional admission of persons to an elementary or secondary school or institution of higher

education."

All students will be allowed to enter their respective school systems during the Summer and Fall 1971 terms, with the provision that their immunizations against at least one of the aforementioned diseases will have been started by January 1, 1972, and all completed as soon as medically feasible.

Storm Warning

Since the tornado season is with us again, it is time to remind everyone of the signals sounded by the fire siren. One blast of the siren indicates a fire, two blasts are to call the department together, and three blasts indicate a storm.

Three blasts do not necessarily indicate that a tornado has been sighted, but they do mean that everyone should watch the clouds and take whatever action seems to be necessary.
