## Leggitt-Hoadley

Miss Vickie Evon Hoadley daughter of Mrs Ruth Hoadley of Clovis and Tom Pat Leggitt, son of Mr. and Mrs Lloyd Leggitt of Hedley, were united in marriage Saturday, Sept 4, in the San Jacinto Church of the Nazarene in Amarillo in the presence of a number of relatives

Rev Dwight Southworth, pastor, performed the ceremony in a setting of tall candelabra, greenery and mums

Given in marriage by her uncle, Bill Spinks of Clovis the bride wore a wedding gown of white crepe, with an empire waistline, and bodice and sleeves of chantilly lace. Her veil of illusion fell from a lace headpiece. She carried a bouquet of gardenias and a white Bible.

Maid of honor was Miss Jackie Hoadley, sister of the bride. She wore a dress of yellow crepe and carried a single yellow mum

Jon Leggitt, brother of the groom, served as best man

Ushers were Rickey Hoadley, brother of the bride, and Billy Moore.

David Rice, organist furnished the nuptial selections

A reception followed in the Fellowship Hall of the church. Jan Smith and Polly Spinks, aunts of the bride, and Joan Shields and Judy Spier, sisters of the groom, served the beautiful three tiered wedding cake, golden punch and coffee. The arrangements were catered by Madison Wedding Service.

**Hedley School States Its Free Lunch Policy**

Superintendent Garlon Freeman has announced that the Hedley schools will again this year provide free, or lunches at a reduced price to children whose families cannot afford to pay the full price. Regular priced school lunches are Elementary 35¢, High School 40¢, school employees 4¢ and visitors \$1.00. He said that forms had been made available showing family size and income eligibility requirements.

In deciding if children are eligible for either a free or reduced price lunch we will also take into consideration any unusual circumstances such as prolonged illness, unexpected expenses due to disaster, seasonal unemployment and similar emergency situations.

All applications will be reviewed by Freeman within three days and parents notified promptly as to the decision. Freeman said that if children were found to be eligible to receive reduced price lunches parents would be notified as to the amount they will be expected to pay.

Any parent who feels that they cannot pay the amount listed, or whose application is rejected may appeal the decision. Freeman said all applications will be handled privately and information will be kept strictly confidential, he said. Children who receive free or reduced lunches will be treated in the same manner as those who pay the full price for the lunches. Ev-

ery possible effort will be made to make sure that no one other than the person reviewing the applications knows which children pay and which ones do not pay for their lunches.

A complete copy of the policy is kept on file in the Superintendent's office at the school.

# There's a future in it for someone.

Your son's education for instance.  
But by the time he's ready for college his education may well cost a small fortune.  
The kind you just don't have lying around under a bed.  
That's just the reason why your government has a great thing going. A U.S. Savings Bond.  
In themselves they're not a quick buck. They won't make you that fortune overnight. But in the long run they do pay off. Darn well at that. And at a guaranteed rate. Starting a savings plan is easy.  
You can join a Payroll Savings Plan where you work. Or get into a Bond-A-Month Plan where you bank.  
Then watch someone's future grow. Like your son's.

## WHY GROWERS NEED BETTER COTTON YIELDS IN 1971...

**Booster net income,  
increase payment yield,  
and preserve markets**

- \* Demand for cotton is strong—domestic and foreign.
- \* Failure to meet demand could jeopardize markets and the farmer's investment in land, equipment, and other production resources.
- \* Higher yields spread overhead cost and reduce cost per pound.
- \* Cutting harvesting losses can mean up to 10 per cent more cotton, or \$15 more per acre.
- \* Better yields in 1971 can increase cotton farmers' yield for payment purposes in 1972 and 1973.
- \* If sufficient cotton can be made available to meet demand, the way would be open to greater markets in the future.
- \* Mill use of cotton depends heavily on its availability and price stability.
- \* Strong demand for cotton corduroys, print cloths, denims, and knits has led some mills to shift to all-cotton. Prospects of a low carryover and uncertainty about supply and price could quickly drive these customers back to blends.
- \* When the supply of cotton falls short, prices become non-competitive and mills turn to other fibers.

**For greater profits and markets,  
harvest all you grow.**
