Question:

**Will you have
 enough natural gas
 for your home this winter?**

Answer:

Yes!

Let's lay this question to rest once and for all. Lone Star Gas Company has enough natural gas reserves under contract to adequately supply our residential, commercial and other higher priority customers for many winters.

To be sure we have enough for these consumers, we will make some extensive curtailments of service to our large volume customers during extreme cold weather this winter. In fact, our contracts with large volume customers anticipate the need to curtail up to 100% of their needs during these cold periods. This allows us to assure service to residential, commercial and other higher priority customers.

We're taking major steps to make sure you have gas for the future. New gas we're buying costs more than *four times the price* we paid just a few years ago. This is an astonishing amount of money! But it's the price all of us must pay for a continuing supply of natural gas energy.

This winter, and in the future, natural gas from Lone Star will continue to be your best method of home heating, water heating and cooking... just as it has been for more than 40 years. But we all must remember to help conserve this precious energy fuel.

The program was by the Singing Sweethearts, directed by Mrs. Letha Springer. It was one of their greater performances, and consisted of Gospel songs followed by Christmas carols.

The guests included four ladies and five Lions from Howardwick, including Vernon Berry, president of the club, and Glenn Doty, zone chairman, who was the speaker of the evening.

Fifty-one Lions and guests enjoyed the wonderful dinner and program.
