Storm Warning

Since the tornado season is with us again, it is time to re-

mind everyone of the signals sounded by the fire siren. One blast of the siren indicates a fire, two blasts are to call the depart-

ment together, and three blasts indicate a storm.

Three blasts do not necessarily indicate that a tornado has

been sighted, but they do mean that everyone should watch the clouds and take whatever action seems to be necessary.

There's
a future in it
for 
someone.

Your son's education for instance.

But by the time he's ready for college his education may well cost a small fortune.

The kind you just don't have lying around under a bed.

That's just the reason why your government has a great thing going. A U.S. Savings Bond.

In themselves they're not a quick buck. They won't make you that fortune overnight.

But in the long run they do pay off.

Darn well at that. And at a guaranteed rate.

Starting a savings plan is easy.

You can join a Payroll Savings Plan where you work. Or get into a Bond-A-Month Plan where you bank.

Then watch someone's future grow.
