# There's a future in it for someone.

Your son's education for instance.  
But by the time he's ready for college his education may well cost a small fortune.  
The kind you just don't have lying around under a bed.  
That's just the reason why your government has a great thing going. A U.S. Savings Bond.  
In themselves they're not a quick buck. They won't make you that fortune overnight. But in the long run they do pay off. Darn well at that. And at a guaranteed rate.  
Starting a savings plan is easy.  
You can join a Payroll Savings Plan where you work. Or get into a Bond-A-Month Plan where you bank.  
Then watch someone's future grow. Like your son's.

## Storm Warning

Since the tornado season is with us again, it is time to remind everyone of the signals sounded by the fire siren. One blast of the siren indicates a fire, two blasts are to call the department together, and three blasts indicate a storm.

Three blasts do not necessarily indicate that a tornado has been sighted, but they do mean that everyone should watch the clouds and take whatever action seems to be necessary.
