School Lunch Program

The Hedley Schools today announced its policy for free and reduced lunches for children unable to pay the full price for meals served under the National School Lunch Program.

Children from families whose income meets those indicated on the attached charts are eligible for free meals. In addition, families not meeting these criteria but with other unusual expenses due to unusually high medical expenses, shelter costs in excess of 30% of income, special education expenses due to the mental or physical condition of a child, and disaster casualty losses are urged to apply.

Application forms will be given to students when they enroll in classes. Additional copies are available at the principal's office. The information provided on the application is confidential and will be used only for the purpose of determining eligibility. Applications may be submitted at any time during the year.

In certain cases foster children are also eligible for these benefits. If a family has foster children living with them and wish to apply for free meals you should contact the school.

In the operation of this program no child will be discriminated against because of race, sex, color or national origin.

Under the provisions of the policy, the school will review all applications and determine eligibility.

John E. Blankenship

Word was received late Sunday of the death of John E. Blankenship, 92, of Long Beach, Calif. He was a long time resident of Hedley.

Funeral services and burial were at Long Beach Monday.

Notice

We are accepting renewals to the Informer for only one year at this time, due to an unsettled newspaper situation.

If a parent is dissatisfied with the ruling of the school, they may make a request for a hearing either orally or in writing, to either:

Storm Warning

Since the tornado season is with us again, it is time to remind everyone of the signals sounded by the fire siren. One blast of the siren indicates a fire, two blasts are to call the department together, and three blasts indicate a storm.

Three blasts do not necessarily indicate that a tornado has been sighted, but they do mean that everyone should watch the clouds and take whatever action seems to be necessary.

**Over 200,000,000 prescriptions
will be filled by Rexall Pharmacists
this year—there must be a reason!**

As a matter of fact there are several reasons why the nation's Rexall Pharmacies fill this tremendous number of prescriptions.

Only the stores which bear this sign... the sign of over 10,000 Rexall Drugstores... have the exclusive right to offer drugs developed and perfected in the world-famous Rexall laboratories. In addition, the Rexall Pharmacist carries stocks from the entire pharmaceutical industry. You always receive the finest quality drugs available.

Prescriptions are the lifeblood of every Rexall Drugstore. Each Rexall Pharmacist is painstakingly accurate in making certain you receive exactly what your doctor prescribed. His primary concern is your good health and that of your family.

Most Rexall pharmacists are independent businessmen... owning their own stores. Their pride of ownership and efficient operation is evidence of customer satisfaction. By choosing to identify their stores with the Rexall name they have accepted the Rexall guarantee... every Rexall Brand drug product is guaranteed to satisfy or your money back.

These are a few of the reasons for Rexall's popularity. Take your next prescription to a Rexall Pharmacist... discover the other reasons for yourself.

Reddy's helpful tips for your Home Laundry

PLAN AHEAD

Sort clothes according to type of fabric, color-fastness, degree of soil and garment construction.

You'll save both hot water and electricity by doing similar items together.

Accumulate a full load before running your washer.

BE SELECTIVE

Choose the cycle that is precisely appropriate for the clothes you are washing. Is a "hot" temperature setting really necessary? Except for heavily soiled items, most loads will come clean in either a cold or warm wash. Look into cold wash detergents.

Use the least amount of detergent that will get your clothes clean — most loads require only an ounce or less!

Overloading causes extra strain and wear on your equipment: check the manufacturer's recommendations for load weight.

Balance your load by alternating small and large items.

FOR SAFETY SAKE

Be sure control is "off" before reaching into your washer.

If one is necessary, use only a heavy duty extension cord.

Be sure your washer is grounded.

Keep dry cleaning agents, color remover and Fiberglas out of your washer. It's a good idea not to wash clothes containing cleaning fluids in your washer.
