# Aunt Sarah, I love you.

Remember my 10th birthday, when you gave me that funny piece of green paper and everybody made such a fuss over it. (Except me.) Frankly, it was a pretty disappointing present for a kid. I couldn't eat it, couldn't play with it, couldn't wear it—and Mom took it away from me practically the minute I got it.

And every birthday after that (and Christmas, too), you gave me another one of those Bonds, you called them. I thought you were pretty gooney.

At least, I never had to guess what I was going to get from good old reliable Aunt Sarah.

And what I got was good old reliable U.S. Savings Bonds.

What I didn't realize then was that you gave me a gift of security for the future. Thanks to you and those Bonds, I had extra funds for college. And they helped when I bought my first new car.

Next week, I'm giving my nephew, Harry, his first U.S. Savings Bond. I know the kid is gonna think I'm some kind of nut. But, someday...

Bonds are safe. If lost, stolen, or destroyed, we replace them. When needed, they can be cashed at your bank. Tax may be deferred until redemption. And always remember, Bonds are a proud way to save.

There's  
a future in it  
for   
someone.

Your son's education for instance.

But by the time he's ready for college his education may well cost a small fortune.

The kind you just don't have lying around under a bed.

That's just the reason why your government has a great thing going. A U.S. Savings Bond.

In themselves they're not a quick buck. They won't make you that fortune overnight.

But in the long run they do pay off. Darn well at that. And at a guaranteed rate.

Starting a savings plan is easy.

You can join a Payroll Savings Plan where you work. Or get into a Bond-A-Month Plan where you bank.

Then watch someone's future grow. Like your son's.
