Cold Raised Bills, Says WTU

February, 1978, has proved once again that cold weather and high electric bills go hand-in-hand according to a spokesman at West Texas Utilities Co.

After analyzing February weather data, Ray Hart, a WTU space engineer, said both in degree days and in average temperature, we experienced one week of a cold month.

Bills currently being issued by WTU are mostly for electricity used during the extreme cold weather and are producing a flurry of inquiries to WTU local offices.

A very REFINED Gentleman OR how NORBERT RILLIEUX was the original Sugar Daddy.

On August 26, 1842, Norbert Rillieux put a patent on a sweet idea.

It was a way to refine sugar. To help the sugarcane juices evaporate more quickly, he enclosed condensation coils in a vacuum chamber. A process that's made things a lot sweeter ever since.

You can make your future a little sweeter, too, by buying U.S. Savings Bonds through your Payroll Savings Plan.

They're the dependable way to save for an education, vacation, or even retirement. Because they always pay off with interest.

So buy U.S. Savings Bonds.

And be a "sugar daddy" in your spare time.

Series E Bonds pay 6% interest when held to maturity of 5 years (4 1/2% the first year). Interest is not subject to state or local income taxes, and federal tax may be deferred until redemption.
