**REDDY'S
REFRIGERATOR
SAVINGS TIPS**

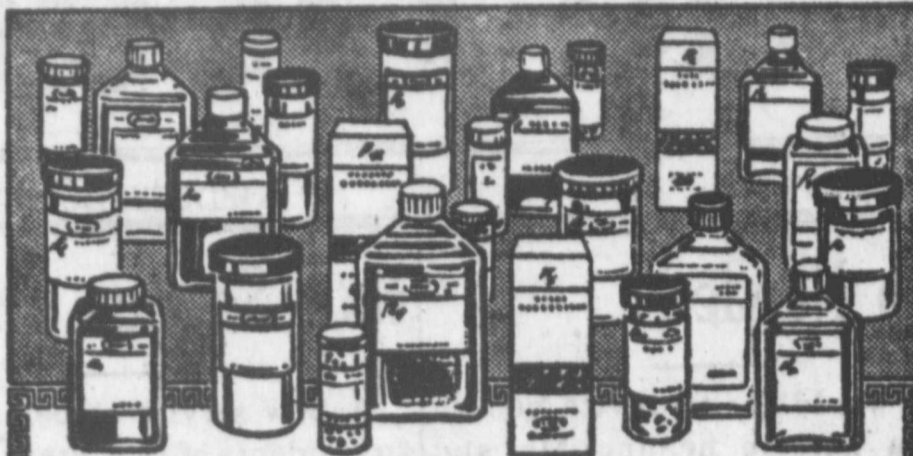

- ★ Don't open refrigerator door unnecessarily. Plan your trips to the refrigerator while cooking. Make sure the children maintain a closed-door policy.
- ★ Buy the size that fits your needs. An over-large refrigerator or freezer wastes space as well as electricity.
- ★ Clean external coils, fins and motor often and keep them free from dust.
- ★ Defrost your refrigerator and freezer before ice deposit exceeds 1/4 inch. Excess ice causes your refrigerator to work harder.

**Over 200,000,000 prescriptions
will be filled by Rexall Pharmacists
this year—there must be a reason!**

As a matter of fact there are several reasons why the nation's Rexall Pharmacies fill this tremendous number of prescriptions.

Only the stores which bear this sign... the sign of over 10,000 Rexall Drugstores... have the exclusive right to offer drugs developed and perfected in the world-famous Rexall laboratories. In addition, the Rexall Pharmacist carries stocks from the entire pharmaceutical industry. You always receive the finest quality drugs available.

Prescriptions are the lifeblood of every Rexall Drugstore. Each Rexall Pharmacist is painstakingly accurate in making certain you receive exactly what your doctor prescribed. His primary concern is your good health and that of your family.

Most Rexall pharmacists are independent businessmen... owning their own stores. Their pride of ownership and efficient operation is evidence of customer satisfaction. By choosing to identify their stores with the Rexall name they have accepted the Rexall guarantee... every Rexall Brand drug product is guaranteed to satisfy or your money back.

These are a few of the reasons for Rexall's popularity. Take your next prescription to a Rexall Pharmacist... discover the other reasons for yourself.

The U. S. Government does not pay for this advertisement. It is presented as a public service in cooperation with The Department of the Treasury and The Advertising Council.

Are you going to live longer than your money?

Maybe you're having a pretty good life now. Your credit is good, you've got a few nice clothes and a good dependable car. And if you're lucky, maybe you own your own home. But that's because you're working. What happens when you retire? You can't live on memories. It's still going to take money. Lots of money. Money that you should be saving now.

And one of the easiest ways to start putting away a few dollars for those retirement years is by joining the Payroll Savings Plan where you work and buying U.S. Savings Bonds.

That way every time you earn a little money for today, you save a little for tomorrow.

Then when the time finally comes to retire, you'll have something put away to retire to.

U.S. Savings Bonds pay 7 1/2% interest when held to maturity of 5 years. If you hold them longer, the interest rate goes up. If you cash them out before maturity, you may lose some interest. For more information, call 1-800-551-8888.
