A house full of ways to save on your gas bill....

There are many ways you could be adding to your gas bill, and not be aware of it. Take a few minutes and: Check:

- Insulation, weather stripping and/or caulking around doors and windows.
- Fireplace damper for tight fit.
- For holes and leaks around window air conditioning units and roof-top ventilators.

- For clean filters regularly.
- Gas appliances periodically for proper adjustments.

Do:

- Close drapes on sunny days and open them on dark ones, when using gas air conditioning. Reverse this process when using gas furnace.

- Leave thermostat at comfortable setting.
- Drain approximately one gallon of water

per month from water heater to prevent mineral

deposits from building up.

- Repair leaky hot water faucets.
- Use lids for pots and pans to reduce need for higher flame.

Don't:

- Run partial loads in dryers, washing machines or dishwashers.
- Block air conditioning vents, or in the case of heating, the hot air vents.
- Cool or heat unused rooms.
- Use higher flame on range than required.
- Pre-heat the oven any longer than necessary.

These tips will not only help you to reduce your gas bill, but help you to conserve our country's energy too.

Over 200,000,000 prescriptions will be filled by Rexall Pharmacists this year—there must be a reason!

As a matter of fact there are several reasons why the nation's Rexall Pharmacies fill this tremendous number of prescriptions.

Rexall Only the stores which bear this sign...the sign of over 10,000 Rexall Drugstores...have the exclusive right to offer drugs developed and perfected in the world-famous Rexall laboratories. In addition, the Rexall Pharmacist carries stocks from the entire pharmaceutical industry. You always receive the finest quality drugs available.

Prescriptions are the lifeblood of every Rexall Drugstore. Each Rexall Pharmacist is painstakingly accurate in making certain you receive exactly what your doctor prescribed. His primary concern is your good health and that of your family.

Most Rexall pharmacists are independent businessmen...owning their own stores. Their pride of ownership and efficient operation is evidence of customer satisfaction. By choosing to identify their stores with the Rexall name they have accepted the Rexall guarantee...every Rexall Brand drug product is guaranteed to satisfy or your money back.

These are a few of the reasons for Rexall's popularity. Take your next prescription to a Rexall Pharmacist...discover the other reasons for yourself.

6 WAYS TO CONSERVE AND SAVE

FOR THE HOMEMAKER

1. Let Nature help you to save on operating costs.
 - (a) Let the sunshine in during winter months to help cut heating costs.
 - (b) Shade your home with trees and shrubs to help cut down on summer cooling costs. Draw draperies against afternoon sun.
2. Be prudent when using appliances. Wash full loads of dishes and laundry, and follow manufacturer's owner-manual for best results.
3. Proper insulation helps secure your home against dirt and noise and defends it against outside heat and cold, offering year round comfort and savings. Insulation can pay for itself in the savings from operating cost in about 1 1/2 years.
4. You purchased fine-home comfort when you bought your air conditioning and heating units. Properly maintained, they offer you years of efficient service. A once-a-year check-up by your dealer pays dividends in savings on operating and break-down costs.
5. For savings on energy, set the thermostat on the temperature setting that provides adequate comfort (the President suggests 68°). Don't continually switch it up and down. Remember, the lower you set the thermostat in the winter the more money you save on energy.
6. Adequate lighting is essential for creating a safe and pleasing environment in every room of your home. Dust and dirt alone cause substantial losses in the amount of light produced. Systematic cleaning is important. Clean lamp bulbs (when they are cool) with a damp cloth. Conserve and save energy by turning lights off in rooms that are not needed.

Are you going to live longer than your money?

Maybe you're having a pretty good life now. Your credit is good, you've got a few nice clothes and a good dependable car. And if you're lucky, maybe you own your own home. But that's because you're working. What happens when you retire? You can't live on memories. It's still going to take money. Lots of money. Money that you should be saving now.

And one of the easiest ways to start putting away a few dollars for those retirement years is by joining the Payroll Savings Plan where you work and buying U.S. Savings Bonds.

That way every time you earn a little money for today, you save a little for tomorrow.

Then when the time finally comes to retire, you'll have something put away to retire to.

Now U.S. Bonds pay 7 1/2% interest when held to maturity of 5 years, 10 percent to 15% the first year. Bonds are insured if lost, stolen, or destroyed. When needed they can be cashed at your bank. Interest is not subject to state or local income taxes, and federal tax may be deferred until redemption.

Take stock in America.
Buy U.S. Savings Bonds.

Bobby Reed and family of Abilene visited in the Dennis Reed home last week end.

Mrs. W P Doherty was taken to the Memphis hospital Saturday.
