As a matter of fact there are several reasons why the nation's Rexall Pharmacies fill this tremendous number of prescriptions.

Rexall Only the stores which bear this sign... the sign of over 10,000 Rexall Drugstores... have the exclusive right to offer drugs developed and perfected in the world-famous Rexall laboratories. In addition, the Rexall Pharmacist carries stocks from the entire pharmaceutical industry. You always receive the finest quality drugs available.

Prescriptions are the lifeblood of every Rexall Drugstore. Each Rexall Pharmacist is painstakingly accurate in making certain you receive exactly what your doctor prescribed. His primary concern is your good health and that of your family.

CONSERVE AND SAVE ON ELECTRIC COOKING

- ★ For best results, use flat bottom utensils with tight fitting covers. Utensils of medium or heavy weight aluminum conduct heat faster, transfer heat evenly and respond quickly to temperature changes.
- ★ Match the utensil to the size of the unit. Use 8 inch units for large utensils. Use 6 inch units for small to average sized pans:
- ★ Use high setting for a quick start for any surface cooking, or to boil water quickly. When cooking temperature is reached, switch to a lower setting.
- ★ Do not pre-heat the oven for roasting or broiling, but do pre-heat the oven to the temperature given in the recipe for baking.

Are you going to live longer than your money?

Maybe you're having a pretty good life now. Your credit is good, you've got a few nice clothes and a good dependable car. And if you're lucky, maybe you own your own home. But that's because you're working. What happens when you retire? You can't live on memories. It's still going to take money. Lots of money. Money that you should be saving now.

And one of the easiest ways to start putting away a few dollars for those retirement years is by joining the Payroll Savings Plan where you work and buying U.S. Savings Bonds.

That way every time you earn a little money for today, you save a little for tomorrow.

Then when the time finally comes to retire, you'll have something put away to retire to.

How U.S. Bonds pay 7 1/2% interest when held to maturity of 6 years, 10 months at 1/2% the first year; bonds can be redeemed if held 90 days or longer. When needed they can be cashed at your bank, interest is not subject to state or local income taxes, and federal tax may be deferred until redemption.

They laughed when I bought my first Bond.

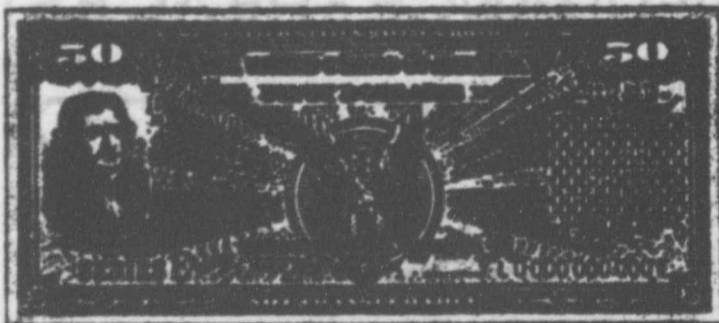

In my neighborhood everyone was poor. Most of us were lucky if we had enough food to eat or clothes to wear. So like most of us, we spent a lot of time talking about the things we wanted. We talked about the things we wanted to buy, but we never had the money to buy them. We all had a dream of one day being rich. We would have all of the nice things. Boy, we could hardly wait to grow up.

Like the other kids I had friends in my neighborhood. In the summer school holidays, we would go to the store to buy things. I started to buy things. I had a job in a big department store. That was the first time I had money. I had heard about U.S. Savings Bonds. My boss asked me if I wanted to buy them. I said yes. I bought my first U.S. Savings Bond. I was so proud. I showed it to my friends. They laughed. They said I was crazy. They said I was wasting my money. They said I was a fool. They said I was a nerd. They said I was a loser. They said I was a weirdo. They said I was a dork. They said I was a geek. They said I was a nerd. They said I was a loser. They said I was a weirdo. They said I was a dork. They said I was a geek.

When my friends found out they laughed and a good laugh. Imagine buying U.S. Savings Bonds when there were so many other cool things to buy. Well, they kept laughing and I kept saving all through high school.

After graduation some of us wanted to go to college. And that's when my Bonds really came in handy. They not only helped pay my tuition, but also helped buy some books.

Well, I'm a senior now and looking forward to graduation. Unfortunately, a lot of my friends never even got started. And to think, they laughed when I bought my first Bond.

Now U.S. Bonds pay 8 1/2% interest when held to maturity of 5 years. 10 months later the bond pays 9%. Bonds are insured by the U.S. Government. When needed they can be cashed. U.S. Savings Bonds are a safe way to save. They are easy to buy and hold. They are a great way to save for the future. They are a great way to save for the future. They are a great way to save for the future.
